BELLEVILLE, ONTARIO, TUESDAY FEBRUARY 1, 1938

INCREASE BRITISH FLEET IN MEDITERRANEAN

Torpedo Sinking Ship Fired by Italian Sub, Spanish Gov't Charges

Act of 'Piracy' Killing 11 Condemned by First Lord of Admiralty

4 DESTROYERS HUNT

Orders to Drop Depth Charge if Offending Submarine Resists

London, Feb. 1.—(CP)—The government has decided upon an immediate increase of naval strength in the Mediterranean, Alfred Duff Cooper, First Lord of the Admiralty, told the House of Commons today shortly after the Spanish Embassy here charged an Italian submarine was responsible for torpedoing the British steamship Andymion.

Returning to the attack on the Merchantman yesterday which cost the lives of 11 persons, including three Britons and a Swedish neutral intervention observer, the First Lord of the Admiralty declared:

Act of 'Piracy'

"I think the whole House will join with me in condemning this act of piracy."

In addition to charging an Italian submarine was responsible for the pirating attack, the Spanish government alleged Italy had assigned four destroyers and two submarines to the Spanish insurgent fleet.

Before Mr. Duff Cooper made his statement in the Commons it was announced the Admiralty had dispatched four destroyers armed with depth charges to the Mediterranean area where the coal-laden freighter was torpedoed.

Later four others left Gibraltar, steaming eastward. They were the Faulknor, Fearless, Foresight and Foxhound.

Mr. Duff Copper, amplifying his statement, said the Endymion was off the course recommended by the Nyon anti-piracy naval authorities and carried no wireless.

Accuses Italy in Note

Pablo De Azcarate Y Flores, Spanish Ambassador here, accused Italy in a note handed to the Foreign office.

The Spanish governments, he declared in another communique, is "amazed" that "foreign intervention in Spain is permitted to such an extent as to allow the rebels to receive whole, important units of a foreign fleet."

Azcarate Y Flores denied the insurgents have submarines of their own and declared "it must be clear to the whole world" that the Endymion's attacker was Italian.

To Drop Depth Charges

The destroyers, each of 1,375 tons, were under orders to drop depth charges if the attacking submarine were sighted and attempted to resist capture.

The Nyon accord against "piracy" signed last Sept. 14, established that any such submarines be "counter attacked and if possible destroyed."

Roosevelt's Birthday

Taken on January 30, this photo shows President Roosevelt on the eve of his 56th birthday. Throughout the United States the President was celebrated at balls, the proceeds of which will be used in the fight against infantile paralysis, the president's favorite charity. The National Foundation for Infantile Paralysis at Warm Springs, Ga., will be the chief beneficiary.

Why the Weather?

By Major A. H. Thiessen
Science Service Meteorologist

Ice jams and weather! Fire and water cause tremendous losses every years. Frozen water too must be placed high among those destructive agents. Ice jams are usually associated with thawing weather; but when freezing weather occurs accompanied by high wind (in the right direction) vast masses of ice are broken up and torn from their moorings in our lakes and rivers. These miniature icebergs sweep down rivers with awful power; and wherever there is a barrier they begin to pile-up forming ice jams. As more ice is piled up, rising waters follows these ice jams become higher and higher, often freezing fast to bridges and other structures. Finally the crushing and tearing forces become so immense that the jam gives way, carrying everything with it.

THE WEATHER

Toronto, Feb. 1.—(CP)—Synopsis An area of high pressure of wide extent is centred over the Great Lakes. Pressure is also high over the northwest portion of the continent and relatively low over the western half of the United States. The weather has been fair and decidedly cold in Saskatchewan and Manitoba, also in the northern districts of Ontario and Quebec. Rain and snow has occurred in the Maritime Provinces.

Lake Superior: Fair and decidedly cold. Wednesday, moderate to partly cloudy with moderate temperature.

Manitoba—Cloudy and not quite so cold tonight and Wednesday.

Saskatchewan and Alberta: Partly cloudy today and Wednesday with some light snow; not much change in temperature.

WARNS CANADA TO BE ON GUARD TO DEFEND SELF

Tomfoolery to Wait For Parliament in Time of Possible War

SAYS PADRE SCOTT

Many Dolts in Canada Fail to See Canada's Responsibility

Woodstock, Ont., Feb. 1—(CP)—"Absolute tomfoolery," said Ven. Archdeacon F. G. Scott, of Quebec regarding the proposition that parliament should be called together before Canada should be allowed to go to war.

"If war should come"—he said, "wherever the Union Jack flies there's a target for enemy shells," Archdeacon Scott, senior warden of the 1st Canadian Division, last night addressed a meeting sponsored by the Woodstock Canadian Legion. He devoted his address to warning that Canada must be prepared for joint simultaneous attack and invasion by Japan from the west and Germany from the east.

Little Warning of War

"I don't think war, as one who was there does but I don't want to see behind being forced to this in the streets of Vancouver," he said. From the Atlantic side, he said, aeroplanes using the northern route could come within 300 miles of Ottawa before any warning would be given, and could reach that point within four days of the declaration of an European war.

Provincialism and sectionalism, he said, are the current dangers which make Canada disunited and weak in the face of possible invasion.

"Strong Ottawa Needed

"Canada is between the west and Germany on the east," he said, "in reference to possible attack on Canada, we have a lot of dolts, too blind to see the responsibility that it laid upon us the responsibility to keep ourselves free, not under Tokyo, not under Berlin, not under Rome, but under Ottawa, a strong Ottawa, not weakened by provincial bickerings."

APPEAL DENIED BY JUDGE McLEAN

Thomas Loomes Will Have to Serve Two Months in Jail

An appeal to set aside a conviction registered in Belleville Police Court against Thomas Loomes, of this city, by Magistrate J. Butler Ponton was yesterday denied in County Court by His Honor Judge F. H. Guss, in the County Court House.

Loomes appealed a conviction registered against him in police court when he was found guilty on December 27 last with selling liquor for sale.

After reviewing the evidence submitted His Honor denied the appeal and upheld the decision of Magistrate Ponton.

"I sustain the conviction within the evidence," said His Honor. Mr. MacLean remarked after reviewing the case.

At the time of his trial Loomes was sentenced to serve two months in the common jail.

More Capital Exported Than Imported to Canada in 1937

Credit From Sale of Gold Hit an All-Time High

TOURIST TRADE SECOND

Ottawa, Feb. 1.—(CP)—The Dominion Bureau of Statistics today issued one of the most impressive results of Canada's financial transactions in 1937 was the continued export of more capital from Canada than was imported."

The Bureau, reporting on the amount of British and foreign capital invested in this country and the amount of Canadian capital invested abroad, said that in transactions of the current account which summarizes international trade in merchandise, gold and services Canada had net credits of $217,000,000, of which the principal source was commodity trade providing credits of $212,000,000 despite reduction in gold exports.

It placed secondary international tourist trade, estimated to have given Canada a net credit of $176,000,000 out of total foreign tourist expenditure of $290,000,000.

Credits from sale of gold abroad reached an all-time high of $145,000,000, accounting for earmarked as well as exported gold.

Offsetting factors were interest and dividend payments outside the country amounting to $347,000,000. Freight services, immigration remittances, motion picture remittances and other services provided for Canada in other countries cost net payments of $63,000,000.

When the full accounting was made, however, the Bureau said there remained credits in Canada of $217,000,000 "available for export of capital."

Struggle within Nazis to Control Policy, Rumored

VETERANS SPLIT ON CORPS REUNION PLAN

BRIG.-GEN. KOSS

CAPT. REV. S. LAMBERT

Indicating possible friction between two of Canada's leading war veterans' organizations, the Canadian Legion in session at Fort William, Ont., declined to approve co-operation in its promotion of a corps re-union in Toronto during August of this year, Brig.-Gen. Alex Ross heads the Legion and Capt. the Rev. Sidney Lambert the Canadian Corps Association.

Canada's Agreement With Japan on Immigration Should Cease — Bennett

Conservative Leader Claims it of Little Value in View of Japan's Violation of the Briand-Kellog Pact by Attacks on China—Claims Electoral Corruption is Rampant and That Levies Are Made on Contractors —Willing to Give Details to Committee of Commons

Ottawa, Feb. 1.—(CP)—While deploring the troubled condition prevailing among the nations of the world, particularly hostilities in China, Canadian political leaders should guard their words lest any provocative utterance and fuel to the flames or endanger Canada's neutrality, Prime Minister Mackenzie King told the House of Commons last night.

Other nations, more powerful than Canada, were concerned with world conditions. The British government was observing great restraint and he hoped members of parliament during the present session would say nothing which would make the task of those seeking to preserve the peace of the world more difficult, the Prime Minister said.

The Prime Minister followed Conservative Leader Bennett in the debate on the Speech from the Throne and answered Mr. Bennett's attack on the government's external and domestic policies point by point. The debate was adjourned by John Blackmore, Social Credit leader, who is scheduled to speak today.

Agreement of Little Value

Mr. Bennett had suggested the gentleman's agreement between Canada and Japan governing Japanese immigration to this country was of little value in the view of Japan's violation of the Briand-Kellog Pact by attacks on China.

He said it should be terminated at the early date lest it lead complications.

Criticism by Mr. Bennett of statements made by Hon. Randolph Bruce, Canadian Minister to Japan, drew from Mr. Mackenzie King a measure of agreement. He said Mr. Bruce had merely sought to set out what was in the minds of the Japanese but he thought even that might have been unwise.

Mr. Bruce, however had rendered good service as Minister to Japan because of his wide knowledge of Pacific affairs, Mr. Mackenzie King said. He had, however, expressed a wish to be relieved of his post because of ill health and this would be done as he had agreed to accept the post only on the understanding it would be for a year or two.

Debate Launched

The speeches of the two leaders

FRAME DWELLING BURNED AT BURRS

Mr. And Mrs. Robert Bowers Sustain Loss by Fire Early Today

Burrs, February 1.—(Special)—Robert Bowers' two storey frame dwelling in this place was destroyed by fire which broke out about 6 o'clock this morning. Mr. and Mrs. Bowers was aroused by the signs of smoke coming from the attic and on investigation found the flames had made such headway that there was little opportunity to remove much of the contents. He hurried to a neighbor's and gave the telephone alarm and returned to do what he could in saving furniture.

Mrs. Bowers and he managed to save a little bedding and some furniture from the downstairs. When the neighbors arrived they were unable to render much aid, the flames having by this time spread so rapidly that there was little time for saving the contents of the rooms downstairs.

The residence along with a woodhouse attached to it containing thirteen cords of wood was totally destroyed.

The insurance on the building was not large and not sufficient to cover the loss. No estimate of loss was available today.

The building was formerly owned by Mr. Ralph Doolittle.

Two years ago on February 4th Mr. and Mrs. Bowers were burned out when the Frank Bush house was destroyed, the Bowers at that time living in a part of the Burkitt house.

CHEATS GALLOWS, DIES IN PRISON

Kenneth Brown of Milton, Vt. Had Wasted to 67 Pounds

Montreal, Feb. 1—(CP)—Kenneth Brown of Milton, Vt., escaped the gallows through death today. The former convict, sentenced to be hanged July 2 for murder of Willis E. Baldwin at Baldwin's Mills, Que. April 18, 1935, died of tuberculosis today in the infirmary at Montreal jail. Execution had been stayed four times.

Brown, Liberal member of parliament for Stanstead, Baldwin was found battered to death in his general store and left with mortal wounds. Brown was arrested and brought back from Vermont, being convicted of murder mainly through testimony of Mrs. Baldwin. Sherbrooke, Que., accomplice who drew a 25-year sentence on a reduced charge of manslaughter for his part in the robbery plot.

The 29-year-old prisoner had wasted away to 67 pounds and was unable to leave his bed.

STUDENTS DISLIKE WALTZES

Washington Feb. 1—(AP)—Students at Roosevelt High School like their music hot.

When the orchestra at a school dance limited its selections last night to stately waltzes—by faculty orders—200 guests sat down on the dance floor.

Fifteen minutes later the chaperons capitulated, and a lively swing tune ended the "strike."

C.D. HOWE DEFENDS EMPLOYMENT OF FIVE AMERICANS

States No Canadians Experienced Enough to Act as Airline Executives

ONLY TEMPORARY

Men Will be Here For Not More Than Two Years

Ottawa, Feb. 1.—(CP)—Transport Minister Howe in an address at the Canadian Flying Clubs Association annual dinner last night defended employment of five American citizens in key positions in the transcontinental airway project.

Mr. Howe said the anticipated criticism in the House of Commons that five American executives were employed in preference to Canadians "is made so palpably to get a political issue that I am going to have to say that in the House and I'm trying it out on you." I regret it sounds silly.

The Department of Transport had been criticized because it went to the United States for air line executives, said the Minister. I think it is fortunate that I think it particularly necessary to defend myself.

When he began to look for a general manager, he was told on all sides D. R. MacLaren, a Canadian, had studied to fit himself for the job. He was interviewed by Mr. Howe and officers of the Transport Department and "nobody else."

"I said to him: 'You and I are going to be fired if the service is not a success and a plane crashes. You're responsible for your place and I'm responsible for you.'"

Wanted Best Man Available

The Minister said before making his decision he did some "prowling around" in the United States. He was anxious to get the best man for the job. Everywhere he was told Philip Johnson was the man but "he wasn't available". Johnson was comfortably fixed.

But Johnson was found to be available in Mediterranean and should Germany risk an attack with the hope that it will not lead to war?" I went in this morning," Mr. Howe said, "and he was standing on her head."

"There are no men below zero outdoors and Dr. Dafoe intends keeping the Quints in bed all week.

"Those are the instructions that they won't be allowed outdoors till the last signs of the cold have disappeared."

Farouk Opens Conference 62 Countries are Represented

International Radio Telephone And Telegraph Problems on Agenda

CANADIANS ATTEND

Cairo, Egypt, Feb. 1.—(CP)—King Farouk today opened the world conference on international radio, telephone and telegraph communications. Delegates of 62 countries, including Canada, were present to hear the King's brief inaugural speech.

The conference may last for several months and is to revise radio, telegraph and telephone regulations fixed by the Madrid international convention of 1932.

Principal problem is radio wavelength. Great Britain is ready to press that more space in the air be allotted for the broadcasting of nautical and marine directional beacons.

Canada is represented by Laurent Beaudry of the Department of External Affairs; W. A. Rush, O. C. W. Browne and J. A. Holmes of the Radio Branch, Department of Transport; Colonel P. Earnshaw of the Signals Branch, Department of National Defence; Adjutant-General of the Canadian Broadcasting Corporation, and J. P. Hickey of the Canadian Marconi Company.

'Reasonable' Circles Reported as Opposing Embroilments Abroad

Reports Current in Paris of Army Coup in Berlin Last Night

SHAKE-UP IN ARMY?

Is 'German Hour' Near is Question Asked by Madame Tabouis

Paris, Feb. 1—(CP-Havas)—Report of a struggle within the Nazi government to control German policy were printed in the French press today.

Pertinax, foreign editor of the Paris Echo (Rightist), said Chancellor Hitler was trying to find "compensation abroad for all the sacrifices the German people have endured at home." He said conditions had reached the "danger point" and that "reasonable" circles were resisting Hitler's tendencies to "embroil themselves abroad."

Genevieve Tabouis, writing in Oeuvre (Radical-Socialist), described "extreme tension" in Berlin, and reports were current of an army "coup" against the government had taken place last night. The nature of the "coup" was not explained.

The writer mentioned reports that General Hermann Goering, head of the four-year self-sufficiency plan, Dr. Hjalmar Schacht, Bloomberg and important industrial leaders were opposing European entanglements allegedly urged by Premier Mussolini of Italy and supported by the Propaganda Minister Paul Goebbels. Heinrich Himmler, chief of the German police, Joachim Von Ribbentrop, German Ambassador at London, and others.

The big question for Germany is to determine if its hour really has arrived—as Mussolini is trying to persuade it—and if it should back Italy in Spain right away and in central Europe later," Mme. Tabouis wrote, "in the spring—while Italy attacks Great Britain in Hong Kong and while Italy attacks Spain in the Mediterranean—should Germany risk an attack with the hope that it will not lead to war?"

A Berlin broadcast by Hitler (Conservative) said a shakeup of the German high command was imminent, with General Goering becoming commander-in-chief.

QUINTS ARE ABED ALL WITH COLDS

Dr. Dafoe Says He Feels Sorry For The Nurses

Callander, Ont., Feb. 1.—(CP)—The records of Dafoe nursery are clear enough—the Quints are abed with common colds.

The fact Dr. Allan Roy Dafoe said today, his Dionne charges are having a high old time using their new playgrounds.

"I feel sorry for the nurses", he said this morning. Yvonne was standing on her head."

The mercury below zero outdoors and Dr. Dafoe intends keeping the Quints in bed all week.

"There are no instructions that they won't be allowed outdoors till the last signs of the cold have disappeared."

NEWS BRIEFS AND ODDITIES

MANY MEN WANT WORK ON NEW FALL'S BRIDGE

Niagara Falls, Ont., Feb. 1 — (CP)—So many men have applied at the Government Employment Office here for work on construction on the new bridge to be built across the Niagara Gorge, about 500 registered last Friday and Saturday for work on the project today.

DOG RECOVERING AFTER FALL OFF HIGH BRIDGE

Chatham, Ont., Feb. 1 (CP)— Mr. and Mrs. John Rudolph's pup Trixie had a bad time but was recovering today. Trixie was playing on the Third Street bridge over the Thames River with some children and was believed to have slipped on the ice. The dog fell from the centre span to the ice on the river, suffering severe strains and bruises of the back legs.

ANOTHER HOLLYWOOD COUPLE SEEK A DIVORCE

Los Angeles, Feb. 1 (AP)— One of Hollywood's most outstanding marriages, that of Walter Wanger, film producer, and the former Justine Johnstone, was in the divorce courts today.

Mrs. Wanger, former screen actress, filed suit yesterday, charging extreme cruelty and that Wanger told her he no longer loved her. They separated Jan. 18.

OBJECTS TO GRANTS FOR DOG CONVENTIONS

Toronto, Feb. 3 (CP)— The Canadian Kennel Club convention will get a $100 grant despite the protest of Alderman William Croft against Toronto taxpayers footing the bill. Council passed the grant over Croft's objection.

"I can approve this item, you will immediately get requests for grants from the Canada Greyhounds, Wolfhounds, Pekinese, Terrier Section, and canary conventions. Where on earth is this grant business going to end."

50% CANCER FATALITIES CURABLE

Toronto, Feb. 1 (CP)—At least half of the 150,000 people who die of cancer annually in the United States and the 11,000 to 15,000 who die in Canada, could be cured, Dr. C. C. Little, managing director of the American Society for the control of cancer, with headquarters in New York, told an audience here at a luncheon of the Health League of Canada here last night.

He appealed to the laity to enlist in the battle against the disease.

1500 AMATEUR RADIO OPERATORS IN CANADA

Ottawa, Feb. 1 (CP)—Samuel Ellis, Superintendent of Radio Inspector, disclosed yesterday there are more than 1,500 licensed amateur radio operators in Canada, with 1,000 in the United States. In 1915, he said, there were only about 15 in the Dominion.

Coming Events

THE ROMANTIC TRIUMPH "Conquest," produced at $1,000,000 in four weeks at the Empire theatre, London, England, opens Sunday night or Wednesday on the Belle screen. f1-1t

KIWANIS ST. VALENTINES party and ball, Johnstone's Academy, Feb. 14th. Invitations out next week. Extra tickets may be had from any Kiwanian. Reservations to Box 211 II e

BELLEVILLE LECTURE AND Study Club. Study group meeting cancelled for this week. Regular meeting Wednesday evening, Feb. 9. f1-1t

RESERVE PRIZING EVENING, Belleville Bowling Club, St. Michael's Auditorium. Best dance floor in Belleville. Dan Fairman's eight piece orchestra featuring Ab Adams on the piano and accordion. f1-1t

DANCE JOHNSTONE'S BALLroom every Wednesday and Saturday night. You'll enjoy a perfect dance floor. The best dance band in town. Tommie Maiden and his orchestra. f1-1t

City and District News

ANNUAL MEETING MERCHANTS' ASSOC.

Business men, members of the Belleville Retail Merchants Association, meet tonight at the annual meeting at the Y. M. C. A. at eight o'clock. Officers will be elected and other business of importance transacted.

"NO DOG OF HER OWN"

An Albert street resident believes that her street has more dogs per residence than any other residential avenue in the city.

Glancing out her kitchen window to learn the cause of some disturbance yesterday afternoon she counted fourteen dogs of assorted breeds and sizes holding council in her backgarden.

Their high-pitched quarrelling at times renders her "fairly desperate" she reports. And though her family has no dog of its own, all the other animals of the neighborhood flock regularly to her yard during the afternoons for their recreation, she adds.

Y.T.P. APPLICANTS MECHANICALLY MINDED

A distinct trend towards things mechanical on the part of the present generation is seen in the fact that the greater majority of applicants for apprenticeships under the Dominion-Provincial Youths Training Project are those within which operators of garages, diesel engine-equipped plants and airplane factories.

Applications for position with farmers, carpenters and the general trades are greatly in the minority according to statistics released today by officials of the local employment service office.

VISITS CITY

George L. Perwick, Provincial Inspector in the Factory Branch of the Department of Labor, was in the city today with regard to matters arising in connection with the Minimum Wage Act.

PRICES UNCHANGED

Eggs were quoted at 29 cents per dozen by the few vendors at the city market today. Only a light offering of staple fruits and vegetables was available with prices showing little change over those of the week-end.

2ND NAME OF SPEAKER STUMPS EX-PUPILS

An amusing incident occurred at the regular meeting of the Belleville Kinsmen Club last night prior to the address given by Mr. F. C. MacLaurin. Following the request of President Cleo Codling for all ex-pupils of the collegiate in the audience members rose to their feet.

"You will all agree," said Mr. MacLaurin various names at times," the president smiled, "now every one standing who cannot tell me Mr. MacLaurin's second name, will pay the usual fine."

Twelve nickles dropped into the box presented by Sergeant-at-Arms Elmer Lake.

MANY REQUESTS BY CITIZENS FOR SAND

The city's allspecient condition yesterday when a number of calls were coated with films of sheet ice, resulted in the greatest number of calls being received at the office of the Department of Public Works for sand. A total of eighty requests for the sand supplied free of charge by the department were received. Sixty of these calls were answered. Residents in the town were asked to make such requests via telephone early enough in the day to have all orders filled.

LOCAL C.N.R. AGENT SENT TO COLDWATER

Agent for the Canadian National Railways at the town of Coldwater for the past 36 years, C. Prior, this week has been retired on pension. W. F. Heela, C.N.R agent at Wanbasha has been appointed to fill the vacancy, and F. J. Bradley, 200 George street, Belleville, has been elected acting agent at Coldwater until the transfer is effected.

WORKMEN CUT DOWN OLD SILVER BIRCH

Long a landmark of the neighborhood, a large and stately silver birch tree which for an estimated fifty or sixty years has coupled the corner of 95 East Dundas street, fell yesterday under the saws of workmen. Decayed at the root, the tree had become weakened and dangerous, requiring its removal. Workmen who cut the tree reported the mystery of the upper section of the trunk literally spotted with old spikes and staples.

KITTEN HAS EXTRA SET OF CLAWS

Picked up by one of the company's drivers recently "Nigger", coal black kitten, latest addition to the local trucking firm of Howard LaPalm, is being washed carefully in the development as expected mouse catcher extraordinary.

"Nigger" is particularly well fitted for the work of mouser. Nature has endowed him with a full complement of nails being received at the office of the Department of Public Works for sand. A total of eighty requests for the sand supplied free of charge by the department were received. Sixty of these calls were answered. Residents in the town were asked to make such requests via telephone early enough in the day to have all orders filled.

Picked up by one of the company's drivers recently "Nigger", coal black kitten, latest addition to the local trucking firm of Howard LaPalm, is being washed carefully in the development as expected mouse catcher extraordinary.

"Nigger" is particularly well fitted for the work of mouser. Nature has endowed him with a full complement of extra set of claws on both front paws, resulting in a total spread of seven claws with which to grasp his prey.

WANT INFORMATION ON ARTHUR I. FOSTER

Information as to the whereabouts of Arthur Ivan Foster, one-time resident of Belleville is sought by the city clerk. According to records, insurance was taken out some ago by the sought-for man who was born in Toronto in 1899 and was a student in Belleville schools. At the time of the insurance application he named Rev. W. H. Corbett and John Wilson both of this city as references. Information regarding Mr. Foster will be appreciated by the office of the city clerk.

4 MEMBERS R.C.M.P. TO TAKE COURSE IN AERONAUTICS

Scarlet-coated and fur-hatted, with silver wings gleaming on scarlet tunics, four members of the Montreal detachment of the Royal Canadian Mounted Police Air Patrol arrived in the city last night en-route to the Trenton base of the Royal Canadian Air Force.

The police-airmen will remain at the air-station for two months when they will undergo ten months of intensive training in subjects peculiarly to aeronautics.

NAPANEE RESIDENT FRACTURES HIP

One of the oldest residents of the town of Napanee, Joseph Madden, aged 96, suffered a fractured left hip in a fall at his home this week. The aged resident is reported "improving nicely" by Dr. J. F. Sparks, attending him in Kingston hospital.

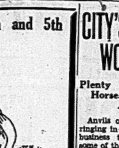
LITERATURE OF WORLD DISCUSSED

George Stewart, Formerly of O.S.D. Speaker at Y's Meeting

Contending there were too many talks on practical subjects heard at service clubs this day and age, Mr. George Stewart, who for the past forty-one years has been associated with the Ontario School for the Deaf, spoke to the members of the Belleville Y's Men's Club on the interesting topic of "Literature of the world" last evening.



"If firmly believe," he said, "audiences are prone to lean towards the practical side of life, neglecting cultural subjects, which tend to cultivated in all phases of life," stated Mr. Stewart in handling his subject. Taking excerpts from the works of great poets and novelists, Mr. Stewart delighted numerous characters portrayed by the early Greek writers. Victor Hugo, Shakespeare, Dickens and down through history to the more modern writers of today.

"The early Greeks, who were described as the fathers and founders of our writers, taught us the fundamentals of all literature. In Homer's tales you find an example of manhood that the youth of today could well copy to learn the attributes of 'determination'. Then to Dickens we owe the presence of our modern Christmas spirit," added the speaker as he concluded by adding that Longfellow's "Psalm of Life" that he should be exemplified in "service to mankind."

The speaker was intrduced by Y's Men Harold Vaughan and extended the thanks of the club by President Lorne McDougall.

During the evening other club chairmanships were announced. Y's Man Tommy Thomas was appointed as a co-Chairman of World Outlook. Bob Pringle as Chairman of Boys' Work and Lloyd Arthur as Chairman of the Y's Men's Annual St. Patrick's Day Ball to be held on Mar. 17.

Anglers Pass Resolution Opposing Licence on Rods

Eastern Ontario Group States Gov't. Gets $300,000 From Non Canadians

MEET AT KINGSTON

Circumstances which turned back to the Department of Game and Fisheries nearly $300,000.00 the last fiscal year prompted the Eastern Ontario Fish and Game Protective Association which convened in Kingston on Saturday to pass a resolution strongly opposing the placing of the rod licence on Canadian anglers.

American guides brought here during the summer months by tourists was also the basis of a resolution that authorized Mr. G. S. Tower, official of the association to take up the matter with the International Joint Commission of Fisheries. It was stated by Mr. A. C. Neish, Queen's University that the rank and file of Americans were in sympathy with anything done by way of conservation because they had to wish to see licences imposed wherein they had been almost depleted of game fish in many places.

Winter fishing in the back lakes was criticized at the meeting. It was felt that more laws are needed out during this season than during the entire summer angling. Since it was against the law to fish for bass in winter the same restrictions should be placed on trout fishing.

Dr. Neish advocated more severe punishment for poachers. "We should all follow Jack Miner a little more," he said as he presented a framed picture of the famous naturalist to the association.

Too Many Nets Used

Growing scarcity of game fish in the Rideau Lakes cause in for considerable discussion. Too many bullheads and eels were being taken out of the water, it was stated. "There were probably 97 nets between Washburn and Upper's Mills". Mr. Toner stated, and if you think they are taking out just bullheads and eels, you are much taken".

Silting of many of the lakes is responsible for the present abundance of bullheads and coarse fish and the scarcity of game fish as well, later usually lurk in clear deep water, it was pointed out.

The government will be asked to make a survey of several of the northern lakes to ascertain the quantity of ling in the waters and if the game fish were being seriously depleted.

Nine associations were represented at the meeting.

Police Blotter

A sixteen-year-old Thurlow youth was arrested by local police yesterday on a warrant issued charging the lad with the theft of a pair of boots and skates. It was alleged the lad rented the skates at the Belleville Arena and failed to return them after being afforded their use. The skates were recovered at the boy's home, police announced. The matter will be more thoroughly aired in police court.

Two motor cars were badly damaged at the Bridge-James street intersection early today when cars driven by Clifford Hutton, Smith's Falls, and W. Nickolas, Picton, collided.

Nickolas was making a left hand turn onto Bridge street after emerging one of James street while Hutton was proceeding westerly on Bridge street. Nickolas informed P. C. Taylor who investigated that he had stopped at the designated stop sign. The rear of Mr. Hutton's car was badly damaged, while the front bumper of Mr. Nickolas' car and steering apparatus were affected during the impact.

Only slight transients sought sleeping quarters at the police station last night.

MISSION ELECTS 1938 OFFICIALS

Herchimer Ave. Congregation Hold Enthusiastic Meeting

Featured by an address by the Rev. A. E. Pepper in which he expressed his appreciation of the efforts of members of the congregation, the wardens and especially those of the Rev. A. L. Geen whose unselfishness in giving his time and energy to make the year just past such a successful one, was a great contributing factor, the vestry meeting of St. John's Mission, Herchimer Avenue, held last night, marked by the presence of an enthusiastic gathering of members and supporters.

Following the reading of the yearly reports of the Mission Wardens, the Sunday School and the Women's Guild the following officers for the coming year took place. Those elected were: Rector's Warden; G. K. Manore; People's Warden, Percy Burnett; Sidesmen, Messrs. E. Little, N. Gerow, G. Gregory, and L. Fraser; lay delegate to the Synod, Percy Burnett; Executive Committee, Rev. Mr. Pepper, and Messrs. Manore, P. Burnett, E. Ortmann, A. McGowan, A. Little, Miss Beatrice Jones, Mrs. W. Redner, Mrs. I. Corby, Mrs. Grimson and Miss A. Weldon; Vestry Clerk, A. McGowan; Auditors, Messrs McGowan and Grimson; caretaker, Olive Gregory; organist, Miss J. Redner.

Prior to the refreshments and social that concluded the meeting, a brief address was made by Miss Beatrice Jones in which she expressed appreciation of the efforts made by the congregation and mission officials during the year just past and appealed for the same unselfish service in the year to come.

CITY'S SMITHIES WORKING HARD

Plenty of Work Shoeing Horses, When Streets Are Slippery

Anvils of the city's smithies are ringing in a rising tide of increased business this year, registered by some of the veterans who appointed members of the craft as one of the most successful winters in volume of business within recent years.

Though garages and service stations that sprung a "cowl" season, at present in the city's blacksmith shops the job of shoeing and caulking the shoes of the delivery horses goes on space, strengthened this winter by the more than usual quantities of ice and snow covering streets and roads. The horse is far from extinct in Belleville, it is shown by the amount of business being carried on in the busy blacksmith shops.

Genuine of the shops is the city shows that only about three regular shoeing smiths are left in the dozens who once employed in the trade. The shops of F. Adams, Harry Brown, and Mr. Whittam still find plenty to do when winter comes and the ice is glazed. Milk, bread and other delivery horses lead the list in numbers for shoeing, heavier draught animals from the stables of fuel dealers come second, while the hard working farm horses also add to the number which patronize the local shops.

"The old days are gone, yet," reports Mr. Harry Brown from his lower Front street shop, "this winter has been a pretty fair one for business in the shoeing and we've kept pretty busy. As long as there are horses there will also be a blacksmith shop, but as we it doesn't seem as if all the horses have disappeared."

Obituary

LATE DR. S. R. McCREARY

The funeral of Dr. S. R. McCreary took place from the late residence, 126 Bridge street east, Monday afternoon, to Cannifton cemetery. The Rev. W. J. Walker, Minister of St. Andrew's Presbyterian Church, assisted by the Rev. Dr. James Semple, pastor of Bridge Street United Church.

The bearers were Mr. H. J. Clarke, Mr. William Bowen, Mr. J. W. Brown, Mr. B. C. Donnah, K.C., Mr. H. O. Trudale and Mr. H. Moorehouse.

VICTOR FERGUSON
Trenton.

Trenton, Feb. 1 (Special)—Shortly after four o'clock this afternoon he had met with an accident Victor Ferguson of Trenton was killed instantly while working at the R.C.A.F. Station yesterday afternoon. Dr. J. W. Bell, coroner for the district, held an examination said an inquest was unnecessary.

Victor Ferguson and his son Kenneth were employed at constructing the same number of buildings at the present Air Base grounds. It was reported that the lad had slipped and fell and sustained minor injuries to his head. Before the news of the mishap was told to his father the working nearby he dropped dead. He was Mr. Ferguson, aged 54, a fifty-seventh year. He was a well-known resident of Trenton as well as a member of Grace United Church. He is survived by his wife who resides on Bay street, two daughters, Mrs. Lloyd Lisk of Trenton, Mrs. Harry Brown, Ottawa, one brother, Ian of Ottawa, and Nils at home; three sons, Victor, Kenneth, John, Delmer, Hugh, Daniel, and Murray.

LATE MISS ELLEN AKEY

The funeral of Miss Ellen Akey, aged 81 years, who passed away at the Hastings County Home on Friday last, took place Monday afternoon, Jan. 31, from the Pinkston Funeral Home, 268 Church street. The service in the chapel and at the graveside in Belleville Cemetery was conducted by the Rev. A. L. Geen.

(Trenton)

The death occurred at the Belleville General Hospital on Monday afternoon, Jan 31, of Miss Gwendoline Ann Wilson of Mrs. Richardson Thompson, Spring street, Trenton. She was 21 years of age and had been a patient in the hospital since Jan. 17.

WILLIAM R. EMERSON
Ivanhoe

William R. Emerson, late residence in the fifth concession of Thurlow Township, passed away on Tuesday, Feb. 1, at the residence of his daughter, Mrs. P. B. Robinson, 107 Chatham street, with whom he had been residing for the past two months. He had been in failing health for some time.

The late Mr. Emerson had reached an advanced age, being in his 81st year. He was born in Huntingdon Township, his wife predeceasing him. Mr. and Mrs. Robert Emerson, Nearby all his life was passed in Thurlow Township where he was engaged in farming during his active years. He was a member of the United Church and well esteemed by all who knew him. Fraternally he was a member of Tweed Masonic Lodge No. 229.

Surviving him are two daughters, Mrs. James Snider, Harrowsmith, Ont.; Mrs. P. B. Robinson, Belleville; two sons, Mr. Walter Emerson of Thurlow Township, and Mr. Frank Emerson of Melra; three brothers, Mr. Frank Emerson, Canoga, Ont.; Mr. Edward Emerson, Mr. Wellington Emerson, Lake Ontario Park; two sisters, Mrs. Matthew Emerson, Thurlow Township; and nine grandchildren and three great grandchildren.

The funeral announcement is made elsewhere in this paper.

CAPITOLS DEFEAT HOTEL QUINTE 3-1

Flashing a brand of hockey that had the large number of spectators in spasms the players in knots and the referee in despair, the "Main Pastures" wearing the maroon and white of the Capitol Theatre turned back the Foamkings from the Hotel Quinte last night by a 3-1 count.

The game which was hotly contested from bell to bell saw first one goal threatened as ganging attempts on the part of both squads failed to score. Midway through the period, the Caps notched the first counter by the game and made it two just before the bell rang to end the period.

The theatre buckaroos again applied the pressure in the second period although play was more evenly distributed, and made the score three to nothing with the fine work of Ste- Blaine. Cap goalie, who does his best work while lying on the ice keeping the score sheet clear.

The teams—Capitol Theatre—Blaine, Guibrie, and Todd, Calcuit, Barrage and Alger; Subs—Eckfold, Parm, Clause and A. Todd.

Hotel Quinte—Mathews, Pope, Mallet-Sayers, Eckfold and Hall; Subs—Ervin, Labarr, Scott and Smith.

Certificates of Efficiency Presented Firemen, Police At Regular Council Session

Complete Course in First Aid in St. Johns Ambulance Assoc.

PRAISED BY MAYOR

Regional Planning Committee Formed With Ald. Jennings as Chairman

Attaining a standard of efficiency in First Aid Work, fifteen members of the Belleville Fire Department and five members of the Belleville Police Force were presented with certificates from the St. Johns Ambulance Association at the regular meeting of the City Council held on Monday evening in the Council Chambers. The presentation was made by Alderman J. W. Barlow, who was Chairman of Fire last year and who instituted the class for first aid. the instructor being Ex Ald. R. D. Adams. Alderman Leslie Lewis, the present Chairman of Fire introduced Ald. Barlow and stated he was glad to have the privilege of extending the congratulations of the Board for the fine work he did and the splendid efficiency the class obtained.

Those Receiving Certificates

Those who received their certificates for the Fire Department were Chief William J. Lynch, Deputy Chief Gerald Vance, and firemen Frank Orr, G. L. Weaver, E. Waddell, J. Adams, C. Greatrix, S. Pomeroy, G. Poste, W. E. Fenton, F. Poste, J. Thompson, J. E. MacDonald, G. O'Brien, J. R. Darvell and those in the Police Department were W. T. Evans, Peter Thomson, Harold Taylor, C. R. Arnold and Constable Ellis. Chief Lynch spoke for the fire department and Constable Deputy Chief Gerald Vance, and firemen Frank Orr, G. L. Weaver, E. Waddell, J. Adams, C. Greatrix, S. Pomeroy, G. Poste, W. E. Fenton, F. Poste, J. Thompson, J. E. MacDonald, G. O'Brien, J. R. Darvell and those in the Police Department were W. T. Evans, Peter Thomson, Harold Taylor, C. R. Arnold and Constable Ellis. Chief Lynch spoke for the fire department and Constable Taylor for the police. In introducing the presentation Mayor Bone said: "In Belleville we have an excellent body of men in the police and fire departments and I am glad for anything that would improve these men with regard to their efficiency to the ratepayers." He complimented Ald. Barlow for his action in organizing the course for these men and I am informed that the men showed a very keen interest in their work. "I am further informed," said Mayor Bone, "that the Underwriters claim the fire department is now up to sufficient strength; and at this point Chief Lynch stated, "the Underwriters claim we should have fifteen more men." Mayor Bone continuing stated, "that is all right but it is us who have to pay the bills. I think both forces should be kept at best possible and the recommendations put forward in the Chief's report will have my aid and the council's earnest attention."

Some Suggestions

Continuing Mayor Bone believed, that the fire department should have a new car every year and that the members of the force should have shooting practice with revolvers. He also stated, that the uniforms should be changed especially the head gear worn by the constables in the summer. Before uniforms in the summer. Before closing the Mayor commended the force heartily for their splendid interest in the course, the high level of efficiency that all had obtained. Ex. Ald. R. D. Adams instructor of the course stated, that the men of the two departments showed their interest by faithful attendance at the classes and had ability to grasp the essential facts. Ald. Adams gratefully thanked Ex. Ald. Adams for his interest in the work. Alderman Laurie Lewis stated he was very happy to be Chairman of a Department, which has attained such high efficiency in First Aid and hoped, that next year a higher rank would be attained. Ald. Barlow thanked Ald. Lewis for allowing him to make the presentation of the certificates and the Alderman gave a little history of how the class was started and he believed everyone of the men receiving certificates would be a credit to the Association.

Thanks Expressed

Chief Lynch thanked Ald. Lewis, the St. Johns Ambulance Association, the instructor and all those who in any way assisted in making the course possible. A happy part of the presentation was that Mr. Taylor senior, holder of a long service medal with the Association was present to see his son Constable Harold Taylor receive his certificate. During the presentation, the ambulance fighting equipment of the city was parked in the market square, in case a call came in while the members of the department were in the council chambers. Concluding the business the council went on to transacting the routine matters of the council, which were the lightest of the present year. Two by-laws were submitted, one appointing a standing committee to be known as the Regional Planning Committee by a subsequent motion. Ald. B. F. Jennings was named as the Chairman of that committee. Ald. Jennings in accepting the post thanked the council for the honors conferred on him and he stated it was a very important committee and that it would function long after he was out of the council. He explained to the council there were one or two things of a pressing nature and hoped to bring in a full report to the council at an early meeting.

Gives Statement

"I consider the by-law for the present time and some industries have been given a minimum wage. I know both the employers and employees side of the question and the government is investigating industry and when they apply the Act it is not going to be a hardship on the firms adopting it."

Alderman Barlow: "I am heartily in accord with the motion and I think a minimum wage law is badly needed."

Ald. Wills: "As I read the Act it is already in force but the application of the Act is left in the hands of a board."

Mayor Bone: "I am in favor of the motion for I believe this country is going backwards instead of forward. If we have low wages and high taxes both ends can't meet. Some of the wages paid in industry are scandalous and I think there should be a change."

Alderman Logan: "Let's try it anyway."

Alderman Rollins: "As I understand it some opponents are trying to hold down this law and what the government wants is some tangible proof that the municipalities are in favor of it."

Ald. Haig: "I thoroughly approve of the motion but believe it should be directed to the Minimum Wage Board, who apply the Act and therefore the motion should be amended from its present form."

Alderman Marshall: "Let us rearrange the motion." The motion was then redrafted and unanimously passed by the council.

No Action Taken

Under the heading of general business Mayor Bone stated he was sorry that the council did not consider the by-law appointing the Woodstock Council and in which that council asked that Belleville increase the number of members of the council. The motion as drafted by the Woodstock council was as follows: Resolved, that in view of the alarming prevalence of illicit machines, that are being operated throughout the entire Province as gambling devices, and in view of the serious proportions to which this evil has attained, the government of the Province of Ontario be strongly urged to take more effective means of abolishing such machines. It is further respectfully requested, that in view of the recent decision given by the Appellate Division of the Supreme Court of Ontario in the case of re Morrison and the City of Kingston, the Attorney General might consider the the possibility of issuing instructions to have all such machines in the Province seized as gambling devices and destroyed, and be it further resolved that a copy of this resolution be forwarded to the clerks of the municipalities with the request that a similar resolution be passed by them and sent to Hon. Mitchell F. Hepburn, Premier of Ontario and Hon. Attorney General G. D. Conant."

Ordered Filed

When the motion was read the council ordered it filed, which meant they would take no further action in the matter at present.

Mayor Bone stated he had received petitions from the public on this matter but that he would not read them. "I will ask you to lay them on the resolution," said Mayor Bone, "because I think the public are a unit as a whole to the community. Revenue is quite important I will mention the change would be greater than the benefits derived from the revenue." Mayor Bone also congratulated Ald. Wills for his stand in the matter of negotiations between the city and The Swift Canadian Company with respect to water and sewage. Ald. Wills expressed the sympathy of the council to Ald. Clifford Vanderburgh, Holmes, who met with an accident and he trusted Alderman Vanderburgh would soon be back on duty. The members of the council endorsed the attendance of Mayor Bone at a convention to be held in Ottawa on February 23rd at which time a delegation will await on the Federal government with respect to the relief problem.

This concluded the business of the evening and the Orders of the Day were called. Those present were Mayor Bone, Aldermen Wills Thompson, Bargaar, Logan, Kennedy, Haig, Marshall, Gore, Rollins Cushing, Barlow, Jennings and Lewis. Ald. Cliff Bargaar was chairman of the committee of the whole and on by-laws.

PLANS LONG FLIGHT

WING COM. O. E. GAYFORD

In an effort to recapture the long-distance flight record now held by the Russian trans-polar fliers, British has announced a "Round the Empire" flight to be undertaken by Wing Commander O. E. Gayford, former holder of the long range record, will direct their training and the distance attempt.

Annual Report of Fire Dept.

The annual report of Fire Chief William Lynch was submitted to the Council on Monday night at their regular meeting and read in its entirety. As there were a number of recommendations in the report, Mayor Bone moved that it be referred back to the committee and this was accordingly done. The recommendations will be considered in committee and a report brought out to the council as to action on the report. The report in detail follows:

Belleville, Ont.
January 31st., 1938.

His Worship Mayor Bone and
Members of the City Council,
Belleville, Ont.
Gentlemen,

I beg to submit herewith a report of the activities of the Fire Department for the year ending December 31st., 1937.

During the year the Department responded to 210 alarms, classified as follows:

Dwellings, 136; business places 13; cars 16; barns 1; marshes 3; garages 6; trucks 2; out buildings 2; banks 1; cats on poles 4; dumps 2; grass 4; churches 2; rubbish 13; trees 1; junk yards 1; cellars 1; ammunition sales 1; freight sheds 1; manufacturing plants 2; hydro poles 1; theatres 1; coal piles 1; test run 1.

Causes Classified

Overheated stoves and chimneys, 86; overheated stoves and furnaces, 3; overheated stoves 2; defective chimneys 4; smoke 8; hot ashes 5; cigarettes 12; 2; defective fire places 1; short circuits 10; gasoline 3; combustion 1; false alarms 3; outside city 11; oil burners 2; oil tank 1; box fires 1; coal oil stoves 1; coke oven 1; test 1; miscellaneous 56.

There were 86 extinguishers recharged, 109 inspections made and 36 complaints answered during the year.

Equipment used during the year answering alarms:

Motor pumps 125; booster, pump and tank 14; Booster hose 1-3" 2600'; chemical hose 1-3" 600'; hose 2 1-2", 12,250'; tarpaulins 12; chemicals—Soda and Acid 39 gallons; Pyrene 1 quart, Foamite 5 gallons; Ladders raised 1072'.

For the purpose of comparison of fire losses the following is submitted:

In 1933, number of calls 162; property involved $436,119.00; loss $21,246.72; insurance $308,710.00.

In 1934, number of calls 192; property involved - $367,475.00; loss $13,504.47; insurance $231,880.00.

In 1935, number of calls 229; property involved, $381,940.00; loss, $26,192.79; insurance $204,450.00.

In 1936, number of calls 214; property involved $411,560.00; loss $15,051.97; insurance $232,200.00 not insured, $8,410.00.

In 1937, number of calls 210; property involved $1,258,078.00; loss $71,508.71; insurance $992,925.00; not insured $50.00.

The Department had one accident during the year, causing slight injuries to Ald. Cliff Vanderburgh. This matter has been brought to the attention of the Department for the past three or four years, but so far no action has been taken.

For the coming year I would respectfully recommend:

That the Fire Committee purchase 300' of new hose; two new gas masks; two pairs of rubber coats for gasoline fires; ten rubber coats. (We were able to buy only one half of the coats needed last year.)

That the Committee attend to the purchase of two uniforms earlier this year. On account of the Easter rush it was near the end of May last year before the uniforms were received.

That, as the Department now has a First Aid Class the Committee purchase an Inhalator. This outfit costs about $300 and I would recommend that the cost be born by the City Treasury, but that it be charged wholly to the Fire Department.

Yours respectfully,
W. J. Lynch,
Fire Chief.

BELLEVILLE BOYS SEEK A PLACE IN THE SUN

Vocational Students Gather With Rotarians to Listen to Expert Advice on Securing Life Vocation

Advice on how to choose a vocation was given by Mr. W. R. Cook of the National Council of the Y.M.C.A., guest speaker at the Boys Work meeting of Belleville Rotary Club held last night in the Hotel Quinte. The meeting was opened by Rotarian Thompson with pinch-hitting for President Fred Douglas, who was out of town. A large number of Collegiate students were present, principally vocational school pupils accompanied by G. A. Ferguson, vocational instructor. To the guests a hearty welcome was extended by Chairman McGuire on behalf of President Douglas and the Rotary Club. Rotary Brothers acted as song leader and pianist, while Cornwall Scott officiated as sergeant-at-arms.

Of all the problems which concerned the boys of the present generation, three gave them more brainsearching than any others, GOD, DISEASE, JOB, according to the guest speaker who went very thoroughly into the right methods to be pursued by youth in ascertaining just what they are fitted for in life, and how to attain their objective once they have decided what they are best fitted for. Counsel was given on how to look for a job and how to hold one, and various methods were pointed out which lined the road to business, professional or artistic success.

Incidentally Mr. Cook mentioned that Taylor Statten, of Pickering College, well known leader in boys' work, was now in India establishing camps for boys on the same kind which have made his Algonquin Park camps so successful.

A boys' first duty is to find himself and the way to do this successfully pointed out by the speaker in a very interesting and lucid manner. There are 2,000 vocations listed on this continent so the task of the boy is no small one. By reducing these to classifications such as farming, mining, industrial, commercial, professional, etc., the choice narrows down to a range where it can be more easily handled.

As a follow-up the boys present were advised that they could continue this study by contacting Y. M. C. A. Manager Jos. Shortt, who was in possession of various information and statistics dealing with the subject, besides the information gleaned from his own experience and contacts with the business and professional world.

Mr. Cook was introduced by Past President Joe Bush and Rotary appreciation was voiced by Past President Cowsil Scott.

COFFEE MONEY

A tribulant in town this week begged 15 cents for the avowed purpose of buying that cup of coffee that seems so desirable and necessary when 15 cents is required. The generous Scotsman who was approached to provide the coffee money expressed his earnest disinclination to providing even a small sum of money to supply another man with the well-known intoxicants. He was assured that the money would not be wasted in that way. "I'll not drink up your money, my good friend!" said the tansient machine! —Timmins Advance.

MINERS TRAPPED AND ASPHYXIATED

Poisonous Gases, 4,000 Ft. Below Surface Fatal to Nine

Killyth, Scotland, Jan. 31 (C.P.-Havas)—A mournful procession of friends and relatives trudged their knee-deep snow to a temporary mortuary in Johnson's shop in this Highland village today to identify nine miners gassed in nearby Dunnerbuck Collieries Sunday. The miners were trapped 4,000 feet below surface by fire and were overcome asphyxiated by poisonous gases.

The victims were James Martin of Croy; Robert Martin of Queensberry; James Campbell; Edward O'Neill, Peter Walker, Joseph Martin and Peter Burns of Killyth, and Joseph Kelly of Twechar.

Fire first broke out in the pit of Dunbreck Mine No. 1. The chief of the work-gang in the pit, Thos. Martin, gave the alarm and then attempted to reach the trapped men but was unable to do so.

Rescue work was begun immediately and continued all through the afternoon and into the early evening. The flames raging in the pit had hardly been quenched, however, when a new fire broke out and rescue work had to be started all over again.

The rescuers finally succeeded in reaching the spot where the men had been caught by the flames, only to find all dead of asphyxiation.

PIGGLY WIGGLO AFTER U. S. BLIZZARD

The terrific blizzard and intense cold wave that put the chill on northern Michigan in the vicinity of Ironwood and Marquette, left many scenes like this, where business people had to tunnel through drifts to get to or from their stores. Almost all business was brought to a complete standstill following disruption of communications and transportation.

THE ONTARIO INTELLIGENCER

THE DAILY ONTARIO INTELLIGENCER is published every afternoon (Sunday and holidays excepted) at The Ontario Intelligencer Building.

HOSPITALS

In the public hospitals, Red Cross outposts, sanatoria and hospitals for incurables there were in the year 1936 no fewer than 268,720 patients treated. Their collective days' stay in the institutions totalled 4,... 4,648. To look after this quarter of approximately a million patients, there were 12,130 staff and employees. Operating revenue from these patients, grants from municipalities and government, and so on, totalled $14,047,011.70. Incorporating revenue from property, investments, endowments, donations, bequests and grants for building debentures, capital from municipalities totalled $1,414,769.51, to make a total revenue of $15,461,781.21. Operating expense was $13,304,944.73, which with sinking fund and interest charges amounted to $13,282,656.98, a daily average cost per person of $2.94.

In the public hospitals, including convalescent, the per capita daily cost averaged $3.33, in Red Cross outposts it averaged $3.59. In sanatoria, the daily per capita average was $2.1h and in hospitals for consumptives it was lowest of $1.73.

Among the newer efforts are the Red Cross outposts, making a good showing. Bancroft outpost had a total of 324 patients during the year 1936, a total of 2,496 days' stay at an average per capita daily cost of $2.22.

There are in Ontario 117 public hospitals, 27 Red Cross hospitals, 7 hospitals for incurables, 14 sanatoria for consumptives, one convalescent hospital and 2 convalescent and summer camps and 68 private hospitals.

That year showed an increase in number of patients of 13,312 with a total increase of 117,613 days' stay.

CAREFUL DRIVER PAYS TOO

The careful driver of a motorcar who has no accident to his record and whose reputation as a motorist is good must pay more for the indemnity insurance he places on his car. Of course he is not to blame for it is the driver who is causing accidents who is to blame for increase in the burden which the insurance companies find they have to impose to meet the increased hazards. Yet he has to pay, though of course, he does not like to have to do so.

HOUSING

Housing schemes go on, for there remains a great deal of construction to be performed. People here who are interested have only to realize how small the proportions of the schemes under which such a city as New York is laying plans. That city cannot hope to get more than thirty millions of the Federal Housing money as its allocation, enough to put up houses for 5,000 families. But there is another problem Mayor La Guardia faces. He says there are half a million families in that city who cannot afford to pay $30 a month for an apartment and the problem is to accommodate as many of these as possible. It is his aim to provide homes for the low-income group. This undertaking will create employment, benefit the city and preserve values. New housing, he says, is a self-liquidating asset.

These facts are merely mentioned to show how the mayor of the largest city in the New World looks upon housing needs especially for those whose income is low.

Housing scheme methods may differ in different countries but the object is the same —to get modern homes for the various income groups, with all that this would imply in improvement of living conditions.

A MAGNETIC STORM

Few will worry about the possibility of a magnetic storm on or about February 21st. Dr. A. G. McNish, expert on magnetism of the earth has forecast that something of the nature of the storm which occurred last week may be repeated in about three weeks' time. Manifestations of the disturbance were chiefly in the communication systems, of radio, telegraph, and telephone operation and compass needles fluctuating wildly. The whole cause goes back to the volcanoes of gas on the surface of the sun.

Nature is just toward men. It recompenses them for their sufferings; it tenders them laborious, because to the greatest toils it attaches the greatest rewards.—Montesquieu.

Labor is life; from the inmost heart of the worker rises his God-given force, the sacred celestial life—essence breathed into him by Almighty God.—Carlyle

Shun no toil to make yourself remarkable by some talent or other. Yet do not devote yourself to one branch exclusively. Strive to get clear notions about all. Give up to no science entirely for science is but one.—Seneca.

Blessed is the man who has found his work. —Carlyle.

OUR JANUARY THAW

As the several feet of snow,
Silently begin to thaw,
And the rain comes pouring down,
That's our January thaw.

Creeks o'erflow their very banks,
Rivers brimming full,
Will there be a flood? folks say,
Skies stay so grey and dull.

Water in folks' cellars,
Much against the law.
Never mind, don't worry,
It's just our January thaw.
Seems we've got to have it,
Folks stand and stare in awe!
But we can't help it,
Our January thaw.

— Bernice Elmy.

"HELP THE FARMER SELL HIS SURPLUS CROP—Pea Beans 3 pounds for 13c." Such was the text of an advertising campaign which spread all over the United States and disposed of a huge bean crop which glutted the market. The cost of the advertising was borne by the selling agencies who were amply recouped by the additional sales. California cling peach growers faced with a carryover of 6,669,000 cases of canned peaches from 1935, 72 per cent. more than the previous year, invoked the genii of the advertising lamp in the face of a big 1936 crop, and in a nation-wide campaign jumped the sale of peaches 11 per cent. over that of the year previous. Cattlemen in the west found themselves faced with the necessity of selling their beef because of the drought, and many a ranchers' Fall and Winter sale dividends pressure jumped beef sales 34 per cent. In August 1936 over August 1935 and the price of choice steers rose from $8.58 in June to $10 in September; cattlemen received 37 per cent. more August income than the previous five-year average; while the government had to buy only 5,000 head to hold up the market instead of the 2,500,000 it bought in 1934. The beef campaign was put over by advertisements in 8,000 newspapers in every state at a cost of $2,000,000. There were also 33,000,000 handbills, window displays, free recipes, etc. Cattlemen bore expense of the selling expense and there was no price fixing. Hence: "The more you tell 'em, the more you sell 'em."

RECENT TRUE SUCCESS STORY featured a shoestring being run into the better port of a million, thisway:.. Young man with an idea and no money borrowed five hundred dollars, invested four hundred in advertising and won a loan of $40,000—with the $40,000 he made the best part of a million. Just another proof that advertising is an investment not an expense. $

NIGHTMARE JOB

The bus conductor had been told off several times for the amount of noise he made coming home after his duty.

"I wish you'd try to be more careful, Jim" his wife said to him. "You wake baby every time you come in."

Jim promised to do his best. After the next spell of late duty he opened the front door without a sound, crept up the stairs without a single creak, and reached the top landing safely.

Then habit asserted itself. In a voice calculated to wake the dead, he bellowed:

"ALL FARES READY PLEASE."

x x x x

SO-CALLED SALARY

Actor—"What about the salary?"
Manager—"Suppose we call it $250 a week?"

Actor—"All right."

Manager—"Of course you understand that $250 a week is merely what we call it. You will get $25."

UP AND DOWN

The carriage was full, and when a girl entered to find no vacant seat, an elderly man offered her his. The girl plumped herself down without offering a word of thanks.

The elderly man waited for some minutes to see if she would say anything, and when he found she had no intention of doing so, he said, "I beg your pardon, but you are sitting on something of mine."

The girl jumped up and the man quietly regained his seat, leaving her standing astonished amid the smiles of the onlookers.

OFF THE RECORD

By Ed Reed

"The Sultan next door wants to know if he can borrow a little sugar?"

LOOKING BACKWARD

GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

20 YEARS AGO

Feb. 1st., 1918.

Mr. Thomas Wills, city fuel controller, is a very busy person of late. Citizens are calling upon him daily to assist them in procuring coal. During the past two days twelve cars of hard coal arrived in the city, but the demand was great and a further supply is needed. Yesterday the price of coal rose to $10.50 per ton; the reduction is much appreciated by citizens.

The Ladies Auxiliary to the Brotherhood of Locomotive Engineers held a social gathering at the Engineers' Hall on Pine street. Euchre was played and prizes were won by Mrs. Calbaugh and Mr. Alexander. Dainty lunch was later enjoyed and refreshments were served. The affair was a great success.

Miss Knight of Bowmanville is visiting her sister, Mrs. C. A. Boniface, in this city.

Mrs. C. E. Hadden of Picton is visiting her sister, Mrs. H. J. Porter, Alexander street.

Mr. G. Merriman, a former Belleville boy, now of Toronto, is spending a few days here the guest of Mr. Fred Rose.

In order to help relieve the coal shortage twelve tons of coal were taken from the cellar at the residence of a citizen who with his family is spending the winter out of town. The coal was removed upon the order of the owner.

30 YEARS AGO

Feb. 1st., 1908.

Tied up by the storm. This describes pretty well the situation in this city today. Shortly after the "the witching hour" last night it began to snow and blow and the storm is still in progress late today. As a result the drifts and snow banks in this good old city are a sight and traffic is virtually at a standstill. A man drove in from Purbore this morning and it took him close to four hours to make the trip.

Pictures are now being sent by wireless telegraphy; a miracle as marvellous as any ever recorded in fairy tales. Who is there today with hardihood enough to disbelieve in anything?

Mrs. I. R. Buller, Trenton, is the guest of Mrs. A. E. Davis, 14 Bert Street.

A tea by Belleville High School yesterday afternoon a pleasing event took place, namely a presentation to Miss McRae and Mr. H. J. Clarke, two popular teachers who resigned their posts at Hall recently to assume other duties. Miss Gertrude Hamilton made the some pendant and chain and Mr. Clarke received a handsome Morris chair. Master Mac Wallers read the address. Miss McRae and Mr. Clarke made appropriate replies.

LOOKING BACKWARD

40 YEARS AGO

Feb. 1st., 1898.

Tomorrow will be Candleman Day, and if tradition be true the bear will come out his room to dine if weather conditions and decide what he will do next.

Mr. Frank Hamel, who has been with the firm of Geo. Ritchie and Company for ten years will leave shortly to reside in Vancouver, B. C. Yesterday he was tendered a supper and at the close of business for the day the employees were the guests of the firm at a supper served at Dickens' restaurant. Mr. W. H. Gordon spoke of the long service of Mr. Hamel with the firm and expressed the regret of all at his departure from the city. On behalf of the employees Mr. Hamel was presented with a handsome gold locket suitably engraved.

The river rose rapidly during last night and this morning the distress occasioned by the flooding of the low lying portions of the city became evident. The flood is worse on the west side of the river where several houses have water upon the floors and families are taking refuge in the upper parts of their houses. On the east side of the river the situation is alarming. At the Coleman dam at Walker's Foundry, the dam can be seen at low water usually below the dam is level with the dam and is backing up towards Lingham's Mill. Nearly all the cellars along the west side of Front street are flooded with from one to three feet of water. Merchants are busy moving goods to safety. Some houses near No. 1 Fire hall are flooded and the water is working its way onto Front Street. There is very little hope of the flood subsiding, unless the temperature rises very soon.

50 YEARS AGO

Feb. 1st., 1888

Mr. P. W. Hodson, M. P. P. was one of the guests at Government House, Toronto, last evening.

The many friends of Col. P. W. Prince, formerly U. S. Consul here will be pleased to learn that he has been appointed Secretary to the Lieut.-Governor of Maryland, Hartford, Conn. We congratulate Col. Prince upon his appointment.

Dr. Gibson's horse ran away yesterday morning from in front of his residence on Pinnacle St., south of Dundas street, and the sleigh struck at the market train on the Grand Junction Railway. It was stopped before any damage, a roller skating rink at Hotel and Pinnacle streets.

The North American Telegraph Company working in connection with the C. P. R. commenced on Monday to erect 45 call bells in the offices of the company's patrons here

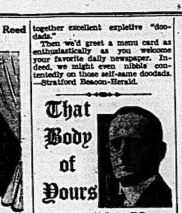
Au Revoir to Hors D'Oeuvre

We're looking forward to our exceedingly rare opportunity to say "au revoir" with suddenly increased pleasure to... For a great fear has been lifted from our minds.

No longer is a menu card the instrument of torture. The foreign language disguises for home dishes remain, from soups to nuts, but over the years we've learned to murmur the meaning of the main courses—and the fear of having vers to supply all gustatory gags.

But there was always that ghastly tongue-twister that back-fired the moment we read it. Yesterday the fear of fate and tried to appear nonchalant. "You've guessed it—hors d'oeuvre." And we watched a good many other folk swallow their tongues as painfully as we did.

No longer, however, shall we recoil before the assumed pity of the head waiter, the mere server or the watching waiters. We don't need hors-d'oeuvre. For it is now permissible to say "Appetizer"—and mean "Hors d'oeuvre."



We accordingly rise to move a vote of thanks to the powers-that-be of the illustrious hotel show in the United States of America, who spoon-fed the public with the new American name" for hors d'oeuvre. Out of close to 1,000 suggestions, the judges awarded the napkin ring to "apitesser."

This was another triumph for that pastime so beloved by advertising men—"coining" new names by mixing together a couple (or more) words and calling the result a name that stick out. It required some deep thinking, we presume, to get "apitesser"—from "appetite" and "starter." Something to tease the appetite. They did not destroy whatever feeling for the word the victim had before he saw the hors d'oeuvre. Which, being interpreted, means "outside of work" (or doesn't that precede a meal."

"Apitesser" is a vast improvement on "hors d'oeuvre." Personally, we think "appetizer" would fill the bill even better—though we have heard somewhere that "appetizer" is the employer for appetite-arousers.

But if the contest were not already closed, we'd cast our vote for that euphonious, expressive and altogether excellent expletive "doodads."

Then we'd greet a menu card as enthusiastically as you welcome your favorite daily newspaper. Indeed, we might even nibble confidently on those alluring doodads.—Stratford Beacon-Herald.

Using the Needle Instead of the Knife in Cases of Hernia

When we were examining recruits for overseas service we found a number with hernia—rupture. If the hernia was just "threatening" bulge in the abdominal wall, or if it were complete but not too large, these men were given the privilege of going into the hospital and undergoing operation or were entitled to "surgical" certificates.

By the time these men came out of hospital and had a short rest at home, from two to three months had elapsed, and they were fit for only "light duty" for another two months. Sometimes their light duty brought back the rupture and all that time was lost.

Today quite a large number of these "threatened" and "early" hernias are successfully cured by the injection method; a method that was frowned upon by the medical profession at that time due to some unsatisfactory hardening solutions then in use. In the hands of a competent physician, a thorough trial, are now endorsing this method in "suitable cases."

You can readily see why this injection method has now become so popular—no loss of time, practically no pain or discomfort, and no expense of hospital treatment. The method of treating hernia by injection consists of injecting a solution through a hypodermic needle into the tissues about the hernia. This hardening or growth of the muscles and fibrous tissues about the hernia ring or hole through which the "rupture" protrudes, is called a "truss" or through. through which the rupture is likely to break

A number of injections are necessary and when the treatment is adjusted by the surgeon, is worn for some weeks after the last injection.

It should be remembered that this method is best suited fear "early" or "threatened" cases, and for those who are not fat. A rule of thumb test of hernia by the surgeons of a large number of insurance companies is that this method was suitable in about 15 per cent. of all cases of hernia.

BEAUTY FROM CLAY

The primitive potter took the clay as he found it on the surface of the ground or by some river bed and moistened it; cast on a stone slab, picked out the rocky fragments and after kneading it with his hands, or with stone, or even with his feet, fashioned it into such shapes as were needed or as fancy dictated.

✦ ✦ ✦

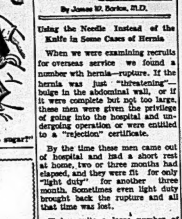
This is one industry whose methods have changed very little through the centuries. The tools and methods have remained in the simplest form, the potter's wheel is the same as the discovery of him for drying and hardening being the chief improvement.

✦ ✦ ✦

The first operation is the mixing of the clays. Viterous or glassy substance is made from the finest of China clay, also from England and two from the United States with some kind of local flint quarried in Canada added.

✦ ✦ ✦

Walker is used to make the clay mix. The latter is passed by the through screens to remove particles of stone or coal. The mixture then has the water squeezed out of it and it emerges in moist slabs which are stored away for aging before being treated with chemicals.



✦ ✦ ✦

After a few hours in the molds the casts are taken out. At this stage it is called "green ware" and is light brown in color. A period of 24 hours in the "glost" oven now makes the color almost white. Then comes the final drying, a journey through the fiery heart of the kiln which lasts three days progress being made by the rate of six feet every seventy minutes. So terrific is the heat that the whole baking and after six weeks in the making the product is ready for the market.

✦ ✦ ✦

Nearly 1,300 Canadians of which 135 are women are employed in the manufacture of earthenware and allied wares according to official figures. —Peterborough Examiner.

SCOTT'S SCRAP BOOK

This Duty of Shaving

No one in 1913 imagined that a day would come when men would be performing an age-old ritual by burning off their whiskers with an electric razor machine.

Perhaps in no field which touches every man intimately has there been a greater revolution in twenty-five years than in the daily rite of shaving.

Razors, of course, are the old story.... No one knows how far back they go into the dawn of the ages, but it is known that the ancient Greeks, Romans and Egyptians scraped off their beards, and razors are mentioned frequently in the Bible. Sheffield was the home of Steel Age to a few short years ago the standard implement for shaving was a delicate and finely tempered steel blade, as long as a man's beard and capable, when properly sharpened, of almost splitting the proverbial hair.

Use of this sharp implement was an art which the novice had to learn with quaking hands. Any man who was already bor before the World War can remember how he watched with awe his father's every shaving performance of his father and longed for that dreaded day when he must have the gilded such a weapon over his face.

Of preparation there was much. First came the stropping of the razor, flicking back and forth of the blade against the smooth and well-oiled surface of finely tanned leather. Perhaps before this the blade had been stoned gently on a fine stone to remove any burr. Then came the shave and the ordeal was over. If the man knew his business the blade soon became sharp and if it passed the test—a person's thumb is the acid test—without pull—it was ready for use.

The World War was also accused of many things, and it probably is guilty of most of them. One thing that it marked the decline of the straight razor as a shaving tool of safety, there can be no doubt. The United States army, navy and marine corps were its agents. The army was loyal to the straight razor until 1918. In those days if a man was "caught" and perhaps it still is—for each soldier on enlistment got a personal kit done up in a shoe box. It contained, among other things, a comb, a "housewife", a sewing kit for buttons and such emergency man-made repairs, a shaving brush and a straight razor. I know, for just such a kit was issued to me when as a seventeen-year-old I enlisted for National Guard service on the Mexican border in 1916. However, by 1917, when I enlisted for the World War I had been discharged from that service—my new kit contained a safety razor. They did not bother to issue razors as I know. And that popularized the safety.

Before the war the safety was largely for the shaving dilettante, the "cheap skate" or the sissy, as I recall, and cost $5. The blades were ten cents apiece or more. It was the days of the snob and desire of the average man.

But the war the safety razor doffed its high hat and put on prosaic khaki, discarded its fine and expensive plating at the same time. Now nickel-plated, it came in a cheap steel case, painted khaki colour. The lid of the case contained the blade which was supposed to be good for stopping bullets as well as to remove the face for shaving purposes. It probably was betting its purposes.

And so the safety went to war, and it did its bit by keeping the American army upton. For reasons of morale there was an order that every soldier must shave every day, even in the trenches. The safety razor made it quick and easy.

When the soldiers came home their razors came with them—a whole generation lost forever to the straight razor, and presently only the hoo-type safety. The price of safety began to drop and finally you can buy a glittering gold-plated one for sixty-nine cents, with five blades, or perhaps a bird-cage thrown in. Blades are everywhere, and almost any man can buy them in the five-and-ten for as low as two cents apiece. And thus was the first great turning point in whisker history reached in a few short years.

Now, just as the straight razor was killed by the safety, so is the safety being crowded out by the electric shaver. Its sales are increasing as marches on, mowing down the bristles in its path.—C. A. S. in Christian Science Monitor.

Canada's Monstrous North

There is little obvious beauty in the North. In the words of Lord Bryce, Thomas Hardy wrote: "It is a question if the exclusive reign of orthodox beauty is not approaching its end." The new Vale of Tempe may be a gaunt waste, to the liking of which one is not predisposed, but in the Mackenzie valley I did not find it. Limitless monotonous forests where the Wordsworthian peace and healing companionship of nature which the lush tropical forest where nature is cruel and destructive, I think there would be the same difficulty in the North.

✦ ✦ ✦

Wordsworthian nature should have a certain reticence, dignity and simplicity, and be built more or less on the human scale. The North is altogether beyond the human scale, and it has no clearness and simplicity. I saw blank moors and cold, ice-grey waters. Instead I found a land of interminable and monotonous rivers pouring billions of dirty gallons to the ocean, too much water everywhere, a land of mud, mud, and everywhere a superfluity of obscene mud.

The impression was not of a nature beautiful and austere, though that is the land of the arctic as of coarsely exuberant as a tropical forest. The arctic has its Alcoholic vegetation as rank as the delta of the Zambesi. The arctic streams are as thick with mud as the Limpopo. I took a Wordsworth with me and never once found him appropriate. My impression was of a monstrous nature, a land of monstrous rivers, monstrous lakes, monstrous mud. It was only in the miraculous sunsets that any grace or magic entered into the landscape.

✦ ✦ ✦

The delta of the Mackenzie is a sight I shall never forget. I understand it is the largest in the world, and it is certainly the most sinister place I have ever seen. I saw it under mist and cold winds, but a bright sun would make no difference to it. It is one vast quagmire —muskeg on a colossal scale. Three hundred miles separate it and between them there is an infinity of wild water. The arctic has nothing of canals of a mathematical regularity. Between the canals are oily muddy islands of the same kind of an unwholesome green, into which presumably one sinks indefinitely. I help the man who gets lost in it! I understand that even the Eskimos have difficulty in finding their way through it.

It reminded me of nothing so much as the no-man's land between the trenches at the end of the unloosed no man's land created in some campaign of demons—pitted and pocketed with shell-holes from some infernal artillery. Looking down on it from the air at first glance one might be looking at suburban Surrey—broad lanes, high-banked with lines of newly planted fir trees, and behind them the smooth lawns and trim cottages of house holder. It is only at the second look that one realizes that the highways are channels of yellow mud and that the green lawns are bottomless bogs.

✦ ✦ ✦

The Arctic coast was different. There, among clear half-lights and half-colors, one had wonderful stretches of land and peace. Great Bear Lake, too, with its immeasurable deep blue waters and its rocky shores, like the west Highlands, created the real feeling of the clean antiseptic North. But I think the most wonderful impression I had was flying over the Barrens on a cloudy day. The cloud shadows on the limitless pallor, in contrast with immediate mass a beautiful fantastic world. It was an out of scale with humanity; but it is a good thing now and then if you manage to realize that the world was not created on your own scale. It sharpens the sense of values.—Lord Tweedsmuir in The London Sunday Times.

CANADA'S AGREEMENT

(Continued from page one)

launched the debate on the Throne Speech reply which may continue for a week or more. The address in reply was moved and seconded by two new Liberal members, J. H. Francoeur of Lotbinière who endorsed the government's defence policy, and T. R. M. Warren of Renfrew North.

Mr. Bennett concluded his speech by moving an amendment expressing regret the government had not taken measures to deal with unfortunate economic conditions and that no action was proposed to relieve uncertainty and insecurity arising out of inadequate incomes for the people.

The terms of the amendment and some of Mr. Bennett's remarks about the possibility of money reform led Mr. Mackenzie King to suggest the opposition leader was seeking to combine the Conservative and Social Credit parties.

"He may be hoping," said the Prime Minister, "that between now and the next election he can succeed by some doctrine of economic nationalism in finding a solution to all national problems.

"Perhaps he hopes to bring these two parties into combination. The Conservative Party will be brought into the combination on the basis of high protection and the Social Credit Party will be brought in on the basis that their experiment can succeed only when they have no contact with the outside world."

Contractors Complaining

Mr. Bennett charged electoral corruption was rampant in Canada as never before and offered to go before a parliamentary committee and produce evidence of party organizers making levies on government contracts. One thing was getting so bad the contractors were complaining, he said.

A contribution to a political party was one thing, he said, but a levy was another. Such conditions continued they would menace the state. He held democracy was in greater danger from internal corruption than from Communism and other such forces.

Mr. Mackenzie King said any reform like that suggested by Mr. Bennett, which would lessen electoral corruption would be welcomed by the government and he resented however Mr. Bennett linking the question of electoral corruption with that of power export.

History Well Known

The Conservative leader had suggested the history of Beauharnois power development was well known. Power and Ontario Hydro-Electric Power Commission wished a report was from Beauharnois. Senator Donat Raymond, who had profited from Beauharnois, was now treasurer of the Liberal Federation and the President, Norman Lambert, was now in the Senate.

If parliament were to pass upon the export of power, parliament should be free and members of both Houses should not be subject to influence.

The Prime Minister said there was no reason why a man who accepted office in a political organization and gave his services should not have a seat in parliament. The government did not propose to curtail the power of parliament but to add to it. The House would receive the bill on power export in due course.

The two leaders blamed their respective parties for the dissension now prevailing between provinces. Mr. Bennett traced it back to withholding the natural resources from the Prairie Provinces when they were created in 1905 under a Liberal government and Mr. Mackenzie King to Mr. Bennett's alleged dictatorial tactics during his recent five-year term of office.

Long Series of Demands

The 1905 settlement, Mr. Bennett said, had left the Prairie Provinces inferior to others and started a long series of demands on the Federal government until that condition was rectified and other concessions obtained.

Mr. Mackenzie King said the provinces had been led to suspect a federal plan to usurp complete control of affairs by Mr. Bennett's action in enacting his unemployment insurance measure through parliament without consulting the provinces.

For his part he believed unemployment insurance could be obtained only by the consent of the provinces and it was to that end the government was working.

Export trade was an unreliable foundation upon which to build Canadian prosperity, said Mr. Bennett, Canada should take steps to provide security for its people by building up internal trade and by doing something, even if only by way of experiment, to increase the incomes and the security of the people.

Asks Question

"Are we incapable of any progress or money reform or security?" he asked.

The Prime Minister compared Canada's economic condition now with that during Mr. Bennett's term of office and concluded that while everything was not what it might be it was infinitely better.

"We are gradually getting conditions improved," he said, "not as quickly as might be desired but as rapidly, apparently, as circumstances permit."

The opposing leaders clashed sharply on the Royal Commission on Dominion-Provincial Financial Relations. Mr. Bennett thought the Commission would be harmful rather than helpful. The Prime Minister declared it had already demonstrated its usefulness.

Electoral Corruption Charged

Conservative leader Bennett in charging electoral corruption[1] was rampant in Canada and that levies were being made against government contractors, including Canadian National Railways contracts, offered to give particulars to a house committee.

The leader of the opposition,[2] interjected Transport Minister Howe, "has said altogether too much or too little. This must be threshed out."

"It can be threshed out anytime you want", replied Mr. Bennett, "and before any committee of this House that you desire to go into the matter."

The Rowell Commission came in for criticism from the Conservative leader who said he had been opposed to it from the start. He protested against a commission which undertakes to re-define (constitutional) powers when composed of members of one shade of political opinion."

He said he had great respect for Chairman N. W. Rowell, who, if there had been a vacancy on the Ontario Supreme Court Bench during the Conservative regime, would have been recommended by him. But, in private life, Mr. Rowell was "a man with strong political views."

Dafoe Criticized

Regarding John W. Dafoe, editor-in-chief of the Winnipeg Free Press, Mr. Bennett said: "He is a man who has managed, for one reason or another, to insult in some way all those who do not share his political opinions. He has been doctor-in-chief and physician extraordinary to the Bracken government ever since it came into office and he had the pleasure the other day of having them shower before him and say that if something was not done they were broke and in default. Presumably now, as physician-in-chief of the Commission he desired to apply the same remedy with a like result."

Charges Partisanship

Turning to A. R. MacKay, who represents the Maritimes on the Commission, Mr. Bennett said: "For history partisanship, I have never known his equal. I say further, that he has published a book recently and sent proofs for revision to many people throughout this Dominion and from beginning to end it was a tissue of misrepresentations and false statements that had to be corrected in order . . . that it might have a semblance of truth attached to it."

The Rowell Commission, Mr. Bennett said, would be harmful, not helpful, in solving Canada's constitutional problems. Already: it had succeeded in setting the east against the west.

"This is what we have, instead of meeting together as our fathers did at Quebec, when they were drafting this constitution or meeting together as they did in the United States to frame the American constitution."

Home economists say that colonists in the United States used to bake 75 to 100 pies at a time and store them frozen in jars for future use.

Measuring smells by freezing them has helped research workers find a new way of filtering odours. From recirculated conditioned-air in railroad cars,

They'll Do It Every Time :-: By Jimmy Hatlo

SECRET SUCCESS IS 100% SERVICE

P. C. MacLaurin is Special Speaker at Kinsmen Club

Illustrating a brilliant informative address "How Much" with the mythical stories of Midas, Midio and Philemon and Boseus, two extremes in the point of service to mankind, Mr. P. C. MacLaurin, Principal of Belleville Collegiate Institute pointed out to the membership of Belleville Collegiate Club at their regular fortnightly banquet and meeting held at the Queens Hotel last night, that the secret of success and fellowship among mankind is not how much we are doing in terms of dollars and cents, but one hundred per cent service to our fellow man.

"The eternal question in business and in private life is how much is the cost," the speaker said, "Everyone must make a profit but we never think of the cost of production. If we can settle this then we can settle the question of Capital and Labor. In my mind no particular class should get more than the other."

"There is one system of accounting we can keep," Mr MacLaurin said, "that is the system of debit and credit, but there is another system we should keep not that of give and take but give, give, give. It is the same spirit, that is expemplified in the saying "What profiteth a man if he gain the whole world and lose his own soul." The accounting we must keep is the one that makes man, that grows the soul and keeps the soul character."

"The rich man's son must have an education, as must the son of the poor man. Let us get that spirit into us that when we have to close the books and stand before the bar add the Judge asks us "How much did you give" we can say "I gave one hundred percent."

"For that is what we must put in life, in sympathy, in fellowship and in energy.

"And when the infinitesimal space of time allotted to us has gone what are we going to leave those behind us. Just one hundred percent."

Each Must Give

If the spirit in Labor is to be the same as in capital then each man must give the other one hundred percent, the speaker pointed out, "it all lies in the answer, Love until you have given this percentage." he said. "The constant dripping of water will wear away the hardest stone. Let us do our thinking freely and our acting the same way. The solution is an open mind to view things as they are and to let the other fellows get their percentage and you get the one hundred percent." the speaker concluded.

During the business part of the meeting which took place prior to the address, considerable discussion took place regarding the proposed sponsoring of a Field Day among the schools of the city. A delegation composed of Wilfred Flagler and Don Roe was appointed to interview educational heads of the city with their purpose in mind.

An amusing feature of the meeting when Kinsmen Flagler and Phil. Huddleston delivered three humorous impromptu speeches. These talks are a feature of each meeting and are the source of much merriment to the non-speaking members.

The proposed meeting of this district at which important officials of the Kinsmen Club were asked to speak and which was to be held on Feb. 14th was laid over in deference to the dance of the local Kiwanis Club being held on the same date.

Kinsmen Jack Allin, introduced the speaker of the evening, while the appreciation of the club was voiced by Kinsman Shaw and extended to Mr. MacLaurin by President Cleo Collins. Kinsmen Lebeau acted as Sergeant-at-Arms with Kinsmen Don Roe as song leader. Phil Huddleston presided at the piano in his usual capable manner.

FORMER PRIMATE DIES IN IRELAND

Most Rev. C. F. D'Arcy Former Primate of All Ireland Dies After Illness of Short Time

Belfast, Northern Ireland, Feb. 1 (CP)—Most Rev. Charles Frederick D'Arcy, 78, until retirement last year Archbishop of Armagh and Primate of the Protestant Church of Ireland, died today at Armagh. He had been seriously ill for several days.

Dr. D'Arcy distinguished himself in the church both for his administrative work and for his extensive writings on doctrinal subjects. Ordained Priest 52 years ago after a brilliant university career, he lectured widely in the British Universities and held a number of livings in the church in Ireland.

In 1903 he was consecrated Bishop and held several appointments before his elevation to the Archdiocese of Dublin in 1918. The following year he succeeded to the Primacy.

SLIPS AND FALLS DIES SHORTLY AFTER

Brockville, Ont., Feb. 1—(CP)—Crown authorities here said today it was unlikely an inquest would be held in the death of Nelson P. Jones, 64, of Frankville, found dying on a street there yesterday after he had apparently slipped and fallen on an ice-covered surface.

Dr. W. E. Throop, in whose surgery Jones died a few minutes later, said Jones suffered a dislocated vertebra. He had been in ill health for some time.

TWO KILLED IN FLAMING 'PLANE CRASH

The fate of Gerald Vultee, noted aeroplane designer, and his wife Sylvia, pictured (ABOVE), which was shrouded in mystery, is believed solved by reports from two witnesses near Flagstaff, Ariz., who say they saw Vultee's aeroplane crash in flames, and scouting U.S. army fliers also report the wreckage of the machine is that of Mr. Vultee, president of the aircraft company bearing his name, was flying with his wife from New York to Los Angeles.

$3.49

Engineer Talks With King Boris

Falls City, Neb., Feb. 1—(AP)—The big news in Falls City today was railroad engineer Gus Phillips' trans-Atlantic telephone call to King Boris of Bulgaria on the occasion of his majesty's birthday anniversary.

Phillips and King Boris became acquainted in 1932. Both found mutual interest in railroad engineering problems.

"Your Majesty, this is Phillips speaking from America," the engineer said, "I am extending you my sincere greetings." Good health and a long life to yourself. My love to all Bulgaria."

The King answered: "Thank you very much for your kind wishes," and then inquired about the weather.

The call cost Phillips $31.

TRAPS TWO SKUNKS

Galt, Ont., Feb. 1 (CP)—Parks Superintendent Percy Hill has completed a dangerous mission successfully. He found a number of feed dead at Victoria Park and trapped the killers — two skunks.

Scientists have found that hams can be given the flavour of southern style aging in a few weeks by a simple process.

Miss Louise Schryver, who is attending Library School, Toronto, spent the week-end the guest of Miss Grace Treverton, Barrie, Ont.

Mr. Earl Lidster of Coniscliffe, has returned from spending a week in Toronto, with the Goodyear Tire and Rubber Company.

Stewart Morrison McBride, Collegiate pupil, son of Mr. and Mrs. Stewart McBride, Foster Avenue, suffered a fractured right fibula playing hockey Thursday.

Major Harry H. Ponton, District Field-Inspector of Hamilton and Grimsby Beach, spent the week-end with his father, Colonel and Mrs. Ponton at Sidney Cottage.

Mr. and Mrs. Martin McCreery, Miss Grace McCreery and Mrs. Edward Cross left today by motor for Florida.

Mr. Everett Bell, Coleman Street, ill in Belleville General hospital, is still in a serious condition.

Mr. S. Gordon Robertson of London, and his little daughter, Anne, spent the week-end at this home here, the guests of Mr. and Mrs. Stewart Robertson, Queen St.

Miss Doris Irwin and Miss Beatrice Herrigan spent the week-end in Niagara Falls.

A very enjoyable evening was spent last night by members of the Weekly Club at the home of Miss G. Borley, Bleecker Ave. Miss Ivy Corby sang and a duet by Misses were served and a good time was enjoyed.

Miss Dolly Forest has returned to her home in Peterborough, after being the guest of Mr. and Mrs. Gordon Green.

The members of the Evening Branch of the Woman's Auxiliary of Christ Church met at the home of Miss Frances Reid, Bowsell Street, last evening. Following the business of the meeting, refreshments were served by the hostess.

COMMITTEE MEETS

A meeting was held in Belleville recently by the committee in charge of arrangements for the Get Together at Lions Hill next summer.

NAMES INCORRECT

Mrs. W. Wickett is the president of the Woman's Auxiliary of Prince Edward Unit and Mrs. (Rev.) Horton is president of the Woman's Missionary Society of Bethel and president of the Y.P.U. The names were incorrectly given in the account of the annual congregational meeting of the church, in Saturday's issue.

The Stars Say—

For Wednesday, February 2

By GENEVIEVE KEMBLE

According to the lunar as well as mutual transits, this should be a day of unusual activity and personal gratification in both business and private lives, which should be lively, profitable and full of happy incidents. Your understanding may prove gainful. A journey is in store, possibly with sentimental influence.

If This Is Your Birthday

Those born this birthday are assured a year of much progress profit and joy, also in business, and adventure in the private life. Secret understandings or writings may bring to you gifts or fortunes. In private life there may be a gain in sentimental standing or probably a romantic adventure.

A child born on this day may be very versatile, with much originality, the spirit of adventure and much initiative. It will have much personal charm and should be happy in its private life.

HERE'S WHAT **COLD CATCHERS** SHOULD KNOW

VICKS VA-TRO-NOL
Keep It Handy . . . Use It Early

"Vicks specialized medication—Vicks Va-tro-nol is expressly designed for the nose and upper throat, where most colds begin—and grow. Used in time at the first sneeze or sniffle or irritation in the nose—it helps to prevent many colds, or to throw off head colds in their early stages. Even when your cold is all clogged up from a cold, Va-tro-nol brings comforting relief—lets you breathe again!

Making Lips Lovely

(By HELEN FOLLETT)

The natural color of the lips is deeper than the color of the gums there is a bond between them. Nature doesn't make mistakes very often; she only forgets to discriminate between matters. When you apply the lipstick note the color of the gums, especially if you are one of the lipsmiters. Judging by the photographs of beautiful ladies that appear in newspapers and magazines, the sisterhood is always smiling.

Practise laughing before and contract. When lips are in repose, the surface shows many fine lines; when wielding the rosy pigment, hold the flesh smooth, as in smiling. Pull it in creasewise, not in the wise stroke. There will be an even application.

Pull down the lower lip, touch the inner surface lightly. Don't make the pretty pouting, you'll be in facial form. Everybody knows that prevailing style is that any woman thinks her lips these days, but that's no reason why the lips are a la carte of the dressing table should be publicized.

Now that ears are out in the public eye, it's time the candidates for good looks to powder nearly as much as they rouge. Light touch of rouge to the lobes.

The healthy woman doesn't have white, waxy ears; they are always a delicate rosy colorings on the lower section.

If the blonde lovely feels that life is bitter unless her hair is bleached and the beauty budget runs dry, she will get better results by using what is called white henna than by pouring the contents of the peroxide bottle over her pretty "bean".

There's no such thing as white henna. It's just a name invented by the beauty trade. It is made by taking one cup of powdered camphorated adding enough peroxide (Vol 17) to form a cream the consistency of whipped cream adding one-half teaspoon of ammonia. If the hair is not lively after the shampoo is short, use only half the formula.

When the hair comes out from the shampoo, spread the pack over the

ANN MILLER

Actress who applies lipstick expertly, carefully

to the roots, using a toothbrush for the purpose.

It should be made evenly and quickly. Call in a willing member of the family to help.

Leave it on for five or six minutes if the hair is just to be lightened and tinted. Scrape away the paste at the temples and see how much the hair has lightened. Another shampoo must follow along, and a lemon rinse, hopefully. For the rinse, add the strained juice of two lemons to a pint of water.

Advice to the Lovelorn

by BEATRICE FAIRFAX

(Copyright, 1937, King Features Syndicate, Inc.)
Famous Authority on Problems of Love and Marriage.

Marriage Is No Bondage For This Contented Lady

These days, when marriage has become a case of "in again, out again, back again Finnegan"—to paraphrase an old quotation—we're not apt to think of a woman who makes a success of her marriage as an institution.

Yet, the most cynical of us are agreed that some women do manage it.

Of late I've had more women with the point of view of the correspondent from whose letter I shall quote, who have fewer and fewer qualms as they weigh old world. I warn you, I'm going to be sentimental over this lady's letter. Here goes:

"Dear Miss Fairfax:

"Perhaps you become discouraged after hearing nothing but the dismal clanking of the ankle chains of unhappily 'fettered' couples. But here are a couple who actually value those 'fetters'.

"We've been married ten years and have a small son. Although we love him dearly, we're not letting him come between us. We had each other first, and after he is happily married, we expect to have each other again exclusively.

"Like the majority of children, our son will not be too much concerned with our problems; we will continue to carry through together the joys and sorrows that are important to him than ours; ours won't be joys unless we share them. One day still begins with my husband's homecoming.

"We've had troubles —illness resulting in nurse and doctor's bills, financial reverses, unexpected and large debts. Even my husband's secretarial job couldn't keep pace with them.

"Sometimes it's been pretty hard to make our little display cases, cars, homes, etc., when for five years we've bought nothing we couldn't do without, trying to pay off those doctor bills. And then we've inherited quite a few times, more financially fortunate friends could not help but remember the contentment we have, in having one another—and our youngster!

"And now, when finances seem to have reached the lowest ebb, I've done a little substitute teaching. I may get more—enough perhaps to pay the rest of those heart-breaking bills. But even if not, we still have the ingredients for our particular contentment—each other.

"Lucky Lady"

Congratulations to the lucky wife, in a cockeyed world, to have found contentment! She has brought out no brass band to celebrate her achievements, and I'll wager that she has never spent five dollars in a beauty parlor in her life. But I'm sure that the in-clothing contentment has kept her younger looking than all the wizardry of the beauticians.

What sort of mental picture do you get of this lady's husband? I am confident he hasn't lost the art of saying nice appreciative things to his wife, and that he, belongs to the minority who forego the thrills and thieving adventures with other women.

Wife Preservers

Raisins, dates, currants and figs blend better with other ingredients if they are soaked for five minutes in a little hot water. The tablespoon of water for each half cup of fruit is the right proportion.

SALLY'S SALLIES

When a girl is a flat tire she is very soon changed.

In the 30-years since fire boroughs were consolidated to form greater New York public and semi-public agencies of the area have spent $6,000,000,000 for civic functions.

Tornadoes result from collision of masses of air whose temperature are at wide variance.

One modern machine for making elected lamp bulbs can turn out half a million bulbs a day—the work of 500 glass-blowers.

Insects damage about five per cent of the stored grain and milled products in the United States, a loss of $250,000,000 a year.

Child Should Be Praised At Times

He's Apt to Rebel if Parent Finds Fault With Him Too Often

By LISA ORINELLE

Dick came down a little late for breakfast, his school books tucked under his arm. Father reproved him, not too harshly, for several things—his lateness, the state of his hair, the grimy state of his hands.

Dick's face flushed with sudden fury, and in an unexpected attack he threw his books at his father.

Naturally, his father lost no time in retaliation. Within an hour's movement he pulled Dick over his knee and "gave it to him" with one of his own offending books.

Eight-year-old sons seldom take such extreme and violent measures against their fathers, of whom at that age they are scarcely always somewhat in awe, without some basic cause—something other than an immediate irritation.

How rarely, if ever, is the immediate trouble the real cause of any quarrel or outburst?

A boy who turns suddenly on his father like this has probably some long-nursed grievance against him. The relationship between them is very wrong, indeed, and must have been for a long, long time, whether or not either one of them was aware of it.

Father Wrong?

But is the boy's grievance necessarily against? Is Father necessarily in the wrong? Fundamentally, yes. Some fault in the parent who regulates the relationship. He must lead; the child will follow. How can he lead otherwise?

Has Father can think of nothing he has done. He has never been harsh with Dick; merely reproved him occasionally, for good, good, perhaps.

But I wonder how often? I wonder if he doesn't find something to reprove Dick for every time he sees him—his nails, his hair, his manners—not without just cause, of course, but with a consistency that would be a "call-down" every time they enter the room in his presence.

It's hardly inclined to make one feel appreciated.

I don't know why but with all of us our faults seem so much more obvious than our virtues. It's so much easier to see what's wrong with a thing than what's right with it.

Skip a day of fault-finding, Father, once in a while, no matter how good the excuse. Look for things to praise. I think then there might be no more book incidents.

MELROSE W. I.

The Melrose Women's Institute held a sewing bag in the home of Mrs. Jno. Macfarlane on Thursday afternoon, Mrs. Orelup is ill with weather and the rather bad conditions of the roads the attendance was not as usual at a meeting of this kind. At the noon hour a dainty lunch was served and during the afternoon two quilts were nearly quilted.

The health program was not entirely carried out as the lecturer number an address by our local M. O. H. Dr. Eckhardt, was not present.

Dr. Eckhardt in an interesting way, dealt with the subject of infantile Paralysis. By demonstration he showed how to treat the case of a child has contracted it. Following this he dealt with symptoms, care and cure of the disease.

The president extended to the doctor a vote of thanks for the valuable information and for his kindness in coming out in the bad roads. ladies at this meeting. The doctor very graciously accepted the vote of thanks and expressed his pleasure to come to help on the program some other time.

Some business letters were read by the secretary, Mrs. Orelup, a special one for "Chinese Relief" the other for "Help the Children's Fund" were turned down as relief was being administered nearer home. The committee of clothing was disposed of at once or sent to North Hastings. If they were not in a needy district would be used to purchase children's clothing to be sent north.

It was decided to hold a social time while their busy fingers flew, and all too soon they realized the afternoon had gone when the various conveners gave in their reports and cars appeared to take them home.

The National Anthem closed the meeting.

The dinner collection amounted to $30. The next meeting will be on twenty members and seven visitors.

8th LINE GUILD

On Friday evening, Jan. 28th, a very successful social evening was held at the home of Mrs. W. H. Aikens, Rosslin, under the auspices of the eighth line Women's Guild. About 40 adults and a number of children were present. The tables were decorated with flowers and tall, pink and yellow candles in silver holders, it being the birthday of Mrs. Aikens's mother, Mrs. F. Goodfellow. A beautiful three-story cake was the attractive centre piece of a beautiful supper.

Mr. Reazer proposed a toast to Mrs. Goodfellow to which her eldest son, J. A. Goodfellow responded, after which the company sang: "She's a Jolly Good Fellow". At this point, Mrs. Burrows Golden, to one of the chosen words presented to Mrs. Goodfellow on behalf of the Guild with a beautiful cyclamen. Mrs. Goodfellow was greatly taken by surprise but thanked the members for their kindness. After the supper was over with, Mr. Fred Coulter was chosen chairman and the men furnished the programme which consisted of solos, speeches and humour, also a contest, "A Musical Romance". Mrs. Eddie Golden and Orley Glass, winning the prize. This part of the programme was brought to a close by Mr. Reazer moving a vote of thanks to Mr. and Mrs. Aiford for giving their home. "For they are Jolly Good Fellows" was sung and God Save the King. All present thoroughly enjoyed with John Hart furnishing the music.

Finest Quality Always "SALADA" TEA

Jack Haley, Rochelle Hudson, Arthur Treacher and Eugene Pallette in the comedy hit "She Had to Eat"at the Capitol tomorrow.

GOOD MANNERS

by MRS. CORNELIUS BEECKMAN

(Copyright, 1937, King Features Syndicate, Inc.)

Invitations

Dear Mrs. Beeckman:

I am planning to give a surprise birthday party for my sister. Will you please tell me just how to write these informal invitations so that those to the girls will let them know that they are to bring their escorts, and the invitations to the boys will let them know that they are each to bring a girl friend?

Sister

Your note migh read something like this:

Dear Susan:

I am planning to have a party for Betty, on her birthday, Friday the twenty-fifth of January, and I do hope that you can come. And would you like to bring a boy with you? If you will ask him first, and then tell me who is the fortunate boy that you have chosen, and his address, I'll write him a note of invitation, welcoming him to our home.

Will you plan to arrive about eight o'clock, and rather punctually, since it is a surprise party and I'd naturally want to have the guests assemble before Betty comes in.

Do say "yes", for Betty and I wouldn't consider it a party without you!

Affectionately,

The note of invitation to a boy should be about the same, except that the sentence about bringing a girl would state a "girl". Notice that I have suggested that you write a note of invitation to the guests that you intend to have others also are inviting. This is the correct thing to do, and I hope that you will not omit these notes. They would be something like this:

Dear Mary:

Jane Brown has told me the charming news that she has invited you to come to our party for my sister, Betty on Friday, the twenty-fifth of January, at eight o'clock, and I am writing to "second" her invitation, and to tell you how delighted we are that you are coming. It will be a pleasure for us to welcome you into our home, and we are looking forward to greeting you.

Cordially,

Leave-Taking

Dear Mrs. Beeckman:

1—Should a gentleman go first when a lady escorts him to the door, or should she precede?

2—Should a gentleman take his hat off when the lady of the house comes to the door whether he intends to go in or not, or is it sufficient to merely lift his hat?

Male Reader

1—They would probably walk together to the door. If not, the hostess should precede.

2—The man would stand with his hat in his hand as he is talking with the woman-of-the-house at the door.

Conveyance

Dear Mrs. Beeckman:

Is it proper for a girl, when she invites a young man to a dance, to drive her own car, or should she let the young man hire a taxicab?

S.

This is just as she wishes, and just as she feels convenient. If it is thoroughly convenient for her to have her own car, it would seem a generous thing to do, and I am sure that the young man would appreciate her thoughtfulness.

Second Marriage

Dear Mrs. Beeckman:

What should a widow forty-five years of age wear when she remarried a second time? Would white be proper?

Widow

The bride for the second time should not wear white. Beauty, and a second marriage, the bride wears an afternoon dress of a shade particularly becoming to her veiled framed in self cording.

A study in contrast is a play suit with shorts of dusty green with soft tussore. The belt and buttons are stories from the tussore. Brown and ground of glistening white sand.

Nice work as companion to a smart evening frock is a full length fitted coat of dusty green with collar and pockets of blue pailletes.

Poems That Live

"LOVE HATH A LANGUAGE"
From "To My Son"

Love hath a language for all years—
Fond betrothyts obscure and old—
Wherein the heart reads, writ in tears,
The tale which never yet was told.

Love hath his meter, too, to trace
Those bounds which never yet were given,
To measure that which mocks at place,
Space.
Is deep as death, and high as heaven.

Love hath his treasure hoards, to pay
Their faith, or goodly service done—
Dear priceless nothings, which outweigh
All riches that the sun shines on.
—Helen Selina Sheridan

Recent surveys indicate that 57 per cent of the 349,350 persons receiving direct relief in New York City have received minimum standards for employment in private industry.

Madoc

TRINITY CHURCH MEMBERS HEAR YEAR'S REPORTS

Congregational Meeting Closes Satisfactory Term of Activity

Madoc—The annual meeting of the congregation of Trinity United Church, Madoc, took place in the school room of the church on Thursday evening, January 27th. In spite of the icy condition of the roads and illness in many homes a fine congregation was present, and a spirit of interest and enthusiasm prevailed throughout the evening. The pastor, Rev. I. E. Kennedy took charge of the meeting with Mr. Hollang as secretary. With the annual church reports at hand it was found unnecessary to ask for financial statement from the different organizations. Presidents of each society gave short addresses on the activities during the past year.

Women's Association, Mrs. Mc-Bain; Missionary Society, Mrs. W. Broad; Sunday School, Mrs. Fred Holland; Young People, Miss Freyguson; Choir, Mrs. George White; Trail Rangers, Mr. Gordon; C. G. I. T., Miss Garrett; Mission Band, Miss V. Embury; Pastor's Report, Rev. I. E. Kennedy.

A vote of thanks was tendered Rev. Mr. Kennedy and Mrs. Kennedy by Mr. Robert Bristol and Mr. Jas. Irwin with an unanimous invitation to remain as pastor of Trinity United Church. The impressive memorial service was conducted by the pastor. A letter of remembrance was also sent to Mr. William Fletcher who is recuperating at a home in Hamilton after a prolonged illness. During the course of the evening a duet was sung by Miss Margaret Kennedy, and by Misses Mary Embury and Ruby Paris and community singing under the leadership of Mr. O. I. Ross. At the close of the meeting a splendid lunch was served by ladies of the church. Comm's also in attendance.

On Friday night Mrs. Bertha Sutton, vice-president of the Belleville Assembly of Ontario paid a visit to the Madoc Assembly Rebekah Lodge, Madoc. Mrs. Blanche Cunningham of Belleville, District Deputy President attended also. At 8 p.m. the lodge a splendid banquet was tendered the guests in the Lyle banquet hall which decorated the gifts were presented to Sisters Sutton and Countryman by Mrs. Mabel Stockford while Mrs. Dixon read the address. At the close of the banquet a short entertainment program was given. Mrs. Aselaine of Toronto gave some splendid vocal selections on her piano accordian. Visiting members were also present from Tweed and Stirling Rebekah lodges.

Fashion Flashes

By Alice Hughes

Score at dock tennis with the wearing of a red and white silk play suit, the latest as she plays convenient. If it is thoroughly convenient for her to her own car, it would seem a generous thing to do, and I am sure that the young man would appreciate her thoughtfulness.

Dance under the moon, in a frock of dark blue marquisette, the wide skirt trimmed with huge camellias in arabesque. The bodice and red velvet

Dance under the moon, in a frock of dark blue marquisette, the wide skirt trimmed with huge camellias in arabesque. The bodice and red velvet framed in self cording.

Nice work as companion to a smart evening frock is a full length fitted coat of dusty green with collar and pockets of blue pailletes.

The Muscal grape has a history going back 2,000 years, and has been grown for centuries in dry lands around the Mediterranean, yet it seems to have acquired neither resistance nor the habit of rooting deeply.

According to the External Trade Branch of the Dominion Bureau of Statistics Canadian imports of precious stones increased over $12,000 in 1936.

Gold mines in Africa may be mechanized to offset the labor shortage.

LEAGUE APPOINTEE

One of the only 12 women ever to be admitted to the New York City Bar Association, Miss Dorothy Kenyon shown (ABOVE) at Geneva has been appointed by the council of the League of Nations to a committee of eight which will report on the legal status of women in various countries. Miss Kenyon has just completed a two-year term as first deputy commissioner of licenses in New York.

"In Search of Adventure"

By MARTHA McCULLOCH-WILLIAMS

"Did you ever?" from Arelene in a karate whisper.

"I surely never did!" from Sarah-Belle along with a shaken head. Coverity they were starting at a blemish on the young girl, with the left hand, violently fluffed, in a short shimmery gauzy frock. Standing beside a plump young man, she surveyed the picnic crowd that came out to dance this summer day in the shady coolness of Deer Run. The yearly dance was more than ever an event, since Ryze Roland, home from much travel, had thrown himself heart and soul into making it so.

The strange pair had bowled up in a low racer. Turn-pike dust showed it had come a long way—likely without intention. The girl put up her lorgnon—gold and gem studded—and directed through it a bad minute, then said jollily—to space apparently: "Do the Rubes stare! I'll tell the world they do, they do."

"There are no more Rubes! Radio has abolished them," the man flung back. "Say, you like drinks! They know us—headliners in a vaudeville team!"

"Society's pets! O, O! How gorgeous!" the girl cried. "D'ye reckon, boy, the grizzled hair, with a bit of red to do a turn?"

"Certainly! I may so far presume upon an ex-attendoper's privilege," Roland said affrancing his head back with more difficulty, but with a laugh in his eyes.

"Then you don't even have a heart, Mister." Spite of our looks and—well—dust, I'm good—only half a tank of gas. Stake us, please—you look so kind. All we'll need is a few dollars—and maybe a bite or so before we quite pe."

Roland's eyes, which had dances took position, the girl saying over her shoulder to Roland: "Announce us! The Hellons! Society's Pets," then flung herself upon her partner. A spectacle beyond even Roland's experience it held the rest absolutely—it was done. The room changed—now it was vivid, now subdued—but the Hellons' dances seemed bodied forth in it.

Then, after a few minutes, bade the music cease, then himself conducted the girls to the dressing-room, and himself took them to still dinner—which was one very abovestairs room. Roland, as host, sat with him. She was grateful instead of self-conscious, said: "Promise not to try to find me out—unless I send for you. However that may turn out, I shan't forget you. You've given me—the first free breath I've drawn in years."

Headed homeward in the red racer, Sarah-Belle asked: "Betty, where did you get it? Are you a Rube? It's pretty, but not stylish."

"Are you grateful to me for carrying an ad well?" Betty countered, with a chuckle. "Well, I'm not—ought to be. Your mind was set on something else—and you'll do it, I swear to die single" unless I can be Mrs. Ryze Roland."

Months later she waited for Ryze Roland, in her father's fine library, when he came. He was there for almost as while as the vaporous bride. Then, with a clearing of the throad, a diamond winking in the sun, he came forward, she in the snow-maiden, all unlike the dancer-Rubes remembered. Roland had not sent again, yet had come to know both other, reading between the lines of the wedding-gifted notes. "Come!" she had said at last—he "came"—instead of her as he went.

"A lost child cried to me from the shadows of a great richos," he said. "I am here to tell her the way out."

And that is?" huskily from Betty.

"Turn human. Womanly human," from Roland.

"And will you love me?" Betty almost whispered.

Silence closed on close, saying with her lips in her hair: "Yes—or even if you don't."

Demand in various branches of industry in Italy for equipment designed to promote national self-sufficiency is giving work to many people.

Ballot boxes were passed round in maternity hospital in Russia to permit mothers to vote at the last election.

When Child Commences To Smoke

By GARRY C. MYERS, PH. D.

Head Department Parent Education, Cleveland College, Western Reserve University

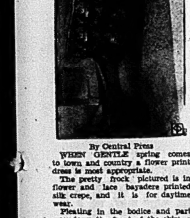
VIRTUALLY ALL parents wish their children would not smoke before reaching maturity. Many of us parents wish our children might never smoke. Smoking costs money, and it has been a needless expense from the angle of health. Certainly it is harmful to the growing child.

Some parents decide that their children SHALL NOT smoke. Then when these children do anyway they are serious parent-child conflicts, sometimes ending in grave tragedies. Indeed, some conscientious parents are so unbending in the matter that they not only lost the battle to keep the child from smoking but, still worse, they lose the child also. It has always seemed to me to be much wiser to keep the child who smokes than to lose him. And while we progress to smoke in secret, and if found out, we kind of overdue it likely to make him quit smoking. Why do so many parents fail to observe this fact?

The hope we have as parents is to keep the boy from first cigarette smoking. Love and prayers work better to this end than nagging and punishments. As a rule, the child who smokes in secret does other undesirable things in secret. It is almost certain evidence of an unhealthy parent-child relationship.

The problem facing many parents is not the boy or girl in high school but the child, especially the boy, from 12 to 16. In some comfortable communities many of these youngsters smoke a great deal without their parents knowing it. And when, at last, it is discovered by the parents, there is much talk, lecturing, punishing and other waste of emotion.

Companionship Needed



Closer companionship by the parents with the child, especially closer father - son companionship, scouting and the like are the best prevention measures. Boys who have good taste and looks and seem to be fun at home, whose friends come often to their home are wholesome good times; boys who feel very worthy in a happy family, are less tempted to smoke.

If the father who doesn't smoke is greatly annoyed by his boy, if the boy is less likely to smoke early or at all. If the father who does smoke also has a strong hold on his boy, he is usually able to induce this lad to delay smoking to later years. Parents will be most successful if they make their appeal for delay, waiting till grown up, but who don't command the child not to smoke. Indeed, there is nothing much more futile than to command the child about anything we cannot check personally.

Once the child has begun to smoke, the first objective is to help him to choose to quit. Failing in this attempt, the next objective is to induce him to set a very low limit to the frequency of his smoking. If you know he will smoke anyway, regardless of his age, it were better for you to do it before your eyes than in a secret place.

For Gentle Spring

By Central Press

WHEN CHERRY is spring comes to town and country a flower print dress is most appropriate.

The pretty frock pictured is in flower and lace bayadere printed silk crepe, and it is for daytime wear.

Pleating in the bodice and part way down the front of the skirt, a solid color belt which matches flower shade gives it color, and a bonnet-like hat completes the spring outfit.

Mineral Drugs Are Much Used

By LOGAN CLENDENING, M. D.

ABOUT 400 years ago there walked into the lecture hall of the ancient university at Basel, Switzerland, a strange, even fantastic, personage, who proceeded to lecture on medicine and medicines in terms that his hearers had never before heard. He said that all the other physicians in the world were ignorant fools and knaves. He said that everything in the old textbooks from which other professors taught was false, and proceeded to burn. In the presence of his audience, the works of Galen and Avicenna. He said that Galen especially erred when he advocated the use of plants as medicine, because the only substances that were truly healing were the minerals—sulphur, mercury and salt.

The new professor's name was Paracelsus, and while we do not agree with all the extreme statements he made, he did do the great service of putting minerals into our therapeutic armamentarium.

Today we make no rules about what we shall use for medicinal purposes, except the rule that it has the property of changing the functions of a body in a beneficial manner.

The way in which different minerals came to be found useful is a fascinating series of stories. Epsom salts, for instance, was so named because a well on Epsom Downs in England gushed forth with them. The farmers on the down thought the well was pernicious because the cattle refused to drink it, but one day a stranger with knowledge of physiology, drank some and found that it had immediate cathartic action. Ever since it has been used throughout the world, probably more than any other drug.

Discovers Bromine

In 1826, a pharmacist in Montpellier, France, discovered a brown residue in the salt ponds there. He experimented with it and found it was a new element, bromine, which had important physiological actions in the body as a nerve sedative.

Even the desert regions of the earth—arid and unlivable as they are—yield us valuable mineral drugs. Iodine, one of the best of antiseptics when applied to open wounds, is found in the great nitrate beds of northern Chile, and can be found there only because the rainfall is so scanty that they are not washed away.

Many other mineral compounds justify the work of the old bombastic doctor, Parsecelus, of long ago. We may be glad that he did not burn from medicine, as he threatened to do in his young student days. He had determined to give up the study of physic entirely when his eyes fell upon the words of the Gospel, "They that are whole need not a physician, but they that are sick."

QUESTIONS FROM READERS

MRS. F. L.: "My 17-year-old son works in a gas station after school. He has been told that he can get lead poisoning from having tetra-ethyl gas come in contact with his pores."

Answer: I know of no instance in which tetra-ethyl has caused lead poisoning by absorption from the skin, but it is not impossible, and I would advise caution in allowing it to remain on the hands for any length of time. This can be avoided by wearing rubber gloves or by carefully washing the hands after contact.

Comedienne's Flower Expert

By Central Press

HELEN BRODERICK, stage and screen comedienne, has appointed herself in a role which her public knows little of. She is a digger, she likes to grub in her garden and pick and arrange her own flowers. As a result, Miss Broderick has learned much about flowers and can make the following suggestions.

Any type of flower will keep fresh longer if the stems are washed at night and placed in soapsuds, which aids in the growth of the blossoms. In the morning, cut the stem ends with a sharp knife, place the flowers in fresh water to which a drop of ammonia has been added.

Miss Broderick prefers low center pieces on her dinner table; otherwise the guests are unable to see each other, she asserts. She likes unusual and different vases for her dinner decorations, as many people find the heavier accents unpleasant.

Not Too Many

Particularly important, Miss Broderick advises against using too many flowers in one bowl. She feels it is more attractive to see each bloom in its own perfection rather than a bewildering mass of color. She also suggests that you study the colors under artificial light to avoid disappointment, as many pink flowers appear faded in candle light or under the glow of electricity.

One final suggestion from this well-known comedienne. Don't let the current rage in flowers rule you. If you prefer pansies, cornflowers, or any old-fashioned posy, use them in your bouquets. You will be happier, the effect will be just as good, and be considerably less, in the summer when such posies grow out of doors.

MEN NEED TO BE SARTORIALLY CORRECT WHEN TRAVELING

—Courtesy Good Housekeeping

Below, left, Shetland-wool jacket, striped trousers. Panama hat; standing, striped cotton shirt; right, grey-shrunk cotton robe; lower right, linen jacket, bathing trunks, Shetland wool pullover.

By Central Press

MEN GENERALLY go on cruises don't want all 'the sartorial honors to go to women, says George Frazier in a recent article in a national magazine. They too, want to be properly clothed, and just any sort of clothes won't do, he warns.

Have a lightweight sports suit of cashmere or tweed as the basis upon which you build your cruise wardrobe, he advises. You will probably wear this suit when you embark on the cruise, and its jacket will serve as that practical odd jacket worn with linen or flannel slacks.

Several pairs of slacks are necessary for general wear on board ship and for deck sports. A gabardine suit and one or two linen or wrinkle-resisting Palm Beach suits will give you variety to your wardrobe and add to your comfort. They have another advantage, in not taking up too much room in packing. This is a point to be considered.

Everyone Dresses

Everyone dresses on board ship at night, so a dinner jacket is essential. Dinner is the goal in hot weather, and with the double-breasted dinner jacket a waistcoat need not be worn. With the single breasted coat—if your figure permits—you may wear a cool silk cummerbund.

Your wardrobe should also include the things pictured here:

A Shetland wool jacket with chalk-striped trousers; a panama hat; the correct shoes, white and brown and white sports with leather soles for general wear, and rubber soles for deck walking and games. A pre-shrunk cotton robe; a striped cotton shirt, as worn by the man at left above; and linen jacket, sketched at lower right. A Shetland wool pullover, the smart BVD bathing trunks. Sports shirts and soft, collar-attached shirts in open numbers should be included in the circulation in a swift flow of blood comes through the whole body and muscles expand. To breathe is the skin, make the eyes sparkle and gives lustre to the hair. It makes the body slender and strong. And it makes a woman feel young and alive, regardless of

DAILY EXERCISE IS GRAND AID TO THE SEEKERS AFTER BEAUTY

By GLADYS GLAD

"America's Most Famous Beauty"

DAILY EXERCISE is a grand beautifier, for it not only moulds the body along harmonious lines, but also gives it firmness and suppleness. It is a fallacious idea that during the winter months, most women are inclined to neglect their exercise.

Skating is a most enjoyable sort of exercise for a girl who wants to keep an attractive figure. And daily calisthenics and dancing lessons, too, stimulate the circulation during these dull, drab winter months.

In summer, a woman usually obtains a fair amount of exercise because of the sports in which she indulges. But during the winter she remains indoors, and, as a result, her circulation grows sluggish and her beauty loses its freshness and sparkle.

Best Way to Keep Young

Physicians claim that exercise is the surest, safest and best expedient by way of keeping young. It improves the circulation, and when the circulation is good a swift flow of blood comes through the whole body and muscles expand. To breathe is the skin, make the eyes sparkle and gives lustre to the hair. It makes the body slender and strong. And it makes a woman feel young and alive, regardless of her actual years.

If you desire to remain youthful in appearance and beautiful, do not neglect your exercise. Fortunately there are plenty of outdoor sports, you know, and you can go to gyms and dancing schools, too. However, if this is not possible, you can exercise at home.

ANSWERS TO QUERIES

Henna

Ruth: The tone that determines the depth of the red shade given the hair by a henna pack. The operator in a good beauty shop should be able to achieve the shade you desire.

Henna

Blythe: The pure, Egyptian henna, made of the leaves of the henna shrub, is not injurious to the hair. The chemical henna, however, contains metallic salts, and may prove harmful to its health.

Mouth Wash

Lillian: An excellent mouth wash can be made by dissolving one-fourth teaspoon of borax, one-fourth teaspoon of peroxide and several drops of tincture of salt in a glass of warm water.

By waving his pocket handkerchief and running to and fro from table to a big field 13-year-old Jackie Wells of Loughton, England, guided the Royal Air Force pilot, hid in a fog, to a safe landing.

Batterrea, London, has sold 320 tons of old steel railings for conversion into armaments.

STIRLING WINS OVER TRENTON 6-2

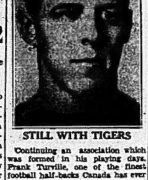
Score Does Not Indicate Play as Losers Had Tough Luck

Stirling, Feb. 1 (Special)— Two flashy teams met in a Trent Valley fixture last night at the Stirling arena and maintained a sizzling speed throughout sixty-minutes of the fastest hockey seen here this season. Local rooters cheered the homsters as they piled up a lead of four goals over their fast skating rivals, the Trenton Couriers. The Stirling boys carried the play hard and fast to their southern rivals, but were fundamentally at fault by those in the know, as the classiest squad on the circuit. Despite their perform-ance has yet to show it. Last night they were matched in every department by the Stirling lads but were robbed of many excellent scoring chances. The score was 6-2 but it does not indicate the play. For in the local's net turned in his best performance of the season and his marvelous save kept the visitors off the score sheet on many occasions. Stirling started the season as the weakest team of the league in the eye of the other contenders but the last four straight wins places them as one of the biggest threats to take the cup.

Trophy Presented

Midway through the game Mr. G. Cobley prominent sportsman of Trenton and owner of the hard-some silver cup which from this day forward will be emblematic of the league championship, officially presented the fine trophy for competition to Messrs. R. Fox President of the league and Secretary A. Wells. An expression of appreciation was extended the donor in a brief speech by Mr. Wells.

The Game



The game started at top speed with the visitors enjoying a slight edge. Stirling's passing plays began to click after seven minutes of play and Robinson and Leonard went through to beat Steinburg for the first counter with Robinson scoring on a pass from Leonard. Five minutes later Anderson tied the score when he beat Fox from close with less than three minutes of the period left. Trenton went into the lead when Lowe went through to score unassisted. This was about even it the first half of the second period with Stirling trying hard to tie it up. Ingram finally banged in the tying goal and a few minutes later gave Robinson a pass to make it 3-2. Another goal by Robinson was called back because he batted it in with his hand. Wide open hockey featured the last frame with Trenton missing several sure goals. Robinson broke away to make it four-two and Leonard and Ingram each got one to end the game 6-2 for Stirling with the Couriers still trying hard. Leonard smooth skating winger of the Stirling crew served his first penalty in four years of hockey during this game. The youthful player on the ice for this boy plays a fine game and has a real future.

Lineup:

Stirling: Goal Fox; defence, Ingram and Ackers; centre, Robinson; wings, Fraser and Leonard-suhs. Gerald Jones, Reid, Morton and Butler.

Trenton: Goal, Steinburg; defence, Kerr and Lemoire; centre, Anderson; wings, Kuffrath and Davis; subs, Yorke, Drake and Mil-ler.

Referees: Wallace and O'Malley.

STILL WITH TIGERS

Continuing an association which was formed in his playing days, Frank Turville, one of the finest football half-backs Canada has ever produced, was elected president of the Hamilton Tiger football club for the year. Turville starred in the Tiger uniform after a career which included brilliant seasons with Trenton Argonauts. He holds a seat on the Hamilton city council.

REDMEN READY FOR THE FLYERS

Game Wednesday Between Local Squads is Attracting Attention

Smarting under the defeat handed them last night by the Peterboro aggregation the Belleville Redmen meet the R.C.A.F. "Flyers" in a senior O.H.A. fixture at the Belleville Arena on Wednesday night. The Redmen have registered one win over every squad in the group with the exception of the "Airmen" and are in very mood to go down to defeat without registering a tussle. The "Flying Men," on the other hand, must triumph over Eddie Fitzsimons' charges if they hope to keep pace with the group-leading Peterboro squad in the hectic race.

Wednesday night's game was postponed from Jan. 26th and is a regular league fixture. Belleville and the Flyers still have four point games with Queen's and both are anxious to win tomorrow night's game in order to elevate their respective standings. The game is expected to be the tit-bit of the current season.

The standing of the clubs today is as follows:

	W.	L.	T.	Pts.
Peterboro	5	2	1	14
R.C.A.F.	3	1	0	8
Belleville	2	4	0	6
Queen's	0	5	0	0

All games with Queen's count four points.

Games this week: Wednesday, R.C.A.F. at Belleville; Friday, Belleville at Queen's; R.C.A.F. at Peterboro.

B. C. I. V. S. SPORTS

Last night three games of basketball were played in the local High School Gym. Jack Dickens' McCill team played 'Buck' Aiken's Queen's quintette with Gie latter winning by a score of 15 to 14. 'Buck' Atyeo was the high-scorer for the winners getting seven of their 15 points with Francis Cavanagh a close second with six points. For the losers Jack Dickens was the high scorer with four points. The second game was a very close game between 3 Com and 3 Tech with the former being the winners by a score of 11 to 10. For the winners Jack Cooper was the high scorer with three points while for the losers Bill Wright, Ken Graham and Jack Sills were high with four points each. In the third game 2D defeated 2C by a score of 14 to 6. 'Tom Anderson was the high scorer getting 8 of the winners' 14 points, while for the losers Jack Mason, Ross Rowe and Bill Silver were the only point-getters with two points each. Mr. Laughlin was the referee of all three games.

TORONTO LEAFS FACING THREAT

Canadiens Right in Stride Play Leafs Twice This Week

By The Canadian Press

Long undisturbed atop the National League's Canadian division, Toronto Maple Leafs face a real threat to their dominance in a series with Montreal Canadiens that starts at Montreal tonight and they play back in Toronto Thursday.

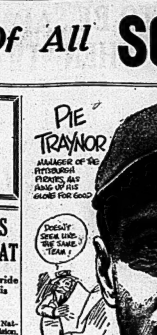
With three straight wins tucked away, Habitants are in the mood to challenge Toronto's leadership and it won't matter how they hit it they are tied with Conny Smythe's crew Saturday night. They meet with both battles to make up the four-point difference between the clubs.

When they take the ice at Montreal tonight the Canadien will line up the eight highest scorers in the Canadian division, Gatsbies releasing last night diminutive Earl Robertson and Canadiens share the top eight places evenly.

Syl Apps, Pullion of Toronto leads the pack as he has all season with his line mates Syl Apps and Harvey Jackson and Gordie Drillon. Bill Thoms, Leaf centre, is the selected crowd pleaser. Georges Mantha, Toe Blake, Red Goupee's sny Paul Haynes of Canadiens, Cecil Dillon of New York Rangers, league's leading scorer and running-up to Apps with 31 to the Leaf winger's 34 may do something about the difference tonight when Rangers meet Chicago Black Hawks in New York.

The third game of the night brings together Bruins and Detroit Red Wings in Boston. After being tied twice over the week-end Bruins will be determined to take a win before a Boston crowd and Red Wings back probably will be as bad as usual.

Toronto Lad Loses Arm in Daytona Motorcycle Race



Daytona Beach, Fla., Feb. 1— Tony Miller, Toronto motorcycle racer skidded in the 300-mile national championship automobile race here Sunday and fractured an arm so badly that amputation was necessary.

The Toronto rider was leading the field by nearly five minutes on the 44th lap when his machine went into a skid.

Bernard Campanella of Providence, R.I. won the event in 3 hours 42 minutes and 10 seconds. Lester Hillman of Hamilton, Ont., was second, a minute behind Campanella.

The addition of five new cardinals to the Sacred College of Rome raises the Italian membership to 29. Representative of all other Christian nations total 30.

CALLING 'EM
Between the Lines
with
Ken J. Calling

Failure to pass the old boot heel at the most opportune time undoubtedly cost the Belleville Redmen a perfectly good hockey game last evening. For once the Redmen's second line predominated and was the crowd-pleasing trio of the night but the inability, or rather selfishness on the part of its plrey player, one Bill Storms, made Rene St. Denis and Jimmie McGuire give only a splendid exhibition of skating up and down the wing positions practically all night.

The Redmen lost to the Peterboro Flyers by 3 to 2 and those of the readers know by now, but we firmly believe had Storms released the rubber to St. Denis on more frequent occasions the story might have been much different. True enough Storms thrilled the fans with his splendid effects at stick-handling, but he thwarted the efforts of his own cause when his apparent selfish efforts saw his wings virtually display an evening of fancy skating.

Even in defeat the Redmen sent 1,800 fans home satisfied they had seen a hockey game and their star, key game. The issue was always in doubt as the Redmen displayed the offensive when trailing in the score by two goals nevertheless the Redmen to assume the offensive verses the "Flyers" on the Arena on Wednesday night with second position in the group is actually at stake.

For the first time in two years the patrons of the game were cheering for Belleville's so-called second line of offence led by Storms, St. Denis, McGuire and Haines, the former two really giving the fans something to exercise their lungs about. Incidentally Rene St. Denis is playing heads-up hockey this season and is being rewarded by goals and assists. The kid has much natural ability re-gardless as to what angle you may gander it from. Our pick of the night, however, was Jimmie Haines. Personally we think Fred was the star of the lot and the pick of the game, his stand out was regardless whether defensive or offensive. Both goalies stood out, with Harding making supernatural saves as the Redmen assumed the offensive in the dying moments, Hinton is undoubtedly a find, insofar as the Redmen are concerned, however. The kid has been sensational every time out.

Belleville's second line scored both goals last night, with Bentley and Murphy being assistants on one occasion. As we understand it the Peter were rather chagrined at last night's play by visitors of winning by a much larger score. As a matter of fact they were making goals as to who would score next. Incidentally there is little doubt as to whether Rene St. Denis, Hamis McGuire or Freddie Haines can shake or not, they surely gave a splendid exhibition of the art up and down the wing lane, as Storms' carried the puck to prove their ability, however. Despite all this the patrons of the game still were in love with the Storms-St. Denis-McGuire line; they had what it takes.

During an intermission Ned Villerall pulled a really good one-it seems he is planned over a local hockey programme in which his name was spelled wrong (Villirelis) —"Say, you'd think a newspaper signer, to read this programme," shouted the fiery Ned, when incidentally is somewhat of a fun-maker at ice.

Scoop—as the Oshawa scribe would describe it, but regardless he saw a professional scout in the city a gander at last night's game-line. We've not divulging any names in this instance, however to keep confidence, but he'll be right back to look over the boys on Wednesday night when the Redmen meet the R.C.A.F. "Flyers" in perhaps the most important tussle of the season. Eddie Thomas' charges are also in a very amicable mood today and should they win, will be in the thick of the fray to take out their feelings against the Flyers tomorrow night. It should be remembered, there's only two points difference between the Redmen and the Flyers.

HOCKEY FODGE—Scotty to report that Pete Morgan, former Belleville puckster, sustained a dislocated shoulder during a hockey game at Coniston recently. It's hoped the injury was not serious... It's two games for one admission over at the "Y" tonight when the Peterboro Wesolcot girls battle the local "Y" lassies at basketball while the Albert College Intermediates meet the Belleville "Y" in a league fixture also. Both are championship games and should attract a good following, as both "Y" squads are very much in the running for their group honors.....The local lovers of skting are highly chagrined these week ends. "We get some very Inviting zone along about the end of the week to elevate our aspirations, but on Sunday the weatherman is just an old meanie, he hasn't given us a break for three week ends," they lament.....Understand there's more hockey being played in the Leg committee rooms, than there is on the ice, tut, tut, boys, grow up.

Random Pick Ups!

Eddie Shore told us something about Boston's Garden operations. He owns a section about 20 acres. In one-half section he grows hay and wheat. In the other he grazes cattle and forty head of horses, mostly Belgians and Percherons which he sells at a ready market on the prairies and in this east.

☆ ☆ ☆

This is Hamilton's fourth hospital in St. Pat's two trips as an amateur with St. Mikes and C.C.M., another with a bad hip at Syracuse, and now this.

"I've got some loose teeth," he told the boys, "that was when Detroit Smith cross-checked me in the mouth in the first period."

"He don't fool," observed Metz sagaciously.

"You'll be able to get all those teeth fixed up now at the club expense," Howley Liddel Reggie.

"That'll be a break," conceded Hamilton, "had two pulled out at my own expense when that shoulder trouble came last season."

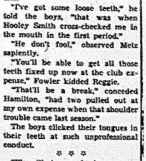
The boys clicked their tongues in their teeth at such unprofessional conduct.

☆ ☆ ☆

"We will give you hockey as open as Joe Brown's face," Lester Patrick said over the telephone yesterday. "If your Leafs like that kind of hockey that's precisely what will give them Saturday night."

This was Patrick's response to a suggestion that some of the clubs in the N.H.L. set up at the moment, are not doing right by the spectators when they played tight, or defensive hockey.

☆ ☆ ☆



Buzz Boll used to enjoy pampering a superstition. He would forever comb his hair before going out for a game. He had permitted the rich brown curls to twist as they might. Then one night in Syracuse, perhaps because of a blonde in the fifth row, or something, the Buzzer slicked down the riotous waves.

"I got bunged around like a prize fighter that night," Buzz laughed, "so I figured there wasn't much percentage in it nohow. So now everybody combs me and I have no pet superstitions or aversions."

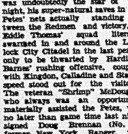
BENTLEY STARS

Second Line of Redmen Give Fans a Number of Thrills

Gaining sweet revenge for their home ice reverse of last Friday the Peterboro seniors stepped in the ballwick of the Belleville Redmen and handed them a 4-2 setback on their own rendition last night when Coach "Pick" Hines' Littlick City crew dunked the Redmen 4 to 2 in a really-hard-fought tussle, that in reality does not indicate the play as Eddie Thomas' charges rose to dizzy heights in the last period to swarm over the Petes pounding out the play, only to be repeatedly thwarted by the super-natural stops of Harding, the Petes' goalie, in the pinches. Keen and fast to the second the gladiators, while 1,000 fans witnessed a sterling exhibition of modern hockey, with the teams being knotted one-all at the end of the initial frame, as the Petes came to two at the end of the second frame and added one additional counter in the final stanza. The result of the game in no way changes the standing of the local senior O.H.A. group as the Belleville Redmen can advance their standing to a tie with the present placed R.C.A.F. "Flyers" by virtue of a victory over the second at the Belleville Arena on Wednesday night.



Better as Game Progressed

The game was productive of much better hockey as the battle progressed, the snatch rising into the thrilling state throughout the final stanza as the Redmen tried in vain to grasp a last minute victory with continued fire from the Petes' territory, only to be thwarted by the super-natural work of Goalie Harding of the Petes with his continued sensational or clever lucky saves, the Belleville lads literally bombarded the Petes' citadel in the closing effort.

Belleville's second line of offence, Cook and Bentley, and Hinton, all hailing from hometown fans their greatest thrills and rose to heights on the attempts, only to see the storms continually bewilder the opponents' defence, but failed to produce the sensational combination pass, when goals might have been definitely scored. Bentley consistently stood out as the best puckster tossed over the boards by Referee Thomas, the Napanee rear-guardman turning in his most superb effort of the season, checking his ways and literally being the best puck-chaser of the night. Bentley's checking was most effective, while his rushes were always dangerous, while coupled with the splendid work of Ab Hinton between the posts plus the defensive play of the group running. The Jackson brothers and Murphy also played a good hour for the homesters.

Harding a Star

Harding, the Peterborough goalie, was undoubtedly the star of the night, his super-natural saves in the Petes' nets actually standing between the latter and victory, as Eddie Thomas' squad literally swarmed in and around the Petes' lock City net in the first period only to be thwarted by Harding. Barnes' rushing offensive, coupled with Kingdon, Calladine and Starr's speed stood out for the visitors. The veteran "Shrimp" McDougall, who always was an opportunist, materially assisted the Petes, who no later than game time last night signed Doug Brennan (No. 6), former New York Ranger, who shows signs of promise, however. It was Brennan's first O.H.A. game.

Gets $2,810 Windfall

Lonnie Gray, part-mutuel seller at Santa Anita, was left holding the bag—almost. Gray punched $50 worth of tickets for a customer, but turned them down saying he asked for tickets on another horse. Under track rules, Gray had to stand responsible so kept the tickets. The horse, Bright Mark, a longshot, came in—and Gray cashed in his holdings for $2,810.

The Play

Clayton Jackson and Bentley were literally robbed by the great work of Harding to open the pastime as the latter rose to beat the local combination from close range. The game developed into straight orthodox hockey with swings from end to end of the ice without results. Eventually Storms gained possession, stick-handled his way in the Petes' defence, which he drew forward nicely and then passed to E. Hinds, who showed superb scoring ability as he carried the rubber into the Petes' goal, drew Harding astride and nonchalantly pushed the old boost heel into the open net. The goal was a splendid effort on the part of both picksters, Belleville held the advantage for some time until Bentley drew a penalty. On Peterboro' gauging attempt Virtarelli carried into a Belleville corner, passed out to Williamson, who shot; Starr cuffing the flying rubber into the Belleville net on the play as he stood unprotected on the west side of the Belleville citadel, making the count one-all at the end of the initial period.

Going Rough

The going was rather rough and saw continued personal contact exemplified in the early stages of the second round. Heavy body-checking was the feature, much to the satisfaction of the patrons of the game, but no scoring was in evidence until Galloway through the frame, then Barnes carried to the Belleville blue line, passed to McDougall, who drew the Redmen's defence forward and subsequently passed ahead into the flying stick of Barnes, who naturally scored from an easy angle to put the Petes up in the scoring 2-1. St. Denis waltzed in on Harding on a reverse play, but missed the net by inches on a sensational stick-handling play the veteran turning in his finest effort of the season. With Murphy on the Belleville front line, to be combined with Bentley to test Harding in the Peterboro nets, but the latter saved only to have Jimmie McGuire swoop down on the rebound to whip home the equalizer and make the count two-all. Bill Calladine batted home Eddie Starr's song pass to put the Petes 3 to 2 over the Redmen as the second stanza ended.

The last period was only seconds old when "Shrimp" McDougall put the issue on ice as he sifted in Kingdon's pass for the final scoring of the night. The Redmen were literally the aggressors from this point. C. Jackson, Wilson, Murphy and St. Denis in turn being literally robbed of what seemed to be sure goals only by the super natural goal-tending of Harding in the Peterboro' nets. The final frame saw more penalties than usual but the disadvantages only resulted in thrills for the fans, as no scoring resulted. Hinton stood out as one of the Belleville stars, when the locals were short-handed, his clever lead-keeping being one of the features of the game.

The Belleville Redmen now meet the R.C.A.F. "Flyers" in one of the deciding games of the current senior O.H.A. group series in the Belleville Arena on Wednesday night.

The line-ups:

Belleville, Goal, Hinton; defence, Bentley, Murphy, centre, C. Jackson, wings, W. Jackson, Wilson, alternates, St. Denis, McGuire, Storms, Starr, and Baines. Peterborough, Goal, Harding; defence, Weir, Williamson, centre, McDougall; wings, Starr, Virtarelli, alternates, Calladine, Gratton, Kingdon, Barnes and Brennan.

Referee—Bert Hedges, Toronto.

Shots on net by periods—

Belleville.....	10	9	17—35
Peterboro'	14	11	8—33

Summary

"1st period:

Belleville, St. Denis (Storms) 6.33
Peterboro, Starr, (Williamson, Virtarelli) 10.30

Penalties—Virtarelli, Bentley. 2nd period—

Peterboro', Barnes, (McDougall) 10.34
Belleville, McGuire (Murphy, Bentley) 13.01
Peterboro', Calladine (Starr) 13.55

Penalties—None.

3rd period—

Peterboro, McDougall (Kingdon) 1.12

Penalties— Calladine, Bentley, Storms and Vitarelli.

Wrestling Last Night

(By The Associated Press)

Lowell, Mass.: Danno O'Mahoney 225, Ireland, defeated Al Mercier, 218, Springfield, Mass., (two straight falls).

Wilmington, Del.: Steve Casey, 225, Ireland, threw George Koverly 213, Hollywood, (31.53).

Camden, N.J.: Sammy Stein, 215, Newark, N.J., won over Chief Chewacki, 228, Guthrie, Okla., (two straight falls).

Portland, Me.: Zimbo Parker, 198, Detroit, defeated Patsy Angelo 203, Ut., a, N.Y. (two straight falls).

FIVE CANUCKS SET RECORDS IN EMPIRE GAMES PRELUDE

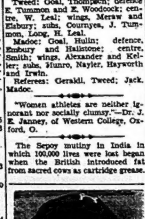
Prepping for the Empire games proper which start Feb. 5, five members of the Canadian team in Australia joined in a series of record-smashing performances in a one-night meet at Sydney, the site of games. Here are the five Maple Leaf standard-bearers. At LEFT, is Eric Cox, of Winnipeg, who hurled the discus 146 feet 2 inches to a new empire mark; top CENTRE, Jimmy Courtwright, of Ottawa, whose 196 feet 7 inches for the javelin throw set a new mark for New South Wales; top RIGHT, George Sutherland, burly Alberta hammer-thrower who smashed the Australian record with a throw of 163 feet 7 inches, Lower LEFT, is Milt Paplon, of North Battleford and lower CENTRE, W. Brown, of Montreal, Ont., both of whom set new empire broad jump records overshooting Ing Len Hutton's mark set in the 1930 games.

MADOC BREAKS TWEED'S JINX

Largest Crowd of Season Sees Homesters Win 4-2

Madoc, Feb. 1 (Special)—Madoc broke the 1938 Tweed jinx by winning from their old rivals by the score of 4 to 2 at the Madoc Arena on Monday night. The largest crowd of the season turned out to cheer the boys to a well-earned victory. Hulin in the Madoc nets was in fine shape and gave the best display of net minding seen here in some years. The return of Smith to the local line-up was a big factor in the win. The homesters are still in the race and will easily make the play-offs if they continue the same kind of hockey for the rest of the season.

With the score 2-0 in the third period Tweed banged in a goal to tighten up the game. Thompson in the Tweed nets seemed very anxious and let two slip by which made the game sure for Madoc. Tweed added another just before the game ended making the final score 4-2.



In the second period Munro and Long came to blows but were both chased for five minutes and the trouble blew over. Long continued to agitate a fight with slashing and tripping but the referees kept a tight hand.

Tweed: Goal, Thompson; defence Cummens and Woodcock; centre, W. Leal; wings, Meraw and Hickey; subs, Counties, J. Cummon, Long, H. Leal.

Madoc: Goal, Hulin; defence Embury and Hailstone; centre, Smith; wings, Alexander and Kolberg; subs, Carter, Hayworth and Irwin.

Referees: Geraldi, Tweed; Jack, Madoc.

"Women athletes are neither ignorant nor socially clumsy."—Dr. J. E. Rainey, of Western College, Oxford, O.

VAN MUNGO SIGNS

VAN LINGLE MUNGO

Ending rumors that he would be sold to another club before the training season got under way, Van Lingle Mungo, temperamental Brooklyn Dodger pitcher star, signed his 1938 contract without undue argument and prepared to travel south with the Flatbush squad.

The Sepoy mutiny in India in which 100,000 lives were lost began when the British introduced fat from sacred cows as cartridge grease.

N. AMERICAN TITLIST

Frank Stack, of Sudbury, Ont. (ABOVE), captured the North American speed skating championships at a St. Paul, Minn., meet by annexing 160 of a possible 180 points. Stack won five of the six senior races for men, climaxing his exhibition by nosing out Don Johnson, of Minneapolis in the five-mile event.

HAFFEY'S JUNIORS AND CONTINENTAL CANS WIN

Trenton, Feb. 1—(Special)—Two Intermediate hockey matches made the Trenton and District League twin bill in the Quinte Street Arena last night an interesting evening. Haffey's Juniors won over Aces 9 to 4 in the first game and Continental Cans handed R.C.A.F. a 7 to 2 trouncing in the second, Jim Beal, Greer, Lawrence, and Emerson were the goalgetters for Haffey's aggregation while Hyatt, Glover and McDonald scored the Aces total. The final minutes of the third period Reid of Haffey's juniors and Ward of Aces were banished from the ice for fighting.

By winning over the Air Force the Continental Cans climbed closer to the league leading Silverplate outfit. Kerr, Carmen Rutter, Claude Rutter, Steenburg and Wells produced the winner's points and Labacie, Hewitson and Blouffe the losers.

Midget Hockey League Opens

With over two hundred fans in attendance the Trenton Midget Hockey League began activities in the Quinte Street arena last night playing a far superior brand of game, Grace Presbyterians whitewashed St. Peter's 7 to 0.

It is estimated that the population of Rome during the early Christian era was approximately 1,300,000. Present population now is approximately 1,050,000.

Many towns throughout the United States are developing community projects as work centers for unskilled, unemployed laborers.

CHIPS from the SPORT BLOCK

By Geo. H. Carver

Whatever might be said about the red-jerseyed athletes that operate under Tom Thomas' token pals in this Jury box, it can't be uttered that they have not to date given the fans, rabid or otherwise full value for their shekels..... Last night in the local ice mausoleum the warriors in scarlet furnished a hockey war dance that had the most rabid Peterboro supporter on his hind legs yelling for more.... The Petes, however, no doubt bolstered morally by the poetic efforts of the quills scribe who recently turned Shakespeare on his readers, were not to be fooled with, and unleashed a powerful offensive that had even Harbs the sturdy Petes, thomas the Third shaking paws with his mortal enemy, the police station pooch second to the doughty redmen out after as neat a spot of skinnying as the faithful have witnessed this winter.....

It wasn't the fact that the local brave were outclassed by the enemy from the town where they grow athletes on aged trees, (They even brought the one of the Barnes).....They flashed up and down the ice, now at times either in the van or the rear of the liberties flying fetes so fast that a cross-eyed fan actually saw straight for the Petes' goal, but while trying to get both plays at the same time.....

It was from where this corner sat, that we observed the admirable pluckfests of the season..... The gallant Petes, as Coach Hines well tells us that the local braves trained their hockey guns on the blazing scoreboard over many more times, than the Littlick Lewis gunned on the Illinois wigwam..... And while on that subject the most goalkeepers stood out like a black smudge on the Mae Murray profile..... Even this day Harding had the rubber out in final chukker is beyond our weak imagination, but he had a stirring tied on it.... That boy picked pucks out with his ears, eyebrows, dandruff and New Year's resolution..... And Hinton of the other end of the pond was busier at times than a three-armed paperhanger in a fire-drill.....Baby Yack Canada's classy marksman, was another notch closer to a crack at Harry Jeffra's world title when he gave Jackie Hamilton from the smart punches Jackie Quintana last night.....The welter-weight battle was a whirlwind scrap with the lad from the Bronx getting the decision in a close with the dinky mitman to eke out a close win.....

The hockey wars in Picton are far from over and in spite of the fact that the local junior squad has thus far failed to take the measure of Walt. Geppe's classy squad from Niagara, the "Spaniards" are not conceding the group title to the ancient enemy from the north.....In fact it was whispered in our ear over the week-end that there are many blocs of silver and some of eight carat gold on the local junior in the war bags of some local fans that will be drawn upon should the Picton faced on the well-known line for the pleasure of any Napanee fans on hand for the game with the same with similar coin of the realm..... Let's hope that the game in the "Lilte Spanish Town" tomorrow evening in the Picton Arena the playoff series in which goals will count....

But down in the Napanee bailwick optimism is not overcome..... The Gerow coached younkers are rarin' to go and feel confident they can make history repeat itself and take the Bridge Street boys for a ride..... Even now the local paper bursts out with sympathetic reminders of the final famous victory .....The latest addition to the team is Fowler for the part of propounding the Ahmen in the 10-5 win over the rival city of poetry) without apologies to one Walter O'Keefe..... And

After reading that ditty it, really sounds pretty

(This post Poetess is no hick?)

Its painfully plain the Petes need aid.....

A shovel to go with their "Pick"

CENTRAL HASTINGS HOCKEY SCHEDULE

Eldorado, Feb. 1 (Special)—Remainder of schedule of games for Central Hastings Hockey Association is as follows:

Feb. 1: Cooper at Eldorado.
Feb. 5: Queensboro at Cooper.
Feb. 8: Eldorado at Cooper.
Feb. 12: Queensboro at Eldorado.
Feb. 15: Queensboro at Cooper.
Feb. 19: Eldorado at Queensboro.
Feb. 22: Cooper at Eldorado.
Feb. 26: Queensboro at Cooper.

Win Senior Figure-Skating Championships

Both stars of the Toronto Skating Club which annexed a major share of awards at the Canadian figure-skating championships in Winnipeg, Montgomery "Bud" Wilson and Eleanor O'Meara captured the senior men's and senior women's events, Montgomery Wilson, the skater for the last Olympic games, took the Minto cup for the eighth time in 1928 and Miss O'Meara won the Devonshire Cup after finishing as runner-up in the senior event last year. The two senior champions are shown here.

QUEBEC'S SPORT QUEEN IN NEW YORK

Lovely Lucille Blake, Quebec's queen of winter sports, is pictured dolling up for the occasion when she was guest of honor at the Pioneers' club ball in Gotham celebrating the 85th anniversary of founding of the St. John the Baptist Society. Her hosts agreed that as long as Quebec produced such charming queens, winter sports will be popular.

"Springing" Drillhole Cause of Accident

Lansdowne, Ont., Feb. 1 (CP)—A coroner's jury decided here last night that George Perrin, 23, came to his death last Jan. 25 while in the act of "springing" a drillhole in which several sticks of dynamite were placed preparatory to blasting operations during construction of a new highway east of Gananoque.

In a verdict, the jury recommended that a set of stringent rules in the use of explosives should be brought into force.

Witnesses testified that Perrin, a construction worker, was killed instantly when three sticks of dynamite and one eight caps exploded. Orrin Burtch, working close to Perrin, said he saw Perrin fixing the cap on a fuse. "He might have been smoking, but I don't think so," Burtch said.

Harry Hagen, foreman of the job, stated that he had asked Perrin if he had done such work previously, and that Perrin had replied in the affirmative. Hagen testified that the dead man had told him he had prepared a number of holes. George Campbell, superintendent of the Campbell Construction Company, said if Perrin "had tried to force the cap on the fuse it might have caused the cap to go off."

Less than a century ago, so little was known about diphtheria that it was popularly supposed to be caused by smelling sewer gas.

WALL STREET CLOSE

New York, Feb. 1 (AP)—Stocks bobbed up and down in today's market but leaders held recoveries running to two or more points.

Dealings were slow throughout. What little activity there was, however, appeared in buying periods. Extreme advances were reduced near the final hour as profit realizing became more pronounced. Transfers were at the rate of about 800,000 shares.

TORONTO STOCKS

Toronto, Feb. 1 (CP)—The heavy action was in the golds on Toronto Exchange today but the industrials and the best prices up till early afternoon were posted in the final hour. Thereafter the market had profit-taking to contend with and part of the gains were stripped. Base and metal and industrial shares registered moderate gains in comparatively low trading.

New high prices for the last year or more were boarded by Dome, Wright-Hargreaves, Pamour and Unit. Lake Shore firmed two points and held most of the gain. Kerr-Addison advanced nearly 20 cents in active trading.

Higher prices were boarded for Ford A, Brazilian, Walkers Common, Distillers-Seagrams, Gypsum, Penny Farmer and Loblaw A.

Hinde & Dauch, Smelters and Hudson Bay were higher in the base metal group. Western oils weakened slightly including Okalta, Brown and Calgary-Edmonton.

Board Room Gossip

By Financial Service

MARKET COMMENT

One of the reasons why the market is not reflecting the improved results being reported for 1937 is that business prospects in the early months of this year do not indicate a continuation of the improved earnings trend of last year. In other words the first half of 1938 is expected to make unfavorable comparison with the similar period of 1937.

The general consensus, however, is that the current year as a whole, will not be totally unfavorable, the assumption being that a material pick-up will develop in the last half. A similar situation is looked for in the stock market, although in this case it is expected that the improvement will get under way before very long, as soon as the spring influences make themselves felt in business.

Enjoys High Investment Rating

In the opinion of the magazine of Wall Street the common stock of the International Nickel Company of Canada is entitled to the highest profit opportunities. This financial organ gives Inco a rating of A-2 amongst the leading mining and metal stocks, only three in all are so classed.

Produce Prices On Montreal Market

Montreal, Feb. 1.—Butter and cheese markets were a little stronger at Montreal, yesterday. Eggs and poultry showed little change. Local stock in store will be announced Thursday at the Board of Trade, and the figures were being awaited by the trade. Receipts were 728 cases of eggs, 51 boxes of butter, excluding truck arrivals.

At the Canadian Commodity Exchange 100 boxes of butter graded regraded butter sold at 32 1-8c and 300 boxes sold at 32 1-4c, the latter being the top price, and 1,000 lbs. which compared with 32c to 32 1-8c quoted Saturday. Butter futures were closed unchanged at 32-33 1-4c for February, 32 1-8c and 32 1-4c for March and 32 3-4c to 33 1-4c for April. Small lots to the retail trade were quoted at 32c to 32½c for solids and 33 1-2c for prints.

On the egg market graded shipments just arriving were selling at 25c for A-large, 23c for A-medium and 21-22c for A-pullets.

HOG QUOTATIONS

Toronto, Feb. 1 (CP)—Livestock bacon hogs advanced 10 cents at Dominion Stockyards this morning, Dressedweights were up 15 cents at the Eastern Ontario points while other markets held today.

Liveweights — Brantford $8.40, Hull $8.35, London $8.35, Chatham $8, Stratford $8.25, Peterboro $8.50.

Dressedweights — Barrie $11.45, Hull $11.50, London $11.50, Peterboro $10.75, Stratford $11, Peterboro $11.50, Kitchener $11.

Livestock

Toronto, Feb. 1.—(CP)—Cattle prices held steady in dull action on the Toronto Livestock Market today. Calves, sheep and lambs traded at previous levels while no hog prices were fixed. Receipts of Cattle holdover from Monday was 1,100 head.

Reporting reported by the Dominion Livestock branch were—Cattle 400; calves 100; no today's make; sheep and lambs 850.

A few medium to good eighty steers sold at $7 to $7.50. Good butcher cattle brought $5 to $5.25 with common kinds at $4 downward; cows traded at $2.50 to $3.75 with canners at $2. A few butcher bulls moved at $4 to $5 with common at from $3.25 to $3.50. Fed calves were generally at $8.50 though only a few choice reached $7 to $7.50 with medium to good vealers selling at $10 to $11, common downward to $5.00.

Hogs were steady with butcher hogs was $6.75 to $6.85.

Sheep and lambs trade brought $6 to $8 according to quality. Two carloads of good western lambs sold at $8.25. Sheep ranged from $3 to $4.50 cwt.

Montreal, Feb. 1.—(CP)— Prices held steady and unchanged on most sections of Montreal livestock market today with lambs unsuited under exceptionally light offerings. Receipts: Cattle 600; calves 417; sheep and lambs 12; hogs 1138.

Cattle offerings were made up of three loads of medium weight steers at $4.75 to $5, a few medium goods at $4.50 and the balance cows and bulls. Canners and cutters were from $2 to $2.50, common cows $3 to $3 and medium at $3.50-$4.50. Common light bulls sold down to $3 with beasties at $3.50 and better $4.

Good veal calves made $10 with medium goods up to $9.50 and the bulk of offerings in mixed lots at $8.50 with common light $6 to $8.

Bacon hogs, fed and watered made $9.50 with usual $1 premium on selects and the regular cuts off $1 grades. Sows sold from $6.50 to $7.25.

MR. C. J. WEEDON, President of J. C. Eno (Canada) Limited, manufacturers of Eno's "Fruit Salt," announces that his Company have purchased the Trade Mark and all Rights of the New-Skin Company in Canada, and that New-Skin will be manufactured in Canada. It will be merchandized by Harold F. Ritchie & Company, Limited.

Onion Prices Expected To Rise Gradually

Little do people think that the humble onion that adorns their beef steak is at present commanding high prices in the markets of the country, as city market vendors stated this morning.

Prices were quoted in a local paper last week as being one dollar per bushel for this popular vegetable. They said. This is far from being the correct quotation. Why, in Toronto today they are quoted at $4.25 for one hundred pound bags, with prices rising. Last week on this market tenders dropped at not got several cents per peck. This price also will rise before the new crop arrives.

Asked for the reason of the reported shortage, he stated that Wenatchee Valley is the home of the onion and the principal source of supply, had suffered from a peculiar blight last autumn. "It particularly affected the onion crop," he said. "The life of the vegetable is only about six months and the remainder of the year is table. Onions will be one dollar per peck before the sun shines in the spring time," he prophesied.

"This is for your wife, not for you."—Harvey Gravell, paint manufacturer, to his married employees a Christmas bonus.

NOT SELLING MUNGO

New York Feb. 1.—(AP)—Brooklyn Dodgers are not going to trade or sell Van Mungo, their star pitcher. this year, Larry MacPhail, recently-been executive Vice President of the club said tonight. "There have been all sorts of rumors about Mungo's sale," said MacPhail, "but I hope this will clear them up. Van will not be sold or traded. He'll pitch for Brooklyn."

What Local Theatre Managers Say About Coming Attractions

AT THE CAPITOL

"She Had To Eat"
"Conflict"

Captured by coppers, tricked by trigger-men, and finally a daft millionaire—Everything happens to happy-go-lucky Jack Haley, who is jacked laugh after laugh in "Wake Up and Live" which became the talk of the town Hudson, a sweet little girl with a permanent hunger (for food, that is, in the riotous comedy, "She Had to Eat", which comes to the Capitol on his Sun. on a program of thrills program for Wednesday and Thursday only.

When Jack who will do anything for a laugh meets the girl of his dreams, he is not so hot. It's love at first bite, with a huge feasts of laughs served up by Arthur Treacher and Mary Forbes-Leslie, also featured in the cast.

Jack Haley is also featured this light-hearted story of a country innocent (Jack Haley) whose love for food, or "Caviar", not only lands him in one scrape after another, but finally wins him the girl of his romantic dreams.

In attempting to earn his pet rabbit's keep, the mighty-hunter aspirations of Eugene Pallette, ecceentric character actor, and Arthur Treacher, Jack Haley boards the private train of the retired financier, only to be thrown off far from home, friends and money. Aimless and discouraged, he meets Rochelle Hudson, who is working as the racket of getting food, and lodging and various luxuries for nothing.

The two pretend, which have been sputtering all this time, begin exchanging confidences. Jack is mistaken for a notorious fugitive, both by the police and a murderous gang out for revenge. In a swift and rousing climax, "Caviar" the rare saves the day.

The antics of "Caviar" are some of the most surprising and amusing animal performances ever filmed, particularly the scene where this little mink, pulls a rabbit turns ferocious.

Jack London's "Conflict"

Starring brawny, handsome John Wayne, "Conflict", drama of the eternal feud between two unsatisfied giants, opens at the Capitol Theatre for three days on Thursday.

Lovely Jean Rogers appears opposite Wayne in "Conflict", which is based on Jack London's famed story, "The Abysmal Brute", recognized as one of the finest action stories written by the late author. Paul Fix attached to the film is the rugged grandeur of the Sierra Nevada Mountains in which over 900 miles from Hollywood, "Conflict" tells its virile, fast moving story against a background of nature's own magnificent beauty. The picturesque mountain scenery, the

AT THE BELLE

"Conquest" Grosses $100,000 Empire Theatre, London

The greatest from the Metro-Goldwyn-Mayer studios is "Conquest" the distinguished motion picture that grossed $100,000 in its first week at the Empire Theatre, London England, andits announcement for a return attraction at the Belle Theatre tonight, and Wednesday, matinee and evening.

Another starring romance of the fabulous Napoleon Bonaparte and the beautiful Polish lady in which Greta Garbo makes her first co-starring appearance with Charles Boyer hero of "The Garden of Allah" and "History Is Made at Night".

In the new story filled with the romance and historical period of world history Garbo plays the role of Marie Walewska, Countess Walewska who forsakes her home and her husband in a heroic attempt to win over Napoleon and thus save the life of her country. Boyer in an admirable realistic make-up is seen as Napoleon whose every grand determination to rule the world leads him to doom.

The picture is the latest directorial achievement of Clarence Brown who has behind the camera in the filming of such earlier successes as "Anna Christie", "Flesh and the Devil" and "Romance."

Adrian designed a series of breath - taking costumes for the production. Herbert Stothart composed the lovely musical score which accompanies the picture.

As is customary, no effort was spared in assembling a supporting cast. Reginald Owen is cast as the unscrupulous Talleyrand; Henry Stephenson is Napoleon's chief minister; Leif Erickson as her brother; Dame May Whitty as Madame Marcaparte, and Dorothy Gordon as Prince Poniatowski.

Metro-Goldwyn-Mayer provided the story with settings and costumes of a spectacular nature, among the outstanding scenes being Napoleon's tragic retreat from Russia, the idyllic scenes at the best liftul Castle Finckenstein where Napoleon and Countess Walewska made a temporary home and the spectacular ballroom of the Poniatowski palace in Warsaw, and one of the haven of the power-crazed Emperor, the Elzas.

The picture combines drama, suspense, high excitement and romance into a spirited action story.

Last performance Wednesday and Thursday at 8.30.

Little Benny's Note Book

We was eating supper, being livers and onions in pop's honor, and I said, Hay pop, does everybody get false teeth if they're old enough?

Well, I believe it's considered rather rare for anybody over 80 not to Lave a few artificial aids in his smile, pop said, and I said, Well gosh, then do you think I will get some?

You're only human, I imagine, pop said, and I said, I know, pop, but G. Washington, was a heck of a note.

For land sakes eat your supper, ma said. The idea of worrying about what's going to happen to your teeth in the remoteness of the dim future when you ought to be glad at the very thought of even living to such a ripe old age. Pass your plate and I'll give you some more mash potatoes, she said.

No thanks I dont believe I think I want any, I said, Holey smokes the thought spoils my appetite. What's a use of life as we know it and everything and washing and brushing my teeth every day and sometimes twice a day when I think of it, and never cracking nuts with them or picking them with pins and everything, when I have to go and get false ones jus as soon as I didn't give a darn, G. winnikers what's a use? I said, and ma said, Now Ferris, I'm not really, did anybody ever see such a boy?

Meaning me, and pop said, It's abel but true, Benny, that all mortal things come to an end, not excluding teeth, but perhaps you can take some consolation in the thought that in all the annals of dentistry nobody has ever been reported to of had a toothake in a false tooth.

Making me feel partly better, and I ate 2 more helpings of mash potatoes and another slice of bread under gravey and 2 slices of coconut pie.

Making me feel all a ways better.

Point Anne

Point Anne—The Catholic Women's League held a euchre at the home of Mrs. John Pelace on Wednesday of last week. The prize winners were: Ladies' 1st, Mrs. John Tighe, 2nd, Mrs. Peter Green consolation, Mrs. J. Bennett. Gents' 1st, M. J. Whalen, 2nd, Geo. MacLaughlin, consolation, F. Gilhooley. The ladies served a dainty lunch after cards.

LOYALTY BASIS IN RELIGION

Rev. A. G. Sinclair Preaches on Foundation of Religion

A thought-provoking sermon, evangelical in its appeal, was preached Sunday night by Rev. A. G. Sinclair, Pastor of Victoria Avenue Baptist Church. His theme: "The Challenge of Loyalty" was based on Jesus' question to Peter, as recorded in John 21: Simon, son of Jonas, lovest though Me?

"However the schools of architecture may differ regarding the design and superstructure of a building," said Rev. Mr. Sinclair, "all schools are agreed on one vital point: that the foundation of the structure, whatever it is, must be sound and secure."

This doctrine, it was pointed out, is being translated by thoughtful men into every sphere of human life. The question of foundations is one of importance in the realm of governments, of industry, of education and religion. Our problem at this time is: what is a sound foundation for a workable religion?

Foundations Outlined

There are at least three foundations which are valuable; too, but not the best. One is that foundation built on the instinct of fear. Men cringe in the basic of most so-called religions. Men are taught to fear God, to fear the universe and to fear one another. This instinct of fear, while it may have its place even in any religion is certainly not primary.

"You may build your religion on self-interest. Too, too often it is the case. If religion if we use it to make the best of our lives," said Furthermore it is the Christian religion. But a religion that sets out to make a man happy simply because it will pay him to behave is a mean, shabby and ignoble affair at the best.

"Thank God there is something finer and deeper and firmer than either fear or self-interest upon which man may build his religion. He who seeks to build his religion upon the foundation of loyalty will discover a foundation to match a superstructure that is supremely majestic and noble.

It is pon this sound, sturdy and satisfying foundation that Jesus the Christ set out to build "Christianity, the religion of loyalty. In the New Testament story we find Jesus trying to discover in Peter that loyalty upon which He could build the Kingdom."

The philosopher says: "Accept my ideas" and the founder of lesser religions, "follow my example." Christ said, and still says: "Come unto Me follow Me, learn of Me, confess Me, obey Me, abide in Me, and your soul shall be satisfied and ye shall find life that is abundant, satisfying, peaceful and eternal."

Loyalty Test of Character

Sincere men recognize that loyalty is the supreme test of character for men are known by those things to which they are supremely loyal. Jesus Christ asks nothing of us that He Himself consciously does not He demands of us personal loyalty to Him as the Lord of our lives. Many there are who say they can't pass this stern test of discipleship.

Oh yes, they will be Christians but it will interfere with business; it won't retard their political ambitions; nor must it be done in public. You can't be a Christian at all," says Jesus, "unless personal loyalty to Me becomes the master passion in your life, for I am the Truth, the Life and the Way."

His watered down theology is incapable for this or any other age. Much of our preaching fails to focus the thought of men upon the divine Saviour. We think we make the message appeal when we come down to men's level. This is a mistake. Men are looking for something that can lift them up; they know not how but they are convinced that they need a closer fellowship with the Eternal," the preacher said.

"Loyalty to Jesus demands that we provide for the needs of our fellow human destiny. He is the Lord of science for He is the truth that science is trying to reach. He is the Lord of politics, industry and economics because He is the only way by which our human order can move into desired goals of the Kingdom of peace and joy and righteousness.

Of course, it costs something to be loyal to Christ. Our redemption cannot be counted in an easy fashion and costs but we will gladly and willingly give of our time and money and energy if we belong to Christ. Our redemption cost God something: the sacrifice of His beloved Son. Jesus something: suffering and humiliation on the cross.

The pastor, in closing, appealed for loyal and surrendered hearts. Rev. A. W. Hunt of Montreal, who preached at the morning service, pronounced the benediction.

Old Kentucky CIGARETTES

Eldorado

Eldorado — Madoc Township Council met on Monday, Members present: Reeve Jones and Deputy-Reeve Connolly. Fred Sager, Fred Moorcroft, John Gawley and John McCoy.

Each subscribed to the Declaration of Office and took his seat.

Cooper and Remington W. I.

The regular meeting of Cooper and Remington Women's Institute was held at the home of Mrs. Wilbert Bird on January 20th, with a good attendance. This meeting was in charge of Mrs. Bird's group. Ode and "Long, Long Ago", followed with the Institute Purpose. "Upper Canada Supper Dish" was well responded to. Several letters of appreciation from the Red Cross for the previous meeting were read and the roll call was answered by "How to save cents per member as asked for. It was decided to have a tea on the 12th of the March meeting to be held at night at the home of Mrs. J. Nichol.

"Grandfather's Clock" was sung. Mrs. Silas Remington gave an instrumental: Jean Rollins gave a reading: "Mother's Secret" and Mrs Bird "Every Day." Miss Stella Moorcroft, chairman of the Home Economics committee had charge of the programme. Mrs. Albert Bird gave a splendid paper on "How a Budget Helps." Two duets were sang "Home, Sweet Home, Mother Machree." Mrs. Bird gave a reading, "Devine Office of Kitchen." Mrs. Albert Bird sang the Carnival Bells, and Miss Ruby Diamond conducted. "A Kitchen Shower" conducted by Junior Girls' group, collection was taken and the Mizpah benediction closed the meeting.

The hostess and her assistants served lunch.

The next meeting of the Eldorado Girls' Club was held on January 20th at the home of Miss Myrtle Tennyson with an attendance of eleven girls present. The club was opened with the roll call answered by "Choice of a Wife for Crowned Girl". A discussion period was carried out by the leader, Miss Grace Robinson on personal care of the teeth and nails.

A demonstration was given on fagoting by Miss Grace Robinson. "Shadow Embroidery" demonstration was given by Miss Lillian Pigden demonstrating on Miss Bernice Pigden.

The roll call for the next meeting will be "How I Have Chosen the Trimming for my Slips". Two girls were chosen for the demonstration.

Personals

Mrs. Findlay Harris is spending a few days with her parents at Belleville.

Mr. and Mrs. Tebworth and family spent Sunday with the latter's parents Mr. and Mrs. Arthur Wilson at Consecon.

Mr. and Mrs. Fred Stapley of Peterboro were in Bannockburn on Sunday.

Mrs. John Green has returned home after spending a week in Elzevir.

Mr. Billie Diamond spent Saturday visiting Raybourne and Belleville.

Miss Merle Grover of Queensboro spent the last two weeks visiting her sisters at Remington.

Mrs. Wm. Wickett of Roslyn spent Saturday visiting her brother, Mr. Oscar Taylor.

Mrs. Murney Rollins of Manitoba spent an afternoon last week visiting her cousin Mr. Bruce Phillips.

Mrs. Annie Phillip and Mrs. M. Groves spent one day last week visiting Mrs. Allan McCoy.

Mr. and Mrs. Fred Fitzgerald and husband spent one night visiting Mr. and Mrs. P. Holmes.

Misses Vera Holmes, The McCoy, Messrs. Hugh Hannah, Elmer Vannamaker spent Sunday afternoon visiting Mr. and Mrs. C. Hannah.

Mrs. F. Fitzgerald met with a painful accident when she fractured a leg. Her many friends hope for a speedy recovery.

Mr. and Mrs. George Devolin of Marmora spent Sunday visiting her parents, Mr. and Mrs. Joseph Rollins of Remington.

Mrs. Ken. Holmes and Joan spent Thursday afternoon at the home of Mr. Wm. Holmes.

Mrs. Albert Harvey were the tea hour guests of Mrs. S. G. Smith at the parsonage on Friday evening.

Marmora

Marmora—SONS, to Mr. and Mrs. Michael Carrigan, on Monday, a boy, on Tuesday, January 25th.

Mr. Warren Hickey sent a few days in Toronto this week.

Mrs. Art Smith has recovered her health after quite a spell of illness.

Miss Jean Thomson, who has been visiting her parents, Dr. and Mrs. David Thomson for the past six weeks, returned to Ottawa.

Rev. Fathers J. J. Keeley and G. A. Kehoe attended a meeting of the clergy in Kingston this week.

Mrs. Thomas Hall and Mrs. Ruth Brady of Marmora, on Wednesday, January 26th, a son.

The ladies' hockey fans journeyed to Stirling on Thursday night to see the School team and their third successive victory. Marmora beat Stirling by the score of 6 to 3.

SONS—In Marmora township, on Wednesday, January 26th, to Mr. and Mrs. Harry Moffatt, a daughter.

The ladies' progressive euchre tournament was held in the White Rose Hall on Thursday night with 11 tables in play. The ladies' prize was won by Mrs. C. Nicol and the consolation prize went to Mrs. Cronkwright.

Mr. Alex. Archer of Peterboro, is visiting at his home here.

Mrs. Phillips and about thirty friends of the Misses Helen Oale and Ethel Hubbs met at the Institute in the White Hall to present each with a gift before the departure this week for Kingston where at the Normal Detu they will take up training for the profession of teaching. Mrs. Miss Marion Vincent. The evening was spent in the usual manner. Mrs. D. Young of Belleville, spent the week-end with her parents, Mr. and Mrs. Nichol.

Messrs. R. J. Scott and R. Smith spent Sunday in Kingston.

The weekly card party was held in the Institute Hall last night and was going with a large attendance. The lucky prize was won by Miss Ida Dillon while the euchre prizes went to Mrs. Thomas Hall and Mrs. C. Mahoney. A dainty lunch was served after which dancing was enjoyed to a late hour. The music for dancing was supplied by Miss K. Doyle and Miss Jones.

Rural Dean A. B. Caldwell is in Kingston attending the executive meeting of the Anglican Synod.

Tweed

UNITED CHURCH CHOIR ELECTS 1938 OFFICERS

W. E. Tummon Named President at Annual Meeting

Tweed—The annual meeting of the choir of Tweed United Church was held on Friday evening at the home of Mrs. W. E. Tummon. Following choir practice Mr. S.H.Connor, was chosen as chairman of the meeting. The minutes of the last annual meeting were read by the secretary, Mrs. H. A. Otter. The financial statement showed a small balance in the treasury. The following officers were elected:

Hon. pres., Mr. C. H. Garrett.
President, Mrs. W. E. Tummon.
Vice President, Mrs. S. H. Connor.

Secy. Treas., Mrs. H. A. Otter.
Recording Secy., Ruth Foster.
Assistant, Hilda Connor.
Gown Committee, The lady members of the Official Board Committee,—Mrs. M. O. Dales, Mrs. Hubert Wager, Mrs. A. B. Garrett.
Membership Committee, Miss Lois Richardson, Mrs. Harry Otter and Mrs. Connor.

It was decided that the choir would practice once a month at some time during the month of February, a vote of thanks was tendered to Miss Lois Richardson, organist, for her efficient service during the past year. S. H. Connor, choir director expressed the appreciation of Rev. Reg. Wilson Miss Grace McCaw and Mr. and Mrs. Robert Wilson, also expressed his appreciation of the faithfulness of the choir members at rehearsals and church services.

After a delicious lunch served by the hostess Mrs. Tummon and Mrs. Dales moved a vote of thanks to Mr. and Mrs. Tummon for their hospitality. This was heartily endorsed by the choir.

H.I. Charles Rush of Stoco was elected president of Tweed Agricultural Society at a meeting held on Saturday afternoon in the Council Chamber. Mr. McKenney who presided over the meeting gave a brief history of the reorganization of the Central Ontario Fair Board at a meeting held on Friday, January 14th in Belleville which was passed on to the directors suggestions which have been made at that time.

The following directors were elected: Messrs. J. L. McGowan, R. C. Burns, S. B. Rollins, Wm. Woods, J. W. Kingston, R. A. Thomson, T. G. Graham, W. J. Bateman, W. H. Craig, S. Tutis, Geo. Brown, Harry Chandler and Chas. Rush.

The financial statement showed receipts amounting to $1,856.47, disbursements $1,520.71, leaving a balance of $335.76. The gate receipts showed a decrease of $200.00 from the previous year. It was felt by the directors after considerable discussion had taken place that additional effort must be put forth to provide entertainment for fair-goers. Every effort has been made to secure a midway for the 1937 fair but although a contract had been signed by one company, it had failed to put in an appearance. A midway is necessary to the fair although the Fair make no money in 1938.

T. C. Graham reported that the department of agriculture and a number of packing companies were prepared to devote several hundred dollars to the poultry section of the section. In response to a question he said that the quality of birds raised by the farmers of Tweed district had improved 100 per cent. during the past five years. Several directors expressed the opinion that the Fair Board is entering into a new era of prosperity and that additional effort and co-operation will bring about this lovely country home.

In the summertime he drives his own car and keeps it immaculately clean all the times in every peace of life.

Before her marriage, Mrs. Williams was Charlotte Carleton, a daughter of a former principal of the Tweed school. After the ceremony which was performed in the same as that of Saturday, except for the absence of snow, the bridal party motored to the home of Mr. Williams' parents, Mr. and Mrs. David Williams and the groom's father, Mr. Gyon, descendants of pioneers of the district who had come to aid their way through the woods of Rawdon Township to establish the home which is now one of the show places of the county.

Mr. and Mrs. Campbell-Price's highway is well kept lawns, flower beds and shrubbery are only a few of the charms about his lovely country home.

Gilded Orchid

By JANET DORAN

On their faces hired remnants of that first rapture they had known. Then a shot; a while before, and it left them somehow younger-looking, somehow less weary, more untired, inexperienced.

"Poor, darling, sticky, distasteful Gerda," Tommy, tipsteling with elaborate caution past the chair of his mistress.

In the kitchen, she made a tall incredible foil of coffee, broiled a large platter of bacon, and toasted all the rolls there were in the house. The table was set with a gay green-checked peasant linen cloth, and the blue willow ware made a bright cheerful contrast.

Tommy's one bowl of brown chrysanthemums served as the centre-piece and placing the mocca-pot before Gerda, Tommy Gerda was finally satisfied with her labors. Then, a departure, she went to call them.

"Hey," she addressed Tommy, shaking his shoulder gently. "Lobsteria, it's morning, and Maydra, if you're not awake, you're going to miss Gerda's coffee!"

Tommy blinked at her sleepily, and then remembered. He grinned. Sheepishly, and Maydra answered him, and sat up, yawning, cramped.

"Tommy!" she began severely. "It's morning! And—we've slept!"

"Yes, darling," Tommy replied, "why not? Old human custom, sleep! How's the crick in your neck, sweetheart?"

Maydra moved her neck experimentally. "Not bad, Tommy."

"I must have been too tired to indulge in dreams," he mused, "about coming to breakfast with you. Gerda, you're a dear. Is that coffee the same day it's made?"

Gerda, somehow bowled, jumping up setting Maydra down with a thump. Tommy, with a flourish, took the tip of her powderless nose, emphatically. "Lead me to it!" he commanded. Gerda admonished him severely. "Ad do a good job, Tommy, or I'll see that Maydra will find a hairbrush!"

Tommy shuddered. He hugged Gerda and jigged her wildly around the big stone floor, and Maydra joined them, laughing helplessly. Then he bowed low, with mock gallantry, to the delighted Continental personage, and seated Maydra.

"The order requires a bathroom for execution. Madame, show me the way!"

Maydra turned toward her room, but Gerda, with a shout, was there ahead of her, and pushed open the door and turned mules, she approached the bathroom.

The chair and Tommy stood before the mirror, his face covered with white lather, shaving cream. He waved Gerda's tiny, gentle little face appeared, smiled and mumbled through the soap:

"Oman in, Maydra. Room for several! I am glad you're here, you women use for a bathroom. Now I'll have to discover all your mysterious potions before in my life!"

"I...I'll wait until your through Tommy," Maydra protested, shaking her head. But Gerda, a firm determined for the intimacy of the scene, pushed her into the room, and suspenders hung carelessly about his hips, Tommy, with his face and knife encased with the snowy whiteness of the lather, was busily shaving. Mayda, shaving impediments were completed.

"I'm in no hurry" she added unreasonably.

He scraped the side of his chin industriously then turned to Mayda, with a disconcerting glance.

"Prude, darling?" he grinned. "Or shall I say, modest? Brush your teeth brush....and some of that lovely stuff you're using, you're busy....so we can eat together. I'm famished!"

Mayda nearly so silly not to. What was Mayda's thought as she brushed her teeth? Campbell-Price highway is well kept lawns, flower beds and shrubbery are only a few of the charms about his lovely country home.

BELLEVILLE, ONTARIO, WEDNESDAY FEBRUARY 2, 1938

NATIONS URGED INDIVIDUALLY TO STUDY AID

Poland and Peru Refrain From Casting of Votes 'Were Not Consulted'

New Zealander Surprised China Satisfied With Feeble Resolution

OPPORTUNE, SAYS KOO

China Reserves Right to Demand More Positive Measures

Geneva, Feb. 2—(CP-Havas)—A resolution urging member states "to consider in what measure they could —in an individual manner—give aid to China" was adopted unanimously by the League of Nations Council today. Poland and Peru refrained from voting.

The vote on the resolution was taken at a public session following an unexpected long private session of the council.

At the private session the representatives of Poland and Peru explained they would abstain from voting because they had not been consulted when the resolution was being drawn up.

W. J. Jordan, representing New Zealand, expressed astonishment that China was willing to accept such a feeble resolution.

Koo Is Satisfied

Wellington Koo, Chinese delegate to the League, replied his government found it opportune to accept the text, even though it did not give full satisfaction to China's desires.

"The Far Eastern conflict is truly of world importance," Koo said in a speech at the public session before the vote was taken. He declared that effacacious intervention by the League with the co-operation of other peaceful states would lead to a speedy and fair ending of hostilities.

China reserves the right to demand the adoption of more positive measures by the League, Koo said.

No Recognition by Japan

Tokyo, Feb. 2—(Noon)—Foreign Minister Koki Hirota told the Japanese diet (parliament) today:

"There is no Chinese central government recognized by Japan. The days of war exists between the two countries."

Hirota, late in the seven months of Chinese-Japanese hostilities Japan has not declared war on China.

The premier of the spokesman refused to comment on Hirota's statement, saying it spoke for itself.

Hirota's statement was in answer to a question by Takejiro Wakioka, who declared that foreign powers, with Great Britain and Russia in the lead, had been supplying China with arms and military funds for which some sort of compensation or security must have been offered.

Japan's Naval Policy Independent

He had asked the Foreign Minister his views of "rights and interests" obtained before the retrieval of hostilities "by powers which enter into contracts with the national government of China which they recognize but which Japan does not recognize."

Admiral Mitsumasa Monai, Naval Minister, also was questioned in parliament. On naval policy he replied:

"Japanese naval policy is independent, designed to meet Japan's own needs. Even if other naval powers build 'million-ton warships' it does not follow therefore that Japan must do the same."

Previously, he said, there was no relation between the size of the navies of other naval powers carry out huge construction schemes. He added, Japan must reconsider its own plans.

COL. FOSTER ACCLAIMED

Ottawa, Feb. 2—(CP)—Colonel Foster, Vancouver, will give an acclamation today as Dominion President of the Canadian Legion. He will succeed Brig. Gen. Alex Ross, who has guided the organization for the past four years. General Sir Percy Lake was returned as Grand President.

ROTARIANS DELAYED

Renfrew, Ont., Feb. 2—(CP)—Three men suffered slight injuries last night when a bus, conveying 30 Ontario Rotarians, suddenly skipped off the highway into a ditch at Antrim Corners near here.

The accident delayed the Rotarians nearly two hours but the party arrived late today for its curling competition between rinks from Smith's Falls, Renfrew and Ottawa.

Schedules Over Airways As Regular as on Railways

Surveying Profession is Given Aid by Aviation

WEATHER SERVICE

Ottawa, Feb. 3—(CP)—Airplanes flying over modern airways eventually will maintain schedules comparable to those now being maintained by railways and other means of surface transportation, D. R. MacLaren, assistant to the vice-president of Trans-Canada Airlines, told the Canadian Institute of Surveying's 51st annual meeting here today.

He said the Meteorological Service of Canada functions very definitely as an aid to air navigation. The service now was engaged in developing airway reporting and forecasting methods which pilots in making proper determinations.

Col. C. T. Stockwell, in his presidential address, said that improved surveying methods had led to increased opportunities in the surveying profession.

"It is gratifying to note that already the job is starting to seek the man, rather than the man the job. Whereas a year ago there seemed to be more men than work, cases have now come to our attention where it was very difficult to find suitable men.

"The mineral industry in particular has contributed to the unusual activity. The industry is booming and requires the service of surveyors."

Britain to Protect To Utmost Eastern Interests

London, Feb. 3—(CP-Havas)—Reflecting British concern over increasing Japanese control of China's economic life, Foreign Secretary Eden said yesterday the government would do its "utmost" to protect Britain's Far Eastern interests.

The provisional governments at Peiping, he said, "can hardly be a directive modifying the tariff schedule of the Chinese maritime customs in a sense favorable to Japanese imports. His Majesty's government protested against the new tariff which is contrary to the treaty stipulation that there should be a uniform tariff for all China."

4,511,840 CARS VISITED CANADA DURING YEAR 1937

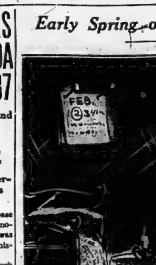
Record of Incoming And Outgoing Cars is Announced

437,317 INCREASE

3,127,352 Cars Spent Periods of 48 Hours or Less in Canada

Ottawa, Feb. 2—(CP)—Increase in incoming and outgoing automobile tourist travel during 1937 was announced today by Revenue Minister Ilsley.

Foreign cars entering through Canada's ports, outposts and preventive stations numbered 4,511,840, increase of 437,317 over 1936, he said.



Last years total was made up as follows: cars entered for periods of 48 hours or less 3,127,352, increase 347,087; from 48 hours to 60 days 1,383,190, increase 100,195 more than 60 days and not exceeding six months 1,268, increase 35.

In Ontario 827,340 day touring permits were issued for United States automobiles last year, increase of 130,802 over 1936.

Canadian automobile traffic outward under touring permit last year recalled the record volume of 756,420 cars, exceeding the previous year record of 1929 by 3,506 cars, and exceeding 1936 by 69,753 cars. Heaviest outward traffic was through Ontario ports and outports, reaching a total of 272,895 increase 9,350.

German Minister of War Relinquishes Post

Early Spring or Late Spring?

The North Hastings groundhog may or may not have seen his shadow today. Residents of the county may or may not experience another six weeks of winter. The whole matter of whether Bre'r Groundhog would or would not stay out—giving his annual guarantee of a prompt and early spring—in the latter case—was a bit indefinite up to noon today.

Above you see Johnny 'Chuck making his first early morning investigation of weather conditions today. Safe in liberation in his underground home since the first frosts of Fall, Johnny bestirred himself this morning, as is the annual custom, to emerge for his first appearance since his first nap of Winter. If the weather was fair and clear, he was scheduled to return to his den for another comfortable six weeks' snooze; if dull and cloudy, Johnny was bound to stay in the open, hastening the arrival of the Spring. This morning the sun shone briefly. Later dull clouds obscured the sky. Residents were a bit uncertain. So was the Groundhog. City and district weather prognosticators also went into hiding, refusing comment. "We intend to keep our snow plow ready, even if the 'chuck has not seen his shadow." was the official comment of the Public Works Department at City Hall this Candlemas morning.

BUILDS CAMP FIRE TO WARM SELF

Elderly Foulin Transient Rescued, Numbed by Cold

London, Ont., Feb. 2—(CP)—When fire was seen burning in the bush on Norman Marr's farm near Aneheim last night the farmer found an elderly transient, numbed by the frigid weather and near exhaustion attempting to warm himself before a camp fire.

He identified the knight of the road that he could scarcely speak or stand. Traffic Officer Gilbert Robertson of Lambeth got the transient to the road where he was lifted by Percival Gibbons of Lambeth, Ptolemy and George Clubbs and brought to the Middlesex County jail on a vagrancy charge.

The man told police that he had been wandering through the country for 10 years with no home and no work. He is Polish and gave his name as John Zetchlski.

MRS. ROBERTSON GIVES EVIDENCE

Tells of Operation Performed by Dr. Cline on Miss. Wilkinson

London, Ont., Feb. 2—(CP)—Mary Wilkinson moaned "I've been torn to pieces" after Dr. Charles A. Cline, 57, performed an illegal operation on the 37-year-old London spinster, Mrs. Emily Jane Robertson told a Supreme Court jury today while testifying at the murder trial of the London psychician.

Mrs. Robertson, under sentence of four years in prison after pleading guilty to charges arising from operations including that performed on Miss Wilkinson, testified as the court was adjourned for lunch.

After the operation Mrs. Robertson said she went to her husband, Lauchlin J. Robertson, under sentence of two years for illegal operation, carried the woman to a bedroom.

"She gripped the bed and 'whispered 'I've been torn to pieces'," Mrs. Robertson said.

Morphine was administered to Miss Wilkinson at about 11 minutes then felt her pulse and said she was dead, Mrs. Robertson said. The 71-year-old physician and her husband then threw her body in the Thames River, she added.

WELLINGTON MEN ESCAPE DROWNING

Car in Which They Were Riding Crashes Through Ice on Lake

Picton, Feb. 2—Four Wellington men escaped from the car in which they were occupants when it crashed through the ice in West Lake yesterday.

The front end of the car plunged suddenly beneath the ice while the rear wheels remained on solid ice until a rope could be attached to the car and fastened to a cross-bar driven in the ice.

The men were Clifford Clavin, driver, Wesley and Ernest Daniel and George Lovell.

The party was crossing the lake to reach a dredge which was being dismantled when the front wheels struck one of the holes which caused by strong currents. Only a quick thinking driver and cool head helped to prevent the machine slipping entirely beneath the ice prevented a more serious mishap.

KILLED BY FALLING TREE

Arnprior, Ont., Feb. 2—(CP)—Thomas J. Elliott, 44-year-old farmer of Pinney Township, three miles east of here, was killed instantly yesterday afternoon when the tree he was felling struck him at the base of the skull.

CHINESE PLUG WIDENING GAP

500,000 Chinese And Japanese Troops Concentrated in Area

Shanghai, Feb. 3—(AP)—Chinese and Japanese moved forward by the thousands under heavy shellfire today to plug a widening gap in the southern defences of China's corridor to the interior.

The first general clash of engagement on the Taihpu front north of Nanking apparently was beginning. An estimated 500,000 Chinese and Japanese troops have been concentrated there and General Chiang Kai-Shek has urged his men not to yield an inch.

Domei (Japanese news agency) correspondents with the Japanese column moving north from Nanking reported it had occupied Pengpu, southern keystone of Chinese positions along the Tientsin-Pukow railway.

Advance Under Fire

The advance was made under heavy artillery and aerial bombardment after occupation of Pengpu, 16 miles east and south of Pengpu, the dispatches said.

The Japanese said to have blown up a bridge across the Hwai south of Pengpu and dug in on the river bank for defensive positions. They have kept the southern defences of the corridor intact for a month.

Alfred Rogers Gasped When Told Good News

Toronto, Feb. 3—(CP)—What does a genial, middle-aged business man do when he learns he has been awarded best-dressed man in sport clothing in all North America—ranking only behind Clark Gable, the actor?

Well, Alfred Rogers gasped, "good, mess gracious."

The President of the Elias Rogers Coal Company, President of the Canadian National Exhibition, Honorary Colonel of the Royal Winter Fair and Governor of the University of Toronto recovered sanely enough to add: "Oh, well, I'll be oh my, oh my."

Mr. Rogers', he granted when told that positively the Merchant Tailors' Designers' Association had honored him yesterday at their Chicago convention.

"See here"—a panicky pause; visions, maybe, of Alfred Rogers encircled in cold type as sartorially correct—"let's just forget about it; how's that?"

Finally a confession. He chooses all his clothes. Mrs. Rogers doesn't have a word to say.

INCREASED RADIO LICENCE FEE IS MATTER OF DEBATE

Conservative Member Advocates Abolishing Fee

HOMES INVADED

J. S. Woodsworth Demands Disallowance of Padlock Law

Ottawa, Feb. 3—(CP)—Abolition of the radio license fee raised than its increase should be considered by the government, Gordon Graydon (Con. Peel) told the House of Commons yesterday as he registered the first complaint on the floor of the House against the recently-announced increase.

Mr. Graydon was one of a group of private members who took part in the debate on the Speech from the Throne, a debate which will be continued today by J. J. Coldwell (C.C.F., Rosetown-Biggar).

Dissatisfaction with radio broadcasting was widespread, Mr. Graydon, The only way to make a success of public ownership of radio was to enlist support of the listening public and an increase in the fee would not help to find a way to accomplish this. Mr. Graydon suggested the government consider abolishing the licence fee and obtaining the money in other ways.

A demand for disallowance of the Quebec Padlock Law was made by J. S. Woodsworth, C.C.F. leader, who claimed the homes of decent Canadians were being invaded. He told of one instance of a raid on a woman's home in which the library was ransacked and his own biography seized.

Premier Raises Down

R. J. Deachman (Lib. Huron North) and Mark Senn (Cons. Halifax) made brief comments on the condition of agriculture. Mr. Deachman said the farming industry was rapidly deteriorating. Farm income in Ontario now averaged only $363 a year, less than $1 a day. Mr. Senn saw no reason why the prices of farm products could not be regulated.

The Social Credit Group will line up with the Conservatives in supporting a want of confidence motion of the government. Victor Quest (S. C. Acadia) announced. He said the Social Credit Party would support the amendment to the address in reply to the Speech from the Throne, proposed Monday by Conservative leader Bennett.

Two years ago, he said, the group had refused to support a similar motion sponsored by Mr. Bennett. He explained it hoped the government would implement its policy on social credit. If it was not the group would withdraw its support.

Strengthen Gov't. Control

John Blackmore, Social Credit leader, also spoke in the debate and dealt with conditions in Alberta, although his remarks were largely unheard and every sort of political red herring possible was dragged across the Alberta government.

A further move to strengthen gov. (Continued on Page Three)

Water - Diversion Projects Upheld by Premier Hepburn

Make Rich Area of Virgin Country Accessible For Lumber Camps

PROVIDE MORE WATER

London, Ont., Feb. 2 (CP)—Ontario government water-diversion projects will be carried through, in the opinion of Premier Mitchell Hepburn, will make a rich area of Ontario's virgin country, with valuable timber camps and will provide much needed employment in the Kapuskasing Falls.

The premier told the annual convention of the Engineering Institute of Canada here last night that as a result of the diversion projects in the northern developments "one generation will be employed in the pulp mill in the area worth $5,250,000." He said the estimated revenue from the territory is $400,000 a year.

Mr. Hepburn defended his administration's pulp-export policy, replied to critics of his diversion projects and said the government is "compelled" to pass legislation making pasteurization of milk compulsory. The premier also declared the possibility of power facilities at Niagara Falls breaking down was being considered and that plans were being made to meet such an event.

Plans to Prevent Disaster.

"Many millions would still suffer if the main plant of the Ontario Hydro-Electric Power Commission at Niagara were destroyed, Hepburn said. "We are making plans to meet it and devise sufficient power to prevent a disaster. It may be that we will have to parcel out what little power we have. There will be enough for domestic use at least."

Many millions once belonged to Ontario as a result of the government's timber export duty, Mr. Hepburn said. At the time his administration took office, its policy was changed to meet export duty rates in order to meet a demand from depressed Canadian mill owners. Otherwise, would have gone to Scandinavian countries for raw materials.

Of his plans to make milk pasteurization compulsory, the premier said Dr. Allan Brown, Toronto child specialist, had declared child ailments could be refused unless pasteurized through pasteurization. "In the face of a statement like that, we are compelled to take steps to bring about this necessary measure," he said.

Officers' Corps of Army Not Pleased by Marriage To Stenographer in 20's

Werner Von Blomberg Retires as Marshal And Active For Life

GOES TO CAPRI

Commander of Reichwehr May Also be Discharged

Berlin, Feb. 4—(AP)—Marshal Werner Von Blomberg, Minister of War, handed his resignation to Chancellor Hitler before going to Capri on his honeymoon, a highly reliable informant disclosed today.

There had been indications the officers' corps of the army was not pleased by the marriage Jan. 13 of the 59-year-old marshal to Erika Grohn, a stenographer in her 20's, and this was followed by reports he would relinquish his post.

Hitler and Von Blomberg conferred at the War Ministry Jan. 31. The Fuehrer was said to have agreed to the resignation, and later emerged appearing pale and grave.

Soon thereafter the Marshal left for Italy.

Announcement Delayed

An official announcement will not be made before the end of the week and may be delayed longer.

It will be coupled, a most authoritative informant declared, with publication of a scheme for conduct of military affairs in the future.

Von Blomberg retains the title of Marshal, there being no retirement for that rank. Marshals remain active for life.

General Werner Von Fritsch, Commander-in-chief of the Reichswehr, who was said to have acted as spokesman for the army in suggesting the Marshal's resignation, has gone on leave and cancelled invitations to an official dinner at his home this week.

His discharge as chief of the army will follow soon, military circles predict. They contend he never was wholeheartedly behind the Hitler-Von Blomberg proposal to make Von Blomberg Minister of War.

"Well, I love her, and I would rather give up my job than leave her."

General Hermann Goering, Air Minister and Economics Chief of the Reich, stands to succeed Von Blomberg. Probable successors to Von Blomberg as the War Minister are:

There also was the possibility Hitler himself might assume the war portfolio, followed the example of Premier Mussolini in Italy.

NEWS BRIEFS AND ODDITIES

PROPOSED VISIT OF KING TO INDIA DISCUSSED

London, Feb. 2 (CP-Havas) — The proposed visit of the King to India for the Coronation Durbar was said to have been discussed at the regular weekly cabinet meeting today. A decision on the proposed visit is believed imminent.

The Marquess of Zetland, Secretary for India, is said to have informed his colleagues of the results of his audience with His Majesty last night.

SMOULDERING CIGARETTE CAUSE OF FIRE IN CAR

Hamilton, Ont., Feb. 3 (CP)—Mike Stotzik, visiting here from Lake Mata, Ont., threw his cigarette out the window of his automobile but what blew it back in and now all that's left of his car is the engine, rear wheels and a burned mass of metal. John Dydack, also of Saria, injured his knees when he fell over the fleeing car.

BOYS REWARDED FOR ALERTNESS

Paris, Ont., Feb. 2 (CP)—Clarence Wood and Reginald Brownfield, Paris boys who reported to railway officials Dec. 11 that a piece of iron was wedged into a tie and lying over a rail, have been awarded $5 each. A passenger train was detoured while section men removed the iron. Letters from the Canadian National Railways accompanied cheques to the lads.

AMBASSADORS ARE SUMMONED

Conference to Draft Measures to Remove Menace

London, Feb. 3—(AP)—Foreign Secretary Eden summoned the French and Italian Ambassador to London today for draft measures to rid the Mediterranean of the recent submarine menace to merchant shipping.

The menace grew from the Spanish civil war, and the sinking of a ship in the Nyon accord delegating Great Britain, France and later Italy, to patrol the sea and to sink any attacking craft.

Why the Weather?

By Major A. H. Thiessen
Science Service Meteorologist

If Candlemas day be fair and bright,
Winter will have another flight;
If on Candlemas day it will shower a-nd rain,
Winter is gone and will not come again.

There are several similar rhymes that tell the old stories of the groundhog, bear, and badger. While we regard these old tales as simply superstition, we should remember that they arose from the efforts of our ancestors, who very carefully watched the weather of winter and early spring, to predict if they could their chances of future good weather from field, meadow and barn. Weather science as we now know it is comparatively new.

THE WEATHER

Toronto, Feb. 3—(CP)—An area of high pressure extends from Alberta across the Northwest Territories and James Bay to the Maritime Provinces while pressure is low over the western half of the United States. The weather is fair and cold in Quebec and the Maritime Provinces but the temperature has moderated somewhat in Manitoba and Northern Ontario.

Lake Superior: East to northeast winds: cloudy tonight and Thursday with some light snow; moderate to somewhat higher temperatures.

Manitoba: Mostly cloudy and moderately cold tonight and Thursday with some light snow.

Saskatchewan and Alberta: Mostly cloudy today and Thursday with some light snow; not much change in temperature.

BARRACKS NAMED

The new permanent force barracks at Barriefield now occupied by the Royal Canadian Corps of Signals will be officially known in future as Vimy Barracks it is announced by the Minister of National Defence in current military orders for District 2.

CUSTOMS COLLECTIONS INCREASE $11,685 DURING JANUARY

Customs fees collected at the local port during the month of January 1938 showed an increase of $11,685.39 over the total for the same month one year ago. January collections for 1938 totalled $87,971.22, while for the month of January 1937 collections reached $76,285.83.

MAYOR BONE ATTENDS PARLEY AT OTTAWA

Representing this city in his fight for increased relief grants this coming year, Mayor Bone of Toronto will leave the city today for Ottawa where he will attend the relief parley of Ontario mayors who will meet with the Hon. Norman Rogers, Federal Minister of Labor, on Friday. A new relief payment set-up will be urged by Mayor Bone and heads of other municipalities of the province.

AGRICULTURAL COURSE FOR MOHAWK RESERVE

For the purpose of teaching residents of the Mohawk Reserve the rudiments of agriculture and economics of land, a special and short course in agriculture is being arranged by the Dominion Department of Agriculture, to be held in the Mohawk Council House from Feb. 14 to 25. The meeting will be in charge of special experts of the Indian Department branch.

Police Blotter

Ice-covered and slippery streets were attributed to have been responsible for a number of accidents and a few minor motor cars involved at the intersection of John street and Victoria avenue early yesterday afternoon.

According to police reports Richard Terry was driving his car south on John street and was negotiating a left hand turn into Victoria avenue. Proceeding westerly on Victoria avenue, R. B. Cooper, 304 Bridge street, approached the intersection but when he applied the brakes of his car to avoid a possible collision with Mr. Terry's car, Mr. Cooper's car swerved slightly to the left and collided with an east bound automobile driven by John Cronin, local taximan. Only fender damage resulted and no charges were deemed necessary as the incident was said to have been purely of an accidental nature by investigating police.

Hazel Ramsay, 294 Front street, reported the loss of a fur muff to the police yesterday. She assured the authorities the muff had been either dropped on John or motor car.

A local citizen was apprehended in an alleged intoxicated condition on Front street yesterday afternoon and detained in the police station until in condition to return home. The incident will appear in a subsequent police court. Only six transients were afforded warm sleeping quarters at the police station last night.

GEORGE S. KERR ON RETIRED LIST

Night Transferman of C.N.R. Express is Honored

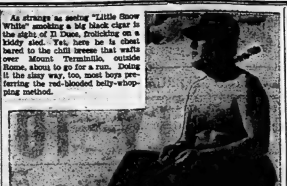
George S. Kerr, veteran Canadian National Express employee, was signally honored by his fellow employees at a retirement dinner held at Dickens' Restaurant, last evening. The members of the local staff of the Canadian National Express office met and honored one who was retiring from service. Mr. Kerr completed his service with the Company on January 31st.

Mr. Kerr entered the services of the Canadian National Express at Belleville in 1919 and has been continuously with them in the capacity of night transferman and porter until the present time.

In presenting him with a suitably engraved pin and pencil set on behalf of his fellow employees, Mr. George H. Griffin, agent, referred to Mr. Kerr's faithfulness during the years of his service. Mr. Griffin was local agent at the time Mr. Kerr commenced with the Company and while he was away from the agency work for ten years Mr. Griffin said he was honored to again being the agent to greet Mr. Kerr at his retirement.

Among those from out-of-town to attend were Mr. A. G. Taylor, city supervisor, Toronto, and Mr. G. H. Waterhouse, traffic supervisor of Montreal, Toronto.

Fellow members of the staff each paid their tributes to Mr. Kerr and expressed regret in his leaving the active services of the Company but wished both himself and Mrs. Kerr every good wish for long years of rest and good health in their retirement.



Mr. Kerr very appropriately responded to the many good wishes and assured his fellow employees that he was still one of the Belleville staff.

Says Service Clubs Not Specially Mentioned

Mr. George F. Stewart made the following statement today in regard to the address delivered on "Literature and Life" before a local club.

"In yesterday's issue of The Ontario-Intelligencer I was reported as saying at the Y's Men's Club that there are too many talks on practical subjects given at service clubs. Perhaps my own lack of clarity may be to blame for the reporter's misunderstanding but I surely had no such thought in mind. As the specific purpose of most clubs—I did not specially mention service clubs—and various other organizations is to promote practical objects, of course the addresses given should naturally and appropriately be pertinent to such purposes. Who can have aught but praise for the splendid work such organizations are doing? But I said that the practical affairs of life are not all that concerns or should interest us; so, by way of variety, I was going to deviate from the usual topics and talk to them about 'Literature and Life'."

THE ADS ARE Part of THE NEWS

As strange as seeing "Little Snow White" smoking a big black cigar is the sight of Il Duce, frolicking on a kiddy sled. Yes, here he is cheek bared to the chill breeze that wafts over Mount Termanlin, outside Rome, about to go for a run. Doing it the sissy way, too, most boys prefer having the red-blooded belly-whopping method.

MARLESSLY MARVELOUS!

You'll call it magic—but we just call it expert Body and Fender Repairing. You'll think our charge is more than we'll ask—once you see the flawless beauty we've restored to the most hapeless looking of Body- or Fender "cashiliovers" and "crumpled-horn" denis! Just drive in.

Met as Wounded Artillerymen In Halifax Hospital 20 Years Ago

The Then Colonel of Artillery And One of Lower Rank Meet Again First Time Since—One Now Ontario Supreme Court Judge and Other is Member of Fourth Estate

Almost twenty years ago two wounded soldiers were patients in the same pavilion in a military hospital in Halifax. Daily they met through the medium of the treatment department. One was a colonel of artillery, the other of lowly private. In their daily meetings, a friendly atmosphere was created that later grew into real friendship.

At the close of the year 1919 their paths separated. One already an outstanding lawyer, followed the path of his chosen career and today is one of Ontario's most brilliant jurists and a Judge of the Supreme Court of Ontario. The other chose the fourth estate as his career. Today he is still a newspaperman. Widely diversified careers prevented even a chance meeting, as they followed their different paths of life.

Yesterday they met for the first time since 1918. In the Judge's Chambers of the County Court buildings, Mr. Justice McKay who is presiding over the Spring Assizes now in session, in the dignified gown of office, chatted with his fellow-soldier of twenty years ago.

Mutual recognition was made after an introduction had been effected by a court official, with His Lordship Justice McKay gracefully giving of his time to reminisce of those memorable days of war-time atmosphere twenty years ago. The eminent jurist expressed his delight at seeing his former comrade and many instances of hospital life in Halifax were recalled to the mutual pleasure of both parties.

NOTED JURIST IS HONORED GUEST

Members of Bar Association Heard Interesting Address

Honoring a noted jurist, the Hastings Bar Association held a Bar dinner at the Quinte Hotel last evening at which the Honourable Mr. Justice Col. Ketler McKay, Supreme Court Judge, presiding at the Spring Assizes now in session, in the dignified gown of office, chatted with his fellow-soldier of twenty years ago.

His Lordship addressed the district barristers on "The ethics of legal profession". A timely and interesting topic, which was highly appreciated. The honored guest was welcomed to the Hastings Bar Association dinner by Mr. Arnott, K.C., president of the association.

Members of the association gave short impromptu talks, including W. C. Mikel, K.C., who reminisced upon legal professional incidents and related several interesting anecdotes. A. R. Cameron, Charles A. Payne, K.C., and other members of the local Bar Association added to the evening's entertainment.

LECTURE GIVEN ON GAS PROTECTION

Maj. H. L. Salmon Demonstrates Anti-Gas Measures at Armouries

An estimated attendance of 150 officers and other ranks from military units comprising Military District No. 3, representing Peterboro, Lindsay, Cobourg, Picton, Napanee, Port Hope, Orono and other municipalities of the section, gathered in the Armouries last evening where the first actual demonstration and lectures in the practical use of gas and gas training was given by a special detail from military headquarters, Kingston, headed by Major H. L. Salmon, M.C., G.S.O., No. 1, of M.D. No. 3, and staff of six assistants.

The modern infantryman and soldier no longer suspects gas when this accessory of war is used. Today he is certain when areas have been covered by the poison, officers and ranks were told by Major Salmon. The use of special chemically treated paper disks which are part of the well equipped soldier's kit have removed the uncertainty and doubt so persistent in the days of the Great War.

With these disks securely fastened to bayonet or stick and poked in exploratory fashion in suspected areas, the advancing infantry can not only tell with a certainty whether gas saturation exists, but can also tell by the changes in color of the disk what type of gas has been used by the enemy. Further safeguards against gas poisoning are offered by the improved gas helmets of new type which were used in practical demonstration for the first time here last evening. They are complete with new type canister and special non-shatterable glass for eye pieces.

Samples of gas were used during the evening in the practical demonstrations arranged by Major Salmon and his staff.

Midget Engine Conveys Honor Key To Rail Chief

A SPECIAL railway line was set up by the Halifax Board of Trade recently by which Mayor Walter Mitchell presented a golden key to the City of Halifax to S. L. Hungerford, Chairman and President, Canadian National Railways, and President of Trans-Canada Air Lines. The occasion was the annual banquet of the Halifax Board of Trade, at which Mr. Hungerford was guest speaker. The track was laid along the head table and Mayor Mitchell, after making the presentation speech, placed the key on the tender of a miniature Canadian National locomotive which conveyed it along the rail and stopped in front of Mr. Hungerford. The picture shows the President of the National System receiving the key. Among those present at the inauguration of this unique rail service were Hon. Robert Irwin, Lieutenant-Governor of Nova Scotia, Premier Angus L. Macdonald and Frank R. Warren, President of the Board of Trade, who presided.

Farmers Look Over Supply of Fodder Winter's Half Over

Today besides being Candlemas Day, was annual stock taking day on farms in the district. For this day marks the half way period of winter when farmers everywhere, as has been annual custom, count what hay lofts and vegetable bins in barns that to determine whether or not sufficient fodder is on hand to tide their livestock through the remainder of the winter weather. Just about one half of the winter's supply of fodder should have been used by now on the better managed farms. This year, however, finds the majority of agriculturists with fairly large stocks reportedly still on hand as the crops last fall were bumper fall. There is little fear of a feed shortage and animals were, wintering well, it is reported from local supply houses.

Obituary

LATE ROBERT BOGLE

Many friends were present at the funeral of Robert Bogle which took place from his late residence, 17 Bellevue Apartments, Patterson St., Tuesday afternoon, Feb. 1. The service in the home was conducted by the Rev. W. J. Walker, minister of St. Andrew's Presbyterian Church, assisted by the Rev. Dr. E. N. Baker. Interment was made in Belleville Cemetery, the service at the graveside was conducted by the Rev. W. J. Walker.

The bearers were Mr. R. E. Shoff, Mr. W. Graham, Mr. P. W. Glass, Mr. H. C. Thompson, Mr. W. McKenna and Mr. Arthur Harman.

LATE JAMES M. MURRAY

The funeral of James Milford Murray took place from the family residence, North Front street, College Hill, Tuesday afternoon, Feb. 1. The service in the home and at the graveside in Riverside Cemetery was conducted by Bishop Marshall of the Ecumenical Reformed Episcopal Church.

The bearers were Messrs. M. Deyarmond, L. Sine, H. Sine, W. Murray, E. Bowers and M. North.

SHERMAN G. POLMANTER

Sherman Gordon Polmanter, the six-year-old son of Mr. and Mrs. Lorne Polmanter, 112½ Cannifton Road, died Tuesday evening, Feb. 1, at the residence of his grandparents, Mr. and Mrs. Simon Polmanter, 32 Great St. James street. He was ill for about ten days.

Surviving him are his parents; three brothers, Roy, George and Gordon, at home; his grandparents, Mr. and Mrs. Simon Polmanter and his grandfather on his mother's side, Mr. Wesley Brunton, Brown street.

The family attend Victoria Avenue Baptist Church.

LATE JAMES MACDONALD

Many Belleville friends of the late James Macdonald, who was born in this city, will find it interesting the following references to his death which were contained in Montreal papers.

James Macdonald, vice-president and managing branch of the A.A.U. of Canada and known throughout the Dominion as an ex-"old guard" amateur sports, died suddenly at his home, 57 Prince Arthur street west early this morning, Jan. 25.

A life member of the M.A.A.A., Mr. Macdonald always took an active and keen interest in sports, particularly boxing and wrestling, although how well posted he was in the finer points of sports activities was demonstrated by the fact that for the past year always acted as official timekeeper for amateur boxing tournaments in Montreal and district, as well as on behalf of the board of the Racing Wheels Association. He was also secretary-registration committee of the A.A.U. for 25 years.

He was taken ill while returning home from work at the office of the Royal Trust Co., yesterday afternoon, but apparently appeared to be in his usual good health.

Surviving him are his wife, formerly May Hamilton, of Hamilton, and his daughter, Mrs. Stone Arthur, her grandfather, who founded St. John Ambulance Corps, and Helen T. Macdonald, of Montreal.

The Funeral.

Veteran enthusiasts in amateur sports and other friends paid their last tribute to James Macdonald at his funeral service this afternoon (Jan. 27) at his home, 57 Prince Arthur street west. Interment was at the Mount Royal Cemetery.

Rev. Canon R. H. Ho .rd, rector of St. Martin's of which church Mr. Macdonald was a member, conducted the service. Miss Arthur, a daughter of the bride, with the Rev. Mr. Jewell, of the then Bloomfield Methodist Church officiating, Mr. and Mrs. Gerow have resided for the entire period of their married life in Prince Edward County with the exception of three years spent in New York State.

HONOR COUPLE ON 50TH ANNIVERSARY

Mr. and Mrs. Wm. Gerow, Bloomfield, Recipients of Congratulations

Surrounded by a small group of intimate friends in the quiet simplicity of their Bloomfield home, Mr. and Mrs. William Gerow, highly respected and esteemed residents of the Prince Edward County village yesterday celebrated the fiftieth anniversary of their wedding.

Married on Feb. 1, 1888 at the home of the late Beverly MacDonald brother of the bride, with the Rev. Mr. Jewell, of the then Bloomfield Methodist Church officiating, Mr. and Mrs. Gerow have resided for the entire period of their married life in Prince Edward County with the exception of three years spent in New York State.

Two sons were born to the union, Carlyle, now residing in Toronto, and Lloyd at present living in Belleville. Mrs. Gerow is in good health although Mr. Gerow has been ill for some time but he is able to move around.

The happy celebrants were the recipients of a number of letters of congratulation from a large circle of friends in the county and district.

CAPITOL

INCREASED

(Continued from page one)

ernment control over export of arms and materials of war was initiated by Transport Minister Howe. It was an amendment to the Canada Shipping Act to give the cabinet power to prohibit shipment of arms or materials of war to a belligerent country in Canadian vessels.

Last session amendments to the Customs Act were enacted giving the cabinet power to prohibit export of arms and materials of war except under licence and to prohibit exports to certain countries or of certain materials.

Thomas L. Church (Cons. Toronto-Rosedrive) gave notice of a new effort to obtain more drastic laws against reckless driving. He introduced a bill to amend the criminal code, containing a provision that those found guilty of driving under the influence of liquor should receive the same penalty as is provided for driving while definitely intoxicated.

Agriculture Depressed

Mr. Deachman, replying to Mr. Blackmore said of the Social Credit party: "No party has been a more complete failure as regard carrying out its promises."

The position of Canadian agriculture was the most serious factor in Canada's economic position, said Mr. Deachman. There had been some recovery in the last few years but agriculture was still depressed and the spread between prices received for farm products and the prices of manufactured products continued.

The average net income of Ontario farmers was $363 a year or less than a dollar a day, said Mr. Deachman. That was less than the government paid an office boy just starting to work. The government should have the courage to do something for an industry which had sunk so low.

Bring Up Standard

"The real problem before the people of Canada today is the bringing up of the standards in agriculture as this country goes forward," said Mr. Deachman.

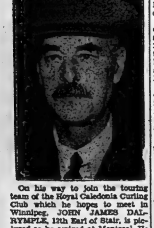
The big problem was not railways, nor unemployment nor industrial wages. All these would sort themselves if the farmers were raised to an equality with the rest of the people or Canada in their standards of living.

Mr. Senn, discussing frun exports said many farm exports to the United States dropped in 1937 from 1936 figures. Cattle shipments were lower, due to a fall in American prices.

There was a definite flow of money from Canada to the United States, he said, as a result of the trade treaty, Mr. Senn said. This he depreciated because it meant an unfavorable trade balance against Canada.

The 1931 census, Mr. Senn said, showed Canada had an urban population that exceeded the rural. Since then farm holdings had decreased to a great extent. Farm prices today did not bear a fair relation to other prices, the equilibrium between what the farmer received and what he paid, was too wide.

Regulate Farm Prices



Mr. Senn could see no reason why the price of farm products could not be regulated in Canada. The price of tobacco had been stabilized and that system could be extended to other branches of agriculture. To do that it would be necessary to protect the Canadian market from outside exploitation.

Dan McIver (Lib. Port William) commended the government for not reopening relief camps which he had considered one of Canada's curses and breeding spots for Communism.

Unorganized labor should have the right to organize anywhere, Mr. McIver said. He favored also a reduction of working hours.

Mr. McIver deprecated any move to curtail freedom of the press or freedom of speech. The people should have their eyes open, he said.

Men who gave long service in the House of Commons should receive pensions, said Mr. McIver. They were as much entitled to pensions as civil servants.

On his way to join the touring team of the Royal Caledonia Curling Club which he hopes to meet in Winnipeg, JOHN JAMES DALRYMPLE, 12th Earl of Stair, is pictured as he arrived at Montreal. He disembarked at Halifax, N.S., from the Duchess of Atholl and smilingly told reporters he had been practising at home with old-fashioned Canadian curling stones tied of iron to prevent cracking in intense cold. The earl is a past president of the Royal Caledonia Curling Club.

MINE CAVE-IN LIKE BAD DREAM WHICH HAS GONE

Dr. D. E. Robertson Who Is In City Praises Quiet Heroic Draegermen and Miners In Talk With Newspaperman

Memories of the now famous cave-in at the Moose River Mine in the hinterlands of Nova Scotia in April of 1936, that focused the attention of the entire world on this faraway place and which entombed for a period of ten days three Toronto men, Dr. D. E. Robertson, Alfred Spadding and Norman Magill resulting in the death of the latter before the equally famous rescue was effected on April 23rd by the draegermen and miners of Canada, were revived here today when Dr. Robertson visited this city to give evidence in a civil action being tried before Mr. Justice McKay at the Spring Assizes now in session in the County Courthouse.

Dr. Robertson now Surgeon-in-Chief of the Sick Children's Hospital, Toronto, who is a quiet-spoken unassuming sort of a chap, smiled when approached by a reporter. "What," he asked, and then he said as he playfully pushed the scribe to one side, "I wish I had seen the last of the gentlemen of the press, for some time at least."

Like a Bad Dream Passed Away

However, he became serious when questioned as to the effects of his famous ordeal beneath the rock strewn topography of Moose River.

"It seems like a nightmare now," he said, "or rather like a bad dream that came suddenly and as suddenly passed away. I am in perfect physical shape now and feel no effects whatever from that harrowing experience."

"They were splendid fellows" he mused, referring to his companions on that ill-fated journey. "Allan Spadding is doing fairly well now, although he has lost all of his toes from the after-effects of his experience. Magill was a fine type of a man, and his death was a distinct shock to all his friends."

Draegermen Quiet, Unafraid

The Canadian draegermen and miners were exactly the opposite to what they have been reported to be. They went about their duty quietly,—gentlemen unafraid. They made no fuss, looked for no notice and glory and took their hazardous work as though it were part of the day's toil. They are among the finest men in the world, and by their splendid work in the Moose River rescue wrote a page in the history of Canada that will never be dimmed."

"One rather embarrassing aftermath of the mine epidode, but one that is gradually dying out, was the fact that people use to stare at me, as though I had been on some-where or recognized me but could not remember who I was," Dr. Robertson added.

"Some of the braver ones asked me, but the stock answer was, 'Aren't you ever see my picture in the papers?' That gave me a way immediately, for a few months after the disaster, but that is gradually passing away now."

ACCIDENT SUIT IS CONCLUDED

Settlement in Unstated Amount For Plaintiff Agreed Upon

Settlement in an unstated amount, without costs following a conference between the presiding judge and counsel shortly after noon today culminated a damage suit for $5,000.00 brought by R. F. Moore, Belleville wood dealer, against Lorne Reid, Thurlow farmer in the only case heard at the Spring Assizes held in the County Court chambers before the Hon. Mr. Justice McKay, Toronto.

The conference ordered by the presiding justice followed a formal motion made by Mr. T. J. Agar, of Hughes, Agar and Thompson, Toronto, counsel for the defendant, for a non-suit after evidence of all the witnesses had been heard. R. D. Arnott, K.C., of Porter, Payne and Arnott of this city represented the plaintiff.

The action for personal injuries claimed to have been sustained in an accident that occurred on Nov. 2nd, 1936, when plaintiff's children to have been struck by an automobile owned and driven by defendant at the intersection of the Madoc Road and Highway No. 14.

R. F. Moore, plaintiff, was the chief witness at the hearing that included testimony from three medical men as to the condition of plaintiff during and since the accident. The defendant was not called to the stand.

Bobbing, HOWARD FRANKEL, 12 is pictured in a New York police station after he had been caught cutting from his mother's home in Brooklyn. Although a recent court decree says: Mrs. Rose Frankel should have custody of the child, Howard cries: "I'm going to see my daddy, no matter what they do to me." He has run away from his mother's home three times since the court decision.

General Nicolas Rodriguez, reported leader of a Mexican Fascist group known as "gold shirts" who have clashed with police and militia of Mexico in four cities of Tamaulipas State along the Mexico-Texas border. Rodriguez, rancher-man and journalist, was deported from Mexico two years ago. A fierce battle in which already 18 have been slain, is being waged between the "gold shirts" and police for the possession of Ramires, about thirty miles from Matamoros.

Although four bullets passed through her brain a month ago, 3-year-old Marjorie Sipila, is pictured at Eureka, Cal., after her astounding recovery. Little Marjorie was shot by her crazed father, Nilo, 42, who killed his two other children, Raymond, 10, and Leonard, 4, before mother, Mrs. Elma Sipila, said the recovery was a miracle.

John Wayne and Jean Rogers in "Conflict" now playing the Capitol.

R. J. HENNESSEY IS NAMED PREXY

Retail Merchants Hold Annual Meeting on Tuesday

Mr. R. J. "Dick" Hennessey was re-elected president of the Retail Merchants Association at the annual meeting of the Association held in the Y. M. C. A. on Tuesday evening. There was a large attendance of the members and with the exception of the election of officers little business was transacted. Other officers to guide the destinies of the Association during the year are 1st vice president R. J. Wray, 2nd vice president E. I. Shapiro, secretary treasurer D. J. Doyle. A 4th executive will be appointed in the near future.

A pleasing event of the annual meeting was the presentation of a complete fishing outfit, rod, reel, line, case and tackle to William J. "Bill" Doyle, efficient secretary treasurer of the Association since its inception in this city. Bill has been one of the guiding figures in the progress of this live organization and his worth was recognized by every member present. E. L. Shapiro was in the chair at making the presentation and in a few well chosen words expressed the appreciation of the secretary's efficient services and hoped that he would remain a long time at his post.

Although taken quite completely by surprise, Mr. Doyle replied briefly expressing his thanks for the acceptable gift.

ROBBERY STORY TOLD KIWANIANS

Earl Fry, Member of Club, Gives Experiences With Toronto Police

Inside information on the workings of a police officer on the Toronto force was given to members of the Kiwanis Club at their regular meeting on Monday at the Queen's Hotel, when Earl Fry, a member of the club, was the principal speaker. The meeting was presided over by President Albert Boynton, while Bill Anderson acted as accompanist and George Purdyo as song leader. There was a large number of the members present and the club is well on its way to capture the attendance prize for the month.

Frank Domenico, chairman of the dance committee, told the members of the progress of the committee and that the dance was to be the best in the history of the club. The chairman asked all members to send in the names of those they believed would like to go and an invitation will be forwarded. The ladies of the club were requested to assist in the preparation of the buffet lunch and supply many of the necessities. The challenge of the dancers, both of the club and those who will be accepted and already many of the members are practicing for the event.

Describes Entry.

The speaker of the day was introduced by Past President Eddie Logan and Earl Fry in opening his address admitted he was not an orator but would try to give the members some ideas of the life of a policeman on the Toronto force. Earl described his entry into the force with which he served some fifteen years telling of the rigid examination required to join the force and the efforts of the men to get off the beat. He also told of the schooling required particularly with relations to the Criminal Code and the Highway Traffic Act. Earl related how he was promoted to the Traffic squad and his first attempt to ride a motorcycle and how he remained in that department for five years later joining the detective force and working on O.T.A. enforcement.

"I left the department," said the speaker, "and I believe, I was the first man that was ever taken back on the force and I was recalled shortly after the mail robbery which occurred on June 19, 1938. I was in Cleveland at the time and met the Chief of Police in Toronto, who told me that money was no object and that I was to carry on in the United States. In all big mail robberies the police always look for a man who is conversant with the delivery of large money parcels and we soon hooked onto Findlay McLeod, a mail driver, who had been sentenced to prison and had just been released. McLeod finally broke down under questioning and soon Sullivan, who ran a small tobacco store in Toronto, and Mr. and Mrs. Everett McKibbon of Detroit were arrested and part of the loot recovered. Later Harry Bovin was captured but Bill Bovin, the brains of the gang never was captured although he was later back to dealing in guns in the southern States during a holdup. My duty was to tail Bovin and I followed clues all over the United States but the closest I got to my man was in Detroit and then I was nearly two weeks behind him." The story as told was quite interesting especially the dives the speaker visited in Detroit.

PROTESTS KIBITZING BY CHICAGO POLICE

Chicago, Feb. 2. (AP)—Mrs. Christine Dorta, President of the South End Benefit Club, asked the Superior Court today for injunction to keep the police from kibitzing at bridge and dance parties. She alleged officers broke up games that were being played merely for relaxation.

HONOR ROLL

TINY TOTS SCHOOL

Report for January

Perfect Attendance — Dorothy Dicks, Douglas Pearce.

Best Progress—Ruth Pearce.

Highest Marks in Number—Elinor Jane Bernstein, Barry Shapiro.

Highest Marks in Writing—Kathleen Morrell, Joan Faulkner, Janet Robertson, Douglas Young, Jane Freeman, Shirley Henry, Dorothy Dickey, Margaret Ann Holway.

Highest Marks in Reading—Barry Shapiro, Elinor Jane Bernstein, Joan Faulkner, Ann Brions, Douglas Kerr, Ruth Pearce, Douglas Young, Margaret Ann Holway, Shirley Henry, Janet Robertson, Barry Muir, Jane Freeman, Dona Flynn, Kathleen Morrell.

Honor Standing in Sr. Primer—Elinor Jane Bernstein and Barry Shapiro, equal; Joan Faulkner.

Jr. Primer—Douglas Kerr, Dorothy Dickey, Kathleen Morrell and Jane Freeman, equal; Janet Robertson, Ann Brions, Barry Muir, Dona Flynn, Shirley Henry and Douglas Young, equal.

Class I.—Margaret Ann Holway, Ruth Pearce, equal; Bert Faulkner and Jean Rowsome, equal.

I. D. Wilkin, teacher.

This squad of basketball players bark for the South American country. The all-stars will oppose a representative team from Brazil in a series against Brazil and reserves as shown as they prepared to em-barkfront to back are W. Youngblood, F. Rosenbloom, Sid Rabin, C. Shore, Sid Glickman, V. Probst, I. Schneid-er and R. Chapman.

The Market Place of Industry

Domestic looms and local workshops supplied the simple needs of each community when the industries of Canada began. Customers were all friends or neighbours. The ability and integrity of every craftsman were well-known and created a demand for the commodities he made; his success was measured by the goodwill he enjoyed.

Communities grew and prospered; new settlements were established and thrived; the demand for manufactured products rapidly increased. Distant markets became accessible as transportation facilities improved. The scope of industry widened, goods were shipped farther and farther from every plant, and it became necessary to gain goodwill towards products and their makers in remote towns and villages where they were unknown.

The newspapers have provided this vital service to Canadian industry at every stage of its development. No other medium could ensure the frequent, friendly contacts with consumers, needed to establish confidence, or afford effective territorial control of merchandising activity, when local or national emergencies arose.

Today the manufacturing industries of Canada serve a national market; their products are on sale from coast to coast. Production has been centralized, distribution systems organized, but the success of every enterprise still depends on customer goodwill.

Therefore, progressive companies continue to use the local daily newspapers as an integral part of merchandising. Experience has proved that the daily newspapers of Canada, bought and read by more than two million families every day, provide the most economical and effective means whereby any industry can create public confidence in its policies and profitable demand for its products.

THE ONTARIO INTELLIGENCER

THE DAILY ONTARIO INTELLIGENCER is published every afternoon (Sunday and holidays excepted) at 75c. Ontario Intelligencer Building.

HELPING THE RED CROSS
HELP CHINA'S HELPLESS

Chinese homeless, helpless millions young, middle-aged and old, are going through an ordeal which only victims of war can understand in all-its fulness. These need help of such an organization as the Red Cross to bring what relief is possible in the face of the immensity of the suffering to which they have fallen heir.

The Red Cross organization, ever alert to the duty of the hour, has seen its obligation and that of humanity at large calling for assistance by everyone who loves his fellowman of any race and every race.

The Canadian Red Cross has at once accepted the task of doing what it can to relieve the pain and suffering and help the homeless of the and land of China. This is one of the ways in which Christian nations which hate war can do something for the entire human race and for the Chinese sufferers in particular whose share of woe can never be fully understood even by the most sympathetic and kindly, for these victims live in horror and in anguish. The Christian command to help these in need cannot go unanswered.

Branches of the Red Cross in every city, town, and village will accept donations which they will forward to the Canadian headquarters immediately for the relief as far as possible of these innocent victims of war.. It is the deep prayer of everyone that other lands may be spared such experiences as have fallen to the fate of the Chinese, children, women and men. Those who can possibly help will assuredly take a share in the Red Cross undertaking for the sake of humanity.

GREENS AS DECORATION MOTIVE

One of the noted floral decorators of England, Mrs. Constance Spry, is using kale freely as the leading motive in the adornment of British noble homes. Her announcement that she uses the lowly relative of the cabbage family in the form of its green and red tomatoes, artichokes, rhubarb and such weeds as "fat hen" for the same purpose.

This may start a new movement for adornment. It may even lead to the restoration of some of the lawn lavished on purposeless vines that the people know that there is nothing lowly or out of association with art in using the vegetable as a decoration.

Use of vegetables, weeds and ordinary flowers in floral art designing is not new. Egypt incorporated the lotus leaf and the papyrus into its architecture. A story is told of the bringing into art of the acanthus in Greece, when on the grave of a child at Corinth, the sorrowing nurse placed a basket of toys, covered with a tile. When spring came, an acanthus plant worked its way up from beneath the basket, curling its leaves outward beneath the edge of the tile. Greek artists seized upon this and today in the modern type of building known as Corinthian, the graceful arrangement is repeated in the capital of the column.

It is well known that the Romans included their favorite salad greens into carven friezes. The endive and the escarolle are among the characteristic motives in the decoration of the late Renaissance period.

Art and architecture use the natural motives and in the course of time into Canadian architecture and decoration surely will be placed those trees and plants with which we are so accustomed, the maple, the pine and other trees, the plants and the wild flowers. While it is chiefly an opportunity is here to be found, only artists can realize.

"UMPH" IS WHAT IT TAKES

umph (umf), *n.* Personal dynamics, attractiveness, and kinesthetic vigor: as, "an actress with plenty of umph".

You won't find the word in any contemporary dictionary, but future lexicographers may list it. A recent coinage of that jaunty newspaper columnist Walter Winchell, it has just begun to enjoy citizenship among the immortals. It will probably graduate, says The Rotarian Magazine.

Like the words *thud*, *swish* and *zing*, its sound reveals its meaning and is what the etymologist calls an onomatopoetic word.

Umph is a useful word. Briefly, neatly, it describes a complex quality, but that quality itself, while nothing new, is infinitely more useful than the word.

You probably wouldn't have hired that speedy, carrot-topped office boy who has tied up all the feminine hearts in the office if he hadn't had—well a lot of umph. You'll admit it took just about all the umph you could summon to sell the directors your new idea. And it's plain to you that the men who wield the presidential gavel in your club are the men with umph.

The poet and anthologist Louis Untermeyer pointed out at the recent issue of the Herald Magazine that, unwittingly, man goes about glorifying the commonplace—in his speech, for one thing. Such slang terms as "crash a party" and "muscle in", he believes are unconscious poeticisms that enrich our daily speech. To Mr. Untermeyer, who delights in the glorification of the commonplace, we would submit Mr. Winchell's umph. While other poets might, he probably would be the last to answer, "Humph to umph!"

He alone is a man who can resist the genius of the age, the tone of fashion with vigorous simplicity and modest courage.—Lavater.

Many a genius has been slow of growth. Oaks that flourish for a thousand years do not spring up into beauty like a reed.—George Henry Lewes.

Supervised by The Lamplighter.

THE HOLY LAND

Of storied countries none is quite like thee.
It was not leagues of land that brought thee fame;
No belching smoke-stacks dimmed thy canopy,
But 'twas thy soul that so enriched thy name.

Thy poets grew a song-book to mankind;
Thy prophets built a pulpit draped with thunder,
And ere the birth of Greece's nimble mind,
Morals were taught that filled the world with wonder.

A universal alter thou hast builded
That has survived all human change and loss;
And with high hopes the heart's horizon gilded,
Till, lo! on Calvary appeared a Cross;

And wondrous land—as theatre art thou,
Of scenes at which all generations bow!

—ALEXANDER LOUIS FRASER.

LOOKING BACKWARD

GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

20 YEARS AGO

Feb. 2nd, 1918.

Mr. Thomas Wills, Belleville fruit dealer, telegraphed to the Deputy Fuel Controller of the United States at Pittsburg in reference to coal. Today a reply was received conveying the information that ten cars will be shipped at once to Belleville.

A life membership in the Belleville Branch of the Canadian Bible Society was presented to Mr. D. Y. Sinclair in the first floor exhibition hall. Last week the Baseball Writers Association of America, in its third annual election, chose GROCER CLEVELAND ALEXANDER to the Baseball Hall of Fame for 1938. Alexander was ELECTED. "A hero in the third inning may look like a bum in the seventh," is an old baseball adage and Grover Cleveland Alexander slid from being one of the most effective right-hand pitchers of all baseball history until the midnight flashlight of the press writers turned the illumination of publicity again his way. At fifty Alexander lives in Springfield, Illinois, where he manages a hotel baseball team, the last station, perhaps, reached via the characteristic twilight trail from major league to minor league, to semi-pro baseball, including an interval of barnstorming with the bearded House of David troupe. Alexander rose to the peak of baseball hero worship in the World Series of 1926 when after a night of celebrating two victories for the Cardinals over the Yankees he "was called from the ball pen at the crucial moment of the crucial game to pitch to Tony Lazzeri with the bases full of Yankees. Lazzeri struck out." Now Grover Cleveland Alexander is as immortal of baseball and his plaque received equal honor with those of Ty Cobb, Babe Ruth, Christie Mathewson, Honus Wagner, Walter Johnson, Napoleon Lajoie, Tris Speaker, Cy Young, Connie Mack, Ban Johnson, John J. McGraw, Morgan Bulkeley, and George Wright.

ACCORDING TO THE NEW YORK TIMES it

seems incredible in this age of strife, hate and name-calling that representatives of Finland and Great Britain could sit down about a round table at 10-Downing Street with no flourishing of shillelaghs and without the hurling of a single dornick. To be sure, Mr. de Valera was twice mobbed when he disagreed, but in that the Irish crowds of the city gathered to shout "Up Dev!" and "We want Dev!"

For centuries now, says the Times, the ancient wrongs of Erin have smoldered like so much tow to blaze up at every spark of remembrance. So the sight of gathering of London politicians at once to make sense. But really it is the blind and furious wars, the clashes of class with class and race with race, the persecutions, the purges, the bombings and the carefully calculated insults which do not make sense. When a sickness becomes chronic, as it has with mankind today, it is a mistake to assume the condition of the patient is normal because his symptoms remain unchanged. How heartening it is, then, to find the first flicker of a change in symptoms—to discover that men of good-will can still meet in amity to discuss differences that only yesterday seemed hopeless. Mr. de Valera is said to be disappointed, but in that friendly confession are only economic and not political. But miracles are still possible in this old world when Dublin and London can clink glasses and quaff a single toast to Eire and England.

• • •

THIRTY-EIGHT HUNDRED TRAINED NURSES HAVE LICENSES TO PRACTISE IN NEW YORK STATE, and it is said that there are 42,000 unclassified and unlicensed nurses. Most of these are practical nurses, capable and useful in the sickroom by their lights, but it is claimed that there are a number of "bootleg" nurses who are a menace to society. Now it is purported to enact legislation providing that all nurses be examined and licensed.

Housewife: "You would stand more chance of getting a job if you were to shave and make yourself presentable."

Tramp: "Yes, ma'am. I found that out years ago."

OFF THE RECORD

By Ed Reed

"Quit squawking! You de nothing but stand around all day anyway!"

40 YEARS AGO

Feb. 2nd, 1898.

The Corporation men levelled the snow on Front Street this morning.

Mr. Victor Wesley, who will leave tomorrow for the Klondike, was presented with a handsome wallet suitably engraved, by the Locomotive Engineers and Firemen of this division.

A very pleasant time was spent at the residence of Mr. R. Sprague North Front Street, last evening when a party of friends called to bid him good bye prior to his leaving for the Klondike. Among those present were The Rev. V. Cowsert, Mr. Charles Elvins and Mr. W. S. Biggs.

The Rev. Father Connelly spent today at Frankford.

Mr. Patrick O'Brien of Toronto was a visitor in town today receiving acquaintances.

Mr. George H. Pope has left for Brantford on business.

Mr. Albert Thompson has returned to his home here after spending a few months in Mexico.

50 YEARS AGO

Feb. 2nd, 1888.

This is Candlemas Day and the weather is bright, clear and bracing. Brush will surely see his shadow and go back to sleep for six weeks.

The Belleville Amateur Minstrels will give an entertainment here on the evening of the 13th. inst. An excellent performance is promised.

The ice house, for the use of the Gasler, is to be erected upon the court house grounds following the plan of Trenton's ice house, drawn for by Mr. J. M. Higgins, Chairman of the committee.

Mr. O. Williams is offering for sale the Royal Hotel at Marmora.

Mr. W. H. Wallbridge of this city, formerly a law student in the office of Mr. George D. Dickson, Q. C., and Mr. F. S Wallbridge, has successful in his examination at Toronto and is now a fully qualified solicitor. We extend our congratulations. Mr. Wallbridge will probably practise his profession in Toronto.

That Body of Yours

By James W. Barton, M.D.

Treating the Mentally Ill and the Mentally Defective Patient

When we think of "mental" hospitals as we know them today and as we knew them just a few years ago, there is much cause for gratitude toward those who have struggled so bravely to teach us that mental patients deserve as much, if not more, of our sympathy and consideration as those afflicted with physical ailments; and that, properly treated, cures may be obtained in at least one half the cases.

Generally speaking mental patients fall into two classes, those with so-much brains as normal individuals but without proper balance, and (b) those who simply have not as much brains as those who are normal. There is also a two types of hospital or institution for mental patients; one for those with brains but with poor or no balance, the mentally ill, and the other for those who are mentally defective.

In order to make the purpose of these two types of hospitals more easily understood, the Ontario Mental Hospitals Act of Ontario, Canada, calls the first type of hospital the "Mental Hospital," thus naming the city or town in which it is located, and the second type for the mental defectives, is called the Ontario Hospital School, followed by the name of the city.

The usual method of admitting patients in Canada and elsewhere for those mentally ill—is (1) by application of the patient himself before the Board of Health, or (2) by the hospital treatment, and (3) on the certificate of two medical practitioners that, after independent examination, they believe the patient to be in need of the treatment given by the mental hospital.

When the patient arrives at the receive person, naturally he does not consider himself in need of treatment, so that he must be admitted on the certificate of two physicians.

Mental Health Clinics, many countries (Great Britain, United States, Canada, etc.) Mental Health Clinics where physicians can send patients who are not mentally ill but in need of mental help, and which can be carried out in the home. In some countries these mental clinics travel about and this advice and direction is thus made available to those living in remote districts.

These mental clinics are doing much in preventing overcrowding of mental hospitals, and the point, of course is that by having hospitals not overcrowded mentally ill patients there is now more room for those who are desperate or having one of the family enter, a mental hospital for treatment.

TRAGIC LESSON

A young woman entered a beer garden the other night, announced that she was feeling ill and that she was broke.

The strangled corpse of the young woman was found early next day in a field on the outskirts of the city.

An old, old story told again.

And one that is bound to be repeated as long as young women, forsaking the teachings of home and mother, venture forth into the predatory men lie in wait for them. Not always is the end so tragic—tragedy is beyond further harm in this world.

The fact to which her folly led must be borne by those who survive.

What a warning to thousands of other women and girls, who nightly flock to the same dives to drink their home, where they are safe, to find themselves in the company ofsship in wayside inns on the road to death! —Detroit Free Press.

• • •

JAPANESE APPLES

Thirteen hundred and ninety-eight cases of Jonathan apples reached Canada recently from Japan. They were consigned to "order." London, England, and the package was marked with the number of apples contained therein, the weight and variety. On the box the marking was "Foreign Produce." Nothing was said as to which country or country of origin to British consignees.

Officials of the province, of course, have no power over shipments of this kind, but the quality of the apples were unofficially stated to be equal to, if not better good as the British Columbia competitor.

Think this shipment of Japanese apples to the United Kingdom is a significant one in the realm of hypothetical case. It is a bit of straight business in apples between a Japanese producer and a British buyer and there is nothing the apple-growers of the Annapolis Valley, Niagara Peninsula, or the Annapolis Valley could do about the shipment. —Victoria (B.C.) Times.

• • •

INFINITE UNIVERSE

Whenever we feel our ego can afford to be taken down a peg or two, we take a look at the heavens. Many years ago, his alert, and his unit of measurement pale into insignificance. We new hear of a superduper "exploding star" which is 3,000,000 light years away, and which has a brilliance estimated as 250,000,000 times that of the sun. —The Argonaut.

Give for China's War Victims

In spite of the generally recognized ineffectiveness of individual action there is still some faith in national boycotts against Japan. It has its mind, of course, coercive measures that will bring a halt to the war in China and the atrocities on civilian populations. No one can criticize the spirit which inspires these plans, but as no one ever blames any one Government for the atrocities in the international armament trade machinery which make the plans futile to apply.

But if the Western countries are incapable of the co-operation that would have saved China from the hell of war, they have it in their power to do something toward alleviating the miseries and much of the unnecessary death. The agency for extending such aid is obviously the Red Cross. Already its organizations in Britain and the United States are collecting funds to be devoted to this work. The Canadian Red Cross is now launching a similar campaign throughout the Dominion, under the chairmanship of Sir Henry Drayton, the money to be distributed through the British Red Cross office in China.

This especially is a voluntary appeal. Although some 30,000 personal appeals to a selected list are already in the mail, there will not be a special canvass of the general public. What publicity is given to it will come through the press and over the radio and in the cinemas. What money is forthcoming therefore depends almost entirely on the generosity of the public as individuals. That there is every reason, under the circumstances, it will be at once spontaneous and great.

Many persons are not so young that they cannot remember the horrors of the Great War. Yet nothing in the long chronicle of its atrocities can even suggest the scale and the frightfulness of civilian warfare in China today. Whole cities of half a million people have been depopulated by Japan's bombers. Refugees, dragging supplies, literally line the roads for miles, too hurt, too weak, to even seek out help. A recent report states that in the small area of Shanghai 187 refugee camps are being maintained to care for 762,000 destitute families.

But such reports are at best by way of description. The need which rouse the gamut of the necessities of life, and it is felt most acutely in the mission hospitals and other similar institutions which have not the supplies they need to carry on. It is the knowledge of such want that makes doubly hopeful the news of a Japanese bomb falling among and killing thousands of dollars' worth of bandages and medicinal supplies sent from the United States. But that is war. There will have to be relied on the one topic of the sufferings of China's homeless, defenceless millions.

Somehow we of the Western nations who have preached so much against war and who have not lived up to our sermons, have a special responsibility to those sufferers. The Red Cross organization is one practical way of meeting a portion of our obligations. If there are individuals in this community here, willing to make the financial sacrifices entailed in boycotts there should be many times that number who can give to this campaign which is being launched. The banks and all their branches, the various Red Cross chapters, will accept donations beginning with and up to any amount. There is no reason why the response should not be generous. There is no reason why relief to the needy should be delayed. Every penny is needed at once. Now is the time to give. —Toronto Globe and Mail.

Boarding Schools

Most Canadian boys and girls attend public schools but, in spite of that fact the existence of a number of flourishing private institutions. There are several reasons for wishing to have children educated in such schools, sometimes because of family traditions and often because it solves the question of boarding the pupils away from home.

In England the public schools are private, that is they are not open to everybody and the pupils pay a tuition charge of $500 to $750 a year. What we in Canada call the public school is known as a "board school" in the United Kingdom. They are so named because the local municipality boards or board votes the money to run them. Boys and girls are supplied free education until they are 14 years of age. A child may enter a board school at the age of five and he is said to be a member of the Infant department until he is seven.

The child is to go further in his studies after leaving the Board school his parents must pay a fee. From this system we have become familiar with the names of Eton, Rugby, Harrow, Aldenham, Uppingham and Wyrtsop, famous public schools in England. The boys who attend them are between the ages of 13 and 18 and for the most part are sons of wealthy families. Some English public schools date back more than 500 years.

In Canada the private elementary and secondary schools have an enrolment of about 56,000 which is about two per cent. of the number public elementary or secondary schools. Private schools are more numerous in Quebec than in all other provinces combined.

Commercial schools or business colleges are found in all cities and have recently had about 10,000 day students and between 4,000 and 5,000 evening students in a year.

The majority of private elementary and secondary schools in Canada are under Roman Catholic control and about one-half their number are listed as non-sectarian or are not controlled by the Anglican church, half that number by the Lutheran and about one by the United Church.—Peterborough Examiner.

SOUND JUDGMENT

At a meeting of Federated Women's Institutes in Toronto, Kingston, Miss Joyce of Vancouver, publicity secretary, urged members to "pay your publicity debt to newspapers that record your activities by supplying live copy, subscribing to the paper and buying goods advertised therein." There can be no doubt that Elizabeth Bailey Price is a woman of sound judgment concerning matters of which she spoke.—Renfrew Mercury.

Nomads Through Necessity

To the Editor of the News-Chronicle.

Sir—I read with interest the comment in the January 21 issue of the News - Chronicle about freight travelling. Before judgment should be passed, my reader is in order to stop transients or not, it would be best to hear both sides of the story.

I am an amateur freight tourist. That means that I ride the rods not first, by choice; a freight traveller occasionally, when necessary. During the past seven years I have travelled 8,000 miles. I have talked with hundreds of transients and believe my case to be identical to the average.

The majority of us transients are homeless and depend on seasonal work for a living. If we cannot get enough work to support us, we are forced to ride the rods.

Our best chance of staying out of jail is by trying to get enough money to get a room and then look for work. It is illegal to beg, steal or starve.

I have never been compelled to beg or steal, but I have often been hungry for two or three days or even four. Should I decide on a prolonged fast until the next job turns up, I am afraid I would get a term of study in agriculture at the Queen's Park, as many transients are surrendered in Port William recently and received six months.

I came from Nova Scotia. In 1935 and have worked in Ontario six months. The remainder I spent divided between Quebec, Alberta and British Columbia.

Due to my nomadic existence, or my desire to be self-supporting, I do not think I am able to get relief, if needed, because of lack of residence requirements. I get relief occasionally five to seven days cities.

The fact to which her folly led must be borne by those who survive.

What a warning to thousands of other women and girls, who nightly flock to the same dives to drink their home, where they are safe, to find themselves in the company of

Thus this shipment of Japanese apples to the United Kingdom is a significant one in the realm of hypothetical case. It is a bit of straight business in apples between a Japanese producer and a British buyer and there is nothing the apple-growers of the Annapolis Valley, Niagara Peninsula, or the Annapolis Valley could do about the shipment. —Victoria (B.C.) Times.

INFINITE UNIVERSE

Whenever we feel our ego can afford to be taken down a peg or two, we take a look at the heavens. Many years ago, his alert, and his unit of measurement pale into insignificance. We new hear of a superduper "exploding star" which is 3,000,000 light years away, and which has a brilliance estimated as 250,000,000 times that of the sun. —The Argonaut.

• • •

LONGSHOREMEN

A year or so ago we made a vet-ture word to origin of the term "longshoremen." Finding no satisfactory answer, we resolved to find the answer and it is so simple as to defy further inquiry.

They are "the men along the shore," a phrase which has been corrupted to "longshoremen."

We think that you might also like to know how the word "sailor" originated—longshoreman and stevedores.

It is also a simple thing. The stevedore is the man who does the loading. The longshoreman does the unloading.

"Shaping" means that sailo-bodied men gather at a pier where a ship is due and wait until an assistant stevedore calls them by name, because they look physically fit, and gives them a job.—New York Sun.

TURKEY HASH

Post-Christmas turkey hash must by this time have disappeared from most households, therefore it should be safe to mention a method of using the bird and its mariad.

Although the number of turkeys by Christmas is about 40 per cent. since 1890, there is a much steadier demand and more than this used to be. There still are November turkeys to be had in the markets but their volume is not what it was when the American family was larger and turkey and when it was not so much given to going to a restaurant for its holiday dinner. This means, also, a smaller volume of the abovementioned hash than in the good old days.

Increase in the year-round consumption, however, is one of the public eating places.—Cleveland Plain Dealer.

Wearers of Fur

Someone protests to the Courier-Journal that "one may go to church, even on Christmas, and not see the women worshippers swathed in furs that have been taken with torture from the steel trap. And the women who wear the furs seem to be unaware of their partners in it as the men who trapped the animals."

The fur-wearers, men a well as women, give no thought to the agony of the animals whose skins they wear. Their only thought is of the beauty and richness of the fur, and their assumed right to use the lower animals as the human being's personal pleasure.

Lack of thought caused the wearers of fur to overlook the cruelty of the taken egret plumes on their hats

a generation ago. That fashion was bad enough; but—the fur fashion is the worst origin of the extensive. Indeed, for twenty years past, since the craze for cheap furs started, the trade has been the largest organized cruelty of all time.

There will be no end to the cruelty of the trade in furs and by one department of the United States Government.

There is no longer any semblance of an argument against this abolition. There are now traps, that kill instantly or hold animals without injury.—Detroit daily vile (Kentucky) Courier-Journal.

Marmora

H. N. S. HONORS REV. FR. MARTIN

Members Pay Tribute To His Work In Sacred Heart Parish

Marmora — The regular monthly meeting of the Holy Name Society was held in the Separate School on Sunday evening with President C. Nicholson presiding over a large attendance. The meeting opened in the usual manner with prayer led by Rev. Father Keeley, President C. Nicholson welcomed back to the parish Rev. Father Keeley and expressed the deep sorrow felt by the parishioners during his absence. Mr. Chas. Cummings gave a reading "Communism or Democracy." Mr. Nicholson then gave a reading entitled "Rest and West Unlis at Mass." Musical numbers were then supplied by Pat Bertrand Jr., Maitland, Eugene Reynolds and Dan Shannon. A sad note now entered the gathering as the time came to bid farewell to Rev. Father Martin who resigns this week to Kingston after spending fifteen months as spiritual adviser and administrator of Sacred Heart Parish. Mr. C. Nicholson read the following address and presented Rev. Father Martin with a purse as a token of thanks and appreciation for the never-failing interest he has taken in parish affairs since his arrival in Marmora. The address was as follows:

Dear Father Martin:—

Every so often in the life or human events there comes a time when the best of friends must part.

We are now confronted with one of these sad occasions and frankly ....we do not like it.

You came to us as the result of the unfortunate illness of our beloved Pastor, Father Keeley, and at a time of deep anxiety on our part due to that illness.

On your arrival you were faced with a Bazaar, which, we will admit is quite some task for a newcomer. In addition our financial situation required deep study and strict economy. It is now history that your handling of these various problems was exceptionally brilliant and called for hard work on your part.

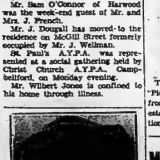
Furthermore and of greater importance to us and of greater credit to you, has been your success in the spiritual realm. We refer, here, to the wonderful progress made by the several study clubs during the past year, not to mention the Bible classes and other activities of like nature. All the above was carried out with a cheerfulness and a happy spirit of self-sacrifice that positively demanded loyalty and co-operation.

The above preamble, Father Martin, is merely leading up to the desire on the part of the members of this parish to express to you a very sincere thanks for all you have done during your term of office, and we wish also to thank His Excellency, the Archbishop, for having sent you as our Spiritual Director during these trying months.

In gratitude, therefore, and with feelings of great affection, we ask you to accept this small souvenir of your kindly ministry over us.

May God guide you and follow your Priestly career with His abundant blessings.

Signed on behalf of the Parishioners of the Sacred Heart Parish by President, C. T. Nicholson; Secretary, Leo O'Connor; Holy Name Society Officers.



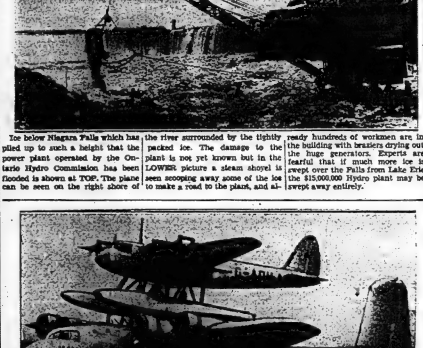
Father Martin, in a few well chosen words, thanked the people for their kindness and also thanked Father Keeley for his kindness during his stay here. Father Martin expressed sorrow on leaving Marmora, stated that he would always have fond memories of his sojourn in Sacred Heart Parish. After the singing of the hymn "Holy God! We Praise Thy Name" the meeting adjourned.

Mr. Sam O'Connor of Harwood was the week-end guest of Mr. and Mrs. J. French.

Mr. J. Dougall has moved to the residence on McGill Street formerly occupied by Mr. J. Wellman.

St. Paul's A.Y.P.A. was represented at a social gathering held by Christ Church A.Y.P.A. Campbellford, on Monday evening.

Mr. Wilbert Jones is confined to his home through illness.



LADY MABEL DUNN, well-known British writer and lecturer, caught by the camera's lens as she arrived in New York on the S. S. Aquitania. She will make a lecture tour of several United States cities.

They'll Do It Every Time :-: By Jimmy Hatlo

Ice below Niagara Falls which has piled up to such a height that the power plant operated by the Ontario Hydro Commission has been flooded is shown at TOP. The plant can be seen on the right above of the river surrounded by the tightly packed ice. The damage to the plant is not yet known but in the LOWER picture a steam shovel is seen clearing away some of the ice to make a road to the plant, and already hundreds of workmen are in the building with brushes drying out the huge generators. Experts are fearful that if much more ice is swept over the Falls from Lake Erie the 815,000,000 Hydro plant may be swept away entirely.

The giant fifteen-ton Short Mayo "Pickaback" flying boat takes off from the River Medway, at Rochester, England, on the first combination flight test. This composite machine took three years to design and build. It is hoped it will overcome difficulty of trans-oceanic and other long distance flight take-offs. The mail carrier will get its heavily-loaded rider into the air and will started on its journey without using any of the latter's fuel supply. In this test over the Medway the composite planes rose to height of 1,000 feet and manoeuvred as handily as a single machine.

MARMORA DRAWS WITH STIRLING

Marmora Team Had to Come From Behind to Earn Draw

Madoc, February 3—(Special)—Launching a desperate attack in the final ten minutes, Marmora High School turned an apparent defeat into a tie game. Outplayed and outscored for the first fifty minutes, Marmora put on the pressure and with only a few minutes to go and the score 4 to 1 against them, banged in three quick goals to tie the score with a minute to play. In the overtime each team scored once and the game ended 5-5.

Stirling appeared to have the game when they ran the score to 4 to 1 but they were unable to hold this lead when they attempted to play a defensive game. Reid, Morton and Armstrong were the best for Stirling while Leonard carried the brunt of the attack for Marmora.

Marmora — goal, Hollingsworth. Defense—Kerr and Nobes; Centre —Leonard; Wings—Regan and Reynolds; Subs—Tkatchuk, Cross, Lovicus, J. Gipp, Prinkley.

Stirling—Goal—Stapley. Defense —Long and Scott; Centre—Morton; Wings—Reid and Armstrong —Subs, McPee, Jandrew, Richardson, Pyear, West.

Referees—Wells, Stirling and Leal, Deloro.

GAYER COLOURS FOR MEN'S SUITS, FORECASTER

Chicago, Feb. 2 (AP)—Modern modish males will blossom out in

Hiram Steps In

By ENDORA RAMSAY RICHARDSON

"Why, Lucy Green," Hiram Thompson said in real dismay, "you can't mean that after all these years you are going to leave me."

The lady addressed compressed her spinsterly mouth and resumed her knitting. "Yes, Hiram," she replied with terrible finality in her tone, "I mean just that."

"Haven't you had a nice home to live in?" the poor man inquired blankly, the furrow between his eyes deepening. "If it's money, Lucy name your price."

Lucy Green clicked her needles impatiently and kept her eyes upon her flying fingers. "I have no complaint. I'm forty years old, and I want to see the city. For ten years now I've been keeping house for you, and I'm not getting any younger. I'm going next week, but I'm getting you a housekeeper."

"All right, Lucy" the man almost moaned, "I can't hold you." Miss Lucy gathered up her knitting and almost ran out of the room. Hiram Thompson stared into the fire and thought that life was a thing exceedingly hard to endure. Lucy had made his home comfortable, had cooked just the things he liked, had been such a nice body to have around, and his little girl, whom Lucy had taken care of since the child was two, adored her. Really he could not picture life without Lucy Green.

The miserable passing of time brought the departure of Lucy and the coming of her successor, Hetty McLeod, whom from the first Hiram felt he could never like.

That evening Hiram took his seat at the supper-table and looked across at the bony face of Hetty McLeod who talked in strident tones as she poured the tea.

"I see the neighbor's cat makes free on our side of the fence," she began. "I ain't a-goin' to have that —he or did like cats."

"Oh," little Mary wailed, "Aunt Lucy useter feed him. We love that cat."

Miss McLeod sniffed and made no reply as she poured a dark fluid into the cups.

"We don't have coffee for supper, we have tea," Mary complained.

"Ain't coffee. Can't you smell the tea?" the new housekeeper corrected.

A few days later Hiram noticed that dust had begun to coat the mahogany furniture Lucy had always polished with such pride. Little Mary, studying beneath the lamp, kicked her father gently on the ankle and wrote on the dark surface of the table. "I'm hungry and I want Aunt Lucy." The child had expressed the longing that filled his whole being. He was hungry not only for the food Lucy prepared, for the tastefully kept house that breathed the presence of Lucy, but he was hungry for Lucy herself.

The next day Hiram Thompson journeyed to find Lucy Green at the address she had given. She was staying, he had known, at the home of a sister in a not far-distant city, until she could find the sort of situation that would enable her to live alone. She had professed to yearn for. As he walked up the steps Hiram Thompson, forty-five and usually at ease, was as nervous as a school-boy. Lucy herself opened the door.

"Oh, Hiram," she gasped, "what's happened? Is Mary ill?"

Hiram walked in and laid his hat and coat on the chair nearest the door.

"We're starving for you, Lucy—Mary as much as a child can and me more'n I ever thought a man could. I thought maybe you'd consider comin' back not as Lucy Green, housekeeper, but as Lucy Thompson, owner. We just can't live without you, Lucy." he finished lamely.

There was a soft light in Miss Lucy Green's clear eyes—and also the glimmer of a twinkle. Her little plan that involved sending him the poorest housekeeper in the state and the grouchiest old maid had worked, but there was no use telling Hiram what he needn't ever know. So she dropped her lids and said gently, "Well, Hiram, I guess I'm homesick, too."

M. JAKUBOVITCH, Soviet Minister

to Norway, leaves Oslo on a journey to Russia with his wife and his dog. Minister to Norway while Trotsky lived there, he has been accused of conspiring with Trotsky by Stalin, and ordered to Moscow to face trial. He refused and resigned his post. Then from Moscow came news that his two sons had been arrested and would be executed if their father did not return. So Jakubovitch journeys to Moscow to face a charge which usually means death in the Soviet.

The Stars Say—

By GENEVIEVE KEMBLE

Judging by the many transits this day will unfold many curious and mystifying circumstances, much to intrigue the mind and demand a very concrete showing of wisdom, calculation and sagacity. Dulcidly, fraud and subtle assails on your well being loom but you may win out by following the advice of your employers or superiors. Exercising strictly the practical ideal.

If This Is Your Birthday

Those whose birthday it is may be in the midst of rather peculiar mysterious and intriguing adventure all calling for great alertness, discretion and sagacity. A child born on this day may have a rather intriguing and subtle make-up, with certain peculiar traits and talents which might be diverted for trained to constructive channels or expression. Its impressionability might lead to developing in creative art, music, poetry or invention.

FOND OF THE JOB

W. H. Hellems, who learned the art of printing at Norwich back in 1871 and has published the Kingville Reporter for almost 43 years, has said that paper to David T. Connery formerly of Scarborough Star, Windsor Star and the N. W. Ayer and Son advertising agency. His valedictory published in the issue of January 27, reviews the numerous changes which have taken place in the community since 1895. Life in Kingsville has been pleasant for Mr. Hellems and his family, and they will continue to reside there. In the way of general observations the publisher says:

"Always loved the work, which is one reason why I have remained in the business. I have always contended that the man who did not love his work was a slave, and have never had any reason to change my opinion. In vacating the editorial chair, I do so feeling that 37 years is long enough to follow any calling, whether one loves it or not; and so I gladly turn over the business to my successor, with the hope that he may enjoy the same confidence of the business people of the town and district that has been accorded the Reporter'er — Woodstock Sentinel Review.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Ready to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Poisons are absorbed into your blood and you feel sour, sunk and the world looks punk!

Laxatives only move the bowels. Nature's way is the scientific way. Get your liver to work on the liver as well. It takes those good, old Carter's Little Liver Pills to get them to pour out a full flowing freely and make you feel like a million. Harmless and gentle, they cannot gripe or cause a purge. They do the work of calomel but without its violence. Ask for Carter's Little Liver Pills—and be sure you get them. Refuse anything else. 30c

Personals

Miss Marjorie Bolton who underwent an operation at Belleville General Hospital on Monday, is progressing favorably.

Miss Joanne Clarke of this city and Miss Eileen DeMille of Picton, are in Detroit this week-end where they attended the Thompson-LaValle wedding.

Mrs. James Malyea, with her son Billy, of Gibson's Landing, British Columbia, is visiting her sister, Mrs. W. Fenlon, 70 Bleecker St., Front Street. Mrs. Malyea, who was formerly Miss Lena Demille of this city, is making her first visit home in over twenty-five years. She will also be the guest of her brother, Mr. Gilbert Demille, Picton, while in the East.

Mrs. Lorne Greene is making satisfactory progress after undergoing a major operation at Belleville General Hospital.

Mr. and Mrs. F. E. Osborne of Calgary, Alberta, and Mrs. C. T. Raymond, Toronto, arrived in the city today and are guests of their sister, Mrs. F. W. Carniff and Mrs. C. B. Scantlebury, Mr. and Mrs. Osborne are sailing from New York on February 5 for a 4-day cruise to South America.

Miss Ethel O'Hearn who underwent a serious operation at Belleville General Hospital is progressing favourably.

Mr. and Mrs. Fred Deacon are spending a few days in Ottawa.

Mr. Charles Cameron, K.P., and Mrs. Cameron attended a dinner given by Rt. Hon. Mackenzie King in Ottawa, last evening.

Weddings

ELLIS—RUTTER

At 66 Dunbar Street last evening, the marriage took place of Miss Rita Jean Rutter, daughter of Mr. and Mrs. Frank George Rutter of Hallowell Township, Prince Edward County, and Mr. Norman Ralph Ellis, son of Mr. and Mrs. Arthur Ellis, also of Hallowell. The ceremony was performed by Rev. J. D. F. Knox, Mr. and Mrs. Ellis will reside in Hallowell.

Women's Guild of St. Andrew's Holds Meeting

The inaugural meeting of the Women's Guild of St. Andrew's Church was attended by a large large number of members in the Sunday School Hall last evening at eight o'clock. Mrs. W. J. Wilkins took charge of the meeting. The following artists entertained the meeting: Morley Anderson, Helen Bateman, Ray Anderson and the Junior Quartet, Dick Baker. Mr. Outlined the work of the organization in general and introduced the guild president, Mrs. J. W. Kinnear, who spoke briefly to the ladies present. Lunch was served and a social "get acquainted" period was enjoyed. The officers for 1938 are:

President—Mrs. J. W. Kinnear.
1st Vice-Pres.—Mrs. Ray Anderson.
2nd Vice-Pres.—Mrs. O. A. Marshall.
Secretary—Mrs. R. Wilson.
Treasurer—Mrs. Boyd.
Group Leaders—Mrs. Bateman, Mrs. Gillen, Mrs. K. S. Hill, Mrs. Mcclennon, Mrs. E. Lapsley, Mrs. Geo. Walbridge, Mrs. Ward.

DALLAS SHOWS WAY

Burgomasters, harassed by needs of more things to tax, may get some helpful ideas from Dallas. The International City Managers Association reports several devices by which the Texas city hopes to meet increased relief and other burdens. Dallas estimates that during 1938 it will get $26,000 from a 4 per cent levy on gross taxicab receipts, $6,700 from a seat tax on buses, $16,000 from a gross receipts tax on the telephone company. Revenue from sidewalk parking meters is expected to reach $146,000 this year.—Business Week.

TORPID LIVER

Coated tongue, upset digestion, biliousness, constipation, muddy complexion, derangement of the kidneys result from sluggish liver action and soon disappear when the liver is awakened by use of

DR. CHASE'S
Kidney-Liver Pills

Advice to the Lovelorn

by BEATRICE FAIRFAX

(Copyright, 1937, King Features Syndicate, Inc.)
Features Authority on Problems of Love and Marriage.

She is Very Independent

Dear Miss Fairfax:

As a rule am not one of those to write to someone for advice, but here I am, asking you to settle a most tender problem. I like your letters and your way of answering them so I am going to ask you to help me.

I've been going "steady" with a young lady for about two years. I love her more than anyone in the world, but don't believe she cares very much for me. I could take out other girls, but I'm afraid she'd find it out and give me the "gate". She is also very independent, and cares nothing about what I say. How can I learn her liking into love.

L. E. D.

There is an old song which says: "You never miss the water till the well goes dry". It's often that way with us people who don't realize our blessings till they've taken flight. Perhaps this girl is too dead sure of you and you'd only bolster in her estimation if you took out another girl once in a while, and let your girl know it. It's bad for people to have too great a sense of power; it's also bad to appreciate too lightly. Try them.

Don't begin flitting wildly with that old reliable club—jealousy. But gently show the young lady that it isn't nice to walkout for the movies, theatre or dinner—"there are others", and then see that the attitude is a swell looker. Thanks for the compliment.

Marriage, or Training to Become a Nurse?

Dear Miss Fairfax:

I'm 20 and in love with a boy of 22. He has asked me to marry him, but he hasn't a very good position right now. We would have to live with my parents if we married, but they think differently. They would like me to go into training. I have become a nurse, which I'd like very much indeed. My boy friend tells me to make my own choice. He doesn't want to interfere with any of my plans, but thinks three years is a long time to wait.

I really think if I wait three years, I will never marry him. His friends tell me the same thing. Now, do you think I should marry, or please my parents? If I stay at home I'll eventually hurt someone. His friends tell me the same thing. Now, do you think I should marry, or please my parents? If I stay at home I'll eventually marry him because I love him.

Rose

It seems risky to me to marry a man unless he can at least go 50-50 in providing for you. A man of 22 who can keep, or even help to keep, a home, is an exceptional young man indeed. If you take your parents' advice, which seems most sensible to me, and go into training and graduate, you will be equipped with an excellent profession which will make you independent for life. However, every girl should have some profession or business to which to turn in times of necessity, and at 20 you can well afford to take the time to do this.

To bring home to the parental mind a youthful husband with only a small job, would very likely strain family relations to the breaking point. Go into training, be a nurse, and good luck to you.

She's Jealous of Her Younger Sister

Dear Miss Fairfax:

My younger daughter is popular, has many friends and receives more invitations than she can accept. My elder girl, who is four years older, has never had a date. She wants to go out with boys, but does not know how to interest them.

We live well-to-do and I should be glad to see both girls settled, but this older daughter of 19 is distinctly a problem. She hangs on to my skirts like a baby of two, doesn't want to go out unless I go, and is bitterly jealous of her younger sister, especially when boy friends come to take that younger daughter out.

The older girl seems normal, but is so shy I don't know what to do with her.

Anxious Mother

If you know the right type of psychologist or who practices psycho-analysis sanely, she might help you with this girl, who is unhappy because she has no friends and doesn't know how to make them.

You too can be very helpful in getting her to overcome this morbid shyness by inviting to your home people you think she would like, a few at a time, and see to it that you realizing what you are doing, and help her overcome her timidity in meeting people. Go very slowly at first, so as not to drive her further into her shell.

Mrs. James Malyea, with her son Billy, of Gibson's Landing, British Columbia, is visiting her sister, Mrs. W. Fenlon, 70 Bleecker St., Front Street. Mrs. Malyea, who was formerly Miss Lena Demille of this city, is making her first visit home in over twenty-five years. She will also be the guest of her brother, Mr. Gilbert Demille, Picton, while in the East.

Mrs. Lorne Greene is making satisfactory progress after undergoing a major operation at Belleville General Hospital.

Mr. and Mrs. F. E. Osborne of Calgary, Alberta, and Mrs. C. T. Raymond, Toronto, arrived in the city today and are guests of their sister, Mrs. F. W. Carniff and Mrs. C. B. Scantlebury. Mr. and Mrs. Osborne are sailing from New York on February 5 for a 4-day cruise to South America.

Miss Ethel O'Hearn who underwent a serious operation at Belleville General Hospital is progressing favorably.

Mr. and Mrs. Fred Deacon are spending a few days in Ottawa.

Mr. Charles Cameron, K.P., and Mrs. Cameron attended a dinner given by Rt. Hon. Mackenzie King in Ottawa, last evening.

GOOD MANNERS

by MRS. CORNELIUS BEECKMAN

(Copyright, 1937, King Features Syndicate, Inc.)

Sympathy

Dear Mrs. Beeckman:

When someone is bereaved, is it proper to mention to the bereaved person how sorry you were to learn of a death in the person's family, or to say nothing about it unless the person mentions it first?

B.

People react so differently about anyone's speaking to them about a death in the family that we should guard our words most carefully until we have some indication of how they feel. "It is holy ground where the Shadow falls", and we must, therefore, stay our feet, before we step over the threshold We can express by our understanding in our look in the warmth of our handshake, in the way we say the words of our greeting. So closely are human hearts knit together, that the other person will quickly feel our sympathy. Then, if he or she wishes to speak of the one who has died, we are given the right to mention the death of the person. But still we should be guarded in what we say, saying words of sympathy, but not asking questions that are too personal, too near the sensitive points in the person's spirit

Best Man

Dear Mrs. Beeckman:

I am planning to be married in a few months and I would like to have a very good friend of mine from another state act as my best man. He is a very fine fellow, and as it is to be a large wedding—bridesmaid, ushers, and so forth—I wondered if it would be improper to ask him to attend me, while not asking his wife to be in the wedding party. He will have to have photographs taken with the rest of the bridal party, and also escort her. Please advise me what to do.

There is another friend of mine (almost as close a friend as this other man) who is single who would be willing to act as my best man. Would it be wise to ask him as he lives in this city, and it would be very convenient for him?

George

Nowadays we don't make any distinction between married people and unmarried people when we invite them to be members of the wedding party. And it needn't cause any complications if the wife or husband, as the case may be, takes a sensible point of view about it. I am sure that this man's wife will realize that her husband is such a close friend of yours that you would naturally wish to have him as your best man, and will cooperate completely with any duties required of him in this duty.

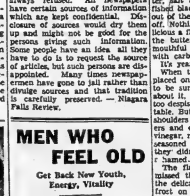
Naturally if there is a group photograph of the wedding party, he will be included in the group, but I should not think that this would cause a social "complication". And if in the recreational you and your bride-to-be decide that the best man is to walk with the maid of honor, this too seems unconspicuous.

(And in the well-planned wedding the best man need not take part in the recessional, usually does not, the bride and groom being the only "couple" in the recessional.)

Your friend's wife would be included in all of the pre-wedding festivities, and, if there is to be a special bridal table at the reception, she might be, and probably would be, invited to sit at this table.

If you make all of this clear to your friend and his new wife I am sure that all will be definitely understood, and that "all will be well." If it isn't "well", then use personal choice, of the unmarried man who lives in your city. At least you will have given to the first man the honor you wish to give to him, and left the choice to him.

ALL HAVE CARS



At one time the ownership of an automobile was a sign of wealth. That time is not very long ago, but it has departed definitely now. A survey of the United States and Canada has shown that automobile ownership among families with incomes under $1,000 has been increasing at the rate of 1,000,000 annually. It is expected that by 1940 two-thirds of the motor cars in the two countries, or more than 15,000,000 of them, will be owned by persons in the less-than-$30 class.—Edmonton Journal.

BARN BEES

Down in Lambton county a contractor and two assistants, using a modern outfit for lifting power, "raised" a big barn. Thus is passing another of the colorful old customs of the rural district—barn raising, when big gangs of neighbors came and went, raced like Trojans putting up the bents, and then celebrating around a gargantuan table of fine farm fare. The machine age knows no boundaries.—Stratford Beacon-Herald.

Jack Haley in "She Had To Eat" with Rochelle Hudson, now playing the Capitol.

Greta Garbo and Charles Boyer in "Conquest" at the Belle tonight only.

THEY DONT TELL

Quite often newspapers are requested to give the source of certain information and such requests are always refused. All newspapers have certain sources of information which are kept confidential. Discloseure of sources would dry them up and might not be good for the persons giving such information. Some people have an idea all that we have to do is to request the source of articles, but such persons are disappointed. Many times newspapermen have gone to jail rather than divulge sources and that tradition is carefully preserved. — Niagara Falls Review.

MEN WHO FEEL OLD

Get Back New Youth, Energy, Vitality

Too many men to-day feel tired out all the time—can't work, hate to put up exercise fight, haven't the vitality to do the things they used to do. A weak unhealthy liver caused by sundry living and food, lack of exercise, is the chief reason. Your liver is the chief source for power or "fire in the pert" of the body you eat—it supplies energy to muscles, tissues and glands. If it is not strong and active no wonder you feel old! Take "Fruit-a-tives", it will build up your liver like nothing else will. You'll be surprised how young you soon feel. 25c, 50c, all Druggist.

A successful parlor meeting of the Women's Christian Temperance Union was held last Friday afternoon when Mrs. Hunter invited members of the Bridge Street Church parlors with Mrs. S. F. Hagerman and her group taking charge. The meeting opened with Hymn 17, "Praise Him, Praise Him" followed with prayer by Mrs. Hagerman's group, the superintendent of the parlor meetings.

The devotional, taken by Mrs. (Rev.) Newman, opened with silent prayer and Mrs. Newman also offered prayer. She chose the hymn, "Jesus, Lover of My Soul" and "Book of Life" and for Scripture reading, 2nd chapter of Matthew. Mrs. Newman spoke on 13th Chapter, first Corinthian. She based her talk on "Love", however the subject was precises with prayer.

Mrs. Plumpton rendered a solo, "Consider the Lilies of Galilee," A reading on Temperance was given by Mrs. Stevenson.

The speaker for the afternoon, Mrs. Clarence Clarke developed the theme, "Considering Temperance From a Christian Approach, the Ideal way to combat Intemperance." Mrs. Holmes, from the definition of temperance recommendation in respect to appetite, passion and emotion," discussed the importance of moderation in all things in regards. She spoke of the passions, envy, hatred, jealousy as the combat them, showing the sad effects resulting when these passions are allowed to rule. Jealousy, are allowed to continue unchecked.

Mrs. Holmes recommended Dr. Charles Durffe's book, "To Drink or Not To Drink" as good reading treatise this year on the subject of Temperance.' This season, the beginning of the new year, was the ideal time for forming good resolutions, and for planning for the future.

Mrs. Plumpton gave another solo entitled "Work That's Done." (Dr.) Moore, president of the W.C.T.U. gave a few remarks regarding the work. The closing prayer was offered by Mrs. Farnsworth. Refreshments were served. Mrs. M. B. Denton acted as treasurer for the afternoon.

The short wave therapy machine is the latest weapon in the armory of science in the war against the common cold. Here Miss Elizabeth Tolman (RIGHT), R.N., short wave clinic executive at the Boston dispensary, demonstrates how patients are treated. The Boston dispensary is the first American hospital to make use of this large machine in combating the annoying winter ailment. Short waves are also used in treating sinus infections, carbuncles and certain deep-seated abscesses.

Paris Knows Onions

(Gladys M. Arnold)

(C.P. Correspondent)

Paris, Feb. 2—The Rotisserie de la Reine Pedauque, ultra-chic restaurant in Paris, was hardly the place I expected to encounter such odd and common friends as—toasted onions. If you haven't looked toasted onions, with their half-inch of flaky carbon you've missed one of the finest earthly joys. It's the old Ontario dish.

When I was a child living in a prairie village a favorite treat was roasted onions. A winter night when the snow banked the windows, the wind howled in the chimney and the "self-feeder" glowed with coal, blankets, and a hot comforter if we might roast onions. What delight in opening the stove door and cautiously pushing big pearly spanish onions in among the coals. We liked our figs in the savory odor of the roasting onions and the good sharp whetted appetites.

In fact an hour or so they were done. We prepared hot plates, butter, salt and pepper and at last fished black, carbon-encrusted balls out of the embers and dusted them off. Nothing since has had so delicious a flavor as those onions with the butter melting and every mouthful of white flesh mingled with carbon.

Many years since I've had one.

When the hors d'oeuvres were placed on the table I looked twice to be sure it was true. No doubt about it, they were my old friends, too despised to come to a Canadian table. But here they were, rubbing shoulders on the menu with oysters and caviar, Bathed in oil and vinegar, retaining their black skins, seasoned by an expert French chef, they didn't look in the least like my famed.

The flavor was perfect but I missed the howl of the wind and the delicate pictures etched by the frost on the window-pane.

Canada in France

The "Alouette Quartet" from Montreal has been focussing the attention of Paris upon Canada with its program of French-Canadian songs and Canadian folklore in France At the Cite University they were applauded vigorously by an audience composed of, perhaps, most of the world's nationalities. The Canadian colony was well represented and felt a bit nostalgic to see Emile Lamarre, J. Andre Trottier, Roger Pillatrault and Jules Jacob in their picturesque "lumber jacks" and "trapper" trousers. They made one's spine tingle to catch a breath of pure Canadian air and to hear "O Canada" sung so far from home.

Now they are touring the provinces and meeting with tremendous success everywhere they appear. The people are surprised and delighted to hear French Canadian chorus where everything is supposed to be the raw and crude product of a new world. An old world culture which long have been lost or forgotten.

That reminds me of a curious thing in Canada, often heard is the remark that we must be careful to teach "Parisien" French. In the schools and see to it that children do not acquire a "Quebec" accent. Because the French Canadian accent is welcomed across the sea from Montreal upon arriving with a certain quaintness of speech caused no end of comment. But what is said, "What's the matter? Don't you like my accent?"

"It's delicious." was the reply. "You speak exactly like my grey grandfather spoke—or, indeed, the way Mollere would speak were he to return to life today."

Boy Steals Money In His Home

By GARRY C. MYERS, PH. D.

Head Department Parent Education, Cleveland College, Western Reserve University.

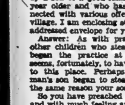
"Dear Sir: For a year or more our son, who was 11 in November, has been taking money, either out of his mother or sisters' purses, or if found lying out in the open he appropriates it. At first we had great difficulty in getting him to admit it, although we were convinced he was guilty. After much quizzing and assuring him that he will not be unduly punished, the truth is told and he agrees that he has been dealt with fairly and will not repeat the offense.

"This winter he has an allowance of 35 cents a week which he is allowed to use as he wishes, and he usually puts some in his bank. Still he has taken small change from his sister's purse, and when asked why he does it he answers, 'I don't know'.

"We tell him that he comes from a line of men who are honest, and since he is the last one to carry on the family name, it is his privilege and duty to keep it honorable. We call his attention to his father who has handled money in large sums for years and has a fine reputation for honesty."

Taught By Fal.

"He was taught to do this stealing by a son of a good family who is a year older and who has been connected with various offences in the village. I am enclosing stamped and addressed envelope for your reply."



Answer: As with practically all other children who steal, your son began the practice at home. He seems, fortunately, to have limited it to this place. Perhaps the other man's son began to steal for about the same reason your son began it.

So you have preached to your boy and with many promises and told him how he has endangered the family's good name. Perhaps you have compared him with his good sister. Undoubtedly he believes she is loved far more than he is, and what he believes is so for him.

Dad can do most. Let him do this boy's stealing. Go places with him and be his good companion. Let him have the boy escort him down town Saturday each noon for lunch and a show or game in the afternoon.

Never bring up the past to this boy. Never have a trial again. If you again merely suspect he has stolen something, say nothing about it. Just protect him from further temptation and show him more love and affection. Pray for patience and self-control.

Wife Preservers

If you have an electric corn popper you can warm rolls in it, says an ingenious housewife. Heat it up and reheat the rolls until they are piping hot. It may also be used for crisping crackers and ready-to-eat cereals.

IMPISH HATS ARE INSPIRED BY SNOW WHITE, DWARFS

Spirit of Little Gnomes Captured in Chapeaux That Are a Bit Mad but as Colorful, Smart and Becoming as Can Be Imagined, in Shades Symbolic of Names of Characters in Picture

Left, bright Ball red tam o'shanter with fringed feather is "Snow White blue" right, white straw round off-the-face tam with felt velvet ribbon crossing forehead.

By LISBETH

"SNOW WHITE and the Seven Dwarfs" have come out of the dreams of our childhood and are charming us all in Walt Disney's clever film.

And style designers, quick to take up any popular fancies, have seized upon the headdresses of these popular nursery figures and have made millinery that makes us completely light-hearted—anyhow as far as our hearts are concerned.

All the characters of the film are represented in the collection of hats. From the sooty black suede of Mickey's as he introduces the members of the cast, to Snow White's little bonnet and the prince's dashing tam in the very last minute of the happy ending.

All the little gnomish traits are emphasized by fal pouting hats that fold comfortably back over themselves; tall, thin peaks that shoot up amazingly and then tie demurely under the chin; bows that seem to tumble all over the hats, stopping at random in the most becoming mode; soft sequined brims contrasted with huge curved coxcomb feathers.

Colors Symbolic.

Colors and names are symbolic—like handsome is brave green, Happy is gold, and these two are followed by such intriguing characters as Doc, Dopey, Sneezy, Bashful and Grumpy. The heroine is in dainty blue (a soft pastel made called Snow White blue) and white, the Prince in warm, vivid red.

These characters are implish, and yet so wearable; they are mad, but becoming.

The Snow White hat is illustrated for you in white straw. It is a round, off-the-face hat with felt velvet ribbon of Snow White blue crossing over the forehead with a bow at top.

The prince's is a bright Ball red tam o'shanter, which is worn on the side of the head with fringed feather in Snow White blue shade.

And Bashful is the pastel felt bonnet whose crown folds over and forms a chin strap, snapping at the other side. Outline the upward sweep of the dotted brim.

Other hats in this unique collection are Sneezy, a black suede with two long, thin ear pieces which come around from the top of the head to tie under the chin. Huntsman in bright green felt with rather a high crown and brim which curves down to point front and back, large curved coxcomb feather at one side.

Doc is a purple felt brim and squashy belting crown which folds over.

The Dopey hat is purple felt with brim peaked crown and two little bows climbing up the side, high, off-the-face brim. Happy is in gold suede with high crown, broad front view, narrow in profile and off. Sneezy is a low peaked turban in dwarf print which sweeps the forehead and has a bright, fine grosgrain bow at front; and Grumpy is in green suede with thick folded brim.

Ireland is warring on the dance halls.

Germany is tightening its control of prices.

Italy has banned all food speculation.

"Bashful" pastel felt bonnet with folded-over crown and chin strap, inspired by Walt Disney's "Snow White and the Seven Dwarfs."

Poems That Live

JEAN

Of a' the airts the wind can blaw,
I dearly like the west,
For there the bonie lassie lives,
The lassie I lo'e best:
There wild woods grow, and rivers row,
And monie a hill between;
But day and night my fancy's flight
Is ever wi' my Jean.

I see her in the dewy flowers,
I see her sweet and fair:
I hear her in the tunefu' birds,
I hear her charm the air:
There's not a bonie flower that springs
By fountain, shaw, or green:
There's not a bonie bird that sings,
But minds me o' my Jean.

—Robert Burns

DAWN AND DARK

God with His million cares
Went to the left or right,
Leaving our world; and the day
Grew night.

Back from a sphere He came
Over a starry lawn,
Looked at our world; and the dark
Grew dawn.

—Norman Gale

To produce knotless lumber, a government scientist recommends pruning forest trees young, by sawing them off close to the trunk.

In the Middle Ages, inexpensive costume jewelry was given a golden sheen by means of sulphur.

Potatoes, Cabbage Cooked Together in Casserole Dish

By MRS. MARY MORTON

Menu Hint.

Pork Chops
Potatoes and Cabbage with Cheese Sauce
Apple-Celery Salad
Rice Pudding with Dates Tea

I like this combination of potatoes and cabbage, and the cheese gives the bland tasting vegetables a nice flavor. Ordinary fresh bottled milk may, of course, be used in place of the evaporated, and reversing the matter, you can use evaporated milk diluted with equal parts of water for the rice pudding, if you wish. I have done so with good results.

Today's Recipe.

POTATOES AND CABBAGE WITH CHEESE SAUCE—One pint water, two teaspoons salt, three medium potatoes (three cups diced), one quart cooked cabbage, one tablespoonful evaporated milk, one-fourth pound cheese (one cup). Bring water to boil. Add salt, potatoes and cabbage and boil uncovered until potatoes are tender, about fifteen minutes. Most of the water should be evaporated. Scald milk, add cheese and stir until cheese is melted. Pour cheese sauce over the vegetables and serve at once. This amount serves six.

RICE PUDDING—Heat three cups of milk or one and one-half cups evaporated milk and the same amount of water in double boiler. Add one-third cup rice which has been washed and drained. Let cook until rice is tender, then beat one egg in mixing bowl or in bowl in which you plan to serve the pudding, add one-third cup sugar, one-half teaspoon salt, and four scoops of the hot mixture over it. mix well, then return all to the double boiler and add a cup of dates seeded and cut into pieces. Cook for five minutes more, then pour out and cool. Can be served plain or with cream.

SALLY'S SALLIES

Some men can't be trusted too near—and others can't be trusted too far.

Late Winter Calls for Hair Treatments

By GLADYS GLAD

"America's Most Famous Beauty"

At this time of the year hair conditioning treatments are essential, as the scalp usually has become somewhat devitalized and in need of nourishment.

What the average head of hair needs near end of the winter season is a series of hot oil treatments, which restore its gloss and health. Such treatments can be readily administered at home. In giving the hair and scalp a hot oil treatment, the scalp should first be gently scratched with a blunt-pointed comb. Then a thorough brushing should be given the air in order to remove any loosened particles of dirt, dead and dead cuticle. And after this, the oil should be applied.

There are two oils that may be used in giving the hair a hot oil treatment. The first is pure olive oil, and the second is odorless castor oil. These oils are equally effective. Either should first be warmed to blood temperature, then the hair should be parted at close intervals, and the oil applied to the scalp at each parting with a bit of absorbent cotton. When the entire scalp has been covered, the oil should be massaged into the skin with the fingertips. Next, a warm towel should be wrapped about the head and the oil permitted to remain on over night. If possible, so that the pores in the scalp will have sufficient opportunity to absorb the oil. If this is impossible, the oil should be permitted to remain on for at least an hour.

Franciska Gaal
Has pretty blond hair

Oil treatments should be repeated to the shampoo following a hot oil treatment in order to insure satisfactory results. Otherwise, it will be impossible to remove all of the oil from your locks.

In the first place, don't dampen your hair with hot water before shampooing. Apply a good liquid shampoo directly to your hair first, and raise a rich lather with your fingertips. This gives the soap a chance to act directly on the scalp and facilitates its removal. Then rinse your hair with lukewarm water, repeat the lathering and rinsing, and continue this procedure until all the oil has been removed. And, as the final step, use a lemon rinse, or a rinse composed of juice of one lemon to a pint of water and two teaspoons of baking soda, in order to remove any vestige of the oil, and to make your hair soft and fluffy.

ANSWERS TO QUESTIONS
Coiffure.

Mary: Wear your hair fluffy softly about the face, and flat over the ears. Avoid a shingle at the back of the head. When applying your rouge, blend it in toward the nose.

Dry Skin.

Louise: The soap you mention is often used for skin and scalp diseases. Your skin does not contain enough natural oil. I would suggest that you apply pure olive oil to your skin daily.

Girl is Married but Loves Another Man, Wants Him

By VIRGINIA LEE

Self discipline is one badly needed quality in the world today. So said Miss Frances Perkins, U.S. Secretary of Labor, in a recent address which I heard. It is needed, she says, in being about years and stability in the industrial world. And how much it is needed in being peace and tranquility into our private lives!

"So many of us what we want badly is what we must have. We have never been taught that there are some things we cannot rightly have, and that we must accept the denial and adjust our lives accordingly. There is no use in our moaning and being dramatic about such things either. We must get along without them—and we can, and we can even be happy without them, at least we can train ourselves to be philosophical about them.

All of which leads up to the following letter:

"Dear Miss Lee: I am written you and hope I get a nice answer.

"I am a married woman and have a child. I was married five years ago. You see I had to get married and now I am sorry. I am in love with another man. "I am 21 years old and he is older."

Then this young woman who signs herself UNHAPPY WIFE, tells how she slips out to be with her friend. And also how her husband struck at this man a month ago and on the street, but she put herself between them and so escaped a blow instead. Her husband is good to her, she writes, but she is so unhappy she grieves all the time. When she has friends in her home she hardly hears what they are saying because she is thinking of him. Worry has made her weak and the doctor tells her her heart is bad, and she is likely to go any minute.

"I'd just as soon die for him," she writes—She can't get this man out of her mind, she says, although she has tried. "Please, Miss Lee, give me a good answer," is her plea. "I love him and I love him for myself."

By "a good answer", I suppose you mean for me to suggest some way for you to divorce your husband and marry this other boy, you poor, unhappy child. But that is not the simple matter. Whether you "had to marry" your husband or not, he evidently loves you and wants you. If you try to divorce him you will have to show that you are untrue to him and that means you will lose your baby. How you would give your child up? A child needs its own father and mother, and surely you owe him that when you have already caused him to have a stain on his name.

You see, my dear, you did not control yourself when you were going with the man to whom you now are married, and now I suppose you think that you thought you loved. How can you be sure you really are in love "for keeps" with this other man? You may just be fascinated by him, and if you have your own way you will find he isn't the one, either. He surely doesn't respect you as he should or he would leave you another man's wife. And how can you think him worthy under circumstances?

Dear, you cannot learn any earlier that happiness does not come through throwing aside your responsibilities and following your own way, no matter who is hurt by it. You think you are suffering now because this young man seems so desirable to you. I am afraid you will suffer even more if you go through life insisting upon having your own way with him and dropping you.

I don't mean to be unsympathetic, but this is the only kind of answer I feel I can give you.

SELFISH: Everyone makes mistakes in life. Stop your boy friend on the street next time you see him. Or write to him and ask him to come to see you. If he is sincere, divorce your fault and tell him you are through with everything. I imagine he will be very glad to come back to you.

Charcoal is being fried as motor fuel for trucks in California.

NERVOUS?

Do you feel so nervous you want to scream? Are you over-wrought? Do you feel you need some decent to you?

Then why not do as 1,000's do, and try LYDIA E. PINKHAM'S VEGETABLE COMPOUND. It often helps Nature to correct such nervous symptoms as dizziness, faintness, and another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound! It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure.

Why don't you, too, profit by the help of world-famous Pinkham's Compound today? WITH OUT FAIL! from your druggist—more than a million women have written in reports of benefits received.

Write to: LYDIA E. PINKHAM'S VEGETABLE COMPOUND!

How Drugs Are Being Made Safe

By LOGAN CLENDENING, M.D.

"At no period has treatment by means of drugs been on so sure a foundation or so amply justified." So wrote a distinguished British investigator in the field of pharmacology, which is the science of the action of drugs.

The modern pharmacologist is a far more thorough and scientific worker than his predecessors, the early medical botanists, such as Dr. Lyman Spalding in this country, and Withering in England. Those men would have been largely prayed herbs which were growing wild in a state of nature. They studied the effects of the drug only in the simplest way by observing its action in a human patient. No attempt was made to control the observation. And especially no attempt was made to obtain the drug in the purest form or to standardize it.

In 1817, Dr. Spalding read a paper before the New York Medical Society explaining the necessity for having some standards and definitions which physicians and druggists could follow in prescribing drugs. The result was the first U. S. Pharmacopeia, issued in 1820, and every tenth year since then in a revised form. All the useful drugs are described here, the doses limits set down, and the method of standardization described.

This question of standardization is the most important of the duties of the modern pharmacologist. The reason for this is plain. Take, for example, digitalis which, as prescribed, is the leaves of the plant called the foxglove. This is valuable because when it is active it has an especial action on the heart in heart failure, but obviously the leaf

Dr. Clendening will answer questions of general interest only, and then only through his column.

leaf you take must be potent. One can see plant may have a great deal of the active ingredients, and another leaf from another plant may have almost none of them.

Might Get Inert Specimen.

Until 1900 the physician who was prescribing for your friend might have received a drug that was practically inert, and before he discovered the mistake your friend would have been dead. Now, however, the Pharmacopeia demands that all standard drugs must be tested on animals to see that it performs the actions desired. The frog is the animal usually used. Then each manufacturer of digitalis is required to assay each new samples he buys on the market conforms to these requirements.

And this is enforceable by law, because the Pharmacopeia has the force of government behind it.

There are, of course, new products distributed by the drug trade, but for the issues of the Pharmacopeia to keep up with them. Their value, however, is now proved by animal oil on Pharmacy and Chemistry, and their reports are available to any physician. It is unfortunate that their judgments are not enforceable by law; but the public is fairly steady as that of the recent clixir of sulphanilamide deaths would not have taken place.

Fashion Flashes

(Alice Aiken)

A southern belle is a hat of pale, soft blue felt, with a wide brim well posed over the slashed crown at the side and resting on the shoulder. A swell trick to wear with a tailored suit, as a reasonable outlay is the dress crepe with matching jacket plus a wardrobe of blouses, each made with its own knotted cash, Nice in satin.

No chance of being without adoring glances for the girl who has the right hand and foot for spring. It is of white broadcloth with a tuxedo cuff over the wrist.

We have found that the two most popular types of evening bag are the envelope or pouch, of gold or silver kid and the brocade bag. A delightful evening bag is one in a hexagon shape in gold brocade, generously draped. The gilt filagree top is set with corals and turquoise.

The bright spot of a cruise is a colorful ensemble in rich, bright colorings. The skirt is in paisley brown, the jacket sea yellow, the blouse in Egyptian green and the wide cummerbund pimento red. The fabric is silk crepe.

Soon out the cheer will have a full-skirted evening frock of black tulle; the skirt sprinkled here and there with black artificial flowers, black peplum bolero and black gloves of net with peplum border completed this glamorous get-up.

NEVER HAD AN ACCIDENT

IN THIRTY YEARS WORK

Napanee, Ont., Feb. 1 (CP)—William J. Crenshe, who never had an accident in 38 years as a delivery man for an express company here, retired from active service last night.

Crenshe's familiar horse-drawn delivery wagon will be replaced by a truck.

Crenin only had six different horses in his livery during his service, and one he drove for 15 years.

BLACK DRESS ENHANCES THE BEAUTY OF YOUTH

By Central Press)

A black dress worn by the very young woman is always most arresting. The very incongruity of the youthful face above the sombre gown gives it charm.

Hence the beauty of Olivia de Havilland, rising young actress, is enhanced by the black chiffon formal dress she is wearing.

The black is relieved by the double sash of satin and powder blue taffeta ribbon. These colors are repeated in the beaded motif on the bodice.

STYLE WHIMSIES

The fitted silhouette is favored in most of the new suits and coats for spring.

Color in suits is the important theme. Paris and New York houses alike are promoting and showing it.

Pink is the favorite color in new accessories. There are hats trimmed with pink, pink accessories and blouses suggested for dark suits; black or navy dresses in bolero styling have touches of pink.

London houses are showing more suits to show the American buyers. Skirts are slim and jackets are longer. There are sports suits, and many tweeds which may be formal or informal according to the accessories chosen to wear with them.

Soft pastel wool frocks with pleated skirts are favorite types.

If you are planning an early spring frock of your own making, choose a printed wool challis.

Pique is being used frequently for accenting spring fashions. It is a perennial favorite.

Pearls are still the favorite beads for afternoon and evening frocks.

American Indians used the sumac berry for red colouring matter, and as a medicine.

Canadiens Shellack Leafs 6-1 Pulling Within Two Points Of Top Rung in Their Division

Bruins Shutout Detroit And Rangers Defeat Chicago 6-1

WILLSON IS HURT

First Successful Penalty Shot of Year Seen In N. Y.

By A. E. Pulford, Canadian Press Staff Writer)

Selling Toronto Maple Leafs short is risky business but they're almost giving odds in Montreal today that Canadiens are on their way to the National Hockey League championship series. The Frenchmen are flying like the old, old Canadiens used to fly.

Climaxing their recent rush Habitants defeated Leafs 6-1 in Montreal.

Last night to run their string of wins to four and move within a game of Conny Smythe's team. They made a finished job of humbling the club they had failed to beat in four other engagementsthis season.

Canadiens Get Breaks

And that is far from the worst of it from the Leaf standpoint.

The schedule for the next few games gives Canadiens much the better breaks. It won't be at all surprising if they move back to the Canadian Division top spot, they lost to Leafs back in mid-December.

Following a return Canadien-Leaf game in Toronto Thursday, Leafs must take on Boston Bruins and the New York Rangers over the week-end while Canadiens play New York Americans, whom they have beaten twice lately, and Detroit Red Wings, everyone's football.

Leafs' Road Rocky

That the Leafian road will be rocky was demonstrated last night when both Bruins and Rangers came through with wins. Art Ross' team took Wilbur Hood's Chicago Black Hawks 6-1 in Boston while Rangers defeated Chicago Black Hawks 6-1 in New York. That left Bruins still leading the American Section with a three point lead over Rangers, Canadiens scored five goals in the affair at Montreal before Leafs could beat Wilf Cude. And it all happened as Humphrey Bogart, too, may, Canadiens scored a pair of goals in each period while the best his Leafs could produce was Jimmy Fowler's goal in the third.

Johnny Gagnon got two of the Canadiens goals and Paul Haynes, Toe Blake, George Mantha and Polly Drouin the others.

Willson is Hurt

The win may cost the Montrealers the services of Don Willson, rookie centre, who injured a wrist. Doctors are not sure whether the wrist is broken.

Carl Voss' goal with only a second left to play robbed Dave Kerr of his eighth shutout in the New York game. It ends the league with seven. Apart from Kerr, Alex Shibicky starred with three goals, one of them from the first successful penalty shot of the season. Shibicky also assisted Neil Colville in scoring another goal while Phil Watson and Lou Patrick got the rest.

The Kitchener line of Milt Schmidt, Woody Dumart and Bobby Bauer added both Boston goals before a crowd of 12,000 persons. The first came off Bauer's stick late in the first period and Schmidt got the second with little more than a minute of the game to play.

Hockey's Big Seven

(By The Canadian Press)

Four members of Montreal Canadiens improved their positions among the National Hockey League's scoring leaders last night when their club swamped Toronto Leafs 6-1. Georges Mantha booted a goal and an assist to the Bill Cowley of Boston Bruins' pace, six points behind the top man. Gordon Drillon of Toronto, who has 34. Toe Blake did the same and now a point farther back and Paul Haynes nabbed a goal and two assists while Rod Lorrain got an assist to attain a seventh-place tie. Canadiens players were the only members of the Big Seven to gain.

The leaders:

	G.	A.	Pts.
Drillon, Toronto	16	18	34
Dillon, Rangers	18	13	31
Apps, Toronto	11	18	29
Mantha, Canadiens	16	12	28
Cowley, Boston	14	14	28
Blake, Canadiens	14	14	26
Haynes, Canadiens	10	15	25
Lorrain, Canadiens	8	17	25

The birth rate in Soviet Russia is reported steadily increasing.

Sports Roundup

(By Eddie Brietz, Associated Press Sports Writer).

New York, Feb. 2 (AP)—Mike Jacobs and Tony Farr are not "just like that" any more.... Robson is Tommy's point blank refusal to bear with Max Baer.... The latest laugh: The New York Boxing Commission has refused to let Tony Galento pose for any more pictures showing him smoking a cigar or drinking a glass of beer ....Which will just about play the devil with Tony's training program.

From a news standpoint yesterday's National Baseball League meeting was a flat tire....About the only item of interest it produced was the fact Judge Landis and Larry McPhail who have been at loggerheads more than once, have made up and have a date to play golf in Florida March 11 .... Bill Brandt, league press agent, celebrated the occasion by issuing this annual "green book" which is just about the classiest effort Bill has ever turned out....Burleigh Grimes told all within hearing that he learned more about baseball in one year under John McGraw than in 14 years of pitching on other National League clubs.

When Mike Jacobs and Soujs Henie fly to Miami next Tuesday their pilot will be none other than the well-known Dick Merrill and their co-pilot will be none other than Captain Eddie Rickenbacker ....Every International League club now has promised Lefty Gomez, who made a name for himself as President of the Buffalo Club, will do the same at Indianapolis where he has been transferred....Dizzy Dean will sign for $30,000—and when a more, he'll get it....Wait and see

Mike Jacobs plans to use Jim Braddock as a sort of Minister without portfolio in his 20th Century Sporting Club organization.... So well is Soula Henie doing in a dollar and cents way that Boston sports writers spell her name Sonja....Mickey Walker figures dusky Henry Armstrong is the closest thing to Harry Greb that he's ever seen....Which seems to identify Armstrong as quite some fighter.

N.H.L. STARS

(By The Canadian Press)

Alex Shibicky, Rangers, scored three times and assisted in one more as Blueshirts defeated Chicago 6-1.

Milt Schmidt, Boston, hammered in one goal and passed for other when Bruins flattened Detroit 2-0.

Paul Haynes, Canadiens, sparked Wally Pyrachuma's 6-1 win over Toronto by making plays for two goals and scoring another.

Johnny Gagnon, Canadiens, scored twice and contributed setup in victory over Leafs.

BARONS HARDEST TO BEAT AT HOME

Cleveland Team Has Not Been Beaten At Home This Season

(By The Canadian Press)

Along some Cleveland Barons now to lay down a perfect claim to being the hardest team to beat before a home crowd in the International-American Hockey League. The Barons haven't been whipped at home this year in their 13 games.

So it's not hard to see that Barons can brand as just a lot of balderdash all this talk about the great home play of Pittsburgh Hornets who have been beaten only once at home in 14 starts. Both will be playing on home ice tonight when three games are played.

Barons play New Haven Eagles, who are riding right now on a two-game winning streak. Eagles, who defeated Syracuse Stars 3-2 last night in the only scheduled game, are home before this season have won two games in a row. A victory over Barons would give them a record, run.

Hornets play Springfield Indians who dropped into the cellar of the Eastern Division when Eagles won last night. Hornets take on Providence Reds at Providence. Reds, by victory over Stars who have lost their last three starts, would go into first place in their section.

Stars looked like winners for two periods against Eagles but faded in the last session when their 12-man lineup, Jack Markle put them ahead in the first period and George Parsons sent them two up in the middle session. Paul Marcel Raymond scored for New Haven in 15th period.

Then in the last period Eagles plugged away for the tying goal by Mooney and Don Heximer gave them the winning tally.

Paterson, N. J.—Steve Casey, 225, Ireland, pinned Floyd Marshall, 238, Arizona, 31:10.

Minneapolis—Bronko Nagurski, International Falls, Minn., defeated Paul Jones, Houston, Tex., one fall, weights unavailable.

Dear Son:

We welcome you and Helen back from your honeymoon. After you've settled a bit, we'll drop in to see your new home. .....I remember the day, some thirty years ago, when your Mother and I came back to our first home. I split kindling for the cast-iron kitchen stove, and it took Mother all afternoon to bake some bread. Instead of her vacuum-cleaner, Mother had a broom . . . and how she made it fly. But our prize possession was in the parlor . . . a real talking-machine, with chubby cylinder-records and a big morning-glory horn.

We used to march for miles all over town on our shopping trips. How I fidgeted while Mother shopped. We were both worn out.

. . .

Things have changed a lot since then, all right—and you'll both be better off for it. Helen won't have to spend half her days in the kitchen like Mother used to. The advertisements in the daily newspaper will save her those punishing miles of shopping. They'll keep her posted on current values, give her the names of dependable products, tell her all about special sales. When you come home nights you'll find her fresh as a daisy . . . ready for a jolly evening with your friends.

I'll trade the "good old days" for the good NEW days ANY day.

But enough of reminiscence . . . I rejoice in the exciting years of youth that are ahead for you both.

Affectionately,

DAD.

"CORRECT CLOTHING FOR MEN"

CALLING 'EM

Between the Lines

with
Jim J. Colling

Just how to place your money on tonight's Redmen-Flyer battle is somewhat of a problem. Both are out on the well-known limb as a defeat will prove most drastic to either concerned. The result of tonight's game has more than the averages bearing on the group standings as a victory for Skipper Thomas' squad elevates them on even terms with Flyers, whereas a win for the "air-minded lads" is most essential to keep them in touch with the versatile Petes. The scarlet-clad Belleville squad is in the midst of trifling tonight and will be out there at full strength doing battle against Tommy Lawrence's charges. The Redmen are most unhappy over Monday night's reverse and will no doubt take out their personal feelings on the puckster tonight, which should result in the patrons of the game seeing some tidy puck-chasing.

On three previous occasions this season the Redmen have been downed out by this self same Flyer outfit, by the Airport, but it's "three times and out" for the locals, they contend. "It's about our turn to get a break in the luck and tonight's the night," predicted Skipper Thomas as he assured us he was sending the Redmen out in all their glory against the Flyers to do or die in this one last stand to elevate the Redmen back into the group race. For the first time this season Joe Jackson-Wilson line was kept off the score-sheet on Monday night, but we look for this trio to give the Lalonde-McNeely-Corley aggregation something to worry about tonight. With so much at stake, tonight's game is undoubtedly the most important to all concerned played this season.

In a last minute drastic effort to bolster the Petes in case of emergency, Harley Weir signed two new players just before game time in the Belleville Arena on Monday night, one being Doug Brennan, of Havelock and former New York Ranger defenceman. Brennan was issued with a uniform and used against the Redmen. He were No. 6. Brennan has been out of hockey for a time and over a week ago granted his reinstatement into the amateur ranks. How about "Pooch" Hulvey getting his amateur status back now? Brennan concluded his professional activities with Seattle in 1936. Doug had a visitor in the Petes dressing rooms between periods in no less a person than Billie Hughes, former Winnipeg hockey star. Brennan was with Billie on the Winnipeg Maroons in 1927, before Brennan joined the Rangers. The Maroons were in the old American League that season. Hughes, who coached the Maroons and was here with the Black Hawks in 1937 good enough to instruct the Picton Juniors, according to Prince "Edward County hockey maestros, however.

Tonight the heralded Napanee-Picton play-offs commence in the Prince Edward County seat and we have been reliably informed that Bill Tobin of the Hawks will be scouting. Yes, that man is in again, and we add for fun that Billie Chase, scout for Boston, will take a gander at the boys during the return game at Napanee on Friday night. Incidentally Manager Walter Geerer would be well advised to bring the second game of the series to Belleville, where fans are hockey-minded and his charges would have the advantage of the larger ice. We understand the fourth and final game in the Van Horne series will be played on Feb. 8th, which makes it more than ten days since the play are scheduled in the O.H.A. on the 8th and 11th of that month also.

When girls move into the field of sport they usually go the limit. Last night the Belleville "Y" ladies defeated the Peterborough "Orfums" 22 to 21 in one of the most thrilling and hectic sports contests we have seen this year. The contending clubs had to play overtime to break a 20-all tie tie. When these girls get rough, they really mean business. Last night two girls were assigned to the floor, four were expelled "—m the game for undue rough play due to foul and a getter" battle royal had the patrons of the game actually standing in their seats shouting for more. This men's hoop game made the staged shove act look like a band of cream puffs and sissies. They had it out to a here-there-well and the personal contact seen should put our senior hockey boys to shame. These lassies are not one bit afraid of the puck, although that method of play is supposed to be taboo in basketball. The local members could well take a lesson from these girls in the art of handling it out and more so in their ability "; take it without wincing.

A parsdox was seen at the "Y" last night when the Y.M.C.A. intermediates on Albert College 37 to 14 in a fast but exceptionally clean game, however.

There has been so much talk around the department office of late relative to the absence of body checks in our senior O.H.A. hockey that a local office copy boy and stooge wants to know who signs these "body checks" and where we can book about. "Sorry, son but they don't exist here and the only reason of fact they don't even issue them cards is because body-checking is a lost art," we explained. The odd heavy body check is dished out to hockey and should be put into practice more frequently and in the most effective manner ever derived by the game of hockey. Body checking i. also very much in demand by the referees who after all pay the freight. Incidentally we would not be surprised to see more than the average amount of heavy checking when the Flyers and Redmen tie into the fray tonight.

We understand "Stew" McBride of the R.C.I. & V.S. puck squad, rusticated a broken ankle during a Collegiate-Albert College hockey game recently. The Interscholastic moguls should get together on the matter and wangle a benefit game to assist in defraying the expenses of the player.

"Y" GIRLS AND BOYS VICTORIOUS IN CAGE GAMES

Belleville "Y" Girl Cagers In Rough Overtime Contest Defeat Peterboro Orfuns

Score Is 23-21 With Teams Level In Regulation Time

28 FOULS CALLED

Three Peterboro And One Local Girl Leave Game For Fouling

In th roughest and undoubtedly most thrilling game played in these parts, the Belleville "Y" girls defeated the Peterborough "Orfuns" by a 23 to 21 score after ten minutes of overtime basketball in a regular Lake Shore League fixture in the Y.M.C.A., played at the Belleville Y.M.C.A. last evening.

Much personal contact was seen during the contest, that saw four players expelled from the game, the result of continued personal fouls being registered against them, three Peterboro and one local player getting the gate automatically for fouling. Several injuries were sustained as players crashed to the floor following the hard checking.

Fifteen fouls were called against the visiting "Orfuns," while 13 were registered against the home quintette. The win keeps the Belleville feminine hoopsters well in the league standing.

Flooring a much heavier and more steady team, the visiting "Orfuns" were slow to start, trailing Coach Jack Dickens' Belleville girls by a 12 to 8 score at the halfway mark. In the most thrilling second half ever witnessed locally in girls' basketball the Orfuns outscored the locals in dazzling basketball rally however, to make the count 21-21 at full time. Stella Mechior made a foul shot in the last few lassies c-- up early in the first overtime period, while Miss Cecil Crull took a pass from Marion MacLean for a two point field goal, as D. Ashford scored a foul shot in the overtime for the visitors, but Belleville won by the odd basket, the final score being 23 to 21 for the locals.

Very Close Checking

The game was marked by the superb close checking on the part of both squads, although the aggressive splurges staged by the opposing teams in the second half had the gallery of patrons standing in their seats shouting for more. Nellie Bowerman, guard for the Belleville squad on the attack, scoring seven points and playing her usual game of the season. Artilesse Crull followed in line with 6 and Marion MacLean four points. F. Bestard was the second age on the "Orfuns," bagging three field goals in the last half with expert marksmanship to score her team mates points. L. Magee, M. Ferguson and D. Ashford were the best of the remaining "Orfuns."

Belleville completed seven of their 15 free shots on the basket, while Peterboro sank only three of their 13 shots attempted. The visitors completed that the ultimate winning, Belleville only having scored illegally, as one of their players had been ruled offside for fouling and her place had not been taken by a team mate. Referee Langton refereed the fast and rough game continued with Belleville doing out their overtime victory.

The box score:

Peterboro "Orfuns"	GF:	FS:	Pts
A. Livingstone rf.	0	0	0
M. Snowden rf.	1	0	2
L. Magee lf.	2	1	5
M. Ferguson lf.	1	0	2
J. Dawson lg.	0	1	1
S. Lewis lg.	0	0	0
D. Ashford g.	1	1	3
F. Bestard g.	4	1	10
Total	9	3	31
Belleville "Y"	FG.	FS.	Pts
M. MacLean c.	2	0	4
D. Chapman rf.	0	0	0
L. Melchior lg.	0	1	1
B. Wilson lf.	0	0	0
A. Crull lf.	3	0	6
S. Melchior f.	0	0	0
M. Hitchon g.	0	1	1
B. Shorey rf.	3	1	7
Total	8	2	23

Referee: Frank Langton, Belleville.

COMMENT ON GAME FROM PETES' ANGLE

And it came to pass that in the town of Belleville on the night of January 31st, 1938, the Redmen received a 4-2 senior "B" setback at the hands, and sticks, of the Petes. In another lively open fray. This finds up the Belleville-Petes doings for the year in this group. The Hines' lads having copped three and lost one. They are now rearing as well as could be expected upon the top step in the group whilst Belleville occupies the third spot, just back of Pilers. It was a speedy affair last p.m. and mostly clean, with the winners having a little more foot and a slight edge on play most of the distance. No individual stars, but Harding shone in goal while McDougall and Starr were in on two goals each. Barnes pulled one of his flashing dives down the boards—leaving St. Denis behind like a stream-lined job passing a truck on a hill—to get the enemy fans roaring.

x x x

Coach Pick Hines is satisfied with the way the Petes are going. He said, after the fixture: "The boys are coming along okay. There may be a few minor faults here and there yet, and a certain lack of finish when in scoring position, but the team is working itself into real shape and will be pretty hard to shake when it'p play-off time." He figures Doug. Bryans, ex-Intermediate pro, will steady our defence a lot when Brennan gets his ice legs under him and hits into the pink of condition. Doug has been off the runners nearly two years now and shows the lack of practice but he also shows flashes of his pro form and will hit his stride shortly, we imagine.

x x x

"I never expected to be playing again," grinned the Havelock husky last eve as he signed a certificate with the Petes—the last day for signing 'em, too, incidentally. Doug played here some 13 or 14 years ago, moving to Northern Ontario, then turning pro and playing most of his hockey in the American Association and the Pacific Coast League. He was with the N.Y.Rangers for a little while and finished up pro before last with Seattle. Decided to hang 'em up then, though he is just 33 years old and ought to have a lot of good hockey in him yet. Last night, despite his lack of practice, he was showing the old aggressive spirit and pulled several rushes and passes that might easily have figured in two or three goals. He will be okay on the locals' rearguard ere long. There is a good chance of Brennan turning pro with our intermediate Bees here Wednesday eve against Port Hope, as he wants to work himself into top form as soon as possible.

B. C. I. V. S. SPORTS

Keen close hockey was seen in the B.C.I. & V.S. inter-form league game played at the Arena yesterday, two of the matches resulting in scoreless ties.

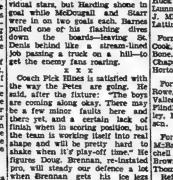
In the initial game of group "A" the last period rally saw form 2B triumph over form 2d by a 2-1 score. Hall scored for the winners in the first half while Wallace notched a counter for the losers. Hall continued to dominate the scorers in the second stanza, however, as he flashed the red light for two more goals and assured form 2B of victory.

In the second game of this group form 2A came from behind to trounce their IL form rivals 2 to 1. The closest exhibition of interscholastic hockey. There was no scoring in evidence in the initial frame, while Peets and Bill McBride hung up goals for the 2A's in the second session to ice the contest for form IL.

In the two games played in group "B," however, no scoring was registered as the squads displayed some excellent defensive hockey throughout both games. The matches were capably handled by Francis Cavanagh.

The lineups:

Form 1G (0): Foley, B. Hall, F. Hall, Evans, Graham, Hay, Fudge.



Form 1L (0): Hall, Ragler, Forza (1); Lumnis, Rouse, McCleland, Lucas, Smith, Coach, Lloyd, Mott and Lattimer.

Form 1F (0): Cunningham, Burns, Cook, Gallagher, Gale, Bell and Bone. Form 1L (0): Weese, Dafoe, Chapman, Cunningham, Watkins, Horton, Hyde and Waymark.

FOURTH SIDNEY, ZIONS QUALIFY FOR GROUP TITLE

Glen Ross and Corbyville Eliminated In Rural League

MANY IMPORTS

Sidney and Zion Should Provide Thrilling Final Series

Stirling, Feb. 2—(Special)—The championship of the Central Hastings County Rural Hockey League will soon be known. Glen Ross after leading the parade through the regular schedule and Corbyville were both eliminated last night in the semi-final doubleheader at Stirling last night. Fourth of Sidney won their set with 8-2 on the round over Glen Ross and Zion's downed Corbyville with a total of 8-5 on the round.

The windup of the semi-final series again emphasizes the fact that if the league is to continue successfully another year a new set of rules more rigid in character will have to be drawn up. The entire season has been one of continual strawthening of the teams until the semi-finals were reached and the weak teams became suddenly the strongest as a result. It all started when permission was granted the Fourth of Sidney to add players because of continual defeats. With one rule broken each team began to add strength until the exception of Glen Ross, who were sufficiently strong to stand the pace until injuries crippled them. It was then that additions was made to their lines. The semi-finals found all pre-season rules abandoned and each team trotting out a constellation. The imports came chiefly from Belleville and last night several of the Belleville Juniors were trotted out for service. Unless a residence rule is definitely set and abided by the league this year looks better for several successful years of operation.

The Games

In the first game of the evening, Glen Ross, outclassed by an injury list as long as Gerty's arm, faced an extra handicap of a four goal deficit to overcome. The prospect was not very bright for the ex-champs, but they patched up their lines and tried. In the first period they looked better than their rivals but the line network of Thompson is making the first five goals of the game. Coming with the sizzling speed maintained throughout the first period, which ended 1-0 on a rush by Ross and a goal scored by L. Jarrell. Still the Thompson boys kept on the beam and early in the second period, Jarrell with his second counter to put the southerners further in the lead. Shortly after Faux almost shattered the nerves of the fans when he scored to put Sidney seven up on the round. A last minute rally resulted in Scott and McGowan setting counters for Glen Ross but before the end Faux is dashing it 4-2 on the round.

Line-ups:

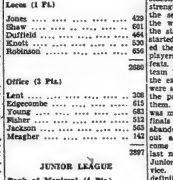
Glen Ross—Goal, Donald; defence, Armstrong and McGowan; forwards, Scott, Ross and Miller; subs, Scott and McDonald.

Fourth of Sidney—Goal, Thompson; defence, F. Knight and H. Thompson; centre, L. Jarrell; wings, C. Thompson and H. Thompson; subs, Faux, Dulmage, E. Jarrell, Semark, Lupinette and Vermilyea.

Referee—F. Wallace Stirling.

Zion's Defeat Corbyville

In the second game Corbyville and Zion's started from scratch tied 4-4 in their previous game. Corbyville couldn't seem to get their combination plays working and Zion's romped home winners by a score of five to one to take the round 9-5. Plenty of speed featured in the game along with a very short cuffing bout with Sunderland and Townsend getting a mitcondnut penalty each for roughing. Empson tallied the only counter for Corbyville. Ray Dickey clicked twice for Zion's; Day registered for two more and the odd one was awarded to Homer Townsend at end for game 5-1 and the round 9-5 for Zion's.



As a result of these fixtures, 4th of Sidney and Zion's will meet in a best two out of three games series for the League championship the first of which will be played on Friday night. They will meet again next Tuesday and if a third game is necessary again a week from Friday. The rivalry is keen between the two clubs. Sidney are determined to take the cup the first year they have been associated with the league and Zion's also would like the honour.

Line-ups:

Corbyville—Goal, Sinfield; defence, Sharpe and Bleckman; centre, Lee; wings, Sunderland and Ronsky; subs, N. Guay, V. Guay, Empson.

Zion's—Goal Carson; defence, Cranston and Kennedy; centre, Day; wings, Tapps and Brough; subs, Townsend, McAvoy, Dickey and Parks.

Referee—K. Wallace, Stirling.

A thrilling finish and a telescopic camera lens combined to provide this stirring action picture of Jo Balcombe event at Melbourne, Australia, Jockey F. Dummett riding Royal Jubilee, brought his mount through to win by a nose from Tongio King, and the camera clicked.

Saga of Pittsburg Phil Carried on by Art Rooney

Pro. Football Promoter Has Cleaned Up $108,000 on Bangtails in an Afternoon

By BILL BRAUCHER

New York, Feb. 2.—Not many men have floated the ancient legend that all born players die broke. Pittsburg Phil, a glamorous plunger of the '90's was one. When he died Pittsburg Phil left something like $2,000,000, all of which was profit on the ponies.

That thing this to mind is a dispatch from Miami to the effect that Art Rooney, who happens to be a Pittsburger, too, and a plunger of parts, is on the scene at Hialeah Park, and is reported to be doing all right. The owner of the Pirates, pro football club of Pittsburg don't talk much about his winnings—or losses, for that matter—but unofficially at Hialeah are a bit less voluble than the bookmakers Rooney raided at the eastern tracks last summer. So it's just a guess how the modern Pittsburg Phil is doing, but he says, "all right," and that's a mouthful for Mister Rooney.

Somehow the mutuels are less romantic than the layers on the lawn. Whenever Pittsburg Phil stepped up there to plant $10,000 and take away $80,000, the bookies gave him and up a concerted and picturesque blast. The news of Art Rooney's operations got around in a manner which can cause the commissionaires screamed. Rooney himself is a quiet type, not given to boasting.

Mutuels Don't Moan.

It always seemed to me some of the charm left the game when the mutuels generally replaced the book makers. At a mutuels track the money goes into one window and comes out, minus a percentage, at another. Generally the track doesn't know or care who is betting how much, so long as enough bets are placed. There's no room for the colorful excitement when a man at Saratoga or Belmont shoved a shucking $100 bills from a roll as big as an ear of corn and spreading it along the line.

Rooney comes close to matching the exploits of Pittsburg Phil, indicating that even in the noble art of race track gambling the modern refuse to play second fiddle to the ancients. Pittsburg Phil's largest wager was said to be $100,000, which he won on a horse he owned himself, King Cadmus. We haven't heard of Rooney making that kind of bet, but he picked up $108,000 in a hot afternoon's work at Hialeah, which is "doing all right", and how! The last time I saw Art Rooney I began his operations on the second race of that day, a steeplechase, and dropped $3,000. In the third he lifted Dressy, which closed at 7 to 1, but he was slow making up his mind he didn't have a nickle riding when Dressy popped in first.

Art Rooney . . . he's a modern Pittsburg Phil.

But Look at Tals!

The fourth race was the Flash stakes, and 13 to 5 was offered on Mastell. Rooney took $3,000 of that and Mastell won. He got 5 to 2 on Jay Jay in the fifth race, bet $10,000, and Jay Jay won. He got 7 to 1 for his $6,000 wager on Quick Devil in the next race. In the last heat Quel Jour was offered at 4 to 1, and Rooney bet $10,000 on that one.

Let's see, now—$13,000 plus $18,-[illegible] plus $42,000, plus $40,000, minus $3,000, equals $108,000.

Who said all hoss players die broke?

HITTING THE Head pin

"THE SPEED BALL"

The players rolls a speed ball will probably find himself all at sea and lose direction and control when he first leaves the speed, though some will benefit their game by doing so.

It is the general opinion that the speed ball is detrimental to the great majority who use it. The popular term "stuff" on the ball is usually lost, because of the excessive speed, it cannot develop the turning motion put into the delivery by the wrist and finger movement. The "stuff" acts only when the ball loses its momentum, and the pins do not get the chance to mix. Note how many strikes the slow ball bowler makes through just striking the gutter and glancing back at the corner pins without the speed, the pins fly too fast, and very often leap over the corner pins and skip the gutter.

A striking example of this speed ball is displayed by the known trundler just prior to the Canadian Bowling Association championships last spring. For quite a time his scores were very ordinary and knowing the qualifications as a bowler and a gentleman, the writer asked him to follow a plan that would be laid out for him. It was simply to stand well over to the left of the alley and lessen the speed of the ball. The result was an average of 200 for a 30-game stretch. Many players in their efforts to secure speed, throw themselves off balance and are disappointed in the results they obtain.

Many bowlers have profited by following the simple rule outlined for our championship tournament friend.

"Y" INTS. WIN OVER THE COLLEGE

Winners Paced By Fleet-Footed Forward Ace, Herb Burley

Tacking up their second successive victory in as many starts in the Bay of Quinte group of the Y.M.C.A. senior basketball loopsters trounced the Albert College quintette, 42 to 18 in a regular league fixture at the Y.M.C.A. last evening.

Paced by their fleet-footed forward ace, Herb Burley, the "Y" boys proved much too fimkered for the willing Albert quintette. Some fast, effective basketball was seen in the early stages, however as Burley and Carbyville starred the only scoring touch for the initial 12 minutes of play, although the former outdistanced everybody in the fore and was leading 13-9 at the half-way mark. The winners proved much too efficient in handling the ball while their system of attack at times baffled the more youthful Alberts.

The game was started with exceptionally clean basketball, only six minor penalties being called two in the initial half and four in the second frame. The fast-passing game displayed by the winners bewildering the Alberts, while the former's defence stood up superbly.

Herb Burley of the victorious "Y" squad led all scorers of the night with 13 scoring points, Wickerson, Cole and Edwards following in succession. Fillmore, Freeman, Sykes and Beach looked best for the Albert College.

The box score:

Belleville "Y"	FG.	FS.	Pts.
MacLean f.	0	0	0
Faulkner rf.	2	0	4
Burley lf.	6	0	12
Cole c.	2	0	4
Wickerson lg.	3	0	6
Carson lg.	1	0	2
Edwards f.	3	0	6
Yoke f.	0	0	0
Atkins g.	0	0	0
	18	1	37
Albert College	FG.	FS.	Pts.
McIntyre c.	1	0	2
Watson rf.	1	0	2
Sykes lf.	1	0	2
Fillmore rg.	3	0	6
Scrimgour lg.	0	0	0
Parkes f.	2	0	4
Freeman f.	2	0	4
Beach g.	1	0	2
	7	0	14

DAIRY DIRECTOR ADDRESSES C. P. A. AT CAMPBELLFORD

The need for greater co-operation between patrons and cheese makers was stressed by Geo. H. Barr, Director of Dairying for Ontario, in an address delivered before the Cheese Producers' Association held in Campbellford. Mr. Barr coupled his remarks with a discussion on the cheese industry as indicated in the reports of cheese grading for Northumberland County. He suggested that if a premium were put on high quality cheese it would stimulate higher grades.

Others who addressed the meeting briefly were Ed. Fryar, Stirling, representative of the Ontario Central Farmers' Association, Lynn Pair, agricultural representative for Hastings County; R. D. Martin, agricultural representative for Northumberland; C. P. Allan, dairy instructor, Stirling; J. A. Murray, district dairy inspector at Campbellford.

Officers for the year were: President—Ernest Hollenbrant; 1st Vice President, A. A. Merrill; Secretary, M. H. West.

Directors—Fred Barnum; Hector Arnold; Herbert Nelson; Fred Davidson; Peter Brahoney; Frank Harsden.

Auditors—J. A. Murray and A. H. Martin.

Delegates to the annual meeting of the Ontario Cheese Patrons' Association—Campbellford Peterborough February 15th and 16th are the president, vice president, and secretary.

WALL STREET CLOSE

New York, Feb. 3.—(AP)—Traders were choosy in today's stock market, sending shares in some groups up fractions to points or more and neglecting others.

Toward the final hour gains and losses were about evenly divided. Sales were at the rate of about 600,000 shares.

TORONTO STOCKS

Toronto, Feb. 2 (CP)—Profit-taking in the early session shaded the gold share profits to show a loss in the exchange index today. The advance was resumed in the early afternoon with trading in heavy volume in the medium price issues. Features of the trade were Preston, Dchl. East Malartic, Hard Rock, Leitch and Kerr-Addison.

Base metals were quiet and steady in price. Industrials were strong in the silvers and the western oils lightened up. Narrow gains came out for Canada Cement, Okalta and Anglo-Canadian.

Paper issues were the weakest group in the industrial section. Utilities also lost some ground and the foods were irregularly higher.

Board Room Gossip

As supplied to Biggar and Crawford by Financial Service.

MARKET COMMENT

The mines continue to absorb most of the speculative interest at the moment, with the industrial section doing little or nothing. People who have visited the financial district in New York have come back feeling proud that the Dominion is so well-situated in the matter of mining investments. Wall Street financiers are ; today more interested in our gold securities than at any time in the past and London has also been taking confidence of the wonderful opportunities existing in the Canadian mining industry.

The more ardent bulls on our gold stocks point out that the more severe the business recession, the more attractive become these securities, and in addition they offer a hedge against possible inflation. Then, again, the senior golds afford a very excellent yield that is safe, something that cannot be said for the majority of American investments.

At the Movies

What Local Theatre Managers Say About Coming Attractions

AT THE BELLE

"The Great Garrick"

A gay comedy "The Great Garrick", starring Brian Aherne and Olivia DeHavilland, comes to the Belle tomorrow (Thursday) and Friday, matinee daily.

In the words of Mervyn LeRoy, who produced it, "The Great Garrick is just a whole lot of fun." He made it for pure entertainment and those who previewed it say, "it has nothing else."

David, it would seem, was a gay, rollicking fellow, and he's a great artist, and he speeds through a great number of years—spectacular years, pleasing romance with lovely Miss deHavilland.

James Whale directed the picture under LeRoy's personal supervision.

A notable supporting cast includes Edward Everett Horton, Melville Cooper, Lionel Atwill, Lois Alberni, Henry O'Neill, Lana Turner, Fritz Lieber, Linda Perry and Etienne Girardot.

Farr-Braddock Fight

A special added feature in the same program is the presentation of the Tommy Farr-Jimmy Braddock exclusive fight pictures taken at Madison Square Gardens, showing blow-by-blow action. Farr's highlight moments of he fight in slow motion. Russ Morris and his Band in a smart tuneful Revue will be presented on the same program.

"Conquest" Outstanding

With matchless portrayals by the magnificent Garbo and her new starring partner, Charles Boyer, "Conquest," the stirring story of Napoleon and the one woman who was the love of his life comes last night to provide entertainment far from the ordinary run of motion picture fare.

Here is a drama which presents not only a romance that rivals the greatest in history but reveals with fascinating humanity and warmth of understanding the figures of the power mad emperor who handed the fate of nations like pawns to a chessboard and the young Countess who left behind the protection and position of her home to follow the man she loved.

There can be no doubt in the public mind that "Conquest" is a well titled. It is Garbo's conquest, which is proving her strong in the triumph of Boyer and the supporting cast, the direction of Clarence Brown, photography and impressive technical perfection of the whole picture.

A very interesting Belle News of the day, and Robert Benchley in one of the most original and funniest comedies seen here in a long time entitled "A Night at the Movies."

The entire program will be repeated again tonight for the 7.00 and 9.00 performances and at 2.00 and 5.00. The feature attraction begins at 7.10 and 9.20.

AT THE CAPITOL

"She Had to Eat"

After the hilarious spree which stole many laughs for fans in "Wake Up and Live," the Walter Winchell-Ben Bernie musical comedy hit, happy-go-lucky Jack Haley outdoes himself in a riotous performance as the comic bombshell. "She Had To Eat," now playing the Capitol as smash hit No. 1 on a grand double feature program.

Buffawed to fame in supporting role in one laugh hit after another in "Wake Up and Live," featured role in "She Had To Eat", heading a cast which includes Rochelle Hudson, Arthur Treacher and Eugene Pallette. In addition to the two latter comedians, three others, Douglas Fowley, John Qualen and Tom Kennedy complete the story and add field day of wit and humor.

Jack's dismal face is seen this time adorning the proprietor of a roadside hot-dog stand, who, according to himself, is a miraculous steel shooter. He is also sole manufacturer of an exceedingly powerful beverage known as "cactus cocktail" and when it is administered to Arthur Treacher and Eugene Pallette, things begin to occur.

Jack's shanghaied aboard millionaire Pallette's private train and then abandoned in the big city, where Rochelle Hudson takes the part of a society beauty down in low.

Rochelle is a big-city-wise girl who knows all the angles, including racketeers whereby food, rides in the limousines, literary and country club parties and other luxuries may be obtained at no cost.

A mad scramble of police and racketeers threatens for a while to gum up the works for both Jack and Rochelle, but everything but the funnybone is calmed down at the finish.

"Conflict"

Two giants struggle in a battle to the death—symbols of lumberjacks madly cheer their champion on to victory. A lovely girl awaits, hoping to see her man leave the ring victorious. With the winner be the man she loves, or the treacherous fighter she despises?

That is the tremendous climax of "Conflict", now playing at the Capitol in a new co-hit starring John Wayne and featuring Jean Rogers, Conrad Nagel and Ralph Bellamy in a prominent part.

"Conflict" is a vigorous, thrilling narrative taken from Jack London's famous story. The screen writers of the tale brings back the days when the country was dotted with gangs of rig champions. The hero, portrayed by John Wayne, is a lumberjack champion fellow who falls in love with a beautiful girl. He is a giant lover of strength to everyone else, but an adoring sweetheart to Jean.

If you want your fill of drama and thrills in a modern setting of romance, then see "Conflict" at the Capitol today and Thursday with last complete show at 8:35.

SCOTT'S SCRAP BOOK

By R. J. SCOTT

WRIGHT FACES JURY

Shown on the witness stand at Los Angeles where he will testify in his own behalf, Paul Wright, former airline pilot, charged with killing his wife, Evelyn, and best friend, John Kimmel is waging a terrific fight for exoneration. Ahead of him lie three paths: death, imprisonment—or freedom. The defence claims Wright shot the couple in a moment of white hot anger when he allegedly found them in a compromising position.

Little Benny's Note Book

I went around to the barber shop to get my hair cut on account of pop having been reminding me again, and the big barber started to cut it and talk to the little barber at the same time saying, What do you think is going to be the end of all this labor situation, Joe?

I think labor can go just so far and no further, the little barber said, and the big barber said, If you ask me I'd say it was more likely to go too far and then back. The trouble is labor wants all the alibis and it dont do for one side to have all the answers. I've been tried to fire the new bootblack the other day for getting more polish on the customers socks than he gets on their shoes, and a big shot from the bootblacks union came around and asked him what was the idee trying to fire a man for being too ambitious and doing more work than was expected of him, the barber said.

And look what's happening on American ships, Fred, according to the papers, the little barber said. It seems some of these crews want everything their own way and wont take no for an answer, especially from the captain, he said, and the big barber said, Sure, how would you like it if you were paying a fancy price for a stateroom and your cabin steward woke you up in the morning by paddling you with a tennis racket?

I wouldn't like it, the little barber said, and the big barber said, Well all the answers I've been able to find out how labor could be fixed so's the new bootblack the other day for getting more polish as passengers? And they'll keep on getting it till one of the peddled passengers happens to be Congressman Scooty the chairman of the Honey Bee Arbitration Committee and his wife, he said.

And he gave me a poke to prove my hair was all cut, being the last I heard.

Gilded Orchid

By JANET DORAN

"You did have fun, didn't you, Marjtra?" he agreed, fighting down the excitement in his voice lest she discover how elated he was, what thrilling mad excitement leaped through his veins—excitement such as he had not known in years nor dreamed ever existed for him—again. "We'll do this again. Often! As often as you can—"

"Don't tempt me, Sam! I'm a working girl, remember!"

"You won't be long, Maydra," he promised, "not if you don't want to!"

Glancing up at him swiftly, at that, Maydra surprised his ardent regard; for, there in dark eyes, in eager face, and a strange, deep tide of answering excitement began glowing, racing through her. He meant it! He wasn't fooling, wasn't bluffing!

"I've waited a long time," she said on carefully, "to find the one right girl, and I wanted no substitutes! You're that girl, Maydra, my kind. I can give you everything that money can buy, And you're entitled to one love you, cherish you, as no other can! Let me prove it to you!"

Maydra's lovely blonde head lay back against the soft, luxurious cushions of the limousine, and her white, violet eyes stared at him mutely, anxiously.

"You mean, Sam? she asked finally hesitantly.

"Strictly honorable," he explained simply. "Orchids, ring, bibles, ...and heart and soul to make it proof against trouble, Maydra!"

"Thank you,... Sam! Give me time? Let me....get used to it?

"Of course," said soberly, "we scarcely know each other yet. But....I wanted you to know, I wanted you to have no doubt as to my intentions!"

The chauffeur's square, trim back was a blur in the darkness, and only when the car swooped under the road-lamps, did their faces come alive and clear. The brilliant foliage was lost in the purple twilight, now, but bright-red flame burned in Maydra's mind, as she raced along the proposal that had been made. Reached ahead to the solemn, high church wedding with bishop and clergyman assisting. With a heavy white satin gown, with bridesmaids in Susanna's could achieve and lilies, and a strong of milky, translucent pearls about her throat a diamond and platinum ring on her finger, and a slim, platinum-wedding ring! Bridesmaids, Hildegarde, and Gerda and Nadji, and Susanna, maid of honor. An organ pealing the magnificent march of Lohengrin Mrs. Samuel D. Jacobs.

Over three millions of dollars. A long, long way from a barren little hillside farm, and a woman desperately fleeting the soil, less three people starved! So long there was but the faintest echo of a sodden organ murmuring The Old Rugged Cross, in a little stone chapel in Princeton, New Jersey! while a tall, fair-haired boy with the same blue eyes as the fame of a dreamer, looked down on a slim, fair-haired girl in a gray gabardine frock with little white collar. A girl with violet eyes, and an ambition almost as fierce as that girl-set steel. An ambition born of heart-break and loneliness, of humiliation and starvation. An ambition no amount of emotion could alter or swerve!

Sam left her at the door to her apartment building and he held her hand warmly in his, smiling down at her with all the ardor of the boyish enthusiasm of a man far younger than forty-three. A man who had somehow packed three intense, fevered lifetimes in his brief span, thus far, and now looked ahead into more serene, tranquil pastures, far from the feverish activity of those acquisitive years when he had been gathering his millions together.

"I may call you soon, Maydra, dear?" he suggested softly.

"Of course Sam, and thank you. It was so lovely, so wonderful! I'll have to have time to think it all over, and sort out each beautiful thrill!"

Then goodnight....for a little while, my dear. Goodnight....and don't think of me, once in a while?" he added soberly.

"I will," Maydra promised softly, "you know that I will, Sam!"

He stood in the street, his dark head bare to the clear, frosty night air, until she had gone up and up to her rooms. He stood there, his dark, vivid face lifted to the stars, and the years slipped away again, and he was a little boy, a standing barefoot and bareheaded under the warm, clear starlit skies of his native Greece, mutely thanking his God for something he had prayed long for. Had felt in his innermost soul that he simply had to have. It was the peasant Sam Locke would ever come to acknowledging that anything other than his own power, his own brain and ability and money had anything to do with the success he earned. The blessings that came his way.

Then he replaced his hat go into his car and slammed the door shut not waiting for the chauffeur to perform this rite, and ordered the man to drive him home, he once brief word.

"Home!" he said.

Maydra let herself into the apartment, and found Gerda hard at work on an illustration, her smock rumpled and paint daubed black hair slightly rumpled, and her topaz eyes blazing with excitement.

"How about union hours?" Maydra suggested smilingly, struggling out of coat and tugging the smart little hat off with one deft motion, and tossing it on him bonnet, is Christian Sabbath!"

"Sabbath!" Gerda grinned briefly, "or else the black coffee I made for dinner! Besides, it's only is late. Deadline at three-thirty tomorrow afternoon and I need the money!"

"I've money if that's all you're worrying about. Maydra said yawning sleepily; conscious that she had slept little in the past twenty-four hours, "not a young fortune, but still enough for our simple needs."

"Thanks, Infant; didn't mean I was broke or anything. But....it's expensive tastes. Also, you don't talk off deadlines. Have a good time?"

"Grand," Maydra said briefly, "but I'm dead on my feet."

"Then you'll blush with joy to learn a certain cyclone by the name of Leland, otherwise known at William, has been hoofing this fortress by way of telephone, ever since noon—shortly after you left. Judging by the advance exhibitions, I'd say he has already denied seven telephones and chewed up three directories. So maydra you'd better step up the bell!"

"Oh, Bill," Maydra said indifferently, "let him rave, Gerda. There's lots more right where he came from. He's as novel as spearmint!"

"Sure" Gerda agreed, smiling suddenly, "words are full of it. But don't you go to liking Bill "-and like his spinach. Infant. You might wake up married! And unless you know your newspaperman, that boy can drink up one good salary every week, if he takes it into his head, to!" And everyone dotes on lending him money. It's a vicious combination."

"If his chaps bite you, Gerda?" Mac" - countered blandly.

"Like a dumb kelt Bill! Fool, I hate him for it, too. It's a terrific strain on the nerves always to like a man so much, and know up thoroughly he' plain poison. Bed medicine!"

"Isn't it?" Maydra agreed fervently, "but I'm with you there, Gerda if you don't mind, Gerda. And will Bill to go pick daisies. I need rest."

"Go ahead, Infant. I've go to finish this. And I'll take a great pleasure in telling Bill almost anything, provided you'll bore me to sleep on it!"

It was hours later, fully after midnight when Gerda snapped on Maydra's bedside lamp and shook her gently awake.

"Maydra....wake up, Maydra.... It's the telephone! You're wanted!"

Maydra struggled awake, and slipped her feet into mules.

"Why didn't you tell that headache to jump into the lake, Gerda?" she grumbled, yawning, bearing her roommate's ' ertul. "I did, darling!" or else be too civil to appreciate its significance.

"Yes!" Maydra said in slight annoyance, into the transmitter. "This is Maydra speaking!"

"Hulla, darling!" said Wake Ballinger cheerfully. "Did I get you out of a sound slumber scow?"

Maydra, stared at the instrument in amazement, certain that she had heard correctly, certain that she had mistaken the voice. Wake Ballinger was married. Married to Kay Stevens! He couldn't be now with her!

"This is Wake—remember?" he went on lightly, "the chap who you say you're riding one night, 30k so long ago. Who got stuck with a pair of violet eyes nothing seems to help him forget, in turn for the trip!"

Maydra sat down suddenly. Held tightly to the telephone, as if for support. It simply didn't make sense.

TO BE CONTINUED

Huff's Island

Huff's Island — Mr. S. Johnson spent last Monday with Mr. and Mrs. F. Mosher.

Mr. and Mrs. L. Walbridge attended the funeral of the late Mrs. K. Tweed, Wooler, on Tuesday.

Some of the young people attended the party at Mr. Coe's Dogstail Thursday evening.

Miss E. and Mr. L. Wight entertained the Island young people at a delightful party at their home below Wellington, on Friday.

Miss K. Montgomery is spending some time with her sister, Mrs. C. Scott of Mr. Barker.

Mr. and Mrs. R. Redner and girls spent Sunday at Mr. J. Hatfield's.

The Girls Supper Club met at the home of Mrs Andrey Johnson, Saturday afternoon

Miss V. Cook, Belleville, spent the week-end at Mr. E. E. Wallbridge.

The icy roads make driving very hazardous as the cars seem to have a tendency to make for the ditch.

The Mountain View Y.P.U. met at the Rectory on Monday evening with a good attendance.

Melville

Melville — Mr. and Mrs. Garfield French spent last week in Toronto.

Mr. and Mrs. Albert Chamberlain, Pleasant Bay, and Miss Chas. May, Irma and Vivian May and Messrs. Orville, Leonard and Ivan May, Conaecon, spent Sunday evening with Mr. and Mrs. J. Root and boys.

Mrs. W. H Anderson spent Sunday with Mrs. Jas. Morton.

Mr. Jas. Wickson spent Saturday in Belleville.

Mr. Ernest Carley was rushed to Belleville Hospital for a major operation on Thursday morning. At present he is doing as well as can be expected. Mrs. Ernest Carley and Mrs. Albert Carley are remaining near the hospital.

Mrs. Percy Bolmage, Reg. N., spent several days in Belleville with her mother, special night nurse for Mr. E. Carley.

Mrs. Bride Hough, Burr's is visiting her daughter, Mrs. Garnet Dolphin and family.

Mrs. Bride Hough, Burr's is visiting her daughter, Mrs. Garnet Dolphin and family.

Gerda grinned briefly, "or else the black coffee I made for dinner! Besides, it's only is late. Deadline at three-thirty tomorrow afternoon and I need the money!"

"I've money if that's all you're worrying about. Maydra said yawning sleepily; conscious that she had slept little in the past twenty-four hours, "not a young fortune, but still enough for our simple needs."

"Thanks, Infant; didn't mean I was broke or anything. But....it's expensive tastes. Also, you don't talk off deadlines. Have a good time?"

"Grand," Maydra said briefly, "but I'm dead on my feet."

"Then you'll blush with joy to learn a certain cyclone by the name of Leland, otherwise known at William, has been hoofing this fortress by way of telephone, ever since noon—shortly after you left. Judging by the advance exhibitions, I'd say he has already denied seven telephones and chewed up three directories. So maydra you'd better step up the bell!"

"Oh, Bill," Maydra said indifferently, "let him rave, Gerda. There's lots more right where he came from. He's as novel as spearmint!"

"Sure" Gerda agreed, smiling suddenly, "words are full of it. But don't you go to liking Bill "-and like his spinach. Infant. You might wake up married! And unless you know your newspaperman, that boy can drink up one good salary every week, if he takes it into his beg, lol!" And everyone dotes on lending him money. It's a vicious combination."

"If his chaps bite you, Gerda?" Mac" - countered blandly.

"Like a dumb kelt Bill! Fool, I hate him for it, too. It's a terrific strain on the nerves always to like a man so much, and know up thoroughly he' plain poison. Bed medicine!"

"Isn't it?" Maydra agreed fervently, "but I'm with you there, Gerda if you don't mind, Gerda. And will Bill to go pick daisies. I need rest."

"Go ahead, Infant. I've go to finish this. And I'll take a great pleasure in telling Bill almost anything, provided you'll bore me to sleep on it!"

It was hours later, fully after midnight when Gerda snapped on Maydra's bedside lamp and shook her gently awake.

"Maydra....wake up, Maydra.... It's the telephone! You're wanted!"

Maydra struggled awake, and slipped her feet into mules.

"Why didn't you tell that headache to jump into the lake, Gerda?" she grumbled, yawning, bearing her roommate's ' ertul. "I did, darling!" or else be too civil to appreciate its significance.

"Yes!" Maydra said in slight annoyance, into the transmitter. "This is Maydra speaking!"

"Hulla, darling!" said Wake Ballinger cheerfully. "Did I get you out of a sound slumber scow?"

Maydra, stared at the instrument in amazement, certain that she had heard correctly, certain that she had mistaken the voice. Wake Ballinger was married. Married to Kay Stevens! He couldn't be now with her!

"This is Wake—remember?" he went on lightly, "the chap who you say you're riding one night, 30k so long ago. Who got stuck with a pair of violet eyes nothing seems to help him forget, in turn for the trip!"

Maydra sat down suddenly. Held tightly to the telephone, as if for support. It simply didn't make sense.

DON'T BULLY CONSTIPATION

If you suffer from common constipation, due to lack of bulk in the diet, harsh cathartics don't get at the cause of your trouble. You can avoid this kind of constipation by eating Kellogg's All-Bran. This delicious cereal not only contains the intestinal stimulant, Bulk, but also provides the bulk you need. It absorbs moisture ...softens like a sponge into a water-containing mass that encourages and aids regular elimination.

The Kellogg's All-Bran in muffins. Or as a breakfast cereal. Eat All-Bran every day and drink plenty of water. Made by Kellogg in London, Ont.

Schoharie

Schoharie — Mr. and Mrs. John McGee spent Sunday with Mr. and Mrs. Ben Payne.

Mrs. Cora Aitchison, of Wellington, is spending this week with her father, Mr. John Benson and Mrs. Mildred Benson.

Mr. and Mrs. Will McGee spent the dinner hour on Sunday with her parents, Mr. and Mrs. John Shaw.

Mr. and Mrs. Harold Walters, Rose and Homer were dinner guests of Mr. and Mrs. Lewis Yost of Bloomfield on Sunday evening.

Mr. and Mrs. Percy Longwell and Douglas spent the tea hour on Sunday with Mrs. Aitchison Bloomfield.

Mr. and Mrs. Charles Leavitt and sons spent Sunday with Mr. and Mrs. Manuel Howe of Demorestville.

Mr. and Mrs. Ralph Warren of Picton, were Sunday guests of Mr. and Mrs. Burton Robson.

Frankford

Frankford — Mr. and Mrs. A. J. Bingham, of Toronto, spent Wednesday in the village.

Frankford hockey team defeated Stockdale 8-0 in a friendly game at the Rink Arena on Wednesday night.

Mr. H. T. Miller attended a Master Mariner's Conference in Belleville that this week.

On Wednesday, while at work at the Frankford Hardware, Mr. Joseph Carr cut his knee cap on a cross cut saw which provided two stitches to close the wound.

Reeve Geo. H. Spencer and Councillor Percy Lumsden made an inspection of the Municipal Wood Lot on Thursday.

Messrs. George O. Montgomery, W. Wallace, Ross Turley and Harvey Patrick attended the horse sale at Campbellford on Friday.

Mr. and Mrs. H. Loucks, Miss Ruby Townsend and Miss Marcia Sprague spent the week-end in Toronto.

Mrs. Stickle, of Johnstown, was the guest of her son, Mr. J. A. Stickle for a few days this week.

The annual meeting of the "Helping Hand" Mission Band was held in the United Church on Thursday afternoon. The meeting was opened with singing a hymn, followed by the Lord's Prayer. The Scripture lesson was read by Lillian Mae Bentley Hadley and Lillian Tripp took up the offering and all repeated the dedicational prayer. Following devotional a committee was appointed to secure new members. The progress report was read reading by Shirley Rodgers, Gussie Morris and Gertrude Tripp.

Joan Munn conducted the games played in the Church Hall. The meeting was concluded with the Mispah Benediction.

Mr. Kenneth Leavens spent Sunday afternoon with J. M. McCullough.

Messrs. Bud and Gerrard Sexsmith are spending sometime at Wooler.

Mr. J. Scales was in the village on Saturday last after a visit last week.

Mr. Frank Marshall of Kingsford, has had a new grist mill installed.

A few from the vicinity attended a dance at Macdonald's Hall on Tuesday evening.

The regular meeting of the United Church in Lonsdale was held at the home of Mr. John McRae on Monday afternoon.

Lonsdale

Lonsdale — Another snow storm has again filled the side roads making driving quite difficult.

Mrs. R. English is visiting her sister in Napanee after spending some time with her sister-in-law, Mrs. F. McCullough.

Mr. and Mrs. Herbert Diamond of Belleville, visited his Auntie, Mrs. Agnes Whiteman, quite recently.

Miss Bernice Doodle and also Mr. Wilbert Doodle are spending a few days with their parents, Mr. and Mrs. Doodle.

Mr. Ed Doodle is very poorly at present.

On Sunday afternoon Mr. and Mrs. Ed. Doodle and family called also Mr. Alex McRae and Mr. and Mrs. Will Haight also Mrs. Agnes Whiteman called on Mr. and Mrs. Albert McCullough.

Mr. Kenneth Leavens spent Sunday afternoon with J. M. McCullough.

Messrs. Bud and Gerrard Sexsmith are spending sometime at Wooler.

Mr. J. Scales was in the village on Saturday last after a visit last week.

Mr. Frank Marshall of Kingsford, has had a new grist mill installed.

A few from the vicinity attended a dance at Macdonald's Hall on Tuesday evening.

The regular meeting of the United Church in Lonsdale was held at the home of Mr. John McRae on Monday afternoon.

Thomasburg

Thomasburg — On Friday evening Thomasburg I.O.O.F. Lodge No. 293 held their annual At Home with an Oyster Supper. About one hundred and fifty persons enjoyed the delicious oyster stew and other good things provided for the occasion.

After supper was served the tables were cleared and the gathering was called to order by Noble Grand Clarence Jeffrey and a very enjoyable programme was given. Community singing, led by Miss Lucille Herrington, was enjoyed by all. The Noble Grand, at this time, gave a very appropriate address, expressing pleasure at seeing so many friends of the lodge members present. Other numbers on the programme were: A duet by Misses Phyllis Dyre and Doris Coulter; instrumental music by Messrs. Clarence and Reg. Mouck; an address by Rev. H. B. Herrington of Thomasburg United Church. Mr. Fred Porter gave another instrumental and the singing of God Save the King brought the programme to a close.

Burr's

Burr's — Mr. and Mrs. Clifford Hough visited on Sunday with Carrie Melville, at the Belleville General Hospital on Friday.

Mr. Ernest Carley returned to his home on Sunday in the ambulance. He stood his trip very well.

Mr. and Mrs. Robert Bowers were callers at Mr. Orson Bowers on Sunday evening.

Mr. and Mrs. George Fox spent Sunday afternoon with Mr. Tom Morden.

Mr. and Mrs. Norman Fox were guests of Mr. and Mrs. Will Blakely, Mountain View, on Sunday afternoon and evening.

Mr. Sam Clarke was the guest of Mrs. Clifford Hough on Wednesday evening.

Mr. and Mrs. Gene Hubbs and Vera were at Picton on Thursday and visited his sister, Mrs. Geoffrey Terrill and daughters.

Mr. Gene Hubbs has a number of young lambs.

ALMOST A WRECK!

MANY folks are like this —they're weak, feel "all-in" and run-down. This condition should not be overlooked. Dr. Pierce's Golden Medical Discovery is a tonic which increases the appetite, eliminates poisons from the intestines, and tones up the entire system. Read this: Chas. Ackworth of 122 Grey St., London, Ont., said: "A few years ago I was about a wreck—my appetite was gone, my body was run down and I was all nervous. Dr. Pierce's Golden Medical Discovery was recommended and before long my appetite returned in good order and I felt well and strong." Druggists everywhere.

Queensboro

Queensboro — Mrs. Ed. Holmes and children of Picton spent Monday with Mrs. Ella Holmes.

Mr. and Mrs. Fred Rollins spent last Sunday with relatives at Cooper.

Rev. W. G. H. Swayze was entertained at the home of Mr. and Mrs. Irvine Delyea on Sunday

Miss Veronica Lunn is spending some time in Belleville.

Mr. Kenneth Burris, Madoc, spent the week-end with his grandmother Mrs. M. Burris.

The W. A. of the United Church held a social evening and "Mystery Tea" at the parsonage on Friday evening. A very enjoyable time was spent in contests, a short program and social chat.

A game of hockey between Eldorado and Queensboro teams was played on the Queensboro rink on Saturday evening resulting in a score of 4-0 in favor of the local team.

Schoharie Centre

Centre — The January thaw materialized and certainly lowered the snow but the roads are very icy in this vicinity.

Mr. and Mrs. Arthur Stewart and family, of Belleville, spent the week-end with Mr. and Mrs. Willis Fox and family.

Mr. and Mrs. Earl Fox entertained Mr. and Mrs. Ralph Redner and girls Friday evening.

Mrs. H. Delaney returned home Thursday after a few days visit with her mother, Mrs. Pearsall, at Bloomfield.

Mr. and Mrs. Asa Fulwer were Friday evening visitors of Mr. and Mrs. Wesley Coulter.

Mr. and Mrs. Ralph Redner and girls spent Sunday with Mr. and Mrs. Hatfield of Huff's Island.

Mr. and Mrs. John Cairns, Sr., celebrated their golden wedding anniversary on Thursday. They were joined with their son, Mr. John Cairns, Jr., his wife and three sons, their daughter Mrs. Ernest Manistine and husband and their daughter Phyllis spending the in hour and evening with them. Friends with them many more wedding congratulations.

Mr. and Mrs. Frank Townsend spent Sunday with Mr. and Mrs. Bonter, at Wellington. Mrs. Bonter is under the doctor's care.

Mr. and Mrs. Kenneth Green were at the home of a few of their friends on Tuesday evening.

Shannonville

Shannonville — A short Agricultural Course authorized by the Indian Affairs Branch of Ottawa will be held at the Mohawk Council House from February 14th to the 19th for the purpose of teaching the younger Indians the rudiments of farming. A large number of Indians have enrolled in the course with a large number being expected from Grenfell Agricultural College, Ontario Veterinary College, Guelph, and Toronto will address the Indians. Home Economics will be taught by Indian Maidens, with Mrs. Ethel Mounie and Miss Verna Hungerford, Deseronto, both scheduled to make addresses. The Home Economics Course has been arranged by the Institute Branch, Toronto. The combined course will be conducted by R. Scandrett and Mr. Elliott Moses.

In an exhibition hockey match on the local rink Saturday night the Shannonville Hawks defeated the Tyendinaga Athletic Club by the score of 4-2. Although the ice was rather soft the players proved very interesting with both teams turning in good performances considering their lack of practice. Mohawks were much faster than the local team but were unequal weak around the nets.

For Shannonville, Houston, right-winger, and Bardy in the nets proved to be the stars while the Marcle brothers, Harold and Lorne, proved to be the pick of the Mohawks.

Line-ups: Shannonville — Goal, Bardy; Defence, Bell and Spencer; Forwards, Bill Houston, Bruce Reid, Gerald Sieger; Subs, Clare Smith, Blake Cook, Jack McDonald.

Mohawks — Goal, Doherty; Defence, Leslie Clause and Bob Lewis; Forwards, Lorne Maracle, Harold Maracle, Eugene Maracle; Subs, Bill Silas Hill, Reginald Brant.

Shannonville are billed to play in Deseronto on Tuesday night.

Mr. and Mrs. Oral Stratton were hosts to a number of their friends on Tuesday night. During the evening the guests played progressive euchre with the prize winners being Ladies, First, Miss Jota Fitzgerald, Consolation, Mrs. Sidney Fitzgerald; Gentlemen, Mr. Fred Lewis, Consolation, Mr. Herbert Houston.

After the prize had been awarded, a delicious lunch was served by the hostess which was thoroughly enjoyed by the guests.

Miss Rosalind Stevens, of Napanee, was a week-end guest of Mr. and Mrs. George Leverton.

Miss Edna Burtt of Belleville spent Sunday with her parents, Mr. and Mrs. Harold Burtt.

The following were Saturday evening guests of Mr. and Mrs. George Leverton, Mr. and Mrs. Arnold Pertt and family, Mr. and Mrs. Arnold Mitchell, Mr. and Mrs. Albert Reid, Miss Eileen Robertson, Mr. William Murphy.

The Mohawk Agricultural Board completed arrangements for the annual gala night which is held at the conclusion of the yearly agricultural course. Plans as yet have not been revealed.

Mr. and Mrs. William Robertson celebrated their twenty-fifth wedding anniversary on Friday. A party was held at night to celebrate the occasion with friends from Stella, Latta, Trenton and other out-of-town points attending. Mr. and Mrs. Robertson were the recipients of many beautiful presents.

At the annual meeting of the Mohawk Agricultural Society the following were elected officers for the current year; President, Mr. Herman Clark; Vice - President, Mr. Francis John; Treasurer, Mr. Norway Maracle; Secretary, Mr. Clayton John; Superintendent of Grounds, Mr. Edward Marcle.

Prince Bernhard Popular With Stork-Conscious Hollanders

Driving a sporty roadster, Prince Bernhard, husband of the Crown Princess Juliana, of Holland, is shown at the acknowledge the cheers of the villagers in the little village of Soestdijk, while the entire country waited breathlessly for the birth of the couple's child. When fifty-one guns boomed out their message, all Holland and its possessions knew the new heir to the throne was a girl. Had the salute been from the months of one hundred and one guns, it would have announced the arrival of a boy. Unless the Crown Princess later gives birth to a boy, the little princess will inherit the Netherlands crown.

FATE OF PROPERTY RESTS WITH CAPRICIOUS NIAGARA

With the worst combination possible—mild weather and southwest winds, and not content with wrecking the world famous "Honeymoonbridge" the mighty Niagara River's record ice jam continues its rampage. Above, ABOVE is shown the new mile long glacier of the river gorge wrecking cottages along the

VICE-REGAL PARTY ATTENDS BRILLIANT PARLIAMENTARY OPENING

Here is the official party of his excellency the governor-general, pictured for the opening of parliament. The vice-regal group includes their excellencies Lord and Lady Tweedsmuir, the aides-de-camp and members of the governor-general's household. Those in the group are: Front row, LEFT to RIGHT—Master Guy Cote, page; Mrs. A. S. Redfern, col. the Hon. Murray MacLaren, Lieutenant-Governor of New Brunswick, Lord Tweedsmuir, Lady Tweedsmuir, Miss MacLaren. Mr. A. S. Redfern, secretary to the governor-general; Master Kenneth Greene, page. Back row, LEFT to RIGHT—Lieut.-Col. G. Rolder, D.O.M., M.M., aide-de-camp to Mr. MacLaren, Mrs. L. A. Hillock, Lieut. R. Scott, R.N., aide-de-camp to Lord Tweedsmuir, Mrs. H. Willis-O'Connor, Lieut.-Col. W. D. Macgillivray, comptroller of the household, Mrs. George Pape, lady-in-waiting to her excellency; Col. H. Willis-O'Connor, aide-de-camp, Miss Campbell-Preston; Capt. G. F. Campbell-Preston, aide-de-camp.

BELLEVILLE, ONTARIO, THURSDAY FEBRUARY 3, 1938

$80,000 DAMAGE BY FIRE EARLY TODAY

Bell Shirt Co. Suffers Fire, Smoke, Water Loss, Blaze Starts in Garage

Fire Discovered Before Five O'clock And Under Control at Seven

ROOF CAVES IN

Occupants of Apartments Forced to Hurriedly Evacuate

Damage estimated to be in the neighborhood of $80,000 to $100,000 and doubtless was caused by fire, water and smoke to the contents and buildings housing the Bell Shirt Company, Burbholders Garage, Belleville Battery Service, and apartments at the corner of Coleman and West Bridge Streets shortly before five o'clock this morning.

Flames believed to have originated in a defective oil burner in one of the garage leaped swiftly up the walls to the tarred roof of the building, quickly the flames spread along the inflammable surface of the roof burning holes through to the empty attic comprising the top floor of the building.

A red glow shining through windows of the ground floor of the building was the first indication that fire had broken out. William Mayes, a fireman first to notice the glow, rushed to a telephone and sent in the alarm. Firemen and apparatus rushed swiftly to the scene. Smoke was seeping out of windows in the upper floors of the building. Forced to con an entrance through fire doors on the south side of the building, firemen were driven back by dense clouds of smoke as they attempted to locate the origin of the blaze.

Flood Peril Passes River

Men and Issue Were rushed on the Ice of the Moira River east of

Apartment Roof Catches Fire.

At ten minutes past six, flames broke out in the tarred shingle roof over the apartments. Hose was dragged from the river ice by willing spectators and firemen and the blaze extinguished before any appreciable headway was made.

In the garage storage space on the ground floor of the building several cars and trucks were housed. No damage was caused here with the exception possibly of some water and smoke. A small dog, sleeping peacefully in a truck and totally unaware of his danger was carried to safety by firemen.

The Bell Shirt Factory cutting and storerooms, firemen battled in a semi-darkness, reduced by smoke blazes. Streams of water were played on every corner where fire threatened.

Damage Quite Heavy

Serious damage occurred in the operating department of the factory, where flames, heat, water and smoke played havoc with stock and operating machines. Upwards of fifty employees of the company are thrown out of work by the conflagration.

Furnishings and other contents of the apartments were carried out by Russell Smith, of this city were considerably damaged by water poured from the roof where firemen worked desperately to save the building. Furniture and other personal effects floated in six inches of water in dining and bedrooms.

(Continued on page twelve)

Why the Weather?

By Major A. H. Thiessen
Science Service Meteorologist

Clouds and mist! Clouds, those great sky-parasols shading the earth, cause great differences in temperature. It makes no difference in our warmth what the sun delivers to the top of the atmosphere, but what gets through to us at the earth's surface is important. About four-ninths of the sun's radiation is reflected, and the clouds are responsible for a good deal of that. As an example of this cloud effect: Right over the Equator in the interior of Africa, and where there is considerable cloudiness) the temperature averages 81 degrees. Then about 1300 miles farther north in the Sahara Desert (where there is very little cloudiness) the temperature averages 99 degrees.

THE WEATHER

Toronto, Feb. 3—(CP)—Pressure continues high from Alaska southeastward across the Prairies to the Gulf of St. Lawrence, while a disturbance which moved over the southwestern States yesterday morning has moved quickly northeastward to Michigan. The weather has been moderately cold in the Western Provinces with light snow in many districts. Snow has also fallen in Northern Ontario and rain in the Lower Lakes Region. Fair, cold weather prevails in the Maritime Provinces.

Lake Superior: Northeast to northwest winds; cloudy with snow flurries, somewhat colder tonight. Friday, partly cloudy and somewhat colder; probably snowflurries.

Manitoba: Partly cloudy and a little colder tonight and Friday with scattered snowflurries.

Saskatchewan and Alberta: South-east winds; partly cloudy today and Friday; stationary or slightly higher temperature.

WOMAN 'AGENT' CHIEF WITNESS AGAINST FOUR

Testifies For Crown Against Men Held Under Secrets Act

COPYING OF PLANS

Mysterious "Miss X" Kept War Office Informed, She States

London, Feb. 3—(AP)— Blond woman "British Agent" told from the witness box in Bow Street police court today how for nearly a year she halved copy plans of secret armaments smuggled from the big Woolwich Arsenal in completing an alleged spy plot.

Miss Olive, black-clad girl identified only as "Miss X" testified against F. K. Glading, former Arsenal engineer, and three others who were accused of duplicating blueprints of army, navy and air force weapons allegedly intended for delivery to an unnamed foreign power.

The four defendants, arrested under the Official Secrets Act, were remanded until Feb. 7 after "Miss X" had corroborated the prosecution's story of an alleged plot involving a mysterious couple from Hamburg.

Speaking under apparent stress, "Miss X" said she had first visited the war office's counter-espionage service in 1931, doing volunteer work in the "Friends of the Soviet Union."

(Continued on page twelve)

Flood Control In Ont. Possible Engineers Claim

London, Ont., Feb. 3—(CP)—Eastern Canadian engineers were agreed today that floods in southwestern Ontario can be controlled. But the men who have closely studied the problem also were of the opinion application of such money will be necessary to eliminate flood waters or at least reduce the effect to a minimum.

The conclusion followed the presentation of four papers on Western Ontario's flood dangers at the concluding session of the annual convention of the Engineering Institute of Canada here yesterday. Speakers who said there was reasonable assurance floods can be controlled declared the trouble has not yet been shown enough evidence to warrant any expenditure it was warranted.

A 25 overflow channel from the Thames River below London to Lake Erie is one measure of control. Hinds Lee, chief engineer of the Grand River Conservation Commission, Brantford, told the Institute. He said such a channel "would increase the hydraulic grade line about two feet, thus increasing the velocity of the stream and lowering the flood levels."

Nine natives were killed on a farm near Carolina, B.A., when the hut in which they were sleeping during a storm was struck by lightning.

"I'll Never Go Out Again" Says Fisherman After Rescue

Five Caught in Ice Floes in Lake Erie

BURNED BURLAP

Port Colborne, Ont., Feb. 3—(CP)—Peter Lukasko, 20-year-old fisherman, vowed today "I'll never go out on the lake in winter again" after Ice And though they did not say so, Reinhart's four companions during five hours of peril on a drifting ice floe appeared to be of the same mind.

All were safe in their homes after an adventurous night on a floe that was carried more than five miles from shore by a stiff wind that was wafted back to shore, almost into the arms of a rescuing party of Provincial Police and volunteer firemen. From six o'clock until 11 last night the five drifted on the choppy lake.

On the floe with Reinhart, the builder of seven children, were Raymond Reeb, 42, and his two sons, Cyril, 16, and William, 15, and Edgar Dean, 16. Reinhart and the

ARTIST QUITS FORMER HOME OF ROCKEFELLER

A picture that will give the "miseries" to art lovers, is shown (ABOVE) Sandor Vago, Hungarian portrait painter, is removing his works from the walls of the former home of the late John D. Rockefeller, Sr. at Tarrytown, Newyork. Vago is moving his family to Paris where he has purchased a studio. He bought by the late-oil king in 1926 for $40,000, soon will be filled by workers' axes to make room for a parking lot. The place is on the tax assessment list for $301,460. Vago and his family had occupied the house for several years.

Friendship with Gt. Britain, Hope Of Japanese Foreign Minister

Tokyo, Feb. 3—(CP-Havas)— "I wish to maintain our traditional friendly relations with Great Britain," Foreign Minister Koki Hirota replied today to a diet member who said "Japan's enemy is Britain."

"I think that Britain is fully cognizant of recent changes in the international situation in the Far East," Hirota declared. He expressed the hope that Britain would be "the first country to grasp the new situation."

He cannot see a single case in which Britain has acted deliberately against the interest of Japan. If any case should occur, I think it is the duty of diplomats to persuade Britain to reconsider her position.

"Japan is now engaged on a gigantic task in the Far East and therefore it is her mission to attain her ultimate objective of settling the present China conflict.

"There is no course left for Japan but to persuade the foreign powers to understand the new situation in the Far East and lead them along lines in keeping with the new situation. I must trust that Britain, the country most interested in the Far East, will be the first country to grasp the new situation."

War Minister Hajime Sugiyama told the diet that the Japanese army has ready to take over the Soviet Union or any other country.

Paulette Goddard As Scarlet O'Hara?

Hollywood, Feb. 3 (AP)—The film capital gave credence today to rumors Paulette Goddard would play "Scarlet O'Hara" in Margaret Mitchell's "Gone With the Wind".

Producer David O. Selznick, announcing he had signed Miss Goddard to a long term contract, said she would be tested for a role in that story.

Miss Goddard has been at many social and public functions lately with Charlie Chaplin, who for years was her constant escort. They never commented in discussing reports they were married, but the general impression has been they wed in 1934, possibly at sea.

Liner Will Bear Name of the Queen

London, Feb. 3 (CP-Havas)—The world's largest ship, an 80,000-ton liner now known as "No. 534" at the John Brown and Co. yards at Clydebank, will be named after Queen Elizabeth when it slides down the ways at its official launching scheduled for Sept. 27.

Queen Elizabeth has asserted to request that the new vessel, sister ship of her late father Queen Mary, be named in her honor, and that christening will be the launching. It was officially announced at Buckingham Palace today.

The King and Queen will go to Clydebank for the launching.

Greater Distinction for Line

Naming of the great motor ship will constitute a unique distinction in the annals of the Cunard-White Star Line, for it will be the first time that any shipping company will own two liners christened by living British Queens.

The launching of the Queen Elizabeth will take place four years and one day after the launching of the Queen Mary, which took place Sept. 26, 1934.

EXPERTS TESTIFY AT MURDER TRIAL OF DR. CLINE SR.

Dr. Banghart, Dr. Loudon And Prof. Rogers Give Testimony

London, Ont., Feb. 3—(CP)—Dr. Percy G. Banghart, who told court he specialized in surgery, testified to post-mortem findings when the murder trial of Dr. C. A. Cline Sr., resumed today before Mr. Justice Nicol Jeffrey and a Supreme Court jury.

The 71-year-old, while-haired physician is charged with chloroforming Mary Williamson to death last September after performing an illegal operation on the 37-year-old school teacher. Her body was found in the Thames River Sept. 14.

Eventual Death Likely

Dr. Banghart told of removing the left ovary of Miss Williamson body and sending them for examination to Dr. E. R. Frankish, medico-legal expert of the Attorney-General's Department at Toronto. Shock and hemorrhage from the bowel would have caused the woman's death eventually, Dr. Banghart said his examination showed.

He had no knowledge that chloroform might be killed Miss Williamson when he made his post-mortem examination, he said, but he did what he would have done if, performing an operation as a private at home, he had injured a patient the way Miss Wilkinson was injured, Dr. Banghart said he would have rushed the patient to a hospital "to remedy it."

OPPOSE COMMUNISM

Toronto Member Asks if CBC an Agency For American Advertising

Ottawa, Feb. 3—(CP)—Quebec's padlock law entered House of Commons debate for a second time yesterday when Vital Mallette (Lib. Jacques Cartier) advised the government not to act on a suggestion from a Toronto member, C. G. F. leader, that the law be disallowed.

Mr. Mallette said he had read brief for the Duplessis government and probably wouldn't be trusted with out the padlock law in a "raw way" represented the sentiments of the vast majority of the Quebec people.

They were opposed to Communism and determined to have action to do with it. They believed in democracy and were determined to maintain institutions, he said.

It was true, Mallette said, the law rushed through the legislature in a hurry and perhaps it might be improved. Nevertheless, the duly elected representatives of the people of Quebec were the proper persons to amend it and in any case the people would have an opportunity to pass on it at the coming judgment on the government, which had sponsored it.

NIAGARA BRIDGE STARTS TO BREAK

Part Separates From Main Bridge by Jamming Ice

Niagara Falls, Ont., Feb. 3—(AP)—The breaking up of the Falls View bridge started today with a loud report that drew scores of workers down on the ice to take apart the steel span, which tumbled a week ago.

With a sound like a muffled explosion, part of the bridge on the United States side broke and separated. Since it fell on the Niagara River, the ice jam, on the bridge has gradually weakened structurally by the pressure, and began its imperceptible movement of the jam.

Workers on the span from Canadian engineer J. I. Bough and 12 workmen from Rumford, Me., were expected to take over the work which will be done from the Canadian side. Officials of the Canadian National Railway Company said the first job would be to take the flooring from the bridge and use it to serve as a pathway across the ice.

Arrangements to remove the bridge were completed by the owners and the Niagara Falls Power Company, a few hours before Attorney-General Gordon Conant of Ontario said at Toronto he was considering legal action if the span were not removed at once. He said it threatened property beside the lower Niagara by holding back the ice.

Airplanes Scouting 'Foe' In Tactical Manoeuvres Collide in Rain Squall

One Bomber Falls in Flames And Other Crashes on Choppy Waves

140 MILE SPEED

Ten Missing Men Sought Off Coast at San Pedro

San Pedro, Feb. 3—(AP)—A midair collision of two giant bombers claimed its 11th life today as search was made by air and sea for the missing bodies of 10 airmen.

Rescued from the water after the bomber 11-P4 fell in a shimmering inferno last night, J. H. Hester, radioman first class of San Diego, died aboard the hospital ship Relief at San Clemente Island this morning. Five Injured

Three of his companions were seriously injured but were expected to recover.

The bodies of three more of the 11-P4's crew and the seven men in its sister bomber, the 11-P9, were hunted by the United States Navy and Army forces said unofficially there was no hope the men had survived.

The bombers, scouting for a theoretical enemy off the southern California coast, collided during the sudden rain squall, within view of the manoeuvring surface ships.

The 11-P3 fell in flames. The 11-P4 smashed to pieces on the choppy sea. They were cruising at about 140 miles an hour.

Search for 3 Survivors

Search for three possible survivors from the 11-P9 was begun immediately by surface craft, several battleships and the destroyer, all of which were in the immediate vicinity of the tragedy.

Planes were dispatched in the search at dawn.

The 10 missing airmen, listed by the navy simply as "unaccounted for," were:

11-P4—Lieut. Elmer Glenn Cooper, commanding officer; Aviation Cadet Kern John Kerr, second pilot; Joe Earl Walton, aviation chief machinist mate; George Gordon Griffin, aviation machinist mate first class; Julian Rawls, radioman second class; William Paul Landgreve, aviation machinist mate second class.

11-P4—Lieut. Carleton Barmore Hutchins, commanding officer; Ensign Gregory Mitchell Harrison, machinist mate first class; Marion Wilbur Hall, aviation machinist machinist mate.

Rescued Men Recover

Of the four rescued men, J. H. Hester, radioman first class, was not expected to live, according to the medical injuries.

D. B. McKay, aviation chief machinist mate, suffered a broken leg. V. O. Hatfield, aviation chief machinist mate, suffered a broken leg and cuts. L. S. Carpenter, aviation machinist mate second class, had a broken arm.

The four are treated in San Diego. Their escape in the shattering plunges of the 11-P4 was almost miraculous. Giant searchlights from the warships spotted them in the water and they were quickly picked up by one of the small boats which sped

NEWS BRIEFS AND ODDITIES

BUS DRIVERS SAVE WILD DUCK CAUGHT IN BRIDGE

Niagara Falls, Ont., Feb. 3 —(CP)—Rescuing screams from the depths of the Niagara River Gorge near the Falls View Bridge, Herbert Stevens and Arthur Lynn, bus drivers, investigated. Slipping down the snow-covered banks to the bridge wreckage, they walked cautiously out on the ice bridge and finally found a Mallard duck caught in the girders of the bridge. Lynn took the duck home to warm it before turning it over to the Niagara Parks Commission.

TRAFFIC OFFICER FINDS BROTHER UNCONSCIOUS

Eastview, Ont., Feb. 3 (CP)— Called last night to investigate an automobile accident on the Russell Road that borders his Ottawa suburb, Traffic Officer Alfred Jones found his 34-year old brother, Lionel, lying unconscious beside one of the road and rushed him to hospital before he died a few minutes after admittal.

SCOTLAND YARD RETURNS CANADIAN'S STOLEN CAMERA

Red Deer, Alta., Feb. 3 (CP)— Scotland Yard "got their man," story Cornett of Red Deer yesterday got back a valuable camera and other articles stolen from a hotel room while he was in London. Seventeen months of the search was returned by Scotland Yard detectives.

HAD GOOD REASON FOR PARKING IN PROHIBITED ZONE

Baltimore, Feb. 3 (AP)—John C. Noble had no reason for parking in a prohibited zone setside a hospital and Magistrate William J. Stockdale decided out of that were good ones.

Noble explained to the court making his wife to the hospital. Soon after her arrival, he said, twins were born.

WINDSOR GETS HIS BIRTH STATE AS LINEN

London, Feb. 3 (AP)—The linen and silver plate which graced the Fort Belvedere table of King Edward VIII before his abdication, were exported today to stay for shipment to his Versailles residence.

The Daily Mail said the Duke of Windsor had telephoned directions that the linen and plate to be shipped from Windsor Castle, where it has been stored for a years.

NEW STYLES SHOW SKIRTS AS SHORTER

Paris, Feb. 3 (CP)— Longer waists and shorter skirts are the chief characteristics of newly-arrived stylists and buyers view. The last selections in forecast Paris houses.

EUCHRE TONIGHT — AAJMAA Club, 294 Front. Friday afternoon euchre for ladies. Admission 25 cents. 2nt-4t-tf.

Showdown on Relationship On German Army and Nazis

Army Officers' Corps Makes Insistent Demand

PAGANISM OPPOSED

Berlin, Feb. 3.—(AP)—An insistent demand by the Army Officers' Corps for a definite showdown on the whole question of relationship between Germany's armed forces and the Nazi party loomed today as a result of the fall from grace of Marshal Werner Von Blomberg and his attendant resignation as War Minister, a highly reliable informants said, led to the demand.

General Werner von Fritsch, Commander-in-chief of the Reichswehr, is said to have insisted, for one thing, that neo-pagan philosophers are having a deleterious effect upon the morale of the army.

It was Von Fritsch who acted as army spokesman in suggesting von Blomberg's resignation. The Army of Officers' Corps opposed his marriage to 26-year-old Erika Gruhn, a carpenter's daughter, as socially impossible.

Von Fritsch is reported to have conferred for half an hour yesterday generals behind him in insisting that Christianity should once continue to be its guiding principle.

General Hermann Goering, Air Minister and head of the Nazi regime is expected to succeed von Blomberg.

One of the main arguments in favor of the Goering-Hitler bid, the Nazi, it was said, was the fact that as head of the four-year plan he already had Germany's economic life under his thumb and by placing him at the head of the army his position would be strengthened in Rank. The country secure against all international complications.

City and District News

TO RE-ORGANIZE RATEPAYERS' ASSOC.

Immediate re-organization of the defunct Belleville Ratepayers' Association will be attempted, it was announced from the office of Mayor Jamieson Bone this morning.

First meeting of the association which has been inactive for some years past, will be held next week, it is expected, at which a new slate of officers will be named.

"The revival of the Ratepayers or Property Owners' Association is just another effort on the part of myself to carry out the 'do-something' policy I enunciated just prior to my election to office," Mayor Bone stated.

ICE DEALERS FINISH THE SEASON'S CUT BY THIS WEEK-END

With thousands of tons now stored in ice houses, commercial ice dealers of the city who have been engaged on the annual task of cutting for some weeks past on the Bay of Quinte are this week finishing up the local end of the winter's work. Just one company has been engaged during the laughing groups as they continued their enjoyment in the flaming light of the bonfire.

TWO-WHEELED CART REPORTED STOLEN

Robert Eaton, 99 Camilton Road, whose sole employment can gathering waste paper and rags by means of a two-wheeled cart, is no longer in possession of his means of livelihood. It seems some person had designs on Mr. Eaton's two-wheeled vehicle and stole it yesterday.

Mr. Eaton was making his customary rounds behind the garages on the west side of Front street and had parked his small wheeled cart a chain store in Belleville while he went inside to acquire regarding the paper and rags he had to be collected. Upon his return the cart had disappeared. The police were notified.

The cart was a sturdy vehicle, made of two heavy wheels and a steel axle, upon which a platform had been built. Atop the platform was a box in which the waste paper was collected. Police later ascertained that the cart was seen on East Dundas street and a further investigation was ordered.

Police Blotter

George Walker, veteran transient who was recently released from jail after serving a short term on a vagrancy count and ordered to leave the city, was arrested at 2.30 this morning on a charge of intoxication. He was lodged in the city cells and will be arraigned in police court this afternoon.

No other arrests were necessary, leaving the cell block available for addition. Six transients were sought sleeping quarters last night. Despite the extremely wet and slippery condition of the city streets and adjacent highways, no major motor accidents of any importance were reported up until noon today, although vehicular traffic found traction bad and progress difficult.

REBEKAHS HOLD INSTRUCTION HERE

Members of Six Lodges of District Attend Instruction Exercises

The Rebekah Lodges of District No. 28 which comprises Quinte Rebekah Lodge No. 132 Belleville, Oakdale Rebekah Lodge No. 134 Madoc, Cremona Rebekah Lodge No. 139 Thomasburg, Laurel Rebekah Lodge No. 211 Stirling, Glenford Rebekah Lodge No. 230 Frankford, Tweed Rebekah Lodge No. 236 Tweed, were requested by the District Deputy President, Sister Blanche Countryman of Tweed to attend a school of instruction in the I.O.O.F. Hall in this city on the afternoon and evening of February 1st.

The instructional exercises were presided over by Sister Bertha Sutton of Preston who is the Vice-President of the Rebekah Assembly of Ontario.

Sister Sutton is a very energetic officer and has stimulated much enthusiasm among the lodges of the district.

The sessions were interesting and instructive and the lodges are looking forward to renewed activity. After the close of the afternoon session the members were invited to the banquet hall where a splendid luncheon had been arranged under the supervision of Sister J. Neal.

The evening session opened at 8 p.m. with the Noble Grand Sister Ethel Saunders Rebekah in the chair.

At the close of the lodge business Quinteana Rebekah Lodge No. 132 Degree Staff exemplified the Rebekah degree before a very large and appreciative audience. The officers discharged their duties exceptionally well and many complimentary remarks were made by distinguished guests who attended from neighboring and district points.

A very pleasing ceremony was arranged by Tweed Rebekah Lodge No. 236 in which every member present had her obligation to the order which has meant so much to those in sickness and distress.

Specials were now in order and these taking part were: Sister Bertha Sutton, Assembly Vice-President; Sister Blanche Countryman, D.D.P. District No. 28; Sister Milligan, P.D.D.P., Tweed, and following Noble Grands, Sister Bailey, Stirling, Sister Windover, Glenford; Sister Geeh, Thomasburg, Sister Graham, Tweed, Sister Vandercook, Belleville.

Presentations were made to the Vice-President of the Rebekah Assembly of Ontario, Sister Bertha Sutton, of Preston, and to Sister Blanche Countryman of Tweed, District Deputy President of District No. 28. The address was read by Sister Gladys Bunnett, Past Noble Grand, and Sister Collett, Past Noble Grand, presented the gifts.

Appreciative remarks made gracious replies, thanking the members for their gifts and thoughtfulness.

After singing "Auld Lang Syne Till We Meet Again" the gathering dispersed in the early hours, all expressing the opinion that much pleasure and profit had been received by all.

CONSERVATIVES TO CONVENE

Ottawa, Feb. 3.—(CP)—A meeting of the executive members of the government and Senators together with representatives of the party executives from each of the provinces has been decided upon, it was learned yesterday. Purpose of the two day meeting to be held in Ottawa is Feb. 15-16.

The question of a national convention and other plans for the reorganization and rebuilding the party will be considered at this meeting.

'FROZEN' FISH REVIVE IN PAIL OF WATER

Harold Rixson, part time fisherman of South George street, this city, is convinced that Bay of Quinte fish have nothing if not vitality.

Angling through the ice just east of the city this week, the latter man managed to catch a mess of perch sufficient for a good meal. Starting out early in the morning, he fished until noon, returned home and placed his well frozen catch in a pail of cold water to thaw.

Just before supper he returned to tackle the job of cleaning. All but two of the dozen or more fish were found swimming contentedly in the pail, thawed out by the heat of the kitchen, he reports.

TRANSFERRED FROM OSHAWA TO PETERBORO

A native of Stirling and employee of the Canadian Bell Telephone Company for the past nineteen years, Bert Conley, Oshawa, has received notice that he is to go to Peterboro where he will act as chief cashier of the business office. J. E. Macdonald, chief clerk of the district office, Toronto, has been appointed to succeed Mr. Conley.

PARLEY POSTPONED

Last minute notification received by Mayor Jamieson Bone and mayors of other Ontario cities late yesterday afternoon announced the postponement of the provincial parley of mayors scheduled for Ottawa with the Hon. Norman Rogers, Minister of Labor for the Dominion today. Sudden illness of the minister was stated as the reason for the postponement.

YOUNG PEOPLE ENJOY SKATING ON RIVER BY LIGHT OF BONFIRE

Youth will find a way, even to manufacture fun in order to pursue its natural fondness for night skating. The flickering light of a large bonfire built on the river bank a few yards north of the footbridge, a group of local boys and girls disported themselves on skates to the accompaniment of harmonica music played by a group of musical youngsters on Tuesday night.

A few yards away, on a hastily improvised hockey rink, another band of hockey-minded people swapped body checks and sticks in an impromptu hockey match.

Passersby on the footbridge paused to watch with amused concern the activities of the laughing groups as they continued their enjoyment in the flaming light of the bonfire.

Obituary

FREDERICK BARTLETT

The funeral of Frederick Bartlett, aged 13 years, who died on Tuesday, Feb. 1, took place from the residence of his parents, 91 North Front street, Wednesday afternoon. The service in the home and at the graveside in Belleville Cemetery was conducted by Rev. R. G. O. Wright, rector of Christ Church.

CHARLES R. HOLDEN

Charles R. Holden, son of the Rev. and Mrs. Stanley Holden, White Fox, Sask., died at Ottawa Hospital on Monday, Jan. 31, following an illness of two weeks' duration. He was in his eighteenth year and since last summer he had been a student at Annesley College, Ottawa.

The body will rest at the Marsh Funeral Home, Belleville, until 1.30 o'clock Friday, Feb. 4, thence to the Belleville Cemetery. The funeral will take place on arrival here of Rev. Clarence Smith, Ottawa.

Besides his parents, who are formerly of West Hinchinbrook, he leaves two sisters, Vera and Viola and one brother Harold all of White Fox, Sask.

Friends of the family in the district will regret to learn of their bereavement.

MRS. LORNE F. GREEN

Mrs. Lorne F. Green, late residence 15 Murray street, passed away early this morning, February 3rd, at 3, at the Belleville General Hospital after an illness of several months' duration. To many friends the announcement of her death came as a shock. Many kindly feelings of regret are entertained by all who knew her. Mrs. Green was born in Canada as a civil engineer and later decided to study for the Episcopal priesthood.

After his graduation from Trinity College, Toronto, he served as deacon at Belleville, Ont., and was ordained to the priesthood on Trinity Sunday, 1890, by Bishop Lewis. Later five years as a curate at Belleville he went to Cowley Fog, and entered the novitiate of the Society of St. John the Evangelist. He professed in 1898 and served at the S. S. J. E. South African mission for three years before coming to Boston.

He was appointed superior of the Society's mission in 1915 and after the American House was made autonomous in 1921 he was elected for another term, which expired in 1924. In 1919 he founded the Order of St. Anne, which now has eight houses in this country and China.

The body was brought from Arlington to the Church of St. John the Evangelist, Bowdoin street, Boston, Sunday afternoon, and the office of the dead was said by the community at 7.30, which was kept through the night and the burial office was said and a high mass of requiem sung at 11 a.m. Monday. Burial was private.

FORMER CURATE OF ST. THOMAS' DIES AT AGE 73

Rev. Frederick C. Powell Was Founder of Order of St. Anne

Older residents of Belleville and especially those who were parishioners of St. Thomas' Church during the time the Rev. Canon Burke was Rector, will be interested to know the following account of the life and death of the Rev. F. C. Powell, who served as curate at St. Thomas' Church here for some years. Old friends in Belleville will regret to learn of his death which occurred about the middle of January.

Rev. Frederick Cecil Powell, B. S. J. E. '79, founder and Superior of St. Anne and former superior of the American Province, Society of St. John the Evangelist, died at the Convent of St. Anne, Arlington Heights. His death came suddenly, when he was thought to be recovering from an illness of more than a month.

Son of Rev. Richard and Mary Ann Powell, Fr. Powell was born at Drove End, Lincolnshire, Eng., Jan. 31, 1865. He came to Canada as a civil engineer and later decided to study for the Episcopal priesthood.

Now on the Belle screen the Farr-Braddock fight pictures.

When Alexandria, Egypt, was the centre of learning of the ancient world, as many as 14,000 students were enrolled in its one time.

Lambs produced and sold out of season are known to trade rivals as hothouse lambs and usually bring high prices.

Splendid Reports Received at St. Paul's Church Vestry Meeting

Marmora.—The annual vestry meeting of St. Paul's Church, held in the Parish Hall on Tuesday evening was featured with glowing reports from all branches of the church's work and the re-election of all officers. Rural Dean A. E. Caldwell who presided, opened the meeting with prayer following which R. J. Scott, people's warden, was appointed vestry clerk. After minutes of last year's vestry meeting had been confirmed, the rector called attention to the financial statements of the parish which showed the raising of $900 dollars during the year and a substantial lowering of liabilities. Next came the report of St. Paul's Ladies' Guild by Mrs. S. C. Boyd, secretary-treasurer. Over 1100 dollars was raised by this organization with about 978 dollars disbursed to the Parish Fund. The report by the missions treasurer, W. J. Cottrell, was also encouraging, the amount received and expended for missionary objects being approximately 119 dollars. The rector then gave the financial statement of the Layman's Association. The Parish Fund was embraced to the extent of $88.50 as a result of the year's efforts. A successful year for the A.Y.P.A. was also reported by the rector parochial funds benefiting to the extent of 185 dollars as a result of the A.Y.P.A. endeavours. The Sunday School report showed that the Sunday School had been again self-supporting with its financial obligations being met and 34 dollars being sent to missions. The last report to be given by the rector was that of the year's ministrations to the parish which were as follows: Morning services, 52; average attendance, 24. Evening services, 43; average attendance, 22. Early celebrations, 4. Mid-day celebrations, 14. Easter Communicants, 80; Mid-week services, 10; average attendance 42. Baptisms, 21. Number Confirmed, 12. Marriages, 4. Burials, 9.

The rector thanked the members of the congregation for their loyal support during the past year. The rector reappointed H. R. Pearce as his warden and the vote of the vestry declaring all officers re-elected embraces the re-election of R. J. Scott as people's warden. Lay delegates to Synod are: H. R. Pearce, 3 years; G. H. Blackwell, 2 years; W. J. Cottrell, 1 year.

Parochial Council—The Rector, Wardens, Lay Delegates, Messrs. N. E. Bonter, S. B. Wright, H. B. Smith and W. R. Reynolds, and Mesdames S. S. Wright, A. R. Caldwell, F. Hewitt, Percy Hall, R. Smith and A. H. Crawford.

Votes of thanks were accorded the Rector and Mrs. A. E. Caldwell, the Wardens, the Ladies' Guild, Layman's Association, Mesdames H. Rennie and L. R. Rundle, organists, and the Mission Treasurer for their efforts during the past successful year, after which the meeting adjourned.

A very enjoyable social gathering of the Sacred Heart Church Choir and their friends was held at the home of Miss K. Doyle on Monday evening. The evening was spent in dancing, singing and contests which everyone enjoyed immensely.

During the evening's program, Miss M. McCarthy, pianist, read a poem composed by herself, and Miss Catherine O. T. Martin during his stay in Marmora. Father Martin expressed his thanks.

A delicious lunch was served after which another sing song took place, ending with "For He's a Jolly Good Fellow".

Misses Helen Gale and Elnor Green left on Tuesday to enter the Hotel Dieu Hospital, Kingston, to train for nurses.

Marmora High School hockey team met Stirling for the second time this year in Madoc arena, Stirling played better hockey than usual and after ten minutes' overtime the game ended five all.

Niles Corners

Niles' Corners—Miss Florence Miller, 3rd concession called several homes here on Thursday afternoon.

Congratulations to Mr. and Mrs. Orville Thompson on the arrival of a fine baby girl on Thursday morning.

H. S. Channell and sons are busy ice harvesting at Picton these days.

Mr. and Mrs. Clifton Ellis spent a couple of days last week in Toronto.

Mr. and Mrs. Perry Smith of Bloomfield spent the week end at the home of her parents, Mr. and Mrs. H. Dafoe.

A number from here were at Picton on Saturday.

Mr. and Mrs. A. N. Dafoe were guests of Mr. and Mrs. D. McPaul on Monday afternoon and evening.

Miss Lela McPaul was an overnight guest of Mrs. W. Wright on Saturday last.

Mr. and Mrs. D. McPaul visited relatives at Wooler and Cherry Valley on Saturday last.

Minto

Minto—Miss Annie Cooke spent last week with Ethel Hagerman.

Miss Ina Bristol entertained a number of friends to a party on Tuesday evening and all reported a good time.

Mr. and Mrs. Burton Saleman, Elwood and Bobby of Springbrook spent Sunday with Mr. and Mrs. George Saleman.

Rev. R. H. Lackey spent the dinner hour on Sunday with Mr. and Mrs. Ira Bristol.

Mr. and Mrs. Roy Dunkley, Marble, Frank and Don spent the week end in Oshawa and while there attended the wedding of their niece.

A number of people from here attended the funeral services of the L. O. L. in Springbrook on Friday night.

The Y.P.U. met in the church on Thursday evening. Lorne Saleman opened the meeting and "Onward Christian Soldiers" was sung, and the Lord's prayer in unison. Business was discussed and it was decided to hold their next meeting at the home of Mr. George McMaster in the form of a hat sale. In the absence of the Literary Convener Laura Wright, her assistant Ethel Hagerman took the meeting and all joined in singing a hymn. Mrs. Thomas Clemmitt then led in prayer. Annis Johnston then read the Scripture. Miss Marjorie Crawford then gave a reading after Mas Sarles sang a solo. Mr. Lackey took the topic on Robert Burns, the great poet, which was very interesting. Josephine Sine gave a reading entitled "Little Ben". A hymn was then sung and the meeting closed with the Y. P. Benediction.

Hillier 3rd

3rd Hillier—Miss M. Thompson returned to Toronto on Sunday after spending the past week with her parents Mr. and Mrs. R. S. Thompson.

A young daughter has arrived at the home of Mr. and Mrs. Orville Thompson, congratulations.

The mail man failed to appear on Saturday. The road on the lower end of the mail route, not being opened for traffic.

Mr. and Mrs. Chas. Benway and family spent Sunday afternoon at Wellington with Mr. and Mrs. A. W. McConnell.

Rev. N. J. Grant of Wellington held service at 2.30 Sunday afternoon.

Mrs. H. Collier fell on the ice breaking her arm at the wrist.

Mr. Delbert Fehrig spent the week end with his parents, Mr. and Mrs. Herbert Pettitig.

Miss Maude Bernard spent a couple of days with Miss Rosabelle Bernard of Picton.

Mr. Will Nethery spent Monday afternoon with Mr. Chas. Benway.

Messrs Orville, Leonard and Ivan May and Miss Vivian May of Consecon, Mr. and Mrs. Albert Chamberlain of Pleasant Bay spent Saturday evening with Mr. and Mrs. Frank Benway.

Mrs. Catherine Spencer is on the sick list, but is much improved in health at the time of writing.

Sidney Crossing

Sidney Crossing—The many friends of Mr. A. Page will be sorry to learn he is still confined to the house through illness and wish for him a speedy recovery.

Mr. Fred Meyer, Johnstown, secretary-treasurer of Sidney S. H. Meyers and Bruce Ridge attended the sale of horses in Picton on Saturday last.

The Y.P.U. of Albert United Church held their monthly meeting at the home of Mr. W. McMullen on Wednesday of last week with a large attendance.

Mr. and Mrs. Perry Hamilton were Sunday evening callers at Mr. Bruce Rogers.

The condition of roads and weather has made the church service very irregular in attendance and day school as well.

Shannonville

Shannonville—After two weeks of isolation with scarlet fever among the boys of the village finally manages to get a local rink by good shape the first part of this week. Although two games were played last week the ice reserfacing was not very good.

The following deserve praise for the part which they played in the building of the rink: Bruce Reid, Gerald Sager, Bert Liddle, Clare Smith, Clarence Hill, Ken Joby, Dr. H. R. Eckardt, R. N. Vrban, Robert Christmas, Percy Hill, W. S. Hall, Howard Houston, Garnet Little, Walter Thompson, Malcolm Little, Jack Fitzgerald, Robert Little.

The executive which was elected at a public meeting in the interests of the rink has not held its first meeting although it is expected to meet this week to outline the rules and regulations for the rink and also to appoint a rink manager. It was intimated at the last meeting that a slight charge would be made for those skating in order to pay the slight operating costs.

Johnstown

Johnstown—Mr. and Mrs. Earl Sickle called on Mr. and Mrs. Fred Meyers on Friday evening.

Mrs. Clayton Curtis is spending a few days with Mrs. Walter Jones, Front of Hallowell.

A surprise party was held on Tuesday evening, Jan. 25th, in honor of Mrs. and Mrs. Lorne McEwen, who have recently moved back into this neighborhood. An address was read and the couple were presented with a chest of silverware and a lovely carving set. Dancing then continued into the wee hours of the morning.

Mr. Ed Peck of Mount Zion is visiting with Mr. and Mrs. Fred Meyers. Ed's many friends are very pleased to learn that he is progressing nicely after having the misfortune to break his ankle.

Upper Second

Mrs. J. B. Sickle has returned home after visiting at the home of her son, Arnold, Hallowell.

Mr. and Mrs. Gerald Harrington, Lorne and Wayne, spent Monday evening with her parents, Mr. and Mrs. Gordon Weaver.

Mr. and Mrs. Morris Sickle spent Monday with her father, Mr. Nelson Hoag of Prinkleton.

Miss Margaret St. Hilaire spent the week-end at her home.

Miss Doris Sickle has accepted a position at Firhurst Manor, Trenton.

Victoria

Victoria—Church service was very well attended on Sunday afternoon. After Sunday School organization took place with Rev. Boomhour in charge.

Superintendent—Clarence R. Brickman.

Asst. Supts.—Geo. Wannamaker, N. Vancilef and Melvin Pulver.

Asst. Secty.—Clifford Calnan, Harmon Montgomery.

Treasurer—Geo. Wannamaker.

Teachers—

Bible Class—Mrs. Melvin Pulver.

Asst.—Mrs. L. Brickman, Mrs. Sidney Fox.

Young Men's Class—Melvin Pulver.

Assists—Clarence Vancilef, Carlton Montgomery, Harvey Brown.

Girls' Class—Audra Brickman.

Assists—Kathleen Montgomery, Ethel Vancilef.

Junior Class—Mrs. Clarence Vancilef.

Asst.—Mrs. Harry Cunningham.

Beginners' Class—Mrs. Horace Calnan.

Asst.—Florence Hubbs.

Missionary Supt.—Mrs. Melvin Pulver.

Missionary Treas.—Helen Hubbs.

Temperance—Mrs. Geo. Wannamaker, Mrs. Smith Brown, Melvin Pulver, Clarence Vancilef.

Choir Leader—Ethel Vancilef.

Home Dept.—Mrs. Smith Brown, Mrs. Percy Cathcrall, Mrs. Lorne Wense.

Pianist—Mrs. Clarence Vancilef.

Assists—Audra Brickman.

Personals

Mr. and Mrs. Harry Cunningham spent Sunday evening with her parents, Mr. and Mrs. M. B. Wense.

Mr. and Mrs. Clifford Barber and Marilyn spent Sunday with her parents, Mr. and Mrs. W. H. Montgomery.

Mr. and Mrs. Lorne Brickman spent Friday with Mrs. O. Bonter, Wellington. Mrs. Brickman remained for a few days' visit owing to the illness of Mrs. Bonter.

Master Carl Brickman is visiting his grandparents, Mr. and Mrs. Everett Brickman, for a few days.

Mr. and Mrs. Ralph Redner and girls spent Sunday with Mr. and Mrs. J. Hatfield.

Mr. and Mrs. Ray Fox and family entertained on Tuesday evening Mr. and Mrs. Allan Weese and Bobby, Mr. and Mrs. Earl Onderdonk and Mr. and Mrs. Ralph Redner and girls.

Mr. and Mrs. Kenneth Green and Wilbert spent the last hour Sunday evening with Mr. and Mrs. Gerald Brooks.

Mr. and Mrs. Ray Fox and Margaret, Mrs. Alice Bush and Mrs. Ethel Wilbert and Wilbert spent Tuesday at Mr. Earl Rathbun's.

The supper the reorganization meeting took place to elect the officers for 1938. Rev. Boomhour was in charge.

President—Mrs. Smith Brown.

1st Vice-Pres.—Mrs. Will Pope.

Secretary—Mrs. Melvin Pulver.

Corres. Secty.—Audra Brickman.

Treasurer—Mrs. Horace Calnan.

Pianist—Mrs. Clarence Vancilef.

THE ONTARIO INTELLIGENCER

THE DAILY ONTARIO INTELLIGENCER is published every afternoon (Sunday and holidays excepted) at The Ontario Intelligencer Building.

SOIL FERTILITY ESSENTIAL

Agricultural leaders of Canada have become increasingly worried in recent years over soil depletion and while conditions in Ontario are not nearly as grave as in some parts of the Canadian West, it is common knowledge that many Ontario farms have been mined and mined until there is but little fertility remaining. The Ontario Department of Agriculture is fully alive to the danger with the result that it through the O.A.C. is undertaking an enlarged program of research and demonstration work for 1938 in soil fertility.

In discussing the situation, Dr. G. L. Christie, President of the O.A.C. Guelph, points out that many Ontario soils have been farmed more than 100 years. Some have been wisely handled and have become increasingly productive. But on the other hand, many have been thoroughly mined; soils have become poor, hard to work, and give low yielding crops.

"On other farms, while good practice has been followed, fertility has become unbalanced" says Dr. Christie. "One or more elements have been reduced in available quantities. It may be phosphate, potash or nitrogen. In many cases it has been found to be boron, manganese or magnesium."

In Durham and Northumberland, Ottawa and O.A.C. were conducting soil surveys to determine if possible balance of fertility and absence of important elements, said Dr. Christie. The Horticultural Division, Ottawa, under M. B. Davis, was establishing an orchard where definite experiments could be carried out over a number of years. There was a centre of information for apple growers, with special attention paid to orchard management, fertilizing, pruning and handling of fruit.

As part of the soil program, a soil testing laboratory was established at the O. A. C. Last year over 3500 samples of soil from all over the province were tested and recommendations made to the farmers. A serious situation in Waterloo county is being gradually corrected. Cereal crops were attacked by nematodes, small eel worms which form clusters on the roots and seriously interfere with growth and development of the plants. The county council leased a badly infected field for ten years where the O.A.C. is carrying out research work. Last year there were definite indications that balancing of fertility will correct the trouble and more work is planned for this year.

Pasture studies carried out by Ottawa and O.A.C. Chemistry Dept. have brought to light many new problems in Western and Eastern Ontario. Following up these surveys, the fields are fertilized and cattle and sheep are used to check the results. These animals are being fed balanced rations this winter with special attention to mineral needs.

As part of this work in the field, a special experiment is being carried out in Oxford County with a group of 35 farmers. The Agricultural Representative, Vegg Green, in co-operation with the Ontario Live Stock Branch and O.A.C. has supplied minerals for the cattle and has made an accurate test of all milk produced, and supplied to cheese factories. Results indicate larger returns of milk, and the concentration of the animals has been improved generally.

Large areas of Ontario soils sometimes described as "fresh water" areas, are deficient in iodine. Horse breeders are finding that mares in foal must receive small quantities of iodine if joint ill and other diseases are to be avoided.

HIGHWAY EXPECTATIONS

Is one justified in expecting main highways so lighted that no driver will run the danger of crashing by running off the travelled road because he does not know the way?

Will dual highways of two lanes in each direction with pavements separated by wide boulevards become more and more general, as seen in the section of No. 2 highway some distance east of Belleville?

Will that monstrosity, the ditch, be eliminated?

Will there be underpasses at points where school children are obliged to cross busy roadways and paths for pedestrians, who are the worst sufferers from motor traffic?

The answer to the question by engineers is "yes".

Until and after the engineers have accomplished more and more protection, the plain duty of driving rests upon the driver. This view was upheld by H. A. Lumsden, who declared that the fundamental trouble was incompetence of drivers. He also said it was absurd that many cars were allowed on the roads.

If every driver were to drive as he ought to drive with or without these proposed engineering accomplishments, there would be little danger.

A BIT OF LIVING

Don't be afraid to give a passing smile!
Although his face is dour all the while,
It may be from some hurt his heart still bleeds,
Perhaps a cheering smile is what he needs.

Don't be afraid to help some soul along,
Even if he has plainly gone far wrong;
A kindly word may open up the way
To keep him on life's path another day.

No one was ever helped to Heaven by blame;
No one was ever cleansed by crying "Shame"
Loving the sinner is the only thing
That shines a tarnished soul to glistening.

Why need YOU judge? And who gave YOU that role?
Who but the Maker reads the human soul?
Sinner or saint, I think 'tach hides his face,
Confronted with a vision of God's grace.

Amid the cure-alls af a frightened earth,
Where people search for new cures brought to birth,
The old, old light shines on our modern day—
The way of Christ is still the Only Way.

—E. Anne Ryan.

LUNCHES FOR SCHOOL CHILDREN IN ITALY have been made compulsory by the Big Boss, Benito Mussolini. Rich and poor pupils are to be served the same kind of lunches but the rich parents will be obliged to pay for the lunches of their own children and the poor children as well. In addition each child will be obliged to say this grace before eating: "O Duce, I thank you for what you give me to make me grow healthy and strong! O Lord God, protect El Duce so that he may be long preserved to Fascist Italy."

UNITED STATES HAS THE NEW DEAL UNDER PRESIDENT ROOSEVELT but it also has the old graft in new guises. The many projects for giving employment have opened a virgin field for those who would trifle with honesty. Recently a chief voucher clerk in the National Park Service, salary $2,300 a year, was convicted of fraud and sentenced to from six to twelve years imprisonment and a fine of $36,000. This chap created imaginary work camps for the government, filled them with imaginary workmen and foremen and O.K.'d the payrolls for government checks to be issued which he cashed himself. In three and a half years he cashed 1,116 checks totalling $84,000. Once in a burst of fine generosity he gave two of his imaginary foremen salary raises.

x x x

UNITED STATES GOVERNMENT INVESTIGATION of employees on New Deal employment projects with 700 investigators, cost one million dollars, but the chief investigator said that the Government was saved $70,000,000. Dismissals for cause numbered eight.

x x x

To avoid his little son being laughed at if he expressed any belief in Santa Claus, the father decided to tell him there was no such person.

"But there is a Santa Claus," said the boy. "I saw him at a big shop and he spoke to me."

"Spoke to you!" exclaimed the father. "What did he say?"

"Put that blinkin' engine down!"

x x x

A wireless set had been newly installed in a house which boasts an alert and intelligent four-year-old daughter. This young lady listened with great attention to an afternoon program before being sent oē to bed. She said her nightly prayer and afterwards added in a grave tone: "Tomorrow night at this time there will be another prayer."

x x x

EFFECTIVE

Mrs. Smith: Did that expensive treatment cure your husband's baldness?

Mrs. Jones: Yes, in fact, when the bill came in he was able to tear out handfuls of hair in his rage at the high fees.

x x x

LOST BALANCE

Jones (dismally): Yes, I had a balance in the bank not long ago, but since I have been engaged it has all gone.

Friend: Expensive game, eh? Never mind, love makes the world go round, you know?

Jones: Perhaps, but I never thought it would go round fast enough to make me lose my balance.

Nothing can be reckoned good or bad to us in this life, any further than it indisposes us for the enjoyment of another.—Atterbury.

OFF THE RECORD

By Ed Reed

"So sorry—but it was either you or that lovely tree."

ED REED

LOOKING BACKWARD

GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

20 YEARS AGO

Feb. 2nd, 1918.

Notice to coal consumers. In order to relieve the present situation, all applications for hard coal must be presented at the office of the Local Fuel Commissioner at the City Hall, which office has been established as a clearing station to aid in more equal distribution of coal until such time as the situation becomes more favorable. By order of the Local Fuel Commissioner.

At Oshawa last night an intermediate O. H. A. match took place between the speedy Belleville team and Oshawa. The Bradley Arena was filled with hockey enthusiasts who were privileged to witness a good game. The result was a victory for Oshawa, the score being 10 to 7. Both teams were in fine condition and the game was full of fun from start to finish. Belleville and Oshawa are now a tie for group honors. The following composed the teams: Belleville—Rubin, Green, Hagerman, Whalen, Symons, and Whalen. Oshawa—Childs, Roenig, Blanchard, Etherington, and Jacque. Referee, Vair.

30 YEARS AGO

Feb. 3rd, 1908.

The recent snow storm has had the effect of demoralizing business in the city and it will be some time before the situation is much improved, owing to the condition of the country roads which are in many places impassable. Up to noon today no stages had arrived here and in some cases it will be impossible for them to arrive until tomorrow. A number of the county councillors are snowbound here. The fall of snow, combined with the cold snap caused the water to rise in the river to an unusual height. This resulted in considerable inconvenience as the fire in some furnaces in buildings on Front street were extinguished. Early this morning yesterday there was eighteen inches of water in the cellar beneath the city hall.

A movement is on foot to reduce the number of tavern and liquor shop licenses in this city.

The bear saw his shadow yesterday, so you may settle down and be content to exist through six more weeks of winter.

Mrs. Charles Geen, of Thomasburg, is visiting her father, Mr. Henry Mouck, George Street.

40 YEARS AGO

Feb. 3rd, 1898.

The first Belleville party for the Klondike left the station today at noon and many citizens were on the platform to see them off and wish them luck. They were given a great send off when the train pulled out. There were fully 400 persons present. The party is composed of the following: J.D. Clarke, S. S. Moore, V. Wenzler, J. C. Keith and E. Sprague They will be joined at the coast by two experienced men They propose to form themselves into a company for the purpose of hauling, transportation and mining with Mr. J. D. Clarke as manager and will probably establish a trading post at some favorable location. As an indication of the confidence their fellow townspeople have in their success, they have already been offered all the capital they may require, in the event of their finding a profitable field for investment. Their intention is to take in food supplies for two years, so that they will be practically independent of the outside world in case they decide to remain that length of time. They also have complete medical supplies. They have a number of fine large dogs and sleds which they will use in transporting their supplies. The dogs are well trained. The members of the party are all robust men, and their many friends have no apprehension for them. Every citizen will wish them good luck and a safe return to their homes.

50 YEARS AGO

Feb. 3rd, 1888.

The I. O. O. F. orchestra will play at Colborne tomorrow night and at Napanee the following night.

The frozen pumps in the public wells have been thawed and many citizens depending upon the wells for their water supply are much relieved.

Major Crozier received today his medal and clasp for services in the North West. We sincerely hope it is the first of others throughout the Dominion, that the services of an officer with such a brilliant record as Major Crozier, will soon again be utilized. The country cannot afford to lose him.

H. Perkins, the renowned humorist, will lecture in the opera house here on the evening of the 16th. inst., under the auspices of the Mechanics' Institute.

Mr. Lennox, architect of Toronto, will be in the city shortly to survey John Street Presbyterian Church and prepare plans of the proposed improvements with an estimate of cost.

That Body of Yours

By James W. Barton, M.D.

DOES THE WEATHER AFFECT YOUR HEALTH?

A physician with an extensive hospital practice both in private and public ward patients stated that at one time he much disliked visiting his rheumatic patients during cool damp weather as practically all of them would be feeling "low". He later found that other patients besides those afflicted with rheumatism felt worse on the damp days.

It was Chesterfield who said that an attack of indigestion, a sleepless night and a rainy morning could make a coward of a man who might otherwise have been a hero.

What about weather? Does the weather have any effects on the body?

Dr. J. Kuhman in an article in the Journal of the American Medical Association taken from a Leipzig medical journal says, "Everyday experiences show that noticeable reactions of the human organism take place only in case of weather changes. The manner in which weather changes influence the body or body processes is extremely complicated. A part of the effect of weather changes on the body—drastic changes of the moisture in the air, temperature and rate at which the wind blows—can be explained by the sudden demand on the body processes that regulate the body's temperature. In individuals sensitive to weather changes, however, there are other body processes affected besides temperature. Sensitive persons may even feel changes in the weather in advance.

The weather changes seem to affect that part of the nervous system not under control of the will such as the beating of the heart ,breathing and digestion. Children and slender adults are often irritable and restless in cold and damp weather, but drowsy and sleepy during a warm spell.

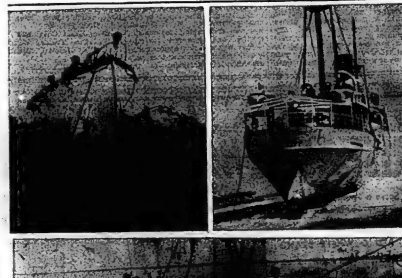
The weather in these sensitive individuals affects the blood pressure, the rate at which body-processes work and also affects or hanges the chemistry of the blood itself."

The knowledge then that weather changes affect the body processes in weather-sensitive individuals should make us more patient with them. It should also help these individuals to understand that as the weather changes affect the body processes, they must expect to rave some bad days.

The Field museum, Chicago, has a unique exhibit of birds no human being has ever seen alive, the birds being reconstructed from fossil remains.

The River Plate which separates Argentina from Uruguay is 2,300 miles long and is one of the world's widest-mouthed rivers, yet it is so shallow in parts that row boats can run aground.

Montreal Star Publisher



J. W. McConnell, (ABOVE), prominent Canadian financier, who succeeds Lord Atholstan as publisher of the Montreal Daily Star. Mr. McConnell has resigned directorates in 14 companies to devote all his time to the paper.

THE SPEAKERS OF CANADA'S PARLIAMENT

HON. W. K. FOSTER — HON. PIERRE F. CASGRAIN

Here are the Speakers of Canada's 18th parliament now holding its third session in Ottawa. Hon. W. K. Foster is Speaker in the Red Chamber; Hon. Pierre F. Casgrain is the Speaker of the Commons. These are the most recent portrait studies of the two parliamentary orators.

21 SAVED FROM FREIGHTER IN THRILLING SEA RESCUE

Twenty-one members of the crew of the stricken Newagus Company S. S. Newagus were saved from drowning by the S. S. Veragua, when the Newagus struck the Ourdown Cays Reef, off the Caribbean coast of Central America. The ship, regarded as a total loss is shown badly listing at upper RIGHT, shortly after she struck. One of the lifeboats which carried the rescued crew to the Veragua is shown pulling away from the doomed vessel in the bottom picture. In the teeth of a raging gale and with mountainous waves impeding their progress the survivors are shown at upper LEFT making their way from their own craft to the rescue ship.

SCREEN LUMINARIES TAKE UP NEEDLECRAFT

Between "takes" in the new film in which they play leading roles, Mary Astor (LEFT) and Joan Blondell make their needles fly with, of course, a little conversation in between. Miss Astor is engaged on a needle-point chair cover and Miss Blondell is knitting a pair of wool socks for her hubby, Dick Powell. Appropriately the name of their new vehicle is "There's Always a Woman."

ENGLAND'S INFANTRY DEMONSTRATES QUICK GUN HANDLING

During most recent manoeuvres of the British troops. Even the transportation of light guns, such army's first battalion, South Staffordshire regiment, as three-inch mortars can be transported on the as demonstration was given at Aylesbeft of infantry double quick, as shown in this picture. Three troops equipment and its practical and swift handling by the carry the entire gun and all its equipment.

They'll Do It Every Time :-: By Jimmy Hatlo

A study of what 25,000 families eat shows that not all families are equally well-nourished on similar food budgets; some choose foods much more wisely than others.

Select "Ontario Dairymaid" At Empire Cheese Exhibit

Will Be Held In November of This Year By Cheesemakers

EXTEND SCOPE

Belleville will be the site of the Empire's first and biggest cheese show and exhibition which will be held during the three days of November 26, 27, 28th. It was decided at a special meeting of the executive of the Central Ontario Cheesemakers' Association held here yesterday.

The exhibition, officially labelled "Empire Exhibition," will be open to cheesemakers of the British Empire, with special classes provided for cheesemakers, which will be in competition with the Canadian made product.

The Empire's first show, which follows the success of the 1937 Dominion-wide cheese exhibition held here last November will be held in conjunction with the 51st annual convention of the Central Ontario Cheesemakers' Association, sponsors of the exhibition at the city hall.

New Features Inaugurated

Many new features will be inaugurated in the 1938 exhibition, it was decided by the executive committee, chief of which will be the naming and selection of a typical "Ontario Dairymaid" who will be chosen from among the wives and daughters of cheese factory makers and patrons of the factories here representing the ideal "Ontario dairy maid." It is suggested, that a contest be held in each agricultural district of the province under the supervision of the agricultural representative, which will be in the form of elimination contests. Finalists of the various districts will then go to Belleville at the Empire exhibition and first prize winner will be chosen by vote of the assembled delegates.

Assess Cheesemakers

As a method of raising part of the funds with which to hold the exhibition it was decided by the Central Ontario Cheesemakers a list of five cents per cheese for each shipment of June cheese from the factory. Funds also secured will be used to pay membership in the Central Ontario Cheesemakers' Association and the balance used in the general fund. The tax is not a compulsory one.

Appointment of a full time secretary to look after all the clerical business of the Association will be decided at its next regular meeting of the executive at Belleville in March in the local office. Following considerable discussion of the matter yesterday afternoon it was such an appointment be made was generally reached.

In order to improve the quality of cheese in this central district, short courses in practical cheesemaking may be inaugurated, following a resolution passed by the executive asking that the Ontario Department of Agriculture lend aid and assist in the setting up and holding of these courses in some central location.

The meeting was presided over by W. C. Crossley. Others in attendance were Samuel Anderson, Melrose; J. J. Heffernan, Peterboro; Maurice Rose, Stirling; Grant Anderson, Campbellford, and others.

HEALS ECZEMA

Here is a surgeon's prescription now dispensed by chemists at trifling cost.

Not only does this great healing antiseptic oil promote rapid and healthy healing in open sores and wounds but boils and simple ulcers are relieved and cleanly healed.

The skin disease the itching of Eczema is instantly stopped. Pimples—skin eruption, dry up and scale off in a very few days. The same is true of Barber's Itch, Scabies, Rashes and other inflammatory skin disorders.

You can obtain Moone's Emerald Oil (full strength) in the original bottle at Doyle's Drug Store or any modern drug store.

Malone

Malone—Miss Annie Cousins of Oshawa is spending some time the guest of her sister, Mrs. Thomas McCann.

Miss Gertie Franklin spent the week-end with Mr. and Mrs. Weese.

Messrs. Dan McCrimmon, Clifford Delino and Harry Gawley spent Saturday afternoon in Belleville.

Mr. Mervyn Dafoe spent the week-end at his home in Frankford.

Mrs. Leslie Pack, Muriel and Ivy spent Thursday afternoon with Mrs. H. Wesse.

Mr. Hunter of Bannockburn is spending some time in Malone.

Mr. and Mrs. W. D. Nickle have returned home after spending some time with relatives in Eldorado, Madoc and Frankford.

A number of young people enjoyed skating on Saturday afternoon last.

Miss Leta Kelly of Marmora spent the week-end under the parental roof.

Mrs. Theresa McCann and her sister, Miss Cousins, spent Thursday afternoon with Mrs. H. Wesse.

Mr. and Mrs. H. Wesse spent the tea hour with Mr. and Mrs. F. McCann one evening last week.

Mr. Harry Gawley spent Sunday tea hour and evening with Mr. and Mrs. C. Wesse.

Mr. and Mrs. Walter Gawley spent Sunday last in Campbellford.

Mr. and Mrs. Thos. McCann and Miss A. Cousins spent Friday at the home of Mr. Norman's brother, Mr. Charlie McCann.

Ameliasburg

Ameliasburg—The Supper Club held their meeting at the Manse, Consecon on Monday afternoon with a good attendance.

The directors of the Agricultural Society held their annual meeting at the Masonic Hall on Wednesday afternoon, the 19th inst., and decided to hold the annual exhibition on Saturday, 24th of September.

Mr. and Mrs. Arthur Corfield were guests of Mr. and Mrs. Eldon Adams to dinner on Monday evening.

Mr. and Mrs. P. C. Pile and Mrs. Reid Lent motored to Kingston on Friday last on a visit to Miss Letha Cunningham at Kingston Hospital.

Mr. David Whitney had the misfortune to lose a valuable horse on Saturday last. The horse developed tetanus and had to be shot.

The local ladies' Mr. Arthur Corfield has purchased a truck in order to facilitate the handling of feed and flour as his business is steadily increasing.

Part of the historic Roblin Mill caved in on Monday morning. This part was used for several years as the post office and waiting room for those who had business at the mill.

Mr. and Mrs. S. A. Vancott and Mr. and Mrs. Fraser Lent were the guests of Mr. Albert Lent and daughter Alelia to dinner on Monday evening.

The social evening held at the home of Mr. and Mrs. Arthur Corfield on Wednesday evening under the auspices of the Ladies' Aid of St. Alban's Church was not attended as well as usual owing to the almost impassable condition of the roads. Mr. Shelly Williams and Mrs. (Dr.) V. L. Tait were the prizes in progressive euchre.

Mr. W. J. Reddick and Wm. Biscoe are busy filling their ice houses this week and report the ice of excellent quality and about eighteen inches in thickness.

Mr. and Mrs. Fred Russell entertained the following company to dinner on Friday evening: Mr. and Mrs. North Gibson and Merle, Mr. and Mrs. Elgin Bellyou and daughter Margaret, Mr. and Mrs. P. C. Pile, Miss Luella Pile and Albert "Bo" Pile. After enjoying a delectable dinner of the delicacies of the season, the guests were entertained with progressive euchre. Mrs. Norris Gibson won the lady's prize, while Mr. Elgin Bellyou secured the gentleman's trophy. The guests have some thrilling tales to relate about piloting the auto through the snowdrift amid a raging blizzard in the wee morning hours.

Mr. and Mrs. Arnold Maslin were the guests of Mr. and Mrs. S. A. Vancott on Sunday.

The Supper Club held a social evening at the home of Mr. and Mrs. E. T. Casson on Monday evening and all report a jolly good time.

Wednesday, March 2nd, is Ash Wednesday, the first day of the season of Lent, which marks the close of all social functions in aid of the Anglican Church.

The first monthly meeting in the new year of the W.M.S. was held at the home of Mrs. S. A. Vancott on Thursday afternoon, January 20th, with a good attendance. Mrs. Vancott opened the meeting, reading from the Missionary Monthly the theme, "The Church in Action." Hymn 571, "Standing at the Portals" was sung, followed by the Watchword in unison and prayer by the president. Devotional leaflet and Scripture by Mrs. (Rev.) Smith and Group No. 2 and Mrs. Aletha Parr, Temperance reading by Mrs. R. C. Soble "Christmas and Drink." After singing hymn 363, Rev. Mrs. Smith installed the officers as follows:

President—Mrs. S. A. Vancott.

1st Vice-Pres.—Mrs. Gertie Darling.

2nd Vice-Pres.—Mrs. (Rev.) Smith.

Sec'y.—Mrs. Cassie Spencer.

Corres. Sec'y.—Mrs. Maude Lont.

Supplies—Mrs. Aletha Pot.

Treasurer—Mrs. T. A. Sills.

Temperance—Mrs. R. C. Soble.

Stranger Reception—Mrs. R. Cody.

Organists—Mrs. Gertie Darling and Mrs. (T. A. Sills.

Delegate to the Presbytery at Napanee in February—Mrs. (Rev.) Smith; Mrs. Gertie Darling.

The president, Mrs. S. A. Vancott was instructed to confer with the president of the Ladies' Guild, Mrs. F. C. Pile, to arrange a week's day of prayer.

Rev. Mrs. Smith rendered a solo, after which the president closed the meeting with the Mizpah benediction.

The hostess served an enjoyable social time. Mrs. Martin Lont and Mrs. C. Spencer.

The annual meeting of Mine Marie Lont will regret to learn that she is confined to her bed through illness under the care of Dr. Flelding, but hope to see her around shortly.

The Board of Health met on Tuesday afternoon with the following personnel:

Chairman—Fred Russell.

Secretary—Jas. Barber.

M. O. H.—Dr. O. Vanluven.

Twp. Clerk—F. C. Pile.

Sanitary Inspector — Francis Wood.

Bonarlaw

Bonarlaw.—The regular meeting of the Springbrook Women's Institute was held at the home of Mrs. Grenville Mekiejohn with a good attendance. The president, Mrs. Geo. Bailey, opened the meeting in the usual manner. The minutes were read by the secretary, Mrs. W. J. Barlow. The roll call "Who's Who and Why in Canada" was well responded to. The convener of the committee on Canadianization, Mrs. Walter Rose, took charge of the program. The current events were given by a number of members. The motto, "No one is useless in this world who lightens the burdens of it for another," was well taken by Mrs. Morley Barlow. Mrs. Rose read a very interesting article on the origin and growth of the Red Cross and after which all sang, "We'll Never Let the Old Flag Fall." Mrs. Geo. Williams also sang an appropriate solo, "The Rose, the Shamrock and the Thistle." Mrs. Gr. Mekiejohn gave a humorous reading, "The Farmer on the Depression." Mrs. Morley Barlow read an article on civics, which was most interesting and helpful. Mrs. Rose read a short introduced into Canada until quite a late as 1874. Mrs. J. F. Baker and Mrs. Rose gave reports of the Women's Institute and Federated Women, some good community singing Mrs. Walter Heath led in the singing after which the meeting was closed by the president. A dainty lunch was then served by the committee in charge and half hour was spent.

On Thursday, 27th, Mr. and Mrs. Jesse Barlow celebrated the fifty-second anniversary of their wedding at their home here. Forty-two sons and four daughters with their families were present to do honour to the occasion. Mr. and Mrs. Barlow are both enjoying excellent health.

Mr. John Davidson loaded a carload of cattle at the depot on Thursday of this week.

Eels are born in the Sargasso sea.

An electric cleaner to suck dust and lint off typewriters and adding machines has been devised.

COMBAT RHEUMATISM

Rheumatism is often caused by uric acid in the blood. The blood impurity should be corrected by the kidneys. If kidneys fail, and retain uric acid unused, it irritates the muscles and joints causing excruciating pains. This is why proper attention by keeping your kidneys in good condition. Take Doan's Kidney Pills—Doan's Pills—that is contain the favorite kidney remedy. 106

Lipson's Furniture House

THE HOUSE OF QUALITY

Wooler

Wooler — Ellen Jane Herrington, beloved wife of Mr. Harry Orvill, died at her home on January 23, 1938, after five weeks' illness in her 85th year. On December 30th Mr. and Mrs. Orvill celebrated their 63rd wedding anniversary. The deceased was a kind friend to a large circle, a wonderful woman with a splendid personality, which attracted young and old people. Her home was shared with many throughout the years, and it may be truly said with the poet:

"We loved her, yes we loved her, But Jesus loved her more, And He has sweetly called her To yonder shining shore."

"The pearly gates were open A gentle voice said 'Come' And with her farewells spoken She sweetly entered home."

She leave a sorrowing husband and son, Sullivan and his wife. Two brothers, Wesley Herrington of Madison, Wis.; Edward Herrington of Saskatoon, Sask. She was a devoted member of the "Willing Workers Society" and the Missionary work, a chartered member of the Women's Institute.

The floral tributes were beautiful and among them was a pillow of eighty-four roses, sent by a niece, Mrs. Fleming, Toronto.

The service in the Friends church, January 25th, was conducted by Rev. Harry Perry, Rev. A. Poulter and Rev. A. J. Terrill

Mrs. Poulter sang sweetly, "Good Night Here, and Good Morning Up There."

The floral bearers were George Darling, Howard Orvis, Gordon and Harold Orvill and Lorne Nelson.

Friends and relatives from a distance were Mr. and Mrs. J. R. Herrington, Richmond Hill; Mrs. Dinner, Peterboro; Mr. and Mrs. Art Tamblyn, Lindsay; Mrs. Slewart, Lindsay; Mrs. and Mrs. Howard Terrill, Lindsay; Mr. and Mrs. Wallbridge, Massanagan; Mr. and Mrs. Raymond Norton, Bloomfield; Mr. and Mrs. J. L. Ross, Bloomfield; Mr. and Mrs. Ernest Wilfred Crook and daughter Dorothy Arvill, Bloomfield; Mrs. Vandeaf, Bloomfield; Mr. and Mrs. Norman Montgomery, Belleville; Miss Milligen, Trenton; Mr. and Mrs. Hess, Hastings; Rev. and Mrs. A. J. Terrill, Grafton; Rev. and Mrs. Harry Perry, Wellington; Ivan Ward, Wellington.

Interment was in Friends Cemetery.

A wedding took place at the parsonage on Thursday, when Mr. Fred and Miss MacDonald were united in marriage by Rev. A Poulter at 4 p.m.

Mrs. J. Way attended the Cobourg Presbyterial held at Brighton on Tuesday, January 25.

Eva Masters returned home after spending a week on York Road with Thelma Rogers.

Mrs. Hugh Galinforth is slowly recovering from a severe attack of pneumonia.

Mrs. Catharine Sharpe, and Dorothy McColl are caring for her.

Mrs. Ellen Murray of Wellington, is spending the winter with her daughter, Mrs. Crews.

Mrs. May entertained the Richard family to dinner on Saturday.

Miss Agnes Williams returned to her home in Toronto on Friday.

Nancy Gooding was very ill with flu.

The Auxiliary of the W.M.S. met on Tuesday. A noon lunch was served and Mrs. J. J. Way gave a report of Cobourg Presbyterial, held in Brighton on January 25.

Bert Richards, of Toronto, is the guest of his daughter, Mrs. May.

Annie Richards, of Belleville, is spending a few weeks with Mr. and Mrs. Leland Bryant.

Leona Sharpe returned home from Brockville on Saturday evening.

Mrs. Fanny Clarke is in Picton with Mr. and Mrs John Shaw.

W. A. Smith, Herman Morrow and Percy Gooding attended County Council in Cobourg, last week.

Mrs. Frank Rogers is boarding with Mrs. L. E. Sherry and Mrs. Gainsforth's illness.

Mrs. Edith Bryant, of Lindsay, spent a couple of days with her sister, Mrs. M. Sharpe.

The Hydro trucks are gathering up cut off limbs of the trees in the township this week and box cars are seen on the road sides.

Mr. and Mrs. Wells and daughters spent Sunday with Mr. and Mrs. W. Gillings.

The rain on Sunday cleaned away the snow, leaving an ice bed for the pedestrians and motors.

McColl — On Saturday, January 29th, to Mr. and Mrs. Henry McColl a daughter.

Centenary

Centenary—Owing to a sudden attack of appendicitis Rev. Mr. Platt's illness has delayed the services on his charge on Sunday. On very short notice, Mr. Charlie Elliot, teacher at Bayside School consented to take the services of the three appointments for Mr. Platt, and did so in a very capable manner. His address especially for the young people, and his topic "Things that last," was an inspiration to old as well as young. Mr. Elliott shows great ability as a speaker and should not be a speaker and thinker, and should be a great influence for good as a

ENGAGEMENT

Mrs. James Moore of Pumpkinseed announces the engagement of her daughter, Carolyn to Mr. L. Parker Thomas, son of Mrs. George Gregg Girling Flyer, of Germantown, Pa., and the late H. Fetherstone Thomas, of Halifax, Canada. The wedding will take place the latter part of June. 72-4

Mrs. F. J. Roblin of Napanee is visiting her daughter in this city.

Mrs. Edgar Elliott and Miss Claire Elliott left today for Los Angeles and Santiago, Calif.

Mr. C. Harten, Prescott, is visiting with Mrs. R. C. Andrews, Coleman Street.

At the enjoyable euchre party held last evening in the Moose Auditorium, the prize-winners were ladies' first, Mrs. Brickman; second, Mrs. Herman; third, Mrs. Maguhn; lone hands, Mrs. Herman; men's first, Ray Osborne; second, Fred Vesterfelt; third, Frank Ketcheer; lone hands, George Frechette.

A marriage of interest in Belleville took place in Fort Lauderdale, Florida, on January 18th, when Betty, daughter of Mr. and Mrs. Frank B. Ham, of Toronto, became the bride of Mr. E. Eugene Talbot, son of Mr. and Mrs. W. A. Talbot of Columbus, Georgia. The couple will reside in Belleville. Mrs. Mr. and Mrs. Ham were former residents of this city.

Mrs. J. C. Rodgers, 74 Cedar Street, fell on the icy sidewalk on Saturday afternoon, breaking her right ankle. She was taken by ambulance to the hospital. After X-ray her injured ankle was put in a plaster cast. She was removed to her home last evening.

At the home of the vice-president, Mrs. Geo. Wilson, Cheltham Street, a tale was packed by members of the Queen's Institute Guild yesterday to be sent to the Sisters of Service, Ellen, Alberta. A large number of articles were in the many useful articles were prepared for shipment. An executive meeting was later held and the interesting afternoon was concluded with dainty refreshments.

Women of Moose

The regular meeting of the L. O. O. M. Women of the Moose, Belleville, Chapter 615, was held in the Moose Auditorium on Tuesday. Junior Regent, Mrs. M. Yorke, very ably conducted the meeting in the absence of Senior Regent, Mrs. McGinnis, who is ill.

Following the meeting a social time was enjoyed by members, euchre and crokinole being the form of entertainment. Mrs. Wells and Miss Mary Dyer were winners of the euchre prizes while Mrs. Chapman was the winner of the rummy prize. Dainty refreshments were then served and all voted the evening a well spent one.

Correct Diet Essential to Lovely Skin

By HELEN FOLLETT

IT IS all right for girls to use fragrant creams and lotions. They keep the skin surface smooth, but the skin can't live on them. One has to be exact, upon the good groceries that you "tuck into your tummy."

Fruits, vegetables and raw salads are beauty foods. They furnish mineral salts that give coloring to the skin and improve texture. The citrus fruits are better than any bleach for a skin that has gone "grocery-gallery." Have orange juice every morning, adding a little water and the juice of half a lemon. Sallow skins are due to internal conditions. You can flay them away with strong bleaches, but, if the digestive disturbance continues, the new skin will be the same color as the old one.

Grapes are blood builders, so they have a good effect upon the complexion. They act favorably upon the forces of digestion.

If you are about to curl your hair, find you need a trim and the right way of getting one, clip off each strand before winding on the curling rod.

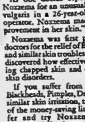
Brittle nails are a torment. They break at a touch. Never use the scissors to shape them; use a flexible steel file, follow along with a finishing treatment with the emery Board. Every night apply a cuticle cream. If there isn't any in the beauty cupboard, use vaseline or cold cream. Your hands will be grateful for any lubricant.

"MY SKIN WAS A FRIGHT!"

Was in despair until she discovered this celebrated Medicated Skin Cream

THAT'S the story of scores of other unsuccessful girls—girls who suffered from Large Pores, Blackheads, Pimples and other skin troubles. They found that Noxzema Medicated Skin Cream relieved itching, reduced Large Pores and promoted quicker healing of many skin blemishes.

At one doctor reported, "I used Noxzema for an unusual case of acne vulgaris in a 26-year-old telephone operator. Noxzema made a big improvement in her skin."



Noxzema was first prescribed by doctors for the relief of Burns, Eczema and similar skin troubles. The users discovered it was excellent for it is cresting chapped skin and other painful skin disorders.

If you suffer from Large Pores, Blackheads, Pimples, Dry Skin, or any similar skin irritation, take advantage of the money-saving limited time offer and try Noxzema. See how Noxzema helps improve complexion—refreshingly different—delightfully white—snow-white—greaseless and easy to spread. Get over jar today.

WHICH OF THESE TROUBLES YOU?

Large Pores Painful Chapping
Blackheads Dry Skin
Pimples Roughness

Clip this coupon as a reminder to get your 25¢ jar of Noxzema for only 15¢. Offer for limited time only. On sale at

Fattimer's DRUG STORE PRINCE ST.

Tabernacle Y. P. U.

The Tabernacle Y. P. U. held their weekly meeting last evening. The annual election of officers was held. The new officers are:

President—Bill Brennan.
Vice-President—Don Alexander.
Secty.-Treas.—Marion Fisher.
Christian Culture Convener—Miss Smith.
Social Convener—Jean Shorey.
Missionary Convener—Bob Brennan.
Citizenship Convener — Mac MacClelland.
Christian Fellowship—Mrs. Brad.
Membership Convener—Jim Watson.
Pianist—Betty Shorey.
News Reporter—George Gist.

The meeting was closed with a prayer by Rev. Mr. McClintock.

IS THERE A FIRE, CHIEF?

Spectators at the fire that caused considerable damage to the Bell Shirt Company building early this morning, smiled behind the safety of hand-covered faces, when a youth more or less expressly arrayed in a fireman's helmet, coat, and, who presumably had passed while unseen through the hallway, haughtily ordered of a rubber-clad fireman "Is there a fire, chief?"

The girl-honouring firefighter, water dripping from his coat and helmet, looked at his questioner, a look of something resembling pity came over his face, as unlike a flame of tobacco in the general direction of the building he replied, "Now, it's the last period of a hockey match."

ST. ANDREW'S W. M. S.

The W. M. S. of St. Andrew's Presbyterian Church held their meeting on Wednesday afternoon. After singing "Lead Kindly Light" Mrs. Parker read the minutes. Mrs. Newton, Mrs. Ranson and Mrs. Baird gave business reports. Mrs. L. Calnan read a very fine paper, "Christianity on the Eastern Continent" in the light of the present activities of the Japanese, the information given was very interesting. Concluding the talk she remarked, "The witnessing of Christianity in Japan today is not any other event in Japan today."

Mrs. Wilson told of the Missionary work in Manchuria, stating "Our chief aim is and should be to get the natives evangelizing their own country."

Mrs. Moore with the help of Mrs. Reid, introduced something which had not been recently used. This was a newspaper current events from the "Glad Tidings."

Life membership certificates were presented to Mrs. Cunningham and to Mrs. Jackson. Mrs. Henry Orr and Mrs. Morden made the presentations.

The meeting was closed with singing "Abide With Me" and a social half-hour followed.

Fashion Flashes

By ALICE ALDEN

(Copyright, 1938 King Features Syndicate, Inc.)

OUT TO DINNER and getting plenty of compliments for your white dinner suit—a Paris fad. A Leiong model has the shirt of white bid appliqued.

HIDE FROM THE SUN in one of those large hats of embroidered straw smart enough for afternoons and yet just right with beach things. A good model is a wide, flat disc of straw, beautifully broidered with a wheat sheaf design. The sheaves tied with appliqued velvet bows.

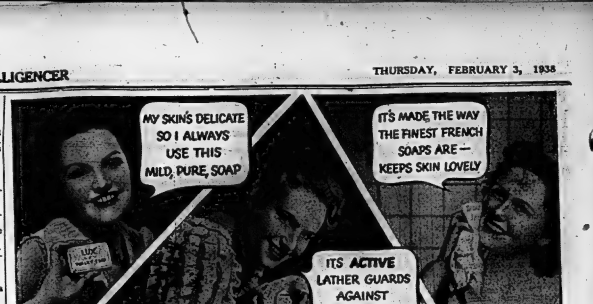
SMART FOOT WORK down south is done in a kid or calf, with white kid perforations, while kid binding and white kid heel and straps.

DEVASTATING, YET DEMURE is an evening frock of blue tulle with berry red velvet appliques on the wide skirt and on the shoulder straps and decolletage binding.

OUR CHOICE for a grand travel suit is a three-piece in brown and beige tweed, the top coat with straight tuxedo bands of Persian.

AN EARLY SPRING will find some smart girl wearing a lovely poke bonnet of pale blue felt with scalloped brim and an insert of makeskin tinted to match.

The Stars Say—



For Friday, February 4
By GENEVIEVE KEMBLE

Planetary forces may make this day an unfavorable one. There may be dramatic, mysterious, even tragic events. Financial affairs, business, employment, finances, social and intimate affairs have favorable aspects for progress and prosperity, whatever the situation, it may develop a great romance, adventure or worthwhile friendship.

Those Whose Birthday It Is may be prepared for a year of remarkable, extraordinary and memorable experiences, both in the private, romantic, emotional or even physical life involved. It may bring contacts of a momentous influence on the affairs. But be careful to avoid physical mishaps or perils.

A child born on this day may have an extraordinary nature. While it may be profound, studious, dependable, sensible, grasping, emotional and mystical, it may also be robust, sturdy, adventurous and enterprising. It may rise to conspicuous heights in some unusual calling.

A meteorite is the only object we can touch from the universe beyond the earth.

Follow the YOUNG THINGS' WAY to lovely Skin...

THOUSANDS of young people keep their complexions clear and lovely by following this simple rule: Before they put on cosmetic make-up —always before they go to bed— they use Lux Toilet Soap.

The ACTIVE lather of this fine soap guards against Cosmetic Skin— dullness, enlarged pores, tiny blemishes. Lovely women of every age follow this way to clear, smooth skin.

Shower Honors Bridal Couple

About one hundred friends and neighbors gathered at the home of Mr. and Mrs. R. DeVisco, Rawdon, on Tuesday evening in honor of Mr. and Mrs. Clarence Chambers with a miscellaneous shower. About eleven o'clock the gathering was called to order when Miss Elmer Beth Alford read the following address:

Dear Evelyn and Clarence:

We, your friends and neighbors, have gathered here this evening to spend a social time with you, and to wish you bon voyage on your journey through matrimonial seas.

As one of us during the years you have spent in our community, we have found you a pleasant companion and an ever willing and earnest worker in whatever you have attempted. Your keen interest and untiring efforts have been much appreciated. And, Clarence, although we have not known you so long, we feel certain Evelyn has not made any mistake in choosing you as a life partner.

Although you are going away some little distance, to make your new home, we hope to meet often and have the opportunity of a friendly handshake and pleasant conversation. We hope your home may be a pleasant one, one to which as someone has said, "Each flies for the other, and all for God." We know your disposition is to be pleasant, and we believe that, with hearty co-operation from your husband you have the material necessary for the building of such a home. Now that we have given you some articles of practical use, we might also offer some of the more humorous. Evelyn, make Clarence a good wife, by mending his socks, sewing on his buttons, and don't keep him waiting on his meals. Always start the fires. In short, wait on him at all times and you will ever find him a pleasant companion.

Now we ask you to accept these gifts as a slight token of our affection and with them our very best for you both through life.

Signed on behalf of your neighbors and friends,

Reginald Golden
Albert Alford.

The bride and groom thanked them for the presents and invited them to visit them, after which was sung, "For They Are Jolly Good Fellows." A dainty lunch was served and the remainder of the evening spent in games and dancing. Mr. and Mrs. Chambers received many beautiful presents.

REDNERSVILLE W. I.

The Redneville Women's Institute met at the home of Mrs. Harold Ward on January 27th. The 1st Vice President, Mrs. Keith Redner, taking charge of the meeting.

The meeting opened by singing of the ode followed by all repeating the Lord's prayer. The Secretary, Clarence Kenneth Green, read the minutes. The Roll call was answered by "Labor-saving Device and Who was Responsible for It."

This being the election of officers for the Library Board Mrs. Lorne Brickman took charge of this part. It was reported that the president of the Institute act as president of the Library Board. Miss Clara Anderson was voted as Secretary - Treasurer of the Library. Miss Doris Smith will be Librarian, Assistant Miss Vivian Smith, Report of the Area Convention by Mrs. Earl Cockerdock. Mrs. Alex Anderson moved a vote of thanks to Mrs. Cockerdock for her work as delegate, seconded by Mrs. H. Ward.

Community singing was then enjoyed with Miss Clara Anderson at the piano. A paper was well given by Mrs. Hugh Weese on "Canadian Women of the Present." A lovely lunch was served and, a social half hour spent. Mrs. Lorne Brickman moved a vote of thanks to the hostess and to all those who helped prepare the lunch, seconded by Mrs. H. Dempsey.

In marshy lands in Germany the peasants shoe their horses, as well as themselves, in wooden clogs.

Wife Preservers

If your Parker Home suits upon when building, the kitchen closet or a small knife and clip the article of dough on opposite sides about one-inch from edge of circle. Then fold over in pocket-shape and bake as usual, says Home-ess Hostar, Oshkosh City.

New Details Mark Dresses

Beautiful Lines, Unique Stylings and Trimmings, With Many a Whimsical Note Gives Mode Distinction

Left, grass green evening dress; right, black lace with gold leather belt studded with rubies.

By LISBETH

BEAUTIFUL lines, new details of trimming and styling, make the latest in evening gowns distinctive.

There are many whimsical notes in the season's mode. There is the gown that has no shoulder straps, but is built to stay in place, nevertheless. This is having quite a run in the "best circles", and is adopted by many of the younger set—the debs.

Another unusual neckline which is new, is shown here at left in the Lelong gown of grass green lace, and makes it outstanding. The interesting strap arrangement, starting as a lovely thrust and shoulders, and is most flattering. The dress is molded and breaks into a graceful flair below the knees. This dress is an excellent model for the young matron or older woman.

Another attractive and very youthful gown by Robert Piguet is the black lace, right. The dress is cut on simple lines and therefore, very effective use is made of the geometric pattern of the lace.

Gold at Waistline

The waistline is emphasized by a gold, leather studded with rubies. The full skirt also has a very charming flair for the cruise, because it will pack without wrinkling, and for evening wear the gown is most fashion succes.

Printed fabrics used for formal gowns may be pleated all over—and some are so fashioned in very full folds. An abstract pattern lends itself very nicely to pleated skirts, and the large and splashy print, is best gathered and very full. Some of the latter are combined with solid colored fabric. In this latter type of dress, the Civil war period effect—the shoulder decolletage is being used, and petticoats are often worn under such a dress.

One silk house is showing very attractive prints inspired by the hush colors and patterns of Indochina. Gold, red, royal, green and rust are some of the shades used, and they are rich, jewel toned design in allover patternings.

Another house uses the designs of new artists for their fabric and abstract paintings and designs. New prints are shown in crepe and taffetas, the materials to be used together.

Brush Off Cream

Before icing a cake always brush off any loose crumbs from the top and sides, and cut off rough edges with scissors. If the crumbs get into the frosting they make it appear lumpy.

Green lights on police cars patrolling suburban parkways of New York City have cut down by 50 per cent the tickets issued for speeding, according to public safety officials.

A large white owl which alighted on the liner, Duchess of Richmond, when the ship was 1,100 miles east of Belle Isle during a recent voyage from Canada has been given to London Zoo.

Drug Store Is Ancient Institution

By LOGAN CLENDENING, M. D.

DO YOU SEE that man over there in the white coat, coming to the door of his shop to direct the woman to the street car that goes to the postoffice? He looks serene and clean and modern, but he has been doing business, there or somewhere in the vicinity, for ten thousand years. He is the corner drug store.

He was a fixture in the life of the world long before there was a court, or law. Before there was a president or a constitution or a king or a government, even, because they tell that the most primitive race on earth, who live in a social system that is not even tribal, have a special tree, the leaves of which are used to put on wounds to make them heal. In Exodus is written, "The Lord spake unto Moses: Thou shalt make it in an oil of holy ointment, an ointment compounded after the art of the apothecary." And if that wasn't the corner drug store, what was?

The druggist at the corner drug store use to go out and gather his own herbs. In fact, for many years the best drug stores were associated with monasteries, and the monks grew in their gardens the plants which they used for drugs and cosmetics, so the cosmetic counter of a modern drug store is a logical part of that institution.

Employs World Resources

The pharmacist of today does not collect his own samples personally —he has the resources of the world at his disposal through the organization of the large manufacturing drug companies—but he has other responsibilities and is trained better than any of the pharmacists of the old era. It is well that he has this responsibility and training, because you have to depend on him just as much as you do the doctor, for an honest product. He shares the responsibility with the physician of seeing that you get exactly what the doctor ordered with no substitutions; that the ingredients of a prescription are carefully measured and compounded, and that the prescription is a matter of record so that it can be referred to later.

He is a chemist as well as a purveyor, and the "q. s." which the doctor sometimes slips into his prescription allows him to put "quantity sufficient" of sugar or peppermint oil or spice of some kind to make an otherwise disagreeable medicine palatable.

QUESTIONS FROM READERS

E. B.: "I have been told that rooms in French hospitals are painted blue. Is there any special reason for this?"

Answer: I understand that the French believe blue rooms eliminate flies because it is said they will not light on anything blue. The French, like most European nations, do not use screens to any considerable extent.

H. J. E.: "Do you think the continued use of diathermy (three treatments a week) could in any way be harmful to a knee which has been thrown out, injuring the cartilage and bone?"

Answer: No.

Poems That Live

"I GIVE MY SOLDIER BOY A BLADE"

I give my soldier boy a blade,
In fair Damascus fashioned well:
Who first the glittering falchion swayed.

Who first beneath its fury fell,
I know not; but I hope to know,
That, for no mean or hireling trade,

To guard no feeling base or low—
I give my soldier boy the blade!

Cool, calm and clear—the lucid flood
In which its tempering work was done;
As calm, as clear, in wind and wood,

Be thou where'er it sees the sun!
For country's claim at honor's call,
For outraged friend, fallen maid,

At mercy's voice to bid it fall—
I give my soldier boy the blade!

The eye which marked its peerless edge,
The hand that weighted its balanced poise,
Anvil and pincers, forge and wedge,

Are gone with all their flame and noise;
Yet still the gleaming sword remains!
So, when in dust I low am laid,

Remember by these heartfelt strains,
I give my soldier boy the blade!

—William Maginn

If Child Is Naughty In Public

By GARRY C. MYERS PH. D.
Head Department Parent Education, Cleveland College, Western Reserve University

QUESTION: My four-year-old girl gives me no trouble when the family is alone. We have good times together. But when there is company she is likely to be very naughty.

Answer: I assume that you do not hold her up to higher standards of behavior when you have company than at other times. When no guests are present you probably engage in conversation with her, answering her questions and expressing interest in her creative play. And you are more at ease then, more serene and relaxed. Fear that she might embarrass you before guests may be a factor. Then, since you are so eager to be a good hostess, you prolong your conversation with the guests, with the result that the child may have no consideration for a long while unless she forces it by being naughty. Next, since you have guests, see that this child is normally not ignored too long. But don't go to the opposite extreme by making her the center of the stage. A good way to let a child show off properly is to have her assist in serving food or other refreshments. In looking after the comforts and pleasures of the guests in any other manner.

If this fot has learned to find enjoyment at creative play with blocks, scrapers and the like, she may properly be encouraged, when there are guests, to retire to her room or corner to pursue such pleasures, knowing that before the guests leave they will come with you to admire her achievements.

Sucks His Thumb

Q. My baby, nine months old, is beginning to suck his thumb and I am worried about it.

A. Check with your doctor on the baby's diet. Give him a safe ivory ring or something similar that's safe to chew on. Never rebuke him nor jerk out the thumb when it offends. Offer him a toy or very slowly remove the hand, especially while you occasionally hold him and cuddle him during hillables to him. Provide him with a very roomy sleeping bag or nightie with very long sleeves that will enclose the hands.

Let more things go about the house. Get more rest. Keep your voice soft and low and the radio silent while the baby is awake. Work for serenity in yourself and the family.

First Woman Horn Player

Twenty-year-old Ellen Stone, whose birthplace is Bayside, N. J., is the first of her sex ever to be included in the brass section of a major symphony orchestra. She was selected by Otto Klemperer, of the Pittsburgh Symphony orchestra, who held auditions last summer to choose new members for the orchestra.

She was chosen for a six-week term as first horn in the Pittsburgh orchestra, is to play the Strauss concerto as horn soloist, and may be given the assignment as third horn after her six weeks as first horn expires. So says "Women in Music".

A NEW COMBINATION USED FOR FISH SALAD

By MRS. MARY MORTON

Menu Hint:
Hot Tomato Soup Crackers
Banana Salmon Salad
Creamed Potatoes
Canned peas Lemon Pie
Coffee

Here is a new combination for a salmon salad, and it is well worth trying and keeping in your files for Lent, when you will need to vary the-same-old recipes. This recipe is recommended for parties, too.

Today's Recipes

BANANA SALMON SALAD.—Three, ripe bananas, sliced; one-half cup diced canned pineapple (about two slices); one and one-half cups canned salmon; one-fourth cup diced celery; one-half teaspoon salt, one tablespoon chopped pickle, mayonnaise to moisten, lemon. Mix bananas and pineapple together. (Pineapple keeps bananas light in color.) Add salmon from which bones and skin have been removed. Stir in remaining ingredients. Garnish with lemon slices. Six to eight servings.

LEMON PIE—One pint water, one cup sugar, one tablespoon cornstarch, one tablespoon flour, one teaspoon butter, two egg yolks, one and one-half lemons. Cook together in double boiler until thick and smooth, stirring constantly. Bake in rich crust, fill with custard mixture and cover top with meringue made of the two egg whites beaten stiff, with two tablespoons sugar. Put in slow oven to brown the meringue.

Favorite Sandwich

One of Barbara Stanwyck's favorite sandwiches consists of the following mixture spread between thin brown bread: one cup of cooked cheese, mixed with a tablespoon of milk, one teaspoon of anchovy paste and a dash of paprika.

Believes in Labor's Future

By LILIAN CAMPBELL

THE MACHINE has brought us many comforts, but has also brought problems, declared Miss Frances Perkins, United States secretary of labor, in a recent address on "Economic and Social Security in the Twentieth Century".

We shall find the answer to these problems as we have to others, Miss Perkins believes.

The great strife of people want peace," she declares, "between nations, between races and between capital and labor. And the will to peace in industry can do a great deal to bring it about. There is a tendency to magnify our differences, the things that separate us rather than those which bring us together," she states. Both sides have need of stability, and Miss Perkins believes in the essential unity of the American people.

A great deal of publicity has been given in the newspapers and over the radio to the total of 2,000 strikes, which were all that occurred in the entire country, while the 19,000 peaceful settlements of disputes were not called to our attention.

We all need to impose self-discipline on ourselves, Miss Perkins asserts, "the same self-discipline that makes us decent citizens."

Miss Frances Perkins

RIVAL PARADES MEET IN STREET

Both Refuse to Budge an Inch in Shankill, North Ireland

By GEORGE HAMBLETON
(Canadian Press Staff Writer)

London, Feb. 3 (CP Cable)—The Northern Ireland election campaign speeds up. Harry Midgley, Labor leader, is facing more storms in Shankill division of Belfast. He cancelled one open air meeting on the advice of police. Hostile crowds had already packed the street.

In Shankill, police had to intervene to prevent a clash between rival band parades. In the best Pickwickian tradition, Thomas Henderson, Independent Unionist, and J. N. Kennedy, Socialist, toured the Division perched on horse-drawn coaches, followed by rival bands behind, and lines of torch-bearers on either flank.

Fireworks

In front of the Methodist Church the parades met. Both refused to yield an inch. Pullon stuck to his side the Orange Lodge boundary kitchen table. Drums banged. Bagpipes shrilled. The parades ended with spitfist and counter-spitfist. A firework squib circled the hat of Lord Charlemont.

Then police advised both sides to call it a day. With final shouts they paraded away. The Henderson-ians, still resolute, crossed one side the Orange Lodge boundary where, a badge behind him, the Independent Unionist candidate ended his speech.

But it was not the end of his troubles. So many boisterous supporters climbed aboard his coach that the wheels of spread-eagled. Then everybody had to walk except the candidate as he was carried home shoulder-high.

CAMBA'S EXECUTION STAYED INDEFINITELY

Toronto, Feb. 3 (CP)—Execution of John Camba, set for Feb. 10 at Kingston penitentiary, was postponed today by the Ontario Appeal Court indefinitely under consideration a motion that his conviction on a murder charge be quashed.

Camba was convicted of the murder of Ethel Redderwick, daughter of a Renfrew county farmer, during the new trial Jan. 15 when the appeal court reserved judgment on the motion to quash conviction. Judgment was not been handed down.

At the appeal hearing, the court and the crown agreed with the contention by Camba's counsel that a new trial was made necessary by the fact defence counsel was not given the right to cross-examine crown witnesses called after the trial case was closed.

Livestock

Toronto, Feb. 3—(CP)—Prices were steady on the few cattle on sale at the Toronto livestock market today. Calves, hogs and lambs moved at previous levels while no sheep were offered. Cattle holdover from Wednesday were 50 head.

Receipts reported by the Dominion Livestock Branch here: Cattle 50; calves 50; hogs 300; lambs 400.

A few weighty steers sold at $4.50 but the bulk of butcher cows ranged up to $3.50.

HOG QUOTATIONS

Toronto, Feb. 3 (CP)—Bacon hog prices advanced 25 and 50 cents yesterday. Dressed hogs and Barrie dressedweights posted the second 10-cent gain this week. Other markets were steady.

Liverweight: Servicised $8.60; Hard $8.35; Loaden $8.25; Stratford $8.25; Chatham $8.15; Peterboro $8.15.

Dressedweights: Barrie $11.55; Hard $11; London $11; Toronto $11; Kitchener $11; Chatham $11.25; Peterboro $11.30.

DEATHS

GREEN—At the Belleville General Hospital on Thursday morning, Feb. 3rd., 1938, Eva Mae Green, wife of Mr. Lorne F. Green, and daughter of the late Mr. and Mrs. John Pasteur.

The funeral will take place Saturday afternoon, Feb. 5th., from her late residence, 16 Dundas Street, to Christ Church for service at 2.30 o'clock.

Interment Belleville Cemetery.

LEGION REFUSES PART IN REUNION

Resolution to This Effect Adopted Unanimously by 4th Convention

Port William, Ont., Feb. 3—(CP)—A group from the Canadian Legion, gathering under instructions from organization's seventh biennial convention, will present to the Dominion government a series of resolutions, one of which would provide a measure of unemployment among war veterans who suffered disabilities in active service.

The resolutions yesterday are accepted, it will be possible to provide for wider fields of relief than not alone on behalf of those who served and their dependents, but of the country as a whole," Col. W. W. Foster of Vancouver, newly-elected president, told the convention later.

Foster was last night. He said the group also would endeavor to avert solution of distress caused by industrial conditions.

The banquet, following a busy day of convention sessions in which new officers were elected, took on an international aspect when Canadian, French and German veterans united in appeals for world harmony and goodwill. Another speaker, Brig.-General Alex Ross of Yorkton, Sask., the retiring president, moved acclamations of the convention.

Earlier, the convention confirmed election of the Dominion executive that the organization would not participate in a proposed veterans' reunion in Toronto next August. The council's resolution, placed before the convention by General Ross, was adopted unanimously.

SCIENTISTS NOW ON SMALL BLOCK

Rescue Work Progresses But Scientists in No Immediate Danger

Moscow, Feb. 3—(AP)—Four Russian scientists perched dangerously on a small block of ice in the Greenland Sea today, their refuge a mile and with an emergency wireless mast for a tentpole.

Henderson last week split the large ice floe on which they encamped to make their polar weather observatory eight months ago, and their precarious perch was narrowed to 100 feet and only 700 feet long.

They have a three-months food supply. Commander Ivan Papanin, wireless operator Fedorov, Dr. Otto Schmidt, director of the party's activities, was ordered to make a rescue expedition from Murmansk, 900 miles north of Moscow and more than 1,000 miles across the Arctic ocean from the campers.

It was indicated that Jan Mayen Island might be the base for five planes to be used in the rescue. The island is about 300 miles east of Greenland, just north of the 70th north latitude.

The polar campers, who have drifted southward until they now are approximately 1,100 miles from the North Pole, were ordered not to reach the 72nd meridian, where their ice block would enter the current flowing toward Jan Mayen.

Claims Act Insult to Wales

London, Feb. 3 (CP) — Clement Davies, National Liberal member of parliament for Montgomery, has launched a crusade for the modernization of British statutes.

Now Mr. Davies points to an Act on the statute books which makes Welsh a prohibited language. The Act was passed in the reign of King Henry VIII. It declares it is an insult to the Welsh people.

"There is a standard," he said, "with a quarter for Scotland and two for England, but not for Wales. The flag we helped to weave. It's time we insisted on our rights."

WALL STREET CLOSE

New York, Feb. 3 (AP)— Stock market leaders topped 1 to more than 5 points in today's market.

Occasional attempts were made at rallies, but these generally failed to follow through and losers were not far above lowest levels near the day's end.

While volume was much larger than Tuesday's dull session, it was seldom pressed and slow intervals were frequent. Transfers were at the rate of about 1,200,000 shares.

TORONTO STOCKS

Toronto, Feb. 3 (CP)—Profit-taking set in on several rises in the gold shares and decided weakness in New York turned the Toronto Stock Market down from the opening today and there were no signs of recovery up till early afternoon. Along with the golds the base metals also sold for losses and the Western oils and industrials trailed along.

O. P. R. sold at its lowest price since 1936 and practically all the other interlisted leaders weakened fractions. McColl-Frontenac, up about a point, was an outstanding exception. Steels, utilities and beverages posted losses.

Recessions of a point or more appeared for Nickel, Smelters and Noranda and losses of 10 to 20 cents were quite numerous in the gold list. Calgary-Edmonton, Okalta and Vulcan were soft spots in the Western oil list.

Board Room Gossip

The consistent strength in the senior gold stocks has been the only redeeming feature of an otherwise drab market. Many observers feel that in time the demand for these issues will put them up to a level where their immense appreciation possibilities will largely disappear, and then buying will come in into the junior golds and stimulate the more promising properties. In the meantime, patience will have to be exercised.

The lower copper price may induce Noranda to reduce production of copper somewhat but over the 1937 total this can be offset by a substantial rise in investment income within two or three years. This stock merits a high rating among Canadian equities.

Senator Forrester Possibilities of Lake Shore Yukon Ages

A well known financier was in a reminiscent mood the other day while lunching at an uptown club when the topic of conversation drifted to the possibilities of the gold mining industry. The well known identity recalled some of the experiences that he had during the early twenty-fly years that he had served in the banking business in Canada and the United States.

During anlnspection trip to the north he became acquainted with Harry Oakes, the discoverer of Lake Shore. So impressed was he by this property that on his return to New York he sold the ten shares of a bank stock that he owned for a claim that netted $4500. He then purchased 200 shares of Lake Shore at 4. Stewart Warner 8 7-8

These holdings have a market value of $11,400 today and during the interval $2,400 has been received in dividends and bonuses. The stock which he sold is not on a dividend basis now.

Hollinger.

The Street is interested in the report that a well known American investment Trust is about to acquire a chase a good sized block of Hollinger privately. .

A very shrewd judge of newsprint securities and other value day that the Abitibi five per cent bonds are a real buy around the 84 level. Time will prove the accuracy of such a forecast.

Produce Prices On Montreal Market

Montreal, Feb. 3—Butter has been purchased from New Zealand and Australia to meet Canada's shortage this season and supplies will be arriving at Halifax from about March 1st. Lots of 100 tons until the end of March, mainly the latter, it was stated in Montreal trade circles. Opinion is voiced that butter likely will be brought from the United Kingdom in addition. The Montreal market ruled strong. Receipts for the day at 25 cases of eggs and 56 boxes of butter were reported.

Sales at the Canadian Commodity Exchange were as follows: Grade A eggs regraded butter at 23 5-8c, and 91 boxes of Quebec standards 36 score at 31 1-2c. Also Quebec grass regraded was quoted 22 1-2c to 23c. Thirty seconds buyer's inspection at 31 1-4c to 31c. Butter futures sales as follows: 50 lots of 25 tons 2-6c for February, 22 5-8c to 23c for March and 23 3-4c for April. April 2mall lots to the retail trade were mainly quoted by jobbers at 31 1-2c for 30's and 31c for 25's and 29's.

Limited shipments of eggs were selling on spot at 24-26 1-2c for A-large, this grade being reported at 25c in Montreal and 21-21 1-2c for A-pullets, this grade being scarce.

SENTENCED AS SPY DURING CIVIL WAR DIES AT AGE 100

Toronto, Feb. 3—(CP)—Sulked as a spy and sentenced to death by a firing squad during the United States Civil War, James Marshal died here yesterday in his 100th year.

Marshal was captured in Georgia by confederate forces during the Civil War. Although he protested he was a British subject, he was sentenced to be shot. The night before the death penalty was to be carried out he escaped and finally reached Canada.

Born in England, he led an adventurous life. About 90 years ago he and another youth set out for South America on a raft. They sighted South American ranch. Their ship was blown off its course and after a long period arrived instead in the Southern States. He had just secured a position on a steamer when the war broke out.

He tried many trades in Canada. He settled and sold furs in the north and once was shipwrecked on the Labrador coast. He also did profitable oil in the Petrolia district and was among the first to drill and prospected in Northern Ontario.

At 92 he fell and broke his hip but recovered enough to look after a boating business the next year. He was a follower of Toronto athletic teams and took an interest in many outdoor activities.

Two native Newfoundland orderlies at Grosvenor, S.A., drank two bottles of poison in mistake for wine. They died within two minutes of being found.

Gilded Orchid

By JANET DORAN

CHAPTER 15

"Are you there?" Wake inquired politely. "Or just grabbing a last few winks of sleep?"

"Wake," Maydra found herself thinking fast, after the first stunned moment, "you're no bashful doing this sort of thing! Why—you're married! Married less than a week, too!" Severely.In case he had forgotten, after four marriages, that the honeymoon was supposed to last longer than seven days.

"I was afraid of that." Wake complained, "and here I've been spending two disgusting hours, trying to forget the fact. And bang! first thing you remind me of is Kay', he added soberly, "is confessing with her professor, and dog you over hear of a husband being handy at such occasions? And maybe you've never sat in on a conference between a great star and a great producer?"

"I'm sorry." Maydra sympathized, relaxing slightly, "but just the same, you shouldn't break all speed limits to console yourself, Wake. Should you?"

Wake shouted with laughter. He chuckled a moment after that, as if the thought were quite too hilarious to get out of his mind all at once.

"Oh I'm just a low down old consolation hunter, Jan? Well, Beautiful, as the case may be, I'm not entirely wasted in the chase with you a few moments, spend the time of day pleasantly, and then toddle home to my good wife, providing she has that producer off she by then!' '

"It's after midnight, Wake," Maydra reminded him briefly, "and I have to go to work in the morning. Furthermore, I slept practically none las tnight!"

"Please don't be so hard-hearter, Maydra—let me just come up for a few minutes to talk! I'll go right away ready!" Wake urged eagerly.

It occurred to Maydra that Wake Ballinger had alway had his way about things. Particularly about girls. And as suddenly as the thought crystallized in her mind, it dawned on her that she most certainly was not going to let him have his way about it.

"You're mean," Wake complained, "so sensible," Maydra assured him. "Good night, Wake. You really should not bother with girls who have to work for a living!"

"You're too conscious of my marriage!" Wake accused her.

"On the contrary. I like Mrs. Ballinger very much, and I'm sure you're devoted to her. I'm sure that chatting with me, or with anyone else, for a few moments, wouldn't rob her, anymore than her conference with Heywood Smithson tonight, is harming you!"

"I still think you're evading the issue!\".

"Goodnight, Wake . . I'm really sorry!"

Maydra hung up without waiting for further argument from him and went back to bed, yawning wearily.

In the morning she remembered Wake only long enough to smile tolerably in indulgent amusement over his inability to believe that a girl could actually turn down an opportunity to spend a little time with him. It was she decided, high time some girl told a few more of the Ballingers of this town where to hang in.

"Only," she admitted to herself silently, picking up purse and gloves ready to start in work, "he probably didn't know he was being told. Being Wake Ballinger, how could he?"

The day was uneventful, except for flowers, wired from Princeton, together with a message from Bill Hastings. They brought Maydra and an invitation to dine, since Bill Maydra refused. She was still a little tired, she explained, and she really couldn't eat every night. Not and work, that was.

"Lunch with me tomorrow, then?" Bill insisted, "you can't deny me unless you gilded orchids, I can buy you a sandwich, a salad, and a malted milk. And you don't dislike being with me!"

"We'll see, tomorrow." Maydra temporized, "maybe I won't be able to go out. We've been awfully rushed at the shop, lately."

"Which means," Bill observed tersely, "you will, if three million dollars worth of symphonic prince man doesn't ask you in the meantime!"

"Well, and if he does, what?" Maydra countered evenly, "do you blame me? Wouldn't you do the same, if you were a girl?"

Bill laughed shortly.

"I'm not blaming you — yet," he agreed, "you haven't accepted the millions that far!"

"Thanks," Maydra offered drily, "I'll remember that, Bill."

He sat down at the piano and played a few chords that harmonized the tune, and Maydra lingered, seated on the arm of the chair. He played more than really well. He had a sure, light deft touch, a sense of rhythm, and an interpretation of mood that brought the song alive, growing under his nimble fingers. He played a couple of popular songs and a few bars of The Blue Danube.

Then he stood up as abruptly as he had sat down to play and said:

"This place is a witch, a jinx, or something," he grumbled. "Every time I'm here I feel as if I'd come home. Hate to leave."

"Words best a knack for making things homey," Maydra agreed.

"She's a pretty grand person," Bill commented briefly, opening the door. "Try to save me tomorrow's lunch-hour, Beautiful!"

"If nothing comes up," Maydra reminded him.

"I hate millionaires," Bill growled.

The door closed on him, and Maydra meant to write Tommy a note of thanks for the flowers, but one thing and another kept her busy until bedtime. Then she had forgotten it.

She had also forgotten her temporary promise to Bill, the following noon, when she saw him approaching, looking very determined under the blue fencing of his gaze, looking remarkably well groomed and personable in his expensive and big light, woolly topcoat.

"Well!" he demanded truculently, "Do you dine on humming birds with bootleg millions, or will you eat an honest sandwich with a mere working man? His blue gaze practically darted her to refuse.

She nodded, smiling, and went to get her hat, coat and purse. She had had a particularly satisfying morning, selling well over the usual quota, and earning Suzanne's generous approval and comment.

"At this rate, you'll have your raise before the first, Maydra," Suzanne had said. And she could use that extra ten each week. It was really astonishing the number of things you could actually need, and the insider restrictions of a budget that had to include her share of the apartment, and insurance and savings. Especially when she had started at scratch. When you had absolutely nothing to fall back on, as most girls did in these days—her lingerie, hosiery, counting things from one season to the next, one year to the next. As Kay did for instance.

Bill was waiting when she shop, and started uptown, to go around the corner to the little tea shop, not less than two paces away from the place Wake Ballinger was erecting for his celebrated road-eater. Nor was he alone, Maydra saw. Kay was very much with him. And going into Suzanne's apparently, for she was at the car, Then she went and then hurried along into Suzanne's, or so and a dazzling smile, and

IN TEA IT'S FLAVOUR

Rawdon

Rawdon—Mrs. Frank Smith of Mount Pleasant and her father Mr. J. A. MacMurchy, Toronto, spent last week with Mr. and Mrs. Kenneth Smith, New York City and Mr. and Mrs. A. R. Lobban, Baltimore, Maryland. Mr. MacMurchy remained in Baltimore with his daughter for a few month's holiday.

Mr. and Mrs. Norman Wass entertained Mr. and Mrs. Allan Simpson and Teddy on Sunday evening.

Mr. and Mrs. Gordon Linn and Ruth were supper guests on January 30th at the home of Mr. and Mrs. J. C. Linn, it being the occasion of Ruth's birthday.

Mr. and Mrs. Roy Thrasher are holidaying with Mr. and Mrs. Fred Thrasher at Cabaret.

Mr. and Mrs. Willis Montgomery, Marie and Maurice, spent Sunday with Mr. and Mrs. Jack Montgomery.

Mr. and Mrs. Aaron Anderson and family spent Sunday with Mr. and Mrs. R. Wallace at Hoards.

Mr. and Mrs. George Stone and family spent Sunday with Mr. and Mrs. Ernest Wass.

Mr. Bert Jeffs opened Young People's Union on Friday evening with devotional exercises. Miss Frances McKeown gave a splendid report of the recent Music school held in Belleville.

The social convener Miss Anna Sharp then presided. Mr. John Cosgins sang a solo with Mrs. John Holmes as accompanist. Mrs. Elwood Johnson outlined the topic on the life of Albert Schweitzer. Miss Faye Andrews sang a solo with guitar accompaniment. All the close a mendelin contest was staged.

Mr. Percy White spent the week end with his sister at Bethel.

Mr. and Mrs. Allan Reid and Mrs. John Reid entertained on on Thursday evening Mr. and Mrs. John Bailey, Mr. and Mrs. Clifford Sine, Muriel and Doris and Mr. and Mrs. Ernest White.

Deepest sympathy is extended to Mrs. S. R. McCreary and sons in their bereavement. Mrs. McCreary was formerly Miss Evelyn Mills, a granddaughter of Mrs. Frank Mills.

Mrs. Emma Summers is holidaying with her daughter Mrs. Will Johnson, Selkirk, for a weekend January 28. Mrs. Summers celebrated her birthday and Mrs. Johnson entertained Mr. and Mrs. Roy Thrasher, Mr. and Mrs. Cyrus Summers, Eric and Gladys and Miss Lois Johnson in her honour.

Mr. and Mrs. Malcolm Macmillan and Grant attended the L.O.L. At Home at Springbrook on Friday evening and Mrs. MacMillan assisted with the programme.

Mr. and Mrs. T. V. Hoover entertained on Wednesday evening Mr. and Mrs. B. C. Tucker, Laura and Irene.

Mr. and Mrs. George McGee spent a few days last week with Mr. and Mrs. Mr. and Mrs. Elgin Jackman.

Mr. Melville Booth of Campbellford visited his parents Mr. and Mrs. John Booth on Monday.

Mr. and Mrs. Milton Shaw, Ivanhoe are spending a couple of weeks at Mount Pleasant with Mr. and Mrs. Thrasher are holidaying.

The roads are again a sheet of ice in places and the hills are very dangerous for motor traffic. Some of the hills on the Rawdon section presented a glaze appearance on Sunday and Monday.

A very small number attended the service at Mount Pleasant on Sunday evening owing to road conditions. Rev. J. E. Beckel discoursed on "I am the light of the world."

Mr. and Mrs. Gordon Linn and Ruth spent Saturday with their parents Mr. and Mrs. R. Watson, Campbellford.

Mr. and Mrs. Ray McGee entertained Mr. and Mrs. Carman Nix on Thursday evening.

Miss Faye Andrews spent Friday tea hour with Mr. and Mrs. Clifford Scott.

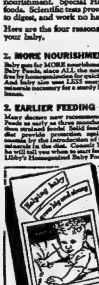
Mr. G. F. Hubbs, Campbellford, has been holidaying with relatives at Mount Pleasant, Belleville and Shannonville.

Mr. and Mrs. Wesley Moore, Belleville, spent Sunday with Mr. and Mrs. Dave Cotton.

Mr. Wesley Farrell opened Bethel Young People's Union and after devotional exercises the convener Miss Lulu Hoover took charge.

Miss Irene Tucker led in community singing. Master Bobby Elliott sang "The Dying Boy's Prayer" and the president gave a short talk on the song. The Bible lesson was read responsively. Mrs. H. V. Hoover gave an interesting topic and Rev. Vile spend Sunday with Mr. and Mrs. Dave Cotton.

Miss Ada McMullen rendered an instrumental selection on her guitar. At the close Miss Phyliss Beckel staged a contest.



On Friday evening Springbrook L.O.L. entertained members of Wellmans, Tanner and Marmora Lodges to their annual At Home. The hall was well filled with representatives from the four lodges. Mr. Lindsay Tanner was chairman and special music was given by Mr. Maurice Bell, banjo, and Mrs. R. Haggerty, piano. Miss Frances Jeffrey sang a vocal number and Mrs. Percy MacMullen gave two humorous selections.

The address of the evening was given by Canon C. W. Swayne using as his subect "Unity" at the close of the programme all were invited to the basement where the ladies served an appetizing lunch.

The young people then enjoyed a few hours of dancing with music supplied by Messrs Bell and Haggerty and Mrs. Haggerty.

Mr. and Mrs. Clarence Dunbar recently entertained Mr. and Mrs. Carl Dunham and family, Mount Pleasant, Mr. and Mrs. Charles Baldwin and family of Carmel.

Mrs. Clifford Clancy and Ruth spent a few days last week with Mr. and Mrs. Richard Haggerty, West Huntingdon.

ARE ALL BABY FOODS PRETTY MUCH THE SAME, DOCTOR?
NO! FRANKLY LIBBY'S BABY FOODS HAVE FOUR DECIDED ADVANTAGES
A SAFER FIRST YEAR FOR YOUR BABY WITH LIBBY'S HOMOGENIZED BABY FOODS!
Easier and Safer Digestion . . . To help bring baby safely through the first critical year a great discovery by Libby makes it possible for you, Mother, to give YOUR baby fine, concentrated vegetables, fruits and cereals. Libby's exclusive process of homogenizing these vegetable combinations, one fruit combination, one cereal combination and one soup combination, does MORE than the finest sieve or strainer ever could or can do. This method breaks up or "explodes" thousands of tiny tough-walled food cells that contain solid food concentrations. Special Homogenizing also frees all the nourishment in solid foods. Scientific tests prove that Libby's homogenized Baby Foods are thus easier to digest, and work no hardship on Baby's delicate digestive system.
Here are the four reasons why Libby's Homogenized Baby Foods ARE best for your baby.
1. MORE NOURISHMENT
Baby gets far MORE nourishment from Libby's Baby Foods. Some ALL the nourishment is set free by homogenization. Libby's Baby Foods are actually richer in food values. LESS concentrated foods obtainable necessary for a nearly finely and strong baby.
2. EARLIER FEEDING
Many doctors now recommend Libby's Baby Foods as early as three months—earlier than ever before. Special Foods similar to the diet provide protection against nutritional deficiencies. Libby's Baby Foods are ideal for the baby's first solid foods. Consult YOUR doctor as to just when you start feeding your baby Libby's Homogenized Baby Foods.
3. FEWER DIGESTIVE UPSETS
Baby digests Libby's Baby Foods so easily because of the extremely small particles of nourishment. Libby's Baby Foods being so much smoother and finer—help to avoid digestive upsets. No wonder Mothers find Libby's Homogenized Foods so a great advance in baby feeding.
4. A BALANCED DIET EVERY DAY
Libby's special combinations were recommended by a group of leading baby specialists. Each one of your 17 foods is a combination of the necessary Vitamins and minerals baby must have every day. Libby's Baby Foods are free from "fillers" and "starches" that have no food value. Baby gets a BETTER balanced diet than is obtainable in any single food.

MOTHERS! Valuable Book

COACH OF HAWKS ASKS NEW DEAL FOR OFFICIALS

Bill Stewart Recommends Fines With Misconduct Penalty

START FARM SYSTEM

Coach Says More Spot Decisions to be Made in Hockey Than Baseball

By WILLIAM M. DUNSDAY

New York, Feb. 3 (CP) — Bill Stewart, rugged little bald fellow who ruled with an iron hand as a referee before taking over the task of coaching Chicago Black Hawks, thinks it's high time the National Hockey League ordered a new deal for officials.

"When misconduct penalties are handed out to players for abusing referees, recommendations for stiff fines should be made to the league president," Stewart said before leaving his team to Montreal where they play Maroons tonight.

Senior referee in the N.H.L. last season and a National Baseball League umpire, Bill frowns on players and managers could go a long way to make hockey refereeing a "respectable job". Unruly actions encourage fans to heap abuses on officials "doing their level best, one of the toughest jobs in sport."

Make Clubs Respect You.

"The psychology of refereeing and umpiring is to make the home club respect you," said Stewart. "If you don't the fans will ride you at every decision. A player who pushes an official should be suspended—they never get fines, because I'd push them right back. I didn't care if they were as big as a house.

"A referee is bound to be criticized for odd mistakes in judgment because he has to make so many more spot decisions than, in baseball or other sports. You can follow the flight of a ball and scrap plays in baseball but it's tough to follow the puck in hockey through all sorts of legs."

Stewart, who took over the wobbly Hawk machine which finished in the American section cellar last season, has hopes of driving his team into the playoffs. They now hold a five-point lead over the Detroit Red Wings, hardened defenders after winning two successive world titles.

Start Farm System.

"We are working steadily on building a farm system along the line of New York Rangers and, we'll have an amateur club somewhere next season and a junior team to be presented with a minor league club" said the Hawks coach, who never played in organized hockey, himself.

"Things are shaping up nicely and we have some good kids in line, with scouts busy in Saskatchewan, Toronto and Ontario. It's hard to own these joints we will draw our amateur club from a few recruits for the Black Hawks."

Born in Dorchester, Mass., Stewart said his father, a Nova Scotian, Hawks owner, was not pursuing his plans to give Chicago an all-American team. The fact eight of the present club players are American bears no significance.

BEAR HUG ME EYE! HE'S USING HIS TEETH!

This is supposed to be a bear hug that Ivan Rasputin that way and complains that Ivan is biting. Looks tin is going to be a busy evening for the basket-ball star though Cole may be right. The referee is investigating bout in San Francisco. But Cole can't see it getting that awful possibility.

Sports Roundup

By EDDIE BRIETZ

New York, Feb. 3 (AP)—Ho, hum . . . European prospects are also looking that Ernie Weiss, newly-imported Vienna bantam, is the classiest continental cloister since Jimmy Wilde. . . . Where've we heard that before . . . Ole Hanna Rouse gang is trying out four pitchers, three infielders and one outfielder . . . Hockey Slaughter from the American Association champs this spring. . . .

Seems like the State Boxing Commission can't see 'em for arty sake . . . putting thumbs down on those pictures of Tony Galento wrapping himself around a schooner of suds. . . . Rip Sewell, Pittsburg ace flinger is assistant police chief down at Paint City, Fla. . . . Watch out for this guy Tex Trayhorn . . . Hap Lajoie is spending most of his time shooting golf balls down at Daytona Beach . . . when he's not deep sea fishing.

Bill Brandt's new National League screen book tells you Dizzy Dean has the percentage over every club in that National League, Carl Hubbell is in the red only against Brooklyn, and Van Mungo is on the short end against Bucky Walters and Giants in their big league careers.

'S-funny, but Montreal fans are giving hockey (their No. 1 sport) the cold shoulder, while packing 'em in for those wrestling acts. . . .

When Harold Jacobs beat Lightning Red Burman and Bob Tow, showed up at the Hippodrome last night both Dempsey and Jim Braddock were not the seconds (as advertised).

FIGHTS LAST NIGHT

Oakland, Calif. — Phil Brubaker, 203, Dinuba, Calif., stopped Johnny Rejawe, 181, Duluth, Minn., (3).

Blood corpuscles of the human body normally die at the astonishing rate of twenty million per second. With every voluntary or involuntary muscular action thousands of them perish. . . .

Plant scientists are trying to produce a water melon that will fit the average ice box.

The thoroughly dried body of a 150-pound man would weigh about 50 pounds. Approximately 80 per cent of the blood and 50 per cent of the bones is water. . . .

Dairy scientists are experimenting with the injection of pituitary extract into cows to increase milk production.

OSHAWA G-MEN DOWN GOODYEARS

Kitchener Greenshirts Win Their First Game in Senior Company

Just as the Ontario Hockey Association's senior "A" is nearing the end of its schedule, Toronto Goodyears have dropped into one of those slumps that hit every hockey team now and then.

Last night, Oshawa, G-Men walloped the league-leading S-3, administering Goodyears' second successive defeat. It may be that other teams in the loop have mastered their style of play, but the Toronto gang seems to have lost a lot of the punch that carried them through eleven earlier games without defeat.

The defeat did not affect Goodyears standing at the top of the league. With nine wins and two draws garnered earlier in the season they have a total of 20 points, five more than the second-place Port Colborne Sailors who broke their undefeated streak last Friday night, and six more than G-Men.

Last night was a great night for the group's underdogs. While G-Men were humbling Goodyears, the lowly Kitchener Greenshirts came through with their first win of the season.

The Greenshirts, whose greatest achievement before last night was a draw, punished the almost-as-lowly Brantford Rangers 8-0 in a game that featured superb goal-tending by Rinky Binderagel and a sunkissed variety of speed and cunning on the part of Kitchener forwards.

Oshawa, cheered on by a hometown crowd, led Goodyears from the start, outscoring the visitors two to one in each of the first two periods and matching Goodyears' single in the third. Kitchener, also playing at home, snared a one-goal lead in the second period and added four more tallies in the final session.

Next game Feb. 6 at Hull, Providence and Whitton for Deseronto showing lots of speed and as a result kept the puck in the Shannonville zone but they kept up the attack and passed by the splendid goal-tending of Barry in the Shannonville nets. The Marmen were on the run and forced the puck in the Deseronto zone and finally scored when Harold Marcelle banged the puck in when Sharpe in the Deseronto nets was slow clearing.

In the second period Deseronto came back and with Jack Houle and Jack Fraser getting their goals. Houle scored through the last stanza when Harold Marcelle again scored with an assist-high drive.

For Shannonville the "A" line of Harold Marcelle, Lorne Marcelle and Eugene Marcelle were easily the pick of the ice, although he consistently refused to pass the puck Eugene scored the best for Deserotto. The remainder of the team for Shannonville on Saturday night when a bumper crowd is expected.

SMYTHE BREAKS FAMOUS LINE

Appa, Drillon, Jackson Accused of Not Back-Checking

By A. E. FULFORD

Hockey presents few spectacles so rib-tickling as the antics of Toronto fans when their Maple Leafs are not leading the National League in everything but penalties. In Toronto a one-game losing streak is practically a slump.

Maple leafs are not doing so badly at the moment but the fans seem far from satisfied. The talk in the exclusive clubs and the taverns is about the lack of backchecking. The need for another good right winger to replace retired Charlie Conacher.

The supporters wonder whether Toronto's Irish Prods is holding up his end, whether the defence is as sieve-like as it seems on occasion. All this despite the fact Leafs are leading the Canadian division and have led it since mid-December.

The current outburst of suggestions for Manager Conny Smythe who, despite his Irish name, is Canadienne 5-1 win over the Toronto team in Maple Leaf Gardens, bringing the Habitants within a game of the division leaders. The Montrealers still attempt to wipe out that game tonight at Toronto.

Break Up Line.

Even before the fans had a chance to howl Smythe had decided to do something about the Leafs' lack of back-checking, particularly in his high-scoring line of Harvey Jackson, Syl Apps and Gordon Drillon.

He has broken up the combination that has scored 79 of the Leafs' 96 goals this season, the trio that headed almost half the Toronto marksmen last season.

Jackson is being dropped back to a line composed of the big left winger, Buzz Boll and Bill Thoms. Bob Davidson will move up to work with Apps and Drillon.

It is emphasized that Jackson is not the only culprit on the high-scoring line and that the only reason he is being dropped back is that a right wing substitute wasn't available for Drillon. It seems Drillon, the league's leading point scorer is no more a two-way man than Jackson.

JOHNNY MUNRO IS HIGH SCORER

Queen's University Takes Varsity Job in College Game

Kingston, Ont., Feb. 3 (CP) — Queen's University star, Johnny Munro, their ace football and hockey player, is back in great form today for a 4-3 victory over University of Toronto in an intercollegiate hockey game.

Munro, who has rounded into one of the best scoring threats in senior loop, led the Kingston team to victory here last night by scoring two goals. Victory gives Queen's a tie with the Toronto team for first place in the Canadian Intercollegiate League and into a tie for top place with McGill in the International Intercollegiate League.

A real closing rush by the Toronto team gave Queen's the game as three goal lead Queen's matched up in the first two periods with Munro and Craig, for Toronto, scored the only goals of the last period.

But before Munro added one soon after the start of the game and although Queen's outshot it up Carver put Queen's ahead again in the same session. Munro scored his second goal before the second period was three minutes old and Williamson added the fourth Queen's mark-er in this period.

KI-Y NOTES

Owing to conditions beyond control certain scheduled dates in the Ki-Y basketball schedule have to be changed slightly, Secretary J. E. Shortt announced this morning.

Games in the bantam, midget and juvenile series will be played on the Ki-Y arena on Friday next day. In the bantam group the High Schools clash with the Collegiate-backers at the Arena on Friday afternoon at 4.15 p.m. when the pup. On G.S.S. squad meets St. Michael's in a midget game to be followed at 6.15 by a game between the Flying Wings and the Wildcats. The juvenile group opens at 7.15 p.m. Friday night with the Bruins meeting the Hawks. On Saturday at 1.00 p.m. the "Chip" Pups meet the Gorillas in a bantam game.

ZIP through stubble right at the best line and give your face a grand "lift" with a Gillette wake-up shave! Gillette Blades shave cleaner, closer and thoroughly refresh your skin, because they're precision-made for your Gillette Razor. Enjoy these longer-lasting and more comfortable shaves! CALLING 'EM

Between the Lines

with *Ken J. Colling*

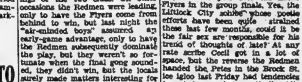
Turning what started out to be a route into a thrilling finish, the Redmen were eventually handed their worst defeat of the current O.H.A. season, when they forced the Flyers last night. To make a long story short, the scandal goal-tending of Gibson coupled with the ability of the Lawrence-led outfit to make their shots really count and add a little erratic shooting on the part of the Redmen and that about tells the tale of why one team won and the other lost. Despite the fact the "Birdmen" were leading 7 to 0 as the last stanza got under way, the game had its moments with the Thomasites tossing a real scare into the Flyers' camp in the final frame.

There were a few outstanding features to the game, regardless as to which side of the fence one sat. Bert McKelvey's bullet-like shots really took effect, Louie Lecompte played his best game of the season on the home ice and was amply rewarded with a brace of counters. Ken Murphy really showed the boys what hockey is all about as captain, ask Captain Stan Partridge. Individually Murphy was doling out legitimate body checks' all night and we see no reason for his not to be in a league for successary attacks. The kid is clean and speedy. Miss a feature—Larry Gibson's sensational, gigantic and colossal work between the Ajax men's goal posts and the lack of protection around the opposite net at times.

Here are some statistics—in the first period the Flyers scored three goals on seven shots on net, in the second frame they notched four, when they only had 11 shots on net; that's really making your shots count as we see it. At that it was a queer tussle, the exact reverse of the three previous meetings of the two clubs. On other occasions the Redmen were leading the pack, the Flyers came from behind to win, but last night the "air-minded boys" assumed a really-game advantage, only to have the Redmen subsequently dominate the play, but they weren't so fortunate when the final gong sounded, they didn't win, but the locals surely made matters interesting for the fans.

Mathematically let's see how matters stand in and around the local senior O.H.A. group. Last night's shindies in the Flyers and Red Wings' camps, but the locals are still in the running for point game with Queen's, which they hope to win on Friday. Tommy Lawrence's boys invade the Brock Street arena in Peterborough, while the Redmen move into Queen's home ice. A win for both squads would mean a Monday's game back here, betwixt the Flyers and Redmen, perhaps the most important game of the entire series, yes, the tussle next to the whole show, as well as all back and merely watch the pro-

ceedings, but in the meantime we still contend we have the best team in the province.



Walter Cerow's Napanee juniors vindicated our previous selections in their group, when they trounced the Picton Kids 8-3 right in the heart of Picton last night. The Napanee kids enjoy a five goal lead to haul back home, but we are sorry to have to report, that Carman Welbanks, Picton's star defenceman, sustained a fractured ankle, which no doubt handicapped the homesters.

In order to accommodate the Flyers, who are scheduled to meet Kingston in the Van Horne final next Wednesday, Skipper Eddie Thomas agreed to advance the Redmen's scheduled game of next Tuesday ahead to Monday night, giving the Redmen four games in eight nights. Next week Coach Carling-Kelly's charges have two games with C.H.A., one here and their Van Horne stand facing them.

Apparently our little scoop of last week was the false rumour. Yesterday a tall rangy youth got into the ring at Napanee and later turned out to be Robert Bell, Fermer Winnipeg pitcher, whose playing days it said to be tops in the mid-western city. It is understood that Bell can now say—"today I am a man," as he entered the land of manhood he hurled his first season of senior ball in Winnipeg and consequently sees the best pitching records in the history of the Winnipeg Senior Baseball League. All Manager Walt Gerow needs now is a first-string catcher to handle the shoots of his newly acquired moundsman, however.

Breaking forth in poetry and song (???), the Lifluck City scribe has penned verse (??) glorifying the Flyers' victory and subtle quotes efforts have been quite strained at times but few mention could it be the fair sex are responsible for his trend of thought or lack of any rate scribe Cecil got in a lot of space, but the reverse the Redmen handed the Petes in the Brock St. be igloo last Friday had tendencies to not disagree but practically obliterate the efforts of Poet Perdue. With the coming of spring grape style, the Peterboro scribe poet, pooh the Redmen's chances, but remember Jude, he who must last, sometimes poets more fastly. Remember the season of 1937, or is that too tender a subject, pal?

In passing—kinda disappointed in Roy Wilders of late . . . He's not playing the brand of hockey he'd know he's capable of. . . Roy used to be on a goals and-blaze away with bullet-like precision for goals. . . Roy Covert is the leading scorer with the Oshawa seniors these days and right up with the leading sharp-shooters in the group.

C'MON, LET'S SERVE—Aha! Not results of a cameraman's trip to the tennis courts at St. Petersburg, Fla., Junior college. All right,

"FLYERS" RETAIN SECOND PLACE IN STANDING

Proficient Marksmanship and Sensational Work by Gibson Earn Flyers Win over Redmen

Belleville Team Outplay Airmen in Third Frame

ROUSING TUSSLE

Murphy, Lecompte And Gibson Were Stars of The Contest

Phenomenal early-game goal-keeping on the part of Laurie Gibson, coupled with his team mates' ability to make their shots really count, gave the Belleville Flyers a seven goal lead to take into the third stanza and on which they contested to an 8 to 4 senior O.H.A. victory over the Belleville Redmen at the Arena evening.

Thwarted by Gibson at every turn in their efforts to score in the early stages, the Redmen dominated the play in the latter period to stage a thrilling rally and eventually whittle the airmen's advantage down to give a thousand howling fans real cause for an opportunity to exercise their vocal chords but the mammoth lead piled up by Coach Tommy Lawrence's squad in the early stages proved too great of an obstacle to overcome. The Flyers scored three counters in the initial period and added four more in the middle stanza as the locals could only beat the seemingly invincible Gibson.

Loose Protection.

Some rabbit loose protection and clearing paved the way for several of the Flyers' early-game goals, however, last night. Indicative of this fact although the winners proved to be responsible for numerous and richly deserved their win by virtue of more accurate shooting, the Redmen's checking was inconsistent and erratic at times, although Eddie Thomas' charges outplayed the visitors in the last stanza to give the patrons some real action.

Belleville—Joel, Hinton; defence, Murphy and Bentley; centre, G. Jackson; wings, Wilmot and W. Jackson; alternates, McGuire, St. Denis, Storms, McCreary and Bentley.

R.C.A.F.—Goal, Gibson; defence, Lalonde and Partridge; centre, Wigglett; wings Ern McNeeley and Cowan; alternates, Lecompte, Eric McNeeley, Legris, Halward and Elliott.

Referee—A. W. Armstrong, Oshawa.

Shots on net by period:

Belleville ..... 7 11 8—26

Belleville ..... 7 10 13—30

Summary:

First Period.

R.C.A.F.—Lecompte (Legris, Ern McNeeley) 7.16

R.C.A.F.—Ern McNeeley 10.56

R.C.A.F.—Lecompte 11.37

Penalties—Eric McNeeley, Bentley.

Second Period.

R.C.A.F.—Lalonde (Wigglett) 4.15

R.C.A.F.—Wigglett (Elliott) 6.34

R.C.A.F.—Eric McNeeley (Lecompte) 7.30

R.C.A.F.—Lecompte (Legris) 16.35

Penalties—None.

Third Period.

Belleville—W. Jackson (Wilson, C. Jackson) 2.38

Belleville—St. Denis (Storms) 4.31

Belleville—McGuire (Storms) 9.21

Belleville—Wilson (W. Jackson) 19.24

R.C.A.F.—Lalonde (Partridge) 14.34

Penalties—Ernie McNeeley, Eric McNeeley.

COOK PLAYS AS THE BARONS WIN

Ex-Ranger Assists Team in 5-4 Victory Over New Haven

Bill Cook, the former New York Ranger great, probably figures that now is the time for all good men to come to the aid of their party. And Bill is considered by many experts to be as great a hockey player as ever held a stick.

Bill just took over the duties of coaching Cleveland's International-American Hockey League Baron's this year after years of service with Rangers in the National Hockey League. And Frank Boucher and Bill Cook-Bun Cook front line was broken up last year when time took its toll.

But to add a little more dash to the attack of his already high-flying Barons he took a turn or two on the ice last night as Barons won 5-4 over New Haven Eagles to stay in front in the Lockey section. Bill didn't score in his first appearances of the year in a Cleveland uniform.

While Barons were winning, Pittsburg Hornets were pace with them by blanking Springfield Indians 2-0 and Providence Reds split the points with Syracuse Stars by drawing 1-1 in overtime.

A hotel in Nanyuki, Kenya, is divided by the equator. A strip of sealing wax runs right through the bar. A retired naval officer, Commander Hook, fixed the position accurately 16 years ago.

CHIPS from the SPORT BLOCK

By Geo. H. Carver

To all scouts and purposes the Canton "Westinghouse" Junior "O" squad may as well pull up the ground wires, roll up their aerials and doff their hats to their chances to cop the group title for this year anyway.... For last evening's starry aerielte, wearing the colors of Gibbardville, and paced by that starring front line of Gerow, Evans and Leary, smoked the chances of the Picton squad branded an 8-3 defeat in the Picton arena.... After the first period there was not any doubts as to the ultimate winners .... The Westies rang, shooting an uncanny passing ability and using their heads as well as their sticks when inside the opposing blue line, rammed home two counters in the first period, three in the second and topped the effort off with another trio in the third.

The Picktonians however, fought back gallantly but the smart little money team from Napanee showed too much class, experience and coaching, that pure intestinal fortitude and a fighting spirit could not overcome.... The checks were down last night and the right men were on. Wait, told the lads to get out their best and win.... And the kids obliged with the best hockey that has been ever seen in the Picton igloo.

The squads play the return game on the Bay city ice tomorrow night, and unless a miracle happens, which it possible but not probable, the honorable task to accomp off the ice with a comfortable margin in the first side of the score sheet and the group title, will be theirs.... Picton has been handicapped as their stellar defenseman Carman, Richards and Gerow, have been quite injury in the game last night that necessitated their absence from the ice.... But at all likely that he will be able to play tomorrow night.

And by the same token, they tell us, a fighting band of Flyers decked up by the sensational puckstopping efforts of Laurie Gibson in the hanger behind them, hedgehopped to an 8 to 4 victory over a surprised tribe of Redmen last night at the Arena.... Those Belleville berghs literally flew along the ice lanes in the first two periods and the Redmen were treated to a display of the national pastime, that Lecompte, Ern McNeeley and Flyer supporter oodle chalking up the pertaining counters in the first last poet looted to end the second period.

In the third dash and last chapter, the Redmen came to life, hitched up their pants and tore into their erstwhile fifting opposition with a determination, that was fast and furious.... Four goals the red light flashed behind the Gibsonian corral as the smarting Redmen took to the air but their efforts were belated.... This boy Gibson was to hockey stratosphere heights, and in spite of the fact that a number of disgruntled fans voiced the opinion that his efforts were accompanied by a flock of hallucinations, turned in a display that deserves at least a few paragraphs mentions.

And Pierre and Mason, two Gauls from the north country viewing their first hockey match in the banana, have voiced their enthusiasm in no quiet manner.... "By Gar," cried Joseph Mason, dat Flyer, she is wan tam good team, eh.... She is wan tam cull, plenty fast, tricky and plenty of der shoot, too.... "Oui Oui," comes back the second Gallic echo, "and she has plenty of dat Frenchman, too, Le-Mason.... Dat Gibson, she is not-bes-bes this McNeeley, she is Irish, eh.... They say she's Irish like, but wat you call, whirlwind, and make dem scat faster look vair slow, Non'-ce?.... And dat gerow, Ohhoo, he tick out puck faster than Suzette Hi Lee Mc'ee man, when he take to mooch whisky blanc".... He is wan smart feller, too.... But bimeby mebbe in t'ird period, dis red man, he get tire, eh, and den, we, you say, dinked as doughnut behind Wilmot.... Ohhoo, dat's feller are too late.... Des flyers, dey are too smart, dey keep de puck plenty.... Mebbeo we bring dem Le Rondeau sometime, eh Mason Non'-ce.... My play almost my back dere.....Ze garcon there, she is wan smart feller, too.... Play as smart wis ze iron weight.... "Poof, Poof, dem boys here plenty fast, but not toff."

Belleville motorcycle enthusiasts will remember the clean-cut Tony Miller, one of Canada's outstanding racers, and his sparkling performance on the ice last night as Barons won 5-4 over New Haven Eagles to stay in front in the Lockey section. Bill didn't score in his first appearances of the year in a Cleveland uniform.

Miller was a splendid type of Canadian athlete who made a name for himself on the motorcycle tracks of this continent as a racer of ability and courage.... He possessed a splendid spirit of sportsmanship, that was exemplified at the race here, when Miller was just as delighted to see Pepper win as George was himself.... Miller dashed to Pepper's side after he had completed the race and was the first of the competitors to congratulate the Belleville youth.... The sympathy of the many local admirers goes out to Tony.

HITTING THE Head pin

Scoring of the Game

Many have expressed the opinion that the scoring system of bowling now in vogue should be changed. The idea would be to have the four pin replace the centre pin. This system prevails in some municipalities and no doubt has its advantages. It certainly is a blessing in disguise to the strike bowler.

To your correspondent, the Eagles are the most important part of the game, you can name plenty of top notch bowlers who rarely miss the head pin, but find it more difficult when the four corner pins and by placing those corner pins in the minority the chances will low. Indeed, such a system would be a marked contrast to the C. B. A. system, at present. A better solution would be to re-arrange the pins as indicated by the illustration making both sides equal. Taking out the head pin is the fear of the bowlers, and it has been suggested to enlarge the girth of the centre pin making it more difficult to knock on alone. In the meantime, the top averages would undoubtedly soar to the 300 mark instead of 290 or so as at present, and surely we can stand a higher average. This may be the solution.

Let's have your ideas on this question, and regarding that any game that cannot be beaten will always be a popular pastime.

WRESTLING LAST NIGHT

Philadelphia — Sandor, 175, Houston, Tex., threw Kinsan Kudo, 170, Japan, 36:31. Dean Detton, 202, Salt Lake City, pinned Chief Thunderbird, 196, Vancouver Island, 22:34.

Los Angeles—Sandor threw Kudo, 175, Hungary, defeated Fran Rasputin, 210, Russia, two out of three falls.

St. Louis—Young Frank Gotch, 205, Columbus, defeated Tough Singh 215, India, one fall, 22:17.

Denver—Jim Londos, 200, Philadelphia, defeated Ray Steele, 215, Glendale, Calif., one fall. Gus Sonnenberg, 208, Boston, tossed Jack Holland, 210, Hollywood, 6:32. Bill Hanson, 218, Salt Lake City, and Hanson, 218, Hamburg, 222, New York, drew, (30:00).

REICH SKIING STARS PIT THEIR SKILL AGAINST UNCLE SAM'S BOYS

Star skiers from German universities are pictured as they arrived in New York en route for the Green mountains of New Hampshire where they will take part in Dartmouth's annual winter carnival. Left to right: Carl Hieger, Fritz Dolmel, Franz Maechler, Richard May, Walter Ringer Yavzec Kraisy, Cumbler Riebie and Siegfried Ilet.

COURIERS SCORE WIN OVER MADOC

Trent Valley Fixture Taken by Trenton by 4-3

Trenton, Feb. 3 (Special)— On home ice it's hard to beat the Trenton Couriers. Made at least is one team in the Trent Valley League, that has found that out. Last night with close to 700 in attendance the Couriers played a brand of hockey, that satisfied all but the Madoc supporters to defeat their rivals by 4 to 3. The Hawkers were without the services of "Bud" Davis—daily star centre man but managed to perform perfectly although the big middle ice performer could have been used effectively on a number of occasions especially when the locals attempted to penetrate the visitors defence. Normie Johnson turned in one of his best games this season and fig ured in the scoring of two of the Courier's goals. Miller and Lalonde the latter brought in Bill Davis' shoes worked well with Johnson and the trio were easily the most outstanding threesome on the ice.

Keliar Scores Two

Keliar the invaders right wing man rang the bell twice for his team and was about as brilliant an individualist as has been seen here to date. He combined beautifully with Alexander in the second session to insert his first counter and skated through the entire Trenton gang in the last minute of the third round for his second score. The penalty Alexander had little to do all evening and only checked two players, Middleton of Madoc, following 4-1 in a game thi lacked many thrills seen when these teams met on former occasions.

About the only redeeming feature of the game was the fine performance of Campbellford and the good network of Ezel Fox in the visitors' goal. Campbellford stopped the winning streak of the Stirling crew who have won their last four starts.

MANAGERS — Big league chiefs at Philly baseball. Left to right, McCarthy, Cronin, Harris, Dykes, Griffith.

The Game

Play started slow with neither of the teams displaying any brilliance. After four minutes of play Haddick nd Couch went through the visitors' defence but Sally stopped Haddick taking the pass from Couch close in. With eight minutes of play left in this period Fox went through alone to put the locals two up. After seven minutes of the middle period Ackers took a pass from Leonard for Stirling's lone counter and again the visitors lapsed into a spell of ineffective play with Campbellford checking them closely at every stage of the game. Phillips and Haddick went through on a nice passing play and the score stood at 3-1 for the homesters at the end of the second.

The last period was slower than either of the other two with Phillips netting the only counter. On the play Campbellford deserved even a larger margin only the fine work of Fox in the visitors net kept the score from being much higher. No bouquets could be tossed in the Stirling direction. They suffered an off night and their performance was very much below par.

Phillips, Couch and Jarvis were the choice of the Campbellford crew but the entire team played a fine game. For the visitors every one but Fox seemed to suffer an off night. Robinson and Leonard were choked to a standstill by the Campbellford forwards and the line of Baker, Reid and Morton could do no better. Having come through their last four games as a winner the Stirling boys must be satisfied. They came in a while as they can't win all their games. They don't play again until next Monday and perhaps the rest will be a tonic to them.

Line-ups

Campbellford: Goal, Turner; defence, Wilkes and Lambert; centre, Locals two up. After seven minutes Couch; subs, D. Couch, D. Free, Blake and Jarvis.

Stirling: Goal, Fox; defence, Ackers and Gerald; centre, Robinson; wings, Leonard and Fraser; subs, Butler, Reid, Morton and Somers.

Referees: C. A. Wells, Stirling; C. Hickens, Campbellford.

Badly beaten in a fight with another worker near Fleterburg, S.A., a native, unable to stand the jokes of his friends, walked into the bush and hanged himself.

When a man carrying two guards and four prisoners to Lewes Prison, Brighton, Eng., escaped, the guards were hurt, fast-ball being given by their chief.... The journey was completed by bus.

Because of housing shortage in Simla, India, it is proposed that certain government departments remain in the year round. At present all departments are moved from Delhi to Simla during the hot weather.

WOMAN 'AGENT'

(Continued from page one)

In 1934 she said, she met Glading, who had an office in the same building as "The Friends". She testified she learned he would go abroad on business and when and in February, 1937, rented a London flat under his direction. Meanwhile, she learned photographic copying.

War Office Interested

There, "Miss X" said, a couple named Stevens, who spoke French and who according to Glading had lived in Moscow, directed making of hundreds of documents, all allegedly stolen plans.

The witness, she testified, later disappeared.

During this whole time "Miss X" kept in touch with the war office and phoned officials the night before Glading was arrested.

G. B. McClure, elder prosecution counsel to the Crown, successfully opposed bail for the defendants. He said there was evidence of "contact with a foreign power" and pointed out that "a certain country would welcome them with open arms."

Prosecutor's Charge

Glading was employed at Woolwich until 1936, Other defendants are Albert Williams, until recently armament engineer, and Mrs. Ethel George Whomack, assistant foreman of the machine shop at the arsenal, and C. W. Munday, assistant chemist.

Mr. McClure declared Glading had "prepared to act as traitor to his country" and demanded the others be held to bring him the plans for copying.

"Mike" Mr. McClure said, acted "as Glading's agent in renting the apartment where photographic copying was carried out, near the ostensible help.

Plans Far Gone

Some of the plans were of the new 76-inch naval gun, Mr. McClure asserted, "but it appears that the army, the navy, the air force and munitions all were the subject of interested inquiry by this man Glading."

Other plans mentioned involved a confidential book on explosives, a new type of bomb and an anti-aircraft tank pistol.

Glading and Williams were arrested at the Charing Cross an. 31; Whomack and Munday were taken into custody later.

The prosecutor said negatives of the anti-aircraft gun plans were found rested at Charing Cyss Jan. 31; rested at Charing Cyss Jan. 31; fore his arrest Glading was said to have told a friend: "I will die by my hand over "the stuff to a new man."

QUEBEC MEMBER

(Continued from Page One)

Charges Discrimination

The previous day Mr. Woodsworth demanded the Lapointe law be repealed and charged the federal government with discrimination in the matter, allowing Albert legislation and allowing the Quebec measure to stand.

Yesterday Eric Poole (S. C. Red Deer) took a similar line and suggested the reason for the different treatment was that the Quebec law was framed by organizations which were seeking a way out of concentra d difficulties while the Alberta measures disallowed were aimed at the banks.

The demand for investigation of Conservative leader Bennett's charges of political corruption was voiced by Rene Pelletier (S.C. Peace River). He said they should probed by a parliamentary committee and did not accept Quebec premier Maurice Duplessis' suggestion, that any person, having information about corruption should prosecute. Duplessis' suggestion, that any person, having information about corruption should prosecute should obtain an investigation before a Superior Court judge by depositing $1,000.

Mr. Mackenzie King's remarks came at the end of the sitting in answer to a question from the Peace River member. He said Mr. Bennett had made no specific accusations. Mr. Bennett has said nothing about the matter since Monday, when he declared political organizers were making series on government contractors and contractors ding work for the Canadian National Railways.

Advocates Joint Station

Mr. Mallette advocated a joint station in Montreal for the Canadian National and Canadian Pacific railways. Construction of a depot would give employment to hundreds of people which was better than the dole.

This was not the time to open immigration bars, Mr. Mallette said in a passing reference to the subject. He was glad the Throne Speech made no mention of it.

Douglas Sloan (Toronto-St. Paul's) wondered if the Canadian Broadcasting Company was becoming an agency for the very thing it was created to prevent from the air. He said if CBC was becoming an agency for American advertising, it was a serious matter for Canadian facilities and public money.

If a Canadian performer published a Sunday edition so as to collect advertising revenue, he would be prosecuted, Mr. Ross continued. Apparently CBC held itself above this law. He understood $200,000 in newspaper and periodical advertising was affected by the policy more of CBC to accept American programs.

Mr. Ross wondered where the extra $200,000 increased radio licences would go. He could see no improvement in radio reception or CBC programs. He suggested CBC concentrate in making its programs better, developing Canadian talent and, if necessary, accepting Canadian, not American advertising.

The fragrant and common heliotrope that is widely popular in England was brought to Europe by Peru to France and theme to England.

BELL SHIRT CO.

(Continued from page one)

rooms.

Shortly before seven o'clock the flames were observed by men under control by Fire Chief William French.

Firemen, however, were not poused on duty in case of an emergency. Buildings and contents were covered by insurance, it is stated.

Partner Makes Statement

Eighty thousand dollars will just cover the damage done by this morning's fire," Mr. S. J. Hibberd, manager of the Bell Shirt Company, stated after viewing the smouldering ruins of the cutting and stock rooms.

"Forty-five thousand dollars will barely cover the damage done to stock while the remainder will cover that done to machinery and building."

A flight drinding rain accompanied by flurries of sleet, facilitated efforts of the fire department in keeping check on considering the flames and water. Water dripping through ceilings and floors saturated quantities of stock ready for shipment, stored in shelves in the lower floor.

Investigators and officials of the company viewing the building shortly after ten o'clock this morning discovered damage to be much greater than was at first estimated.

Thrust stock in the cutting room or situated on the top floor of the building was seriously damaged by flames and water. Water dripping through ceilings and floors saturated quantities of stock ready for shipment, stored in shelves in the lower floor.

"Our spring shipments were ready to go out," Mr. Hibberd stated, and considerable damage was done to this part of the stock in the building.

Roof Badly Damaged.

The roof covering the central part of the building immediately over the cutting room is practically destroyed. Flames ate their way through this part, destroying beams and sidings. Burning embers flashed downward to stock-covered shelves causing undetermined damage to rolls of uncut stock.

Workmen were busy cleaning up debris and ruined furniture and clothing in the apartments owned by Russell Smith situated in the south end of the building at eleven o'clock today. Water was shoveled out of rooms and directed down hallways to the street. Practically all the household effects of the six apartment occupants were damaged. Turpentine rushed into the smoke filled water-drenched dwellings by occupants and spectators to cover pieces of furniture, reduced damage to some extent.

Water dripping through floor caused damage to stock of the Battery Service Rooms located in the south end of the building, operated by Mr. Russell Smith. "The extent of the damage is not yet known," Mr. Smith stated at eleven o'clock this morning. We are busy checking now to see just what damage has been done."

PLANES SCOUTING

to the scene.

The collision occurred late last night, directly south of San Clemente Island as the full might of the United States fleet went through tactical exercises under simulated conditions of war.

Type of Machines

The planes were of the same type as those which have made many long distance mass flights without accident. The latest exploit was Jan. 19, when 18 of the big flying boats flew 2,370 miles from San Diego to Honolulu in 30 hours and 30 minutes. They gathered in formation for the record-breaking flight over Point Loma.

Similar long hops from San Diego to Honolulu, to the Panama Canal zone, and to Seattle are so frequent naval officers refer to them as "routine" flights.

The two planes had taken off yesterday morning from the air base at San Diego to join the war game.

R. H. KETCHESON NAMED OFFICER

Toronto, Feb. 3—(CP)—H. Stewart of Stratford was elected President of the class "B" Fall Fairs Association at their annual meeting here yesterday.

Other officers: Vice-Presidents, C. Stobbs, Leamington, R. Cowan, Galt; Secretary-Treasurer, R. H. Ketcheson, Belleville; Directors, W. Wylmot, Kingston; W. Walker, Port William; G. Warren, Renfrew.

The Association asked secretaries of the 13 class B fall fairs to send financial statements and prize lists of last year's fairs to secretaries of the class A and class B fairs for information in drawing up prize lists for the 1938 fairs.

As the Ontario Agricultural Society, parent body of all Ontario fall fairs, had its constitution and by-laws changed at its annual meeting today, the class B fairs decided not to make any changes for their association's constitution but hastily finished the constitution revision.

Hon. P. M. Dewan, Ontario Agriculture Minister, addressed the meeting briefly. Mr. Dewan is a former president of the Class B Association. Walter Graham of the Federal Livestock Commission, also addressed the meeting briefly.

REGAINS SIGHT OF EYES AFTER EIGHTEEN YEARS

Stratford, Ont., Feb. 3—(CP) The sight of an eye which had been lost for 18 years is restored here back to Charles Drane a few days ago by what he described as "simply a miracle."

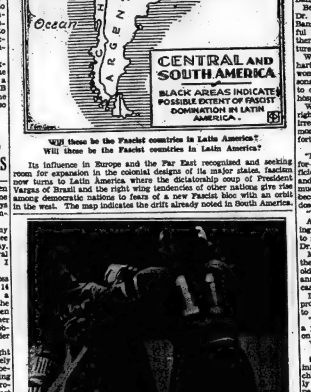
"The other night I rubbed my good eye and I found I could see with the other one," he said today. "I've always have told me after the times during the past 18 years I would never see with it again."

Despite his handicap of the loss of sight of one eye when only 14 years old, Mr. Drane has been a steady worker since. Even in the recent depression years he has been in Kitchener, Owen Sound and other places as well as Stratford and obtained employment as a sander by trade.

Although the sight of his right eye is not by any means completely restored to its natural strength because his injury it is steadily gaining in vision. A special lens was provided for it after he discovered last week he could see with it.

That now Mr. Drane finds he's forced to readjust his vision. He had become accustomed to seeing with but his left eye only, he said now finds that the additional sight is confusing.

"When I am walking along the street things appear to come up from the right and slap me in the face," he said.



Mr. Drane lost the sight of the right eye July 27, 1920 when he was working in a lumber factory here during the summer vacation. He was only 14. A flying piece of wood struck him in the eye.

FASCIST PENETRATION IN LATIN AMERICA FEARED

Will these be the Fascist countries in Latin America?
Will these be the Fascist countries in Latin America?

Its influence in Europe and the Far East recognized and seeking room for expansion in the colonial designs of its older states, fascism now turns to Latin America where the dictatorship coup of President Vargas of Brazil and the right wing tendencies of other nations give rise among democratic observers to fears of a new fascist bloc with an orbit in the west. The map indicates the drift already noted from left to right.

FISTS FLY AT MADISON SQUARE

Somebody shoved somebody so Sammy Babcock, (11), of the New York Rovers throws his gloves and stick to the four winds and tries to hang a right on the jaw of Fred Hunt, of the Jersey Bears in the third period of the game between the two teams at Madison Square Garden in New York. Rangy young buck drew a five minute penalty and the Bears won the Eastern Amateur Hockey league test 5 to 4 in the overtime.

CANUCK BANTAM CHAMP CLIMBING UP

Riding very near the top of world rankings, the Canadian bantamweight champion, Norman "Baby" Yack swung himself closer to a bout with Harry Jeffra by a decision over Carlos "Indian" Quintana. Yack had a mighty narrow edge, but so one so even the big champ, is pushing Quintana around these days and Yack's exhibition may lead to a world title chance. Yack is Toronto's particular little pride these days.

EXPERTS TESTIFY

(Continued from Page One)

After hearing Mrs. Emily Robertson describe Miss Wilkinson's condition and from his examination, Dr. Banghart said it would be possible for the woman to take 6 1-2 grains of morphine "without getting much effect."

On Use of Chloroform

Mrs. Robertson, questioned Monday with her husband to penitentiary charges, performed illegal operations, including the one on Miss Wilkinson, testified. Dr. Clinton's trial, it has had given Miss Wilkinson a grain an hour over a period of five hours.

It would be dangerous, Dr. Banghart said, to administer chloroform after a person absorbed this amount of morphine within the time mentioned. Subject to the amount of chloroform given, a person would die within "10 or 15 minutes" if given the anaesthetic.

If a patient's heart stopped beating under an anaesthetic in a hospital, Dr. Banghart said immediate attempts would be made to revive the patient.

"Always Danger"

After reviewing the internal injuries suffered by Miss Wilkinson, defence counsel, Mr. Bayly, asked Dr. Banghart if death would not have resulted in a few hours. Dr. Banghart said it would.

Before an urgent hospital call for Dr. Beckford led to a recess, Dr. Banghart said no matter how careful and skilful a doctor may be there is always danger of a puncture occurring during an operation.

When court resumed, Dr. Banghart said that having regard to the woman's injuries it was a "reasonable conclusion," to expect her to die, even if she was taken to hospital.

Witness said, "it was quite allright" for a doctor to treat a patient irrespective of the amount, enough morphine to keep him or her comfortable.

Question of Humanity

"Do you consider it more humane for a doctor to give a patient sufficient morphine to kill him or her and run the risk of giving too much, than not to give him or her enough to relieve the danger of an overdose? asked Mr. McRuer.

"That is a question of humanity."

Assuming the patient was not going to get better, it was quite proper for him or her "anything" said Dr. Banghart.

Mr. McRuer asked if it was not the practice of physicians of the older school to use chloroform as an anaesthetic particularly in obstetric cases and witness agreed.

Dr. Banghart considered it was proper in administering chloroform to give it by drop.

"Then if one wanted to put out a person quickly it would be poured on?" asked Mr. McRuer.

Witness nodded in agreement.

Chloroform Poured

Dr. Banghart agreed that, not infrequently, in the use of chloroform, death resulted so quickly it was impossible to revive the patient.

"Where you have a patient who has not been relieved by morphine, you could see no unforward thing in administering chloroform?" asked defence counsel.

"No," was the reply.

Before leaving the stand Dr. Banghart said that he and other surgeons prefer great pain in silence while others holler at the slightest bit."

The question arose when Crown Prosecutor Hartt and Mr. Bayly referred to Mrs. Robertson's testimony in which she described using a sander for using just before the chloroform was administered.

Evidence Ended

Fr-t. Joslyn Rogers, head of the Department of Anatomical Pathology, University of Toronto, entered the witness box and described how Wilkinson's viscera organs which included the heart and lungs" and chloroform were examined. Although chloroform evaporated quickly as fast as water, the evaporation would be retarded if the chloroform was in a body containing in water, he said.

He said he was not in a position to say how much had received sufficient chloroform to cause death because of the distribution of the anaesthetic in the body.

Prof. William Boyd, pathologist physician of St. Michael's Hospital, Toronto, was the next witness. He said he had considerable experience in use of morphine, which was generally administered in quantities of one sixth to one third of a grain to adults.

Question of Pain

If a person had taken Prof. Loudon said in his opinion such would indicate the pain had lessened.

Witness thought that 6 1-4 grains administered to Miss Wilkinson, a drug addict, in one day was excessive and might prove fatal. Also finding a towel around a mask in the administration of chloroform, it would mean concentrated the fumes.

Dr. Loudon said he had morphine's addict chewing in cases of renal colic and angina pectoris. Witness said he would not administer chloroform to a patient who had been given 6 1-4 grain of morphine in one day because he would be afraid the patient "would die."

Dr. Loudon was then questioned the evidence of Mrs. Robertson, Dr. Banghart and Prof. Rogers, that likely cause of death was chloroform.

'Country Doctor'

Mr. McRuer sought to get an opinion as to the qualifications of a country doctor compared with those of a city specialists and asked if the former didn't always seek advice from his colleague regarding serious cases.

"I have always the greatest faith in the country doctor's capabilities," interjected the Judge. Mr. McRuer agreed.

Adjournment was taken for lunch.

What Local Theatre Managers Say About Coming Attractions

AT THE CAPITOL

"Trail Dust"

The grim menace of drought and the manner in which meat profiteers planned to use it to force up the price of beef is the theme of "Trail Dust," the latest of Max Brand's "Hopalong Cassidy" series of Westerns at the Capitol two days commencing tomorrow (Friday) with evening show Saturday at 6.15.

In the hectic and action-packed manner which characterizes this series from the pen of Clarence E. Mulford, family writer of outdoor romances, William Boyd comes to the screen as the hard-riding, hard-fighting herd trailer whose job it is to get a herd through the drought country to the railhead from whence, it is to be shipped to slaughter's ramshe. Jimmy Ellison is with him again as his light-hearted sidekick and, of course, "Windy," played by George Hayes, is on hand to bring good-natured blustering and braggadocio.

Upon taking the trail in the face of threats from the profiteers, Boyd's herd is beset by all kinds of obstacles. Patient upon preventing him from reaching his destination, the profiteers plant their own riders among Boyd's men. A forged letter is served upon Boyd, and attempts are made to stampede his herd and there are mysterious night attacks. He comes upon Gwynne Shipman, daughter of the marshal, in the scared desert. She tells him her father had been kidnapped. It was her father who was suppo.ed to have served the warrant on Boyd.

After he overcomes all the obstacles, a last effort to stop Boyd's herd is made in an attempt to dynamite a mountain pass just as the herd is to pass through. The herd is beset by armed men at the same time. Unable to scare away the men, Boyd sends Gwynne through the pass to bring help. In a miles-a-minute climax crescendo with enough action and fighting to satisfy the most rabid thriller fan, the herd goes through and the families is harmed.

"Trail Dust" maintains the beautiful photography associated with this outstanding series. There is also a generous supply of hard riding and action of the kind which lifted this series out of the usual run of Westerns and placed them in a class of their own for outdoor action films.

Added Features

In addition to the above action thriller a complete program of short features are offered. The latest News Events, a terrytoone cartoon "The Dancing Bear," a musical comedy hit "Hawaiian Capers," and a Willie Howard comedy "A Visit to Paris" complete this splendid two hour show.

AT THE REGENT

"The Great Garrick"

You may never have noticed it but actors and actresses' lips form the words on the screen before their voices come from the amplifier behind it.

Take for example, Olivia DeHavilland who is featured with Brian Aherne and Edward Everett Horton in the refreshing comedy "The Great Garrick," now on the "wells screen.

In the action picture you'll be able to catch her in the act. For the time that elapses between her forming of the words and their sounding in your ears amounts to only 1,720,000th of a second!

The reason is this. Light and electricity travel at the same speed —180,000 miles a second. But on sound stages, where action is recorded by light, and sound by electricity, there's a difference in recording the two. Light is picked by the camera, only a few feet away from the action and recorded immediately on the film. Sound, on the other hand, is picked up immediately by microphones, but travels a quarter of a mile by wire from the mikes to the recording room.

It takes one 1,720,000th of a second for the electricity to travel the quarter of a mile by wire. Figure it out for yourself!

Prominently cast in "The Great Garrick" besides Brians Aherne, Olivia DeHavilland and Edward Everett Horton, are Melvila Cooper, Lionel Atwill, Marie Wilson and Luis Alberni.

Rusa Morgan and his famous orchestra in a smart tuneful Revue will be presented at the same program.

Farr-Braddock Films

Was Farr robbed! This is the question asked by many fight fans, and the answer will be clearly answered in the Tommy Farr-James Braddock official fight pictures announ::: fer presentation on the same program, opens at the ringside at Madison Square, Gardens these films are remarkable for their clearness just like ringside seats, and the enjoyment of the bout is enhanced by all important highlights shown in slow action photography.

Per formances start daily at 2.30, 7.10 and 9.15. The Farr bepins at 7.35 and 9.45. The Farr-Braddock fight picture begins daily at 2.40, 7.20 and 9.25 p.m.

SCOTT'S SCRAP BOOK — By R. J. SCOTT

Little Benny's Note Book

We was eating breakfast and ma said to pop, Is this Wensday, Willyum?

It was yestirday, but nothing much forrer, pop said.

Meaning as it was a Thursday, and ma said, Thursday in February, May my, It was ok, a Thursday in February that we first became engaged, Willyum, do you realize that, Willyum? ma said, and pop said, I do, and I realized it at the time.

And he folded up his paper and left for the office and smile we was eating supper and the door bell rang and it was a messenger boy with a telegram for ma, and our cook Nora brought it back and gave it to her and ma sat there holding it and looking at it saying, A telegram addressed to me, O my goodness.

G, what's in it, ma? I said, and she said, If I knew that why do you suppose I'd be sitting here with it unopened? O deer I can think of a hundred terrible things she said.

One little slash of a knife would open it, pop said, and ma said, How can you speak of slashes and such things at a time when anything may be about to happen?

Come come, anyhow, there's more good news than bad in the world, pop said, and a said, Not in telegrams, O deer just at supper time.

There's no time like the present, including supper time, for Pete sake open it, pop said, and ma said, Stop, can you be so unfeeling about something you know nothing whatever about? Well, if I must, she said

And she opened it and read it to herself out loud, sying, Happy Thursday in February, your loving husband Willyum, Extra yum Fotis, what a thing to do, I feel positively faint, she said, and pop said, How appropriate, you almost fainted with relief that Thursday in February when I proposed to you.

The fact being ma made him apologize by taking her to the movies.

QUICK RELIEF FROM A COLD

1. Treat it at the START
2. Treat it INTERNALLY
3. Don't Eat Too Much

When a cold strikes don't try to work it off. At the first sniffle, take Dominion C.B.Q. Tablets—the remedy that is direct and internal; made for one purpose only—to curb colds quick.

Dominion C.B.Q. Tablets go right to work internally in 3 distinct ways: (1) They fight the cold germs; (2) clear out the poisons; (3) check the fever. Usually they break up a cold in a few hours.

Dominion C.B.Q. Tablets are chocolate-coated . . . even children like their taste. When you ask for them (35¢ at all drug stores) insist on the genuine.

LOOK FOR THE TRIFFIN RED ON THE LITTLE RED BOX.

HE WAS ALWAYS TIRED AND ILL

Three Complaints Gave Him a Miserable Time

Suffering from three complaints—disordered kidneys, sciatica, and rheumatism, how could this man be anything else but always tired and ill? This is what he writes:

"Up to a month ago, as age, I had suffered continually from kidney disorder, sciatica, rheumatism, and generally felt off colour. I was constantly tired, and under medical supervision. I tried many remedies, but without effect until I gave Kruschen Salts a trial. In four weeks, Kruschen has brought about a complete transformation. I have a healthy appetite and once more feel that it is good to be alive."—S.Y.H.

The kidneys are the filters of the human machine. If they become sluggish, impurities find their way into the blood-stream, and the need of half-a-dozen common ailments is sown.

The scientific combination of salts in Kruschen quickly coaxes the kidneys back to healthy, normal action. Soon your ailments are relieved and life becomes a joy again.

Roslin

Roslin.—The annual congregational meeting of the Roslin United Church was held in the church on Thursday evening, January 20. Rev. Harrington presided and the meeting was opened with the singing of a hymn. This was followed with prayer by the pastor. The secretary, Mrs. Freeman Howes, gave the report of the last annual meeting. The following reports were given: Treasurer, Mr. Freeman Howes; Sunday School, Mr. Kenneth Casey; Women's Association, Mrs. J. Chisholm; Young People's Work, Rev. H. R. Harrington.

The following officers were elected:

Stewards—Messrs. Winfield Harrison, Edward Davidson and Freeman Howes.

Caretaker—Miss Della McCormick.

Organist—Mrs. Freeman Howes.

Choir Leader—Mrs. Herrington.

Auditors—Rev. H. R. Herrington and Mr. Richard Howes.

Offering—Messrs. Kenneth Carter and Carman Davidson.

Sunday School Supt.—Mr. Edward DeNike.

Secretary—Miss Bessie Howes.

Treasurer—Miss Kathleen Carter.

At the close of the meeting lunch was served and a social hour enjoyed.

Trenton

Trenton. (Special)—Relief workers who have a tendency to lay down on the job had better hold up and get from now on or else be struck from the relief roll. Council at their regular meeting decided to stop payment of wages to relievers who shirk in the future. A complete review of relief building has been ordered and council agreed upon the sale of five acres of land in west Trenton to the Hinde and Deuch Paper Company and also agreed to advertise for a Building Inspector and Assessor to be paid an annual salary of $1,200. Councillor Ray, who is Chairman of Fire, Market and Police announced that he had been asked an amount of money to purchase outside coats for the Police Force.

Court

A local youth pleaded guilty to a charge of assault and was fined $25 including costs. He was given time to pay. A. Young and Fred Scott were each assessed $14.75 for drinking liquor in a place other than their residences. Morley James Randall of Sagaree, Haily pleaded to a charge of speeding within the town limits and Magistrate Ponton laid the case over for two weeks so that the Crown could produce a witness. The accused had a witness on hand and told the court, that he was another officer, whom he had appeared again. A Trenton youth was assessed $14.75 after admitting to operated a motor vehicle in Trenton without a permit to do so. Percy Green of Trenton pleaded guilty to a charge of being intoxicated and was fined $14.75.

Fire Brigade Called

At noon yesterday the Trenton Fire Brigade was called to George Cobley's Store on Front Street to extinguish a chimney blaze. The prompt action of the firefighters averted what might have been a serious blaze as the Cobley business establishment is situated in the business section of the town.

Jay Bonnie

The majority of Trenton streets are a gift of ice but to date no one to accidents have been caused by the slippery conditions. Nevertheless pedestrians as well as autoists find the travelling dangerous.

Kingston Doctor Keeny Speaker

At the weekly meeting of the Trenton Rotary Club Dr. J. Berry of Kingston delivered an interesting address.

Personals

Mr. Kenneth Crews of Trenton, who had been undergoing treatment at the Kingston General Hospital for the past few weeks returned home yesterday, feeling fine.

John McHugh Jr. and Frank Donnelly of Trenton left for Florida last Sunday by motor where they will spend a month vacationing.

The head lectus new things, but the heart forevermore practices old experiences.—Henry Ward Beecher.

But a new form of the war men have lived from the beginning.—Henry Ward Beecher.

DRINK HEALTH OF HOLLAND'S PRINCESS

Captain Peter Lagaay and members of his staff aboard the S.S. Rotterdam at New York, are pictured as they drink a toast to Holland's new princess. The baby was born to Princess Juliana to the throne of the House of Orange. It is her first child. Provided there is no future male child, the baby was destined to carry into the third generation the line of queens of the Netherlands.

Report of Evidence Given In Supreme Court Case

MOORE VS. REID

Following is the evidence submitted by witness at a damage suit heard at the Spring Assizes Tuesday and Wednesday before the Honourable Mr. Justice McKay Holden. R. F. Moore, Belleville, plaintiff, and Lorne Reid, Thurlow, defendant.

Suit for $5,000 damages was entered by plaintiff as a result of injuries and after effects claimed to have been received when plaintiff was struck by an automobile, driven by defendant on Tow. 2nd, 1934 at the intersection of the Madoc Road and Highway No. 14.

Settlement for damages in an unrelated accident was arranged between parties following a conference between Mr. Justice McKay and counsel after several witnesses had testified, as reported yesterday.

E. F. Moore

Placed on the stand shortly after the opening of the assize Tuesday afternoon, the plaintiff, R. F. Moore, testified under cross-examination by Mr. T. J. Agar, K.C., counsel for the defendant, that since the accident he had been unable to work, as in poor physical condition and his business had "gone to pieces" through being managed by "hangers-on" and "yes men". He had been forced to spend $400 of extra money help which could not have been necessary had he been in good physical condition.

His Lordship—Why did you not hire men who could carry on the business?

Moore—You can't get men in this town, who are trusted to work. All they think about is a hockey game.

Witness corroborated evidence given by him when being examined previously for discovery.

Mr. Agar—"Not knowing the cause of the delay which was holding your boys while there is fixed pressure and the synovial membrane is a short distance north of the Madoc Road during which time you wanted to investigate. You went on the verandah of the house situated a few feet from the intersection and saw a northbound car approaching. It was fairly dark and raining heavily."

Witness—"Yes."

Mr. Agar—"You left the verandah hoping to get a ride in this car which you thought would continue in a northerly direction?"

"Yes."

Witness at this point testified that he was struck by the car on the northwest corner but was not sure which side of the pants he was on. Photographs of the scene of the accident were admitted as evidence at this point. Plaintiff stated that the car was travelling at a speed of 35 miles per hour and travelled from 30 to 75 feet after the impact before it stopped. He denied telling R. T. O. Sam Irvine that he ran into the side of the car at the time of the accident. He said that he was satisfied he gave evidence that he was carried fifteen feet by the car after being struck, when examined for discovery. Witness was excused from further questioning at this point to allow testimony of Drs. G. A. Cronk and R. A. Flynn to be taken in order that they might return to perform an operation.

Doctors On Stand

Dr. Cronk testified to examining Moore after the accident. "I found marks of bruises on both knees with the right knee the worse. I found a tenderness in the right ankle to the extent of the injury." he said. "I saw him a few days later and he walked with great difficulty. He had, I thought, trouble with a loose cartilage. I treated him several times since. He has had a good deal of disability and during the last six weeks has complained of pain in the left knee."

Admit X-Rays As Evidence

His Lordship here issued instructions that X-ray plates taken of the injured right knee be brought to court and admitted as evidence.

Addressing Dr. Cronk, His Lordship asked, "by your diagnosis of a purely subjective nature?"

"Yes."

"Is your opinion in surgery necessary to remove the cartilage which knee to correct this condition?"

"Yes."

"Would this operation effect a complete cure," His Lordship asked.

"I believe it would," replied witness.

Witness could not recall plaintiff ever coming to him for treatment in knee prior to the accident.

The bench stalled after examination of X-ray plates admitted at this time, that they showed no abnormality in the knee-joint.

His Lordship—"There would an injury like a cartilage complication manifest itself," addressing the witness.

"A few days after the accident," "What have you to say about the cartilage of the left knee not manifesting itself within a year after the accident?"

"It could be possible."

His Lordship—"this court is not dealing with possibilities. What are the probabilities?"

Dr. Cronk—"I think it unwise to express an opinion regarding probabilities."

Counsel for defence intervened at this point. "Would not time develop three or four days after infection that there would be some manifestation of a loose cartilage assert itself?"

Dr. Cronk—"Not always."

Dr. R. A. Flynn testified to a serious disability to both knees of plaintiff. There was evidence of loose cartilages in both knees with the internal cartilage the principal point necessary to be removed. He was in consultation with plaintiff prior to the accident.

Dr. D. E. Robertson Questioned

Under rigid examination by counsel, Dr. D. E. Robertson, surgeon-in-chief of the Hospital for Sick Children, Toronto, testified to present conditions as found by him in his examination of the plaintiff held yesterday. "Plaintiff was able to walk after accident," he stated. "In my opinion there is abnormality of the knee-joint. The examination proved the right knee is entirely negative. There is no thickening of synovial membrane. Insofar as this knee is concerned, the symptoms are entirely suspective. The left knee is swollen. There is fluid pressure and the synovial membrane is thickened. There is a distinct evidence of a synovitis in the left knee. He told me this was the result of an injury suffered a few weeks ago."

Under further examination, Dr. Robertson admitted that if the injury to the knee was sufficient to loosen the cartilage, swelling would have resulted the next day, if cartilage had been displaced, plaintiff would have had a severe disability for the next four weeks. An operation would have the desired effect, witness stated, he would be able to play hockey or football.

In response to questioning by Mr. Justice McKay, R. D. Arnott, witness stated that with loose cartilage, plaintiff should be well enough to drive a car in 4 weeks, do heavy trucking in 8 weeks and do light work within six weeks. Liability as long as cartilage was loose but not displaced."

Mr. Agar—"Then you believe this man has a loose cartilage and there is no other remedy than an operation?"

"That may be."

"Did plaintiff tell you in your examination that his knee lay down and injured the left knee?"

"That could cause it."

"Would the condition rectify itself with proper treatment?"

"Not exactly."

"The condition of the right knee could be responsible for letting plaintiff down and causing condition such as he has now?"

"It might be."

Diagnosis proper of the case was difficult, witness claimed, due to lack of records of treatment. "In my opinion, a man under these conditions would have a tendency that would take him to a doctor several times."

Defence Counsel Agar here claimed that no evidence had been presented to show that plaintiff over had a loose cartilage in either knee.

His Lordship—"The possibility of a loose cartilage in the left knee seems to me to be very remote; the trauma obtained at the time of injury to the right knee may be the cause of loose cartilage. After all, the onus of establishing disability rests upon the plaintiff. I do not think that plaintiff, in evidence submitted to this court, has proved loose cartilage. The injury was not sufficient even after the accident to have the attending doctor to have an X-ray taken. Then something develops after a year. Is that not a guess?"

Mr. Arnott addressing Dr. Robertson asked, "If the right knee was injured in the accident might not the condition have subsequently caused immediate disability?"

Dr. Robertson—"I don't think so. If the cartilage separated at the time of accident there would be a swelling and evidence of fluid."

Court adjourned at this point.

James Lemmins, father-in-law of plaintiff, called to the stand at the resumption on the hearing yesterday morning testified that he was present at the time of the accident. He corroborated former evidence regarding the details of the accident but could not recall making a statement to the police that he did not see the accident.

A signed statement made by witness to an insurance investigator was admitted as evidence on motion of defendant's counsel. At this point, Mr. Agar pointed out to witness the discrepancies in the conflicting statements with regard to giving evidence.

After a lengthy cross-examination of witness, counsel for the defendant made formal application for non-suit. Justice McKay here requested a chamber conference of counsel. After an hour's consultation counsel arrived at a settlement for an unstated amount.

Read

Read—The weather man is certainly giving us changeable weather. Gives our weather prophet a hard falling short in their estimation of what the future is having.

Mr. William Durkin of Stone was a week end visitor with friends at Read.

Mr. Joseph Brennan has returned home from the hospital and is progressing favorably.

Mr. Michael McDermott Vince and Leonard are spending a few days in Kalamazoo.

Miss Oster spent the week end at her home in Napanee.

The euchre and dance was held at St. Charles Hall, Read. Aces over Cheetra was 10 to 6.

Mr. T. H. Nash spent the week end at home.

Mrs. Joseph McDermott of Belleville spent the week end with her parents Mr. and Mrs. Henry McWilliams.

'SMALL FRY' CAUGHT

Being packed aboard the "black maria" for trip to night court are two of the 585 persons arrested by New York police in a continuation of the round-up of suspected criminals that totalled over 1,000 in one week-end. In night court Magistrate Anthony M. Burke called the whole thing ridiculous. Glaring at reporters, his honor snapped, "I don't see any well-known criminals here. They're all young boys to me." He dismissed the first batch of 135 in a body.

HEADS CAN. LEGION

Col. W. W. Foster, Vancouver police chief who has been Dominion head of the Canadian Legion at the organization's annual convention at Ste. Anne de Bellevue, Brig.-Gen. Alex Ross, the present head, declined to stand for re-election.

Bobbed Betty

By DOROTHY DOUGLAS

Although they were not actually engaged, Betty Chester and Norman Hadlett had been about to dances, dinners and parties together for the past eight months.

Hadlett was an exemplary young man who would always provide a good home. He felt sure of Betty. She was so gentle and quiet.

And Betty? Sometimes Betty found herself in the mirror and wondered if she were developing into an early Victorian. Certainly her association with Hadlett, had swept much of her youth and gaiety and lightness and love from her. She sometimes felt weighted down with the burden of a future that in some way menaced her. She loved Hadlett, but there were times when she was horribly conscious of an ever-narrowing circle drawing her within its grip.

Betty knew that in a room full of people Hadlett would look fashioned. Her dresses were just too long to be chic, her little white frocks seemed weighted by the great coil of long hair that Hadlett thought so wonderful because it wasn't bobbed, and yet Betty possessed charm and character in her and away beyond the average girl.

She was going to a big dance with Hadlett the following evening and she gazed at her lovely old gold frock that just escaped extreme beauty, she felt a wave of depression. Hadlett had at the great mass of black hair that weighted her down and her red lips formed a new straight line.

Without a word Hadlett, Betty marched out to the station, took a trip to town, entered a first-class hairdressing saloon and left the barber with a feeling akin to one who had suddenly stepped into a world of joy and freedom.

She was bobbed! She was a new Betty!

The short hair, of course, departed inches from the length of the old gold skirt; the dance began and Betty knew a feeling of confidence for any man. If I refuse to go with you, I have no hesitation in saying that it is my side companion

C. D. S. BROADCAST Sale LINENS and BEDDING

BELLEVILLE, ONTARIO, FRIDAY FEBRUARY 4, 1938

DOMINION BUYS 2 BRITISH DESTROYERS

Main Estimates are Set, $418,968,456 for 1938; Air Force Strengthened

Reduction of $2,900,000 Noted in Expenditures For Year

NEW EQUIPMENT

Defence Estimates Lowered $2,000,000 Due to Cut in Requirements

Ottawa, Feb. 4.—(CP)— Unless there is a marked reduction in the Canadian National Railways deficit and relief costs in the next fiscal year, the cost of government services will be little less than for the current year which ends March 31, according to the estimates.

Last night Finance Minister Dunning tabled in the House of Commons the main estimates for the fiscal year ending March 31, 1939, providing $418,968,456 to cover or,

FRENCH ACTRESS ILL

Hollywood, Feb. 4 (AP)—Simone Simon, French film star, gained slightly today but was not out the crisis of a serious attack of pneumonia, hospital officials said.

DEATH PENALTY FOR

JEWISH CONSTABLE
Jerusalem, Feb. 4—(AP)—A Jewish constable was sentenced to death by a military court for shooting at an Arab bus in which an Arab boy was killed.

DEFENCE HIGHLIGHTS

Ottawa, Feb. 4—(CP)—Here are highlights of Canada's defence plans as announced in last night's parliamentary estimates:

Purchase of two new destroyers from the British Admiralty for use on the Pacific.

Expenditure of $34,034,364, a decrease of $3,000,000 from last year's estimates.

Adoption of policy to favor coastal defence, first the air force, second the navy, third the militia.

Policy of building Pacific coast defence ports.

Increase of naval, air force and instructional militia staffs.

Strengthening of stores of aircraft, engine parts and munitions. Maintenance of bomb and ammunition stores.

Purchase of the new aircraft for the permanent air force, 20 for the non-permanent.

FILM ACTRESS GIVEN $35,000

Constance Bennett Told Court She Made $59,000 Out of 8 Pictures

Los Angeles, Feb. 4.—Constance Bennett, who says she averaged $59,000 each from eight motion pictures, today is going to collect—maybe!—a $35,000 judgment for one in which she didn't appear.

Spectators who came to see the actress in person as she sought to collect $65,000 from the Gaumont-British Picture Corp., Ltd., stayed to hear Superior Judge Charles S. Burnell lift the hearing out of legal darkness before he granted her $35,000.

At one time he cautioned Miss Bennett she was "just to look beautiful and answer questions". Again he referred to "Miss Bennett, Mickey Mouse or some other famous film player". He referred to Donald Duck and Popeye and made light references to "Lord Tilgverner or some other officer" of the defendant company.

Why the Weather?

By Major A. H. Thiessen
Science Service Meteorologist

Light has a punch! Who would have thought that the feeble light light of day has a kick? Light shining on an object really gives it a push. This strikes of light, or corpuscles, visible to the naked eye, but it is there nevertheless. Light from the sun causes a real impact on the object it hits, exactly like a stream of water or a gust of wind. The interesting consequence of this is that any radiating body, as the sun or a warm stove, actually loses weight; for giving up energy means giving up weight. The sun, therefore, is losing, at the rate 660 times as fast as the weight of water falling at Niagara.

YOUNG MOTHER DIES OF BURNS

Dress Catches Fire From Unguarded Electric Heater Element

Windsor, Ont., Feb. 4—(CP)—Critically burned when her clothing caught fire from an unguarded electric heater, Mrs. Lillian Pott, 20-year-old mother of a four-months-old baby, died in hospital today. The accident occurred Thursday just as Mrs. Pott finished washing the baby and as she leaned over to turn on the radio.

Her screams of agony brought her husband, Edward, to her aid but before he was able to get the blaze out, she had burned her skin she was burned from head to foot. The heater being used was without the usual wire guard that gives protection from the element.

THE WEATHER

Toronto, Feb. 4—(CP)—The disturbance which was over Michigan yesterday morning now covers the lower St. Lawrence Valley and the Maritime Provinces, while an area of high pressure has developed from the Sou Bay southward across the Great Lakes. Pressure is low over the western half of the United States and high over Alaska and over the lower Mackenzie Valley. Rain or snow has occurred in all districts from Ontario eastward, while in the western Provinces the weather has been mostly fair and moderately cold.

Lake Superior—Southwest winds; partly cloudy with snowflurries or somewhat higher temperature tonight. Saturday, partly cloudy and somewhat milder; probably some light snow or rain.

Manitoba—Partly cloudy with snowflurries and a little higher temperature tonight and on Saturday, then somewhat colder again.

Saskatchewan—Partly cloudy tonight and Saturday; light snow in some districts.

Alberta—Continuing cold tonight and Saturday.

Men Over Forty Take Chances When Watching Sport Events

Dr. Lawson States 90% of Men Over 40 Have Coronary Sclerosis

EXCITEMENT IS BAD

Toronto, Feb. 4—(CP)— Ninety per cent of the men over 40 attending sporting events, Chief Coroner Dr. Arthur Lawson said today, are taking a chance of dropping dead of heart failure. Dr. Lawson was commenting on the death of a man during a boxing bout Monday night.

"There's no way of a man knowing before he attends sporting events whether his heart won't stand the excitement. It is best explained this way. Ninety per cent of men over 40 have coronary sclerosis—hardening of the arteries—and overwork or nervous excitement causes coronary thrombosis and the heart breaks down."

Two Planes Sink British Freighter, Crew Rescued

SEEK TITLE OF "DOCTOR"

Toronto, Feb. 4 (CP)—Use of the title "Doctor" is sought by Osteopathist, Chiropractors and Drugless Therapists in an Act to be presented in the Ontario government for an amendment to this effect to the Medical Act.

The application has been prepared by the Ontario Academy of Osteopathy and the Associated Chiropractors and Drugless Therapists of Ontario.

TO VISIT ARAB KING

London, Feb. 4 (AP)—The Earl of Athlone, brother of Queen Mary left today to visit King Ibn Saud of Saudi Arabia. His wife, the Princess Alice, accompanied him and will be one of the few white women ever to penetrate the interior of the country.

Dr. Cline Sr. Sentenced to Life Term

71-YEARPHYSICIAN PLEADS GUILTY REDUCED CHARGE

Throughout Trial Cline Denied Murder of Teacher

JUDGE'S COMMENT

Mr. Justice Jeffrey Agrees With Crown's Acceptance of Plea

London, Ont., Feb. 4—(CP)—Dr. O. A. Cline Sr., 71-year-old London physician, was sentenced today to life imprisonment after pleading guilty to a reduced charge of manslaughter in connection with the death of Mary Wilkinson.

The tragedy in which the white-haired physician ended with dramatic suddenness the trial of Dr. Cline Jr. C. McRuer said his client would plead guilty to manslaughter. Justice Frommeyer, Mr. Hayter Reid accepted the plea and Mr. Justice Flood Jeffrey concurred.

Original Charge

The Crown charged originally that the 37-year-old London school teacher was chloroformed to death on a maternity operating table in the kitchen of Dr. Caroline J. Robertson's home last September after Dr. Cline performed an illegal operation on her. Her body was found in the Thames River August 31.

Robertson and his wife also were charged at first with murder in connection with Miss Wilkinson's death. But the charges against them were reduced to performing two illegal operations, including the one on Miss Wilkinson, and both received suspended penitentiary terms when they pleaded guilty Monday.

Before sentence was passed McRuer called Dr. Cline's daughter, Mrs. Beatrice Brown who testified her father was 71.

Defence's Daughter on Stand

As his daughter walked to the witness stand, Dr. Cline covered his head. He put his hands over his eyes and when he looked up his face was wet with tears. It was the first time during the trial the aged doctor showed any outward emotion.

In his address, McRuer said the case developed "out of the human side of nature."

"We do not live in a country of savages. Cline turned his medical skill unlawfully, not to harm the girl but to shield her when in trouble. In our society that is considered a criminal offence. From a humane standpoint it is not, but we have nothing to do with that. The punishment was given and I think from that moment on my client has suffered as well as a young virtile medical man but acted in the confusion of old age. His conduct was that of a person acting not in accord with the stupidity of an old man.

Plea For Accused

"I respectfully submit I ask Your Lordship not to be swayed by the indignation for what he did during the trial. I have already committed that he is to be sentenced. When a man goes to the penitentiary at his age, his health will decline so rapidly the punishment visited on him is much more severe per day than if it were on a young-

(Continued on Page Two)

Independence Aim Of All Ireland Says De Valera

(Copyright, 1938, by the Havas News Agency

Dublin, Feb. 4.— (CP-Havas)— Complete independence for a reunited Ireland alone will satisfy the Irish people, Prime Minister Eamon de Valera told Havas today in an exclusive interview.

The austere, 55-year-old Irish leader, answering questions concerning his recent conferences in London and the general election to be held in Northern Ireland next Wednesday, emphasized that "so long as partition (between north and south) remains it will stand as a barrier to the way of any final settlement between Great Britain and Ireland".

"Would any settlement which does not achieve the complete independence of the whole of Ireland satisfy the aspirations of the Irish people?" he was asked.

"No," Mr. De Valera answered. "repeatedly in the past we have unmistakably shown that any settlement which falls short of complete independence for the nation as a unit will not satisfy their aspirations.

"The history of Ireland answers your question. Ireland's resurgence, for in recent years to modify Ireland's desire for freedom and nationhood. . . . Gaelicism, the spirit of nationality which has enabled us to retain our culture and civilization is stronger than ever today. . . .

"The borderline cutting six of our northeastern counties is purely arbitrary. . . . There is a great harmony in the border counties on both sides of this arbitrary line are strongly opposed to the continuance of partition."

DISMISS APPEAL FROM JUDGMENT

Trade Mark Under Discussion by The Judicial Committee

London, Feb. 4—(CP Cable)—The Judicial Committee of the Privy Council today dismissed the appeal of the Canadian Shredded Wheat Company against a judgment of the Ontario Court of Appeal which refused to forbid the Kellogg Company of Canada from using the tariffs registered trade mark, the words "Shredded Wheat".

Their Lordships agreed with the Ontario Courts that registration of the plaintiff's trade mark was invalid and said the action fails inasmuch as it is for the infringement of trade mark. Costs were assessed against the appellants by Lords Atkin, Thankerton, Russell of Killowen, Wright and Maugham, who heard the case last December.

Hear Monarch's Voice Only in Britain

London, Feb. 4—(CP-Cable) — The King's voice will not be heard by the people of other British nations in his speech at the Guildhall Feb. 17, but will be privately announced, the British Broadcasting Company said today.

Owing to the fact the speech is of sole interest to the United Kingdom, broadcasting in other British countries will not be necessary, it was explained.

The B.B.C said it regretted it was under the circumstances when making provisional arrangements for an Empire broadcast."

Premier Agrees to Council's Suggestion

Toronto, Feb. 4 (CP)—Premier Mitchell Hepburn today agreed to the suggestion of the Provincial Council of Women that all new applications for licenses to sell beer and wine should have advance advertisement by the Liquor Control Board.

The suggestion was made yesterday when a special committee of the Women's Council made a number of representations to the government.

Today the premier approved the proposal with the exception that he would not permit advertisement of applications for license renewals. Only new applications will be advertised in the area in which it is proposed a hotel should be established, or a new application to be filled in every case that renewals may be given fair warning.

Will Investigate Removal of Bridge From Niagara R.

Toronto, Feb. 4.—(CP)—Hon. W. L. Houck, vice-chairman of the Hydro Commission, announced he would go to Niagara Falls tomorrow to investigate removal of wreckage from the Niagara River gorge to the fallen Falls' View bridge.

Mr. Houck described no formal answer to any of the three communications he has addressed to officials of the International Bridge Company and tomorrow he is going to the Falls himself to look into the situation," a statement from the Commission said today.

BELL SHIRT CO. TO REBUILD SOON AS POSSIBLE

Work of Clearing Out Damaged Stock Begun Today

STEEL GIRDERS WARPED

"It is our intention to rebuild and start operations as soon as possible" Mr. S. J. Hibbard, partner of the Bell Shirt Company which suffered severe losses in a fire yesterday morning, stated today.

While insurance covered the general loss, it is the business itself that has been severely affected by the fire, Mr. Hibbard said. Our opening orders a number of which were ready for shipment were ruined by smoke and water".

"Despite this fact, any other stock will materially affected orders we have on hand. However we expect to be in operation at once as it is possible and regain to some extent the business which will naturally lose through the fire."

A skeleton staff was working this morning taking inventories of damage and undamaged stock. Trucks hauled away rolls of material and cartons ready to be shipped, where salvage will ascertained.

Both Mr. and Mrs. Hibbard said the cutting room is seen in the warped heavy steel roof girders which, at this position, buckled by the charred wreckage of that part of the roof directly above the cutting room.

The Belleville Fire Department did a splendid job," Mr. Hibbard stated. "And I cannot say too much for them. They were severely handicapped by existing conditions and under the circumstances have to be complimented on the work they did. I understand the fire before greater damage was done".

BRANTFORD MAN HELD FOR MURDER

Eldon McGinnes Arrested After Wife is Found Dead

Brantford, Ont., Feb. 4 (CP)—Eldon McGinnes of Brantford was charged today with the murder of his wife, whose battered body was found in bed at her home early Saturday morning.

McGinnes and James Hanley, also of Brantford, were arrested on vagrancy charges in connection with the woman's death, which Dr. E. R. Frankish reported after a preliminary examination was caused by internal injuries. Dr. Frankish, medical expert of the Attorney-General's Department, said the internal injuries could have been caused by blows or kicks.

Released On Bail.

Hanley was released yesterday on $5,000 bail.

Police were notified of the woman's death Saturday by Dr. A. D. Biddell, called to the house by Mc-Ginnes, who told police he found his wife.

At the time police said they believed a drinking party had been held at the McGinnes home before the woman's death.

After the murder charge was read by Magistrate S. A. Jones, Crown Attorney F. E. D. Wallace asked that a remand be made without plea of election. The request was granted and Hanley was also remanded a week, the original charge of vagrancy against him still standing.

SKIP IS FOULED AND FIVE KILLED AT LEVACK MINE

Fifteen Men Being Lowered Pinned Between Shaft and Timbers

NUMBER INJURED

Going Down to Muck Out Cut in Preparation For a Blast

Sudbury, Ont., Feb. 4.—(CP)—Five men were killed early today when a skip lowering 15 men to work at the 800-foot level of the Levack mine of the International Nickel Company fouled, pinning the men between the skip and shaft timbers.

Five other men were injured and brought to Copper Cliff hospital from the mine 32 miles north of here while the others were uninjured.

The dead: Paul Sandberg, 36, married, Sudbury; Arvo Salonen, 40, Kelly Lake, survived by his widow and children; Ernest Ojala, Nepahela, 39, Sudbury, survived by his widow and eight children; Uno Oja, 34, married, Sudbury, and Tony E. Cyr, 27, son of Paul Cyr, Worthington.

The injured: Ernest Lamarche, 32 Wentla, P. Guerino, Win Sanlatis and Paul Valtanen, all of Levack. Uninjured were Alfred Aho, Waino Pirnan, A. Pahis and Onni Ristamaki, all of Levack, and A. Lunkko, Sudbury.

Going to Muck Out Cut

The miners, in charge of Walter Pirman, foreman, were going down to muck out the last shot and in preparation for a blast. The skip apparently struck a six-by-eight piece of timber about 60 feet from the bottom of the sinking operation.

The skip turned partly over, throwing the men against a bulkhead. A rescue crew was forced to work in darkness to get the men out of the shaft.

The accident happened shortly after midnight. The mine is on the north rim of the Sudbury basin and was owned by Mond Nickel previous to its amalgamation with International Nickel in 1928. About 700 miners are employed at Levack in addition to 150 on construction work. The mine ships its ore to the refinery at Copper Cliff, near here.

Insurgent Artillery Turned on Madrid

Madrid, Feb. 4 (AP)—Insurgent artillery again turned its fire today on Madrid, after a period of comparative quiet.

More than 100 shells fell into the city yesterday. At least 30 persons were killed and 100 injured. The attack on Madrid and aerial bombardment of other cities of government Spain together brought death to about 50 on Wednesday and Thursday.

The Associated Press office here was badly damaged by a shell burst on the front part of the building, which faces insurgent guns on Carabatis Hill two miles away. None of the staff was hurt.

Newspapermen Escape Death When Chinese Hurls Bomb

Hallway of Shanghai Post Building Scene of Explosion

CHINESE HURT

Shanghai, Feb. 4—(CP-Havas)—One British and four American newspapermen narrowly escaped death or serious injury early today when an unidentified Chinese threw a bomb into the hallway of the Shanghai Evening Post and Mercury Building.

Hallen Rajchman, an employee of the British monthly, "Oriental Affairs" and Henry Wilkinson, British Concession, were unscathed, although the bomb exploded while sitting in the hallway we splintered to bits.

Five journalists were in the building, which houses their respective offices, when the bomb exploded at 8 a.m. In addition to H. G. W. Woodhead, editor of "Oriental Affairs" and Randall Gould of the Evening Post and Mercury, there were three members of the United Press staff.

The terrorist escaped.

Alcira Hit by 2 Bombs Sinks Near Barcelona, Vessel Carried 2 Flags

Vessel Was Carrying Coal Cargo to Spanish Government Port

2 FLIGHTS OVER SHIP

Vessel Flying British Flag And Flag of Non-Intervention Control

Barcelona, Feb. 4.—(AP)— The British freighter Alcira, trying to run to Spanish insurgent blockade, was bombed by two planes and sunk today 20 miles southeast of Barcelona.

Her crew of 26 and an observer for the non-intervention control organization, all British, were rescued by a Spanish government sloop and fishing vessel brought to Barcelona.

A Barcelona communique said the planes came from the direction of Plazza, Mallorca, insurgent naval and air base.

Like the British freighter Endymion, sunk by an unidentified submarine off the Spanish east coast Monday, the Alcira was trying to carry a cargo of coal to a government port.

Defence Ministry Statement

The Alcira, 1,367 tons, left Gibraltar for Barcelona, Jan. 31, under command of Captain M. McCulloch of Glasgow.

The defence ministry issued the

THREE INMATES OF PRISON SLAIN

Giant Prisoner Runs Amuck With Revolver And at Large 3 Hours

Tewksbury, Mass., Feb. 4—(AP)— Three inmates of a state infirmary were slain and two others wounded critically early today by a 70-year-old giant convict who ran amuck with a revolver and was at large for three hours before being captured in nearby Lowell.

The alleged assailant was John Mack, 70, of Chelsea, six-foot three inmate who fled the institution after he had killed three of the three hours later he was picked up in Lowell's Acre area by two policemen after squads of State Troopers and city police had penetrated the crowded area around the institution here. He offered no resistance.

The shooting capped a dramatic climax to investigation of a mounting total of violent deaths in Massachusetts mental hospitals. Attendants here said the only violent deaths since 1926 totalled more than 500, including eight slayings of patients by other inmates. Weapons ranged from pick axes to fists.

UNITED CANADA NEED IS STRESSED

Calgary Delegate of Canadian Legion Makes Appeal

Port William, Ont., Feb. 4—(CP)—Seventh biennial convention of the Canadian Legion—the War Veterans' Parliament—ended progressed. For a program speech by Colonel Ralston and their deliberations here yesterday had the declaration of Col. W. Price Iler, new president, that the Legion's work required the co-operative effort of all who had served.

Another keynote stressed as the convention adjourned, to meet in Montreal in 1940 was the need for a united Canada. This was emphasized when delegates approved the

(Continued on page twelve)

NEWS BRIEFS AND ODDITIES

HANDED IN REVOLVER BUT TAXI DRIVER KEEPS RIFLE

Toronto, Feb. 4 (CP)—Angus Ellis, who handed a loaded revolver to an evangelist as testimony of his conversion, was refused a licence to drive a taxicab by the police commission yesterday.

Mayor Ralph Day said: "Tell him we feel his reformation is highly commendable but we cannot give him a licence.

SELL BRIDGE PARTS AS SOUVENIRS

Niagara Falls, Ont., Feb. 4 — Souvenir hunting merchants here, used to the ways of the sight-seers, are finding a ready market for nuts and bolts from the wreckage of the Falls View bridge. The bolts bring about 25 cents each from the U.S. A. Each package of the bridge standards sold for $2.50.

ONLY ONE SCOTTISH CURLER KNOWS GAELIC

Regina, Feb. 4 (CP)—Lieutenant-Governor A. P. McNab of Saskatchewan said today: "I've just been talking to the visiting Scottish curlers," he said, "and I know there is only one man in the whole 36 who knows how to speak Gaelic.

The "Governor" comes from old Glengarry.

FAITHFUL HORSE DIES

St. Pauls, Ont., Feb. 4 (CP)— Teddy, Mrs. George Murray's horse for the rural mail delivery, seemed to know when to stop and stop the mail. He drew the mail wagon up to the last box on the route then collapsed and died.

JUST ODD, THAT'S ALL

Roswell, Ind., Feb. 4 (AP)—Mr. and Mrs. Orval Ryan Mount named their tenth son Oakley.

There's nothing odd about that except all nine of the lad's brothers also have names beginning with "O"—Otto, Odie, Orbie, Orval, Otis, Oscar, Oliver and Owen.

SENATE MEMBERS TO TAKE HOLIDAY

Will Not Convene Again Until March First to Conduct Business

Ottawa, Feb. 4—(CP)—Notice of motion to set up a joint standing committee on foreign affairs to deal primarily with matters of international interest was given yesterday in the Senate by Senator C. P. Beaubien (Conservative).

Before the Senate adjourned to March 1, Mr. Beaubien and Hon. (Cons. Vancouver), who originally advanced the proposal in 1935, explained how it would function.

Senator Beaubien said Canada was being launched more and more into the international sphere and the committee would be useful in informing members of parliament and Senators concerning external affairs.

Many of the committee meetings would probably be held privately and every precaution would be taken to guard information divulged at the hearings, he said.

McKEOWN'S

Obituary

MRS. MINA BARRIAGE

After a lengthy illness, Mrs. Mina Barriage, wife of Mr. Thomas Edward Barriage, passed away at the family residence, College Street, in Thurlow Township, on Thursday, February third.

The late Mrs. Barriage's maiden name was Mina Bailey, born to parents being the late Mr. and Mrs. John Barriage. She was 76 years of age and was born in Prince Edward County. All her life was passed in the vicinity of Belleville and regret to learn of her passing.

Surviving her are her husband, Thomas E. Barriage; two daughters, Miss Mollie Barriage, and Miss Kathleen Barriage, both at home; two sons, Stanley Barriage and Harry Barriage, also of Belleville; three sisters, Miss Ida Barriage, Bellerille; Mrs. Stella Shibley, Bath, Ont., and Mrs. Alwilda Vincent, Oshawa, Ont.

The funeral announcement is made elsewhere in this paper.

LATE WILLIAM E. EMERSON

The funeral of William E. Emerson, late residence in the Six concession of Thurlow Township, took place from the Belleville Burial Company Parlors, Bridge Street, on afternoon, February third. The service in the chapel and at the graveside in Victoria Cemetery was conducted by the Rev. W. R. Merrick of the Canadian United Church.

The late Mr. Emerson was a member of Belleville Lodge No. 256, No. 239, and the last rites of the Order were conducted in the chapel and at the graveside by Bro. J. Bell, Guire, the Master of the Lodge.

The bearers were Messrs. B. Sills, C. Chapman, C. Ketchenson, D. Leslie, F. Grey and J. Huffman.

TYPOGRAPHICAL ERROR

Oranges, two dozen for thirty-three cents, week-end special, featured in the advertisement of the Ciceri Food Market in Thursday's Ontario Intelligencer, appeared in print as 2 dozen for 23c by reason of a typographical error. These oranges are an Extra Special Value at two dozen for thirty-three cents.

Police Blotter

Wet slippery and icy conditions of the roads have contributed to the heavy paramount cause for several minor accidents yesterday, when vehicular transportation was slowed down to the proverbial snail's pace, motor vehicles proceeding with caution over the ice-covered streets.

Thomas McMullen, R.R. No. 1, Stirling, complained to the police last night, that a truck driven by Mr. Kellaway, Belleville, had collided with his motor car on Coleman Street and damaged his front fender. This accident also happened on Coleman Street but the damage was trivial, amounting to only one dollar, reported P. C. Ellis upon investigation.

While backing his truck out from the Front Street premises of the Cliffe Service gasoline station, the rear of the truck collided with a city street electric light standard, breaking the pole off at the base. The standard crashed to the pavement with considerable force, but fortunately did not strike anything. The accident happened early today. The motorist will be assessed the replacement of the standard, it was stated by authorities.

No arrests were necessary in Belleville during the past 24 hours, leaving the cell block at the police station available for night transients, who were afforded sleeping quarters there last night.

Letters to the Editor

Belleville, Feb. 3rd, 1938.

To the Editor,
Ontario Intelligencer,
Dear Sir,

I think now would be a good time to point out that it is solid on the ice bed, to get a couple of teams of horses or tractors and a couple of nice ploughs and plough up the ice in the river bed, not wait till the ice gets soft and the water gets so deep that men can't work at it. The ice after the recent rains must be four or five feet thick and is heavy to cause a flood and up to date there has been no icing done to prevent a flood. The ice could be ploughed up and put on the river bank from the footbridge to the railway bridge.

The City Council, Mayor and City Engineer ought to start this at once as there is no time like the present, would be glad of a day's work and it wouldn't take long to plough that ice up.

Yours truly
A Citizen.

Band Will Play At Holloway St.

Belleville Municipal Band will play during the evening service at Holloway Street United Church on Sunday, February 6th, and conduct in the church a half hour of music at the close of the service.

Organ Recital At St. Andrew's

At St. Andrew's Presbyterian Church on Sunday evening at 8.15 o'clock an organ recital will be given by Mr. John Hodgins assisted of the church with two numbers by the church choir. It is probable there will be a series of such monthly recitals with guest artists vocal and instrumental.

Mr. Hodgins has selected as his program the following numbers for the program: (1) A Menuette Gothique (Boellmann); (2) Two chorales by Bach, "Have Pity, Lord" and "Jesu, Joy of Man's Desiring"; (3) "Prelude and Fuge in B. flat", (Bach); choir numbers Hymn to the Trinity (Orlakowsky) and "Gloria in Excelsis" (Moran); an the following organ numbers. (4) "Pastorale" (Karl Ehrt); (5) "Ave Maria" (Schubert) by request; (6) "Panfare" (Lemmens) by request.

A BRAWNY SCOT!

Hollywood, Feb. 4 (AP)—Actor Nigel Bruce, who is at least half Scotch, is in bed with a cold. He caught it wearing kilts, his costume for "Kidnapped."

ANGUS LANGABEER INJURED BY CAR

Falls off Bike Directly in Front of Approaching Automobile

Suffering from a badly lacerated left leg and injured knee cap, Angus Langabeer, 14-year-old Belleville youth, lives today in 357 Front Street, is today in the Belleville General Hospital as the result of being struck by a motor car after falling off his bicycle on Coleman Street, last evening.

Young Langabeer was riding on a bicycle, with a companion, along Coleman Street, last evening, when the bicycle skidded on the exceptionally icy road, and the two lads across the street with Langabeer falling directly in front of a south bound motor car driven by Thomas Mason, Carnahtton Road. The lad was carried along the street in front of the car for a distance of three or four feet, during which his left leg was badly lacerated by the rugged ice on the street. He was taken to the nearby surgery of Dr. A. Wallers by Mr. Mason and later removed to the hospital.

Mr. Mason reported the matter to the police. The street was covered with glaring ice and I was proceeding along about five miles per hour, when I saw two boys on a bicycle. Suddenly the bike skidded sideways and the lads were flung

$418,968,456

(Continued from Page One)

dinary expenditures and capital expenditures in the transport department and government owned enterprises (non-active accounts).

This represented a reduction of $2,900,000 in expenditures under the same headings voted by parliament for the current fiscal year.

Lower Defence Estimates

In addition to the amount shown in the estimates the House will be asked to vote, in supplementary and special supplementary estimates, such sums as are not now ready for estimate as well as the money that will be needed for unemployment relief and the deficit of the Canadian National Railways.

Last year the vote for ordinary purposes plus special supplementary estimates, including railway deficits and relief, amounted to $517,268,659. Now close that figure will be approached in the next fiscal year remains to be disclosed when the additional estimates are brought down.

Defence estimates were lower by $2,000,000 chiefly due to the cut in requirements for stores, which were replenished by the current year's vote. Provision was made, however, for the purchase of two new destroyers from the British Admiralty.

Other features of the estimates included provision for expansion of flying facilities in the transport department which sponsors the Trans-Canada Air Lines, increased air and land mail services and additional costs of staff due to expansion and increases.

Saving In Interest Charges

In the Finance Department which because of its responsibility for serving the National debt requires the heaviest vote of all, a substantial saving was noted in interest charges because of recent refunding operations and lower rates. A new saving in that department of $5,973,000 was shown.

An increase of $950,000 contained in the vote of $6,052,000 for air and land mail service, indicates the possibility of augmented air mail routes, while the same department will spend an additional $880,000 for increased salaries and other administrative purposes and $277,000 for increases in the railway mail service.

A new ice-breaker to cost $600,000 is proposed in the Transport Department, and a vote of $200,000 was provided as next year's share of the cost. Additional grants for municipal airports, radio and meteorological services will help to account for the $1,732,000 increase in the transport Department vote of $30,859,000.

Another reason for the Transport Department vote increase was shown in the appropriation for the payments under the Maritime Freight Rates Act which next year will require, due to increased traffic, an additional $638,000. Last year this required $2,000,000.

Crossing Fund

An additional amount of $300,000 is provided for the railway crossing fund, in addition to the statutory grant of $300,000 for the removal of level crossing.

Great War pensions continue to make the bulk of the vote for pensions and National Health but the sum is reduced by $600,000 to $40,900,000. The estimate for war veterans assistance, however, is increased by $300,000. Total vote for the department of $48,940,000, is a reduction of $880,000 from the current year.

The vote of $250,000 for encouragement of tourist traffic in Canada is continued.

Additional money is provided for costs of the Royal Comission on Dominion - Provincial relations which is now conducting an inquiry into financial powers and responsibilities of the Dominion and Provinces. For the remainder of the commission last year $130,000 was voted and $210,000 is provided in the new estimates for the next fiscal year.

COULD HARDLY CLOSE HANDS

Had Rheumatism and Neuritis

"I suffered severely from Rheumatism and Neuritis," writes Mr. W. J. Tracy of Tweed. "I could hardly close my hands or clench my hands. After taking Fruit-a-tives I found the swelling had gone down, the soreness left and I could clench and hold my hands. I could climb ladder. I am proven suffering as I did to take Fruit-a-tives. They truly relief." Fruit-a-tives are real fruit juice, herb and tonic properties of 5 famous Canadian fruits. If you suffer they might clear up your case too. 25c. and 50c. No substitutes. ASK BAN ON JAP. SALMON FISHING

Thomas Riggs, (LEFT), former governor of Alaska and Delegate to Congress A. J. Elmond, of Alaska, go over maps of Alaska waters in the latter charges a huge Japanese fishing fleet is ruining the Alaskan salmon industry. Elmond appeared before the House Merchant Marine and Fisheries Committee, Washington, D.C., to ask a ban on the Jap boats. He feared possibilities of an armed conflict with American fishermen taking the law in their own hands if the government does not act. Riggs is chairman of the international boundary commission which has been asked to extend a boundary line over Artistics of Nippon fishing and canning fleets.

MISS SOUTAR OF V.O.N. IS SPEAKER

Address Business Girls of "Y" on "An Adventure in Nursing"

"An adventure in nursing" was the topic of an address delivered to the Business Girls' Class of the Y.M.C.A. at their monthly supper held at the "Y" last evening when Miss Soutar of the local branch of the Victorian Order of Nurses was the principal speaker of the evening. In interesting terms Miss Soutar told of the many experiences of a V.O.N. nurse during her daily routine her narrations being highly instructive and of educational value. Miss Soutar was introduced by Miss Marion Maclean, president and chairman of the Business Girls' class.

A delightful programme was presented, including community singing, a vocal duet by two club members, the Misses Jean and Betty Shorey, with Miss Grace Leeman, accompanist, following the monthly supper the class adjourned to the gymnasium for an evening of recreation to be conducted with a dance in the pool.

During the programme J. E. Short, general secretary of the Y.M.C.A., outlined the affairs of the "Y" Business Girls' Club and assured the girls that monthly get-togethers in the form of banquets would follow in sequence to be culminated by a larger members' party later in the semester. Miss Soutar was given a hearty vote of thanks for her most interesting talk on the activities of the V.O.N. within the individual home.

QUANTITY BUTTER FOUND IN CAR

Montreal Youths Arrested Located In Ditched Automobile

Alexandria, Ont., Feb. 4 (CP)—Leslen Dore, 20, and Leslen O'Connor, 17, Montreal youths, were arrested last night by Provincial Police and part of a quantity of butter, stolen from the Graham Creamery here early today, was found in their automobile and in the bush near the roadside just outside of Lancaster near here, police said.

The men were found in a ditched automobile, and a third party who had gone for help at a garage in Lancaster escaped. Of the 29 boxes of stolen butter, 22 were found in the automobile and in the bush nearby, according to officers.]

ALCIRA HIT

(Continued from Page One)

about 30 miles southeast of Barcelona the British ship Alcira was attacked and sunk by two airplanes from the direction of Palma, Mallorca (the insurgent naval and air base).

The Alcira, 1,367 tons, left Gibraltar Jan. 31. She is owned by the Mossgill Steamship Company of Glasgow.

The Alcira was sunk as the augmented anti-piracy patrol searched the Mediterranean for the submarine responsible for the sinking of the British freighter Endymion, which carried 11 persons to their death.

Ship Sinks Immediately

The Defence Ministry communique added:

"They (the planes) twice flew over the ship, dropping three bombs the first time and one the second time.

"The ship sank immediately.

"The crew of 24, all British, as also is the observer of the non-intervention control, are saved.

"All the crew and the observer were rescued by the government sloop 'D' of the government, docked at and a fishing boat."

The Alcira's master was Captain M. McCracken of Glasgow.

The Alcira, like the Endymion, was a coal load in an attempt to get through the insurgent blockade to a government port.

Crew And Observer at Barcelona

The Defence Ministry added:

"They (the crew and observer) arrived at Barcelona at 9.55 a.m. (4 a.m. EST) this morning, docked and given clothing and refreshment.

"From where at which (big government fortress overlooking the sea to Barcelona) the attacking and sinking of the ship were clearly followed.

"The ship was flying the British flag and also that of the non-intervention control.

"The ship Alcira was going to Barcelona with a cargo of coal. Her port of registration was Immingham."

Deseronto

Deseronto—The home of Mr. and Mrs. T. L. McCullough, Dundas Street, was the scene of a delightful function when a party was held in honor of their daughter Ann, who celebrated her third birthday. It was also the occasion of Mr. Alfred McCullough's fourth anniversary. The guests in attendance were: Mr. and Mrs. H. A. Boyce and Marion, Mrs. Smith and baby, Miss L. Warren, Mrs. Allan, of Brockville, Mr. and Mrs. Ross of Kingston, Mr. and Mrs. Wessman and daughter.

Mrs. Orlando Higgs entertained a few of her friends to a euchre and bridge on Monday evening.

The weekly card party was held in the Parish Hall on Thursday evening with a good attendance. The bridge prizes were won by Mrs. Charles Higgs and Mrs. Therrien, while the euchre prize went to Miss Emma St. Louis. A dainty lunch was served by the committee after which dancing was enjoyed for a couple of hours.

Mr. Clare Mabley is confined to his bed with pneumonia. All hope he will soon recover.

Mrs. D. Armstrong has returned home to Grimsby after visiting with her sister, Mrs. J. Allum, for some time.

Miss May Maxwell of the local High School teaching staff underwent an operation for appendicitis at Belleville General Hospital.

The Deseronto Creamery are occupying their new premises on Main Street North. The creamery is equipped with modern machinery.

The weekly card party was held in the Parish Hall on Thursday evening with a good attendance. The winners were, for euchre, Roy McDonald and J. Whalen, and Ivy Bridge, Mrs. Hagerman and Mrs. Dunn.

Mr. Edmund Bowling and Miss Mary Dowling have returned home after visiting with relatives in Rochester, N. Y.

Mrs. Chas. Cole is a patient in the General Hospital, Kingston.

Mr. Patrick Fox and Miss Nora Fox have returned home after visiting with relatives and friends in Toronto.

Mrs. Fred Coran is a patient in Belleville General Hospital where she recently underwent an operation.

A well-known and highly-respected resident of Deseronto passed away on Friday in the person of Captain A. Barnhardt, St. Thomas Street. The funeral was held on Monday afternoon.

Mrs. Thomas Gault entertained a few of her friends at her home on Monday evening.

Born—To Mr. and Mrs. George Jackson (nee Clare Burley) at the Belleville General Hospital, a girl.

Mrs. T. Naylor has returned home after spending some time with her daughter, Mrs. B. Thompson in Bowmanville.

Mrs. Thomas Gault entertained a few of her friends at her home on Monday evening.

Born—To Mr. and Mrs. George Jackson (nee Clare Burley) at the Belleville General Hospital, a girl.

Mrs. T. Naylor has returned home after spending some time with her daughter, Mrs. B. Thompson in Bowmanville.

Christian Street

Christian Street—Mr. and Mrs. Lorne Caughey of Crofton spent the week-end on Sunday visiting with Mr. and Mrs. Arthur Bowy and Georgia.

Mr. and Mrs. P. W. Robin and Mr. and Mrs. Harold Cross spent Sunday afternoon at Tunbore with Mr. Will Clarke who is confined to his bed.

Mrs. James Noxon left on Thursday to spend some time with her daughter, Mrs. Maureen Hall and family, of Picton.

The many friends in this neighborhood of Mrs. Harland Barrow (nee Addie Rowbotsk) of Cressville, Iowa, were very sorry to learn of her serious illness with pneumonia and hope to hear of her speedy return to health.

Mr. and Mrs. Harold Cross spent the tea hour on Monday with Mr. and Mrs. Foster Christy and family.

The Bridge Club was entertained at the home of Mr. and Mrs. Basil Ainsworth on Thursday evening.

Misses Marion and Nellie Werden of Belleville spent the week-end with their parents. Mr. and Mrs. Stanley Werden and family.

Mr. and Mrs. Harold Noxon attended the Silver Wedding Anniversary of Mr. and Mrs. Hanson Hill at their home on Centre St., Picton, on Saturday evening.

Mr. and Mrs. Raymond Calnan spent Saturday evening with Mr. and Mrs. Foster Christy.

Mr. and Mrs. Ross Burr and Ronald of Burr's, spent Sunday with her parents, Mr. and Mrs. M. M. Werden.

Centre

Centre—Mr. and Mrs. Elgie Bellrun and Margaret spent Friday with Mr. and Mrs. Fred Russell.

Mr. and Mrs. Ernest Gordon on Friday with his daughter, Mrs. F. Smart.

Mr. and Mrs. William McPaul, Sunday.

PHONING KING BORIS

Gus Pollock (ABOVE), railroad engineer of Falls City, Neb., who made what is believed to be the first transatlantic telephone call to Europe from America, when he congratulated King Boris by long distance on his birthday. The King and Gus became friends when Gus gave the monarch a ride on his locomotive on King Boris' last visit to America. The call cost Phillips $31.00.

Mr. and Mrs. Cecil McPaul and children spent last Friday with relatives near Allisonville.

Mr. and Mrs. Marcus Moy were callers Sunday evening at Mr. and Mrs. Rose Leiby.

Mr. Nelson Parliament spent a few days this week with his parents, Mr. and Mrs. A. L. Parliament.

Miss Helen Lough spent Tuesday with her aunt, Mrs. George Mumby.

Germany Orders Closed Anti-Nazi Exposition

Paris, Feb. 4 (AP)—A French anti-Nazi exposition, caricaturing "five years of the Hitler regime" has raised a diplomatic and political storm around Premier Chautemps' Government.

The German Embassy asked the Foreign Ministry to have the show closed "in the interests of French-German relations."

The Foreign Ministry, seeking a compromise, ordered organizers to withdraw the "most troublesome" exhibits, but Gerpaldi asserted said today that action was not satisfactory and that a new protest would be delivered, insisting upon a complete shutdown.

The exposition is being progenced by a number of Socialist, Communist and Labor committees belonging to the popular front. Its displays cartoons of Nazi leaders and documents denouncing the regime.

The Stars Say—

For Saturday, February 5
By GENEVIEVE KEMBLE

OPPORTUNITY FOR progress and happiness is shown by this day's mineral position. There are augurs for advancement, favors or financial increase in employment or in business. There may be sudden developments in your social calls for a change, or a speculative enterprise may turn out surprisingly. Some social associations there may be very pleasant and profitable relations.

If This Is Your Birthday

Those whose birthday it is may enjoy a very pleasant and progressive year, with promotion or success in employment or in lucrative business operations, probably of a sudden nature. Speculation is promising. Also important contacts with high personages in your business or social affiliation may prove profitable and pleasant.

A child born on this day may be an original if overbroken thinker with ambitions that will attract good fortune and probably the interest of influential persons. His gracious and kindly nature may assure social popularity and standing.

February SELLING EVENT

5 Piece Studio Ensemble

- STUDIO
- LAMP and SHADE
- COFFEE TABLE
- MIRROR

Beautiful 5 pieces to furnish your studio. Each piece is quality merchandise. Studio has Marshall Spring filled Mattress and cushions, makes into double or twin single beds.

THE ONTARIO INTELLIGENCER

THE DAILY ONTARIO INTELLIGENCER is published every afternoon (Sunday and holidays excepted) at The Ontario Intelligencer Building.

JUST SPELLING

A telephone chess game interrupted 22 years ago by the Battle of Jutland has been concluded by the daughter of one of the original players, a naval officer who lost his life in that battle, winning.

Something not quite so dramatic, is the first radio transatlantic spelling bee in which Harvard beat Oxford. Duplicate lists of words had been supplied to the two spelling masters, Paul Wing, of the NBC, New York, armed with a Webster, and Gilbert Harding of BBC with the Oxford-English dictionary in London.

As Mr. Wing hurled a challenge across the ocean Mr. Woodruff repeated the word, defined it and consulted his book for the accepted spelling.

The process was then reversed and Mr. Woodruff plied the American contingent with his "devastaters," Mr. Wing referring to his cherished copy of Webster for definitions and spellings.

In the first round the contestants swept through such threats as "nomenclature," "tartan," "indefatigable," "obeisance," "indispensable" and "plaques." But before it ended two Britishers and one American had fallen.

The English misspellings were "haemorage" for "hemorrhage" and "labyrnthine" for "labyrinthine." The American misspelling was "lonliness" for loneliness."

With a point awarded for each word spelled correctly, the score at the end of the first round was six for Oxford with two contestants spelled down, and seven for Harvard-Radcliffe, with one member down.

The British team evened things in the second round by correctly spelling "dogueretype" and "longevity" and only losing on "corollary." Two American men down fighting on the stumper, "dogueretype," while the British lost only one and the score at the close of the second round was 12 points each.

The third session also ended in a tie, 18 points each, with the Oxfords atone misspelling "milligatawny" (mulligatawny), "anonymity" (aninity), while the Americans misspelled "palfreys" (palfries) and "broggadocio" (braggadocio).

Then came the crucial fourth round which gave the American team a four-point lead that they held until the bee ended. Six Britons fell by the wayside with mis-spelling of "visacles," "pettifoggery," "gamboge" and "trochee." The Americans lost only two men in that round. They fell on "pettifoggery" and "trachea." The resulting score was 24 for Oxford and 28 for Harvard-Radcliffe.

The bee closed at the half-way mark of the fifth round with each side losing a point on "truncheon" and "embarrassment," and the final score stood 24 points for the Oxonians and 28 for the Americans.

Under the rule a point was lost for each mis-spelling, but the contestant was not eliminated, but instead remained in line, with a chance to redeem himself or herself on other word-traps.

When students go down with tricky words it is easy to understand that mis-spelling is general enough.

A FAMOUS FAMILY

Families whose names stay generations before the public must have possessed virility of ancestry. There is the family of Wordsworth, the most famous of the name being William Wordsworth, the poet, one of the most inspired and original of English bards whose love of nature and the countryside, and whose gentle philosophy and calm-creating moods of reverie and meditation more and more appeal to the English-speaking world. He inspires with the spirit of the inner life, and is the great consoling force in English poetry. But there are other Wordsworths. Bishop Charles Wordsworth of St. Andrews, nephew of the poet, Christopher Wordsworth sr., youngest brother of the poet and an eminent scholar and divine, master of Trinity College, Christopher jr., son of the latter and nephew of the poet and Bishop of Lincoln, as well as a social writer, Dorothy Wordsworth, sister of the poet, herself a poet, and inspirer of some of William's greatest work, and another member of the Wordsworth family in these days, highly honored by the church.

So many prominent names in one family in the past century and a third are proof of not only stability and richness of inner life but appreciation of the real values of life.

Sometimes great men appear from unexpected origins on the scene of the world's affairs, but no member of their family carries on the tradition. Only nature can explain just why this is, with genius flashing up and then disappearing, with in the case of the Wordsworth family the marks of genius are about every member of that family.

INDICATIONS OF LONGER LIFE?

Will the lowly water fleas or daphnia longispina lead the way to the extension of human life long beyond the present expectancy. is a problem raised by doctors who with experiments have doubled the longevity of the little creatures by regulating the food supply. They say:—

"If conditions which effect the length of life in the lowly daphnia carry over to man and are reflected in human longevity, persons who lead very frugal lives until past middle age and then have generous living may be expected to live longest."

Eating all they want throughout their lives the daphnia in the tests lasted only 29 days, while with frugal diet for half of their lives and a generous diet thereafter they lasted for 42 to 51 days. Organisms which use up their quotas of vital energy quickly, die early. Conservation and slow expenditure tend to increase the length of life the experts say.

Those who are inclined to follow frills and fods in eating may now hold a session over their early lives and decide whether frugality or luxury was followed in their early lives.

SCIENTIFIC

THE HOME FORUM

Discussing the Events of the Day; House Gossip and Household Hints Conducted by the Home Keeper—under the evening lamp—and occasionally Grave and Gay.

Supervised by The Lamplighter.

FLOWERS ARE BLOOMING IN TEXAS, also spinach; and all kinds of vegetables and fruits, for Texas is going to town on the idea of feeding the world with nice fresh vegetables and fruits in and out of season. Our Dallas, Texas, correspondent, sends cheery greetings and says Texas is surely going to town in a big way, commercially, and every other way. Especially in the entertainment line has Texas won fame and considerable fortune recently, with two big World Fairs going at the same time, Dallas and Fort Worth both rivals in the old shootin', scoopin', days when possession of the Court House square meant much to the ambitious citizens of rival towns who saw prestige and progress in the possession of the county seat. Now they do it in a bigger way and toss their money round promiscuous like, but always where it will produce the most in the publicity.

× × ×

Dallas correspondent of this Great Family Newspaper turns to Vitamin C for inspiration and tells us:

That good old stand-by—apple-sauce —is an excellent source of vitamin C, provided it is cooked quickly and eaten in quantity, says the scientists. So it pays to keep a fresh supply on hand.

Wash and slice the apples, place with just a little water in a saucepan and place over a lighted top burner of your gas range. The moment the apples bubble turn the burner to simmer; then the fruit will cook gently but effectively without attention or scorching. When the apples are soft, use this to extract the flesh from the peeling, and add the desired amount of sugar to the hot sauce.

× × ×

The above paragraph being all applesauce the Dallas Correspondent directs our attention to a cafe incident where a waiter accepted a tip of rather large proportions. The size of the tip so flabbergasted him that he took it as an admonition to get going, lest he woke up and find he had been dreaming. He had been anxious to travel for some time and when Heaven, or circumstances, dropped this abnormal tip in his lap he couldn't get away fast enough. A merchant left a bag containing $500 in the restaurant for safe keeping —the waiter took the money and skipped.

× × ×

Rufus Rastus Johnsing Brown, whatya-yagoin'-to-do when the rent comes round? Whatyoggin' to do, whatyogain' to say, etc. Just what he would say to that Dallas negro landlord who carries a shotgun, when he goes to collect his rents in a question. Under the circumstances the less said the better, perhaps. The shotgun landlord was arrested on complaint of his tenants who objected to shotgun payments. He was hailed to court and took ten days in jail for disturbing the peace. They do such things and they say strange things in Dallas—things that make news.

× × ×

Justice is seldom hasty, is often tardy, and most generally always deliberate and dignified as is fitting, but Oklahoma claims the challenge cup for swift justice in the following chronological story from McAlester:

1 p.m.—D. W. Talley parked his automobile in front of a cafe here.

1:10 p.m.—Talley's car was missing.

1:50 p.m.—Officers at Eufaula, thirty-two miles north of here, arrested a man who identified himself as J. P. Massey of Glendale, Calif., with Talley's automobile.

4 p.m.—Massey pleaded guilty and was sentenced to five years in the State penitentiary here by District Judge R. W. Higgins.

4:05 p.m.—Massey began his sentence.

OFF THE RECORD

By Ed Reed

"No more encores, Dr. Carter—there's nothing left to take out."

LOOKING BACKWARD

GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

20 YEARS AGO

Feb. 4th, 1918.

Belleville Market Prices: Eggs 65 cents per dozen; butter 48 cents to 50 cents per pound; dressed chickens $2.00 per pair and upwards; ducks $1.50 to $1.75 each. Hay $13. per ton.

Lt. Col. W. N. Fenton, K. C. left today for New York City where he will address an important gathering tomorrow night.

Mr. Nelson Parliament, M. P. P. for Prince Edward County was in the city today en route to Toronto to be present at the opening of the Legislature tomorrow.

At the I.O.O.F. Lodge Rooms Col. R. H. Ketchum installed the officers of the Belleville Canton No. 8 Patriarchs Militant as follows: Captain, W. M. Gilbert; Lieut., A. E. Cole; Ensign, W. H. Lallstrom; Clerk, G. Way; Accountant, George R. Brown.

Prior to leaving for overseas as a chaplain, the Rev. Father O'Reilly, the popular parish priest of the Church of St. James the Minor, Stirling, was presented with a wrist watch and a purse of gold.

30 YEARS AGO

Feb. 4th., 1908.

The thermometer registered 22 degrees below zero this morning.

The bottom of the coal bin is beginning to show up in some places.

About 7.30 o'clock this morning the Matzor Building of the Ontario Works at Tweed blew up The building took fire and the workmen ran for safety and escaped before the explosion. Every window in the building was shattered and many windows in town. Buildings were broken, as were also windows in some houses five miles out in the country. The shock was felt slightly in Belleville. The loss to the company will be about $25,000.00.

Alderman Hagerman and Mr. William Lynch left today to attend a convention in Cincinnati, Ohio.

40 YEARS AGO

Feb. 4th., 1898.

"Prince", Mr. J.F. Baird's handsome dog, got his tail caught in a door at Hotel Quinte this morning; it was badly lacerated.

Capt. McGuinness will lecture at the Armouries this evening on "Outposts and Night Entertainer".

Mr. R. J. Cromble, Manager of the local branch of the Bank of Montreal, has presented to the officers of the 15th. Battalion a beautifully framed picture of the battle of Queenston Heights. Mrs. (Col.) Campbell has donated to the Regiment a number of photographs of the battle which were taken when Col. Col. Campbell was in command.

The water in the river is still rising. It rose a foot today south of Dundas Street and all the boat houses are flooded. The fires in the city buildings were out today, and many furnaces in cellars along Front Street are cold. An attempt was made yesterday afternoon to make an outlet in the mouth of the river, but after a large hole had been cut the work was abandoned as the action he was found to be packed tightly right to the bottom of the river.

50 YEARS AGO

Feb. 4th., 1888.

The 14th. anniversary of the Institution of Mimpah Lodge, No. 127, I. O. O. F., will be celebrated at the George's Hotel here on the evening of the 6th. inst.

A deputation from the town of Brockville was in the city yesterday for the purpose of buying a stone breaker and engine for that town. After examining and testing the machine made by the Brown Manufacturing Co. they have purchased it for the sum of $1400.00 cash.

The regular meeting of the Belleville Legal Society was held last evening when the following programme was carried out: Song, Mr. W. H. Campbell; Recitation, Mr. S. D. Lazier; Song Mr. J. O'Brien; Lecture, Mr. W. Ponton, M.A.; and a debate on the subject: Resolved "That annexation to the United States is preferable to imperial federation for Canada." The affirmative was led by Mr. M. Wright and the negative was led by Mr. J. S. Johns. The affirmative side won after a long and very interesting debate.

Beaver Staging Comeback

Beaver are plentiful in the Missanaga River—White River game preserve according to reports coming therefrom and other reports of poaching on these grounds are too prevalent.

This passage in a news letter from the Star's fund per correspondent a day or two ago will give the people of Algoma furiously to think.

Beaver are coming back in an Algoma game preserve—but poachers are getting them! Similar disquieting reports are coming from other parts of the district and these lend point to the arguments being put forward by the Algoma Game, Fish and Forest Association for an increase in the number of game wardens in the district and the co-operation of an airplane patrol.

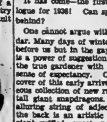
During an eight-year period before the department decided that beaver were too near extermination to permit of their being trapped and prohibited trapping them, some 2,000,000 pelt were taken out of the Missanaga Forest Reserve alone. That is only a small corner of Algoma and that record shows what the beaver can mean to the district.

Now reports are that the beaver are coming back. The great thing is to protect them until they are well established.

Quite apart from the value of its pelt, the beaver is one of the most efficient conservationists and it plays a most valuable part in the saving of water and the preservation of forests.

Wood industries, fishing, hunting, power development in Algoma have in the past all shared in the advantages of having beaver in the district. Latterly the beaver has been threatened and these other industries and sports will share in the danger.

"Thousands of years before America was discovered, the largest living resident of North America was practising the art of flood control, creating and maintaining fine trout streams, preventing valuable soil from being swept into the sea, developing lands, and planting birches, willows, sabes, alders and poplars along water courses to help keep the banks in their places," says National Nature News. "The first industrial conservationist was discovered by the white man, and his valuable fur coat spelled doom."



Fishermen owe much to the beaver tribe. These busy workers have built large ponds, being stored by beavers, without disturbing the fish, on streams where trout and other game fish places deep enough to afford refuge.

"Of course, in places the busy beavers have caused some damage to property. They have been known to devour valuable fruit trees, girdle and power plants, or undermine dams that held back irrigation water. But, all in all, the beaver continues to be one of the most useful animals in the world. He is still an asset to the land, and is a kindly and friendly neighbor who asks of his friends only a space of forest cover.

"It is possible to find a pair of beavers in your community, get acquainted with them. They will make you more than half way," says the News.

So far as Algoma is concerned it wants many pairs of beavers, and that is one reason it is strong for protection and conservation.

Another reason is the value of a well established trapping industry where beaver are plentiful.—Sault Ste. Marie Star.

WHY SOME HAVE MORE COLDS THAN OTHERS

You have friends or acquaintances who seem to have colds very often and others who seldom have a cold; yet as far as you can see, the ones with colds seem to be just as robust and healthy as the ones who seldom if ever have a cold.

Research physicians are more of the opinion that some individuals are susceptible, or more likely to have, colds than others and so the reason for this is being sought.

Drs. L. G. Foreman and L. Arnold, Chicago, in the American Journal of Digestive Diseases and Nutrition, tell of their experiments with, and observations of, sixty-three patients over a period of three years. These cases were selected from among those patients after having been treated by various methods for a long time previously. The patients chosen for the study, after a thorough examination including X-ray of sinuses and chest, were found to have no defect of the nose, throat or sinuses. Then was thus no underlying cause for the colds.

These physicians report that "the individual suffering with repeated colds between October and April was found to have an altered action or condition of lining (mucous membrane) of the nose and throat when heat or cold were applied to the skin. When the skin is chilled there is a slow gradual closing for tightening) of the blood vessels in the mucous membrane of the nose and throat which lasts for from several minutes to two hours. This means that the little blood vessels in the lining of the nose and throat are not adjusted properly to the needs for protection of the body. It is understood that if these little vessels close up and do not supply the necessary blood to the tissues, leaving for any length of time, the organisms that cause colds and other ailments get a good chance to cause trouble. And, unfortunately, these organisms are in the nose of all the time anyway, ready as it were to attack when there is a favorable protective lining of the nose unfit to keep them off.

How can colds be prevented?

Drs. Spikerman and Arnold tell us that by the use of hot water and applications (hydrotherapy) and proper diet, such valuable foods wheat breads, pastry, pies and buttered foods, the number of colds reduced in these patients but when the colds did occur, they did not last so long.

The First Builder

Thousands of years before American was discovered, the largest living resident of North America was practising the art of flood control, creating and maintaining fine trout streams, preventing valuable soil from being swept into the sea, developing lands, and planting birches, willows, sabes, alders and poplars along water courses to help keep the banks in their places.

Then the industrious conservationist was discovered by the white man, and his handsome fur coat spelled his doom.

Fishermen owe much to the beaver tribe. These busy workers have built large ponds, being stored by beavers, without disturbing the fish, on streams where trout and other game fish places deep enough to afford refuge.

Of course, in places the busy beavers have caused some damage to property. They have been known to devour valuers that were planted on their lands and power plants, or undermine dams that held back irrigation water. But, all in all, the beaver continues to be one of the most useful animals in the world. He is still an asset to the land, and is a kindly and friendly neighbor who asks of his friends only a space of forest cover.

"It is possible to find a pair of beavers in your community, get acquainted with them. They will make you more than half way," says the News.

So far as Algoma is concerned it wants many pairs of beavers, and that is one reason it is strong for protection and conservation.

Another reason is the value of a well established trapping industry where beaver are plentiful.—Sault Ste. Marie Star.

Snow and Snapdragons

It has come—the first seed catalogue for 1938! Can spring be far behind?

One almost argues with the calendar. Many days of winter still loom before us but in the gay little book is a power of suggestion that thrills the true gardener with a delightful sense of expectancy. On the front cover of this early arrival is a gorgeous collection of new rust-resistant tall giant snapdragons. What an alluring string of adjectives! On the back is an artistic grouping of giant ruffled sweet peas lacking nothing but the delicate perfume that awakens the summer breeze. Between these two oceans is listed everything from succulent asparagus to flaming zinnias—everything that can appeal to eye and palate.

Only the real garden lover can appreciate the full lure of the seed catalogue. While his perennials sleep beneath their blanket of snow, his mind—or her mind—travels from the old favorites to the latest novelty in vegetable and flower. Arresting crosses are marked opposite items that appeal—old standbys and experiments worth trying. Wintry winds may rage without, sleet may beat against the pane, but, within, the world blooms afresh. Drifts of snow melt miraculously from garden paths and in their cover of the early arrival a gorgeous transforms a bleak February day into one of sun-kissed July.

The gardener's mind is seldom at rest. It plans, dreams, makes changes, seeks new thrills. Unaffected by seasonal changes it aims to add its bit to a World Beautiful that returns smile for smile and responds so readily to the sympathetic touch of the garden lover. And the seed catalogue is the happy medium between the soil and the man or the woman who finds joy in "making the wilderness blossom as the rose." Four months to wait? Poof! —Lindsay Post.

Egypt's King and Queen Salute Their People

Wearing her $35,000 wedding gown, Queen Farida, the 16-year-old bride of King Farouk, of Egypt, poses with the groom shortly after the marriage ceremony in which, according to custom, she did not participate. She was received by Moslem custom in the harem room of King Farouk while the monarch went through the marriage ceremony with her father. Farida hid her face with a veil after the ceremony and then dashed the hopes of Egypt's women that the new queen would lead them away from the customs which requires married women to hide their countenances from the stranger's gaze.

Goering To Become Supreme in Reich?

GEN. GOERING AND PART OF THE ARMY HE WILL CONTROL

Already head of the Reich air force and dictator of the four-year plan of economics, Gen. Wilhelm Hermann Goering, right hand man of Adolf Hitler is expected to become minister of war in succession to the resigned Marshal Von Blomberg. Addition of the war ministry to Goering's other posts would make this former war ace the most powerful man in Germany aside from the chancellor himself, and a force that might conceivably rival the myriad-sectioned Hitler should the two ever clash internal or foreign policy for Germany. As head of the nation's war forces, Goering would have army backing in any such clash.

NAZI PARODIES

Clever parodies of Nazi officials are making a hit in a cabaret now in Berlin. The place is crowded nightly every night. Two-thirds of the performance is conducted in conversation, monologues and mock lectures, all in a strongly German flavored English aimed at the heads of the third reich. Actors have become quite efficient in imitating the oratorical mannerisms of some of the leaders of the movement. The take-offs are warmly received by the audience, which usually includes American and English. An interesting Anglo-American flavor, together with a generous sprinkling of humor is evident in Berlin amusement circles this season. —Chronicle Telegraph.

Gilded Orchid

By JANET DORAN

Maydra walked along beside Bill, and didn't say anything for a block. Until he repeated something a third time.

"Don't you, Maydra?" he repeated, staring down at her intently.

"What? Oh, I'm sorry, Bill; I was miles away. Thinking!" she apologized carefully.

"So I gathered." he observed drily. "What were you doing that time, spending a quarter of a million or so?"

"Wrong," she corrected him primly. "Then was the farthest from my mind!"

"Small consolation," Bill growled. "So was I, apparently!"

"I was remembering that Sussanne promised me my rake against the fall hoped," Maydra explained. "Didn't you dream a little, Bill, when you were thinking what you'd be promotioned? Before you became really good, really sure of yourself?"

He smiled at her warmly, remembering. He tucked her hand inside his elbow, and hurried her up legs so as to keep warm.

"Did I? What man doesn't?" he enthused. "It would be different if you know, the amount I'd live on, the amount I'd earn, what I'd do with it. The place I'd have to live in . . . you know how it is! I'd spend I just needed a lot more things than I'd figured into the budget, somehow. And every, I kept needing more and more. It's the way."

Maydra ordered a sandwich, a salad, and a malted milk, and looked at the menu.

"So you let your little budget run you instead of run unnecessary expenses into a hole and bury them!" Maydra commented.

"Ever try keeping one?" Bill inquired belligerently.

She nodded, smiling slowly at his angry vehemence.

"I do, all time! I'd have nothing, otherwise, Bill! It's terrifying, the number of things you can convince yourself you actually need, when you've no ordered plan for your finances!"

"Well, it wasn't a success with me,"he admitted, "so why spoil our luncheon worrying over the subject? It's a thing I've learned I can't dole out my cigarette money and go school, when I've received the quota limit, and you know you couldn't marry a poor man, even if I loved him a great deal! So what!"

"So what is hanching with me, then?" Bill" she challenged him directly, "Why you've crumbled a roll and then ate it savagely, as if the measure of his fuming frustration on the hapless bread.

"Maydra, I'm a problem, or a fool for luck, or something," he said. "Maybe I'm not wrong a bit of Locke's millions for dummy stock certificates, but I'm not sure it's as tough, as you think you are!"

Maydra finished her malted milk, and looked up. Bill was looking at her, with his head lying openly, in his intent blue eyes, and something more than that, that something that was either a sob or fear, or panic; she never knew which.

"Bill!" she said flatly. "Bill, I . . . I mean be gobs! I must be getting back to the shop! It's late!"

"It isn't; you're alibi-ing!" Bill accused her, hurt.

"Bill, I haven't see you any more like this. You see . . . you're wrong, you're mistaken. And as if something did happen to Sam's money, I wouldn't . . . that you're things!"

He held the check and followed her. Didn't catch up with her until she was at the street door again. Talking with Wake Ballinger, who stood several steps below him, and had bered to the cool fall air, his eyes admiring her with no regard whatever for the world passing curiously by.

"Of course I followed you," Maydra came over to the table where Key and Ballinger sat, petrified.

"I haven't forgotten what you said that day about trying more green in your wardrobe, Wake's chiffon velvet? And dull green corduroy?"

Maydra nodded, remembering. Wondering how much of this was unexpected, and how much shrewd, deliberate planning.

"Well, something in' both, in lounging pajamas, following the style of Dorothy's bought before, will you, Maydra? That let me sit them. Perhaps you can really help me, after all!"

She turned to go, pulling on her extra long, slim gloves; paused at the door, when Suzanne disappeared out back, leaving Maydra alone in the private salon.

"And see that you send me home some dinner, could, or I'm . . . urging him to tak you home!"

(To be continued)

Wake was admitting gayly. "Or there any way I might help, Miss Maydra? When you practically hand me a thing, Miss, key and all, with no excuse?"

"Maydra, you leave Kay!" Maydra changed the subject, in an attempt to remind him of his obligations, and attempt quite lost on the innocuant Mr. Ballinger.

"At Suzanne's, I'll be back in forty minutes to buy a bankie, so you don't have to break and spend laws getting back. Kay and I understand each other, Maydra, don't we?"

"Well, I must hurry back to work!" she answered, ignoring Bill. "At once!"

"I'll be outside at closing time, and run you up to your place. I want to talk to you. And if you can't spare the any time, otherwise, well make the most of that much!"

He was gone before Maydra could say anything, but she Bill

"And I thought," Bill opined cautiously, "that a new dress million or so was a heavy sugar! Can you beat that? I would think a lot of that thing you could paint the Empire State peak from Brooklyn with!"

Unreasonigly, Maydra was furious with Bill, unreasonigly, she wanted to strike him, to slap his face and like his shine.

Unreasonigly she stared at him coolly, impassively, and then turned to Suzanne's.

Bill did not follow her. He stood quite still, instead, and carefully lighted a cigarette. When it was going well, he removed it from his mouth and stared thoughtfully, reflectively down the street at the big, handsome roadster parked there.

Personals

Mrs. E. V. Illsley entertained at a delightfully arranged afternoon tea at her home, Bridge Street East, yesterday. Miss Betty Illsley assisted her mother in receiving the guests who were invited to the tea room by Mrs. R. D. Fenton. Mrs. Roy Stafford and Mrs. George Graham presided at the tea table which was charmingly with its spring-time bouquet and matching pastel tapers. The tea assistants were Miss Amy Wallbridge, Mrs. R. J. Graham, Miss Mabel Philpsen and Miss Hilda Allen.

Mr. Tom Lewis and Mr. James Wright have left for St. Louis, Mo., where they will attend Carter Carburetor School for three weeks.

Mrs. A. B. Silcox, Toronto, a member of the executive of the Ontario Federation of Home and School Clubs, who is in town to address a meeting of Queen Alexandra Home and School Club, is the guest of Mrs. E. E. Logie.

Under the auspices of the S.S. teachers an enjoyable euchre party was held last evening in St. George's Hall. Prizes were won as follows—ladies' first, Mrs. Carmichael; second, Mrs. Markin; third, Mrs. Russell Stark; men's first, Mr. O. Darrell, second, Mr. A. S. Newman, third, Mr. Lloyd. The door prizes were captured by Mrs. O'Neil and Mr. Russell Hill.

Miss Betty Corrigan, Peterborough, is the guest of Mr. and Mrs. Withrow Fenton.

Miss Gertrude Moffat, Tweed, was the guest of her sister, Mrs. Fred O. Butler for a few days this week.

Argyll Chapter I. O. D. E. Holds Annual Meeting

The annual meeting of the Argyll Chapter I.O.D.E. was held on Thursday afternoon in the Officers' Mess at the armouries. The Regent, Mrs. Gribble presided over the meeting.

The new slate of officers includes:

Honorary Regent — Mrs. A. E. Gem.

Regent—Mrs. A. S. Orrbble.

1st Vice Regent—Mrs. Alford.

2nd, Vice Regent—Mrs. (Dr.) Morgan.

Recording Secretary—Mrs. Shiels

Treasurer—Mrs. G. Millburn.

Social Secretary—Mrs. Blakeman.

Press Secretary—Mrs. K. Scott.

Assoc. Press Sec.—Mrs. J. Howard

Secretary Current Events—Mrs. Fenton.

Standard Bearer—Mrs. Sword.

In Commemoration of Founders' Day, Feb. 13th on which date the Order of the Daughters of the Empire was founded, the local chapter will attend the morning service in St. Thomas' Church.

Mrs. Morgan and Mrs. Alford were appointed to visit the Argyll room in the hospital, to investigate as to the need of new equipment.

Sincere regret was expressed at the loss of a valued member, in the death of Mrs. Lorne Green, who for several years was treasurer of the Chapter.

In her usual pleasing—manner, Mrs. Fenton led the group in a discussion of Current Events. The discussion centered around Church Union in England, and political conditions in France.

At the close of the meeting Mrs. Noel and Mrs. Howard poured tea.

STAR ADOPTS SON

..Dick Powell, singing film star, as he appeared in a recent role. The 6-year-old adopted son Norman Barnes, the son of his wife Joan Blondell by a former marriage. Powell appeared in court to formally adopted child. "This makes me extremely happy" he said as the final approval was given.

Boy Evangelist Speaks

The latest evangelist to flash across the American scene is Oklahoma's seven-year-old Charles E. Jenkins, pictured above as he was photographed rehearsing in his hotel suite at Boston, Mass., this youngster astounded his audiences with his ability at oration, his amazing memory and his appeal to the sympathies of his audience. He memorizes sermons written for him and employs all the gestures he sees in evangelists who have preceded him. Charles rehearses his sermons on his pet teddy bear.

Boy Friend Is Cool Sarcastic

By VIRGINIA LEE

"WHAT WOULD you do in a case like this?" asks DESDUNTEMO.

She has been going with a man for over two years. He used to see her every night, but has been coming less and less often, until now she hardly sees him at all. She took him once a week, and then he is always in a hurry to leave.

His people despise her, she writes. He goes out every night, but will not take her. He is becoming her of "stepping out" on him, and thinks she should stay home as that he may find her there when—or if—he comes. Then when she goes he isn't coming that evening, it is too late for her to go out. He never asks her to meet his friends, and pleads he has business to attend to when she wants to go out with him.

When they are together this fervent lover quarrels and disagrees and is very cool and sarcastic. Now he is threatening to leave town and she is trying to coax him not to go and says she will miss him, so she thinks a great deal of him.

I used the expression, "you must be a glutton for punishment" once in this column. Disgusted, and someone wanted to know what it meant. You are the perfect example.

A man shows you as plainly as he possibly can that he cares nothing for you that he doesn't enjoy your company. He makes all sorts of excuses so that he won't have to go to see you. Monday evening, Jack Austin acted as referee.

Then you say you shall happen to condescend to come.

"Wake and lead life," my dear. Make up your mind that you are not going to wait around for this man any longer. You couldn't be very happy with him if his people despise you and he is ashamed to have you meet his friends. And you certainly cannot be your most attractive self when you are constantly criticized. Go out with people who appreciate you, and forget about this young man.

* * *

"DEAR VIRGINIA LEE: I am a young unmarried girl and I love the father of my baby dearly. He says he loves another girl and he is about to announce their marriage. What should I do about it?

"Do you think it is wise for me to keep taking the baby to his home, as his mother and father ask me to do? Can I stay away until after he is married? He says he is not the father of the baby, but still he wants the baby. His mother says he is the father.

"I am sorely are the one to tell who is the father of your baby.

I think you should insist upon his marrying you to give the baby his name, and his father and mother should help, even if you separate after the baby is born. It is not fair. The girl he is planning to marry should know about you and the baby. She probably will not want to marry him under the circumstances.

INEVITABLY

The Birmingham Age-Herald laments that "rabbits and taxes just don't ever seem to know when to quit multiplying." To which the Detroit Free Press adds: "And, unfortunately taxes suffer from no counterpart of rabbit fever."

About the only sure termination of taxes is death—and even after that there are still Mr. Hopkins's succession duty fees to be paid.—Stratford Beacon-Herald.

Celebrate 45th Anniversary Of Wedding

Frankford—On Tuesday evening, Mr. and Mrs. George Frost, celebrated the 45th anniversary of their wedding. A large number of relatives and friends called during the day and in the evening their sons, daughters and grandchildren of 40 in all surprised them. Mr. and Mrs. Frost were the recipients of many gifts including cut flowers and a beautiful bouquet of roses from the family. Among those present were Mrs. J. Maclean, sister of Mrs. Frost of Brighton and Mr. A. S. and Mrs. McConnell of Stirling.

Henry Geo. N. Spencer and Mr. W. N. Simmons spent Monday in Toronto on business.

Mr. and Mrs. George Frost, Mr. and Mrs. Carmen Frost and Mr. and Mrs. Ralph Frost and children were the guests of Mr. and Mrs. Dean Bonter on Sunday last, that it being the occasion of their 32nd wedding anniversary.

Mr. Allan Rogers of Peterboro spent a few days in town this week.

Frankford All Stars defeated Wooler hockey team 6-3 at the Frankford rink on Monday evening, Jack Austin acted as referee.

The Young people's Union held a Crophouse Party on Monday night in the United Church Hall. Around 100 were present. Prizes were awarded as follows—Mrs. Ed. Potter showed the membership to be over 200, the circulation over 300 and the finances over $200 in Juvenile books.

New books purchased during the year were: adult fiction 184; Non-Fiction 42; and Juvenile 68.

Officers for the year 1938 are:—President, G. W. Dickson.

1st pres. R. T. Miller.

Sec.-treas. Miss Kathleen Maclean.

Board members, Mrs. J. E. Finnigan; Mrs. W. N. Simmons, Mrs. E. J. Madill and Mrs. Ed. Potter.

The Library is open Tuesday, Thursday and Saturday evenings, 7-9 and Saturday afternoons 2-5 p.m. The reading room is open to the public for use whether subscribers to the Library or not.

West Lake

West Lake—Mr. and Mrs. Will Yardley have returned from Rochester, N. Y., where they spent several weeks with their son and wife, Mr. and Mrs. Horace Yardley.

Many ladies turned out to the Red Cross meeting of the Ladies' Aid held at Mrs. McQuaid's home, on Thursday afternoon, and an enjoyable afternoon was spent.

Miss D. Vancott was united in marriage to Mr. S. Potter of Brighton, at the Church of Christ here on Saturday morning at ten o'clock The happy couple left for a motor trip to Toronto and other places. Rev. Ransome was the officiating minister.

Selection of Right Make-up Coloring Vital to Redheads

GINGER ROGERS
Uses make-up that enhances her lovely hair

By (HELEN POLLETT)

RED HAIR makes the complexion appear even lighter in color than it is. Getting rouge that will match the complexion isn't always an easy task—smart cosmetician has found that by blending opal, which is a bluish white, with flesh tint powder the result will be just what many an auburn-topped girl needs for her natural beauty.

It is better to have a bit of strong coloring in the powder than to resort to commercial blushes, which seldom are on friendly terms with the hair. There is also the problem of the lipstick. If it is too vivid, the girl will be too vivid a picture to be attractive to the eye. Since she will think very, it's stands to reason that the lipstick that will please her will be "subtle" the next. About the best way out of this difficulty is to patronize a makeup bar where one can experiment.

If the hands are so badly chapped that soap bothers the epidermal surface, an emollient lotion is used in cleansing and healing. After the cleaning, use a hand lotion, or a bedtime friction with coco butter or lanolin.

A chapped surface means that the skin is scaling rapidly. That condition can be allayed by lubrication. Protect the hands from sudden exposure to cold winds. Use only the mildest soaps. And do wipe the hands carefully after washing. Somewhere aren't always as particular about that as they should be.

Stretch and yawn. The stretching will straighten your body, the yawning will keep jaw and chin muscles limber. Would you say; you cant yawn to order? It is possible.

Get tired with feet wide apart, bend at the hips see how far you can swing your hands between your feet. Bring them up and out in a wide circle, sending your shoulders and arms with them. Wide hands high, yawn. Stretch every muscle down to the last little pink toe.

Honey Cookies and Cakes Good for Many Occasions

By MRS. MARY MORTON

Menu Hint

Boiled Ham Cabbage

Creamed Potatoes

Celery Pickles Cheese

Honey Cookies or Drop Cakes

Tea or Coffee

Let us have some honey cakes to serve as dessert for dinner or to give to the children for lunch. The two recipes given are taken from a pamphlet written and published by the bureau of home economics of the U. S. department of agriculture.

Today's Recipes

HONEY COOKIES — One - half cup butter, one-half cup sugar, one egg, beaten; one-half cup honey, two cups sifted flour, two level spoons baking powder, one-half teaspoon salt, one cup finely chopped nuts. Cream the butter and add the sugar gradually. Mix the egg and honey and add with the sifted ingredients and nuts to the butter-and-sugar mixture. Chill the dough, then form into a full sheet one-fourth inch thick. Cut in squares and bake in a moderately hot oven (375 degrees F.) from 10 to 15 minutes, or until lightly browned.

HONEY DROP COOKIES—One-fourth cup butter, one egg, beaten; three-fourths cup honey, two cups sifted flour, two teaspoons baking powder, one-half teaspoon salt, one cup chopped nuts, one-half cup chopped dates, figs or other dried fruits; one-half cup chopped candied citron or pineapple. Cream the butter. Mix the sugar, egg, honey and milk. Add the nuts and fruits to the sifted ingredients and add the mixture with the liquid to the butter. Drop by small spoonfuls on a greased baking sheet and bake in a moderately hot oven (375 degrees F.) for about 15 minutes.

FACTS AND FANCIES

Easy Hued Furniture

Furniture upholstery took on a rosy glow at the recent American furniture Mart showings. Shades ranged from pastel pink to America'n Beauty. For valuant, colors preferred are blue, brown and dishwater, with wood colors shown in simple, modernized designs, adding a dignified touch to leavened modern and frieze coverings.

Early American and colonial pieces are as popular as ever.

Make Invalid Child Feel Useful

He Will Be Happier If Given Something Worthwhile To Do

By LISA ORENSELL

It was one of those trying cases a lively 5-year-old confined to his bed for nearly a year, crippled, unable to stand or walk, but well enough to be active in mind. Feel the weight and the length of the empty hours.

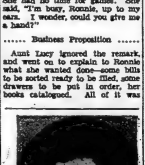
Friends and relatives were sorry for him, all of them, of course. They brought him things—books and toys and more toys. The room was already lined with toys; the bed overflowed with every conceivable gadget, puzzle game, stuffed animal.

The puzzles, the games and the sets from which things could be made were the best, of course, but even they failed in time. The puzzles once solved, the things once made, what could be done with them afterward? What useful purpose could they serve? And the games fell into the same class. They were either too easily won, or too inevitably lost.

Monotony Increased

As months passed, Ronnie's face became keener and longer. The days stretched out. The arrival of a new toy, a new book could not be very exciting any more, couldn't be counted upon to break the monotony much. Ronnie had seen, every book, and had everything.

"What the child needs is something to do," Aunt Lucy asserted. "Something to be reclaimed by the family. "With all the toys and books and puzzles—and games every afternoon!"



"Oh I mean something real," Aunt Lucy said hopefully, suggesting a project, a business proposition perhaps. That's what he needs."

Aunt Lucy was a wise woman. She did not ask him how he felt. She brought him no toy or puppet. She had no time for games. She said, "I'm busy, Ronnie, up to my ears in work. I wonder, could you give me a hand?"

..... Business Proposition .....

Aunt Lucy ignored the remark, and went on to explain to Ronnie what she wanted done—some bills she needed ready to be filled, some drawers to be put in order, her books catalogued.

All of it was

DEFIES NEW JERSEY

Slender Alice Seglie, secretary to the registration committee of Hudson county, New Jersey, is defying the state legislature in her efforts to secure election records for an investigation into the gubernatorial election last fall. Only Miss Seglie and her immediate superior know the combination to the safe which holds the records. The boss is sick in bed and Miss Seglie won't let Mayor Frank Hague, of Jersey City, have the records. Her refusal led to sending two strapping policemen to guard the safe from legislative activities. Now the attorney-general's office is pondering the next move.

BILIOUSNESS

If you are subject to bilious attacks or the pains and discomforts of heartburn, dyspepsia, and sour stomach, perhaps you will be deeply interested in this case of Miss D. E. Glasser, of Bristol.

"For three years," she writes, "I suffered from sour stomach, and I shall never forget Maclean Brand Stomach Powder which is used by many hospitals. It is designed to quickly neutralize the acids which are gnawing at the stomach walls, and by reducing the irritation, relieves pain, the stomach is helped to recover its proper, pain-free activity; I'm sure to get the genuine Maclean Brand Stomach Powder, because the name 'C. Maclean', on bottle and carton, till powder and tablets, 75c, at druggists.

Advice to the Lovelorn

by BEATRICE FAIRFAX

(Copyright, 1937, King Features Syndicate, Inc.)
Famous Authority on Problems of Love and Marriage.

(Copyright, 1938 King Features Syndicate, Inc.)

She's Afraid He Regards Her Only As a Friend

Dear Miss Fairfax:

I'm very much in love with a certain young man. He's passable in looks, and he's so nice to me. I see him only week-ends, when he's in town. However, I'm sure he doesn't love me as I do him, but considers me only as a friend. He also goes out occasionally with the daughter of the landlady where he boards, and seems to think a lot of her, but I'm certain she doesn't care particularly for him.

Please tell me what to do. Shall I just let Time take its course and pray that he will become wise to my heart, or what?

Unhappy.

There's a strong undercurrent in caring for one as deeply as you must. And like those mysteries of tide and current, it often brings people together. But it not only takes those strong forces of attraction, I don't mean, of course, to be snippy, unfriendly or capricious. We mean likes to be made the butt of those hateful wiles. But if you are really adoringly, especially before other people, it's likely to frighten the object of your affection.

There are hundreds of ways in which a girl can show her admiration delicately. She can let a man know that she esteems and likes him to tell her of his ambitions—and himself. And please, my dear, remember that sugar draws a larger crowd—of all kinds of creatures—than vinegar.

Her Father Allows Them To Take Walks

Dear Miss Fairfax:

She says she doesn't know her own mind—whether she loves me or not. She is 17 and I am 20. I'm old enough to do so.

Her father doesn't allow her to go with boys, but lets her take a walk with me sometimes when we have company.

Should I just let her take it? Or should I ask her father to allow me to see her more often?

Ardent.

Her father allows them to take walks because he knows that they are not going to get very far. Even taking for granted that she does accept you, why don't you stick to college till you've graduated? You'll always be able to get better jobs when you can flourish a college diploma.

Too many young people who have written to me that they could engage in no serious labor on leaving home to Reno to get their freedom. Patience, my dear boy, and more patience, is the best advice I can give you.

GOOD MANNERS

by MRS. CORNELIUS BEECKMAN

(Copyright, 1937, King Features Syndicate, Inc.)

Aprons

Dear Mrs. Beeckman:

1—On numerous occasions when my husband and I have had friends in for dinner, I have wondered whether or not I should remove my apron before I sit down with them? I have no maid, so it means that there is the task of selling my dress when pouring the beverage and serving the delicacies. Perhaps I really do remove it, but I hate to keep my guests waiting any longer than necessary. So do not like to take the time to put it on and take it off again. Would you say that any nicer dresses rather than a colored dress, so would like your advice as to the most polite thing to do.

2—When being introduced to either a man or woman, should I remain seated, should I rise regardless of the sex or age of the person being introduced to me?

M.

1—If you can negotiate without taking off your apron without too much inconvenience, I suppose you can do this. Wearing your apron while you are at table gives too much a one-hostess effect, which is just what the servant-less hostess strives to avoid. Since the dining is the last kind of apron, have it hung in the most convenient place in your kitchen and I am sure that you can solve this problem with considerable ease and grace. Remember that it is unwise to hang your apron in full view of anything you guests.

2—When a man is introduced to you, you do not rise. But usually a women does not rise when she is introduced to another woman. However, if you are introduced to an elderly woman or to a woman of very high position, it is considered nice to show special respect to her age or to her distinction.

Invitation to Confirmation

Dear Mrs. Beeckman:

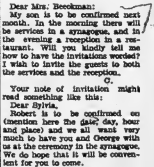
My son is to be confirmed next month. On the morning there will be services in a synagogue and in the evening a reception in a restaurant. Would you kindly tell me how to have the invitations worded? I am to write the guest to both the services and the reception.

C.

Your note of invitation might read something like this:

Mrs. Robert Brown

Robert is to be confirmed on (mention here the date) day, hour and synagogue. I shall be very much to have you and George with us at the services in the synagogue. We do hope that it will be convenient for you to come.



Then in the evening of the same day, we are having an informal reception for the young people and a few close friends at the restaurant. Please, at eight o'clock, and it would give us added happiness if you and George will be there.

Do let us that we may look forwardness to you coming. Kindly send confirmation and at the reception.

Dearest love from us to you and George.

Affectionately,

Wife Preserves

Dry Skin vegetables that you are cooking for a salad. If you do not the salad soon will become wilted. Clean tissue is ideal for drying the salad material.

Should We Sleep Out Of Doors?

By LOGAN CLENDENING, M. D.
GENERAL OF my friends have asked me lately whether I believe they should sleep on an open porch during the severe weather. It is like a great many other questions, such as whether you should wear long underwear, or whether you should sleep on the right or left side, or whether you should sleep on a hard or soft bed. There is no absolute standard of health about it. It depends on your temperament and constitution.

I noticed a story the other day in a little German magazine about health, which had, to me, quite a sensible ring. Two friends were taking a walk on a cold winter evening, one tall and slender; the other short and stocky. Their breath hovered around them in the frosty air like smoke, and one of them wished he had taken a taxicab instead of walking the 20 minute walk from the station.

He complained that he was cold and his friend thought the air was fine and invigorating. "Who would be such a 'frozen turnip?'" The thin man was ashamed of this; even more ashamed when his stocky friend, who seemed to be in his element, said the cold never bothered him, reached out for a hard bun and thrust it into the cold fingers of his companion.

The thin man was Dr. Wm. Ahlemann.

Then the thin man decided he was abnormal and cherished his horror of winter clothing and decided to pay no attention to the cold. In order to try to harden himself, he exposed himself to the danger of pneumonia. And a severe cold. There was no reason why he should try to emulate his stocky companion who was full blooded and robust, and whose circulation always made him uncomfortable in a warm room.

The same thing is true of a sleeping porch in winter. Naturally elderly people, thin, asthenic people and very young children should not be exposed to such rigors. The best way to determine the question is purely on the basis of whether you like it or not. If you feel better after a night on the sleeping porch than you do after a night inside, that is the healthful thing for you to do.

QUESTIONS FROM READERS

C. M. B.: "What will tone and strengthen a weak stomach and digestive system which do not assimilate food? I am very thin and always hungry."

Answer: Like a great many people, you have made a diagnosis of your own condition without consulting a physician. Therefore, you have started with the wrong idea in the first place. There is no such thing as a weak stomach per se. The stomach may be weak due to anemia and a person may be thin due to diabetes or to constitutional inadequacy. Your condition you should put yourself into the hands of a good physician who will examine you all over in order to obtain a reasonable diagnosis of what exactly is the matter with you.

R. Z.: "Some time ago I accidentally struck my finger on the door of the refrigerator; the bruise was ever so light and it did not bother blood. Recently I noticed a black spot at the base of the nail. Will this spot disappear gradually or shall I see a doctor?"

Answer: The spot will disappear gradually, although it takes several weeks to accomplish this.

Costumes for Beaches Are Bright and Colorful

Crinkled crepe play suit and match bag beach coat for southern resort wear, newest mesh beach sandals.

By LISSETTE

IT IS HARD to keep one's mind on the business of the day, what with southern fashions for our friends who are still going to the south or on fashion cruises; or for those who are planning a February jaunt to the palm hills, sides and frozen lakes of the north country.

And as if that wasn't enough, there are the new spring clothes flaunting their bright colors in all the stores. It's a tough time for the serious business of living.

Our young friend in the beach chair is wearing a pretty little play suit of crinkled crepe with its matching beach coat, harmonizing bag, and the new mesh beach sandals. She is enjoying life at St. Petersburg, Fla.

By the way, the very latest in jewelry for all the southern resorts, from Florida east coast to the Great Pacific off California, is shown in attractive glass-encased figures of whippets, caught in motion, blacks, scores and scottie, staging fish, yacht clubs, lighthouses with yellow streams of light and ships to be lighted to their docks.

Brilliant Colors

They are brilliant with color and are usually made of celanese, light, but some quite massive appearing. They are fine for resort wear now, and will be smart for adding a quaint and colorful touch to spring and summer wardrobes.

Flowers are to bloom early this spring, they say. If you are young and dark and pretty, yellow roses in your hair will be a flattering touch. Gardenias may be seen in a popular night spot recently wearing such a cluster. Her coiffure was the new, brushed up one.

Camellias are often the choice of the older woman. Husband and wife may share this fashion, she wearing a corsage or garniture of several of the flowers, and he with a single blossom in his buttonhole.

Gardenias and violets are a thought if you like daisy combinations. While wood or Parma violets are always lovely for spring. But then all the spring flowers are shown by the shops—the cherry blossoms, daisies, bluets, mignonettes, and cowslips.

You can, of course, wear the natural flowers if your budget will permit. But if not, while plastic flowers will be blooming on many a smart suit when the warmer weather arrives.

Little Boy Loiters On Way Home

By GARRY C. MYERS, PH. D.
Head Department Parent Education, Cleveland College, Western Reserve University

DEAR DR. MYERS: My problem concerns my little five year old son who, having started kindergarten in September, will not come directly home from school. His class dismissal is at 11 a. m. He only requires one hour to walk the 1.30. School is one and one-half miles away, so I allow him one hour, which is more than enough time.

The walk home means crossing a highway and following a lake road. Quite a lake. Now that there is ice along the shore he cannot resist the temptation to walk on it.

We have punished, reasoning with, threatened and finally, but not seriously, put him to bed for remainder of day without meals—kept him out of school for a week, all with no avail. He goes his merry happy-go-lucky way and we continue to look for and punish him. He stops at the homes of friends along the way when he cannot resist the temptation to walk on it.

We have consulted reasoning with their friends, but Don continually new tricks as to which to stop.

"Don't" is a prudent has suggested I have a surprise for him at noon, but to me it seems like bribery so I do not like that.

Suggestion Is Good

Answer: Seems to me your P.-T. A. president made a good suggestion. Forget about the word "bribe" Some writers have wrongly used the word to include all sorts of rewards, and have made many parents afraid to employ rewards to promote right conduct. But everybody works for rewards, whether a smile or prize or satisfaction. Reward stimulates achievement.

When the reward is unexpected it often is very effective. Anyway, when coming home promptly becomes more satisfying to your child than loitering he will cease loitering.

In addition to an occasional unexpected reward for promptness, you might devise a good scheme by putting down in a book or on a chart on the wall a mark for each prompt return, with the understanding that as soon as he earned 10 of them, he would receive some article he has long cherished.

If all reward schemes fail and had better look for him and bring him home. You want to save that child's life. In case you somehow finally to return to a punishment scheme, be sure he always has to pay the penalty, such as sitting in a chair doing nothing for one hour, and positively have no food anything to eat. Don't trust to the clock.

You might also be able to attend some of the afternoons and share lunch with him occasionally and let him go to certain homes to play after the noon hour on days when he arrives on time.

Poems That Live

THE WORLD'S WANDERERS

Tell me, thou star, whose wings of light
Speed thee in thy fiery flight,
In what cavern of the night
Will thy pinions close now?

Tell me, Moon, thou pale and gray Pilgrim of Heaven's homeless way, In what depth of night or day Seekest thou repose now?

Weary Wind, who wanderest
Like the world's rejected guest,
Hast thou still some secret nest
On the tree or flower?

—Percy Bysshe Shelley

LOVE'S SECRET

Never seek to tell thy love.
Love that never told can be;
For the gentle wind doth move
Silently, invisibly.

I told my love, I told my love,
I told her all my heart,
Trembling, cold, in ghastly fears.
Ah! she did depart!

Soon after she was gone from me,
A traveler came by,
Silently, invisibly:
He took her with a sigh.

—William Blake

TURKISH BATH IS BENEFICIAL AND HOME MADE VARIETY IS EASY

By GLADYS GLAD
"America's Most Famous Beauty"

TURKISH BATHS, as we take them, are practically identical with the ones indulged in in Turkey, the land of their origin. These baths Americans tell us, developed from the famous baths of Roman days.

Oddly enough, these Turkish belles who indulged so frequently in sweat baths are practically all inclined to plumpness. They'd be considered rather fat and dowdy, according to American standards of figure beauty. And yet many women go here in the cities where Turkish baths are primarily designed solely for weight reduction.

However, the merits of Turkish baths as dispellers of adipose tissue are not half what some women seem to believe. They really do reduce weight, for they sweat a lot of water out of the tissue. But this loss of weight is usually not permanent. For, if a girl partakes of any quantity of liquids after her bath, her thirsting tissues avidly absorb the moisture, and she is inclined to regain as good part of the weight she has lost.

Benefit Complexion

However, Turkish baths really are the grandest of complexion beautifiers. Of course, some of you may feel that this method of skin beautifying is something of which you have no advantage, because you haven't the means to pay for frequent visits to a Turkish bath salon. But Turkish baths really are surprisingly inexpensive. Even if you cannot patronize salons, there's a modified Turkish

Olga Baclanova
Knows value of Turkish baths

bath routine that may be followed right at home.

In this home-made Turkish bath, close yourself in your bathroom, and turn on the hot water. Allow the warm steam to fill the room completely. Then fill your bathtub, and take a long, soothing warm bath. Keep a glass nearby and sip hot water frequently. While you are soaking and scrubbing yourself.

After the bath, roll yourself up in warm blankets, and rest for about half an hour. You'll be hot, of course, but you want to perspire. Be sure to eliminate the poisons from your body through your sweat glands and pores. After you have perspired for a while, return to the bathroom and take a warm shower. Follow this with a cool shower to whip up the nerves and enhance your body. The hot water and steam open the pores and stimulate the action of the sweat glands. Consequently, the cold shower is absolutely necessary to close the pores and combat the relaxing effects of the heat.

As the final step in the procedure, give your body a brisk rubdown with a Turkish towel. This will bring the blood back to the surface of your skin, and will make your whole body glow with health and vitality.

Permanent Wave

Lillian: The times you contemplate using will not interfere with your permanent wave. However, I'd suggest that you obtain the wave before you begin using the rinse.

White Jabot Freshens Frock

By Central Press

BLACK IS the working girl's friend as well as the society woman's.

If you're a favorite business, or at least everyday, frock such as the ones here by Margaret Lindsay say, it is a good plan to get a pretty white jabot and freshen it up at this season of the year.

This is a two-piece with a draped girdle of the material, and the jabot is white batiste. Margaret is wearing black hat, shoes and gloves with this frock.

Hats Are Gay

Sally Victor, one of America's leading milliners, came back from Paris recently, and says your hat crown may be high or flat, it matters not, but your brim must be bright-colored. If the brim itself is not bright, it is made so with gay ribbons or flowers or wheat or something.

French women, she says, are tired of the tailored, flat brim hat, the crowned chapeaux that tip forward, and are going in for ribbons in a big way. Mrs. Victor herself wears pearl-gray ribbon when she arrived in Paris, which made a big hit with her colleagues in the fashion center. Pink, you know, is quite the rage right now.

Mrs. Victor brings the tidings that hatpins are back again. There are little ones and long ones, some set with semi-precious stones, and often worn in pairs—one in the lapel of the suit to match the one in the hat. Men may not like this flare back to the gay nineties—but what can they do but dodge?

Black Work Frock

Margaret Lindsay

Style Whimsies

A whimsy of the Palm Beach Fla., season is a long, skirted swagger coat with attached hood in print which matches the wide sash.

BALANCED DAILY DIET NEEDED FOR HEALTH

Food Also Has Its Effects on Beauty

Virgin is Bruce
Drinks her daily ration of milk

By GLADYS GLAD
"America's Most Famous Beauty"

THE MODERN diet theories sometimes forgets, especially a person determined upon a reducing program, that a properly balanced daily diet is necessary to insure health and beauty.

The average girl of today, of course, realizes that she cannot eat all manner of foods and still retain her natural loveliness. For what many women don't realize is that the daily diet not only affects the conscious of the figure, but also influences the hair, skin, nails, eyes and like features.

All physical beauty is basically dependent upon good health. And to build up good health, one must know how to eat properly. That's why we beauty culturists stress the value of a well-balanced daily diet. We know just how important proper nourishment is to beauty. Every meal a woman consumes definitely and directly affects her loveliness, and therefore every meal should be a properly balanced one. Unless one consumes sufficient of the animal and vegetable foods to maintain good health, they are likely to neglect the mineral requirements of their bodies. And people, like plants, cannot thrive without adequate mineral salts in their daily diet.

Mineral Salts Essential

The mineral salts are essential in the diet because they help to keep the body running smoothly. Calcium and phosphorus are the elements that give strength and solidity to the bones and teeth.

Milk is the chief source of calcium. Every individual, regardless of age or sex, should consume at least a pint of this liquid a day for the protective mineral elements that it contains. Most adults have the idea that milk is only a baby's food, but dietitians insist that it is every bit as important for adults as it is for children.

Iron, another important mineral salt, is supplied chiefly by eggs, spinach, raisins, milk, cabbage, celery and like vegetables.

Iron is the element that helps the blood to transport oxygen all over the body. It is iron that gives color to your red blood corpuscles and, indirectly, gives a becoming pinkness to your cheeks and lips.

So any girl who wants to keep her pretty red cheeks, her lustrous hair an her trim silhouette, should consume plenty of iron in her daily diet to keep her blood pure and her body strong an healthy.

ANSWERS TO QUERIES
Gray Hair

Bianche: The color of the hair is occasioned by the pigment cells. A gray hair is a depigmented element. I know of no method of preventing the appearance of these depigmented hairs.

Pimply Face

Winnie: Cocoa butter is used for fattening purposes. Massage your face nightly with warmed cocoa butter. This will help to fatten the tissues.

Hand Lotion

Jean: An effective hand lotion can be made of three parts of rose water and one part of glycerine. Equal parts of rosewater and glycerine also form an excellent hand lotion.

She Wins

A Butte, Mont., girl, Patsy O'Connor, is the first lass from the United States to win the honor of being crowned queen of the Banff, Canada, winter carnival. She won the honor last year and had thrown in a mile high in the Canadian Rockies.

Boy Calls, Then Goes To Sleep

By VIRGINIA LEE

"DON'T THINK anything of it; that is just my way!"

Do you know of anyone who uses that sort of remark as an alibi when they have done something outrageous and fears your righteous wrath? We all use this handy excuse occasionally, I am sure.

But the sort of person who makes unkind remarks, is mean and sarcastic and then says airily, "Oh that's just my way," I didn't mean a thing by it," is a person to be avoided.

JEAN'S boy friend is of this sort. He can be nice on occasion.

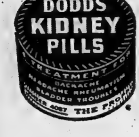
"I really don't know why I love him like I do," she writes. "He always wants me to wait for him, and if I don't he sometimes gets angry, won't talk, and sometimes breaks up with me. He claims he loves me, but he doesn't believe me. Another thing is he says mean things and does mean things and when I tell him he says that's just his way.

I really don't know what to do. I'd hate to give him up, for I don't believe I could ever forget him. But if I knew I couldn't get along I would try anyway. He always says he likes me, but do you think he really does? When he comes to see me he sleeps and even tells me he doesn't sleep anywhere else."

Forget Him

I'm afraid my opinion would be to forget about him, if you can Jean. You probably never had to live with a so-called "temperamental" person or you wouldn't hesitate. It is nerve wracking, believe me, never to know if what mood your nearest and dearest is to be in. Neither to be prepared for a kiss or a slap and nasty remark. To invite friends in and then have your male rave and maybe treat them coldly — embarrassing you and them.

If he would acknowledge that he is hasty and flies-tempered then he gives way to temper tantrums you could forgive and try to help him. But to be so sure you're right that he "can't help it", is discouraging.



His distorted sense of values point that is likely to make you very unhappy. If your best friend won't trust you, to whom are you to look for faith? There is-nothing more cruel to me than to be perfectly honorable and truthful and have a person say he doesn't believe what you say. And I don't think I'm unique in that feeling.

Going to sleep when he called wouldn't make a very big hit with me, either. It insinuates that you are a very boring person—or a very restful one—but who wants to be that restful! I'm sorry, dear, but I don't believe the young man you mention will make a very charming husband.

MR. DAVIS: I am sorry, but I no longer have the letter to which you refer, and so cannot publish it in the column.

FRED APOSTOLI MEETS GLENN LEE

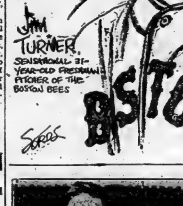
Tough Little Boy From Midwest May Take All The Marbles

New York, Feb. 4.—(CP)—The middleweight boxing situation, already complicated, has a chance to get completely out of control tonight when Glen Lee, a tough little mug from the midwest, tackles Fred Apostoli, the "uncrowned champ", in a 12-rounder.

It's reported, though not confirmed, that Apostoli, who recently bashed out the champion, Freddie Steele, in an overweight affair, has refused to lay his share of the title on the line. That is the San Francisco thumper insists upon remaining the "uncrowned champ", whatever happens tonight.

Though it doesn't make much sense, Apostoli's stand is as logical as anything connected with the middleweights lately. If Lee wins, as he stands a good chance of doing, then it's up to him to think up another title. He could call himself assistant champion to Steele, for instance, and he and Apostoli could take turns challenging the champion.

CANNINGTON AND TORONTO WIN



Meet in Semi-Final Round For Governor-General Trophy

Toronto, Feb. 4.—(CP)— Two rinks each from Toronto and Cannington were scheduled today to play in the semi-final round of the Governor-General's Trophy competition. They entered the semi-finals yesterday after winning matches in preliminary play.

The Toronto Club teams, playing on their own ice and skipped by C. R. Redfern and Dr. A. Malcolmson, defeated Owen Sound curlers skipped by Dr. F. A. Laird and Captain J. W. McConnell. Toronto Club held a margin of 16 shots over their two games to win.

Cannington entered the semi-finals by defeating rinks from Lindsay, skipped by A. Carew and P. W. Bruce, and Kingston. The Cannington teams defeated the Lindsay rinks by four shots.

Before meeting Owen Sound yesterday, the Toronto rinks defeated two Guelph teams skipped by W. A. Wheeler and C. R. Barber by 16 points. Owen Sound drew a bye in the competition and their match with Toronto Club was their first of the day.

Eighty Strokes Each Was The Way it Added

Any way the girls figured, they were all even at the end of the medal round in the annual Miami Biltmore women's championship. LEFT—to RIGHT they are: Jane Cochran, Jamesville, Patty Berg and Marion Miley, all finisher with cards of eighty strokes.

HARRINGWAY RACERS ENGLISH LOOP CHAMPS

London, Feb. 4—(CP)—Harringay Racers entered in the National Ice Hockey League is emphasized in today's standing. Racers, already champions, increased their scheduled doesn't end until Feb. 12, have an 11-point margin over second place Arsenal rivals, Earls Court Rangers.

Here is the standing to date:

	W	L	T	Pts.
Harringay Racers ...	15	3	2	32
Earls Court Rangers	8	3	4	20
Harringay Greyhounds	8	9	4	20
Brighton Tigers	11	8	1	17

By The Canadian Press

Track and Field

100-yard dash (heats and final), 440-yard run (heats and final), three mile run, 440-yard hurdles, javelin throw, shot put, high jump, women's 50-yard dash (heats and finals), women's 440-yard relay race.

Swimming

Women's 440-yard relay race, men's 300-yard medley relay race, women's 220-yard breaststroke, men's 110 yard backstroke (heats), women's 110-yard breaststroke (heats), men's 440-yard freestyle (heats), men's 220-yard breaststroke (heats).

Sports Roundup

By SID FEDER

Associated Press Sports Writer

New York, Feb. 4—(AP)—Al Schacht, the baseball clown, is moanin' low...figures he could make $100,000 this year if he had time for all the bids pouring in...As it is, he'll have to be satisfied with a mere six G's for 126 games...Don't be surprised if the Giants and Cardinals do some trading business...Bill Terry likes young Herbe Bremer, and the Gas House Gang seems to find a use for one for a catcher like Gus Mancuso... Jack Kearns wires: "Jimmy Braddock is a cinch to bring the heavy title back to the white race; the Indians have had it long enough."

Don't worry about poor old Bill Hallahan getting his release from Cincinnati Reds...He was only wild in his pitching, and the grapevine says his backhook can strangle any wolf at the door...Bob Quinn is picking a first-division spot for his Boston Bees, providing the "breaks" break right...Harry Jeffra, getting ready for his bantamweight title defence against Eitzo Escobar in Puerto Rico, is taking the golf courses apart down there...Had it 73 and tied the local pro over the Mermaid Club layout yesterday.

Hope Jim Tren Eyck pulls through okay in Miami...The boys still tell about the time Jim, wearing 80, turned out for a dinner of 60 and 70-year-olds at St. Petersburg...After sitting through an hour or so, he turned to Mrs. Jim and whispered: "Let's get out of here. I can't stand these old fellows"...Bob Hall and Bump what he signed was an I. U. for 10 bucks.

In Bermuda, if you happen to be toting there, tile newest in luggage is plaid wool, waterproof and leather bound, for clipper service.

CHANCES SATURDAY OF CANADA'S ENTRIES IN EMPIRE GAMES

(By The Canadian Press)

List of Canada's entries tomorrow in British Empire Games track and field events and their best performances:

100-yard dash—Empire record 9.8 seconds set in 1930 by Percy Williams, Canada. Canada's entries: Sigurd Nelsen, Halifax 9.8; Pat Haley, Trail, B.C., 9.9; Jack Harrison, Vancouver, 9.9.

880-yard run—Empire record 1.52.4 set in 1930 by Tom Hampson, England. Canada's entries: Max Lennon, Chatham, Ont., 1.53.6; Ab Conway, Toronto, 1.54.1; Bill Dale, Victoria, B.C., 1.54.

Three-mile run—Empire record 14.27.4 set in 1930 by S. A. Smith, England. Canada's entries: Bob Rankine, Preston, Ont., 14.41.2; Lloyd Longman, Forest Hill Village, Ont., Art Clarke, Toronto.

440-yard hurdles—Empire record 54.4 set in 1930 by Lord Burleigh, England. Canada's entries: Johnny Laring, London, Ont., 54.4.

Javelin—Empire record 207 feet 1 1-2 inches set in 1930 by S. Lay, New Zealand. Canada's entries: Jimmy Courtright, Calgary, 214 feet two inches, Eric Coy, Winnipeg, 195 feet.

High Jump—Empire record six feet three inches set in 1930 by F. H. Viljoen, South Africa, and equalled in 1934 by Ernest Thacker, South Africa, Canada's entries: Joe Haley, Trail, B.C., six feet 3 inches; Pat Haley, Trail, six feet 5 inches; Jimmy Paulon, North Battleford, Sask., five feet 10 1-2 inches.

100-yard dash—(Women)— Empire record 11.3 seconds set in 1930 by Eide Hiscock, England. Canada's entries: Aileen Meagher, Halifax, 11 seconds; Barbara Howard, Vancouver, 11.2; Jeanelle Dolson, Toronto, 11.2; Isobel Bleasdell, Montreal, 11.2.

440-yard relay—(Women).

N.H.L. STARS

(By The Canadian Press)

Buzz Boll, Toronto, started Leafs 1-0 victory against Canadiens with second period goal.

Herbie Cain, Maroons, scored winning goal and paced Maroons attack in 4-2 win against Chicago.

Doc Romnes, Chicago assisted on both Chicago goals.

Eddie Wares, Detroit, led Red Wings to 6-1 victory over American with two goals and an assist.

Hockey's Big Seven

(By The Canadian Press)

Harvey (Bushey) Jackson, firing a goal in Toronto's victory against Montreal Canadiens, was the only member of the National Hockey League's top seven to advance in last night's games. The Bushey's goal dropped Rod Lorrain and Paul Haynes of Canadiens from the Big Seven and left Jackson alone in fourth place with 26 points, one more than the Habitant pair and Doc Romnes of Chicago who gained two assists against Maroons. Cordie Trottier of the Leafs remained in first place with 34 points.

Mann's Left May Surprise Joe Louis in Coming Bout

Nathan Mann . . . may be he's strong enough'

By Bill Brancher

Central Press Canadian Writer

New York, Feb. 3—Heavyweight Champion Joe Louis demonstrated pretty conclusively that he was a sucker for a right hand when he fought Max Schmeling. The Brown Bomber got into the way of what seemed to be a thousand rights before he went down and out.

Now, on the other hand, how about the lefts? Does Joe know how to protect himself against a good straight left and a left hook.

Those are questions that will be asked of the Bomber when he meets Nthario Mann, an up-and-coming young heavy from New Haven, in a February bout in Madison Square Garden. Mann happens to pack a dangerous punch with the off-hand, and he throws it straight or with angles, so if Joe hasn't any better defense against a left than he showed against Schmeling's copy-cribbed right, he had better learn before he steps in there with Mister Mann.

Joe may fling himself puzzled by Mann's style. The champion, ever since he took that sound thrashing from Schmeling, has been blushing to perfect himself against the kind of a punch that the German throws. Those who have watched him in training agree that he managed to set up a fairish sort of defence against a right. But in trying to readjust himself for another Schmeling right, Joe has forgotten that one can throw left hands, too. Louis forgets easily, you know and he is not a hard person to surprise.

Mann appears to be a very good tuner-upper for the champion. In fact, the Louis board of strategy may have picked some lad named Jim Mann than they bargained for. His only serious flaw has been a tendency to blow up in the late rounds. He has shown steady improvement since entering the ring four years ago.

Ragged Italian Stock

Mann is 22 years old, and should be reaching the peak of his career one of these days. He is typical, of Italian descent, and he has shown that he can take a tough punch and come in for more. His real name is Mancini. He is well set up, and moves around fairly fast on a powerful frame.

He first won serious attention two years ago when he stopped a fairly tough nut in the person of Floord Smith in seven rounds, in New Haven. He has been very successful against younger fighters, beating Eddie Blunt, Gunnar Barland, Abe Feldman, Charley Massers, Arturo Godoy and Bob Pastor.

Mann has blown a couple of fights he probably should have won, but Uzzer's a story behind those lost decisions. Gangsters killed Dutch Schultz pumped a few rounds of lead into the body of Mann's manager, Marty Krompier. Mann volunteered to give blood to his manager, and the transfusions so weakened him that he lost several bouts. Steve Dudas beat him, for one but Mann crowned that up by defeating Dudas in a return engagement. Maurice Strickland out-manoeuvred him one night last winter but Mann fought back well enough to gain a draw.

He's Brave, Too

It was Mann's victory over Pastor that earned the chance to meet Louis. Pastor, who stood the limit with Louis by adopting the same strategy Napoleon used in lamming from Moscow, was being groomed for another Louis shot when Mann was tossed into his path. Mann gave Pastor a thorough trimming.

The New Haven Italian fills at least one of the requirements an opponent of Louis must have. He has plenty of courage. He is not the king who can be frightened out of the ring.

STEELE TO RISK TITLE AGAINST UNKNOWN

CARMEN BARTH

FREDDIE STEELE

Although Carmen Barth, stablemate of Henry Armstrong, isn't rated very high in the ring tabulations, he is booked against middleweight champion Freddie Steele for a title bout in Cleveland's public hall on Feb. 19. Steele should bump Barth round without much trouble, but Barth's manager, Eddie Meade, may have something up his sleeve and you never can tell.

"CORRECT CLOTHING FOR MEN"

CALLING 'EM

Between the Lines

with *Ken J. Colling*

The boys in the local senior O.H.A. group are getting a little dose of the jitters, as they swing into the home stretch, in their group schedule. What is actually worrying the clubs is where does Queen's stand in the group picture? The boys have been gunning over Queen's senior Intercholastic lineups of late and have discovered the odd O.H.A. player included on the senior Intercholastic roster. There's nothing unusual in the O.H.A. rules to stop Queen's from icing their entire senior Inter-collegiate squad some fine night versus either the Redmen or Flyers and snatch four perfectly good points. President Ivan Schlegel, of the O.H.A., distinctly told the various clubs at their meeting in Belleville, that Queen's would be perfectly justified in using their entire senior Intercollegiate team in the O.H.A. if they so desired. Charlie Hicks assured the meeting that Queen's had no intentions of using senior Intercollegiate players in the O.H.A.

"As the Intercollegiate Hockey Union is not affiliated with the C.A.H.A. hockey group, Queen's are eligible to play in the O.H.A., as well as the Intercollegiate," explained President Schlegel. Now the fun morgals around the local senior O.H.A. groups are just a wee bit afraid Coach "Phat" Rebbeck may ring in two or three of his senior Intercollegiate stars in the group playoffs. Of course if these senior Intercholastic packsters down at Queen's hadn't signed an O.H.A. certificate by Jan. 31st., then everything is fine, insofar as the other clubs are concerned, as no players can be signed after that date. Queen's Nelson and Williamson all now appearing with the Intercholastic team, have played in the O.H.A. this season, which of course is what originally gave the boys the jitters. All Coach "Phat" Wahh would have to do is bring over two of his high-scoring forwards and his "students" would become a powerful threat in the group.

Of course the whole picture is only one of suspicion and supposition on the part of the other three clubs, but the general feeling of satisfaction the boys would like to know whether or not players like Johnnie Munro, Poupore, Hepburn, Cowley and Miller have actually signed O.H.A. certificates. "Not that we care, but only for our satisfaction," related one hockey executive with sarcasm the other night. "Well, you do know that Carmen Nelson and Williamson have signed O.H.A. certificates," we reminded the gentleman. Yes, there are more antics around the local O.H.A. group.

Tonight we find the Redmen facing their most serious situation of the entire schedule, when they face Queen's at Kingston. There are three very important games over the week end, including the Belleville-Queen's tussle as we find the Flyers at Peterboro tonight and the Redmen and "Airmen" back at it in the local rink on Monday. The results of these three games will no doubt see the various finishing positions. We hope the Redmen do not have something up his sleeve and you never can tell.

Tonight's game. Incidentally we understand the tooth Fred Bentley lost the other night was a "voicer sooker" and Fred isn't worrying any too much. We are hoping to see a reversal in form of the Jackson-Wilson-Jackson line tonight, as they haven't been clicking too proficiently of late.

Making hay while the fistic sun shines brightly these days, promoter Mike Jacobs signed Tommy Farr to meet Maxie Baer, former heavyweight chapion, in a 15 round bout at Madison Square Garden on March 11th. The extending of the bout to a 15 round affair should be to Baer's favour, we'd imagine, as the Welshman needs about ten rounds to get warmed up. Jacobs promised the winner a match with the winner of the Louis-Schmeling go, which proves Jacobs is somewhat of an optimist. Tommyguy Farr may hold a decision over Baer, whom he outpointed in a 12 round bout in London on April 15th, 1937, if that means anything. Baer is an in and outer, mostly outer however. But now he's a Poppa Baer, maybe he'll get down to a little business of taking matters serious.

Manager Eddie Thomas announced that he had played-off to Belleville Juniors and would defend his junior title here in Peterboro. "We've moved Bill Cowan and Bill Hogg up in the senior ranks in order to bolster the Redmen. There hasn't been sufficient interest towards Lacrosse Junior hockey to warrant carrying on so we decided to lose by the sponge," remarked Skipper Thomas today.

We understand this lad Cowley, playing senior Intercollegiate with Queen's, is a brother of Dan Cowley of the R.C.A.F. and also of Bill Cowley of Boston, who they are known as the "hockey Cowley's" down in Ottawa.

Apparently the change of helmsment at the wheel of the Picton Junior hockey ship did not lure its desired effect, as a matter of fact Trevor Imrie and his Mac Mac lince charges only toyed with the Picton kids to win 8-3. It was no pink tea party, that Brancombe-Hodgson-Smith outfit really laid on the gad, but we'll have our day in our own rink tonight," added Thomas with an note of meaningness. Apparently there is no love lost between these two gents. As we intimated before, the Napanee Junior squad is the team we look for them to go far in the junior "C" series.

We understand from a reliable source, that Picton is seriously considering returning to the the O.B.A.A. wars next summer with a strong intermediate collection of diamond stars.

RIDGE DODGE . . . Joe Smith drew the refereeing assignment in Kingston tonight, while Bert Hedley will ding dong the grill out in Peterboro, ice permitting at the local arena ice igloo. The latest city scribe says the Peterboro Orfuns, after a frigid, sizzling Saturday a Belleville four-foul player did not have the final say on Monday night. As usual the Peterboro scribe is wrong—it was a Peterboro girl, who drew the four fouls, but after being informed stood around and replied "I know" and while she was taking matters much too seriously for the local rabbits, the local rallied.....So it remained to have the Maple Leafs' bait the Rangers stunning—streak, and with a 3-0 whitewash.

SOAKING UP SUN

JACK DOTLE

TORONTO LEAFS INCREASE MARGIN BY VICTORY

Defensive Machinery of Leafs Functions Perfectly to Down Canadiens 3-0 in Fast Game

Retain Four Point Margin at Top of Their Division

CELLAR TEAMS WIN

Red Wings And Maroons Creep Closer to Amerks And Hawks

(By A. E. Pulford)
(Canadian Press Staff Writer)

Toronto Maple Leafs stepped today into the exclusive little group of National Hockey League teams which seem, at the moment, to have enough power to win the Stanley Cup. A great defensive display has earned them ranking with Boston Bruins and New York Rangers.

No one has doubted that Leafs could score goals. One couldn't after looking at the record. But their lack of defensive strength, their lack of distinction of the inability or disinclination of some of their forwards to backcheck, has withheld from them recognition as a club to be depended upon in a tough series.

Now Conny Smythe's team has demonstrated its defensive machinery can function as smoothly as any in the League. In shutting out Montreal Canadiens 3-0 at Toronto last night Leafs played the tightest game they have shown at home in two seasons.

Whether they can keep it up is another question but they certainly showed a great improved game last night against Habitants who had beaten them 6-1 Tuesday night. In defying victory-mad Toronto to regain their two-game lead on the Metropolitans, who had thumped the tars over Canadian Division leadership.

Cellar Teams Win

While Leafs were tightening their hold on first place Montreal Maroons and Detroit Red Wings, cellar teams in the two divisions, both won to heighten interest in the fight for the third playoff spots.

Red Wings slapped a 6-1 defeat on the slipping Americans at New York and Maroons took Chicago Black Hawks 4-3 at Montreal. The results left Maroons only a game behind Americans and Red Wings trailing Chicago by three points.

Two of Toronto's goals last night were scored by the new line formed when Harvey Jackson was freed from the first line to play with Buzz Boll and Bill Thoms while Red Davidson took his place to head backchecking strength to Syl Apps and Gordon Drillon.

Boll Fires First Goal

Boll fired a hot shot at Wilf Cude for the first counter in the penultimate minute of the second period. When Habitants opened up their defence for final effort to tie the score near the end of the game Murphy Chamberlain got their second goal and Thoms aided Jackson in scoring the third.

Leafs' heavy bumping in the first period shook the speed out of the flying Frenchmen and they held the visitors fairly easily after that. Their checking was so good netminder Turk Broda didn't have a shot to handle dangerous shots to handle.

Eleven thousand persons, a good crowd in Toronto for a Thursday night game, saw the Canadien-Leaf battle but the attendance wasn't so good in either New York or Montreal. Only 3,500 watched Red-Hawk-Maroon game and there were less than 6,000 in Madison Square Garden for the Red Wings-Americans clash. That was the smallest New York crowd of the season.

No Penalties at New York

The New York game was the second one played this season without a penalty, duplicating an earlier Boston-Canadiens battle. Eddie Wares, the sensational Detroit Rookie, led the Wings to victory, scoring two goals and an assist.

Wings got four goals in the first period through Carl Liscombe, Sucko McDonald, Wares and Syd Howe and two in the third through Wares and Doug Young. Tommy Anderson scored the only New York goal in the second.

All but one of the goals at Montreal came in the third period. Baldy Northcott scored in the second and Des Smith, Herb. Cain and Russ Blinco beat Mike Karakas in the third. Paul Thompson and Bill McKenzie marked up the Chicago tallies in the same session.

League Leaders

(By The Canadian Press)
Canadian Division

Standing — Toronto, won 15, lost 8, tied 5, points 35.

Points—Drillon, Toronto, 16 goals, 18 assists, 34 points.

Assists—Drillon and Apps, Toronto, 18.

Penalties— Shields, Maroons, 50 minutes.

Shutouts — Robertson, Americans, and Broda, Toronto, 4.

American Division

Standing—Boston, won 19, lost 4, tied 4, points 42.

Points—Carlson, Rangers, 18 goals, 13 assists, 31 points.

Goals—Carlson, Rangers, 18.

Assists—Watson Rangers, 17.

Penalties — Coulter, Rangers, 52 minutes.

Shutouts—Kerr, Rangers, 7.

LINING UP $5,000

With the "assistance" of a large gallery of spectators, the Canadian open golf champion, Harry Cooper lines up the ball before sinking his final putt in the $5,000 Oakland, Calif., open tournament. Cooper won the event to collect top prize money.

"RED" HILL DETAINED

William "Red" Hill, famed Niagara riverman who twice swam the river below the falls and has gone over the cataract in a barrel, was detained by American immigration authorities when he reached United States territory while working on plans for the removal of the wreck of International Bridge. Hill shown in the barrel, in which he made his successful trip over the falls, was permitted to return to the Canadian side voluntarily.

CANADA'S ENTRIES IN B. E. GAMES

(By The Canadian Press)

Track and field— (Men)

100-yard dash — Sigurd Nelisen, Halifax, Pat Haley, Trail, B.C., Jack Harrison, Vancouver.

880-yard run—Ab Conway, Toronto, Max Lenovyr, Chatham, Ont., Bill Dale, Victoria, B.C.

Three Mile—Art Clarke, Toronto, Bob Rankine, Preston, Ont., Lloyd Longman, Forest Hill Village, Ont., Milton Wallace, Toronto.

440-yard hurdles—Johnny Loaring, London, Ont.

Javelin—Jimmy Courtwright, Ottawa, Eric Coy, Winnipeg.

CHIPS from the SPORT BLOCK

By Geo. H. Carver

There are whisperings about Cauliflower Avenue, and among certain bright lads of the city that maybe one Tommy Farr is rather dumb after all in consenting to act as stooge for Public Enemy No. 1 of the prize-ring, one Max Baer.... The curly-haired playboy from California who ballyhooed his way to the title and night-clubbed his way out of it has no more right, at least by way of conquest, to be classed among the Heavyweight Big Seven, than Larry Gains, the wee ones say.

The curly-haired funster, who in this corner's estimation, never had the characteristics of a real heavyweight champion, or at least he never showed them, after being kicked around more or less ignominiously by Tommy Farr and others of lesser ability, expects to be drawing back into the sacred seven by virtue of his past reputation..... Baer, whose chorine inclinations and night-club perpetrations gained him more sports sheet headlines than his ring-squared circle activities, thinks the title is ripe for the long trip along the comeback trail—only he expects to make a detour via the Farr highway.....

Pastor Scores Another in Heavy Campaign

Bob Pastor, considered the seventh ranking heavyweight fighter, is pictured (LEFT), getting under the fists of Jack Everett, of Washington, during their fight here at the Washington arena. Pastor almost scored a knockout in the ninth round of the 10-round bout, but had to be satisfied with taking a unanimous decision. Pastor ever fought in Washington and aided him in his campaign which he hopes will lead to a match with either Joe Louis or Max Schmeling.

Then Maxie expects to do a short hitch along the Schmelling side-road to the spot, where he can knock the spots from the tonsils of one Joe Louis who rather more or less carelessly sports the crown of the heavyweight empire..... But there are three important things that may and likely will, crop a few tacks along the roads where his car of aspirations must travel, and leave an inert mass in the ditch of wrecked ambition.... And they are Farr, Schmelling and Louis..... He flashed across the horizon of Flatlands like a comet, while his star was in the ascendant, but died away in a shower of night-life sparks, when the fists of Jim Braddock doused him like a candle in a forty mile gale.....

He retired to his ranch in Sunny California, married, produced a son, or is it a daughter, planted a few plums on his rancho—went into hibernation and now expects a few of the plums to be had? in the fight game.....

There isn't much sense in Baer trying the comeback route..... We may be wrong, but the best he might do is to knock a few stumblebums licking then walk into a few straight rights and lefts of a modicum of fistic and pass into peaceful oblivion..... As pal Harry Meyers of Trenton, N.J., the late Jack his day, the sooner he is forgotten, the better.

Tonight, in what appears to be a more or less hopeless cause, the Picton junior squad makes the trek to Napanee where they will endeavor to wipe out the defeat of Wednesday night.... Defeated 8-3, which means they have a five goal deficit to overcome, and since they are playing in Walt Gerow's hometown this looms up as big as Mount Everest..... The youngsters from "Spain" have a man-sized chore on their hands..... Any team that can beat this Napanee squad by six goaks in their own backyard should have little difficulty in annexing the Junior "C" title..... But stranger things have happened and we hope Brock Hudgins did not lay the sixteen bucks on the line as promised.....

Speaking of Picton and its hockey, the Peterborough Examiner carried the following in its column yesterday:

"Billie Hughes was at the game in Belleville the other night and he asked us the age and weight of Barnes, evidently being interested in the flying defenceman of the Winnipeg in the American Association. Hughes used to manage Clation when Brennan played for that team, and they shook hands Monday for the first time in over 10 years. Billie later went to the Chi Hawks and is now a salesman around Belleville. He coached Picton Juniors for a time this winter but quit when he ran into too much officialdom on the club. He is in close touch with several N. H. L. scouts and is believed to have brought one to Napanee to see young Walter Gerow. Incidentally, the latter lad is still undecided we hear, about signing a pro contract."

Incidentally, it is rumored that Billy Coutu, Boston scout, will be in Gibsonville tonight, and NOT for the purpose of buying furniture unless there is some ivory thrown in. The son and heir of the old Walter has not so far, attached his signature to the "I Promise Me" document, proffered by the Black Hawk scout a few weeks ago, and even Mike Wilson of the Bruins will be casting an optimistic eye in his general direction. Qulen sabe?

'Y' INTERMEDIATES WIN OVER ALBERT

32 to 8 Victory is Third in Succession in Group Race

Paced by Herb Burley, their fleet-footed forward, the Belleville Y.M.C.A. intermediate hoopsters hung up their third consecutive victory, without sustaining defeat this season by virtue of a 32 to 8 victory over the Albert College intermediates on the latter's floor last evening. The game was a regularly scheduled Bay of Quinte group intermediate O.A.B.A. match, that saw the "city slickers" display their best form of the season to triumph over the tri-colored clad students.

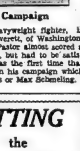
The "Y" squad set up a sterling defence on the large Albert floor holding the homesters to three field goals. The score at the half way mark stood 13 to 1 for the "Y" and although Coach Pete Jeans's squad put up a gallant effort in the second half, those attempts to whittle down the Y's lead were in vain. The winners bagged 19 points to Alberts seven in the last half. The game was exceptionally clean although keenly contested.

Burley High Scorer

Inspired by the work of Herb Burley, who scored 14 of the "Y" squads' 32 points and an even dozen of these in the last half, the winners showed to much knowledge and general basketball for their less-experienced rivals. Cole, Wickerson and Catrron put up sturdy defence for the winners, who as a team checked their opponents closely throughout the entire match. W. Coon, with five points, was the leading scorer for the losers. Wickerson led the "Y" on the attack in the first half with four points, Cole getting five in all.

The box score:

Belleville "Y" (32)	FG.	FS.	Pts.
Cole rg.	2	1	5
Wickerson lg.	4	0	8
Faulkner rf.	2	0	4
Burley lf.	6	2	14
MacLean c.	0	0	0
Atkins f.	0	0	0
Yoe f.	0	0	0
Catrron g.	1	0	2
Edwards f.	0	0	0
Total	15	2	32



Albert College (8)	FG.	FS.	Pts.
McIntyre c.	0	0	0
Prentice rf.	2	1	5
Watson rf.	2	0	4
Styles lg.	0	0	0
Beach lg.	0	1	1
Scrimgour f.	0	0	0
Forbes f.	0	0	0
Belyer g.	0	0	0
Total	4	2	8

Fouls attempted, Albert 6; Belleville "Y" 3.

Fouls completed, Albert 2; Belleville "Y" 2.

Referee: Jack Dickens, Belleville.

BOWLING ETIQUETTE

Bowling etiquette should be practiced at all times. Many bowlers do not realize that they jeopardize the pleasure of the game not only for themselves but also for their teammates and opponents by disregard in a this gentlemanly spirit. Care in this regard will add to the enjoyment of all.

Generally a bowler who disregards this unwritten rule of bowling is temperamental and gets so excited that there is no chance for concentrated, resulting in a detrimental effect on his game.

There are a few so-called rules of etiquete which are unconscious-ly broken at times by bowlers who would never think of doing anything to interfere with another bowler but would feel glad to discontinue them if they were reminding of just how annoying and unsportsmanlike they are.

A few of the unwritten laws of bowling etiquette:

1. After delivering the ball walk straight back on the approach.

2. Do not interfere with bowlers on adjoining alleys.

3. Do not bowl at the same time as a player on the adjoining alley.

4. Do not walk in front of a bowler to pick up your ball, or mark score if the player is in position to start delivery.

5. Do not laugh at your opponent's mistakes; you may have the same misfortune.

6. Do not shout at your opponent while he is delivering the ball; you can have a lot of fun, but do it at the right time.

Recreation is after all the basis and objective of the game.

MUDDY SANDWICH FOR LUTON CENTRE-IN CUP REPLAY

There wasn't much but mud when Luton Town played this rematch at home in a third round cup tie against Scarborough and the players, the field and the ball are all plentifully sprinkled. Vinall, Luton centre forward, is the lad trying to break through the middle and the Scarborough fullbacks are making it tough going. And don't think its easy manoeuvring that ball with a ball-inch of goo clinging to it.

RURAL USERS OF HYDRO 86,620

Chief Engineer Says There Are 60,000 Farms Yet to be Served.

Toronto, Feb. 4.— (CP)— R. T. Elliott, chief industrial engineer of the Ontario Hydro Electric Power Commission, told the Ontario Association of Agricultural Societies today there were 86,620 rural users of hydro and 60,000 farms yet to be served.

Mr. Jeffrey said Hydro was used on "43,283 farms and there were 43,327 hamlet users. Total hydro rural line mileage was 13,100. Of the 60,000 farms yet to be served, 30,000 would have power in the next five years.

The Government had more than $30,000,000 invested in the hydro system, Mr. Jeffrey said. In the five years since the Gaine Act, over 100 acre farms—received hydro, their charges reduced from $1.00 a monthly to $1 he said. The government paid the "deficit."

IN SHORT TRIAL MAN CONVICTED

Georges Dagenais, 22, is Found Guilty on Evidence of Accomplice

Montreal, Feb. 4 (CP)—George Dagenais, 22-year-old Montreal labourer, Que. was convicted today of murdering Sylvio Benoit when the latter finished a widespread holdup in his Jacques Cartier Square confectionery shop last Dec. 22.

Dagenais, known as "Banjo Eyed" to his 18-year-old admitted accomplice, Maurice Guibord, was convicted mainly on evidence given by Guibord, who had turned King's evidence and outlined the plans to rob Benoit on the day the tobacconist "Jobber" was shot down as he attempted to hurl a glass jar at his gunmen.

The mandatory sentence of death was postponed by Mr. Justice William Lazure who probably will pronounce the final sentence of death, also as used of murder.

The fatal was one of the shortest for murder in Montreal court annals, the entire proceedings occupying less than two and a half hours.

CITY OF BELLEVILLE

SIDEWALK SNOW CLEANING NOTICE

Under the provisions of City By-Law No. 1196 all citizens are compelled to either remove the snow and ice from the sidewalks in front of their properties or keep the snow and ice covered with sand, ashes or other suitable substance so that same may be rendered free as possible from danger to pedestrians.

We urgently request that all citizens co-operate with us to the utmost in an effort to render conditions for pedestrian traffic less hazardous.

Fees sand is available and will be delivered to your address, if you will telephone 1852 in the mornings.

Pend Oreille 205.	
Pickle Crow 475.	Toronto, Feb. 4—(CP)—Dull trading marked the session from the opening and little more than 30,000 shares had changed hands at the end of the third hour. Prices drifted downward moderately and indices were lower at noon. In the early afternoon a slightly improved tone ruled in the base metal group while the pits continued in lag.

In the gold Central Patricia was a feature on the up side, trading heavily at a gain of 13 cents but part of the advance was dropped later. Sherritt also went to 2.75 for a loss of 26 cents. Senior oils developed definite weakness and other industrials were in unimpressive evidence of losses were the utilities, beverages, foods and papers. Abitibi Common sold at a new low and Great Lakes Paper and Sulphide weakened about a point on call.

Western oils ruled practically unchanged in quiet trading.

WALL ST. CLOSE

New York, Feb. 4—(AP)— Stocks convalesced slowly in today's market after an early relapse into new low ground for more than two years.

Initial losses running to a point or so were later converted in advances of as much, but volume was exceptionally small on reversal of direction and there was an assortment of minor losers near the end.

Transfers were about 850,000 shares.

Board Room Gossip

As supplied by Biggar and Crawford by Financial Service

MARKET COMMENTS

The business year has been slowed; the U.S. member banks are still carrying out a policy which is distinctly deflationary. Washington is said to be spending as much money as at the peak with the exception of the Soldiers' Bonus disbursement) yet the only effect so far on commodity prices has been to check the decline. The picture at the moment is dismal. But the market does not go down. Carloadings are only and paper were off 31 1-3 per cent in the first three weeks of January as compared with last year, and the price of rayon goods has been cut to virtually an all-time low. But the pulp and paper securities somehow manage to resist the influence of profitless operations.

There has been selling in New York. The investment trusts are preparing for a decline. Every rally brings out so-called intelligent liquidation. But buying reappears on the dips and the market holds above its recent lows. It is true that all pressure exists on the near terror prices; all trends are down; all indices point to a further decline—and virtually all opinion is bearish. For these obvious reasons we cannot subscribe to the theory that make additional purchases. Nevertheless, prices are warranted in continuing to gamble on the effect of what one commentator describes as "another use of the printing press" or "another deliberate".

Pipe-Line in Turner Valley to be Increased at Once to 24,000 Barrels Daily

R. V. LeSueur, Vice-President of Imperial Oil Limited informed the Tariff Board in Ottawa that the Royalite pipeline in Turner Valley would be increased from 13,000 barrels to 24,000 barrels daily, at an early date. A six-inch loop is being installed to bring this improvement about.

East Malartic

East Malartic expects to complete its new shaft to a depth of 850 ft. in March. Development now over the 150 ft. level is confirming diamond drill results. The deposit is estimated to carry an ounce per ton between $7 and $8 per ton. The width is likely to be more than 100 of 400 to 500 tons daily capacity is to be undertaken early in the Spring.

Montreal Power Plans Lake Shore is Important to Many Local Investor

The article which this column carried yesterday on the purchase of power from Lake Shore in 1939 has brought many enquiries to the writer.

We have had a visit from a prominent business man who hailed from Belleville and district and, naturally, who submits the evidence that it is not the vision to buy into Lake Shore in right for a substantial way. The revenue from the Lake Shore power contract now amounts to $27,000 annually. Jobbers recommends that because of this he is able to spend the summer months in Nova Scotia.

Produce Prices On Montreal Market

Montreal, Feb. 4.—Butter prices on the Montreal market advanced 1 cent to 2 cents per pound, with trading active. The market is being stimulated by a shortage in storage supplies, to last until production gets under way in volume later in March. Cheese was barely steady. Receipts were 727 cases of eggs, 99 boxes of poultry, excluded. Receipts arrivals.

Sales at the Canadian Commodity Exchange were 500 boxes of Quebec grass regraded butter at 32 3-4c, 300 boxes at 32 7-8c and 50 boxes of westerns 36 score at 32c. Closing prices: Finest grass regraded butter were at 32 3-4c to 32 7-8c with western seconds 36 score offered at 32 1-4c. Butter futures closed firm. 1-4c up, at 32 3-8c to 32 7-8c for February 31 7-8c to 32 3-8c for March and 32c nominal for April. Small lots to the retail trade were quoted by jobbers at 33c to 34c for solids and 34c for prints.

Graded shipping eggs were selling at 24-24 1-2 for A large, 22-22 1-2c for A medium and 21-21 1-2c for A-pullets.

HOG QUOTATIONS

Toronto, Feb. 4. (CP)—Steen hog prices were steady at reporting markets today.

Stockyards, Branford $8.60, Hall $8.75, London $8.25, Stratford $8.55, Chatham $8.75, Peterboro $8.50.

Country points: Barrie $11.55, Hall $12, London $11, Kitchener $11, Stratford $11, Chatham $11.25, Peterboro $11.50.

GUY LOMBARDO IN FREE-FOR-ALL

Displays a Bandaged Nose And Pair of Shiners Out of Fracas

New York, Feb. 4.—(AP)—Guy Lombardo, orchestra leader, displayed a bandaged nose and a pair of discolored eyes today as proof of what happened when a "sweet music" man gets in the way of a swing.

It was a general free-for-all fight in a Broadway restaurant early yesterday, he explained, involving himself, Lombardo, publicity man Pete Reilly a fight manager, and Reggie Sprigg, gridiron player.

"It all started out with a bit of kidding between Link and Regan," he said. "You know how those things are. The kidding got a little rough and this guy Reilly took exception to it and came into our booth. One word led to another and then the swing started.

"I guess Reilly didn't know Regan was being kidded. No sense of humor."

Joined the Toronto Office of McConnell, Baxter & Eastman Limited, Advertising Agency, as account executive. Mr. Eastman is a graduate of Washington University having his B.A. in Business Administration and Advertising. He has been with the Montreal Office of his present firm since 1934, and prior to that was in charge of Market Research and Sales Analysis for the Pacific Northwest Division of a large American Research organization.

Barring Women From Beverage Rooms Considered

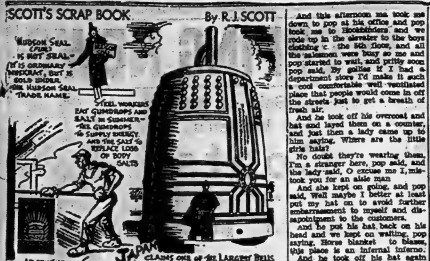
Toronto Feb. 4.—(CP)—Closing of beverage rooms to women is under consideration by the Ontario government, Premier Mitchell Hepburn said today.

The Premier was commenting on the action of the Quebec Liquor Commission in ordering that no women are to be admitted to taverns in that province. They have not been banned from clubs and cabarets, however.

The question of refusing women admission to beverage rooms has been discussed in every session of the Ontario Legislature," Premier Hepburn said. "About a year ago we were almost on the point of making such a move but decided against it because it reported unfavorable reaction of United States tourist to Ontario.

"Recently the matter has come before the Liquor Commission and government again. We are inquiries into it from every angle. It is impossible to say what our decision will be."

Freedom of Religion, Speech and Press Is Urged



Winnipeg, Feb. 4 (CP)—Freedom of religion, speech and press produced verbal darts in Manitoba Legislature which last night adopted a resolution calling for specific guarantees of the fundamentals of Religious Liberty and Freedom of Speech, The Free and Assembly.

During discussion of the resolution, introduced by L. St. G. Stubbs (Lnd. Winnipeg) a clash occurred between James Litterick (Comm. Winnipeg) and N. V. Bachynsky (Lib. Prog., Fisher), Mr. Litterick denied Communists were opposed to religion, but Mr. Bachynsky maintained numerous persons were shot in Russia for religious belief.

The Labourite threw out an amendment to the Stubbs resolution that accuracy of news be guaranteed by the constitution.

Little Benny's Note Book

We was eating breakfist and ma said to pop, Willyum, this boy simply must have a new set of clothes.

That might happen to anybody pop said, and ma said, The point is, I simply haven't time to attend to it this afternoon, so I'll leave him at your office and you can buy him a nice serviable suit in Hockdinners boys department, will you do that for me, Willyum?

Have I any choice? pop said, and ma said, No, and pop said, Then of course I'll do it, with pleasure.

And this afternoon me took me down to pop at his office and pop and me went to Hockdinners, and we rode up in the elevator to the boys clothing t. the 8th floor, and all the salesmen were busy so me and pop started in with and giddy soon pop said, By golles if I had a department store I'd make it such a cool comfortable well ventilated place that people would come in off the streets just to get a breath of fresh air.

And he took off his overcoat and hat and layed them on a counter, and had just then a lady came up to him saying, Where are the little girls baby?

No doubt they're wearing them, she lady said, I'm a stranger here, pop said, and the lady said, O excuse me I, mistook you for an aisle man

And she kept on going and pop said, Well maybe I better at least put my hat on to avoid further embarrassment to myself and disapointment to the customers.

And he put his hat back on his head and we kept on waiting, pop saying, Hurree hurree to blazes, this place is an infernal inferno.

And he took off his hat again and put it on his coat, and another lady came up to him saying, Where can I find a salesgirl to show me babies shoes?

I believe there's one up on the roof gasping for air, pop said.

And he grabbed his coat and hat and put them on going back to the elevator, and ma is going to take me down tomorrow and get me a suit.

There is a moral excellence attainable by all who have the will to strive after it; but there is an intellectual and physical superiority which is above the reach of our wishes, and is granted to a few only.

At the Movies

What Local Theatre Managers Say About Coming Attractions

AT THE BELLE

"Rosalie"

Cole Porter has put rhythm into the Army, swing into a girls' college, and a few hot licks into Europe.

In other words, he wrote the score for the first international musical extravaganza, co-starring Nelson Eddy and Eleanor Powell. The spectacular film comes to the Belle Theatre for a three day showing commencing Saturday.

Porter contributed nine numbers to the new musical, including "Close," an instrumental number. The title song, "Rosalie," is sung by Nelson Eddy as he stands outside the girls' college dormitory, singing to his love. He also sings "Who Knows," and woos Miss Powell with the ballad, "In the Still of the Night."

Miss Powell sings and dances to "I've a Strange New Rhythm in My Heart." Eddy is accompanied by his West Point football squad in singing "To Love or Not to Love," and "It's All Over But the Shouting."

The new continental discovery Ilona Massey, makes her American screen singing debut with "Spring Love is in the Air," while Frank Morgan sings for the first time on the screen, a comic number, "Why Should I Care."

Porter, one of the foremost composers and song-writers in America, wrote the hit tunes in the previous Eleanor Powell musical "Born to Dance," and for the Broadway musical-comedy stage has contributed a score or more hits, the latest of which were "Anything Goes" and "Red, Hot and Blue."

The Belle World News Events and Bo zoe and Bagdad, a clever comicolor cartoon will be presented on the same program. On Saturday matinee a thrilling chapter of the popular "Painted Stallion," will be exhibited.

Performances start daily at 2.30, 7.00 and 9.10. "Rosalie" starts daily at 2.26, 7.36 and 9.20 p.m.

Sweet Show Tonight

Sweet show will be presented at the Belle tonight for the last times in the refreshing romantic comedy, "The Great Garrick," co-starring Brian Aherne and lovely Olivia DeHavilland, and featuring Edward Everett Horton.

Tommy Farr-James Bradlock essential preliminaries will be presented on the same program with Ross Morgan's orchestra, presenting an up-to-the-minute singing, dancing and musical revue. Two complete shows will be presented commencing at 7.10 and 9.10.

APPOINT SCHOOL NURSE AT DESERONTO

At the annual meeting of the Deseronto School Board held on Wednesday, Archie Burley was named chairman for the coming year. T. W. Topping was appointed vice-chairman. For the first time a school nurse, Miss M. Prickett, was appointed.

AT THE CAPITOL

"Trail Dust"

Hopalong Cassidy rides again in "Trail Dust," the latest in the action-packed, hard-riding series of Clarence E. Mulford Westerns now playing at the Capitol until Saturday night with Saturday evening show commencing at 6.15.

Action — and plenty of it — marks this film as the sixth, "Topply's" attempt to "beat" a drought, and the efforts of crooked cattle buyers to cash in on it give it a particularly "newsy" twist.

William Boyd, as "Topply," rides the range again at head of a group of cowmen who are determined to get their cattle over parched range country to the railroad in a desperate effort to "lift the throat of a famine which hangs over the southwest. With him are Jimmy Ellison, again as Johnny Nelson, and George Hayes as "Windy."

Douglas Fowley, tough, iron-jawed Boyd from reaching his destination, which would ruin their plans to cash in on the drought, go into action. Crooked riders are planted in his outfit, an attempt is made to arrest him with a false warrant, efforts are made to stampede the herd and, in final desperation, a mountain pass through which the herd must pass is mined.

But in the characteristic manner, Cassidy brings the cattle through, but not without considerable gunplay, hard fighting and hard riding. A romance between Ellison and pretty Gwynne Shipman, who rides with Boyd's outfit and is instrumental in saving the herd just as it looks as if the expedition had set out in vain, is deftly worked into the story.

Added Features

As added attractions on the same program the latest News Events compiled from all centers of the world, a "terrytoons cartoon, "The Dancing Bear," a grand musical comedy "Hawaiian Capers", and a Willie Howard comedy hit "Affairs of Pierre," complete the swell two hour program.

AURORA BOREALIS

The Northern Lights have been lighting up the sky over Great Britain and parts of the Continent to the wonder and delight of the people. Astronomer Royal H. S. Jones attributes the spectacle to a magnetic storm in the sun. So unusual was the show hundreds climbed to the rooftops to view it in all its glowing glory. Here in Canada the Northern Lights are common enough especially in the autumn. Down the St. Lawrence they frequently hang like tremendous colored curtains, which wave and wax and wane for hours. They can even be heard crackling, according to some observers. The European aspect rarely has been treated in a real Canadian display of this marvel of the heavens.—Montreal Gazette.

TIBBS

By CLARISSA MACKIE

Young Mr. Tibbets walked slowly past the parsonage, giving a sidelong glance revealed at it as verandah. The glance revealed a pleasant gathering of empty chairs —nothing more. He sighed heavily and quickened his pace. Just then the humorous face of the parson himself popped over the hedge, he was holding a garden trowel in his hand.

"How do you do, Ralph?" he said quickly, then "looking for Eve?"

"Yes—yes—no—of course I am, sir, he ended with an awkward laugh. "Is she at home, Mr. Spencer?"

"I believe she is," admitted the Reverend Mr. Spencer with a modest flutter on his lip. "I don't mind telling you, Ralph, my boy, that she is in the orchard picking up apples."

To pretty Eve Spencer "Tibbs" was an old, old story — she had known him all her life and she knew his every mood; she played upon his sensibilities as a musician plays upon a fine harp.

"Eve, Eve," cried Ralph penetrating the hammock.

"Oh, is it you—again?" pouted Eve impolitely, turning another apple. "How are you, Tibbs?"

He dropped down cross-legged on the grass, his wistful eyes on her troubled face. "My car has come, Eve—won't you come out with me after supper?"

"Sorry, honestly I am, Tibbs, but I promised to drive out to the cliffs with Jim Drake — he asked me first."

"That's all right, Eve," said Ralph getting up and shaking himself vigorously. "Better luck next time," he laughed ruefully as he went off.

Her mother came down the garden path and intercepted Mr. Tibbets' retreat.

"Ralph, my dear, I am so glad that I caught you in time! He want you for supper—fried chicken and peach shortcake — I know your weakness, my dear."

Supper was a happy meal at the parsonage, and when it was over Ralph had to remember that Eve's comedy "Hawaiian Capers", and a smile and merry quip for him as her brother—not the type he would be. Awkwardly for him Jim Drake in his big car came noisily to the gate and honked long before Ralph could get away. He went moodily home, slouching across the moonlit lawn and in the early dusk. Suddenly, a racing him grew louder, a glaring light blinded him; something struck him violently, and left him behind. He did not know that the car stopped, that someone cried piteously over him as he was carried into the parsonage and up the stairs. Followed a long period of unconsciousness broken by sounds—soft weeping—voices.

"Am I dead?" he asked feebly, and somebody kissed him gently. Then he awoke to blindness. His father told him to blindness was only temporary and that they were getting in a nurse.

The nurse was a quiet, soft little thing who spoke in whispers as she waited on him. Of course he knew that Eve was off riding or dancing with Jim Drake, but he liked to think that Eve was his nurse. "Do you mind if I call you 'Eve'?" he asked one day. Her tears fell on his white face.

"Tibbsy dear, I am Eve!" she whispered, putting her face down to his. "Can you ever forgive me for treating you so—you see I didn't know—who it was that I really loved—until—until you were hurt!"

He sat right up in bed, seeing her as a dim shadow beside him.

"Who is it—that you found you loved?"

"Why—you, of course!" and to prove it Eve kissed him, and then, only then, did Tibbs realize that he had come into his own at last.

MOIRA RIVER ICE 10-15 IN. THICK

Test Holes Reveal no Anchor ice—Water Four Ft. Deep

Test holes bored by the city engineer's department this week revealed that ice now covering the Moira River averages from 15 inches in thickness at a location some distance south of the car bridge at the river's mouth to a gradually increasing ten inches at the footbridge, about midway of its navigable course.

Examination of the river did not reveal any evidence of freezing to the bottom at any point within that distance, it was reported at the office. Anchor ice was also found to be a minus quantity.

A four-foot depth of water at the lower bridge has been charted by the department keeping close observation on the river as the first of the early Spring thaws threaten. This is a flow of water below average for this time of year, heightened in part by the recent rains and thaws.

"We're not worrying about the river as yet; it's a little too early to anticipate trouble as yet. Whether we will have any trouble this year can not be told from present indications. The danger period for flood is generally about the first two weeks in March, our records show," the city sounded casually as the rainy season period and the excess surface moisture in the soil causes the trouble", commented City Engineer Chas. Mott.

The newly formed Flood Control and Regional planning committee of city council, headed by Chairman Burton Jennings, and the office of the city engineer have given assurance that every possible step will be taken to ensure against a repitition of the disastrous 1934 flood when thousands of dollars property damage in the downtown section was suffered.

REMOVE OLD BRIDGE AT VICTORIA PARK

Threatening collapse under its own weight for the past year and more following the decay of its supporting struts and timbers, the wooden bridge leading into Victoria Park was today being removed by public works employees. The gap left in the road by the removal of the bridge will be filled with gravel and material from Zwick's Island. Traffic over the bridge had for some time past been prohibited.

BRITAIN LAUNCHES LARGEST COMMERCIAL AIR LINER YET ATTEMPTED

Britain's mightiest commercial air liner, built for Imperial Airways but also sponsored trial flights of the giant trans-ocean flying boats, is shown as it took off on its trial flights at Hamble, Eng., after being many months in the building sheds. The giant craft has an overall length of 310 feet and a wing span of 128 feet. She is the first of 14 similar machines, each built to carry 42 passengers, which are expected to be placed in service eventually on long-distance routes to India and other empire countries. The ship is the biggest commercial aeroplane Britain has yet produced.

WEIGHING ANCHOR FROM LOS ANGELES FOR EXTENSIVE PACIFIC WAR GAMES

Under shelter of the new 12,500 foot breakwater which protects shipping in Los Angeles harbor, formidable battleships of the United States Navy's battle fleet are preparing to weigh anchor and steam out for the greatest peace time manoeuvres the United States has ever put on in the Pacific ocean. "Battleship row" they call the navy anchorage. The dreadnoughts were to engage a mock enemy previously spotted by patrol bombers.

C.D.S. SHOPPING NEWS

Special Sale of Misses' and Women's

Coats

Regularly 8.95 to 29.50. Special, Saturday

5.95 to 18.50

You've big choice from this fine sale group of women's and misses' coats, and the materials are all wool, either plain or in smart mubbed patterns, interesting diagonal and other weaves. Smooth, fitting coats designed on this year's style trends, in popular shades of brown, navy, green, and the all-popular black. Coats here for misses, for the average figure, and the woman of more ample proportions up to 48½. For the most part they are smartly trimmed with soft furs, a few tailored reveals in the group for travel wear. Broadcast Sale of Candies, Beddings and Linens Continues Saturday!

UNITED CANADA

(Continued from page one)

Dominion council's resolution seeking authority to present to the Royal Commission on Dominion-Provincial Relations a brief on behalf of the Legion, Col. Fraser said the brief first would be submitted to Provincial commands for comment.

Separation Opposed

Hugh Farthing, Calgary delegate, declared the Legion opposed separation in the Dominion because it was loyal to national unity. He said Canadians sing the national song "O Canada"- and "we stand on guard for thee" but then they stand on guard "not for Canada but for their own provinces."

British Columbia delegates sought a check-up of the pretrial population on the Pacific coast to ascertain if Japanese and Chinese were in Canada legally.

The convention approved a resolution requiring the Union Jack should be a dominant feature in any design for a Canadian national flag. It also approved a survey of existing youth leadership programs. Disapproval, however, met a resolution for legalizing sweepstakes "under the supervision of the Royal Canadian Mounted Police."

THE WEATHER
Lower Lake region and Georgian Bay: Southerly winds; partly cloudy and mild tonight and Saturday with some rain; probably somewhat colder Sunday night or Monday.

BELLEVILLE, ONTARIO, SATURDAY FEBRUARY 5, 1938

PROPERTY DAMAGED AS BRIDGE STRUCK

Cut into Many Pieces By 660 Pound Blast at An Early Hour Today

According to Officials Blast Did What Was Expected

PREDICT NO MENACE

Many Windows Near Scene Blown Out by Concussion

Niagara Falls, Ont., Feb. 5 (CP)—Buildings shook, windows were smashed and the Falls View bridge was shattered when 500 pounds of dynamite was discharged in the wreckage of the bridge in the Niagara River gorge here today.

The blast at 2:30 a.m. shook the city and was heard for miles as wreckers began to blow the steel bridge into scrap iron. Success of the attempt was not yet determined. Casual examination from shore indicates it was not moved.

According to officials, the blast did what was expected although from the riverbank the bridge seemed undisturbed. It was cut into five pieces by the 660 pounds of dynamite.

Job Is Finished.

"As far as we are concerned the job is done," one of the wreckers said. "If more work is required we will have to make a new contract. We expected the six pieces to fall into the river, 175 feet deep at this point, and be no menace to future ice jams or navigation."

Ronald F. Ross, manager of the General Brock Hotel said about ten large plate glass windows in the hotel were smashed along with many other smaller windows. Glass shattered from the hotel building and along the river road were ruined.

"I thought the end of the world had come," Mr. Ross said. "I was asleep at the time of the blast. "I know what the explosion was but thought they had decided to blow up the Falls," he said.

"From the tenth floor of the hotel the bridge seemed the same. One or two girls were peering from the wreckage but the bridge apparently was unmoved.

Glaziers Start Work.

Glazier started this morning replacing the plate glass in the store front of the hotel, blown in by the concussion. Many other windows were smashed and these were covered by boards to keep the heat in.

"Everyone was anxious about the explosion and many stayed up all night to see it. Those who went to sleep did not need to be called when the dynamite was finally touched off.

Part of the riverbank was lined with spectators, watching the wreckers and waiting for the thunderous blast. Some thing about the bridge seemed different directly in front of the bridge were unaffected by the concussion while those nearby lost their windows.

The bridge crashed a week ago Thursday, carrying with it the largest ice jam in the history of the turbulent river.

Explosion Delayed

The explosion was delayed as authorities tried to control the crowd which jammed into the danger area. Originally scheduled for 1 a.m., it was not until an hour and a half later that the blinding flash of light and concussion happened.

After the explosion the bridge seemed the same, sprawled atop the ice and looking like a roller coaster spanning the river.

Eleven large plate glass windows in the General Brock Hotel were smashed along with many other smaller windows and plate fronts of stores near the bridge. Damage at the hotel was estimated at $1500.

Windows Smashed

All the windows in the souvenir store of Mrs. C. H. Abobbot, River Road, were smashed when the ice china inside the store. Damage was estimated at $600 in the Fox Head Hotel on Main street. There was no other property damage other than the windows.

Gordon House had the windows of his automobile blown in as he drove past the General Brock at the time of the blast.

Workers said they cut the bridge framework into the six pieces, leaving only that section which was broken by the blast. The dynamite had no visible effect on the steel bridge, formed by the ice jam that caused the bridge to fall a week ago Thursday.

Deep cold today were the only change in the ice.

COAL EMPLOYEE DIES OF INJURIES

Clarence, Lewis, Picton, Crushed Between Truck And Wall

Picton, Ont., Feb. 5 (Special) — Terribly injured when he was caught between the rear of a moving coal truck and a wall of the Picton United Church, early yesterday afternoon, Clarence Lewis, 22 year old employee of Cuthbert and Sons coal yards, died shortly after 9 o'clock last night in Prince Edward County Memorial.

According to reports of eyewitnesses of the accident, Lewis, who was riding on the rear of the loaded truck, driven by Clarence Taylor also employee, leaped from the vehicle to open a window on the side of the church and then turned towards the wall of the church. Lewis slipped on the icy pavement and fell, and the wall, suffering terrible chest and body injuries, as the electric crushed him against the building.

Taken to Hospital

The injured man was rushed to Picton hospital but failed to revive consciousness and succumbing to his injuries a few hours later.

Lewis is survived by his wife and eight children. He resided on Bridge Street and had been an employee of Cuthbert and Huff for some time.

An inquest looking into the circumstances surrounding the accident has been ordered by Coroner Dr. Lighthall and will take place on Monday. A jury, empanelled today viewed the remains at the hospital this morning.

THE WEATHER

Toronto, Feb. 5—(CP)—Synopsis—The disturbance which was over the Maritime Provinces yesterday morning is now off the east coast of Newfoundland. Pressure is high over the St. Lawrence Valley and the northwestern districts of the continent and relatively low in the westward of the Great Lakes and on the Pacific coast. Showers have been mostly fair and moderate snowfalls in the Lake Superior districts. Fair, moderately cold weather prevails from the Ottawa Valley eastward.

Lake Superior: Cloudy and comparatively mild with some light snow or rain over east districts today, northwest winds; partly cloudy and somewhat colder with snowfalls.

Manitoba, Saskatchewan and Alberta: Partly cloudy and somewhat colder tonight and Sunday with scattered snowflurries.

U. S. TO BUILD LARGER SHIPS IF JAPAN DOES

Washington, Feb. 5 (AP)—United States announced today it would start to build or intends to build battleships larger than 35,000 tons.

If no change in the London agreement said, the United States will build battleships of 45,000 tons, willing to discuss limitations of their size.

Secretary of State Hull, announcing this action, said it was taken after consultation with Great Britain and France, signatories of the London Naval Treaty of 1936, who were taking similar steps.

Note to Japan.

The formal note presented to the Japanese government by Ambassador Grew in Tokio demanded a reply by Feb. 20. No reply, it said, will be regarded as an admission Japan has decided to withdraw from the treaty and the United States will "resume full liberty of action."

The United States has built no battleships since the 35,000 tons, in accordance with the treaty.

Admiral William D. Leahy, Chief of Naval Operations, told the House Naval Committee this week that reaching the 35,000 tons limit was the most any building 43,000-ton ship could be built, but had been unable to confirm these reports.

U.S. Seeks Assurance.

The American official demanded of Japan must, said the note, "satisfy the American government that its (Japan) will not, prior to Jan. 1, 1942, lay down, complete or acquire any vessel which does not conform to the limits in question, without previously informing the American government of its intention to do so and of the tonnage and caliber of the largest gun of the vessel or vessels concerned."

Opinions of World Press On German Army Purge Show Wide Divergence

Paris, Feb. 5 (CP-Havas) — The French press today viewed the changes in Germany as a new menace to world peace, to be faced by closer co-operation among the democratic powers.

To the Petit Journal, mouthpiece of the Nationalist leader, Colonel Francois de la Rocque, the name of Joachim von Ribbentrop, until now Ambassador in London, "is itself represents an entire program."

Rise to Ribbentrop.

His rise to "undisputed leadership" of German diplomacy after the "unprecedented defeat" of his mission to London, said the newspaper, "shows that the Germans are preparing to play for large stakes, abandoning all attempts at reconciliation with the British in order to strengthen the bonds uniting them with the Italians."

The shakeup, wrote Peritinax, foreign editor of the Conservative Echo de Paris, may be "the answer to the efforts to unify the state, the party, the army and the economy, to attain maximum intensity the moral and material mobilization of the German people, concentration for war."

British Comment.

London, Feb. 5 (CP)—The events in Germany were big news in the British Press today, but came too late for most papers for comment.

The Times (independent) reviewing the whole German situation, but did not comment other than to say that the "drastic changes" in some of the Nazi leaders have not all been realized it certainly looks as though Hitler's control over the army has been substantially increased."

"More Peace" Says Express.

The Daily Express (independent) asked "Is it more peace in Europe or less?" and answered: "more". Germany is one of the powers which Lord Halifax said this week shows that fear to be exaggerated. The countries who wish to keep peace every day are increasing their power to do it. Nothing arms will not be used for aggression."

Welcome Appeasement.

The Daily Mail (independent) welcomed the appointment of Joachim von Ribbentrop as foreign minister, declaring "he has had the best opportunities to assimilate Britain's point of view."

The Mail added that no particular significance could be read into the German changes by any foreign country because "they are the result of an intimate domestic situation and beyond question that Chancellor Hitler supposes to have dealt very adequately with his problems while commentators do not require to go."

"Initiating" Kaiser.

The News Chronicle (Liberal) said that Ribbentrop "is more initiating the Kaiser" while the Manchester Guardian (Liberal) saw Hitler's position "essentially similar to that of Mussolini in Italy."

The Daily Telegraph (Conservative) concluded that the stability of "well assured" as had been assumed, "but it has not been assumed.

Hailed in Germany

Berlin, Feb. 5, (CP)—(Havas)—The controlled German press today hailed the army and diplomatic changes as "strengthening the power of the Nazi party."

Feb. 4 1938, is a date surpassed in importance to German history only by that of Jan. 30, 1933, which brought national socialism to power," said the Deutsche Allgemeine Zeitung. Feb. 4, 1938, represented the most decisive growth of Nazi power since that date.

"The concentration of forces which has just been carried out is bound to strengthen the world-role of Germany in the play of world politics."

The Lokalanzeiger declared Chancellor Hitler's reorganization "means organic rejuvenation, standardization and concentration of all the forces of the state."

Mussolini Congratulates Hitler

Rome, Feb. 5 — (CP) — Premier Mussolini today acclaimed Chancellor Hitler's control of Germany's armies as "destined to reinforce the friendship between our two armed forces and the relations between our regimes."

Mussolini sent Hitler a telegram of congratulations expressing "my satisfaction that the Italian people will be following with redoubled zeal of effective command of all armed forces of the Reich."

The Popolo Di Roma predicted that reinterred demands for a return of Germany's pre-war colonies and a new drive against Communism will feature German foreign policy under the direction of Joachim von Ribbentrop.

Other newspapers agreed that the changes announced in Berlin last night will be followed by increased German activity in foreign affairs.

Canuck Women's Relay Team Score Victory in Swim Meet

Phyllis Dewar Acting as Anchor For Team is Hero

ENGLAND ALSO WINS

Sydney, Feb. 5—(CP)—Canada took the first test victory in British Empire games swimming competition here tonight when Phyllis Dewar relay team, anchored by Phyllis Dewar, defeated Australia scoring over the 440-yard distance.

Miss Dewar, sensation of the empire games in 1934 at age of 14 years, finished two and a half yards ahead of Australian anchor swimmer in a close finish. The time was 4:46.3. Because the previous record was the world's record for a relay, the new time stood as a record.

Florence Humble of Montreal, Dot Lyon of Toronto, Noel Sweeney of Vancouver, B.C., and Miss Dewar formed the winning combination.

Miss Lyon made the victory possible with a fine performance in the second 110-yard leg after Miss Humble had lost about a foot to Miss Ina Gentzsch. When Miss Lyon was finished, Canada led by two yards. Miss Sweeney increased the advantage and Miss Dewar withstood the challenge of Miss Dorothy Lee, Australia. England was third.

Former Olympians on Team

Miss de Lacy, former Olympic star, led a team including Miss Margaret Ray Swann of New South Wales and Dorothy Green of Australia. Three former Olympians—Zilpha Grant, Edna Rugless and Margaret Elliston—and Joyce Harrowby made up the English team.

England's men's medley relay team gained the first win for the member country finishing ahead of Canada and Australia.

Percy Cotter, Australian backstroke event into the lead in the first lap with Gordon Kerr from Windsor, Ont., in second place, in it was Canada.

Then John Davies, English breaststroke specialist, swam ahead and had Jimmy Prentice, Toronto, and the Australian swimmer, who were fighting for lead over the second 110-yards. Prentice lost six yards to the Englishman.

Bob Fyrie, ace Canadian freestyle star, held off Australian Arthur Beaurepaire over the 220-yard to the mile, failed to make up the distance in the third lap despite a gallant effort. He finished five yards behind the third Australian competitor, but was two yards ahead of the Australian competitor.

POLICE OFFICER SUSPECTS SLAIN

Police And Four Men in Gun Fight After Bank Robbery

Columbus, O., Feb. 5—(AP)—Police and four men in a $2,500 bank robbery as solved today with the sanguinary gun battle which left one officer and two bandit suspects slain, four persons were wounded.

Vincent Grinkowics of Cleveland and a man known only as "Mac" were killed when police and four men engaged in a gun battle in a wooded section of Franklin county yesterday. Authorities were checking with the Federal bureau of investigation in an effort to identify "Mac."

Detective Robert M. Cline, 42, died in a hospital early today after physicians attempted to save his life through blood transfusions. He had been wounded in the stomach.

Francis C. Cuzzo, District Attorney, said earlier that if any wounded officer died he would demand the death penalty for the surviving suspects.

JUSTICE MINISTER TO PROBE FASCISM HOUSE INFORMED

Alleged Drilling of Members in Canada Contrary to Code

AMEND B. N. A. ACT

Minister Will Also Consider Quebec Padlock Law

Ottawa, Feb. 5.—(CP) — Hope that Parliament would not rise without developing a policy for dealing with amendments to the British North America Act in Canada without reference to the Imperial Parliament was expressed in the House of Commons today by Minister Justice Minister Lapointe.

The minister was the centre of attention as debate on the Speech from the Throne continued with an announcement by the government to look law, on the drilling of Fascists in Canada, and arguments on the subject of Constitutional amendment in relation to Unemployment Insurance and the disallowance of Alberta Legislation.

Consider Padlock Law

Between now and the end of March, he said, he would consider the Quebec Padlock law. Only within the last few days had he received a petition for its disallowance despite all the criticism which had been directed against it in the failure to disallow. Disallowance had to take place within a year of the enactment of a provincial statute and that period would expire at the end of next month.

Order Investigation

Replying to a question directed at him the day before, Mr. Lapointe said the Government would order an investigation into the alleged drilling of Fascists in Quebec. Military drill and exercises without authority were contrary to the criminal code.

While it was the duty of the provincial authorities to prosecute if offences were committed, the matter was of interest to all Canada, he said. If necessary, a reference would be made and the facts laid before the provincial authorities. If warranted proceedings would be instituted by the Federal Government.

OBTAIN VERSION OF INJURED MEN

Investigate Mine Accident After Injured Men Recover

Copper Cliff, Ont., Feb. 5 (CP) — Investigation into the mine hoist accident that took five lives was delayed today by physicians who said officials awaited sufficient improvement in the condition of five injured miners to obtain their version of what occurred when a "skip" tipped over in the shaft yesterday.

"I want the testimony of the injured men," said Dr. Frank Dingle, "and it will be unfair to give it to anyone until they get out of hospital." Dr. Dingle, Coroner, and E. LaFlamme said last night. "The five men who escaped injuries will be the first seen officially in the accident while the injured men will be the last. Every possible precaution will be taken to see that everything is done right on the actual cause of the accident."

Veterans Reunion To Be Held in July

Toronto, Feb. 5—(CP)—The Canadian Corps Association and kindred organizations meeting about 200 today on plans to hold a monster reunion of Canadian ex-servicemen in this summer's centennial year.

Resolutions adopted endorsed the announced refusal of the Canadian Legion to participate.

The Legion came in for criticism when it announced that the Canadian Corps, naval, air force and other veterans organizations met here last night and unanimously condemned the resolution proposal. Several thousand Great War veterans are expected here for the three-day get-together, July 30, 31, and Aug. 1.

A resolution adopted endorsed the reunion. Support also was given by the advisory committee to the Canadian Corps 1938 Reunion Company, which is organizing arrangements for a meeting of Canadian veterans organizations.

Amazing Cabinet Crisis Places Adolf Hitler as Supreme Army Leader

Intensify Nazification of Military Forces in Germany

MAY TAKE DANZIG

May Announce Germany Protector of German Minorities Everywhere

By WADE WERNER

Berlin, Feb. 5 (AP)—Reichsfuehrer Adolf Hitler emerged today from Germany's most amazing cabinet crisis as the supreme army commander to intensify Nazification of the military forces and to prepare the nation for a new step in world affairs.

The slim, moustached, 48-year-old Fuehrer by a swift series of decrees shook high military commanders and generals from their jobs to end the crisis begun with the tinkle of his war minister's wedding bells.

He assumed for himself direct command of all Germany's armed forces; made sweeping changes in the diplomatic service, concentrated authority more than ever before in his own hands, with a secret council on foreign affairs, and named as his foreign minister the zealous Nazi, Joachim von Ribbentrop, the Berlin pact salesman who became Ambassador to London.

Party With State.

The net result was further Nazification of the military, acceleration of the process of fusing the party with the state.

The blows were thrown off, in other words and today a strengthened Nazi machine is gathering momentum as it heads for its next important move in international affairs.

Hitler has summoned the Reichstag to meet Feb. 20 to hear an important pronouncement, and its nature will concern the minds of Germans and the world during the next fortnight.

Whatever Hitler may reveal of his immediate plans when the Reichstag meets, one thing already is apparent—the swift events, following War Minister Marshal Werner Von Blomberg's marriage to whom the army considered his carpenter's daughter, and Army Commander-in-Chief Werner Von Fritsch's downfall on charges resulting from his connection with a male prostitute.

Might Take Over Danzig.

There were additional indications that Hitler might proclaim to the Reichstag that Germany is taking formal control of Danzig. The town of Danzig and surrounding territory was taken from it by the Treaty of Versailles.

It was learned also that Hitler would announce formally that Germany regarded herself as protector of German minorities everywhere. Return of German colonies and the Anschluss (union) with Austria, known German aims, but definitely when and how Hitler may press for them is unknown to the world press for the moment.

It seems safe to assume, however, that the Reichstag session of "two further surprises" announced by Hitler in his Reichstag speech early of Jan. 30, 1937, and that there has begun a period of activity in further preparation for the realization of them.

Ribbentrop Given Post.

By the decree announced yesterday, the dyed-in-the-wool Nazi von Ribbentrop, a mysterious resident of London in the war days, replaces Constantin von Neurath, who becomes chairman of the new secret cabinet council in charge of foreign affairs.

Today, Hitler himself, not a general raised in the old army tradition, is the supreme head of the nation's armed forces, with a sort of personal staff corresponding to the Fuehrer's instructions under the title "Chief of High Command."

The "deputy" is Wilhelm Keitel, former state secretary in the war ministry, now with cabinet rank.

Von Fritsch Deposed

The Fuehrer deposed as chief of the War Office, Walther Von Brauchitsch, made colonel-general, has been commander-in-chief of motorized divisions of the army.

As part of the general shake-up Hermann Wilhelm Goering, Nazi czar's number two man, announced reorganization of the Ministry of Economics—one more step toward Nazification of the country's economy, once directed by the brilliant but conservative Dr. Hjalmar Schacht.

NEWS BRIEFS AND ODDITIES

BUY GOLD MINE A SCHOOL FOR MINERS

Quebec, Feb. 5 (CP)—Purchase of a gold mine in Northern Quebec for use as a school of practical training for young miners was announced here by Premier Maurice Gagnon, Quebec Minister of Mines. The newly-bought Gale mine is in the Val d'Or area in Abitibi county, in the centre of a rich district rich in minerals.

WASHWOMAN TWICE GOLF CHAMPION

Manila, Feb. 5 (AP)—For the second time in four years a washwoman is Philippine women's open golf champion, Hinky Deningo, Capiz, who washes clothes for a living at a Calamba sugar estate, defeated Mrs. Willie Hoag of Los Banos, wife of a clerical assistant, 4 and 3.

SHOOTS ONE RABBIT OTTER, DIES OF FRIGHT

Clinton, Ont., Feb. 5 (CP)—Fred Hoare has the unique distinction of annamalities while hunting rabbits. He shoots one bunny and scares seven others. That was the way Tex Jacks loping toward him and brought one down with his gun. The other rabbit, startled, leaped sideways, struck a tree and broke his neck.

Mr. Claude B. Dunfee has been appointed Manager of District No. 1 (Toronto) by the Great-West Life Assurance Company. Mr. Dunfee has held similar positions in Western Canada. Mr. Dunfee is a graduate of Ontario Business College.

CAR IS ABANDONED IN A DRIVEWAY

Last abandoned in a driveway on the Adelaide road, an automobile was recovered by police authorities today. The vehicle was bearing Ontario license plate number 4-3-44. The vehicle was left in the driveway of the home of Morley Smith, who reported the incident to the authorities early today. No arrests were necessary in Belleville during the past 24 hours while only eight lodgements sought warm sleeping quarters as the police station last night. H. T. O. Bain Hyrins reported the most highways free from ice for the greater part, while boulevard curves have been thoroughly sanded, he announced.

COMBINED COMMITTEES OF BOARD MEETS

At the initial meeting of the combined committees of the Board of Education held last night, the regular business of the new year was undertaken by members. The evening was devoted to business, mostly of routine nature which will be presented to the Board at its general meeting later.

NO CHARGE MADE FOR GRADING SERVICE

Farmers of the district, who have small seed grain for sale this spring are advised by the local office of the Department of Agriculture to send samples to the seed office, Ottawa, for grading purposes now, instead of waiting until the busier period later. Samples may be sent through Belleville office of Wm. Mitchell, Dominion Seed Inspector, or forwarded directly to Ottawa. There is no charge for this grading service. It is urged by officials to send for seeding purposes without having this grading certificate, points out the office.

RESIDENTS ABLE TO USE HIGHWAY

For almost the first time since the first heavy snows of winter fell, residents of the Marshall Road, just west of the city limit, were able during the latter part of the week to travel in safe style to their homes.

For weeks at a time this season farm homes on the road have been virtually isolated, with even horse and cutter transportation prohibited by the heavy drifts.

WILLIAM J. HILL OF MADOC GIVEN POST

At the thirty-eighth annual convention of the Ontario Association of Agricultural Societies held in Toronto yesterday, Mr. Chas. Thos. Ellis, Ont. His name was placed on the Board of Directors of the Associa-

tion. William J. Hill, Madoc, was appointed as Association Representative to Fairs, Exhibitions is to be actively promoted in the future by the Association according to a committee resolution advanced.

Important Tomato Growers' Meeting

A meeting of all Tomato Growers in Hastings County will be held in the COUNTY BUILDINGS, BELLEVILLE, Feb. 7th at 2 o'clock when MR. WM. NEWMAN of Leamington, Provincial Central Board will be present to fully explain the new Tomato Marketing Plan.

The Board feel that at the present, that they are entitled to direct support from the tomato growers. In view of the strong opposition from the canners, all growers are requested to be present and lend their support.

PRICES MAINTAIN FIRM TONE TODAY ON CITY MARKET

Lighter Than Usual Display Greets Saturday Shoppers

ONIONS UP

A marked sluggishness, due, it was reported to the icy conditions of sidewalks of the surrounding district, that prevented a number of farmers and other vendors of produce from putting in an appearance featured the city market this morning where but a small crowd displayed of farm and dairy produce greeted Saturday morning shoppers.

Offerings were fairly well distributed in the various forms of produce but no marked difference was noted in prices, the general trend although showing a slight upward tendency in the number of remaining fairly strong in other lines.

Eggs were quoted generally at twenty-five cents a dozen by local vendors, a slight drop in quotations of last week, with "mediums" and "pullets" selling at from twenty-two to nineteen cents per dozen respectively.

Farmers butter maintained the new high levels it reached a week ago, selling at seventy-five cents by two pound rolls with single pounds offered at thirty-seven and thirty-eight cents.

Chickens were fairly plentiful today with seven dressed offered from $1.00 to as high as $1.50. Inferior quality and smaller sizes were priced commensurately although the high levels that features the city's market quotations for the past month showed little change.

Attractive displays of home-cooking booths drew a fairly large crowd of shoppers early in the morning of the kitchen selling will to early morning shoppers.

Staple Lines Sell Well

The high temperatures of the past week-end saw a fair display of winter fruit and vegetables on the market today with staple lines selling briskly during the later hours at prices, that showed no change over those of previous weeks, with the exception of perhaps onions, whose appearance today was still quite high today as imported stock was offered in five pound sized bags by vendors. Local stocks are being rapidly depleted, vendors state, and the end of the season of this vegetable is prophesied in the near future.

Potatoes were offered at eighty and ninety cents for ninety pound bags; beets at fifty cents per bushel; parsnips at seventy-five cents; turnips at fifty cents and winter cabbage at five cents per head without the outside leaves.

Northern Spies prices held up well with bamper lots quoted at two dollars each, Mackintosh Reds, Tolman Sweets and Snows were offered at $1.75 per hamper lot with Starks selling at $1.50 for the same quantity.

Lovers of fish found the popular mackeral available at fifteen cents per pound with red salmon steaks offered at the same price. Lake herring found favor at five for twenty-five cents with whitefish showing a slight decline over last weeks priced at eighteen cents per pound.

Foxboro

Foxboro—The W. A. and W.M.S. held their February meeting on Thursday at the home of Mrs. A. Embury with an attendance of thirteen President of the W. A. was in charge and opened with a hymn, and prayer by Mrs. A. Embury. Mrs. Hodgens read a Scripture lesson from Proverbs xix. and a chapter, followed by a splendid reading by Mrs. Rose Christie.

Mrs. Horton, President of the W. M. S. then took charge and answered the theme "Every Church in Action". Mrs. Hodgen, Mrs. R. Spencer and Mrs. Russel Christie gave the Scripture readings and Mrs. John Gowsell led in prayer. Mrs. G. Gowsell and Mrs. Swartz Sills were on sanist Miss M. Millspan in charge of the Mission band and the following heralds, reported —Africa—Mrs. W. Wickett, China —Mrs. T. Scott, Japan—Mrs. Wm. Hodgen, and Mrs. J. Hall sang a lovely duet "Hark you hear the Garden with Jesus" and after silent prayer for the nation Mrs. (Rev.) Horton led in prayer and the meeting closed with a hymn.

Parent Education is Chief Aim Of Home and School Associations

Mrs. A. B. Silcox, Toronto Discusses, Purpose, Growth And Trend of Clubs

JOINT MEETING

Home and School associations must never lose sight of the fact that their main purpose of organization is for parent education, Commercialism, bridge parties, dinner clubs, in welfare work and money raising activities must be manifest itself in other associations, and Home and School clubs, their ideals, policy and creed are maintained with sincerity will be a credit to the name in the holding of a great nation. This was stressed in an earnest address by Mrs. A. Silcox of Toronto, a member of the provincial executive of the Ontario Federation of Home and School Clubs at a joint meeting evening of Bridge and Queen Alexandra School Associations held at the later institution's hall. Mrs. Silcox's inspiring talk gave her audience a vision of the wonderful opportunities before the association.

Mrs. W. E. Pinkie, president of the home club, presided at the meeting, the business of which was preceded by a delightful musical period, Mr. J. D. Bankley acting as song leader for community singing and later favouring the audience with two solos, Mrs. Ross Hunter acted as accompanist.

Reports of the last and of executive meetings were presented by the secretary, Mrs. Ralph Mosder. The guest speaker was introduced to the audience by Mrs. Pinkie who referred to the wonderful activities in the Association and to her interest in Secondary School work of which she is a former convener.

Mrs. Silcox spoke of the pleasure it gave her to be present at the meeting in Belleville and to renew the acquaintance of Association members. Such contacts gave a closer insight into the problems of each community, the solving of which proved great assistance to advance clubs to successful future undertakings.

Founder's Purpose

Founder's Day observances this month recalled the fact that towns, cities, villages in Canada owe their Home and School Associations, formed links in a great chain that bound the women of the world, members of similar organizations in the common project of the betterment of conditions for children and promoting understanding between home and school. One should pause and consider if the organization formed twenty years ago in Ontario still adheres to the purpose which it professed to be interested in the best aspect of the work showed that five members were sufficient to keep membership important not merely for the standard of the association but for the fact that throughout the Dominion so many parents and citizens were joined in the dedication for the great object that children's welfare is the road on which many safely develop and attain their place in the world.

Grave responsibility rested upon each member. The whole plan and success of the association should be studied and carried out with safety and sane. It was important to be able to-rely upon the association by all its members. Members should know the pros and cons of educational developments. They must realize the seriousness of their responsibility as parents. Child psychology, a study of human nature, one becomes familiar with the child should interest any parent who for the training of the child to-ward success in life begins at his birth.

Members Must be Sincere

To prove themselves sincere parents should adopt a co-operative attitude towards the school, never criticizing her before the child but going to her sincerely concerning matters. Mrs. Silcox told of the parent who was reprimanded by his one child described as a "scurvy old elephant". The need was made emphatic that these had been the words of her teacher. A visit to the teacher revealed that she had spoken of the child as a "disturbing element". Entirely unblemished, a child frequently conveys wrong impressions and often the parent makes indignant remarks about the teacher in the child's presence. Children's club members should never expect any, different treatment from that of other scholars. Insistence on regular and punctual attendance at school, application of co-operation between teacher and pupil. Mention could also advantageously be made of willing workers be understanding parents who will "mix" not "take" or "hold", office.

Seven-Point Program

Mrs. Silcox discussed thoroughly and interestingly various phases of Home and School endeavours. She recommended to members the following of the seven point program —that of devoting meetings to the following topics, the child's health, home relations, education, citizenship, recreation, vocation in life and character. The organizing of study groups would greatly aid in better understanding of each of these subjects.

The speaker referred to the various advances of the past year and in the work of the association and concluded her stimulating address by reminding her hearers that devotion to the ideals, policy and creed of the Association by diocese members would result in a valuable contribution to the citizenship of developing boys and girls into fine citizens of a great nation and a great commonwealth.

Mrs. C. W. Banker, president of the King County Home and School Club, expressed the thanks of the members for the very helpful address and Mr. W. O. Anderson, principal of Queen Alexandra School, spoke in appreciation of the instructive and enlightening talk. He called the attention of members to the fact that next week "Educational Week" and every publicity would be given in the press.

Great the conclusion of the meeting delicious refreshments were served.

MRS. E. R. LOGIE IS WELCOMED TO LIBRARY BD.

Mr. E. B. Lally Received to Chairmanship at Annual Meeting

REPORTS PRESENTED

The annual meeting of Corby Public Library Board took place last evening with Mr. J. W. Inlah presiding, in the absence of the chairman, Mr. E. B. Lally The Board welcomed a new member, Mrs. J. R. Logie, in the room of Mrs. Jones, who declined to be re-appointed to the Board.

The election of officers resulted in the re-appointment of Mr. E. B. Lally, as chairman, and Mr. J. W. Inlah as secretary-treasurer. Other members present last evening were Mayor Thompson Boyce, Mr. C. G. Wilson who was elected chairman of finances, Mrs. R. Wilkins, Mrs. C. Walters, Mr. J. W. Inlah and Mr. T. V. Scanlan. Mr. Logie and Mr. Wilkin were appointed to the Book Committee.

The Librarian's report was presented by Miss Mabel Adams and gave a splendid resume of library activities for the past year. This report will be published in Monday's issue.

Hastings Lumbermen Work Under Difficulties

Lumbermen of North Hastings have been working under difficult conditions lately following the first of the thaws experienced in the northern townships recently. Snow came fifty inches before the actual beginning of winter, resulting in sogey conditions in the swamps which have did not permit heavy hauling or covering of snow. The majority of them did not freeze heavily enough to bear the weight of teams and trucks, Reeve Shanklin, Madoc lumbermen district, this week. W. A. Sachs the loss of a small lake and broke through the ice. Before the road was through into, twelve feet of water. The animals, the load and driver managed to support the truck by clinging to the sides and workers removed the machine from its precarious position. Considerable timber is still in the woods and several weeks of cold weather are necessary before it can be hauled out, it is reported.

First Cutting of Channels Next Week

First cutting of channels in the ice of the Moira River to provide open exit for the swollen currents following the break-up is expected to commence at about the middle of next week, according to plans of Mayor Jamieson Bone and members of the special flood committee headed by chairman Alderman Burton Jennings.

It is expected that power saws will be secured from commercial lumbermen for the purpose of cutting the first channels which may be kept open during the remainder of the cold weather by the use of hand cross-cut saws.

The thickness of the ice at the mouth of the Moira where cutting will be started, is about 15 inches, gradually graduating to about 10 inches just above the Dundas street bridge, the measurements of the city engineer.

MRS. JOHN BAILEY 86 YEARS OLD

Highly Respected Resident of Allan Settlement Honored by Friends

Honoring one of the oldest and best respected residents of the Allan Settlement, about forty friends and neighbors of Mrs. John Bailey, gathered at the home of her son, Gilbson Bailey, Madoc, on Thursday, Feb. 3 on the occasion of the eighty-sixth birthday anniversary of their mother, counsellor and friend.

Many congratulatory messages from outside points were received during the day to the sincere tributes of affection and best wishes expressed personally by Mrs. Bailey's sons, daughters, grandchildren and great-grandchildren.

Exceptionally hale and alert, the settlement's oldest resident accepted the honors due her in her characteristically witty and humorous manner. Mrs. Bailey's secret of her stalwart to an active and useful old age are due to her cheerfulness and good spirit have become a byword among residents of the community in which she resided for the past sixty years. Physically active, Mrs. Bailey finds pleasure upon performing her share of the household duties, and has always filled time with the art of fancy work with needle and thread. Mrs. Bailey is regarded as among the masters of the old and dying art of quilt making, which adorn many homes of her children.

Mother of Eight

Mrs. Bailey is the mother of eight children, six sons and two daughters. Twenty-five grandchildren and fifteen great-grandchildren also enjoyed by her.

Married sixty-four years ago in Belleville to John Bailey, Mr. and Mrs. Bailey took up residence in Madoc township and settled on the farm on which she still resides. Her maiden name was Miss Jane Gilbson.

Her children are Gilbson Bailey, Madoc, and six children; Thomas Bailey, McLeod, Alta., with two children; Mrs. Ernest Collins, Poplar Point, Man., with five children; Mrs. Fred Bailey, Belleville, with four children; Mr. Charles Bailey, Roslin, with three children; and Mr. Fred Bailey, Oakville, Man., with one child.

Obituary

LATE SHERMAN G. POLMANTER

The funeral of Sherman Gordon Polmanter took place Friday afternoon from his residence on Mill Lane, Mrs. and Mrs. Lorne Polmanter, 113½ Cannifton Road, to Belleville Cemetery. The house at 2.30 p.m. was conducted by Rev. A. G. Sinclair, Madoc Street Baptist Church and interment took place in Belleville Cemetery.

The funeral was largely attended and there were many floral tributes. Pall bearers were Alexander Maxwell Thrasher, Wilfred Burshaw, Earl Burshaw, Robert Matthews, and Garfield Little.

INFANT LESSELS

The infant daughter of Mr. and Mrs. Eric Lessels, 19 Bleecker St., Belleville, was conveyed from the Belleville Burial Company Funeral Home, Coleman Street, to Eastview cemetery, Rev. Father Stanislaus Semple, pastor of Bridge Street Catholic church, assisted by the Rev. Dr. E. N. Baker.

Interment was made in Belleville Cemetery after service at the grave side was conducted by the same ministers.

The bearers were Mr. R. M. Mitchell, Mr. A. E. Pollock, Mr. Fred S. Deal, Mr. F. W. Sprague, Mr. J. O. Gallaway and Mr. R. S. Hamilton.

JUSTICE MINISTER

(Continued from Page One)

Among the casualties in the army were said to be some of the "18 Christian generals" who with Von Priesch built up the Nazification of the army, and criticized what they called a pagan trend away from the Christ and Christian virtues of good soldiering."

The diplomatic changes included the recall of Ambassadors Ulrich Von Hassel from Rome, Herbert Dirksen from Tokyo, and Franz Von Papen from Vienna.

Trenton

Trenton, Feb. 5.—(Special)—The following officers were voted to the Board of Chamber of Commerce last night. President W. J. McConnell; vice-president, James Holmes; secretary treasurer, C. G. Ayres; directors, Arthur Blakely, A. A. Parrar, Irwin Galna, O. M. Newton, N. J. McNair, George Gobley, E. J. Crouch. Minutes of the 1937 meeting were read and adopted. Mayor H. R. Corr addressed the meeting in English. C. M. Ayres submitted records of the Home Improvement Plan Board and James Holmes reported on Trenton Week activities as did W. R. McClung. Irwin Galna and Arthur Blakely discussed the High'and Public school situation with the Mayor near the close of the meeting. The merchants were unable to reach any conclusion. It was decided to set an early Saturday night closing hour for local stores although the present members of those present were in favour of trying out a one hour earlier Saturday night closing hour for four months. However, the proposition will be considered at an early meeting of the new Chamber of Commerce Board.

Truck Catches Fire

While proceeding along highway No. 2 two miles east of Trenton on Wednesday a truck loaded with baled straw and cattle caught fire and was practically destroyed before the flames were extinguished. It is believed the fire started in the cab of the truck. With the help of York Road farmers the driver of the truck managed to get the cattle to safety before the fire spread to the rear of the vehicle. Aid was summoned but the machine was a mass of flames when Constable Frank Long of Trenton, arrived at the scene with two chemical guns. The truck operated by Earl Gillespie of Campbellford, and owned by W. F. Scott of the same village was insured.

Council adjourned with wilfully refusing to work contrary to Section 238 subsection B of the Criminal Code, David Turnbull of Trenton pleaded guilty before Magistrate R. J. Betzner in Police court here yesterday afternoon and was sentenced to Belleville jail for fourteen days. As a warning to future offenders the magistrate declared: "I will sentence the next man to appear before me on a charge like this to six months in jail." Turnbull had been a dependent on the local relief office since last fall. Some ago, when he refused to work on a job, He has a wife and family living in Trenton. Hers and There

President of the Trenton Collegiate Club Gordon Baker says the organization won't function this year. Local girls Dufferin House and Bridal Club entertained with a euchre party. An old-fashioned supper put on by Group 2 of the Trenton United Church Women's Association last night was well-patronized. Mild weather has caused the ice in the Quinte Street Arena to become soft and during the remainder of the season hockey games scheduled for last night were cancelled. Henry Burtt father of Councillor Ross Burtt celebrated his 81st., birthday at his son's home on Joseph Street. The day before yesterday, Mr. Burtt senior has lived in Trenton all his life.

Miss Evelyn Jack and Miss Esther Moncrief will be business at the Badminton Club party this evening.

Dr. John T. Green and Mrs. Green of Hamilton, are in the city, attending the funeral of the late Mrs. Lorne F. Green.

Mr. and Mrs. Douglas Reid of Montreal, are spending the week-end in the city.

Mr. Stewart N. McGillivray has come from Shannavon, Sask., to attend Ontario Business College.

Mrs. A. Sills, 94 Bridge Street West, is ill with pneumonia at the Belleville General hospital. Her condition today shows a slight improvement.

Mr. Allan Sherry, Lewis Street, has been transferred to Kitchener, by the Gas Supply Company and will leave shortly to assume his new duties.

Personal Pleasures are spicy

A surprise party was held at the home of Mr. and Mrs. Harry Taylor 64 Grier Street, in honour of their 14th anniversary. Cards were played and a delicious lunch was then served.

At the meeting on Tuesday, February first of the Child One Province in charge of Brown Owl, Mrs. Ponton and Tawny Owls, Miss Edna Gilroy and Miss Jean Sprague had class badges were awarded to Betty Calhoun and Irene Soderberg and a house orderly badge was presented to Miss Jean Pryce.

Mrs. W. A. Sware, A.T.C.M., of Trenton, and graduate of the Eastman School of Music, Rochester, N.Y., has been appointed to St. John's Anglican church, Port Whitby. She has been the guest of Mrs. Fred H. Henry, Bridge Street, for the past few days. While renewing old friendships here, visits were made to the music and art departments of the Ontario School for the Deaf, Trent Road, and Collegiate, the Belleville Collegiate and Vocational Institute Band Room, and the Robb Ware Organ factory and laboratory.

One of the season's most successful dances attracting a large number from the city and surrounding district took place last evening when the Belleville Rangers entertained in Johnstone's Academy. The hall was most attractive with its special decorations. The guests were received by Mr. and Mrs. Jack T. W. Lewers, Mr. and Mrs. I. E. Hafkey, Mr. and Mrs. R. V. Hicks and Mr. and Mrs. B. G. Sisley, patrons and patronesses of the dance. Many were present from Campbellford, Trenton, Brighton, Midland, Stirling, Madoc, Napanee, Warkworth, Madoc, Toronto, Cobourg, and Port Hope and thoroughly enjoyed the delightful dance program. Prize dances added to the evening's entertainment. A delicious supper was served at midnight after which dancing resumed. The committee in charge of the successful affair included Mr. Ernest, J. W. Angus, D. W. Campbell, T. L. McLellan, F. Sprague, Gregor Murray, E. Garon, E. O. Lamont and M. W. Whelpton, chairman.

JUNIOR FARMERS OF CAMPBELLFORD - NAME OFFICERS

The Hungerford Junior Farmers held their regular meeting on Thursday evening, February 3rd, at the home of Mrs. Burton Coulter, with a large number in attendance. The meeting was opened in accord with the president, Mr. Burton Coulter in the chair. It was decided that the Junior Farmerettes join with the Junior Farmers in their club. Next was the election of the following officers:

President, Kenneth Jeffrey.
Vice president, Hilda Jones.
Secretary, Donald Bateman.
Treasurer, Norman White.
Directors, Phyllis Dyer, Helena Elliott, William Gash, Everett Jones.
Press Secretary, Marguerite Jeffrey.

The hostess then served a dainty lunch and the members dispersed to their various homes.

Overactivity Ages Youth Quickly

Try That Argument When Urging a Busy Young Girl to Rest

By LISA GRENELLE

THE FAMILY were always fussing at Hilda for being forever "on the go"—Mother, Grandmother and even Father.

"You'll ruin your health, Hilda. Nobody's health can stand it," Mother would say.

"Two dances in one night—who ever heard of such a thing!" Grandmother would add.

But Hilda had something more interesting to do. Hilda always found something to do. Life was altogether too exciting for her to rest. As for that "old-womanly" talk about a good time being taken on the health—Hilda, at 19, didn't take much stock in that. The family mean well, of course. But they don't know Hilda, and don't even old you worried, and were always thinking there as something the matter with you if someone else.

Like any normal 17-year-old, Hilda considered livelihood unbearable. She took good health as a matter of course.

Argument Takes Toll

If Hilda felt tired, she rested—but not sometimes. Rest was nothing more exciting to do. If there were something more exciting to be had, Hilda forgot her fatigue and did it.

When Hilda didn't have a dance she had a dinner. When she didn't have a dinner she had a "date". Life is wonderful like that—at 17. Never a dull moment, no time to rest, no time to think, no time to listen to the old folks' weary warnings.

But Hilda would and did listen to Aunt Lucy. Aunt Lucy was not fussy or cross or given to pet. She was only a little pitying so she said: "Well, Hilda, you're with me nice-looking girl, but not the beauty you were last year."

Hilda flushed. That's not what most people seem to think."

"The others will notice it in time" Aunt Lucy assured her.

"Looks are like money; you can't spend them and have them, too."

"I don't see how you can spend your looks."

Needs Good Advice

"Every time you get tired, the muscles in your face relax. Then, to achieve the bright look, you pull them tight—and there is always the strain tells in time."

Hilda looked thoughtful in the mirror. No, she didn't look her best.

"It gives you a funny expression, trying to look fresh when you haven't, doesn't it?" Aunt Lucy observer Hilda's shoulder. "After a while you'll begin to twitch, like Cousin Alan."

Hilda watched Aunt Lucy's manner of feeding Alan and shuddered.

Next day she called off half her week's dates, and began a surprising amount of time sleeping, or lying dreaming over a book. It felt very good, rather, although, of course, she could never admit it to the family. Alan and Mother would look her prettiest, definitely.

(Continued on Page Seven)

The Stars Say—

For Sunday, Feb. 6
By GENEVIEVE KEMBLE

Sunday's horoscope holds testimony of very uneventful conditions with deep spiritual or religious ceremonial taking up the day. It would be well to deal exclusively with any legal writing or other such matters as contracts, agreements, etc. must be taken under consideration. Be wise also with elders or old matters.

Those whose birthday it is may encounter a bit of worry which may depend upon their own sound judgment and a firmer manner at present.

A child born on this day may be talented in a sort, but will take itself and life very seriously. It may be one of many lessons in the friendship of elders. It would profit if such a child were very carefully observed and turned into creative talents in early life giving it bright and optimistic viewpoint.

For Monday Feb. 7

Monday's Astrological forecast is for a very exciting and engaging day probably in the theatre or "going places and seeing things" that are new, adventurous and romantic. It may draw hard on the purse strings, but be wise in expenditures and indulgences.

Those whose birthday it is may prepare for a year of surprising events. Travel, new scenes and faces are in the picture, and most fresh contacts and adventures will broaden the mental outlook, expand the spirit and not prove in any way detrimental.

A child born on this day may be enterprising, adventurous, ambitious in its desires and in its early yearnings. It may desire to get out in the world, but will need proper training and some moderating of lofty ambitions.

AVOID FEAR, WORRY BEAUTIES ADVISED

(By HELEN FOLLETT)

FEAR is a dragon; the fire of its breath destroys beauty, burns up life forces. Worry is fear, fear that something terrible is going to happen. Jealousy is the fear of losing one's loved one. The selfish woman is afraid that she won't have the best of everything. So it goes.

All these emotions have a devastating effect upon the body, quickening the action of the heart, slowing up the functions of the digestive organs. What they do to the nerves, spring is plenty.

They do to the face is worse.

Find a courageous woman and you will find one who can head a calm, rigid, whose step is light. She always looks smiling ready. There are no wrinkles on her countenance, nor are facial muscles tense. She gets something out of life. Every moment is precious. You won't catch her sighing and getting her eyes red. She can't afford to indulge in emotional excess. She wants to stay young; she wants to be happy.

Optimistics are a wonderful aid to her. They work on a skin that is probably pecan she enjoys physical and mental well being. Think of that, these of you who have fallen into the habit of complaining. Cast off your fears and the world will be right again. And you'll cut down the beauty over-head 50 per cent.

When a red pustule appears, keep fingers away from it. Pinning with a pimple will spread infection. Apply gauze that has been dipped in a hot boric acid solution, one teaspoon of powdered boric acid to a cup of water. A yellow pus will appear. Open it with a sterilized needle, cover the fingers with gauze, press out the pus gently, away from the head.

GOOD MANNERS

by MRS. CORNELIUS BEECKMAN
(Copyright, 1938, King Features Syndicate, Inc.)

Abbreviations

Dear Mrs. Beeckman:

1.—Which is correct, an a framed certificate . . . Harold F. Work, H. F Work, or Harold Frank Work?

2.—Please tell me if it is proper to write Los Angeles, California, or Los Angeles, Cal., or Los Angeles, Cal.

When writing to a personal friend should Xmas be used, or Christmas? I have been writing Xmas in full but see Xmas used a great deal.

Reader

1.—A certificate, especially when it is framed to give added importance, had best have the formal form of name. That is, the name without initials: Harold Frank Work. However it does really depend on the choice of the person who received the certificate, since the form of name we use is such a personal decision.

2—It is better form not to abbreviate on an envelope or in the heading of a letter. And such a grand name as California should be given the dignity of being spelled in full! Also there is the practical point of view the Post-office Department tells us that Cal. and Col., are often confused, especially of course when written, and the letter may wander about homeless for some time and even end in the Dead Letter Office. Even if we are in a hurry, it takes only a second or two to write a name, any name . . . about the time it takes to write the period which will not be necessary if we spell the name in full!

3—The answer to this question, too, lies in the use of abbreviations. And that high name of the first syllable of Christmas should be given the honor of being written in full. To see the word written as X-mas looks as unattractive as to hear the day pronounced X-mas.

Group Photograph

Dear Mrs. Beeckman:

A golden wedding anniversary was being celebrated. When pictures were to be taken, an argument arose. "A" said that as only the immediate family was necessary, that only the mother, father and children were to be in the picture. "B" argued that as the sons-in-law, daughters-in-law and grandchildren were directly connected with the family that they should be included in the picture. Who is correct?

K.

Only the couple who were celebrating the golden wedding anniversary would have the right to answer this question. This important celebration was their concern, and what they wished should have determined the decision as to who was to be included in the group photograph. Usually only the mother, father and their children are included in this kind of photograph, but if the couple decide to make this group more inclusive there is no reason why they should not do this. However, they should decide about their preference before preparations are made for the photographing, so that there will be no indefiniteness by the minds of the in-laws or grandchildren.

KELSOCK W. M. S.

The Missionary Society of Melrose United Church met for their February meeting at the home of Mrs. D. Jeffrey on the first Wednesday of the month. Despite the icy condition of the roads a good number was in attendance. The president, Mrs. Frank Bennett, conducted the opening exercises, the worship service and brought up items of business.

The meeting opened with hymn 455 followed by the Lord's prayer in unison. The president made use of the program suggested in the Missionary Monthly and added a few minutes on the aim of the lesson called on Miss Mary McLaren, Mrs. D. Sleight and Mrs. S. C. English for Scripture readings, Mrs. Craig and Mrs. Simpkins led in prayer. Each member responded to the roll call with a verse of poetry or a favourite verse of Scripture. During the business period, mention was made of the Presbytorial to be held in Napanee the second week in February. Delegates had been previously appointed to attend and were reminded of the date, March 4th, the World Day of Prayer is to be observed by the Society at the home of Mrs. W. Callender. The Peace Secretary, Mrs. Chas. Macfarlane spoke feelingly of Dora Parncomb, author of "The Quiet Room" and "The Passer-By" fame. She has had to give up her work which is greatly regretted. Another is attempting to write for such issue and his first article appeared in the January issue of "The Hope was "Oliver Cromwell, the Protestant Hero." The memorized text was "I can do all things thru Christ who strengthened me." Following the business Mrs. Macfarlane gave a reading by Nellie McClung. The meeting closed with Mrs. Simpkins gave a reading taken from the "Outlook" on the subject of Temperance. The Sec'y. of Christian Stewardship spoke of the giving and stressed the fact that we are made to keep up the givings during the Lenten season. Mrs. Craig led. So many societies seem to "fall down" in the Lenten season at this time. She also made mention of shooting a missionary for whom the society would seek to help through our prayers.

Mrs. W. Calder led in prayer. The group leader, Mrs. Jno. Macfarlane took charge of the remainder of the program.

Mrs. Ernest McLaren gave a reading, a duet was sung by Mrs. Simpkins and Mrs. C. Haight, Mrs. H. Wade led in a two verse memory way with the first part of the Study Book which dealt with the early settlement of the Canadian west, and the work of the Presbyterian minister Rev. John Black.

The offering was received and the closing hymn 462 followed by the Mizpah benediction. The next regular meeting will be held with Mrs. "The World Day of Prayer" meeting.

CENTENARY Y. P. U.

The Centenary Y. P. U. entertained the Ladies' Aid at their last meeting, which was held on Wednesday evening at the home of Mrs. Hall. A large number was present from both societies. The meeting was opened by a hymn sung led by the president, Mr. E. Booker. Mrs. Hall sang and Mrs. Ernest Hamilton led in prayer. The Scripture reading was read by Jessie Sisley. Ronald Jones gave a very interesting story on the life history of a famous hymn. Hymn 455 was sung and business matters were then discussed. The president then led a reading which was followed by Scripture reading by Marguerite Gordon Carrison.

A duet was given by June Annis which was followed by a very interesting and helpful reading by Mrs. Booker. Dorothy Christopher gave a very comical reading called "The Old Maids' Club." Annis and Ray Groves played a very pretty duet. Hymn 455 was sung and the meeting closed with the Mizpah benediction. The rest of the evening was spent in games which was followed by a social. A very pleasant time was spent by Mrs. Ernest Hall for opening her home.

HOLLOWAY STREET UNITED

By Mrs. E. S.

The Women's Missionary Society of Holloway Street United Church held their monthly meeting on Tuesday Feb. 3rd., in the Church Parlours with President Mrs. James Cordes in the chair.

The meeting opened with the devotional service by the President followed by the reading and approving of the minutes of the last meeting. There was a business period during which Mrs. Wm. Hutchinson was elected delegate for the Society to the Thirteenth Annual Presbyterial to be held in Napanee Feb. 9th and 10th. They are also entertaining Mrs. Warren, President of the Mission Band to represent the Presbyterial.

A splendid contribution was given by Mrs. Ethel Denison, sec'y. of Christian Stewardship. The program was in charge of Mrs. (Rev.) Wm. Walters.

A worship period followed including a hymn "O Christ, there is no East or West" an impressive Bible reading by Mrs. Chas. Walters with some heart searching comments and the Devotional leaflet, Mrs. Walters then led in prayer. "Jesus", Prayer by Mrs. Newman, concluded the worship service.

Mrs. Ethel Denison, Temperance Sec'y. gave a splendid paper on "Christian Citizenship." The offering was taken by Mrs. Rose and Mrs. Fairman and a dedicatory hymn sung.

Mrs. R. E. Newman gave a missionary address entitled "Some Outstanding Men on mission fields."

Interesting items from the life story and work of the following were introduced by photographs and maps.

Rev. Seizaburo Kinoeure, B. A., B. D., a Japanese pastor is doing an outstanding work among the students. He has been referred to by Dr. C. J. Bates a Missionary to Japan as "the most influential Christian in the Empire." Mr. Kinoeure is a graduate of Japan as the "Dwight L. Moody of Japan." He received his education at Pricetia University of Toronto and Chicago Theological and three months in the Canadian Rockies. Rev. Paul Wan: He was a college chum and soldier pal of the late R. E. Newman.

An interesting letter from Mrs. Homer Brown of Chengtu, China, gave a splendid insight into the activities of Missionary work in that field and was very interesting indeed.

The work of Rev. Harold B. Rector, B. A., B. D., of Spirit River, Peace River, Alta., was described where he is seventy-eight miles from the nearest railway. The radio is the one connecting link with the outside world as cannot be termed a luxury.

The difficulties of getting their live stock and produce to the markets were among the problems mentioned. Those in the Peace River presented problems that were not met in many other areas where drift ice isolated that part of the country from the southern area during the month of October. To quote from a letter "Many were the difficulties encountered in the mail before Christmas brought only letters and left the parcels behind."

Advice to the Lovelorn

by BEATRICE FAIRFAX

(Copyright, 1937, King Features Syndicate, Inc.)
Famous Authority on Problems of Love and Marriage.

Child Marriages Lead to Discontent or Tragedy

Since we seem to have gone "Mother Indie" one better on the question of child marriages arrangement by parents not entering from infant wedlock in the United States, but merely engaging the kiddies themselves— let's devote a few words to American child brides and grooms.

The latest of these is make the bridegroom 11 and a bride of 14—were discovered in Florida, where they had eloped without the parents' car. And the child bride in Tennessee, aged 8, whom Justice Hooper had a doll for a wedding present, seems at last accounts to be the happiest bride.

"Bril, be thou my good" as Nietzsche said, for these infant marriages, the inevitable have resulted in putting some laws on the statute books, making such matings illegal.

Meanwhile, please let me say that in the many years I've been writing this column, the bulk of letters I've had from unhappy husbands and wives and others have come to me to being married when they "should have been in school."

Girls not yet 20 years of age tell me they are the mothers of three and four children, and they don't know oh to write how anviously unhappy they are when they are girls of their own age going to dances and having good times, while they have to stay home and look after the measles, teething babies and wash the dishes for their husbands' dirty collars, left tigere by other women.

The tragedy of these marriages is that these girls left school before they acquired enough education to earn a penny. They quit school in the fifth or sixth grades, and never have a chance to take Vocational Training, which the Bureau of Education offers gratuitously, because they have no foundation on the Peace to build. "Besides, I'm too tired to study anyhow, after all I've had to do during the day."

Tragedy is what always confined to the wives of the underprivileged. Sometimes they find stodgy those women tied around their necks like millstones. They fell in love with this or that bit of outcome, but she was 18 and had what the French call "beauty de Diable". The husband had forged ahead, been successful in his profession, and the wife's outlook hasn't progressed much farther than differentiating between types of movies and acquiring a liking for movies with plenty of love.

Unless there are children to keep these mismated couples together, the mills of Reno, like those of the gods, start grinding.

Many many many people marry there's a different story to tell. They seldom make failures of their marriages, for the girls and boys in their teens. But thirty seems ancient to these new age youngsters.

Gruelling economy is the acid test of love, and when these pampered boys and girls are reduced to putting old newspapers in the soles of their shoes to keep out the wet, they feel they are walking in their own Gethsemane.

Who is to blame? No one, perhaps, but old Mother Nature, who, for her own purposes, makes them as children, in the eyes of each other, with a beauty and whitery never really their own. They marry while the witchery is turned on full blast, and then shatter their dream, not always a kind mother, leaves them to their own devices.

Psychologists attribute a great deal of the child marriages in this country to unhappy home life. Children grow tired of hearing their parents scrap. Again, the parents are too strict, and decline to let the youngsters have a little legitimate fun at home. So the girls and boys attempt a New Deal in happiness by going off and getting married.

GLORIA STUART
Who knows fear, worry are enemies of charm

When applying a hair tonic, have the scalp warm. You can get it into a glow with a thorough friction.

Slip your fingers under your tresses, give the flesh a kneading mauling.

Part the hair at various places, apply the tonic with a medicine dropper, tricking it along the parting. Then scalp rubbing. Finally brush the glorious crown vigorously, tracing back by strand help gauze, press out the pus gently, away from the head.

Many A Man
Has escaped a nervous breakdown

It is now becoming generally known, by word of mouth from one person to another, that scores of nervous, wearied business men attribute their escape from nervous collapse to the use of Dr. Chase's Nerve Food.

Business cares and worries of recent years have made men old before their time. Almost daily they learned in time of a way to restore nerve force to the body. As a result, weak, halting vital organs have again assumed their natural functions. Energy, vim and sleep have become possible, and mind and body have been restored to normal. If you find yourself slipping ask your friends about Dr. Chase's Nerve Food. In most every community there is some one who has profited by one of this modern restorative.

Canadian West concluded this interesting address. They have accepted work in a Mission Hospital in Hong Kong. Rev. Powell is from the northeast of Edmonton. Dr. Powell graduated from Queens University, Kingston and his home was in Kingston, Ontario. Mrs. Powell was an energetic worker in the Chesterville United Church before her marriage to Dr. Powell and has also served a seven year pastorate before coming to Holloway Street, Belleville.

Prayer was offered for the work of the Missionaries and daily refreshments closed the meeting.

Thomasburg

Thomasburg—The regular meeting of the Ladies' Aid of Knox Presbyterian Church, Fuller, was held at the home of Mrs. Earl Metcalfe on Wednesday afternoon, February 2nd.

Mrs. William McTaggart the president took charge of the meeting which opened with hymn 376 and prayer by the Rev. Mr. McDonald. Scripture reading was taken by Miss Ella Rollins. The roll call was answered by a verse containing "prayer". The hymn for the next meeting is to be "Spirit". Miss Ethel Wilson was appointed to prepare the program for the March meeting. The meeting closed with hymn 404 and the Lord's prayer repeated in unison. Later lunch was served by the hostess and her assistants.

Synthetic Drugs Aid Physician

By LOGAN CLENDENING, M. D.

I SAID IN a previous article this week that in ancient times doctors had to depend on the drugs they found in nature. As a matter of fact, the word "physic" in its Greek form means "nature", and those who believe that the treatment of disease by drugs is unnatural are also say "throw physic to the dogs", are really saying "Throw nature to the dogs."

Nowadays, however, with our remarkable knowledge of chemistry, we are able to make drugs in the chemical laboratory that are in many respects far superior to those found in nature. Among the most remarkable achievements in this line has been the production of local anesthetics.

In 1884, Dr. Carl Koller found cocaine, which is obtained in nature from the vegetable kingdom, had remarkable properties in deadening the endings of sensory nerves and was, therefore, a local anesthetic. It had, however, two disadvantages—it was quite toxic and could poison people, sometimes in small doses, and it was habit forming. Synthetic chemists started to discover what particular radicals in the chemical structure of cocaine produced these undesirable by-products, and were able to replace them with other radicals, so that nowadays we have as the favorite local anesthetic novocaine, which is not habit forming and has practically no toxicity.

Another Synthetic

Another local anesthetic produced by the synthetic chemists is nupercaine, which is also non-toxic and non-habit forming.

There is practically no limit to what modern synthetic chemistry can do. They rearrange formulas at will.

Another artificial series of drugs which have been made entirely by chemists are the barbituric acids, or notics, or sleep producers, such as veronal, nembutal, seconal. These are all barbituric acid derivatives, and the chemists have changed from one radical from the barbituric acid group and puts in another, so that he can produce a compound to fit any requirement.

QUESTIONS FROM READERS

P. B. L.: "What is the cause of itching?" Answer: Dry skin, dirty skin and the itch called 'double itch', brought back from the South Pacific Islands by soldiers during the war, the same?"

Answer: The skin of the eyelids may itch, just as the skin in any other part of the body, which may possibly be due to hives from absorption of some food or dust. Dobie itch are the same, but Dobie itch is due to the bites from which the soldiers came back from the Philippines.

Poems That Live

OUTWARD

Whither away, O Sailor; say?
Under the night, under the day,
Yearning sail and flying spray
Under the moon, under the sun,
Where are the great Winds bearing you?

Never put chalk lift for me
Into the sky, out of the sea,
Into the blue or into the black.
Something mighty and weird and dim
Calls me under the ocean tide!

Sailor under sun and moon,
'Tis the ocean's fatal rune.
Under you fair rim of blue
Twice ten thousand others lie.
Love is sweet and home is fair,
But your mother calls you there.

Onward, outward I must go
Where the mighty currents flow,
Home is anywhere for me
On this purple-rolling sea
Star and Wind and Sun my brothers,
Ocean one of many mothers.
Onward under sun and star
Where the weird adventures are!
Never port shall lift for me—
I am Wind and Sea and Spray!
—John G. Neihardt.

SALLY'S SALLIES

Nowadays a girl is a bathing suit beauty, everything to gain and nothing to lose.

THE ONTARIO INTELLIGENCER

THE DAILY ONTARIO INTELLIGENCER is published every afternoon (Sunday and holidays excepted) at The Ontario Intelligencer Building.

CANADA'S DEFENCE PLANS

Perhaps not until these latter days have many Canadians fully realized how much this country means to them as they now look on war in other parts of a world full of fear and distrust. Great natural blessings involve great responsibilities, not only for their development but for their preservation for the generations to come.

Announcement of some of Canada's defence plans indicates this very clearly. The Dominion Government's announcement of the purchase of two British destroyers for patrol of the Pacific coast, the construction of coastal defences, the strengthening of the air service with the purchase of 55 new aircraft for the permanent air force as well as 20 for the non-permanent, and other undertakings interests every Canadian or Britisher.

STREETS SAFER THAN HOME

Do you know that more people died in the United States from home accidents than in traffic massacres in 1936—38,500 against 37,800; that an estimated 5,620,000 persons suffered non-fatal accidents in the home?

Statistically speaking, you were safer out there in the road rush of motor traffic, according to Richard E. Vernor, manager of the fire prevention department of the Western Actuarial Bureau, who reports on the dangers of the home in the current Rotarian Magazine. But what causes these many accidents?

"Federal relief workers under the public's vicious eye, National Safety Council," says Mr. Vernor, "recently completed the most intensive study so far made of home accidents. Using records of the Cook County Hospital in Chicago, 4,602 home accidents were thoroughly investigated.

"The kitchen is the most dangerous room in the house, this research showed. Eighteen percent of the accidents studied occurred there, many of them to children. Poor connections, overloading, overheating or the use of kerosene in coal ranges gas escaping when a boiling pot has extinguished a flame, stove petcocks without safety catches turned on by children, accidents while frying foods in deep fat — these are the common kitchen hazards.

"More accidents," the report continues, "occur on steps than anywhere else in the home. Steep stairways, especially if the treads are highly polished, or if the runners are frayed, are extremely dangerous. It is dangerous under any circumstances to walk on stairs with both arms loaded.

"Of the cases studied, it was found that one in four fell in the home fell down stairs inside or outside the house. Falls including those from rickety stepladders or week chairs used in place of ladders, and from slipping on floors and bathtubs, caused by far more than one in four deaths and serious injuries. Scatter-rugs on polished floors cause many accidents. Such rugs should have non-slip anchors under them.

"Household disorder," he continues, "is just as dangerous as it is psychologically disturbing. About one in six of the accidents leading to injury or death in the home is directly attributable to it, according to the Hospital study. Brooms on stairways, mops left in the bathroom floor, and sharp edges of scattered toys do not begin to list the possibilities for injury due to neglect.

"Even the bedroom is the scene of many home accidents. A surprising number of children fall from bed. Pillows, put into cribs for decorative purposes have been known to suffocate babies. One should never go to sleep with an electric heating pad turned on.

"The combined shower and tub bath, though convenient in a small house, is the cause of many accidents. Keep the soap in a container! Medicants should never be sought out or administered in the dark. Poisons, if they must be kept in anything but a separate, locked cupboard, should be distinctly marked. The medicine chest should, of course, always be kept out of reach of children. The bathroom is also a dangerous place in which to operate electric appliances. One's body may easily touch a faucet and a faulty electric cord at the same time.

"Protection from fire hazards, orderliness, timely repairing, using tools and instruments for their intended purposes, a willingness to dispose of worn-out appliances, and a little commonsense — every household needs these things," concludes Mr. Vernor. "With them, the home remains the sanctuary we always believed it to be."

THE COMMA

"Rite," the novelist who has just died, told a good Oscar Wilde story in her autobiography, even although she thought it had been told before, it is still worth repeating. Wilde, it appeared, was staying at a country house, and one evening he said to his hostess that he had been busy with literary work all the day. When he was asked what he had done, he explained:—"I was working on the proof of one of my poems all the morning, and I took out a comma." "And in the afternoon?" his hostess inquired. "Oh, in the afternoon," Wilde replied, "I put it back again."

FUGUE OF FAITH

When telling life's brief rosary of hours,
I find a pearl of silence gives me pause
In which to meditate on lethal laws:
To watch frayed petals flutter from the flowers,
Or darkling cloud distil in crystal showers;
A murk of fog dissolve in sunlit gauze;
The spell of music broken by applause.
I marvel why mankind laments and cowers
At death. Oh may we learn from darkness and fog
The stoic beauty of surrendering
Whether to soul-warm sun or clay-cold sod!
As music lures its echo epilogue,
These sparks of His Own Being will take wing
Toward that Lodestar Resplendence which is God.

—Gordon LeClaire.—in Montreal Star.

EIGHT LIVING ANCESTERS IS SOMETHING TO BRAG ABOUT, and here's the story as it concerns a boy named Jeffrey Smith Crocker, who entered this world recently in a Dallas, Texas, hospital:—Young Jeff is the son of Mr. and Mrs. William H. Crocker, formerly of Dallas, now of Terrell, Texas. On his mother's side he has a grandmother, Mrs. Dora Smith, and a great-grandmother, Mrs. N. J. Byrne, living in Dallas, and a great-grandmother, Mrs. D. Higgins, living in Medill Okla. On his father's side he has as grandparents, Mr. and Mrs. R. H. Crocker of Dallas, and a great-grandmother, Mrs. W. H. Crocker of New Bedford, Mass.

MOST PEOPLE TAKE THE DAILY NEWSPAPER AS A MATTER OF COURSE, they expect it at a certain time daily—if it comes, all right, if not then its value becomes vocal for the entire family is disturbed because of its non-appearance.

The value of a daily newspaper to the entire community was well illustrated to the business men and citizens generally of Everett, Washington, when a printers' strike deprived the community of the daily newspaper. The adverse effect on general business was very noticeable when the citizens were deprived of the advertising incentive to shop. The Rosebud, B. C. Miner, an editorial notice of the plight of the folks in Everett saying:

One of the interesting phases of the printers' strike in Everett, Washington, which closed down all of the daily newspapers in that city, was the immediate effect upon retail business. The strike-bound papers closed on Wednesday night following their regular afternoon editions in which were crowded the week-end advertising of the local merchants.

Retail business was good Thursday and Friday, but Saturday it began to slump. By the first of the week, according to the local stores were quiet as tombs with the 'depression' increasing as the week passed.

The normally brisk week-end shopping was absent during the second week of the strike and the situation became so alarming that business and civic organizations wired President Howard of the International Typographical Union urging that the local union be forced to arbitrate its difficulties with the publishers so that the newspapers could once more carry the merchants' messages to the public.

Dodgers and handbills used by some of the larger stores failed to produce satisfactory results. The newspapers in Seattle, less than 30 miles away, refrained from increasing the 'draw' for the country in which Everett is located.

GROUNDHOG OCCUPIED FEATURE POSITION THIS WEEK, because of his supposed influence on the weather. How come, this groundhog business? When we were lads in Canada it was the bear who roused from his long hibernating sleep on Candlemas Day, took a few steps out in the open and blinked his eyes at the spot where the sun would show if it was not blanketed by too many clouds. If the bear saw his shadow he retired to his hibernating lair for another six weeks or vice versa. Now the bear has been eliminated and the groundhog given the post of honour, a distinction probably unique in the New England States where bears are scarce and groundhogs are plentiful. That some Canadians should have adopted the groundhog in place of the bear seems rather odd for the former seems such a trifling critter in comparison to the strength and majesty of Brer Bear that something should be done about it —preferably at this session of the Dominion Parliament.

THE ONTARIO INTELLIGENCER

OFF THE RECORD — By Ed Rood

"I promised her that for winning the fifth race for me at Santa Anita!"

LOOKING BACKWARD

GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

20 YEARS AGO

Feb. 5th, 1918.

At two o'clock this afternoon when a reporter visited the office of Mr. Thomas S. Wills, local fuel controller, there were 36 persons, men and women, waiting to receive from him orders to obtain coal. The controller informed the reporter that there were several houses in the city where there were not a pound of coal on hand, the situation would have been extremely critical had not Mr. T. R. Clarke here given the orders for two cars of soft coal belonging to the railway to be used by the city. This is being given out in quarter-ton lots. It is reported that several cars of hard coal were enroute to the city, but it is with difficulty that the railways are able to handle freight owing to the extremely cold weather.

Great interest is being taken locally in the order-in-council passed by the Dominion Government to close all indoor and outdoor shops in Ontario and Quebec on Feb. 8th, 10th, and 11th, in order to save fuel. It is ordered also that theatres, pool rooms and all places of amusement shall be closed every Monday from Feb. 18th, to March 25th. This order includes munition plants, but exempts newspapers and public utilities. The Intelligencer receives a press despatch early this morning giving the above information and promptly bulletined the news which aroused curiosity about the city and has been the leading topic of conversation all day.

30 YEARS AGO

Feb. 5th, 1908.

Mr. and Mrs. James MacLean Watt (nee Dundas), are receiving congratulations this evening on the arrival of a large audience witnessed the play "Ellida, the Girl from the West", which was put on at the opera house last evening by Mr. Marks Brothers' Company. The specialties were excellent.

Two curling rinks from Brockville defeated two local rinks here yesterday by a score of 35 to 26. The following composed the Brockville rinks: Dr. Kelly, W. Kelcheson, R. Robertson, W. Connolly, J. A. McFee; skip, D. Ross. 2—J. B. Iler, J. A. Kerr, S. W. Vermilyea, F. Dolan; skip, 15.

Once more Belleville is virtually shut out from the surrounding country, owing to the drifts being impassable and the interruption to the railway service is very serious. Great quantities of snow fell and the wind blew hard, making huge drifts.

40 YEARS AGO

Feb. 5th, 1898.

The Quarterly Love Feast will be held at Bridge Street Methodist Church tomorrow morning at 9.30 o'clock.

At the Y. M. C. A. meeting tomorrow afternoon, Mr. W. H. Chown will tell about the Y. M. C. A. Convention at Brantford which he attended recently.

Mr. John Stokes was in town today.

Mr. F. Quick of the firm of Quick and Hoofstetter, Lindsay, Ont., was in the city yesterday and secured a lease of the store in the Caldwell Block on Front Street. The two will open a dry goods store here in a few weeks.

Mr. R. Maitland Boy of Hagerman's Corners, Belleville, will spend Sunday here with friends.

Mr. Leslie Bowerman of Toronto, formerly of Belleville, has been appointed to the position in the House of Commons at Ottawa.

The Rev. A. L. Geen, Grand Chaplain of the I. O. O. F., has been invited to attend a reception in Mr. J. A. Young, Grand Master, at Ingersoll next Thursday.

50 YEARS AGO

Feb. 5th, 1888.

Two years ago the citizens of Belleville had no more idea that today they would have a system of water works second to none in the Province than that they were going on a trip to Jerusalem. However, to-day the water works system is in full operation in this city and is proving very satisfactory. The contract for constructing the system was signed on Dec. 1st, 1886. The extent of pipes was to be at least 15 miles from the pump house with at least 164 hydrants for which the Corporation was to pay $7,-000.00 per annum for a term of ten years. Work was to be completed within two months from the signing of the contract. Early in December or Mayor McIntosh turned the first sod at the point where the stand pipe now stands. The first lot of pipes arrived in March from Hamilton. In the month 1886 tons of pipe were used at a cost of $60,000.00, and a half miles of pipe were laid. 160 hydrants of Ten pattern. Active work was commenced in June with 100 men on the pay. As the supply of pipes accumulated the force of workers was increased until the pay roll numbered 280 men. Eight and one half miles of 36,726 cubic yards of rock were blasted in making trenches; four and one half tons of explosives were used. The contract was for 20 inches in diameter reaches 1,600 feet into the lake resting upon a gravel bottom where the water is 30 feet deep. In the works 30,568 feet of pipe were used. The last pipe was laid about the 10th. of January this year. The total cost was $200,000.00 were expended for labor. The total cost of the works in round figures was $225,000.00.

JUDGE'S ADVICE

A Florida judge, when a witness in his court said he had a new wife but no job and the examining lawyer called the circumstances "unusual," brought Biblical authority to the defence of the witness.

The judge quoted from Deuteronomy:

"When a man has taken a new wife, he shall not go out to war, neither shall he be charged with any business; but he shall be free at home one year, and shall cheer his wife which he hath taken."

It is, however, a bit difficult to apply this rule literally in the present complex civilization. The rare exceptions, the singular forethought or the happy accident of inheritance, may be able to plan a honeymoon of a year, but that which he may stay at home to cheer up his wife, most young couples nowadays come home from Niagara Falls or New York about four dollars ahead of an overdraft, with the next pay day marked in red on the calendar.

And if any of our local bridegrooms should propose to mention Deuteronomy to the relief officials we think we should warn them that bullets are dangerous. We should be surprised, in fact, if those officials should purchase. "If any would not work," for example, "neither should he eat." —Ottawa Journal.

PUNGENT PARAGRAPHS

Last week a business man married a woman who speaks eleven languages. Still, his case isn't quite so helpless as it sounds; she can only say no in them.

A policeman found a full set of false teeth in the snow during a recent cold spell. We understand they chattered at him all the way to the police-station.

Fresh milk is good for the complexion, says a beauty expert. Just job the finger in the cardboard cover of the milk bottle and try a refreshing shower.

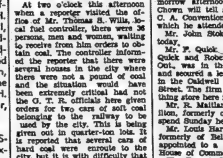
We read of a man who didn't learn to write until he was forty, and has just had a book published. Many similarly-handicapped authors don't wait half so long as that.

One of the most embarrassing moments of his life, a correspondent tells us, was when he stepped on a lady's long trailing frock at a ball. He promptly rushed out of the room, and couldn't summon enough courage to return.—London Humorist.

That Body of Yours

By James W. Barton, M.D.

You May Live a Long Time With High Blood Pressure.



There was a time when an appendicitis—sometimes called the appendix—was a favourite, if not the favourite, topic of conversation among middle-aged men and women. Today, if it is not the bunions, the tingling, nervous throbbing, leaving valves—it is about the blood pressure.

What is blood pressure?

Blood pressure is the pressure made against the walls of the blood vessels as it circulates throughout the body. The physician measures this pressure by the use of a column of mercury —just as we read the pressure of the barometer by the barometer.

Now the average individual has learned that if this pressure of the blood is too great against the blood vessel wall it may break through the wall and cause bleeding —hemorrhage—depending on the amount of damage in the brain, heart, or elsewhere according to where it occurs. The average individual also thinks that it is because the walls of the blood vessels have lost their elastic tissue—hardening of the arteries—that the pressure becomes so high that it causes trouble. However if the individual is excited or angry at the time he is having his blood pressure taken by the physician, the pressure is always high, if the individual goes about his regular affairs or duties at his home, hospital, office or work, high meals even if more than usual, or after exercise—golf or polo—he may never have the slightest symptom of high blood pressure and live to a ripe old age if his blood pressure had been normal.

Dr. David Riesman, Philadelphia, in Annals of Internal Medicine, states that persons with high blood pressure can live to be 80 to even 100 years with high systolic (blood pressure forced against wall) blood pressure.

Most Precious Metal

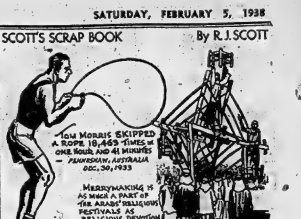
Radium is the most precious substance marketed in the world today. The price of one gramme is about $30,000 while the same amount of gold is worth only $600 or a dollar. Each gramme of radium has energy equivalent to that of 3,000 tons of coal. Besides the curative powers of its rays are very great. The essence attaching to a treatment is by the milligramme which is one-thousandth part of a gramme. A milligramme is a weight sufficiently minute to be used in weighing radium salts. Only a few grammes of radium can be sealed in a tube smaller than a match.

When the radium - bearing ores were first discovered, Fresh said, there was no one in the country who knew the method of treating them. Belgium had a practical monopoly on world radium markets with the result that for a time the Belgian assistance was not to be expected. A Canadian capitalist who began his radium career in the Curie laboratory came to Canada's aid and although the ore failed to produce the first gramme, the output gradually increased.

o o o

The silver-radium ores are selected and shipped principally from mines in the North and the resulting platinum-radium concentrate is shipped to Port Hope in small bags that have been specially made and treated that no radium may be wasted. The pitchblende itself looks like shiny lumps of anthracite coal but lacking coal's hard lustre.

The next one hundred steps or so in producing radium are very intricate. Fresh explained that the processes are complicated a series of chemical reactions as ever imagined. The finished product is finally something like common salt and is sealed in glass tubes. The tubes are much bigger than the lead in a lead pencil. They are stored in a box made of solid lead and in 24 to 48 hours the action of the radium discolors the glass tubes making them a beautiful sky blue brightly in darkness but which could be changed at will to a visibly luminous quality in a short time through the rays continue for nearly 1700 years.



o o o

From Port Hope the radium goes to the National Research Council in Ottawa where its official strength is labelled is attached and then usually goes to Great Britain where it is placed in the vaults and sealed in needles, plaques or bombs.

o o o

A report issued by the mining branch of the Dominion Bureau of Statistics says that 34 tons of pitchblende concentrate was flown 1,500 miles by the Mackenzie railway during 1935 in the winter flying season. Although figures are not published the amount of radium obtained it is estimated that nearly two milligrammes per month are being produced in Canada. —Peterborough Examiner.

SCOTT'S SCRAP BOOK — By R. J. SCOTT

A Modern Utopia

A Canadian recently returned from a visit to the Scandinavian countries has given me an interesting picture of the life of the people of Estonia. It sounds like a modern Utopia, a land full of flowers where the people are happy. That last fact alone makes one want to hear more about it. Why do they look happy when the time they have to work three-quarters of the rest of the world are troubled and fearful? I asked a great many questions but in the end had to draw my own conclusions.

The first thing that strikes the traveller is the profusion of familiar flowers and trees. In this little country—smaller that is larger than Denmark, Belgium, Holland or Sweden, spring comes bursting with a wealth of every familiar flower, growing wild for the most part. Every cottage garden and every variety of lilac. The beautiful spring people keep their farms and gardens in spotless order: the streets are immaculate and the roads are swept daily by women in their picturesque national costume.

Since 50 per cent. of the people are farmers and only about 25 per cent live in town there is not the division of labor between men and women. The men carry on the business of dairy and farming and their boats for cargo work. The fishing grounds are all inland and 3,212 lakes—all with their people. There is no time to attend the picturesque markets, when the boats with their colored sails are tied up at the wharves but the peasants come in from the country in their gay little carts drawn by shiny ponies, harnessed Russian fashion, who shatter over the cobblestones of the old Market Square. While all the fishing and cargo-carrying is in progress the women are busy doing a good deal of outdoor work, collecting even moss making in which the great number of excellent roads is a measure of their success attracting as it does large numbers of motorists from Finland in the summer and from the south.

On the farms they do most of the work with crude homemade implements that seem to defy the Spirit of Progress as it has clothed it in the sacred result. You can see women, looking as if they had stepped out of Biblical pictures, wielding queer scythes as they cut the hay. One of the unforgettable sights in the country takes place each morning when the cows are driven to the fields or cattle to come in from the fields. Then you will meet big groups of girls in their bright dresses of colored embroidered homespun and gay handkerchiefs on their heads follow the cows who part themselves and their charges in at its own gate with a homing instinct worthy of a carrier pigeon.

When one is tired of the country life, plodding on at its own pace one can walk for miles under the shade trees to the quaint old trading towns with a wealth of medieval buildings going back to the 14th century. Tallin, the capital, is a magnificent harbor, a great loss to Russia when Estonia broke away from 1710 till its independence was declared on February 24th, 1918. It is a dream of a place with its previous conviction. Seven years.

Mary Cain, 15; stealing cloth. Seven years.

Mary Kennedy, 13; stealing a cloak. Seven years.

The only bright spot in the dark chapter is that public agitation finally forced the British government and brought freedom in many of the Empire's colonies, and free settlers in various parts of the Empire and played their part in the development.—Woodstock Sentinel-Review.

BATHTUB HELPED

One of the difficulties against which the explorers of the bore for oil have to fight is the seeping of water through the soil and into the pores of underground sand. Now a Texas company has invented a process which will prevent this.

The inventor received his brainwave when he emerged from his bath and noticed the formation of a ring around the bath by the evaporation of the soap to the salts in the water. Now they pump ordinary soap solution into oil wells, and calcium salts to form a tough coat which binds the loose and underground sands and makes the well water-tight. The process does not interfere with the oil flow.

Exiled For Theft

Occasional publicity about the "Tolpuddle Martyrs," English farm laborers exiled from their country a century ago because they organized to obtain better conditions, always brings a new crop of letters to British Justice in a modern age when such things are best left to be severely disproportionate to the offence committed. The men in question were not, however, extraordinary for the time. Boys and girls, even the day would be dealt with in juvenile court and placed on probation were by the standards of the time ago deemed worthy of expatriation for long terms. Here are a few actual names from a list of those transported from Kingston for depositions abroad, with a description of their offences and the sentence imposed upon them:

Thomas Willett, 18; stealing stockings. Seven years.

Mary Grainger, maid of all work, 18; stealing a handkerchief. Seven years.

Mary Connolly, 13; stealing cloth. Seven years.

Mary Ann Cain, 15; stealing cloth. Seven years.

Mary Kennedy, 13; stealing a cloak. Seven years.

The only bright spot in the dark chapter is that public agitation finally forced the British government and brought freedom in many of the Empire's colonies, and free settlers in various parts of the Empire and played their part in the development.—Woodstock Sentinel-Review.

Gilded Orchid

By JANET DORAN

Maydra stood near in petrified amazement, after the door closed on Kay's slim, departing form. Kay knew! Wake had told her he planned to take her home tonight, after work! He was doing it with Kay's full knowledge and approval!

Miraculously, a guilty load slipped from Maydra's mind. This was WHY...took the pain, prudish 90's! This was New York, Fifth Avenue —not Pedrick, Oklahoma!

"And I like him," she added in her thoughts, daundy. "I like him, and he likes me!" Not stopping to analyse that record of four marriages in less than a number of years it takes the average young man to run through one marriage. Unless he happens to have so many millions of dollars he simply can't spend the income alone on it, much less any of the principal.

"What's wrong, Maydra?" Suzanne asked briskly, coming back into the salon, finding Maydra still standing there, holding the lilac negligee that must be bought wrapped in clouds of soft layers of tissue and orchid tissue and despatched at once to Mrs. Gerald Lewis-Wakefield Ballinger's!

"Did Kay and Wake join with her whims? You look as if you'd seen a ghost!"

Maydra flashed her an odd, strain ed little smile, and moved toward the door.

"You'll learn not to mind Kay Sheldon's temperament, after a while. All these really great artists are like that. Whirlwind one moment, and gentle summer the next. But consistent. If you search through the thing carefully you'll see a definite pattern she's following that makes sense, and is good for—Kay Sheldon!"

Maydra paused at that, illumination revealing something she had missed in her analysis. Good—for—Kay—Sheldon! It echoed through her mind like a bell, tolling a slow, measured warning.

"And don't let her sudden passion for lilac fool you, child. She has never cared for it before. Always claimed it was an old-age color. But Wake was to figure what she really lilac and orchid, and she's a smart woman. She knows the women couldn't have been wrong in all of these three previous marriages! Law of average doesn't work that way. So—she's playing safe!"

Maydra figured that out, at the afternoon progressed. She decided Kay must be operating on the oriental theory that to be rated with Wake was o figure what she really felt and thought, how she really reacted—and then do the exact opposite, say the exact opposite, feel the opposite. And, as simple as it sounded, it was the fuse to a keg of dynamite. The explosive being, simply, that no matter what or how and where or when a woman figured the Wake Ballingers of this world were bound to pick orchids. All in a perfectly nice, intelligent, modern broad-minded, 1937 way, of course.

Then it was closing hour, and Maydra was slipping into her suit, gathering her things together. In the mirror, as she applied a smooth film of subtle lip rouge, she saw Suzanne approaching, holding a slim, soft little wool frock of palest lavender, with lapels of soft woolly embroidery in clear, snowy white.

"Maydra...would you like this?" she asked directly. "I am so happy over the way you've taken on love. The way you've won difficult people like Kay Sheldon, and Mrs. Marshal. And Mrs. J. A. And I can't rake you right now, because of the jealousy of the other...help...you know how it is! But I will want you, to know I appreciate it. This is a size 14, your size, too!"

Maydra lifted puzzled eyes to her aunt's face. It was as bland, as guileless as one of the wax models they pinned try-ons to. But a fragment of Suzanne's rare candor in confidence concerning the sister who had never forgiven her marriage to a poor man returned to Maydra's memory. "Suzanne worships money, Maydra. She'd do anything to get a thing, give anything, to get it. If there was enough of it!"

Enough of it. And Wake Ballinger had so much millions he didn't know, himself, how much he owned!

"Thank you, Suzanne. But I'm afraid you're doing too much for me, aren't you?"

"No!" Suzanne's tone was sharp. "What else would I want to do with my money but help you lucky! Here...here's the perfume—like it?"

"It's gorgeous...mysterious lascivious! What is it, really, Suzanne? Patchouli, I mean?"

"It comes from the Far East," Suzanne explained, "and is very rare. A Russian princess had us get it for her—we, Elia importers—and especially for her, and since we've always carried it. Though of course very few women can afford it!"

Was it sendin like pure Babul, exquisite spice, mixed with rose...honey, and...and...magic!" Maydra breathed dreamily.

"I hope it is for you, my dear," Suzanne said, smiling and turning on, quickly, to her private office.

Maydra picked up the lavender frock and held it to her cheek, to see her face in a rapture of breathless anticipation of the occasions she would wear it on. Then she restrained herself, and flew to get her purse, gloves and hat. A dab of Patchouli behind either ear, a drop on the wrist, and Maydra was gone on her throat, and she sped down the long corridor to the elevator with a lilting.

Up the street, two blocks, she saw the big sleek roadster parked, and Wake sitting at the wheel, waiting. Watching for her. Her slim form containing the new lavender wool frock in tense, cold fingers, she hurried on, to meet him, glad that Kay knew, glad that Kay had practically offered her approval.

"Hello!" Wake greeted her gaily, opening the door deftly. "New dress?"

"I'll show you...when we're out of traffic further," Maydra promised. "I think you'll like it."

"You know!" he said interestedly. "That's a new one! Come to think of it, I've never known a girl to do that before. Show me a dress, before she pull it on, and get all fixed up to knock my eye out!"

"You won't need to see it on me, to like this dress," Maydra promised.

"Then let's not go straight to your place? Let's skim up the Drive a way...out beyond city limits? It's early...."

"What time do you dine, Wake?" Maydra temporized.

"Seven-thirty...early because of Kay's show, you see. Why?"

"Kay asked me to be sure and send you home in time for it," Maydra explained. He grinned, and remembered quickly.

"Not gunning up on me, are you, Maydra? You and Kay?"

"Kay asks no quarters," Maydra said soberly, "and, I imagine—gives none!"

"Right! Now, did we come out here to talk about my wife? Or about you? What are you doing for excitement—been anywhere, done anything?

"Usual things. Nothing particularly exciting, except for a party a very rich man gave for me."

"How rich?" Wake demanded.

"Not as rich as I am?" Laughing faintly, because it really was funny to think of anyone being as rich as he.

"No, not as rich as you, Wake. But he has a few millions... I don't know just how many, of course. He's very nice, really charming!"

"Don't fall in love with him. Beautiful, will you? I'd hate having you in love with someone! It would spoil something beautiful for me."

"You're in love with Kay!" Maydra reminded him briefly.

"I know...but this is different. Beautiful. You...look, why don't you save me a night some day this week, and we'll talk this thing out. Please! If it's money that's bothering you....I've no more in mind than I'd ever use, I'd never forgive myself if you made any bargains with life because of that!"

"It isn't money, alone, Wake. And I like Kay too much to make any dates with you. Let's just leave it like this! We'll respect each other this way."

"We might...care more than that, the other, Maydra?" he hinted.

"Did you want to see the new dress?" She changed the subject deliberately, "Its so lovely I want you to see it first!"

He drew up at the edge of the road, a yawning vacant lot covered with builders' supplies, their only landscape, and she opened the box.

"Violet...like your eyes!" he said eagerly. "It's—glorious, Maydra! Wherever did you get it, Beautiful?"

"Suzanne gave it to me," Maydra explained.

"You know what, Maydra," he said suddenly, covering her slim fingers with his big hand, "you know what that dress needs? Rather absolutely demands?"

"Two Russian wolfhounds?" she hazarded. "And a Packard?"

"No!" he stated firmly, excitedly "It absolutely demands a mink coat. And not a penny under five thousand, either! You know...rich, dark, soft, supple as silk...you're simply not to have it, Maydra! You're going to let me give it to you. As a sort of birthday gift, you know!"

(To Be Continued)

Plainfield

Plainfield—The annual meeting for Zion Hill congregation was held on Monday evening with a good attendance, Mr. H. K. Denyes reported for the Sunday School. The financial report given by Mr. Lorne Brough showed all debts paid and a small balance on hand.-On account of illness Mrs. H. K. Denyes was unable to teach any more as pre-

"IT'S THE BEST-LOOKING CAR ON OUR STREET"

Illustrated—Chevrolet 2-Passenger De Luxe Sedan with Trunk.

MODERN MODE STYLING

PERFECTED HYDRAULIC BRAKES

GENUINE KNEE-ACTION

VALVE-IN-HEAD ENGINE

ROOMIER ALL-STEEL BODIES

FISHER NO-DRAFT VENTILATION

NEW TIPTOE-MATIC CLUTCH

"THE best-looking car on the street!" That's what all the neighbors say about our new Chevrolet! And that's what we think, too! In fact, after looking at all the low-priced cars, and after talking to our friends who drive Chevrolets, it was beauty that really 'sold' us.

"It's so smart inside and out it's made me positively style-conscious. I've made it a point to learn all about how the engineers have been able to mould the all-steel body into the present thrilling streamline. How, by rounding the radiator grille and adding those horizontal hood louvres, they've modernized the whole effect.

"Now take the interior. It's so neat and 'tailored' it makes me think of our own living room ... fine upholstery ... lovely appointments ... everything in taste!

"Another thing that's important. I like to think that Chevrolet reinforces all this beauty with roof, walls and floor of steel ... with *all* windows of safety glass.

"I don't know much about mechanical details but, I drive our Chevrolet and from a woman's point of view, nothing could be easier to handle or safer. Finally, (I look after the family budget), I'm sure nothing could be easier on the pocketbook!"

You, too, will be proud to own this new Chevrolet—and your satisfaction will grow with every mile. Come to our showrooms today —see it, drive it, and compare prices before you buy.

PRICED FROM $820 (2 Pass. Master Business Coupe)

Master De Luxe Models From $892 Delivered at factory, Oshawa, Ont., Government tax, freight and license extra.

Easy payments on the General Motors Instalment Plan.

(WITH SAFETY GLASS ALL AROUND)

Larger interiors—lighter, brighter colors—and all-steel construction, making each body a fortress of safety.

Giving protection against spills, mists, windshield clouding and steaming with passenger individually controlled ventilation.

A simple, efficient, single diaphragm spring replaces the conventional multiple-coil springs—easier, tiptoe-pressure operation. Minimizes wear; never requires lubrication.

THE CAR THAT IS COMPLETE CHEVROLET

THE SYMBOL OF SAVINGS

J. B. Boyce

348-50 Front St. Belleville Phone 704

Burr's—On Monday Mr. Bride Hough, Mr. and Mrs. Clifford Hough visited Mr. Ernest Carley, who returned from Belleville General Hospital on Sunday to his home, South Lakeside.

Fire destroyed the home of Mr. and Mrs. Robt. Bowers on Thursday morning. When discovered the upper storey was all in flames and nothing could be saved from upstairs. Part of the contents from downstairs were saved. Mr. and Mrs. Bowers stayed with Mr. and Mrs. D. Fox until next day. They are living in Mr. D. S. Doolittle's house.

Messrs. Sam Clarke, Murney and Donald Clarke attended County L. O. O. meeting at Picton on Tuesday.

Mr. Gralick of Massachusetts, U. S. A., accompanied by Mr. Earl Adams, were busy buying cattle through here on Monday for shipment to U. S. A.

Mr. Adolph Kuno and Mr. Jack Foran, New Carlow, were through here on Tuesday selling wood to Wellington.

Mr. and Mrs. H. T. Noxon, Christian Street, Mr. and Mrs. Merritt Adams and Mr. Doolittle spent Tuesday afternoon at Mr. Doolittle's home arranging for Mr. and Mrs. Bowers to move into it soon. Mr. Doolittle has been staying since Christmas with his daughter, Mrs. Merritt Adams.

Foxboro

Foxboro—Mrs. A. Shaw spent a couple of days with her daughter, Mrs. Prindle of Plainfield.

Mrs. H. Clarke and baby daughter and sister Miss Helen Shaw of Peterboro, Mrs. John Herbertson, Mrs. F. Spencer and Mrs. Harold Stewart see dinner hour guests recently at Mr. W. J. P. Reginton.

Mr. Willet McTaggart has moved to West Huntingdon to reside with his sister. He will be greatly missed in the village.

Mrs. John Herbertson and Eleanor are visiting at the home of her father, Mr. Wright of Prince Edward County.

Mr. and Mrs. Clare Pinkle, Jean and Shirley spent Sunday afternoon at Mr. W. Hodgens.

The Eckard brothers put on a splendid programme on Wednesday evening in the United Church when they gave a talking picture of "The Crown of Thorns." A large number attended and appreciated the pictures, depicting the life of Christ.

The Young People's Union held their regular meeting on Monday evening, when the president opened the meeting with a hymn followed by prayer for the work of the Young People by Rev. F. Horton. Responsive Scripture reading and the roll call answered by a verse of scripture containing the word "faith." A hymn for the juniors was sung and the second scripture lesson read by Mr. James Reynolds. Mrs. G. Frost offered a short prayer and an instrumental was given by Mrs. E. Spencer. Miss Milligan directed a comic song "John Brown" and Miss Phyllis Defoe recited "Somebody's Mother". Miss Milligan then gave a splendid topic and some sensible current events.

A hymn was sung and the theme song and benediction closed this part of the meeting, after which games were played and refreshments served.

On Friday evening the following: Mr. and Mrs. Earle Sayers, Mr. and Mrs. Harry Phillips, Mr. Clarence Ketcheson, Mr. and Mrs. Les Ketcheson and Ida, Mr. and Mrs. Carl Clarke and boys, Mr. and Mrs. Sam Marshall and Ross, Mr. and Mrs. Bill Carter and Doreen and Mr. and Mrs. Wellington Phillips journeyed to Mr. Carl Clarke's truck in Shannonville where they were entertained at the home of Mr. and Mrs. Carl Clarke. Progressive euchre was played and a delicious lunch was served by the hostess after which a social hour was enjoyed by all present.

Phillipston

Phillipston—The Phillipston-Zion Women's Institute held a quilting and social evening at the home of Mr. and Mrs. Wellington Phillips on Thursday. All report a good time.

Mr. and Mrs. Earle Sayers were recent Sunday evening guests of the latter's parents, Mr. and Mrs. Fred Davis, Melrose.

Mr. and Mrs. Sam Marshall and Ross were entertained at the home of Mr. and Mrs. Bill Sills, 5th. concession, last Sunday.

Mr. S. Carter and Doreen are spending the week at the home of her parents Mr. and Mrs. Ed. Carr, Tweed.

Mrs. Sam Marshall entertained her Sunday school class on Monday evening.

Mrs. O'Brien and boys of 2nd. of Thurlow are spending a few days with her mother, Mrs. A. Bihler.

Mrs. William Tufts, Mrs. Fred Searle and Mrs. Harold Beatty were appointed each to teach the Ladies' Bible Class for three months. Mr. Fred Searle was appointed to teach the men's Bible class. Mr. Elmer Tufts the boys' class; Mr. Cecil Ketcheson the Young Men's Class; Mrs. Cecil Ketcheson the Young Women's Class and Mrs. Lorne Brough the primary class. Mr. Lorne Brough, secretary, Mrs. Fred Searle, Missionary Superintendent.

Mr. Cecil Ketcheson gave the church report and was re-elected to the position of treasurer. Mr. Harold Beatty and Mr. Cecil Ketcheson were named a committee to engage a caretaker and secure a supply of wood.

The friends of the community extend their deepest sympathy to Mr. Matthew Emerson whose brother passed away in Belleville on Tuesday.

Mr. and Mrs. Raymond Bullen entertained a number of their friends and neighbors on Wednesday evening.

The Women's Institute met on Thursday afternoon at the home of Mr. and Mrs. Norman Hall.

At the annual meeting of Zion congregation Mr. Harold Beatty, Mr. Myron Hawley, Mr. Percy Reynolds, Mr. Deb Emerson were re-appointed stewards. The elders are Mr. R. Denyes and Mr. Willet Ketcheson.

The many friends in this community of Mr. Addison Hall, of Toronto who had one hand badly lacerated in a machine he was operating about a month ago will be glad to learn that he expects to resume his duties in the factory on Monday.

Bonarlaw

Bonarlaw—On Tuesday evening of this week the members of St. Mark's Mens' Association entertained their wives and sweethearts at an Oyster Supper and social evening in the club rooms of the church.

The first part of the evening was spent playing games such as indoor quoits, hit the oats, progressive euchre, etc. Mrs. A. V. Brown headed the ladies at euchre and Carl Heath the gentlemen.

After all had feasted on delicious oyster stew and the usual accompanying dishes, pickles, coffee and cake, etc. After-dinner speeches were in order. A toast to the members of the Mens' Association was proposed by Mrs. A. V. Brown and seconded by Mrs. W. G. Swayne. Mr. W. J. Barlow, President of the club, responded, and called on Canon W. O. Swayne, Hon. President, Robt. Foshay, First Vice-Pres. and A. B. McComb, Second Vice.-Pres.; for further remarks. All expressed their pleasure at having the ladies in attendance.

J. F. Baker proposed the toast to "The Ladies" which was ably responded to by Mrs. W. J. Barlow and Miss Leola Pollock.

Burr's

Burr's—On Monday Mr. Bride Hough, Mr. and Mrs. Clifford Hough visited Mr. Ernest Carley, who returned from Belleville General Hospital on Sunday to his home, South Lakeside.

VICIOUS ROUND WORMS

GROW 16" LONG

One CHILD had 18

Roundworms are destroyers of health. Not so with Miller's Worm Powders. Take one after with a two-year-old child and in the morning see what has passed and in the stool. Miller's Worm Powders will leave no doubt but a specimen of roundworm that measured 12 inches long. The mother wanted to know if the child could possibly have any more of these worms and the druggist returned the money. He suggested that she try giving her child one of our children's medicines, "MOTHER'S FRIEND." The mother purchased a bottle and was so amazed at the results obtained that she returned to the store the very next day and bought a larger size for another member of the family. She wouldn't believe it was the same child, it had improved so much. Mothers, you need not suffer from worms when such wonderful results can be obtained. The symptoms of worms differ with the child. You may be too in believe a child is suffering from worms without showing any of the symptoms mentioned. Give your children "MOTHER'S FRIEND" for they only manufacture worms. It is a real remedy for constipation, fevers, for all stomach troubles and for expelling all intestinal worms and other pests. Only 25c. a bottle today! Sickness so often comes when we are asleep and unaware. Adults will have these pests, too! For them we recommend "MOTHER'S FRIEND" Sold by druggists.

MOTHER'S FRIEND

THE OLD RED SCHOOLHOUSE

A Brief History of One of the Oldest of the Rural Schools of the County of Hastings

WRITTEN BY

James Owen Herity, One of the Many Graduates

Occupying a situation of remarkable natural beauty in the midst of a lovely valley, among the high elevations of the easterly extension of the Oak Hill range, is "The Old Red Schoolhouse," one of the pioneer institutions of elementary learning in the Township of Huntingdon, Hastings County, Ontario.

The early settlers did well in choosing this picturesque and convenient location, for it is difficult to imagine a more appropriate and pleasant environment as a setting for childhood's first timid adventuring into the unexplored fields of education.

The Oak Hills which form a prominent feature of the southern Ontario countryside have their eastern terminus within the area served by the Old Red School. The Oak Hill range takes its rise in Huntingdon township and there extends in a westerly direction to the County of York. Here one branch turns northward and eventually forms the high elevations this side of Collingwood and Owen Sound while another branch curves around the western extremity of Lake Ontario to form "the Mountain" at Hamilton and the Niagara escarpment.

"Pancake Hill"

The Oak Hills were gratuitously bestowed upon southern Ontario by the last arctic glacier which exerted operations here all of thirty thousand years ago. From York county eastward the range contains a solid rock but is composed of a miscellaneous assortment of boulders, coarse gravel, sand, loam and clay. Not far from the Red Schoolhouse the ridge lowers upwards to the impressive height of 500 feet above the level of Lake Ontario.

Conspicuously visible from the Madoc road at West Huntingdon is the westerly slope of the massive formation, was often rendered more prominent in late summer by vast fields of buckwheat. Hence, somewhat derisively, the great eminence became known as "Pancake Hill." Later, when a church was erected at the summit, the name was changed to the more dignified "Mount Zion". But, after the destruction, by fire, of church by a hurricane, there was a reversion to the original and more appropriate appellation of "Pancake Hill". A local poet apostrophized the hill, in buckwheat season, by metrical admiration:

"A snowy hill, a showy hill,
Its silvery buckwheat crowned,
Where scented blooms, exhale perfumes,
To all the land around."

Scenery From Plateau

From the plateau at the upper elevation of Pancake Hill, there spreads out a circumambient landscape, beyond the range of vision in its distant direction. In the summer and early fall the encircling picture is one of bewitching charm. To the south are plainly visible the towers of Belleville and the Bay of Quinte can be seen the laurentian hills beyond Madoc rising in the most beautiful and unforgettable is the grand valley to the west. The editor of the Quinte Sun of those days, visited Pancake Hill as the Indian summer season last referred to, and during the depression lying to the west as a "valley of enchantment." Nothing indeed is that most contrastive in early autumn with all the blending of glorious flaming colors, scarlet hills, restful valleys, cultivated farmlands and peaceful streams. Nature has been lavish in her gifts to this delightful region and man has enhanced the natural beauty with varied agricultural developments harmonizing with the grand ensemble.

Butternut Quest vs. Knowledge

Immediately to the west of the schoolhouse there is a lofty and precipitous hill where the boulders are too numerous to permit of farm operations and therefore the upper portion of the hill has been left in a state of nature. Prominent among the forest growth there are numerous fine specimens of the butternut tree. This near relative of the black walnut has become an annual crop of the most delicious nuts so far created. The butternut grove was a favorite resort of the boys during the most interminable, to them, month of September and on into October. The pursuit of butternuts excited more enthusiasm than the quest for knowledge. The butternut is encased in a protective coat-of-mail which defies nut-crackers and can be opened only by means of heavy hammer before yielding its well fortified kernel. Parenthetically it might be remarked that the fortune awaits the Luther Burbank who will develop a paper-shelled butternut the same as has been done for the English walnut, the almond and the pecan. But hammers are not lying around loose in butternut groves. The boys find a reasonably good substitute in a stone about the size of one's fist. With a heavy boulder for an anvil, the boy expertly holds the nut in his left hand with the big end up, administers half-a-dozen smart knocks with his grandpa hammer, the armored sides of the nut fall apart and reveal the double kernel, often in an unshattered condition. Before the nut is fully mature the thick outer skin is filled with juice which spatters over the fingers, when the nuts are gathered at this stage, and stains them a deep, permanent brown which will not disappear until several months have elapsed. But little things like that do not disturb the harmonious relations between growing boys and butternuts.

School Section No. 4

School Section No. 4 in the Township of Huntingdon, which has the Old Red Schoolhouse as its educational centre, is territorially embraced within the westerly half of the first, second and third concessions. The landed estate exceeds 3,000 acres.

The Township of Huntingdon was not settled by the original United Empire Loyalists as was the case with the frontier townships, Sidney, Thurlow and Tyendinaga. In fact, up to the year 1820, only a few scattered families had appeared. But following that date the full tide of immigration had set in and by 1850 there was little arable land in the municipality that had not been appropriated by venturesome homeseekers.

Settlers of Huntingdon

Many of the settlers were the children of Loyalists who had their homes near to the Bay of Quinte. But by far the greater proportion came directly from the Old Land to seek wider opportunities in the Canadian wilderness. It was a supreme test of courage and manhood to conquer the forests and endure the multiple hardships of those pioneer settlements. But the colonists were of sturdy stock. England, Ireland and Scotland contributed their best and hardiest, and, when all was said and done, where can better racial stock be found?

To those heroes and heroines of the early settlement, to that nobility of hardship, of noble living and high thinking, their descendants owe a large debt of gratitude. Pioneers live on in the farms they cleared and the buildings they erected. They live on in the schools and other institutions they founded and established. They live on in the children and their children's children throughout a large area of southern Ontario, heritage of wholesome example and inspiring influence. Their mortal remains repose in the rural cemeteries but their good deeds, their devotion and their sacrifices will yield increasing harvest for generations yet to come.

Tribute to Hardy Sires

Mrs. Susanna Moodie, herself a pioneer, refers to the first settlers as "those hardy sires who bore
The days first toil
Are o'er;
Strong hearts of this ruling land,
Theirs was a mission valiant, grand;
Bold venturers whom the Father, God,
Sent to reclaim the stubborn sod;
Well they performed their task and won
Altar and hearth for the woodman's son."

Life in the Huntingdon Clearing

Life in the Huntingdon clearing may have been a hard and lonely one but endurance bet it also provided settlements which came to men of ambition because of difficulties met and overcome, because of success achievement, because of goals attained. The transformation from forest primeval to cultivated farm land was a progressive accomplishment. There was plain social evidence each day that the final conquest of the wooded wilderness was nearer. The timber was thrown into heaps and burned but the ashes were carefully gathered and gave a cash revenue from the potash that was extracted from them. Crops were brought into cultivation produced the harvests of grain, potatoes or of fodder for the increasing herds of live stock.

Pioneer Farm Self-Contained

The pioneer farm was a self-contained and independent institution. The food and clothing were practically all produced at home. The flocks of sheep gave up their annual fleece which was spun into yarn on the old-fashioned spinning wheel or to be woven into the durable homespun cloth by means of the hand-looms common to many households. Meat, bread, pastry, butter, maple sugar, dried fruits and numerous other articles of diet, nearly all of domestic production and never purchased at stores or from itinerant vendors. The farm implements, tools and vehicles were of simple design and largely constructed at home or in the local blacksmith-shop. Oxen were used in the early days as draught animals and even for transportation over the forest trails. But about half a century ago the patient and leisurely ox was everywhere giving way to the more agile horse and now a yoke of oxen can scarcely be found on a farm anywhere in the Province of Ontario.

Simple modes of living, inexpensive farm equipment, homely pleasures and the habits of honesty and thrift, gave to Huntingdon township, as to all parts of rural Ontario, the great period of building and progressive development. But that period was emphatically not within the present generation. It was anywhere from forty to eighty years ago. The comfortable and beautifully designed colonial homes and the acres of substantial farm buildings were almost unanimously erected prior to the beginning of the present century.

Saddening Experience Today

A journey through country neighborhoods at the present time is often a saddening experience. Dilapidated and dilapidated farm buildings, falling fences and weed-choked fields, too often repeat a story of deterioration and non-prosperity.

The records for farm property at the County Registry Office also tell a tale that is equally disheartening. The pioneers had few debts and few mortgages. But now conditions are the exact reverse and the rule rather than the exception. The motorcar and an extravagant standard of farm implements have come but the old-time frugalities, economies and self-denials have been exchanged for instalment buying, noted at the bank and chattel mortgage by the Agricultural Development Board.

Religious Services in Schoolhouse

As was often the case in pioneer communities, religious services were held in the Old Red Schoolhouse. Religion among the settlers was not what expressed more in their daily conduct than by outward profession. The people were and are most unanimously Methodist, and the Old Red was a Methodist School. All those who migrated here from Great Britain or Ireland had been Methodists, with the rare Irish Protestant faiths, the Anglican or Presbyterian. They just joined the local denominations preferred to enjoy the comparative comfort of the town and village and left to the more zealous and enterprising Methodists the responsibility and attention to the scattered settlements.

There were two branches of Methodism which held services separately at the Red Schoolhouse, the Wesleyan Methodists, who had origin in England, and the Methodist Episcopalians, who had their origin in the United States. The two branches of Methodism united in 1884.

Sombre Religious Experience

The religious gatherings were rather sombre experiences with long sermons, and the standard collections were both in the preaching and in the testimony meetings. The preacher would "give out" a verse of a hymn which was then sung by Charles Wesley's hymn, every verse of which was fervent:

"And am I only born to die?
And must I suddenly comply
With Nature's stern decree?
What after death for me remains?
Celestial joys or hellish pains,
Oh, eternity!"

"Nothing is worth a thought but death
But how I may escape the death
That never, never dies;
How make mine own election sure,
And, when I fall on earth, secure
A mansion in the skies."

Religion in Daily Lives

That particular hymn is not now sung in the standard collections. People are no longer thinking so much of the life to come as the life that now is. But as a remark in passing that however old-fashioned the methods may have been, in their doctrines and creeds they exemplified a high sense of the power of religion that the world might do well to adopt today. Genuine kindness of heart, a desire to help one's true neighborliness, honest dealing, high standards of morality, active charitable opinions, temperate conduct, plain living, maintenance of a home instead of a boarding-house, rearing families to love the home, to respect the institutions of the land, institutions, to reverence religion and to honor the King. That was the general character of the spiritual life from within as reflected in the daily life and conduct of the pioneer settler.

In the year 1830 the community marshalled its forces and erected a substantial brick church at the very summit of Pancake Hill. Daniel Derbyshire, a local carpenter, took the contract for building at the modest price of $1530. It was reported that he lost money in the transaction. Joshua Lang of Belleville performed the mason-work. The office was denominated Mount Zion Methodist Episcopal Church." The church was dedicated the first Sunday of 1831 with Rev. Dr. Albert Carman, bishop of the M. E. church, as the officiating clergyman, assisted by Rev. Amos Campbell, the church's most eminent ecclesiastical specialist. A Sunday School was immediately organized and Rev. Dr. Vincent (now Rev. Dr. Vincent) of Baldwin City, Kansas) the local teacher of the public school, became the first superintendent.

Church Destroyed by Hurricane

Mount Zion church continued to be the religious centre of the community until 1900. On one night of that year a storm of hurricane intensity swept over from the north-west, levelling trees, fences, outbuildings and forest trees in its path. When the clouds had cleared away it was discovered that the church was completely wrecked and the sheds a heap of ruins. The Methodist union of 1884 had made it easily possible for the assembly of a church at this point and therefore Mount Zion church was never rebuilt.

Among the pioneer preachers who visited this area the most notable was Rev. John Black. He was not only a great evangelical preacher but had a remarkable gift for epigram and humor. He was appointed to the name of this grand old missionary would fill a volume. His remains are interred in the cemetery adjoining the Stone Church in the 4th Concession, of Sidney.

Another preacher of great eminence was Fr. M. Flynn who had grown up and received his education in Ireland. As a revivalist and evangelist this fervid son of Erin had extraordinary gifts. When the writer was a boy eighty years of age Mr. Flynn was conducting one of his famous revivals for a period of several weeks during the winter season at the Red Schoolhouse. The meeting was then usually called a "protracted meeting." Great interest was manifested and the school was crowded to repletion with the nightly throngs.

"Protracted Meeting" Experience

We have vivid recollections of our first experience at one of these meetings. At the front of the schoolroom, and before the teacher's desk, which served as a pulpit, was the preacher's bench. The bench was a rather rough piece of carpentry made from four legs supporting a heavy plank. To our immature mind, the phenomena of repentence and regeneration had a peculiar what-ever. We saw a number of the congregation "going forward" in response to the minister's appeal and taking their places at the bench. Their behavior greatly mystified us by their weeping and evident sorrow for sin. Then, later, by shouting and demonstrations of joy. We were seated beside a grandmother of several years older, Townsend Conley, son of Georges Conley, a former prosperous miller and grain buyer, become proprietor of the Windsor Hotel. To our request for an explanation, Townsend Conley solemnly informed us that all who went forward were "on a quarter." At that period in our financial experience a quarter was a coin of the realm worthy of a cart-wheel. We went home that night somewhat puzzled by the spectacle at the first invitation. Our family have been in the practice of every bit of keen anticipation of the pecuniary reward we expected to be handed over to us at the end of the meeting. We waited around until the minister and elders had left the building but received nothing. Upon our arrival at the next evening service by appointment and intimated that in our opinion there was something fraudulent about the whole business. Our father, like Mr. Flynn, was a native-born Irishman, but was very slow to appreciate the humor of the situation. When Mr. Flynn, a little later, visited our home he was told the whole sordid story of our meeting experience. Many years afterwards, the tale was repeated in the neighborhood, usually with a few added decorations by the narrator, Townsend Copley, when he grew to manhood settled in Toronto where he won great success as a financial and industrial promoter. Mr. Flinn migrated to Manitoba and continued his active ministry there. He was the last served Bishop in 1906 in the great campaign for national schools in that province.

Neighbors Meet

There were many ways by which the neighbors were brought together, aside from the religious meetings, the christenings, the weddings and the funerals. Some of these were the quilting parties, the apple-bees, the barn-raisings and the corn-husking-bees. At the latter, of course, there were the quilting parties, the apple-paring bees and occasional family social evenings for young people or old as the case might be. The Red Schoolhouse was also used for dancing in Methodist circles in those days was generally considered sinful but Nations, Lost Heir and Dominoes offered a convenient substitute for the regular euchre, deck and lent themselves to the same kind of games. The social and spectacular side of the community life was not unlike that of the French Canadian rural settlements in Quebec where informal evening parties, house-to-house visiting and neighborly calls make life in the country less lonesome and more genuinely enjoyable than often is the case in towns and cities. Life in the country is not necessarily the dreary and uninviting experience that many townspeople believe. There are multifarious events and interests and developments which absorb one's thought and bring out what is best in our nature. And about it all there is a solidity and a wholesome character such as has enabled those unpretentious rural settlements to give to Canada some of her first and finest citizens.

The Singing School

The neighborhood singing-school was an occasional feature of rural interest during the winter season. The instruction in singing was usually given in October who used a great book, on the open page of which all the notes, sharps and the musical scores were of poster size so that pupils, even at a distance might be seated in any part of the school auditorium.

The writer, while yet recall that the West Huntingdon and Pancake Hill neighborhoods combined forces and engaged a Mr. Huyck from Prince Edward county to conduct the singing classes, alternately at the Red Schoolhouse and at West Huntingdon. Mr. Huyck, the singing master was a man of huge proportions, good-natured, a talented conversationalist and visitor and a natural leader of young people. His musical instruction left a lasting and wholesome impression upon the two communities. At the same period, Mr. Mendell of Stirling, himself an accomplished singing-teacher, conducted a most successful singing-school at Moira.

Moira Old Metropolis

The Village of Moira was the metropolis, the capital and seat of commercial government for the Township of Huntingdon, from the days of the early settlement until 1919. In that year the township council decided to move the capital's location to Ivanhoe's more central geographical position. Here a commodious township hall was erected and officially opened to the public, December 17, 1919.

The name "Moira" is borrowed from the Town of Moira, in County Down, Ireland. It is a story that has been published a number of times and need not be repeated here except in the briefest outline. Francis Rawdon was born at the Town of Moira in Ireland, December 9, 1754. He won distinction on the British side during the American War of the Revolution and was created Earl of Moira in recognition of his services. Later he was appointed viceroy of India and at the conclusion of his term of office was made the Marquis of Hastings. The name of the mother of Francis Rawdon was Elizabeth Hastings. She was the daughter of the Earl of Huntingdon. She was also a member of the Puritanperfond family of England. Strangely enough, Francis Rawdon, never visited Canada and therefore never saw the county and the three townships which perpetuate his family names and he probably never knew anything of the Irish river and the placid country village which have adopted the name of his birthplace. Francis Rawdon died in 1826. He left a request that his right hand should be cut off and preserved until the death of his wife, the Marchioness Hastings and then be interred in her coffin.

Original Post Office

Moira post office was originally established in the early days of the 2nd concession of Huntingdon, just a short distance to the East of the present site. It was not only about a mile from the Moira river at this point. Some years later it was shifted to the neighborhood three miles farther north, where a considerable number of settlers had come and established homes.

Henry Warren moved from Sidney township to Moira in 1844. He set up a general store there and became postmaster. He held that position up to the time of his death in 1878. Warren was also a man of outstanding ability, was a talented public speaker, took a prominent part in municipal politics and served as township reeve. His son-in-law, P. Ostrom, after a brief career as a teacher entered the ministry of the Methodist church and later migrated to the United States where he won a high reputation as a pulpit orator and evangelist. He retired from the ministry several years ago to reside at Brownsville.

Electric Lights in 1937

Moira is described by Belden's County Atlas, published in 1878, as "pleasingly situated at the base of a large hill which shelters it from the north and contains in the most important village in the township." At that we have no record that the population ever exceeded one hundred. The village has never suffered from the ill effects of a land boom or from speculative building. That prior to Christmas in the year 1937, the village main street was illuminated for the first time by electricity.

In the year 1851, the county records show that John C. Foster sold a half-acre from the corner of his farm for a consideration of £10 to the municipal council. He was erected a plain stone structure to serve as a town-hall. The ownership building still stands and was used for a time as a place of worship by one of the newer religious denominations.

Half Dozen Industries

But what we more particularly wish to bring out in this narrative is the fact that Moira, in the early days, had at least half-a-dozen busy industries.

One of these was a fanning-mill factory owned and operated by Allen McTaggart and later by his sons, Joseph, Royal and John. The fanning mill and its products enjoyed wide popularity. Arthur L. Burke, a lawyer of Belleville, is a grandson of Allen McTaggart.

There was a woollen factory operated by William Dean, assisted by his sons, William and Joseph. The Dean factory turned out a variety of kitchen furniture and also types of woollen and cotton yarn furniture as well as the old-fashioned spinning-wheels and the reels for the winding of the yarn.

The blacksmith shops were in full blast, turning out farming implements, all manufactured well designed and beautifully finished sleighs, farm waggons, buggies, cutters and democrats or carry-alls. He also produced harrows, land-rollers and other farm implements. Mr. Hoskins sold out his business in 1870 to William Schryver, a skilled mechanic, who conducted it with marked success for many years. He has now become a nonagenarian and owns up to being 92 years of age but still going strong. He and Mrs. Schryver occupy a comfortable home on Yeomans St. where they enjoy the respect and esteem of a host of friends. The old shop at Moira still stands and is now operated by Mr. Frank Emerson.

Shoe-shop Centre

The village also had a shoe-shop where George Diman, assisted by his sons, Melbourne and Nelson, manufactured high-grade and durable boots and shoes for the men, women and children of the community. George Diman had a rare gift of humor. His shop was always a centre of interest for the boys and girls of the neighborhood who never tired of watching the evolutions leading up to the finished shoe and listening to the accompaniment of witty stories and drollery which seemed almost a part of the process of manufacture.

F. M. Brenton, who conducted the general store for a considerable time also developed an active business in a tailor-shop where a dozen hands or more were employed. Mr. Brenton later became a cheese-buyer at Belleville.

Moira Cheese Factory

Nor must we omit to mention the Moira cheese factory. This factory was established in the year 1868 after the organization of a local cooperative company among the farmers of the neighborhood. It speedily became one of the largest and most important in the county. The writer's eldest brother entered the employment of the company as cheesemaker in the year 1876 and retired at the end of the cheese-making season in 1916 after 41 years of continuous service. He was tendered a fine complimentary banquet in January, 1917, and made the recipient of a suitably engraved gold watch. It is regretable that the Moira Cheese Manufacturing Company ceased to function several years ago. But let us express the hope that the better prices now prevailing may insure the resumption of operations in this once notable cheese-making centre.

The Village of Moira is not situated in the confines of S.S. No. 4 but it is adjacent thereto, outside our territory in the preparation of these chronicles. We have made the exception of Moira church, Moira cheese-factory and Moira village because its arts and interests were also part and parcel of the Pancake Hill neighborhood through their activities and services. The arrival of rural mail delivery and telephone connections in reference to that particular work but other things remain as before.

Rural Life Transformed

We would like to take advantage of this opportunity to draw attention to the great transformation in the life of the country settlements and the rural village. Old-time cottage industries such as spinning and weaving and even the baking of bread, have practically gone out of use. The village factories are no more. The automobile no longer builds farm-wagons or buggies or farm implements. The village blacksmith never does any but repair jobs because it does not now attempt to build up a new part of shoes. Great-centralized manufacturing plants and mass production have utterly destroyed these industry and sadly crippled the villages themselves. Depopulation and decay have set in and are in many cases far advanced. Take for example the Village of Demorestville in the County of Prince Edward. This village was at one time second only to Picton in importance in the whole county with a population in excess of 1,000. It contained large saw-mills, grist-mills, three waggon factories, two carriage-shops, a foundry, a furniture factory, three blacksmith shops, four hotels and all the other features which contribute to the life and activity of a prosperous village. The Demorestville of today is a sad reminder of what happens when industry moves out and there is nothing to take its place.

Practically all the factories have centred in big cities. We have quantity production of standardized goods. We have no new products in some lines than we ever had before. The field is wide open for anyone to have gained by the tremendous transformations that have taken place in rural life. There is also an unrestrictable losses.

"A Real Peasantry"

Oliver Goldsmith wrote a couplet of centuries ago of the ill-fate that overtook "a real peasantry" in the village of the plain," has also an arresting description of experiences and losses that are passing through in Ontario today. All's not well with the rural districts of this province. We need another Goldsmith and another warning poem:

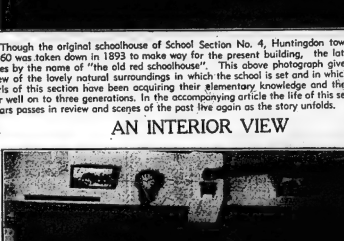
"Ill fares the land, to hastening ills a prey,
Where wealth accumulates and men decay;
Princes and lords may flourish and may fade;
A breath can make them, as a breath has made,
But a bold peasantry, their country's pride,
When once destroyed, can never be supplied."

Wood School Organized

A sufficient number of settlers had arrived in the Pancake Hill neighborhood to make it desirable and essential to form a school. In that year, 1830, a public meeting was determined to erect a schoolhouse. A site was selected on the brow of the hill, a little to the south and to the East of the present building but it was of no unsubstantial a character that it had to be replaced twenty years later.

Original Schoolhouse

In 1830 the original Red Schoolhouse was built. It was a plain, substantial structure and erected in brilliant and enduring red.



In 1853 it was found that its demolition and the building which had served a whole generation of eager students was necessary to provide a more attractive school building was erected in its place. A bordering line of magnificent maples planted back in the 80's, when the writers brother was principal of the school, grew to beautiful setting for the grounds and building.

Of the names of the teachers during the first fifteen years there are no official records. From 1856 (Continued on page seven)

"THE OLD RED SCHOOLHOUSE"

Though the original schoolhouse of School Section No. 4, Huntingdon township, built in 1830 was replaced in 1853 to make way for the present building, the latter school still goes by the name of "the old red schoolhouse". This above photograph gives an excellent view of the lovely natural surroundings in which the school is set and in which the boys and girls of this section have been acquiring their elementary knowledge for more than a century. In the accompanying article the life of this section for many years passes in review and scenes of the past live again as the story unfolds.

AN INTERIOR VIEW

This photograph gives an idea of what a classroom in an up-to-date rural school of today looks like. In this picture is seen seated at the teacher's desk, the writer of this article, Mr. James Herity of Belleville, who attended and graduated from the original school which occupied the site of the present modern building in S. S. No. 4 Huntingdon Township.

The Old Red Schoolhouse

(Continued From Page 6)

to 1877 we have secured the names of all the teachers from former pupils who are still living but the year indicated for the period of their assignment may be slightly at variance from actual history. But from 1877 to 1938 the names and dates may be taken as absolutely true and accurate. The general register is retained in the school go back only to 1908. But from former teachers and others we have obtained names and dates in such a manner as to leave no doubt of their authenticity.

History in Precious Documents

Emphatic protest should be entered here and now against the carelessness which has permitted the destruction and loss of such interesting documentary history as is contained in the general registers of the public schools. We would suggest that they be collected and kept in some central and safe place in each municipality. Such documents and records, in Great Britain, are bound and husbanded with the utmost care. Here they are merely become so much waste paper.

In the list of teachers we have compiled, the initials of all names appear. The engagements were often for periods of less than a year. The long-distance record was attained by S. B. Beatty (see "Beattie at Hillcrest" and Miss Marie Townsend (now Mrs. Steward Emerson of Hall-ville) who remained for seven years in the job four years.

School Section No. 4 is not a large or wealthy division and therefore the salaries paid have not been princely. The salary for which we have any record was $350 per annum but this was paid to Miss Dow '40's for a girl teacher without previous experience. The highest salary was $1,000 which was paid in the prosperous years just after the Great War.

Teachers in Other Professions

Of the 82 teachers, only 32 have been men, and of those who are still living all but one or two remained in the teaching profession. Four became medical doctors—W. W. Peart, Picton, Ontario; the late Dr. Peart was at Stirling and later moved to Belleville; J. A. Faulkner (Faulkner is a son); John W. Corrigall who after graduation went to practice in Saskatchewan, an attack of pneumonia cut short a most promising career and he died in Saskatoon; Archibald Clare, now an eye, ear and throat specialist at Winnipeg; S. R. Beatty at Madoc. Of the others, Allan Embury became a public servant at Ottawa; Western Ontario and S. D. Vincent entered the Methodist Ministry and is now resident at Baldwin City, Kansas.

Of the contribution made to the life and welfare of the community by that grand group of men and women, it is impossible to speak with sufficient appreciation or eulogy. Next to that of the mother in the home, the work carried on by the teacher in the public school is the most important in the world today. No monument can be built to mark on work of that nature for it has to do with the life of the character and with life itself. Only omniscience can determine the extent and the influence of the teacher's work in motion and the inspiration created in the plastic mind of the child and thereby send it along an impulse which can be passed on to generations yet unborn.

Training a Seer

"The sculptor died; a nation mourned him;
His body lay in state;
Among the throng that passed his bier,
Were rich and poor and great;
A maiden child of wistful dream,
Soon marked his resting place;
Entering softly in his name
Was chiselled on its base.

"The teacher also passed away;
She filled no marble niche;
No lettered stone, no terraced mound
No fragrant flowers, save
A tangled mass of withered bloom,
That freights the passing breeze,
Now rustles in the dust, where sleeps
the saint,
Beneath the bending trees.

"Some day the testing time will
come,
When all the dead shall rise,
And meet in the dust upon
His throne,
Beyond the cloudless skies.
Then whose name will the brightest
shine
On Heaven's eternal scroll,
The man's who shaped inanimate
stone,
Or hers, who trained a soul?"

An Outstanding Teacher

One of the most outstanding teachers ever within the writer's experience was S. D. Vincent who was principal of the school in 1887. From that all too brief year was left an influence for good which time can never efface. He is now entering upon the sunset years of his life at Baldwin City, Kansas, after a long and worthy career in the Christian ministry.

W. H. Nobes Once Teacher Here

To William H. Nobes, now of Wallbridge in Hastings township, the writer is particularly indebted for the thorough, painstaking and unstinting him to pass that most difficult of examinations commonly known as that of entrance to high schools.

George W. Faulkner had an amusing experience during his incumbency. One day a truant called at the school soliciting financial assistance which was given. Later, following day Inspector Agar arrived and entered the school unannounced. The inspector was rough appearing and seemed in his manner of dress. The teacher mistook the inspector for the tramp who had visited the school the previous day. The teacher didn't rise from his desk to greet the inspector but he bluntly asked him if he was the tramp who had called the previous day before. The inspector answered in the negative and informed the teacher that he was the new superintendent of public schools and that Mr. Faulkner's services were dispensed with. Hurried explanations and much laughter followed.

J. J. Ryan Early Teacher

One of the early teachers at the Red Schoolhouse was James Jones Ryan. He was a native of Ireland where he had received an excellent education. He purchased lot 4 in the Third Concession in 1847 and prospered both as a teacher and a farmer. He erected the fine frame dwelling that now occupied by George Defoe. He later purchased several other farms and became highly respected appointed to be clerk of the municipality which office he held up to the time of his tragic death in the fall of 1877.

A portrait of Mr. Ryan's death is still occasionally told by some of the old residents. He was a man of huge physique and was engaged in the annual task of slaughtering a number of pigs for the production of hogs. He was assisted by a neighbor, D. R. Campbell. The pigs were scalded and the water was heated in a great caldron. It was the custom to use a portable kettle. In some manner, Mr. Ryan slipped, lost his balance and toppled into the boiling water. He died later. It was two or three minutes before the neighbors could pull Mr. Ryan from his terrible position. Death released him from his sufferings a few hours later.

Tribute to Writer's First Teacher

The writer desires to pay tribute to the memory of his first teacher, Miss Sarah Bowerman, whose death in touch at the Red Schoolhouse in 1873. She was an attractive and beautiful girl and about her that ineffable charm and refinement of disposition which unfailingly attract young children and mark the perfect teacher. After a brief illness, she died and was buried David R. Corrigall, a young teacher from Prince Edward County. Most of her children eventually became teachers in the same school, as John Corrigall, Elizabeth as above, and Miss Pearl Corrigall who later became Mrs. Lemuel Dare, clerk of Rodlin.

Thomas Brown of Thomasburg, who taught in the Red Schoolhouse for eight months in the year 1876, remembers that Miss Jessie Ketcheson took a school in the Township of Thurlow, Hastings County, and that the young teacher went hunting with a companion by the name of Corbett. Corbett shot a hen and that last their way in one of the swamps in that region. The girl got lost in the cold and Brown perished from exposure before help arrived.

Before The Days of Egerton Ryerson

When the settlers first organized their school, the Province of Ontario was in its infancy and affairs in a manner far different from those which followed. Egerton Ryerson did not appear until some years later with his far reaching influence and a general prosperity-tax for the support of schools which made education available to the part of the children.

The pioneers in Ontario were organized and maintained solely by those who had children to attend and who were willing to contribute liberally to make the necessary investment. A committee was elected for each section according to the number of children from the district who might attend the school. Those without children made no payment whatever but as they all contributed in proportion to their property they might hold.

Teacher "Boarded Around"

The teacher "boarded around" by spending a week at a time at each settler's home until the entire section of the district had been visited. There may have been some hostesses that the teacher would fain have passed by when it came to partaking of the board and sharing the accommodation. But on the whole the settlers' wives were skilled housekeepers, the food although plain was wholesome and what it lacked variety it made up in abundance. And besides the teacher was relieved of the payment of board bill.

At a late date the teacher was supposed to make parishional visits to the homes of pupils each home or at least take a meal with each family during the term. In that way the teacher became personally and more intimately acquainted with the parents of the scholars. This latter excellent practice continued in many districts to the beginning of the present century.

Thomas Brown, Thomasburg, R. F. D. No. 1, who now resides near Latta, was principal at the Red Schoolhouse for the last three months of 1881. Incidentally we might remark that he was a pupil there in 1873 and 1874 and had the most thorough and efficient teaching of his career. Mr. Brown is difficult to verify some dates and he has sent us back a letter which gives further interesting particulars about the regulations in effect at that time. We know he will pardon us for making some quotations.

R. F. Elliott's Experience

"I received a salary of $300 the first year; his letter states, "and $328 for the second. I was required to start the fire during the winter months and I was also responsible for the daily sweeping of the room. I was allowed to ask the children to bring turns a week but, if they did not do it, then I was expected to do the work myself. I received a grant of about $11 in February and another grant of similar amount in September. The balance of the salary was not paid till the end of the year.

"The school year began January 3rd. For holidays I had Good Friday, Easter Monday, May 24th, the entire month of July, and August, the third Monday when the Fall term began. During the Fall I had Thanksgiving and Christmas. I was expected to hold two public examinations during the year and these in the residents of the section were invited. I obtained my pay for two dollars a week and this also included washing. I did not have to pay for my board until the end of the year."

Mr. Elliott concludes his letter with this significant statement: "The people of the Section were very kind to me and I had no disagreements. I was paid for any rent-dent of the Section during those years."

It was a general practice at that time for the teacher to receive no pay wait until the end of the teaching year for their salaries. It is not known how many applicants they shall be paid every month.

Long Roll of Teachers

The list of teachers and the years in which engagements were made so can now be learned, are given below:

1840 to 1853, inclusive, names of teachers now unknown.

1854, Alfred Coe, Congina.
1855, Ralph McCollum.
1856, Miss Jane Bowerman.
1857, Hillabe Phillips, Phillipston.
1858, Margaret Howard, Keni Corners.
1859, Mary Watson, Moira.
1860, Miss Elizabeth Corrigall.
1861, J. F. Bonisteel, Sidney.
1862, Henry Walborouse, Tyendinaga.
1863, Ruth Ward, Foxboro.
1864, Miss Mary Ann West Hunting-don.
1865, Ruth Ashley, West Huntingdon.
1866, (1st 8 months), Emma Bar-ker, Belleville.
1866, (2nd 6 months) Margaret Bray, West Huntingdon.
1867, Hester Osterhout, Glenbrook.
1868, George W. Faulkner, Sidney.
1869, Elizabeth Corrigall.
1870, (1st 6 months) Louisa Ket-cheson, Rawdon.
1870, (2nd half), Sarah Clark Moira.
1871, Allan Embury, Thomasburg.
1872, Minnie Merrill (Mrs. Jos Bowerman).
1873, Mary Wray (Mrs. David Morton, Tweed.)
1874, Miss Emerson (Mrs. D. R. Corrigall).
1875, Cornelia Canniff, Canniffton (Mrs. Henry Harton, Hilsdale, Mich.)
1876, (1st 6 months) Cornelia Canniff.
1877, (2nd 6 months) Louisa Wil-liams, Belleville (Mrs. David Clark, Bloomfield).
1878, (Jan.-Apr.) Phoebe Merrill, Huntingdon (Mrs. Howard McCut-cheon, Peterboro).
1878, (May-Dec.) John Brown, Tamworth.
1879, Miss Bowerman.
1879-1880, William H. Bly, Tren-ton.
1881, S. D. Vincent (Rev. S. D. Vincent, Baldwin City, Kansas).
1882, Miss Belch, Lonsdale.
1883-1884, Miss W. H. Nobes, Wallbridge.
1886, (1st 8 months) Jennie Plem-ing, Belleville (Mrs. Howard Rochester, N.Y.)
1886, (2nd 4 months) Bertha Emmons, Belleville (Mrs. MacDon-ald, Valleyfield, Que.)
1887, Miss Bell, Fred C. Herity, Huntingdon.
1888, 1889, Robert F. Elliott, Latta.
1892, Annie Barnum, Madoc, (Mrs. Phillips, Belleville).
1893-1894, Mary Elliott, Madoc, (Mrs. H. A. Dingman, Saskatoon).
1895, (1st 4 months) John W. Corrigall, Huntingdon.
1895, (2nd 8 months) George Ray, Tweed.
1896, 1897, 1898, John W. Corri-gall.
1899, 1900, 1901, Chas. M. Clare, Belleville, M.C. Mrs. Clare, Rodlin.)
1902, 1903, 1904, Pearl Corrigall, Huntingdon (Mrs.' Robert M. Clare, Rodlin.)
1905, Beasie Snell, Belleville.
1906, 1907, Ella Hubble (Mrs. Her-bert Tucker).
1908, Hazel McMullen (Mrs. Frank Richardson, Ameliasburg).
1909, (1st 6 months), Rebecca Moon.

Here this to the end of the list the period of engagement begins and ends at midsummer.

1909, (2nd 6 months) 1910 (1st 6 months) Elda Garrison (Mrs. Miller Carl, St. Catharines).
1910, (2nd 6 months), 1911 9(1st 6 months) Mrs. Clayton Haggerman, Avondale (nee Rogers, Stirling).
1911, (2nd 6 months) 1912 (1st 6 months) Nellie Hollinger, Madoc, (Mrs. Geo. Foster, Moira.)
1912 (2nd 6 months) 1913, 1914, 1915, 1916 (1st 6 months) S. R. Beat-ty, Thomasburg (S. R. Beatty, M.D., Madoc).
1916 (2nd 6 months) 1917 (1st 6 months) Dorothy Bowerman.
1917 (2nd 6 months) 1918, 1919 (1st 6 months) Lula Garrison (Mrs. Miller Carl, St. Catharines).
1919 (2nd 6 months) 1920 (1st 6 months) Gladys Coulter (now teaching at Peterborough).
1920, (2nd 6 months) 1921 (1st 6 months) Eva Paisley.
1921 (2nd 6 months), 1922 (1st 6 months) Mabel M. Robson (Mrs. Stanley Hayton).
1922 (2nd 6 months) 1923, 1924, 1925 (1st 8 months) Mrs. Albert Welsh (nee Elliott).
1925 (2nd 6 months), 1926, 1927, (1st 6 months) Lulu Johnson (now teaching in Toronto).
1927 (2nd 6 months), 1928 (1st 6 months) Myrtle Mackie, (now teaching in Canniff-ton School for the Deaf).
1928 (2nd 6 months) Mary Bethel Colborne.
1929 (1st 6 months) Olive Ket-cheson, Moira (Mrs. Jos. Williams, Moira).
1930 (2nd 6 months) 1931 (1st 6 months) Mary Graham.
1931 (2nd 6 months), 1932, 1933, 1934, 1935 (1st 6 months) Muriel Hallaway.
1935 (2nd 6 months) 1936, 1937, 1938, Ana Hughes, Rodlin.

Inspectors

Of scarcely less importance than the teachers, are the inspectors or superintendents who supervise the work in the public and high schools in some particular area.

Up till the middle of the present century, Hastings County was divided into two public school inspectorates—North and South Hastings. The latter was made up of the City of Belleville, the Townships of Trenton and Descronto, the Village of Frankford, the Townships of the Townships of Sidney, Thurlow, Tyendinaga and Hungerford. The balance of the County formed the North Hastings inspectorate.

Shortly after the close of the twentieth century, that is to say in 1910, the county was divided into two Inspectorates South, Centre and North Hastings. South Hastings comprised the same territory as heretofore. Centre Hastings formerly embraced the six townships, Rawdon, Huntingdon, Hungerford, Tyendinaga, Sidney and Elzevir and the five incorporated villages, Madoc, Tweed, Stirling and North Hastings took up all the rest of the county. About 20 years ago the boundaries of the Centre Hastings inspectorate were rearranged. North Hastings remained the same.

A Man of Culture

The first inspector of schools for North Hastings (then including Huntingdon township) was George Hurst, a man of high character, a man of wide culture and fine scholarship as well as of commanding personal character. He came to Canada when a young man and eventually settled up near the Moira and Deloro-boro in Huntingdon township where for a time he taught a public school. He was skilled in the art of penmanship and possessed an unusual accomplishment for that time, and he taught the system to his pupils which was generally followed in the Moira school. He was made inspector of schools about 1864 and continued in that office up to the time of his death in 1886. He passed away at a comparatively early age of 47 from pulmonary tuberculosis brought on by exposure and hardships incidental to the carrying out of his duties in a district where bad roads and primitive living conditions undermined his robust constitution. He was more comfortable during his last illness by the loving care of his wife and the home of Mr. and Mrs. Henry R. Ketcheson at Moira village in the township of Rawdon in the Parish of Wick, Scotland, in 1816. He remained there until he left for the cemetery where the grave is marked by a granite monument of Scottish far design brought from his native Scotland.

Elizabeth Biddle Mowat, a younger sister of George Mowat, came to Canada a few years after her elder brother and taught public school for many years at Moira and in adjacent sections. She passed away at Roslin in 1900 at the age of 75 years. George Hurst and his sister were relatives of Sir Oliver Mowat. The latter was not a descendant of the inspectorate by S. T. Agar, The latter held the position from 1863 to 1875 when he retired to his farm farming in Rawdon township. Here he resided up to the time of his death.

William Mackintosh

Following Mr. Agar there came to the inspectorate of North Hastings a man of outstanding force of character and great keenness of mind in the person of William Mackintosh. For the remarkably long period of forty years Mr. Mackintosh carried out the onerous duties of his position in an inspectorate covering twenty-one townships and five incorporated villages. The engagement began in 1875 and terminated in 1915. Upon his retirement in the latter year the venerable educationist was honored by a grant bestowed by the North Hastings Teachers' Association and he became the recipient of handsome gifts and testimonials. Mr. Mackintosh was no autobiographer but had he told the plain story of those forty strenuous years, what a mine of facts and anecdotes of miles travelled in his horse and buggy, of hardships endured and drifts, over the miry trails of sparsely settled townships in spring and fall, Catharine.

1910, (2nd 6 months), 1911 9(1st 6 months) Mrs. Clayton Haggerman, Avondale (nee Rogers, Stirling).
1911, (2nd 6 months) 1912 (1st 6 months) Nellie Hollinger, Madoc, (Mrs. Geo. Foster, Moira.)
1912 (2nd 6 months) 1913, 1914, 1915, 1916 (1st 6 months) S. R. Beat-ty, Thomasburg (S. R. Beatty, M.D., Madoc).
1916 (2nd 6 months) 1917 (1st 6 months) Dorothy Bowerman.
1917 (2nd 6 months) 1918, 1919 (1st 6 months) Lula Garrison (Mrs. Miller Carl, St. Catharines).
1919 (2nd 6 months) 1920 (1st 6 months) Gladys Coulter (now teaching at Peterborough).
1920, (2nd 6 months) 1921 (1st 6 months) Eva Paisley.
1921 (2nd 6 months), 1922 (1st 6 months) Mabel M. Robson (Mrs. Stanley Hayton).
1922 (2nd 6 months) 1923, 1924, 1925 (1st 8 months) Mrs. Albert Welsh (nee Elliott).
1925 (2nd 6 months), 1926, 1927, (1st 6 months) Lulu Johnson (now teaching in Toronto).
1927 (2nd 6 months), 1928 (1st 6 months) Myrtle Mackie, (now teaching in Canniff-ton School for the Deaf).
1928 (2nd 6 months) Mary Bethel Colborne.
1929 (1st 6 months) Olive Ket-cheson, Moira (Mrs. Jos. Williams, Moira).
1930 (2nd 6 months) 1931 (1st 6 months) Mary Graham.
1931 (2nd 6 months), 1932, 1933, 1934, 1935 (1st 6 months) Muriel Hallaway.
1935 (2nd 6 months) 1936, 1937, 1938, Ana Hughes, Rodlin.

WALT GEROW JR. LEADS TEAM TO CONVINCING WIN

Napanee Juniors Eliminate Picton by 23 to 5 on Round

AVALANCHE OF GOALS

Picton Handicapped When Defence Star, Welbanks Unable to Play

Paced by their scoring ace, Walter Gerow, Jr., who scored five goals and was credited with six assists the starry Napanee Juniors O. S. E. tte sastly cooped their group honors last night, when they buried the Picton "Westinghouse" squad beneath an avalanche of goals. The score was 18-5.

The Gerow-coached youngsters took like running by a 3-2 count having defeated the Prince Edward squad by an 8 to 5 count in the first game of the two game series in Picton on Wednesday night. Gibbard'ville led by virtue of their win, now advance into the first of the Junior "series" opposing the Havelock as their probable opponents.

Picton Outclassed

The game last night was nothing more or less than a rout after the ball rang to close the first period. The visitors had a 3 to 2 lead despite the loss of their defence star, Carman Welbanks, in the first half. However, the Napanee sex line of Gerow, Bruce and Lacy were satisfactorily handled by H. P. Rickborby of Picton. However, who assisted the K-Y officials in his capacity.

Recently Contested

The bantam tussle was keenly contested, Jack Barrett scoring the goal of the game for the Nickerbockers early in the initial period. Despite the gallant efforts of the Hi-Speeds, who were handicapped by the loss of two regular players, they could not penetrate the winners' goal zone for a score. Barrett starred in directing thitteams and gave advice to respective players from the sidelines of this match.

The two hard-fought matches of the night, playe in the Midget series, the Flying Wings defeated the Queen Mary "Wildcats" 3 to 2. There was no scoring registered in the first period but the Flying Wings notched two to the'Cats' three in the middle frame. There was little to choose from in this match, that was productive of some good hockey played between sub-teen aged Canadian boys. Vern Gibbard, Jack Gallant, Bill Dodds threw to one. The St. Mike's squad scored three times in each of the three periods, while the O.S.D. notched their lone counter in the middle frame. Jack Healy with a brace of goals and Mike Powers scored the remaining two for the "Irish" while G. Hood scored for the O. S. D.

The lineups of the various teams in the Ki-Y groups—Midget — O.S.D. (1)—Goal—Hood; Defence —Donovan, George, Centre—Cork, Wings—Burrows, Sabo. Subs—Hood, Styles, Calder, Green, Fibault and Orattans. St. Michael (1)—Goal—Lamellière, Defence — Hunter, O'Connor, Centre—Powers, Wings —Healy, Hallinan. Subs—Meagher, Fitzgibbon Eayes and Bebert. Referee—Walt Hall.

Midgets—Flying Wings—(3)—Goal—Cook. Defence—Shtolnhimer, Rosebush, Centre—Goyer, Wings—Keler, Smith. Subs—Mitchell, Jones and Rankin. Q. M. S. "Wildcats' (2) —Goal—Rose, Defence—Oatman, Gerow. Centre—Cook, Wings—Hay, and Barnum. Subs—Smith, Belmore, Wiggins, Brown and Keegan. Referee—Mark Storms.

Bantams—Nickerbockers (3)—Goal—Bunbury. Defence—Doran, Maher. Centre—Barrett, Wings—Wardaugh, Hall. Subs—Shaw, Green and Lucy. Hi-Speeds (0)—Goal—Hollinger. Defence—Mulvey and Couse, Centre—Meagher, Wings—Young and Brady. Subs—Krichenon and Hueson. Referee—Reg. Asselstine.

Juvenile—Hawks (3)—Goal—Hayes. Defence—Mulholland and Farquharson, Centre—Clare, Wings —High and Burns. Subs—Rosebush, Warren, Jones and Jenkinson. Bruins (0)—Goal—Clarke, Defence—Denys and Hamilton, Centre—Barrett, Wings—Hall and Stone. Subs—Fitzgibbons, Finkle, Richardson and Holway. R. F. Boone-er" Holway.

KI-Y HOCKEY GROUPS SWING INTO ACTION

Hawks, Flying Wings, St. Mikes And Nickerbockers Score Victories

GOOD MATERIAL

Hawks Blanked Bruins in a Juvenile Series Game

Four sterling games of hockey played at the Belleville Arena last evening saw the ki pered off in the local Ki-Y League when all three groups were represented and swung into action to provide hours of hockey before a goodly crowd. In the Midget series two games were played with the Flying Wings winning over Queen Mary "Wildcats" 3-2 and St. Michaels Academy trouncing the O. S. D. "Midgets" 3 to 1. In the bantam game played the Nickerbockers shed and skate to nothing win over the Hi-Speeds while in the Juvenile series the Hawks blanked the Bruins 3 to 0.

With the older and more experienced players appearing in the Juvenile tussle thrilling play was the night was seen as Coach Jack McVeigh's Hawks assumed an early season lead with, two goals in the initial period two in the middle frame and one in the last period to win handily.

Dick Burns and Ross Clare scored the two goals each for the winners with Farquharson getting the odd counter. The Hawks showed most classy hockey throughout and the puck than did Coach Jim Barclay's Bruins and deserve their honors of the night. Jim Clare, Rosebush, Mulholland and Farquharson played good hockey for the winning Hawks while Hall, Clarke, Hamilton and Denys looking the best for the vanquished Bruins. The game was satisfactorily handled by H. P. "Rickenbacker" Holway, who assisted the Ki-Y officials in his capacity.

Trouble Ahead for Harris As Senators Face Season With One Winning Pitcher

By BILL BRAUCHER
Central Press Canadian Sports Writer

New York, Feb. 5.—A glance at the roster of the Washington Nationals gives an idea of the grief that Bucky Harris faces this year. There is one pitcher on the staff who won more games than he lost last year—Monte Weaver—and when the experts consider that Weaver won only 13 tussles, they are not likely to give Griffith's aggregation much of a chance to wrest into the first division.

Either Wes Ferrell or Jimmy Deshong may phish his way into the position of leading hurler. Ferrell is 30 and is capable of a comeback. Deshong is 27 and has it in him to win 30 games. None of the other regulars seems likely to bloom suddenly into a Grover Alexander. They are Ken Chase, Stan Hopgett (from the Browns,) and Pete Appleton (Jablonowski). Chase showed a whole lot of stuff last year at beginner, and much better is expected of him.

There are some intriguing youngsters on the Griffith roster, however. Take Joe Krakauskas, for instance. Here's a six-foot southpaw who won 14 against nine losses at Trenton last year. The big boy from Canada is set are the only other southpaws on the club. Krakauskas has a very good chance of surviving the late spring training. He looked very capable in a Washington uniform during the last few weeks of the 1937 season.

Batter Than Baird

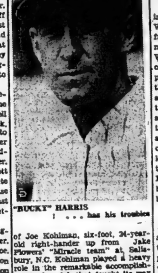
Hogsett is a man who was very much misused at St. Louis. The big Hoosier did so much ball pen only with the Browns under Hornsby that he was tired nearly all season. With a few days of rest, he'll improve that record of six won and 10 lost. Bucky has him at Detroit and knows the chief can be a winning pitcher with the right kind of handling.

Ray Phebus, a seasoned right-hander who came up from Chattanooga last year, turned in some brilliant jobs. Phebus is fast and showing up a bit late, but he has made good use of his minor league experience.

The mantle of relief hurler probably will be worn by Al Piechota (Dutch) Leonard, of whom you've heard much as a Brooklyn pitcher. Illness has handicapped the Hoosier, but he's back and very well for Atlanta. His knuckle ball should provide some refreshing relief in the middle innings this season, anyway, where two-fast-balls-and-a-curve-ball pitching is the principal pitching strategy.

Wins 26, Loses 1

Washington will have one of the league's prize rookies in the person of Joe Kohlman, six-foot, 24-year-old right-hander up from the Pennsylvania "Miracle team" at Sellsburg, N.C. Kohlman played a heavy role in the Nationals' championship event of a club that fought its way from last place to pennant after being penalized a number of games. His record actually looks like a misprint. It's a fact he won 26 games and lost only one.



The Nats' principal question mark is that pitching staff. Catcher Rick Ferrell should be of material assistance in helping to change the doubt into an exclamation point.

No change looms in the infield where the left side of the diamond is very well cared for by Cecil Travis and Buddy Lewis. On the other side of the field are Buddy Myer, who is battle and 34, and Joe Kuhel, who showed signs of being tired of it all last year. A trade that would bring Bonura from the White Sox has been on the fire, but isn't cooking very rapidly because Mister Dykes wants not only Kubel but Myer.

Griff Still Looking

Washington hasn't a very hot outfield, with Simmons, Stone and Almada as the regulars, and Rookie Case and Wright. Case's debut last summer was impressive. He showed speed and hitting ability after coming up from Trenton. He hits right-handed, which provides a pleasant novelty on a team heavy with left-handed batsmiths, and is said to get a thorough trial.

Boss Griffith still is shopping around in hope of finding someone who will help him with him. But most of the managers are afraid of the gentleman because of his reputation of never giving a sucker an even break. If he does find a customer, the complexion of the club can change overnight. It's about the only hope besides Billy Terry, that baseball writers have to watch.

HASTINGS LOOP PLAY-OFF GAME TIED AT 3 TO 3

4th Sidney And Zions in Overtime Tussle at Stirling

EVENLY MATCHED

Teams Battle Next Week For Championship of Loop

Stirling, Feb. 5 (Special)—Barty in the season it was said that Art Vermilyea's troup of puck chasers from the Fourth Concession of Sidney would be right in there to win, by we over said that was not far out, for last night the Sidney lads proved their worth as they fought through overtime to draw a hockey against the flashy Zionites to end the first game of the play-offs 3-3 after ten minutes overtime, which means that they established that a break either one way or the other was the difference between a win, tie or loss. The series is decide the championship of the Central Hastings Rural Hockey League will be continued on Tuesday night with both teams starting from scratch.

The Game

Both teams started cautiously and speed and smoothness in combination plays increased as the game progressed. The first thrill came when Vermilyea scored a goal by legging Knight off balance when in a position to score. This was the only goal registered in the first period which was taken by Semark. The shot rifled into the corner of the net from the blue but was called back because the Shooter skated over the line. Each team had a man down hard. Sidney showered the Zion net with the puck and only the superb work of Carson kept them from scoring. The first real scoring drive came when Sidney rifled one from the corner of the blue-line. Thompson's vision was obstructed and the shot was beat in goal. Just before the period ended Thompson brothers combined in fast fashion for the tying goal.

Shortly after the second period F. Vermilyea was chased for a minor or entringement and made the minutes count. Sidney had a man in discion in no uncertain terms. His view on the matter may have been partially justified but it was an error to express them just then for he was waved to the penalty box by Referee Akers holding five fingers in the air. Short handed Sidney played a cagey defensive game with Zion playing every man up on the Sidney line. Lorne Jarrell broke away with the puck but Bert Sidney was right there and only time to do it right. Dwarrie Cole came in from centre ice and tipped the rubber into the open net. Zion pressed hard but the Sidney defence held them. Sidney leading 2-1 a score that truly indicated the play thereof with close checking and an excellent display of goal tending by both Carson and Thompson.

Tie Up Score

Two minutes after the face-off in the final period "Zeddy" went through on the long rush to tie Thompson for the tying goal. Midway through the period he repeated taking a pass from Day at close quarters and Zion went into the lead 3-2. Healy with two minutes of the regular time left Lapsley Cole and Jarrell faced-off with "Lips" getting the counter battling in a neat pass from Semark. The final four minutes of play failed to found the play racing from one end to the other with the Sidney lads in defiance in performance being about equal. The two overtime periods lacked a little of the speed shown throughout the game, the players of both teams showing signs of tiring. Each team have an equal chance going into the second period of the series next Tuesday night and the odds along the boards are about even as the score. Tuesday will mean a great deal in the championship intimations.

Both Thompson and Carson were shining lights in the overtime play, Thompson having a few less shots to stop than Carson. The Zion "Hat" Day, Eddie Semark and Ray Dickey turned in the best efforts with Day being responsible for two tie counters. Day getting the other and one assist. The standouts for the Sidney rivals included Knight, F. Knight L. Jarrel and Vermilyea. The latter drew a generous share of penalty but redeemed himself in affectiveness later in the game.

Lineups

4th of Sidney—Goal, Thompson, defence, F. Knight, E. Faint; centre L. Jarrell; wings, C. Thompson, H. Thompson; subs, Bert Semark, Lapsley Cole, Gerald Vermilyea, Leslie Cole.

Zion—Goal, Carson; defence, Crikston and Kennedy; centre, Day; wings, Brough and Dickey. Subs, Simms, Dunnison, McAvoy.

Referees—E. Wallace and Jack Akers, Stirling.

HAMILTON WINS ONT. TANKARD

Toronto, Feb. 5 (CP)—For the eleventh time in its 64-year-old history, the Ontario Tankard returns to the Hamilton Thistle Curling Club. With a 33-27 victory over a pair of Barrie rinks, Thistles last night captured the trophy they first won in 1876.

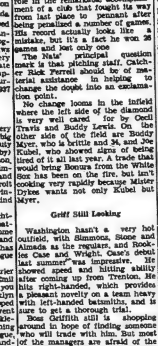
Paced by the "Curling Campbell" brothers—D. H., D. A., and Gordon, Thistles defeated Skip R. Garrett of Barrie on the Granite Club ice by 20-6 and counteracted a 21-15 defeat handed W. H. Welker's Hamilton rink by S. Meredith's Barrie foes.

The Toronto club won the Governor General's trophy, emblematic of district championship, for the seventh time when they skipped by C. R. Redfern and Dr. J. C. Malcomson scored a 31-29 victory over Skip W. Hamilton and Skip T. V. Endicott of Cannington.

Skip Gordon Burden trophy for the first time. The London rinks of F. O. Wilson and Dr. J. A. Wright defeated Windsor rinks of F. Lumb and Hanson by 31-21.

Skip Bert Campbell skipped by J. Perks and A. Little won the Globe and Mail trophy by defeating Skip W. A. Wheeler and Walter Hall of Kingston. The Kingston had eliminated the R. Frost and Bowman rinks from Kitchener by 16-15.

GAME ON MONDAY IMPORTANT ONE



Battling for first and third positions respectively, the Belleville Redmen clash with the R.C.A.F. "Flyers" in the most important game of the current senior O.H.A. series on Monday night.

Last night the Air Force clevaltheir standing to a position within striking distance of the group-leading Peles, while the Redmen fell by the wayside, at the hands of the Queen's "students" and they find themselves tied with "Presbyterians" for third standing in the loop.

Monday the "crimsoned" puckisters battling for first place in the loop and for a chance to "get even" for a defeating handed them by the "Flyers" in the first game of the series. Should the Redmen win the game, they will be assured of a play-off position, and will be tied with Queen's in the matter of points. However, in the event Queen's win two games with the Flyers, which is entirely possible, the Redmen will be in with both contests. Queen's have one game left, a four point tussle with the Air Force squad at the Ice Palace in Kingston. With both the Redmen and the Flyers battling for advantages, from this corner it appears that a Monday night's Flyers-Redmen game is the local ice tipoo is the most important yet to be staged on the loop. Victory by the Air Force want to finish above Petersboro and assure the loop of the Redmen are in a quandary as to finishing elevated to the Queen's outfit with both rockpilers in the positions in the play-off ranks. Sum 'em, won't you think?

Freddie Agostini, the San Francisco, interviewed middleweight champion, canonsided his way to another fistic victory over Glen Lee, the Nebraska challenger, last night. Lee weathered the storm cleverly had rounds to battle Agostini feverishly in the latter rounds, but the conscientious of Fred Steele, the champ, added another victim to his list in an impressive bout. Lee staged a belated rally, but Apostali proved his ability to knock punishment and later belied out a clean-cut victory to again earn the laurels of the uncrowned champion. Both Lee and Apostoli proved their ability to take it but the San Francisco lad is perhaps one of the most popular athletes in the business today. He can give as well as take, being more proficient at the former, however.

In a recent bout on sports writers in an article published in a current weekly publication, "Terrible Bill" Terry, manager of the New York Giants, called some of the metropolitan sports boys "goofs". Bill forgot to mention there are two kinds of heels in baseball, "home" and "road". Some time ago Manager Terry was invited, along with a number of old big league celebrities, to address a gathering of juvenile and junior baseball kids in a southern city. "Aw, nobody helped me when I was a kid. I can't be bothered," is the reply Terry is alleged to have given. Taking into consideration that the Giants pay no

Joe Di Maggio

Fred Apostoli

If expressions mean anything, Fred Apostoli and Joe Dimaggio, two sons of Italy (and San Francisco), are in the throes of a blues in a New York gym.

TWO SAN FRANCISCANS COMBINE ON THE BLUES

note. The middleweight who recently beat champion Fred Steele is a friend of the Yankee slugger and they met again the other day at the Astoria Athletic Club.

CALLING 'EM

Between the Lines

with
Ken J. Colling

"Who said there wasn't plenty of hockey material in Belleville?" asked A. R. "Toots" Holway, former basketball barnone Belleonian as he looked over the Ki-Y groups at the arena last evening. Incidentally there were four groups at the arena for the Ki-Y groups last evening when Joe Sherrit's winter pets pushed off their initial hockey league game of civic puck honors. We were pleased to see Toots "Toots" Holway taking an active interest in the welfare of the city's youthful hockey supreme and "Toots" was highly impressed up the ability displayed by some of the performances. Even "Bouncer" Holway was pretty of his time and referreed the juvenile tilt as his contribution towards the advancement of the winter pastime in Belleville.

"Toots" Holway will be scouting practically every hockey game played in the Ki-Y groups in search of likely looking material for his Belleville Juvenile team which he hopes to enter into the Ontario Juvenile Hockey Association, so the players really have something to shoot for besides their group honors and Ki-Y crests this season.

The "Flyers" surely went to town last night scoring four by count in the first period rampage and then settled back to protect their lead with a good style of defensive hockey in the latter stages, much to the chagrin of brother Perdue and the Peles. Down in Kingston, however, the hometown failed to protect their advantage, when Queens applied the pressure in a third period rally.

CURRENT SPORT . . .

The results of last night's senior "B" games have a rather peculiar significance on the entire group section. The Flyers are really hot these days, as can be seen by their recent O.H.A. demonstrations on the Ice Palace last night. They won 6-3 over the Peles, while the Redmen bowed to Queen's 7-4. The general information of the sport-loving fans, did it ever occur to you that Jerry Barrie's "air-minded" puckisters haven't lost a game in their group since the opening Flyer-Peterboro game here when the Peles rubbed it in 10 to 5 in overtime. Today the Air Force squad is exactly two points behind Peterboro in the group standings while the "flying men" have a four point game with Queen's, as the Peles are buttressed up, insofar as home games are concerned. The Flyers are shooting for first place, you see.

Let's take a gander at the picture from the Redmen's angle. Last night Queen's moved into a tie with the Redmen for third by virtue of a 7-4 win. As there are two play-offs in the group naturally every club is anxious to finish second by and solely towards its own interests. But there is a certain group meeting that the club finishing in first position would have the choice of meeting. Should the Redmen cop third place in the group play-offs, they will be assured of the same privileges would be afforded the third position club over the last place entrant in the intermediate "A" playoff rights. Today we find both the Redmen and Queen's striving strenuously for first and third place respectively. The Redmen can't finish in second place at this late date, but Eddie Thomas' former mates in the form of Walsh's Queen's squad in order to be assured of two home games in the group play-offs. The Flyers are in the same predicament as before as their standing with Peterboro is concerned.

Now for the pay-off—on Monday night the Redmen and Flyers meet for the third time this year in what are down. Both squads have their backs to the wall and are battling terrifically for group position, namely to forge to the fore and finish second in the group standings, as the case may be in their respective positions. The Redmen are in the precarious position, that we find with Queen's in the matter of points. However, in future games they play two games with the Flyers, which is entirely possible, they will be tied with both contests. Queen's have one game left, a four point tussle with the Air Force squad at the Ice Palace in Kingston. With both the Redmen and the Flyers battling for advantages, from this corner it appears that a Monday night's Flyers-Redmen game is the local ice tipoo is the most important yet to be staged on the loop. Victory by the Air Force want to finish above Peterboro and assure the loop of the Redmen are in a quandary as to finishing elevated to the Queen's outfit with both rockpilers in the positions in the play-off ranks. Sum 'em, won't you think?

Freddie Agostoli, the San Francisco, interviewed middleweight champion, canonsided his way to another fistic victory over Glen Lee, the Nebraska challenger, last night. Lee weathered the storm cleverly had rounds to battle Apostoli feverishly in the latter rounds, but the conscientious of Fred Steele, the champ, added another victim to his list in an impressive bout. Lee staged a belated rally, but Apostali proved his ability to knock punishment and later belied out a clean-cut victory to again earn the laurels of the uncrowned champion. Both Lee and Apostoli proved their ability to take it but the San Francisco lad is perhaps one of the most popular athletes in the business today. He can give as well as take, being more proficient at the former, however.

WHAT CANADA DID AT EMPIRE GAMES ON THE FIRST DAY

100-yard dash — Sigurd Nelsen, St. John, N.B., third in preliminary heat; fifth in semi-final (eliminated), Jack Brown, Toronto, second in preliminary heat; third in semi-final (eliminated). Pat Haley, Trail, B.C., third in preliminary heat; fifth in semi-final (eliminated).

Women's 100-yard dash — Barbara Howard, Vancouver, third in preliminary heat; third in semi-final; Jean Hamilton, Aileen Harper, Halifax, third in preliminary heat; fourth in semi-final (eliminated), Jeanette Dolson, Toronto, first in preliminary heat; third in semi-final (eliminated).

1-mile run—Bob Rankine, Preston, Ont., second in heat.

440-yard hurdles — Johnny Loaring, Montreal, second in heat. British Empire Games record of 53.3 seconds bettering old record by 1.5 seconds.

Javelin—James Courtright, Kingston, Ont., won with throw of 206 feet, ¾ inches. Harold Brown, Montreal, Ont., placed fourth with throw of 176 feet, 10½ inches.

High jump—Joe Haley, Trail, B.C., placed ninth; Pat Haley, Trail, B.C. placed ninth; Jim Paton of North Battleford, Sask. placed tenth.

CANADA WINS TWO EVENTS AT EMPIRE GAMES

Johnny Loaring of Windsor Sets New Mark for Games Winning 440 Yard Hurdles

Runs Distance in 52.9 Secs. to Clip 1.5 Seconds Off Old Mark

WIN NO SURPRISE

Five Empire Games Records Broken in First Day of Meet

Sydney, Feb. 5 (CP) — Thick-chested John Loaring of Windsor, Ont., paced a dashing display of record-breaking when the first day of the British Empire Games ended with a mark of 52.9 seconds in the 440-yard hurdles to post one of Canada's two victories in track and field.

Loaring, 22-year-old student at University of Western Ontario, made his specialty with the most impressive show of power delivered by any athlete on opening day. His time was three-tenths of a second slower than the world record set in 1937 by J. A. Gibson of the United States.

Earlier, Nancy Cunningham of Ottawa had given Canada its first triumph with a javelin throw of 102 feet, 9 inches.

19,000 Watch Contests

A crowd of 26,000, including Sydney's cricket grounds, watched the Canadian team score the only double victory of the day. South Africa, Australia, New Zealand and England contributed one triumph each.

Five Empire Games records were broken during the day, and four new marks was that of Loaring. A one-time schoolboy track star, Loaring's win was the first upset in the record time on a close-clipped grass track was played remarkable.

Other record-breakers were Miss Winchester of South Africa who cleared 5 feet, 5¼ inches in the high jump; Decima Norman of Australia, who won the women's 110-yard dash in 11.1 seconds; C. H. Maidment of England, who ran 1 mile 3 minutes, 56.6 seconds in the three miles, and V. P. Boot of New Zealand, who won the 880-yards heat in 1:52.2.

Notable Showing

Except in the men's 100 yards, where the competitors finished in a bunch, only Canadians made a notable showing in track and field. Cyril Nicholson, Toronto, won the sprint in 9.7 seconds and no Canadian was in the final.

Good-looking Jeannette Dolson of Toronto captured third place in the women's 100-yard dash final, won by Decima Norman of Australia in the Empire's fastest time of 11.1 seconds. Miss Norman won her heat and semi-final in the same fast time.

Sensation in Javelin

Bob (Scotty) Hamline, of Preston, Ont., at a distance much too short for him, placed fourth third in the three miles, won by the brilliant Maidment.

If there was any surprise in the results it was a point-winning effort in the 120-yard hurdles by Harold Brown of Milford, Ont., one of the famed Nova Scotia family of Brown placed fourth with a throw of 174 feet, 9-10 inches.

Stith places were won by Barbara Howard of Vancouver in the women's sprint and Joe Haley, veteran from Trail, B.C., in the high jump.

Top-ranking star of the day, Loaring joins a host of other Canadians and one New Zealander in the 400 metre hurdles finals. There was never a question of the result, the Windsor youth handling his perfect style and easy strength for a stretch drive.

Semis Scored

Loaring broke the 54.4 seconds record for the event held by the late Lord Burghley of England. Burghley later turned Olympic champion at his specialty. Loaring placed second in the 1936 400-metre trial to Glenn Cunningham of United States.

Courtright produced his winning javelin throw in the preliminary round, the second place going into the final was Sydney Lay of New Zealand, who set the Empire record of 207 feet, 1 inch, but Lay came through with a throw of 204 feet, 1-4 inches, a mark which also consolidated his second placing. Jack Metcalfe of Australia was third at 185 feet, 5 inches.

Going Stiff in Dash

Canada's sprinting found the going too stiff in the dash. Sigurd Nielsen of Montreal finished in the semi-finals. Jack Harrison of Vancouver failed to qualify in his first heat, placing fifth.

Nielsen had only a few inches back of H. S. Yates, Australia, after a terrific stretch battle, in the opening heat of the quarter-mile trials. Jack of South Africa finished first in the second heat, the same time made by winners in the other three heats.

The 100-yard dash was a sprinter's war out of the running in the semi-final, finishing fifth.

Brown qualified easily in his heat, running smoothly to finish behind J. Montgomery of Australia, and the lanky Haley had no difficulty in placing third in his heat behind Jack Metcalfe of Australia, second and the rest of the field

CANADA'S EMPIRE ENTRIES MONDAY

By The Canadian Press

Men's 110-yard freestyle— George Burleigh, Toronto; Bob Pirie, Toronto.

Women's 110-yard freestyle — Phyllis Dewar, Toronto; Dorothy Lyon, Toronto; Mary Baggsley, Vancouver.

Men's 1,650-yard freestyle—Bobby Hooper, Vancouver; Bob Pirie, Toronto; George Irwin, Toronto.

Women's 440-yard freestyle—Dorothy Nelson, Brandon; Phyllis Dewar, Vancouver; Mary Baggsley, Vancouver.

Boxing

Flyweight—Joe Gagnon, Montreal.

Bantamweight—Jerry Brade, Winnipeg.

Lightweight—Harry Hurst, St. Catharines, Ont.

Welterweight—Norman Dawson, Montreal.

Middleweight—Rex Carey, Victoria.

Heavyweight — Tommy Osborne, Montreal.

Wrestling

Bantamweight—Vernon Blake, Montreal.

Featherweight — Larry Clarke, Montreal.

Middleweight—Terry Evans, Toronto.

Heavyweight—Jack Whalen, Vancouver.

back.

Both Canadian dashmen were unable to meet the faster pace in the semi-finals. In the first heat, D. Brown was second at the 75-yard mark but could not hold it to touch with Haley at his heels.

J. N. Cumberbatch, Trinidad's sole sprint representative, survived his opening heat, placing third behind Brown. In his semi-final he lost the third qualifying berth to Yates.

England Wins 100

In the 100-yard event Holmes turned on a burst of speed to lead Cumberland and E. W. Rest of Australia to the tape in that order.

Three Canadian girls likewise survived opening heats in the 100-yard dash of their division, and two won through to the finals, where Dolson, to Jeanie Dolson finished third. Miss Norman of Vancouver was sixth and last.

Miss Dolson won her preliminary heat in 11.6 seconds and Howard was third in her heat won by Barbara Graham, Sydney. Burke who finished in 11.1. The semi-finals were held up when Seeding of the Empire's sprint and Joe Haley, veteran from Trail, B.C., in the high jump.

Top-ranking star of the day, Loaring joins a host of other Canadians and one New Zealander in the 400 metre hurdles finals. There was never a question of the result, the Windsor youth handling his perfect style and easy strength for a stretch drive.

ALBERT COLLEGE HOOPSTERS SPLIT AGAINST NAPANEE

Senior Squad Wins 47 to 24 While Juniors Defeated 19 to 9

GOOD CONTESTS

Seniors Play Rapid Passing Game to Bewilder Opponents

Coach Pete Beach's Albert College basketeers split a twin bill of O.B.S.A. intermediate basketball in their Bay of Quinte group, with the Napanee Collegiate hoopsters on the home courts last evening. The Albert College seniors triumphed over the Napanee students" 47 to 24, while Coach Egan's Gibbsonville junior interscholastic quintette returned home on the long end of an 19 to 9 score over the Albert junior boys.

Led by Captain Doc. Pillmore and Coburn, their speedy forwards, the Albert seniors went out into an early game lead in the senior secondary school tussle and were leading 20 to 10 at the halfway mark. Coburn scored 13 and Pillmore 11 of Albert's 47 points. Paul, rangy centre of the visitors, was the leading scorer of the game, however, bagging 14 of Napanee's 24 points. Albert College's defensive threat of the Egantics and was continually fed the ball by Jack Hall. Beach's coached Albert seniors played a clever, fast passing game, which bewildered their opponents while on the attack and were by far the more superior team on the floor throughout by the Albert seniors moved them into the O.B.S.A. group of the Bay of Quinte senior C.O.S.S.A. interscholastic group race with Trenton and Belleville.

Lead Ice Great

Although the Albert juniors staged a gallant last half rally against the Napanee juniors, the collegiates could not overcome the tremendous lead piled up by the visiting squad in the first half, when they forged into the lead by a 13 to 2 score at the half-way mark and ultimately winning 19 to 9. McCracken and Clarke were the chief marksmen for the victorious Napanee juniors, while Young led the Alberts on the offensive, being the only Albert and Pearce. Napanee checked well throughout, the Albert boys in the initial half when the Alberts only scored one basket.

Both games were marked by remarkably clean basketball, although the contests were quite emotionally fast and despite the fact the Alberts practically doubled the score on Napanee had the battle was keenly contested.

First Period Splurge Enough For Flyers to Win Over Petes Although Outplayed in Second

Score is 6-3 With Airmen Protecting Early Lead

HARDING HURT

Wigret and Ernie McNeeley Share Scoring Honors in Fastime

Peterboro, Ont., Feb. 5 (CP)—The Trenton Flyers took a 6-3 win over Peterboro here last night in the O.H.A. senior "B" fixture before 1,-900 fans.

The 1937 intermediate "A" champions scored four goals in a big first frame and successively withstood the locals' attack the rest of the way to earn the nod. It was a lively game but slowed up in the third period owing to the fact that the ice did not materially affect the standing as the Petes are still in first place, although the Talmen advanced to within two points of the group-leading Petes.

Turned On Heat.

Turning on the heat in a typical Trenton opening, the airmen made the homesters look bad in the first few minutes, and the visitors had the win in 4-0 lead. The locals came back strongly in the second session and had a 3-0 edge as well as suffering at least half a dozen fine scoring chances.

They outplayed the winners by a good margin in the third period to close checking by the Fliers held them off.

It was speedy and about even for a time in the first and then the Flyers began bunching it on with fast stepping and some neat passing plays at defence. Ernie McNeeley notched the first in three minutes on a pass from Lecompte going through the defence. Wiggett made it 2-0 shortly when his shot from behind went in off the goalie. Ernie McNeeley took Wiggett's pass sifting through the defence to blast a tight one by Harding. The Flyers wound up the period with the edge on play and made it 4-0 when Cowley took a pass from Wiggett and buried it into the twine.

Petes Had Margin.

The second stanza was something else again and the Petes had a big margin on play all the way. They started from the start and muffled a number of grand scoring chances in the range in Les Flynn despite shely checked and shot down the ice to relieve pressure.

Gratton took Klingdon's pasnout early to notch a neat one. A Brennan-Starr combination made it two. The McDougall faked a pass and breezed one to the left of Harding to make the count 4-2.

In the third was slower but the Petes kept up the attack, though checked well. A Welr-McDougall drive made Johnson jump and Gratton broke the cut over the eye as he stopped a hard drive by Ernie McNeeley.

Play was held up 13 minutes and McNabb took up the net minding chore for the Petes. Meanwhile the five men up the last ten minutes and tore the defence apart several times but left themselves open to the body breakaways.

Flyers — Goal, Gibson; defence, Lalonde and Partridge; centre, Lecompte; wings, Ernie McNeeley; alternates, Cowley, Eric McNeeley, Wiggett, Klingdon, Elliott.

Petes—Goal, Harding and McNabb; defence, Weir and William-son; centre, Calladine; wings, Starr and Brennan; alternates, Gratton, Kingdon, Gratton, Barnes, Brennan.

Referee—Bert Hodges, Toronto.

Summary:

First Period.

Flyers...Ernie McNeeley (Le-compte) 3.00

Flyers...Wiggett 5.00

Flyers...Cowley (Wiggett) 12.00

Flyers...Cowley (Wiggett) 17.00

Penalties—Partridge, Vilarelli, Ernie McNeeley.

Second Period.

Petes ....Gratton (Kingdon) . 1.00

Petes ....McDougall 8.00

Penalties—Vilarelli, Starr, Partridge, Lalonde.

Third Period.

Petes....Brennan 12.00

Flyers....Legris (Ernie McNeeley) 13.00

Flyers....Lecompte (Ernie McNeeley) 14.00

No penalties.

That is Joe has done so, so far as Toronto is concerned, is no surprise. But as one dubious one remarked "They'll never fix the bout," the corpulent Tony will run into a fighter that will put him out of the ring in two or three rounds. . . . But first of all they will have to persuade the unpredictable Tony to get into the ring . . . . He displays a fanny knowledge of why Jacobs did it and it will be a clever promoter, that can induce the corpulent one to enter the ring until he knows beforehand that his chances will be at least 50-50.

CHIPS from the SPORT BLOCK

By Geo. H. Carver

Aint it the truth. Just at the time when a hockey team has the old tits brushed and groomed and ready to join the waving mob the boys are beginning to figure their chances of copping the provincial crown along comes their worst enemy and right in front of the whole town tramps and their wives and sweethearts, sets the grandstand on fire, and the old haunches and before you can say Jack Robinson have got them beat, tied, tongue-tied and petrified with the awful truth that they have absorbed a severe shellacking from the out-of-towners.

. . . .

Takes these peaky Petes for instance. Ever since they stormed the hangar of the Phalleting Flyers in the last memorable night of the beginning of the season, they have been holding their hockey heads higher than a small town debutante, and aided and abetted by visions of the other members of the group have sat on the top rung of the long ladder and thought more or less disdainful countenance the rest of the league sisters to the right to battle them for the group title. . . . .

. . . .

And now enter the villains . . . . The Lawrence-led laddies who suddenly from behind the cowpaps on the hockey homestead a year ago, came suddenly to life. . . . . They plastered the Petes with unmercifully haughty Petes in their first till in the Lindsay village . . . . and behold, last eventide while the ring master was busy with the affairs of the fallthal, darned if the mercuries from the Trenton Highway didn't slip over a couple of fair chip of perhaps and perdues, and by virtue of a nifty display of the winter partimes, sent the home fans home aghast, the hitherto hot No 1 now, with Petes leaving the ice in a defeat plastered on their tails. . . . .

. . . .

And we await with more or less trepidation the poetic drips from the pen of Poet Perdue. . . . .

. . . .

And while the Flyers wer chortling with glee over their win a humdinger squad pounded the homeward, deep in the depth of despair, for their highly touted junior squad, in spite of the fact that the Board of Strategy had changed its name to the Board of Control, to live up to the fine things said about them, were given the works by Brantcombe-managed lads for this year at least. . . . .

. . . .

The game was nothing more or less than a hockey workout for the Napanee sextette. . . . .Scoring three goals against the enemy's two in the first period, they were essentially produced the best hockey of the game, Harding working wonders and scored at will during the second and third periods. . . . .Biz in the second and six more in the third tells the sad story. . . . . In all fairness to the Picton squad there were minus the services of their stellar defence pair, Bert Brennan and Cranks, injured in the first game of the series. . . . . But the addition of the two would undoubtedly not have made much difference. . . . . Both Bert and Cranks are the best wee ballyhoood to be a hockey game turned out to be a rout. . . . .

. . . .

And the Black-Hawk prospect, Walter, junior, had no less than eleven scoring points added to his already impressive total. . . . . The youngster rammed home five goals and was credited with six assists. . . . .Twain-mates Leary and Evans got two and one respectively . . . . And a hitherto unsung star of the squad, Darrell, second string centre in goalkeep four of the scoring plums himself. . . . .

. . . .

Tony Galento, the beer-gumming cigar-smoking heavyweight boxer from Orange, N.J., who pounds meat holding their hands up in horror at his training methods, is booked to swap punch. . . with Harry Thomas. . . . . The round Italian, who boasts at least two double chins on his abdomen quaffs numerous flagons of beer between rounds on a cigar, the fumes of which would asphyxiate a bull moose, climbs into the ring and proceeds to polish off his opponent with the greatest of ease.

SWEENY SCHRINER SCORING ACE OF AMERKS IN SLUMP

Has Lost Weight And Is Lackadaisical in His Playing

BEING EDGED OUT

Division Leaders, Bruins And Leafs Meet in Toronto

They're whispering around the National League hockey circuit these days that if Sweeney Schriner does not soon snap out of it New York Americans will be a-be behind the eight ball they won't be able to see a play-off spot with a telescope. . . . . Amerks are in the depths of a slump that has been equalled this season only by those champion slumpers, Detroit Red Wings. Red Dutton's fine-looking boys have developed a powder puff technique that is rapidly casting them out of the play-off picture. . . . . .

They haven't won a game in a month. They've lost eight straight starts and in nine contests have netted exactly three points. . . . . .

Sir. A Schriner slump begun just at the time Amerks started slipping from the top rung. . . . . Indications that the Calgary left winger can't get going is just a guess. . . . . .

Using their weight at every opportunity and playing a bruising game in the pinches, the students continually carried the play to the Redmen. In the second period Schriner came along the westerner lost his scoring punch. . . . . Ebbie Goodfellow scored once and got two assists. That's at least half a dozen goals the Amerk ace should have had. . . . . So for Schriner, far down in the scoring list, has only seven tallies, thirteen goals and seven assists. . . . . .

He has lost weight and his pigskin has become unbalanced. He can't take passes from Art Chapman and Hec Kilrea with the result that that line was going at its best. As the American Star-to-Watch-for-1938 he shouldn't be stale at this stage of the season but there is definitely something wrong with him. . . . . .

Montreal fans may be able to figure what it is tonight when Americans step into the Quebec city for a game with Canadiens, one of the five contests on the Amerks' home calendar. Dutton announced last night that Lt. Ellis Hamell, the young left winger to add fire to the Amerk attack. . . . . .

Boston Bruins and Maple Leafs meet in Toronto tonight for a test that should tell much about which the strong defensive play they first exhibited against Montreal on Tuesday. They may find it a tougher job to bump the speed out of Bruins than Habitants. . . . . .

After that battle Leafs entrain for Detroit and Boston and Toronto tomorrow night while Bruins move into Montreal. . . . . After a lay-off necessitated by a bit of indigestion that followed a 10oth extravaganza, Toronto Leafs' star defence pair, Red Horner and Clarence Cowick, a 163-pound left winger from the Kansas City club as Canadiens' replacement. Cpl. Ivan Nicholson, a 163-pound left winger from the Kansas City club as Canadiens' replacement. He will attempt to fill the gap left by injuries to Joe Lamb and Paul Shill in the Thursday game with Montreal Maroons. . . . . .

Tricolor Defeats Redmen 7-4 To Obtain Third Place Tie In Game Devoid of Thrills

Students Score Five in Last Frame to Cinch Contest

FIRST LINE BEST

W. Jackson With Two, C. Jackson And Murphy Obtain Counters

Sniping four goals and giving an assist for another, "Slim" Donnibee carried the Queen's team to victory over the Belleville Seniors in a senior "B" contest last night at the Jack Harpy Arena, in Kingston and seal the Redmen for third place in the standing. The score was 7-4 and the points and all the Queen students went to town in the last frame when they scored five times to further the contest went the more completely the Redmen became discouraged. . . . . The Tricolor squad accounting in the first period on two quick goals and were able to coast back after being tied up in the third to go out in front but Queen's settled the tying goal and from then till the end of the pastime, the contest was just a gesture. . . . . .

Using their weight at every opportunity and playing a bruising game in the pinches, the students continually carried the play to the Redmen. In the second period Schriner came along the westerner lost his scoring punch. . . . . Ebbie Goodfellow scored once and got two assists. That's at least half a dozen goals the Amerk ace should have had. . . . . So for Schriner, far down in the scoring list, has only seven tallies, thirteen goals and seven assists. . . . . .

He has lost weight and his pigskin has become unbalanced. He can't taking passes from Art Chapman and Hec Kilrea with the result that that line was going at its best. GOODYEARS WIN OVER KITCHENER

By The Canadian Press

Toronto Goodyears, as nice a bit of hockey talent as one can find anywhere assembled under the leadership of the Ontario Hockey Association Senior "A" group proved away in a stout bunap bag.

The bag was weaved from a string of 11 goals and but one season without defeat and sewed up last night with the 3-2 win they scored over Kitchener Greenshirts.

Port Colborne Sailors, after pulling strings all season to keep Goodyears' leadership from being secure were unable to do it in the Toronto gang's way last night. Best the Sailors could do was to hold Kitchener to a two-goal lead in the second period but until this week, to a 3-3 draw. Even at that, the Tars had to catch up to a two-goal lead Kitchener's grabbed in the first period.

Last night's game gave Goodyears a four-point edge over the Sailors as far as league-standing went, the 14 games this season. Goodyears have gathered 23 points from 10 victories, two draws and two defeats.

HITTING the HEAD PIN

SPARE BOWLING

Many players fail to take the advantage of the proper angles in hitting for spares, with the result they have one or more jinx spares. When you make sure you are no better off than picking a lead pin, which is the stopper in the five-pin game. The four and five pins are the principal spares. If the player consistently misses the four-pin, outside or inside, it is the case of the wing angle for hip hook. . . . . The player should aim from right to left and the ball has a tendency to hit the gutter you are taking up too much alley and should move to the right of the alley. If you miss it inside, move more to the right, and the same applies to the number five pin. . . . . .

Another suggestion and a very good one for this five-pin, is to visualize the three-pin from the left of the alley without forcing the ball. I am sure this will prove very successful for you, with a little practice and much reward. . . . . .

When bowling on the right side of the alley, the tendency is to come out, move to the left of the alley. You have two chances for the spare either by striking in the 1-3 pocket or the ball glancing from the right of the head pin. If the two-pin is taken out it is obvious that you continue from the right. When rolling from the left side just vice versa.

Sports Roundup

(By Sid Feder, Associated Press Sports Writer)

New York, Feb. 5 (AP)—Don't let those DiMaggio squawks fool you none. The Second Baseman Cardenal's sign for $27,500—and get it. . . . Lou Gehrig is going to holler for $40,000. . . . and wind up somewhat short of that figure. . . . Yessiree, the Yankees have made some odd changes before heading for New Orleans by wowing the natives by lapping those grapplers who won't be back for the Yanks' bowing bout again in Cleveland and Boston and Chicago. . . . . Joe Louis is the latest out of the cracker barrel.

Out of the baseball rosters: Washington Senators can't even give the first names of their players. . . . But take no trouble to list their weights. . . . A single is married. . . . Score: Bachelors 18, ball-and-chain boys 0. . . . . Cincy got burned out by the Boston Red Sox, giving detailed data on every player's performance for last year, whether in the majors or minors. . . . . International League and American Association contributing the players to the Hub's entry in the spring revival. . . . With the pennant winners, Newark and Columbus, sending 11 and 13, respectively. . . . Carl Hubbel's brother-in-law plies the double-A this year, with Jersey City.

Frankie Frisch figures he'll have more trouble signing Joe Stripp than any of the other Cardinal holdouts—most excluding Dizzy Dean and Ducksy Medwick. . . . Joe wants $15,000, which is big dough, Sir Lou. . . . They're finally tearing two Tony Galento away from his training quarters in Orange, N.J., for his Harry Thomas bunk. . . . Trainer is anticipating him today and taking him out to Madame Sey's by force.

Sharp Reduction in Estimates at Cobourg

Cobourg Ont., Feb. 4.—(CP)—Representing a saving of approximately two mills in the tax rate, a sharp reduction was made this year in the collegiate estimates, with requisition to the town amounting to $42,634, compared with $57,000 in 1937.

Revenue was larger than expected last year so the estimated government grant was $1,400 while actual grant was $4,360. There was a balance of $10,000 and in accordance with the plan of reducing the surplus by one third each year, he requisition was reduced by $4,633. Estimates of the Public School Board amounting to $25,676, about the same sum as last year.

MRS. R. D. MILFORD PICTON, BREAKS ARM

Falling heavily to the pavement when she tripped over the sill of the doorway of her home, Mrs. R. D. Milford, Picton, sustained a triple fracture of the right arm.

Carried inside her home on Mary Street West, the injured woman was given medical treatment and ordered by Dr. Prince Edward County Memorial where the fractures were reported at present she is resting comfortably.

IN MEMORIAM

FRIENDSHIP—In loving memory of our dear mother, Mrs. Jr. Frederick Hallowell, Ont., who passed away, Feb. 5th., 1934.
It is not at the time that tears are shed,
That tell of a heart that is torn,
But the lonely tears of the after years
And remembrance
Silently borne.
—Ever remembered by Daughter. f5-1t

ZAKOS—Died Feb. 7, 1936.
We think of him in silence,
His name we oft recall,
There is nothing left to answer,
But his memory and his picture
on the wall.
—Ever remembered by Wife, Daughter and Son. f5-1t

WILLIAMS—In loving memory of a dear wife and mother, Harriet Williams, who passed away February 5, 1927.
Peacefully sleeping, resting at last,
The world's weary troubles and
cares in the past,
In silence she suffered, in patience
she bore,
Till God called her home to suffer
no more.
—Fondly remembered by Husband, Daughter and Son. f5-1t

BIRTHS

ANTHONY—At St. Thomas Memorial Hospital on Feb. 4, to Mr. and Mrs. Charles Anthony (nee Irene Baker), the gift of a daughter. f5-1t

LIKELY HATCHED IN WARM CRANNY
"Woolly Bear" Caterpillar Seen on College Street

Signs of Spring were apparent in the city this morning when Cowling Bros. slow way over a snowbank of College Street early today a "Woolly Bear" caterpillar was successfully labelled by entomologists of the local Dominion Entomological Laboratory, was found and exhibited to the daily Ontario Intelligencer by Harold Sanson, Bridge Street.

The appearance of such caterpillars at this time of the year is not so rare, it was reported by the local laboratory.

The insect was probably hatched out in some sun-warmed cranny and started wandering. We often have reports of them at this time of the year", stated Dr. A. B. Baird, local laboratory chief.

Investigate Reports On White Slave Ring

Hollywood, Feb. 5.—(AP)—Officers of the Sheriff's vice detail today investigated reports that a white slave ring chose victims from Hollywood's pretty film aspirants.

The inquiry was launched after Larry Crosby, broker and insurance salesman of Bing Crosby, reported to Capt. Robert P. Cook, that a woman masquerading as an agent connected with Crosby lured girls to his offices.

There, Crosby charged, the girls were paraded, and the scantily-clad, before "buyers" of the ring who masqueraded as radio and screen executives.

Crosby said irate mothers of many girls had registered complaints with him.

STARTS 18TH YEAR ON SAME COMMITTEE

Chairman James A. Moore of the Hastings County Roads and Bridges Committee inaugurated the fifteenth consecutive year in his office of chairman yesterday at Stirling Hall when the committee for 1938 held its first meeting.

Passing of accounts and the formation of tentative plans for the coming year occupied the time of members at the session.

Board Room Gossip

As supplied by Biggar and Crawford By Financial Service

Market Comment

The action of the market yesterday morning indicated a state of nervousness on the part of the trading public. The weakness was, of course, was a direct result of the break in Wall Street. Values at the present time have little or no meaning, for the reason that the public is nervous and sells stocks without regard to intrinsic worth.

It is a most difficult market to forecast. Stocks have largely discounted the bad news of the situation, but as always happens, prices usually go lower than they should the same as they go higher than they should in a rising market. About the best advice that can be offered at the moment is not to "rock" the boat but to acquire the better grade and more attractively situated equities on all sharp recessions, and then only on a scale. In this manner, an investor can complete a fair position at a good average that should show him a profit in a moderate length of time.

No Evidence of Foreign Selling

Foreign exchange circles in New York state there is little evidence of any selling of American securities on balance. However, European activity in Wall Street is at low ebb at the moment.

BRIDGE STREET UNITED CHURCH BOYS HOLD FETE

First Program of Kind is Given by Boys of Church

Friday evening was Boys' Night in Bridge Street United Church S.S. auditorium. Scores of boys were of course, present from the classes of Messrs. D. W. Moore of Joseph Aspin and Don Smallbone. Many members, parents, adults and members of the choir were naturally in attendance to take in the program rendered and for witnessing the unique features of the proceedings.

The first item comprised piano selections by Mr. Ralph Clapp in his usual clever style of execution at an opening number and his accompaniment of the evening.

Mr. D. W. Moore was chairman of the occasion and welcomed all who had come out manifesting their interest in the various endeavours to be presented over what he hoped are led to undertake also in weekly activities in the church.

Under the direction of Messrs. Aspin and Smallbone the Explorer's Club presented a number of their regular sessions in which a new member became initiated by a very impressive candle-stick ceremony. Those boy put on a splendid play, old, and amusing scene concerning "A Freshman at College" in which a baffling situation arose out of mistaken identity and the wrath of the master brought to a head when wrongly kidnapped in the uproar.

Mr. Ivan Sparks of Albert College, who has during the year elected as member for their consistency to the Order of Boys' provincial parliament, gave an able report of what was accomplished along the lines of temperance and the peace movement.

Chalk talks and exemplifying case entertainment as possible in rag formation by Mr. Don Smallbone, a promising local cartoonist, delighted as ever, particularly that portraying the dear old Lady of the Cherry washer-woman.

In an exhibition of what the Rangers' section covers under the efficient leadership of Mr. D. W. Moore, much interesting care was shilly was fanthied. How boys are trained to meet with dospalch, ex through business matters affecting their interests, roll-calls, songs, games, and the reading of the open minutes of proceedings augurs well for the future of our land. In the real presentation of badges, Douglas Noble by plain unanimous vote was unable to be certified to at the hand of Mr. Geo. N. Mayhew, Mr. Ivan Several of the group passed the Health test requirements, and will, no doubt, in due time prove his qualification in the Tuxis Square work.

Armstrong Boyle and Douglas Latimer recited clearly and effectively the purpose and objects of the organization. Don Moore assisted well in a pantomime demonstration of "Getting Up" the closer you watch the less you see" was sort of the theme. Some of the trained Rangers skrich was amusingly put across by Fred Dash and Frank Bailey.

Greetings from a previously honored enthusiast in the person of Rangers' Leader Ivan Sparks of a vivid description of the workings of the session of the Order of the Older Boys' provincial parliament at McMaster University in Hamilton where he was in good form as the member from Belleville, who dwelt at length on the interest of the same as to leadership aims, camp affairs, further Public Organization group and the publication of their paper, called "The New Citizen". The breadth of the fellowship and association sought out of enlarged contacts meant a much deal of youth, opined Rose Clare.

Mr Howard Young of Port Arthur, a visitor to the session, reported the time developments there under the Order of Boys in good type and he complimented the boys upon what was done here in the visual training that such parliament privileges.

In the obligating of Jim Hardy, a new member, into the Trail Ranger Band it was proven that he could be elevated to a higher plane. The fourfold phases of Luke 2: 52 viz.—Intellectual, Physical, Religious and Social were characteristically expressed in the ceremonial initiation of their program. The closing scene put on by the older boys was a summons of the Rangers to rise utilized an improvised campfire setting with appropriate words spoken for additional effect. The choruses by the Rangers such as "Carry Me Back To Ole Virginny", "Real Live Boys", and the National Anthem, brought to a close a pleasant evening to the evening.

Mr. Boyle hoped that this first elaborate effort will not be the last but in future will be more extensively supported because the portraying of what is in store for the younger boys of the community's significance to our advancing citizenship and nation.

"NO FIRST ROBIN"

Kingston, Feb. 3 (CP)—There's no such thing as a "first robin" in Kingston, according to an ornithologist who preferred to remain unnamed. "There is no first robin in general because the robins leave the fields have never gone away; they stay here all winter," he said, but he doesn't know just why.

SEARCH FOR VICTIMS AFTER REBEL 'PLANES BOMB BARCELONA

Rushing into action after the first Rebel General Franco's blockwinged bombers had wheeled over Barcelona, Spain, dropping huge aerial bombs which slew hundreds of civilians, these Red Cross workers were themselves trapped when the attacking 'planes swept back across the city and buried new destruction into the smoking ruins. The raid was Franco's answer to loyalist requests for a cessation of bombing of open towns. The Red Cross and ambulance brigades are pushing through the wreckage in their search for victims in this picture.

LOCOMOTIVES FROM U. S. OUTWARD BOUND FOR CHINA

Partially obscured by the Philadelphia-Camden bridge, the freighter S. S. Bahnstra, Norwegian, is shown going down the Delaware river with China her ultimate destination. The ship carries a cargo of 10 locomotives and 10 tenders for Chinese railroads. The locomotives, standard Mogul type, are the only big Chinese port still open for direct trade with the world. The engines may be seen on deck.

ing even than last year's "The Great Ziegfeld."

The popular Belle World News events will be presented on the same program.

Performances start daily at 2.30, 7.00 and 9.15. The feature attraction "Rosalie" begins at 2.54, 7.25 and 9.26 p.m.

Myrna Loy Next

The Belle February Festival of hits continues on Wednesday, when the Queen of the Screen, Myrna Loy (you voted her this title) appears in her latest romantic comedy "Man-Proof," featuring Franchot Tone, Rosalind Russell and Walter Pidgeon. An old favorite, Lewis Stone returns in the delightful feature attraction "You're Only Young Once," featuring Cecilia Parker and Mickey Rooney.

A one-volume history of England by a Frenchman, who still admires England and the English, is an event in the literary world. When the writer is Andre Maurois the occasion is an important one. In his book "The Miracle of England" this accomplished French writer gives an account of the rise of England to her prominence and present position, from prehistoric times to the abdication of Edward VIII. His theme as an interpreter and liason officer with the British during the World War, M. Maurois became interested in the English and their ways and his observations convinced him that here was a people that would delight the reader. The difficulty of summarizing the important epochs of English history is overcome in admirable fashion and "The Miracle of England" is a miracle of compression of facts. Those who have enjoyed the author's biographies "Byron" and "Disraeli" will want to read this volume which has been called "the most enduringly important piece of work its author has ever done."

The saga of an American reporter who is today an international correspondent of note, is told in Linton Wells in his autobiography "Blood on the Moon". Mr. Wells has spent the last quarter of a century following adventure around the globe as earthquake in Japan, a sea voyage with Fie Prince of Wales, a record girdling aeroplane flight —wars and revolutions. He writes in a highly entertaining fashion, scattering an all sides his opinions on Chinese culture, Philippine independence, Irish civilization, peace and preparedness. If the reader is tempted to say "Stop, let us talk this over. There are two side to this question", it will be too late for Mr. Wells will be by that time, off to the other side of the world in search of new excitement.

A typical book for uninformed Canadians is William Strange's "Canada, the Pacific and War". Realizing the need for a book describing the situation in the Far East and its affects Canada, Mr. Strange gives an indication of the background of the situation. He maintains that this knowledge something of the facts, and of the long story behind it all is a help to "condemn either side out of hand". The author writes in his lucid style which has made him so popular as a book reviewer on the Canadian radio. "The Far Eastern problem is no superficial matter . . . but a matter which is fundamental to all" states the writer. "The peace and the very civilization of West, as well as East, are at stake."

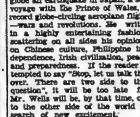
The story of the Canadian National Party is told by H. H. Williams in her book "Guardians of the Wild". It is only within the last twenty-five years that the conservation of plant and animal life has been achieved and the author traces the interesting story from its beginning. Part of the movement from the first, Mrs. Williams tells of the rescue of the buffalo, elk and antelope from wild destruction of the lives and difficulties of Parks Curators and of the dangers to which a number of real-life animal stories are included as well.—K. G.

Lonsdale

Lonsdale—Owing to the recent rain and mild weather that has taken the snow away considerably, which has made the roads much better for travelling.

The regular services was held in Lonsdale Church on Sunday with the Rev. Mr. Craig in charge.

Mr. and Mrs. Lorne Bush, Belleville spent the week end with relatives.



Miss Ruby Storr is a patient in the Belleville General Hospital. All hope for a speedy recovery.

The regular telephone meeting for the year was held in the home of Lonsdale on Monday afternoon.

Mr. Jesse Archer called on friends in this neighborhood on Sunday.

Mr. Alvin Gallagher, who is staying in Napanee for the winter months was home for the week-end.

Mr. Wilson Dowdle was in Melrose one day last week.

Eggs contain minerals, vitamins, body-building substances and vitamins, hence they are good food for children. Still good for us to serve one egg a day in the consomme.

SWEATER WEEK AT MEAGHER'S

Mountain View

Mountain View—Mrs. Geo. Lough returned home on Monday after spending a month with her parents, Mr. and Mrs. Jesse Barlow of Rockport.

Miss Lillian Sprague spent the week-end with her cousin Mr. and Mrs. Geo. Neal and family.

Mr. Grant McKitterick spent Sunday the guest of Mr. Murray Black.

Mr. and Mrs. Sherman Weir of Bowerman's spent the tea hour on Friday with Mr. and Mrs. Jay Spencer and family.

Mr. Walter Hamilton spent the week-end with his cousin Mr. Elmer Tutt at Zion Hill.

A number from this vicinity attended the funeral of the late Dr. R. S. McCreary at Belleville on Monday afternoon.

Mr. Basil McMasters spent the week-end with home in Highgate.

Mr. and Mrs. Jay Sprague and Spencer spent the tea hour on Sunday with Mr. and Mrs. James Way and family of Bowerman's.

Mr. Dan Hamilton and Mr. Seymour Hamilton attended the funeral held by Belleville on Walton in Ungava held at Christ Church Parish Hall on Tuesday night.

On Monday night the Mountain View W. I. held their meeting at Ruth's island school house with a good attendance. The meeting was opened with the use of hymn No. 7 followed by prayer. Scripture lesson was read by Mr. Webster Wilson. The Secretary's report was then given. Hymn No. 5, and Benediction brought the Devotional period to a close. A dialogue and games formed the recreation.

Doris Lough had the misfortune to fall while skating on Wednesday afternoon and break her arm.

Mrs. Stanley Sprague spent Tuesday with Mr. and Mrs. Frank Conley and family of Big Island.

Mr. and Mrs. Stanley Sprague spent Tuesday afternoon with Mr. Jessie Sprague.

The Mountain View Women's Institute held their banquet in the Sunday School room on Wednesday night. The tables were prettily decorated with daffodils and greenery in the Institute colors. Shortly after seven o'clock the faithful members and their families and friends sat down to the tables laden with delicious foods of all kind. After emoying the banquet, toasts were proposed. Mrs. Lewis Wallbridge president of the Mountain View Institute acted as toastmistress. Jack Thomas of Centre very capably proposed the toast to "The King" after drinking to the toast all joined in singing, "Save the King". Mr. Albert Hillman then favored with a solo Mr. Basil McMasters proposed the toast to the Women's Institute paying high fribute to their work throughout Canada and wherever it has reached. Also its splendid work in our own community. This toast was very capably responded to by Mrs. M. B. Wrese of the Mountain View Women's Institute who is a very enthusiastic worker in the Institute.

Mrs. D. E Sayers of Picton was then introduced as the evening's guest. Mrs. Sayers was among those privileged ones who attended the Coronation in London. While in England last May, Mrs. Sayers was the guide and chaperone of a winner of the Globe and Mail Women's Institute contest. In giving description of the trip to England and the proceedings of the Coronation service. A splendid vocal duet was then rendered by Misses Shannon and Shirley Wilson. Mr. Albert Hillman's second selection brought the programme to a close. A vote of thanks was proposed by Mrs. A. Nightingale and seconded by Mrs. Wrese to those who helped make the evening such a delightful one.

The National Anthem was then sung.

Albury

Albury—The last Matron's Club of Quinte Chapter O. E. S. met at the home of Mrs. Ross Weir on Tuesday afternoon.

Mr. T. Weir's choir social evening at Albury Church on Monday evening with a splendid attendance. Games and contests were played and lunch was served consisting of delicious refreshments. A meeting was held the same evening to plan for the Box Social which will be held soon.

Owing to the bad weather there was no church or Sunday School on Sunday.

The funeral of Mrs. Kate Carnrite was held in Albury Church at 2 o'clock on Monday afternoon. Rev. H. Boomhour conducted the service.

A few from this way attended the Y. P. U. meeting at Rednersville on Monday evening.

The Albury Ladies' Aid met at the home of Mrs. Ross Hunter on Tuesday afternoon with a good number present. Mrs. Ben Bryant took charge of the meeting. Mrs. Errt Ostenkenk won the musical contest and Mrs. Albert Sager won an apron.

Mary Williamson had a serious accident when she was riding down hill before school on Wednesday. Dr. Marshall and Dr. Robertson set the jaw where it was broken in two places. We all wish her a speedy recovery.

Whispers

By DUFORD JENNE

As Ruth Avery turned to open the cottage door, she heard a low voice call through the dusk from the garden.

"Hello, Ruth!"

Only one voice in the world could put that tender cadence into her name, and he was dead! He continued away, but the voic spoke again, a firm step sounded on the path; and then he stood before her.

"Why, Bruce, is it really you?" she cried fairly, remembering strangely that it was just such a velvet southern dusk she had let him kiss her, two years before—a kiss he had forgotten after he went away to his western work.

Inside the house, under the mellow light, he looked his old, handsome self, a bit broader and thicker of nature. His hair, she noted, was sprinkled with gray.

"Ruth, you have grown prettier than ever!" he said in his direct way.

She colored a bit, and turned the conversation: "Are you here for long?"

"Just for a week—wanted to see my best friend—and see you."

She thought herself. Why was it that he had not written or sent for so, when she had thought she had forgotten?

After he had gone, she went to her bedroom window that looked on the lovely garden that her father cherished. She mused over the pattern slides given by Bruce her, or seemed to, winning her until she gave him her lips—and then he had gone, writing once in a long while that grew longer until his letters ceased. Then he came to her! He had almost seemed the engagement ring.

He came the next day and persuaded her to go on a drive in some of their old haunts. She tried to hide her happiness at being with him, but she felt she had failed.

One evening, later ni the week, they lingered in the little summer house in the garden and fell all the magic of the southern night. Then he gently put his arms about her and held his lips upon hers, unresisting.

"Oh, Bruce, I don't—you must not do that again!" she said, as soon as she could. "Please remember."

After the sharpness of her rebuke, she thought he would not come again, she hoped he would. If only to see that she was mistress of herself and no longer at his mercy.

He did come, on his last evening, him firm, even stride echoing in the girlish memory of the grave walk.

She greeted him smilingly but quietly, chatted with him of their common interests and his work, and she saw his boyish impulsiveness slowly withdraw.

At the end she went with him to the door, composed and serene.

She held out her hand. He took it, paused, and she lifted her eyes to his. Suddenly she felt his arms go about her and draw her to him until the stiffness was crushing.

"Oh, Ruth, it can't go on like this! I came clear back to tell you—"

Her own thoughts in turmoil, she broke in. "Bruce, Merton, I know—you want to play with me just as you used to!"

His arms relaxed. "Play with you!" She saw lines of strength emerge on his face. "Ruth, I never played with you. Off in that mining camp I loved you with all my soul and that last kiss. I thought you understood. I was insane about the letters, I know, but it's my way. I've thought that you were playing with me, but I want you to prove for the other time!

"I tell you I love you. I should have said it long ago, but I was afraid I might fail you. Now, and then—"

"Then tell me, now, for—oh, Merton, I do love you and always shall!"

Little Benny's Note Book

We was eating breakfast and pop said, Benny, you're lovingly over that egg, I want you to leave my shoes at the shoemakers before you go to school.

Well O. pop, you dont want me to be late for school again, do you? I said, and he said, I do not, and I hasten to add that I was late for on the various recent occasions when you have been late, but nothing I want you to be pointed out on the streets as the son of a man with shoes on his feet.

Only Jimmy, pop, look what time it is, I said, and pop said, Look what time it wa.

Then you mean, when? I said, and he said, Never mind. I started this conversation By this time you could have had your shoes and both mitts by anc , he said.

Well if I'm late for school the other guys will accuse me of spoiling the attendance record of the class, so O, pop, how about this? I said, and pop said, I wouldn't hurt that "bargens for the world, to dear or even for the sake of my personal appearance, so if you find you're late for school you can stay home today.

O, pop, that's swell; I mean all rite, I'll take you shoes. I said, and pop said, I believe I suggested to mention, by the way, that there are 2 cases in wich you will wasn't late.

Now, your recess money suppressing for 10 days, one, in case you're late for school, 2, in case you fail to attend school and 3, in case you dont leave my shoes at the shoemakers.

Hole, smokes, pop, gosh, G rosesleem, I said, and pop said, I see what your mean, so now we both understand each other.

The result being I hurry up look his shoes and went to school and I wasn't late.

HAD SHARP SPOT OF PAIN

WAY NECK AND ARM

Neuritis

Has neuritis afflicted you so badly as it did Mrs. W. D. Graham, Hastings, Ont.? If any neck developed into neuritis with a spot of pain on the nape of her neck like a sharp instrument being driven in. She suffered for months, the latest taking Templeton's T-R-O-C. Attacking her N I bones, neuritis pain left and she troubled her no longer. You can certainly recommend Templeton's T-R-O-C for neuritis and bring quick relief. Let them help you. What Local Theatre Managers Say About Coming Attractions

AT THE CAPITOL

"Twrin on Trial"

A young girl on trial for her life . . . and a woman, beautiful, distinguished and talented, on trial for her past. Present and future this is the theme, interwoven subtly into the plot of "Portia On Trial", coming to the Capitol as a first run smash bill, commencing Sunday matinee, also Monday and Tuesday.

A brilliant woman barrister forced by circumstances to defend a stranger to her own son, and later ordered by fate to defend the murderess of that son's father, this is the problem of Portia Merriman, played with illumining power and insight by Frieda Inescort.

Portia, as the price for her son's name, was forced seventeen years before to sign away maternal claim on him by signing false affidavits which presented her as a woman unfit for motherhood. Later, when fate brings the two together in highly dramatic circumstances, she acknowledges her former blight and defies the world to challenge it.

Old John Condon takes up the challenge, John Condon, industrial and political tycoon whose word is sufficient to make or break men. He brings Portia before the Bar Association in an effort to expel her from the bar, but she outwits him with a brilliant and dramatic coup which forms one of the high spots of the production.

Clarence Kolb is excellent as the ruthless Condon. Walter Abel turns in an outstanding performance as Dan Foster, the young District Attorney who loves Portia Merriman as a woman even as he scorns her as an unscrupulous criminal lawyer. And little Heather Angel will not be soon forgotten as the unhappy English girl who is brought over to America only to learn the bitterness of scorn and hatred. Her betrayal forms the background of the dramatic trial which marks her first years in screen history to date.

"Champagne Waltz"

Romance in Vienna, to the strains of the old-fashioned waltz and the tootings of a hot American swing band—is the story of "Champagne Waltz", comedy with music which is shown as a smash revival hit on the same programme commencing Sunday matinee.

Fred MacMurray, as the leader of the swing band, is brought to Vienna by "Bing-'em-from-Far-Away" Gallagher, his press agent, played by Jack Oakie, and things begin to pop. They pop loudest in the heart of Gladys Swarthout, granddaughter of the owner of the famous Waltz Palace. MacMurray's band plays havoc with business at the palace, but Miss Swarthout doesn't know that he's responsible for it. When she finds out she is furious.

A chorus of 350 beauties, the celebrated Gladys Swarthout voice and Frank Lawlor's and a brilliant supporting cast including Herman Bing, Frank Jenks and Veronica Lake promise

Last complete show Monday and Tuesday at 8.30.

Today Only

Shown for the last times tonite with evening show at 8.15 Another Hopalong Cassidy western thriller starring Bill Boyd. A select program of short subject complete this grand two hour show.

AT THE BELLE

"Rosalie"

Eye-filling with enormous sets and beautiful ballet numbers, gay and charming Eddy Nelson Song, beautifully sung by Nelson Eddy, and quickened to top speed by the irresistible dancing of Eleanor Powell, "Rosalie" which is now on the Belle screen is a musical of extraordinary entertainment power.

Nelson Eddy is cast as Prince Sergei Alexander Karnakoff, a dashing young officer of the Russian Imperial Guard, who is assigned to the task of escorting Princess Rosalie Marie Xenia Romanoff, daughter of the Grand Duke Alexis Romanoff, from the United States to the Russian court. Rosalie, played by Eleanor Powell, is a young American girl who has been educated in the United States, and who has never been in Russia. Her father, the Grand Duke, has never seen her since she was a baby. Rosalie, however, has been in love with Prince Sergei for a long time, and has followed him to Russia, where she has been enrolled in the Imperial Ballet School.

Complications arise when Rosalie, who is a princess, is forbidden to marry a commoner, and Sergei, who is a prince, is forbidden to marry a ballet dancer. Rosalie, however, is determined to marry Sergei, and Sergei is determined to marry Rosalie, and the fun begins.

Nelson Eddy, who has a magnificent voice, sings a number of songs, including "Rosalie", "Spring Love" and "Oh, Where Is My Love?" Eleanor Powell, who is a dancer of unusual ability, performs a number of dances, including a tap dance, a ballet dance and a dance with Nelson Eddy.

Also featured in the cast are Frank Morgan, a king with a roving eye and a talent for misunderstanding; Ilona May Oliver, a grim queen who keeps the king under lock and key; and Reginald Owen, a comic valet who is even more remarkable than usual in his presentation of comedy dance numbers; and that fascinating blonde newcomer from Budapest, Dona Massey. Look out for this personable lady with the dark eyes and the lovely voice! Much more will be seen and heard of her!

You will leave the theatre humming "Rosalie" and "In the Still of the Night," Eddy's top song, but there are many others, and favorites of the past will be included in the great ballet direction of Albertina Rasch. It is to be doubted if there has been a greater dance number than that staged in the "Kingdom of Romance"—a set as large it almost begrars description, it can be readily believed that it is Hollywood's biggest act of the year.

W. S. Van Dyke II directed in a compact, fast-moving manner that gives all the separate elements of book, comedy music and dancing their just dues.

Metro-Goldwyn-Mayer has achieved a screen musical more charming even than last year's "The Great Ziegfeld."

The popular Belle World News events will be presented on the same program.

Performances start daily at 2.30, 7.00 and 9.15. The feature attraction "Rosalie" begins at 2.54, 7.25 and 9.26 p.m.

Myrna Loy Next

The Belle February Festival of hits continues on Wednesday, when the Queen of the Screen, Myrna Loy (you voted her this title) appears in her latest romantic comedy "Man-Proof," featuring Franchot Tone, Rosalind Russell and Walter Pidgeon. An old favorite, Lewis Stone returns in the delightful feature attraction "You're Only Young Once," featuring Cecilia Parker and Mickey Rooney.

BELLEVILLE, ONTARIO, MONDAY FEBRUARY 7, 1938

LARGE MOVEMENT OF ICE SEEN AT NOON TODAY

Ice Field in Moira River Moves to Lower Reaches From College St. Bridge

Water in River Flowing Over Top And Under Ice

QUARRY INUNDATED

Merchants Along River Bank Remove Goods From Cellars

With a few rumbling noises as a peremptory warning, the ice-jam at the College Street bridge slowly disintegrated and moved down the river shortly after noon o'clock today.

Gathering speed as it swept under the bridge, the floe moved rapidly in the direction of the lower stretches of the river. It pounded around the river-bend gaining speed as unleashed pressure of water from the rear speeded acceleration.

The flow pounded beneath the Upper Bridge structure roaring down the stretch between it and the Lower Bridge. Large cakes of ice some well over a foot in thickness and of equal area swept under the Lower Bridge. A few yards below the solid ice field that had locked the banks at this part checked the ice-pack. Checked by the sudden halt, succeeding ice piled high in the river at this point rising to a level with the walls near the Corbin Lock Company's plant.

Ice Jammed In Lower River

Follow-up ice jammed the river solidly between this point and the Upper Bridge. Ice then piled from the bridge with the lower part of the footbridge. Back-flow waters from the dashed the parking lot at the rear of the Kresge Store to a depth of twelve inches. Cars were stalled as water crept toward the buildings. Clerks in the buildings of the C.I.O. Store worker feverishly as water crept in the basement.

Cakes of ice were swept against the walls of buildings on Coleman Street. At the north-end backflow waters ceased to rise and at twothirty had receded some six inches. Reports from the north state that the river is clear of ice from the College Street bridge to the Canniffton Dam. This spot is holding and there is no immediate danger of further ice moving down the river at present.

With an ominous rumble, accompanied by sinister groanings that later crescendoed into sharp crashing staccatos that sent the ice-locked bosom of Ole Mother Moira heaving, the huge jam piled up at Leader's Dam gave way at nine o'clock last night before the pressure of thousands of turbulent water, that flowed into the river from the inundated fields and overflowing tributary streams in the northern areas.

Driven from the gorge-like moving water the ice-field moved majestically down stream until it jammed at more than one point. Then it stopped at the bend in the river south of Old 401 and piled high in the whirling and twisting in the eddy-like water slowly built up until at eleven o'clock a little less than five feet of clearance was visible between the bottom of the bridge and the twisting mass of ice.

Spectators, some of them white of face as memories of the famous flood of two years ago were brought to their minds by the rising waters below them, lined the bridge and the river bank. As the water rose higher, driving waters back-flowed, creeping to a point below the Canniffton Road and inundating the jetty quarry.

Lower Ice Field Moves

South of the Upper Front Street Bridge, clear water surged for a distance of fifty feet driving broken ice into another small jam. Between the Upper and Lower Bridges the bottom of the ice field, that stretches from the Lower Bridge to the river's mouth, Front Surface water, however to a depth of from four to six inches flowed over this field carrying with it broken pieces of jagged ice.

The ice-jam at the foot of the College Street Bridge continued to pile as driving water surged from the north. Reports stated at this time that only four feet separated the top of the ice from the bottom of the bridge. One eyewitness stated, that the river had risen that much within a space of two hours at this point.

Below the jam-point at a bridge on the Upper Bridge. Pounding waters driving over the ice-floe to the north gnawed consistently at the heavy ice field that measured in places ten inches in thickness.

Weakened Ice Gave Way

While reports were current that the pavement on Station Street, starting to crumble, was the result of general br ikup. Weakened ice gave way under the pressure of tons of accumulated water. The disintegration took place as jagged chunks of ice whirling in huge eddies swept broken glass, spun in forming vortex in the jam at the point where the Upper Bridge.

To the northward, the field of ice is reported clear of jam-point. A quarter mile above, ice fields slowly broke up under the pressure of water that poured from the Canniffton Dam. Reports this yet another solid field of ice, that stretched for approximately a mile and a half in formation, South of Corbyville, ice broke and moved downstream as a thirteen pound rise in the power dam at this place.

Boats Safely Removed

In the city, merchants and business men of Front Street worked feverishly removing stock from basements and cellars to places of safety. Dealers in coal and grocery stores on the Main Street inbond, Front Street and Station Street, hastily removed their stocks of perishable merchandise. Coal merchants were also busy parked in the basement of the garage to a place of safety across the street. The water rose to the coal cellars but no material damage had been reported up to a late hour last night.

Spectators Keep Vigilance

Spectators lined both bridges until an early hour this morning. Many were the opinions voiced as to the possibility of a flood. However, there was a general undercurrent of feeling that was easily sensed, the destruction of property

Japan Gives No Details, Denies Building Larger Ships

COLDER WEATHER BRINGS RELIEF IN FLOOD DISTRICTS

Half-Dozen Major Rivers in Ontario go on Rampage

DAM BURST AT PRESTON

Port Hope Menaced And Water Over Highway at Pickering

By The Canadian Press

The danger of widespread floods appeared lessened today as Ontario awoke about the task of clearing away debris left along half-a-dozen major rivers by racing flood waters during the week-end, thousands of dollars' damage was caused but hope of still more ice in the weatherman's forecast of colder weather.

Two days of torrential rains sent rivers racing over their banks in many points in western, central and eastern Ontario. For a time devastation as great as that caused by last spring's floods threatened but reports late last night indicated the situation had eased. Several lives were lost and property valued at more than $1,000,000 was destroyed last April.

200 VISIT QUINTS DAILY IN WINTER

Publicity Agent for Callander, Stopping Here, Says Summer Average is 2000

CAR IS DAMAGED

Conditions are 'rather quiet' in the quintuplet-famed town of Callander but now it was stated by Mr. E. C. Kimball, publicity agent for the town, a week end visitor to the city.

"At least they seem quiet for us just now but have quite a daily average of about 200 visitors a day, which is a drop from the average of 2,000 or more each day who manage to call in the office during the summer months."

A caller at the local Chamber of Commerce was informed by Mr. Kimball secured considerable quantities of literature relative to the city of Belleville which will be available to the thousands of tourists who call at Callander during the coming summer season. In return he let a correspondence with the city of Belleville advertising the town of Callander which has become world famous since the birth of quintuplets in that formerly unexciting village.

Though the quints are safe, roads have resulted in a considerable decrease in the number of persons visiting the place, a fair daily average is still maintained, it is reported by Mr. Kimball. Numerous mooners have passed up Niagara Falls and Callander to catch a view of "Quints". Hundreds of others merely visit the place to view for themselves the miracle of childbirth.

Roads in Belleville district are in fairly good shape, according to a report, it was found by Mr. Kimball, when only accident during his present lengthy trip through the southern section occurred on the Trenton Highway just west of the city when his car left the road Friday afternoon and collided heavily with a telephone pole. A couple of days' delay here was necessary before repairs could be made.

Will Celebrate His 'XV' Birthday

Dorothy Dean, 15 (CP)—Robert C. Smith will celebrate his "Xth" birthday tomorrow.

The veteran Canadian newspaperman and publisher is sincerely grateful won't "lay how old he is and his pen name, Peck," but still within first century."

Mr. Smith, a newspaperman for 35 years before starting the advertising agency he now heads 25 years ago. One of his interests was in covering Northern Ontario and making a survey of waterfalls there for a special edition.

"I used the material in a special Hydro edition and gave full data to Sir Adam Beck," he said, "so it really had a bit of a hand in starting the spread of Hydro."

The newspaper said, "This possibility follows his action in subscribing $1,000 to the Liberal preparations necessary for grafting

British Patience Exhausted Spanish Insurgents Told

London, Feb. 7.—(CP-Havas)—The Foreign Secretary Eden told the House of Commons today that Great Britain has informed the Spanish Insurgent Government that its "patience is exhausted" and that British warships will take reprisals without notice against another British vessel be attacked in the Mediterranean.

The government has reached the conclusion that the time has come "to make it known once and for all that they cannot deal with these attacks solely by protests and claims for compensation," the Foreign Secretary declared.

"The government reserve for themselves the right, henceforth, without any further notice, to take such retaliatory action in the event of a further recurrence of these attacks, as may be required by, or is appropriate to, a particular case," he said.

U. S. Navy to Solve Defence Without Foreign Commitments

Admiral Leahy Says That U. S. Has No Foreign Commitments

NO THOUGHT OF AID

Washington, Feb. 7.—(AP)—Admiral William D. Leahy, chief of United States naval operations, told the House Naval Committee today that the navy expects to solve its defence problems "without alliances" and has no "foreign commitments."

Asserting he wished to clear up any misunderstanding, the navy's highest ranking officer said:

"The navy has no thought of obtaining assistance from any other nation. It has no thought of giving assistance in the solution of the problems of any other nation.

"It has no foreign commitments. There are no secret understandings regarding assistance to be given, or received.

"There has been no talk of giving or receiving assistance."

Leahy's refusal last week to discuss publicly the nature of discussions between Robert Fagerstol, head of the New York Fleet Plaza which had recently with the British Admiralty had aroused speculation in congressional circles as to a possible understanding with Britain.

INSURGENTS GAIN ENTIRE RANGE

Govt. Forces Abandon 3,000 Dead And 3,000 Taken Prisoners

Hendaye, Franco-Spanish Frontier, Feb. 7 (AP)—Insurgent forces captured 35 villages and gained control of the entire Sierra Palomera range today in a sweeping new offensive to cut off Catalonia from the rest of Loyalist Spain.

Dispatches from insurgent headquarters at Saragossa today said retreating government forces abandoned 3000 dead on the field and took more than 3,000 prisoners when taken prisoners.

The insurgent said they had advanced 14 miles and conquered 230 square miles of territory in three days start of operations Saturday.

Generl Franco is pressing eastward toward the Mediterranean. His advance guard was last reported within 15 miles of the sea, advancing on a 25 mile front his objective apparently the city of Montalban and the government's main supply road from Barcelona and other coastal points.

Government communiques admitted insurgent attacks established with even greater intensity—that at the outset as that "a great number of troops had been forced to give ground. They were said to have retreated "in good order" to new positions.

Difficult Task To Conquer China Japanese Admit

(By Lloyd Lehrbas)

Shanghai, Feb. 7.—(AP)—Surprise attacks by Chinese guerrillas scattered throughout Japanese-occupied territory around Shanghai are declared by Japanese officials against China's Lunghai railway corridor north of here.

They show that Japan, after seven months of warfare, has a difficult task in attempting to conquer China.

Another indication of the size of the task came in reports that enough munitions to supply General Chiang Kai-Shek's armies for another year have been shipped from Hong Kong to Hankow, China's provisional capital.

Japanese military sources indirectly admitted the Guerrilla situation today when they announced Chinese and Chinese remnants based on Island in Lake Tai, west of Shanghai.

Chinese and foreign sources disclosed the increasing magnitude of Guerrilla operations on the outskirts of Nanking, Wuhu, Chinkiang, Soochow and Hankhow, cities captured by the Japanese. Reports of similiar activities are received almost daily from North China, especially Shansi province.

FLOOD AVERTED IN LONDON AREA

London, Ont., Feb. 7.—(CP)—The threat of serious floods, bugbear of 1937, appeared averted today as devastation when one man was drowned and more than $1,000,000 damage was caused, appeared today to have passed at least for the time being as the surging river slowly receded.

Thousands of families in the Western and Chelsea Green sections of the city returned to the safety of the homes they hastily evacuated last night when the Thames, swollen by the rains of the week-end, broke up its covering of ice, rose swiftly to the eighteen foot above mark. For a time the water lapped against a protecting breakwater at a level only four feet from the top of the dyke.

"The water level reached its peak at midnight. But before it rose to that point householders in a half-dozen streets in docile London and in more than a dozen in West London—the two districts that suffered the brunt of the flood—began to move the rampage last April—had removed their effects to places of safety.

Lindbergh to Permit Grafting Of Artificial Heart in Body

May Make Him Immortal And Live For Hundreds of Years

OWN INVENTION

London, Feb. 7.—(CP-Havas)—The Sunday Referee said today that Colonel Charles A. Lindbergh will undergo an operation to permit grafting of an artificial heart which may make him "almost immortal and live for hundreds of years."

"Lindbergh may be the first man to lengthen his life far beyond normal," the newspaper said. "This possibility follows his action in subscribing $1,000 to the Liberal preparations necessary for grafting into body of the artificial heart made of rubber and metal by him and Dr. Carrel of the Oildas Isle off the Britanny coast."

"Col Lindbergh and Dr. Alexis Carrel, of the Rockefeller Institute collaborated in the invention of a machine with a glass aparatus big enough to permit a heart to be placed inside, and live in artificial blood which the pump keeps streaming through the organ. During his stay in England, Col. Lindbergh worked on the artificial heart and with Dr. Carrel established it in 1938. The aviator's return to the United States last Dec. 8 is believed in connection with his medical experiments.)

THOMAS BRYANS GANG MEMBER HELD FOR MURDER

Alleged Follower of Red Ryan Said to Have Shot Norman Ford

SHORTLY RELEASED

Police State Ex-convict Tried to Shoot Arresting Officer

Toronto, Feb. 7.—(CP)— Thomas (Shorty) Bryans, only remaining member of Red Ryan's gang that terrorized Ontario more than a decade ago, was held in custody today on a charge of murder.

Bryans was captured early Sunday, shortly after Orchard-old Norman Ford was found dying on the steps of a Bloor Street rooming house. Shorty—also known as 'Bunty' in-the days when he allegedly followed Ryan in murder and other brutal berles—was arrested by Sergt. Earl Bowering and Detective Armstrong to shoot him during a scuffle.

Bryans appeared in court today charged with murder and attempted murder and was remanded until Feb. 15. He was held without bail and was not represented by counsel.

'MISS X' TELLS OF COUNTER PLOT

Four Men Accused in Bow Street Court of Stealing Arms Plans

London, Feb. 7.—(AP)—"Miss X" svelte blond in black of the British Secret Service continued today to finished her story of springing the trap on four men accused of stealing arms plans.

In a brief appearance in Bow Street police court the heroine of Britain's latest spy thriller, wearing a two-piece ensemble and a smart halo hat, told in low tones of the climax of nearly three years' work to foil the copying of munitions plans taken from Woolwich Arsenal, allegedly for a foreign power.

Officers Tell of Arrest

"Miss X" told how last Jan. 21 she had telephoned the intelligence service after P. E. Glading, former soldier employed in the War Office, was going to meet someone at Charing Cross preparatory to a big photographing "job."

Officers converging on Charing Cross arrested Glading and Albert Williams, until recently armament inspector at the Royal Arsenal. Williams had handed Glading a brown paper parcel. Under the impression it contained plans for a detonator-testing apparatus smuggled from the Arsenal.

Woman Accomplice

In the first court hearing last week Glading and Williams had seen evidence of "contact with a foreign agent" to which they did not name. But "Miss X" testified that after a tertious couple "from Moscow" had met the pair in a London hotel the copy plans and later had disappeared.

Miss X" told how she was present to examine "Miss X" today and she left the court through a door behind the witness box.

She was followed to the stand by a little man whose name also was undisclosed. He was described as a counter-espionage agent whose mission had been to watch the apartment which "Miss X" rented for Glading in February, 1937, and in which, according to "Miss X" hundreds of stolen plans were photographed.

The copied plans the prosecution charged, included secrets of the army, navy and air force.

Ryan gang killings Ford and Williams under the Official Secrets Act are George Whomack, assistant foreman of the gun section at Woolwich, and W. C. Munday, assistant foreman. Whomack and Munday were arrested a few days after the others.

The hearing was adjourned until Feb. 11 and the prosecution indicated the hearing would be closed to the public.

VOLUNTARY BOYCOTT ASKED

Ottawa, Feb. 7.—(CP)—Canadians were asked today for a voluntary boycott of Japanese goods and the government was requested to give materi.l help to China in its struggle against Japan's invasion of its territory.

The appeal came from the National executive of the League of Nations Society in Canada which made public a long resolution to parliament.

NEWS BRIEFS AND ODDITIES

OWNER OF HORSE WAS KICKED ONCE TOO OFTEN

Almont, Mich., Feb. 7 (CP)— Frank Williams died a two-time loser by the same horse. Six months ago the horse kicked him, and Williams suffered a fractured leg. Recently recovered from the accident, he went again to the horse's stall — and the horse kicked him again, fracturing the same leg. Now Williams is ready to sell the beast cheap.

MAN HAS A TEN FOR YOUNG AND OLD ALIKE

London, Feb. 7 (CP)—William Alfred Wright, 42, may be cannot resist a desire to cut the flowing locks of young girls.

Charged in police court yesterday with "stealing a girl's hair in the street," he declared: "I get a feeling now and then whenever I walk behind a girl with long hair, a sensation that I want to cut it off."

Several pails of hair were found in his home. He was remanded after a warning.

"HUMAN" BONES TURN OUT TO BE CANINE

Detroit, Feb. 7 (CP)—Bones found in Dodge's pantry today and declared by Coroner Dr. Albert Hughes to be the remains of two human beings, have been found to be canine, it was announced today by Coroner Hughes. He was held without bail and was not represented by counsel. (Continued on page twelve) Police have declared the case "closed."

SHOULD HONOR MUSSOLINI SAYS DR. ARNETTE OF QUEENS

Montreal, Feb. 7 (CP)— The British Empire should erect a golden statue to Mussolini in London's Trafalgar Square and dedicate it to "the man who won up the Empire just in time," Lieut.-Col. W. Austin, M.D., professor of surgery at Queen's stated in Kingston, Ont., and here Saturday.

EGYPTIANS SUFFERED FROM APPENDICITIS

Cairo, Feb. 7.—(AP)—Egyptians of King Tut's day suffered from appendicitis.

Dr. A. M. Spencer in a paper published in the Egyptian Medical Journal, stated a small number of Egyptian mummies have been found to possess undoubtable signs of chronic inflammation of the appendix.

VIOLENT DEATH TOLL NUMBERS 7

Couple Believed Drowned in St. Lawrence River Near Cornwall

Cannanoque, Ont., Feb. 7.—(CP)— Bodies of Mr. and Mrs. Julius Lachance of Howe Island, missing since they left there across the St. Lawrence river ice in their car, were found in the river near here today, a short distance west of Cannanoque.

The couple, both about 50, apparently had freed themselves from the car and were attempting to reach ice, softened by rains and thaw, when they attempting to get to the surface.

The car went down near the spot where the bodies were found. Persons glimpsed through the ice Friday. All escaped by leaping to firm ice.

A week-end violent death toll of seven was recorded in Ontario. Three drownings, two traffic accidents, a shooting in the west end of Toronto and an accident in Toronto railway yards accounted for the list.

The shooting brought into custody Thomas (Shorty) Bryans, alleged by police to have been the last surviving member of the Red Ryan gang that terrorized Ontario more than a decade ago. He faces a murder charge in connection with the early Sunday of Norman Ford, 30-year-old service station employee.

Drowning in River

The other drowning occurred in the Grand River at Dunnville when David Puttock, 19 was skating backwards and fell in a hole. The body was recovered late Sunday.

At St. Catharines, 13-year-old Leslie Kerwin, comedy Runner died in hospital Sunday from injuries received when struck by a car which he was knocked from his bicycle by an automobile driven by Eugene Calcalo of Homer, Calo told police visibility was poor due to heavy rain.

Mary Mary Boyle, 75, died in hospital in Hamilton Sunday night after being struck by an automobile. Struck by a shunting engine in the Canadian National Railways yards at Toronto, George Sodkonky, 56, was injured fatally.

NAVY OFFICIALS REFUSE DETAILS ON CONSTRUCTION

Spokesman States No Plans For 43,000 Ton Battleships Made

ARMAMENT RACE

Notes From Powers Intimate They Would be Forced to Invoke Clauses

Tokyo, Feb. 7.—(AP)—The Japanese Foreign Office spokesman declared today that Japan "has no plans or construction" of 43,000-ton battleships, as has been "widely reported abroad."

Japanese navy officials, however, were reported to have decided against disclosing details of the Japanese naval building program to Great Britain and the United States, Domei (Japanese news agency) said such a decision was made at a conference of officials and was to be conformed to established policy.

Domei said the British and French Ambassador asked in formal notes Saturday that Japan inform them by Feb. 15 as to whether Japan had started battleships exceeding the 35,000-ton limit set by the 1936 naval treaty, France sent a similar request.

The notes said the powers would be forced to invoke clauses of the treaty permitting them to compete with Japan if Japan's silence fails to give assurances she will adhere to the treaty she refused to sign.

Refusal Taken as Admission

The communications also stated Japan's failure to answer requests for information will be taken as an admission Japan is building battleships of more than 35,000 tons.

The Foreign Office spokesman declared in Japan's international armaments principle was: "Nonintrusion, non-aggression." Japan, he said, "is always prepared to consider any proposal toward this principle."

"It has been widely reported abroad that Japan is building capital ships of 43,000 tons, but at present there is no plan to construct such battleships," he added.

"The Japanese people have granted the government that a naval armaments race already has been started by other powers. Great Britain began naval expansion in 1937 with a huge expenditure.

Fay Wray Certain Couple is Separated

Hollywood, Feb. 7 (AP)—Film actress Fay Wray is separated from she and her husband, John Monk Saunders, are separated, but Saunders denied it.

Miss Wray, a native of Alberta, declared she and Saunders personally had separated because of incompatibility, but had not discussed the question of divorce".

"No other person is involved," she said.

Saunders expressed great surprise. "I know of no reason for divorce or should desire a divorce," he declared.

For two weeks, Saunders has not been living with Miss Wray, but it was reported he had moved to a hotel himself when writing. He and Miss Wray were married in Yuma, Ariz. They have a daughter Susan Carrie, 16 months old.

Why the Weather?

By Major A. H. Thiessen
Science Service Meteorologist

Tidal waves! No more terrifying phenomena occur than great tidal waves. When caused by earthquakes or undersea volcanoes they may arrive unannounced and therefore cause the greatest disasters. This type has been predicted by students of earthquakes. When they are caused by storms, they may be forecast. At Corpus Christi, Texas, in 1919, the water from a storm tidal wave rose 19.4 feet above normal tied. The greatest tidal rise of the 300,000, recorded in history happened in 1737 when the Hugli River in India rose 40 feet. Some of these tidal waves come up a river like a huge wall, the waters tumbling over and over, greatly resembling surf.

THE WEATHER

Toronto, Feb. 7—(CP)—Synopsis. The disturbance that passed over Ontario last night is centred this morning near the Bay of Fundy while high pressure and somewhat colder weather has poured into the lake region from the northwest. Pressure is also high over the northwestern portion of the continent and relatively low over Manitoba, the northwestern States and the Pacific coast. Rain or snow has occurred in nearly all districts from the Great Lakes to the Maritime Provinces and high snow has fallen in the northern sections of Saskatchewan and Alberta.

Lake Superior—Mostly fair tonight and Tuesday with somewhat higher temperature.

Manitoba, Saskatchewan and Alberta—Partly cloudy and colder tonight and Tuesday with scattered snowflurries.

City and District News

C. N. R. STORES
400 TONS OF ICE

An estimated 400 tons of ice at Quinte ice is being loaded this week on cars for the Canadian National Railways by Maurice Callaghan, local dealer. The ice will be used for summer refrigeration.

HYDRO COMMISSIONERS ATTEND CONVENTION

Mayor Jamieson Bone, Commissioner Morley F. Duff and Secretary O. R. Scott of the local Hydro Commission will leave Belleville today for Toronto where they will represent this city at the annual convention of the Ontario Municipal Electric Association. Chairman G. A. Reid of the Commission will leave on Tuesday morning.

REPAIRS TO FIRE DAMAGED BUILDING ESTIMATED AT $3500

Application for a building permit under which authority for the reconstruction of the fire damaged factory is sought, has been granted the Bell Shirt Company by the office of the city engineer. Estimated cost of reconstruction is placed at $3,500.

A second building permit issued for the month of February is to Dr. A. O. Locke for alteration and improvement of the newly purchased building at block 43 Bell Block street, cost of reconstruction is set at $2,000.

LARGE SHIPMENT OF CATTLE IS MADE

Three hundred head of cattle, including sixty dairy cows will be shipped in Glasgow, Scotland on the steamship "Norwegian" by Scott brothers on Wednesday. This is one of the largest shipments in some time, the dairy cattle being used in the herds, while the steers will be put out to graze before marketing.

TWO PICTON STUDENTS GIVEN MASTERS' PAPERS

At the examination of Masters and Mates held by the Dominion Department of Marine at Toronto on Friday and Friday of last week at Queen's University, Kingston, Shipman May and William Wright, both of Picton were granted Masters' certificates for steamships plying in inland waters.

BAY ICE REPORTED IN GOOD CONDITION

"The bay is far from weakened. It's just as thick and strong as ever. Just a little water on top of the ice," reported watchers yesterday, and ice dealers viewing the effects of the rainfall and softer weather of the week-end. "If it freezes now, it'll be ideal for ice boat owners," they added, pointing to the glassy sheet which now extends from shore to shore.

TWIN CALVES BORN IN DUNGANNON TWP.

Recent additions to the livestock of the county are twin calves born on the farm of Edward Vardy, Dungannon Township. The calves are pronounced healthy and thrifty. Their mother is of the Durham breed.

LT. COL. B. C. DONNAN PRESIDES AT MEETING

The 75th annual meeting of the officers of the Hastings and Prince Edward Regiment will be held in the Picton Armouries today, Lieut.-Col. B. C. Donnan, K.C., presiding. Following the meeting the annual officers' dinner will be held at the Royal Hotel, with the regimental regimen association scheduled to be held in the Picton Armouries later this evening.

BANCROFT TO VOTE ON LOCAL OPTION

Bancroft village will vote on whether the sale of beer or wine will be permitted to continue in the municipality it was decided at a meeting of the village council.

At the meeting a petition was presented and certified as to the required number of names, by the clerk, requesting council to pass a by-law authorizing a vote to discontinue the sale of beer and wine in the municipality. It was agreed by council to accept the petition and that a by-law be passed to authorize the holding of a vote of electors on the question.

COOK LOSES PURSE, GETS NEW JOB, NOW GETS PURSE BACK

Mrs. W. H. Hubbs, Wellington cook, is a firm believer in luck. Coming to the city a few weeks ago in search of employment, her luckless star brought her a job almost immediately. At the conclusion of the job, she collected her wages, went on a shopping tour and missed her purse somewhere in the vicinity. Applying at the local employment office for further work, Mrs. Hubbs luck held, and she again secured immediate employment. The climax to her self-styled lucky streak came today when officials of the Front Street store for which she missed her purse notified her that her purse had been returned with the contents intact. It had been taken by mistake.

PAIR APPREHENDED ON THEFT COUNTS

Apprehended in Toronto on charges of the theft of overcoats here, William and Raymond Bowers of that city were held in custody on warrants issued by the Provincial Police branch at Toronto. Bowers failed to appear in county police court and a bench warrant issued, having been summoned into court on the theft counts. It is alleged by Provincial Police the men removed a load of evergreen trees from the vicinity of Bancroft previous to Christmas without the consent of the owner. The matter was investigated and charges preferred by the O.P.P.

SPECIAL SERVICE OPENS C.G.I.T. WEEK

C.G.I.T. week is being observed from Feb. 6 to 13 and Bible groups are commemorating the period with special observances. A community service for all groups in the city was held in Canada's Sunday School yesterday at four o'clock arranged by the Girls' Council, under the direction of Miss Thora Gerow, president. An interesting service was carried out being presently by those in charge. This year's program is based on the theme: "We, small as a group, large as the world" and a splendid address by Miss Gerow was heard. It set this thought while the worship service had the theme as its keynote.

Local School Principals to Discuss Plans to Assist Beaches Project

A meeting of principals of Belleville's public schools is being called for this evening in the Y.M.C.A. rooms at 7:30 for the purpose of discussing the feasibility of holding combined school concerts with which to raise funds for the completion of the civic bathing beach east of the city. The meeting will be presided over by Mr. Ross Silver, active member of the Beaches executive.

Promise of government assistance in removing an old sunken wreck from the summer last bar to the cessation of a perfect swimming beach has been given President Minicriff of the Bay of Quinte Beaches Association by Mr. C. A. Cameron, M.P. for South Hastings.

Wellington Residents To Forward Petition To Toronto Soon

A petition bearing the names of practically two thirds of the residents of Wellington, protesting against the construction of the West Lake Inlet fish preserves and wild-fowl sanctuary will be forwarded to the department of Game and Fisheries within the next few days, a prominent resident of the village stated this morning.

Cessation of filching operations and the removal of fishing shacks from the ice-covered surface of the lake caused a mild furor a few days ago. The rumor that the lake would be converted into a fish preserve which would prevent angling and thus deprive the village of its main tourist attraction formed the basis of the protest. However, government officials countered and told residents that restocking of the lake with bass, lunge and pickerel would not be done as long as commercial fishing continued to take place.

Flood waters of tributary creeks overflowing as a result of the heavy rains of the past few days raised the lake level over the week-end.

Carmel

Carmel—The recent rains made the highway very slippery, but nearly as soon as the storm ceased Mr. Charlie Simpson, road master of that division got his men busy and which controlled the cars considerably.

Mrs. Levi Laton has been ill with neuritis, but is some better.

Miss Ruth Brintnell is nursing Mr. Jas. Brownson who is ill at his home here.

Mr. Otto Brintnell is making his rounds with his sawing outfit again this year.

Mrs. Rodt. Rogson visited her parents Mr. and Mrs. Maxlow Anderson on Friday.

Mrs. George Hicks spent Tuesday at Port Hope.

A large number from here attended the alder production "The Crown of Thorns" shown in Foxboro United Church on Wednesday evening and everyone thought it well worth seeing.

Many of the Young People of this community attended the concerts held in Canada's Town Hall on Wednesday evening. Miss Marion Wadell was among the many on the programme.

PERMANENCE BEST

In all discussions about Labor and Industry much time is spent debating wages. Naturally every employee wants to get as high a wage as he possibly can.

But, to me, it seems of much greater importance to assure an employee steady wages. A man might make seven or eight dollars per day, but if he only averages two or three days per week (or even less) through the year, the actual amount received is small.

Men would rather have a good steady wage and feel reasonably sure that they will be employed regularly through the year, than they would have a high wage scale but only be employed off and on, with the emphasis on the off. —Windsor Star.

Police Blotter

Giving his name as Jay Switzer a transient, was arresting on Front St. Saturday on a charge of vagrancy. He was pan handling, police stated at the time of his detention.

Three local young men were taken into custody early Sunday morning on a local restaurant, where it is stated they had become involved in a fight. Considerable property damage was reported during the trouble. Charges of drunk and disorderly conduct will be preferred in each instance.

While motoring southerly on Front St., on Saturday afternoon, a model car driven by Mrs. Goldenson, Toronto, collided with another Toronto car, driven by Thos. H. Leslie, Corbyville, and emerging from a Front St. Driveway. Considerable property damage resulted to both vehicles during the impact.

William Lynch, 77 Front St., reported the theft of a fur light from his automobile, left parked in the Bell theatre parking lot on Saturday night. The light was removed from the vehicle during Mr. Lynch's absence.

A total of twenty transients received police accommodations at the police station over the week-end on Saturday night and six last night. H. T.P.O. Sam Irvine reported his detail free from serious accidents over the week-end. "The highways are free from snow and ice and good driving facilities were available to the travelling public over the week-end," added the officer.

POLICE COURT

Five cases of violations of the L. C. A. were disposed of with convictions registered in each incident, in today's local police court held before Magistrate E. J. Butler K. C.

Three were charged with common drunk and assessed $15.35 each, a local resident was fined $25.00 and costs, amounting to $40.00 in all, after pleading guilty to a charge of consumption of liquor. A transient, who gave his name as Jay Switzer, was also charged with vagrancy and was remanded to the custody of the local jail for one week.

Three local cases remained over court proceedings, upon the instructions of Chief Kidd, to settle the matter of damages following a disorderly outbreak at a local restaurant. The trio agreed to make restitution for the damage incurred.

"The boys just had a little too much to drink and became boisterous," explained Crown Attorney B. C. Donnan K. C. when presenting the case before His Worship. A fine of two dollars and costs was imposed in the disorderly conduct cases.

Obituary

ADAM HENRY CORRIGALL

Madoc, Feb. 7 (Special)— Adam Henry Corrigall, passed away at Madoc this morning at five-thirty o'clock. Before Christmas Mr. Corrigall had fallen and fractured his leg. He was eighty-four years old.

He is survived by his widow, formerly Lovina Ashley, one son Marion Howard Corrigall of Dodd's Land, Sask., seven grandchildren and one sister, Mrs. Charles Clark of Roslin. A daughter Bessie died eighteen years ago.

Mr. Corrigall was born in West Huntingdon, he son of the late Mr. and Mrs. John Corrigall, who came from Scotland. He moved to Madoc in 1901 and then spent some years in Saskatchewan with his son. He returned to Stirling and five years ago came to Madoc.

He was a member of Trinity United Church and a life member of Madoc Lodge No. 44 A.F. & A.M.

MRS. JESSIE MOUCK (Belleville)

Mrs. Jessie Mouck, a lifelong resident of this city and highly respected in the community died on Saturday at the family residence, 176 Church Street, after a lengthy illness. She was born in Tweddle and was the daughter of the late Mr. and Mrs. Herbert Wood and resided in this city all her life. A member of Bridge Street United Church, she was very active in the church work until ill health interfered. Surviving are one son, Ernest A. Mouck of this city, one daughter, Mrs. Herbert G. Gibson of Whitby also three sisters, Miss Maude Campbell and Mrs. W. H. Charlton of this city and Mrs. A. E. Cameron, Los Angeles, California. Her husband predeceased her some years ago.

MRS. ELLA B. POLLARD

Mrs. Ella Bloomhuff Pollard, 83, died last Saturday morning at the home of her son, Otis C. Pollard on the Jessamine Pike Road, near Lexington, Kentucky, after a long illness.

She was the widow of Morris Pollard and a daughter of the late Rev. J. P. and Maria Bloomhuff founder of Adams County, Kentucky. She was a member of the Park Methodist Church and of the Eastern Star.

Mrs. Pollard was a woman of much strength and beauty of character, devoted to her home and family, rearing a family of five children, who have become splendid citizens and whose fond memory of her influence will be a precious heritage.

Besides her son, she is survived by four daughters, Mrs. Erma Bloomhuff Hall, Belleville, Ont.; Mrs. Ben Hough of Lexington; Mrs. Russell Colvin of Belleville, Ont., and Mrs. Lucy Adams and relatives.

Mrs. Pollard lived at Corbyville and Belleville for a number of years and visited in Belleville two years ago.

The funeral was held on Wednesday, the Rev. Alojohn Gilliam and the Rev. J. R. Hodgson officiating. Burial was made in the family plot in the Lexington Cemetery.

Mrs. Collins of Belleville, is now at Lexington, having been called there by her mother's illness.

The funeral of Mrs. Lorne F. Green took place Saturday afternoon, from St. Mk., front Ave. residence, 10 Murney Street, to Christ Church where the burial office was conducted by the rector the Rev. G. O. Wright. A large number of friends and acquaintances of the late Mrs. Green was present at the service and floral tributes were many beautiful floral tributes.

Interment was made in Belleville Cemetery; the committal service was said by the Rev. G. O. Wright. The bearers were Cpl. Jas. Bone, Mr. O. H. Scott, Mr. J. B. Ivos, Mr. Fred G. Donnelly, Mr. W. J. Cooley and Mr. George N. Gorman.

MRS. HANNAH E. BALFOUR

Mrs. Hannah Eliza Balfour, widow of Thomas A. Balfour, late of Bath, Ont., died suddenly at the residence of her son, Mr. H. M. Balfour, 43 Dundas Avenue, Toronto on Sunday morning, February 6th. In her 79th year.

Interment will be made in Eastern Cemetery Napanee, on Tuesday, February 8th.

MRS. GEORGE McMULLEN

(Springbrook)

Rawdon, Feb. 7. — (Special) — After a lengthy illness, Mrs. George McMullen, Springbrook, died in Kingston General Hospital on Sunday. She was born in England, 86 years ago and came to this country when a young girl. She had resided in the residence in Rawdon Township has made many friends by her kindly disposition and neighborly qualities. A member of Springbrook United Church, she took an active part in the work of the congregation. Surviving are the husband, two sons, Arthur and Edward, two daughters, Nora and Gladys, all at home, also one brother Percy Wood of Toronto and one sister also of Toronto. The funeral will be held in Springbrook United Church on Tuesday.

Important Tomato Growers' Meeting

A meeting of all Tomato Growers in Hastings County will be held in the COUNTY BUILDINGS, BELLEVILLE, Feb. 9 at 2 o'clock when Mr. W. M. NEWMAN of the Farm Products Control Board will be present to fully explain the new Tomato Marketing Plan.

The Board feel that at the present, they have not had sufficient publicity among the tomato growers. In view of the strong opposition from canners, all growers are requested to be present and lend their support.

CANADIAN NATIONAL — CANADIAN PACIFIC

ICE FIELD
(Continued from Page One)

of two years ago when the Moira overflowed its banks in one of the most memorable floods in the history of the city is still green in the memory of local citizens.

Several factors in the lower sections of the city removed household and other goods from cellars, and other areas likely to be flooded, as word was flashed about that another flood was imminent.

Waters pounded steadily at the fast-disintegrating ice during the night.

This morning citizens wakened to find the situation generally unchanged. Water driving down from the Canniffon dam had practically cleared the stretch of river between that point and the Bridge Street Bridge where the ice piled practically level with the bridge.

Fire Chief Lynch stated at nine o'clock today that in his opinion there was little danger of a general flood although if the jam at the College Street Bridge moved down river there may be some cellar damage. All loose ice in the river below the College Street Bridge was piled at the bridge he stated.

No Anchor Ice

Lack of anchor ice in the lower stretches of the river prevented any serious backflow of the driving water, officials stated. The pressure of water forced the stream beneath solid stretches of ice to the mouth of the river.

A serious jam in that part of the river extending from the Upper Bridge to a point in the rear of the Belleville Hotel caused diversion of the stream to the eastern bank, forcing a foot of water into the Clare Garage. Four feet of water washed against a building belonging to the Smiths on the eastern quay but at ten o'clock no seepage had occurred.

The consensus of opinion of fire officials and others at an early hour this morning was that unless the solid field of ice north of the Canniffon dam give way there is little danger of a general flood in the lower sections of the city.

No Talk In Rumours

Rumors circulated in the city at the early hours of the morning that Canniffon and Corbyville were flooded disappeared in daylight.

Advices from Shannonville state that outside of a slight rise in the Salmon River there is no danger or signs of flood.

City employees stood guard at the bridges near the Coleman flats yesterday afternoon keeping watch clear of ice and allowing water that flooded the flats to drain in the river. This was partly responsible for the amount of surface water

What Local Theatre Managers Say About Coming Attractions

AT THE CAPITOL

"Portia on Trial"

Mother love, a dramatic theme as old as Aristophanes, has endured throughout the centuries, been as poignantly presented as in "Portia On Trial", now playing the Capitol as a smash first run hit. Faith Baldwin, whose original story was adapted for the picture, is outstanding for her ability to capture the heart of a woman and translate it into print. The character she has created in Portia, the brilliant woman attorney who sacrifices everything a woman holds dear for her principles and convictions, is an unforgetable one, portrayed with Frieda Inescort's rare charm and understanding.

Portia, successful woman criminal lawyer, has won considerable notoriety out of her penchant for handling sensational cases involving downtrodden women who want justice in a man's world. Her methods are forthright, if not always strictly ethical, and they arouse the resentment of Dan Foster, District Attorney, who loves Portia.

The mother-love angle is skillfully woven into the story, presenting Portia's heart-breaking efforts to keep secret from the doings of her son, who was taken away from her in infancy by the father's family. In order to assure a home and a name for the child, Portia at the time was forced to sign affidavits which incriminated herself deeply in order to convince the father's family that she would never sell a hair dale come out of the past to claim him. However, the natural devotion of mother for son transcends all, and Portia proudly acknowledges her boy and claims him, even though she knows the Gordon family may dig up the incriminating affidavits and use them to disbar her.

A dramatic trial scene climaxes the picture, with Portia defending the girl charged with murdering the boy's father—and the man she loves conducting the prosecution. From this highly dramatic situation the plot follows through to a gripping and thoroughly satisfying conclusion. This picture is to be most enthusiastically recommended.

"Champagne Waltz"

Gay, tuneful, merry and lavish. "Champagne Waltz", co-starring Fred MacMurray and Gladys Swarthout is shown on the same program as a smash revival hit.

With several singing sequences by Miss Swarthout, and music both of the waltz and "swing" varieties, "Champagne Waltz" would rate as a music-lover's holiday on this score alone. But there is also comedy in the Jack Oakie manner, dancing by Veloz and Yolanda, lavish production and scintillating group dance sequences, all of which add up into one of the finest musical motion pictures of the season.

The romance concerns itself with the love of Harvey, leader of a "swing" orchestra, and Miss Swarthout, granddaughter of the musical director of a Viennese waltz palace. MacMurray's music puts the grandfather's past out of business, but in spite of this love blooms.

Last complete show tonite and Tuesday at 8.36.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes these good, old Carter's Little Liver Pills. They get the two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name ! Stubbornly refuse anything else. 15c.

AT THE BELLE

"Romalie"

Hailed as "big" it is big this "Romalie" which danced and sang its musical way Saturday into the hearts of those who saw its premiere at the Belle theatre.

Nelson Eddy and Eleanor Powell are teaming in this tuneful melange which varies in locale between an Army-Navy football game West Point a trans Atlantic airplane, and the colorful mythical kingdom of "Romania". The Pairing of Eddy and Miss Powell is a brilliant feat. Not only do they dance and sing in the manner of stars of their magnitude, but as lovers they are decidedly in the top ranks among romantic teams.

Those who thought they had seen "tops" in musical movie sets when "The Great Ziegfeld" came to town, have nothing to think about when they see "Romalie", the tremendous white and silver kingdom presided over by Frank Morgan as a king with an eye for a pretty girl and Rosa May Oliver as a Queen quite able to curb such tendencies. Morgan is a ruler with ventriloquism as a hobby strikes a new high note in laugh-producing gags.

Ray Bolger, he of the rubber legs, is really great as comedy relief, and of course, splendid in his dancing specialties. Lionel Stander is a newcomer who playgoers can well watch carefully. This beautiful European Countess Brendel, confidante to the Princess Romalie, not only proves herself a delightful comedienne, but a singer of extraordinary range. Her "Spring Love is in the Air" is magnificently done.

In fact all of the music of the piece is tuneful and finely executed as one might expect after seeing that all are credited to the highly competent Cole Porter. Nelson Eddy, in splendid voice, sings "Romalie" "Who Knows" and "In the Still of the Night" as solos, and "It's All Over But the Shouting" and "To Love or Not To Love" with the "West Point" football team. Frank Morgan as the King, has an amusing comedy song in "Why Should I care,' and Miss Powell sings and taps beautifully "I'm a Strange New Rhythm in My Heart".

The ballet dance numbers staged by Albertina Rasch for the enormous Romanza sequences are in the best tradition of that great ballet mistress. In fact, in effect they exceed anything she has ever done. "Romalie" has been lavishly directed by W. S. Van Dyke II. With that director's customary fast pace, it moves along at breakneck speed. The Belle latest World News precedes the feature attraction. Performances start daily at 2.30; 7.00 and 9.10. "Romalie" opens tonight at 8.30, 7.10 and 9.25 p.m. The entire program will be repeated Tuesday tonight and Tuesday matinee and evening. Come tonight and bring the family.

MISNOMERS

The camel's hair brushes used for fine art work are not made of camel's hair, but of the fur of Russian and Siberian squirrels. The lead in lead pencils is graphite, a form of carbon, and has not relation to the metallic element. Caligut, used for virtuoso instruments, is the intestines of sheep and occasionally horses, but never of cats. Tortoise shell comes from the Caretta imbricata which, properly, is a turtle. Cuttlefish, isn't a fish, it's a kind of octopus, which is a mollusk. The famous rice paper used by the Japanese and the Chinese for their paintings is manufactured from the pith of a small tree. Whalebone is not bone at all, but baleen, a horny substances growing in the mouths of some species of whales. Ask grandma; she probably didn't know. —The Commentator.

EAST MEETS WEST IN NIPPON'S COIFFURES

The Japanese beauty at the LEFT is pictured with the traditional Nipponese style of coiffure in contrast to the mode shown at RIGHT, the American style recently introduced in Japan. Miss Nippon who was graduated from a hairdressing school in the United States and is determined to win Miss Japan over to the Occidental mode! It takes hours to dress the hair in the old Japanese way; the new idea is intended to beautify the Nipponese miss for the 1940 Olympic games.

"I See by the Papers" Said . . . MR. DOOLEY

(With apologies to Finley Peter Dunne)

When the genial Mr. Dooley was in his heyday, the newspaper was his source of inspiration. "I see by the papers" he would say to his friend Hennessy, and forthwith another sage discourse on men and affairs was launched.

Everybody "sees by the papers" — sees news, sees goods, sees prices; and sees where, when and how to buy the goods. Which is why it pays to advertise in the newspapers.

NEWSPAPER ADVERTISING

This advertisement prepared for the Canadian Daily Newspapers Association by Cockfield, Brown and Co. Limited.

FROSTY CHECK ON TO-MORROW'S WEATHER

United States weather observer, Ideal Parry (ABOVE), scrapes away a heavy coating of frost on his wind velocity gauge on White Mountain during a severe storm. Before pale reached such fierce proportions that the gauge was swept away entirely, it showed a wind speed of 74 miles per hour.

Rescued by Breeches Buoy From Mid-River

Edward Giblin, 33, is shown being hauled to safety on a coast-guard breeches buoy after clinging half-frozen to a jagged rock in the Merrimack River at Lowell, Mass., several hours. Giblin was taking a short cut home, slipped while crossing the river and was carried over Pawtucket Falls. After many rescue attempts failed, coast-guards were called and a line shot across to the other bank to rig the buoy. Giblin was rushed to a hospital in serious condition from injuries and exposure.

Coronation Glamor Recalled by Mrs. W. H. Sayers

The pomp and pageantry of the Coronation of Their Majesties King George VIth and Queen Elizabeth; the glitter and color of the attendant ceremonies and the swiftly moving panorama of subsequent events as seen through the eyes of a Canadian lady visitor, were graphically described on Monday evening last at the meeting of the Women's Institute of Mountain View by Mrs. W. H. Sayers, Rose Hill, who spoke at the annual banquet given by the organization to upwards of one hundred and fifty members and friends.

Mrs. Sayers painted a glowing word picture, of the highly interesting events leading up to during and following the Coronation. Her simple descriptive eloquence brought home in a colorful manner the many highlights of this historical milestone in the annals of the British Empire.

Held in Mountain View United Church, under the chairmanship of the president Mrs. L. Wallbridge the banquet marked the revival of a custom that has lain dormant for several years. A number of guests from other branches attended the function.

The toast to the king was proposed by Mr. J. Dowd and responded to by the singing of the National Anthem. Mrs. Morton Weese responded to the toast to the Women's Institute, proposed by Mr. A. McKenzie.

A delightful musical program that included solos by Misses Misses Wilson, a charming duo of young ladies and Mr. Albert Hillman was given well-deserved applause. Table decorations were in the red and gold the Institute colors which were enhanced by the soft shades of sweet peas and carnations.

Appreciation of the gathering was tendered by Mrs. Thomas Nightingale, and conveyed to the speaker by the president.

West Huntingdon

West Huntingdon, Feb. 7.—The St. Andrew's Young People held their weekly meeting at the home of Mr. and Mrs. John McLeod on Thursday evening. Mr. Jack Thompson presided over the worship period, which consisted of singing gospel hymns, prayer by Rev. J. A. Koffend and scripture lesson by Mrs. Dan Dounan.

Mr. Bill Mitchell had charge of the reading program which included solo by Mrs. John McLeod; reading by Miss Jean Thompson; reading by Mrs. John Wallace, and a duet by Rev. Koffend and Mrs. McLeod. The guest speaker of the evening was Mr. Roy Juby, member of Parliament for Hastings, Mr. Juby gave an excellent address on his trip to Boys' Parliament held at Hamilton.

After the Benediction Mrs. McLeod conducted two contests after which lunch was served. Votes of appreciation were given to the hostess and Mr. Juby.

The W.M.S. of United Church held their regular monthly meeting at Mrs. Peter McIlmoyle's home on Thursday. The members gathered in the forenoon and dinner was served to a large number. Previous to the meeting at 2 p.m. a quilt was quilted by which the following program was given. Prayer Mrs. Hiter; Treasurer's report, Mrs. Ireson, Mrs. E. T. Saries; Solo, Mrs. W. J. Pitcher; Devotional Leaflet, Miss Georgia Pitman; Study Book, Mrs. A. Wright and reading Mrs. McIlroy. Meeting closed by the hymn and prayer by Mrs. Sandy McCurdy.

The many friends of Mr. Harry Holden will be pleased to know that his condition is not as serious as was predicted. But he will be confined to his bed for some time.

Friday evening guests of Miss L. Carr were, the Misses Lennox and Keitha Stapley of Madoc Junction and Miss Marjorie Hagerman of Anson. Messrs Kenneth Stapley, Bill Wood and Leslie McGowan.

The Ivanhoe Branch of the Women's Institute were responsible for the program at the euchre meeting held in Stirling on Tuesday evening. Over twenty of the members were present from this community.

Mr. and Mrs. Stack and family of Bloomfield spent Thursday evening with Mr. and Mrs. Jas. McGowan.

Mr. and Mrs. Frank Cosby of Campbellford, spent Tuesday at Mrs. Sarah Fargey's.

Mr. Sandy McCurdy spent a few days this week as guest of his sister, Mrs. Dan McQuary of Lindsay.

Mr. and Mrs. Wallace McInroy of Moira spent Thursday afternoon with Mr. and Mrs. Golda McInroy.

Born to Mr. and Mrs. Elmer Wilson on Wednesday, Feb. 2nd., a daughter.

Regiment Will Observe 75th Anniversary

With fitting ceremonies that include a formal dinner and a reception to follow the annual meeting held that night, officers of the Hastings and Prince Edward Regiment will on Monday observe the seventy-fifth anniversary of the founding of the regiment.

The dinner and meeting which will be attended by the officers of the regiment only will be held in the dining room of the Royal Hotel.

Former officers commanding the regiment will be guests of honor at the reception to be held in the Armouries and will assist in receiving the guests. A distinguished guest at this gathering will be Brigadier General H. H. Hertzberg, C.M.G., D.S.O., M. C., Officer commanding Military District No. 2, who will be accompanied by several members of his staff.

Lieut.-Col. R. C. Donnan, E. D. of this city, is the present officer commanding the regiment.

DRIFTING CAMP OF SOVIET SCIENTISTS WHICH IS BREAKING UP

This photo from Moscow, showing Ivan Papanin, leader of the Soviet scientific party that wintered at the North Pole, as he packed ice around one of his tents, was made last year when the party settled down for their long, cold visit at the top of the world. Papanin and his three companions are adrift on a floating ice floe in the Arctic, with their floe gradually getting smaller, while Soviet icebreakers are rushing to their aid. The scientists are keeping in touch with Moscow by means of the radio they installed on the floe.

START LONG TASK OF DRYING OUT ICE-ENGULFED HYDRO PLANT

Though immediate danger of destruction is believed past for the Niagara power houses of the Ontario Hydro Commission, just below the Canadian falls and at Queenston, Ont., since the ice jam which wrecked the International bridge is expected to move out slowly, mechanics and engineers "for many months' work before the upper plant, which was engulfed with water and ice, is again in operation. One mechanic is shown here at work amongst the giant generators starting the task of cleaning and drying them into renewed production. Note the huge chunks of ice still piled over the costly machinery. The plant, built low in the Niagara gorge, was virtually buried in a mountain of ice which backed up behind the main jam.

WILLIAM ALLEN WHITE

The seventieth anniversary of the birth of William Allen White is approaching. Notice is here given in advance that those who wish to congratulate him may have time in which to prepare their messages. The date is February 10. He is listed in "Who's Who" as a "newspaper man" and the profession is proud to claim him. But proudest must be the people of Kansas, to whose interests he has been geographically and in every other way loyal, despite all the invitations to more lucrative opportunities outside his native State. He has put Emporia on the map of the world. The "Delight" of his Gazette has been in wide demand—especially in other newspaper offices.

The latest weather reports from the editorial columns of his daily paper tell of a Winter whose January has come through as far "mild windless and altogether beautiful".

The sunrises and sunsets are glorious, not opulent as they are in Summer, but tinted in lovely pastels. The nights are clear and starful and the days are calm and glowing with sunshine. This is a Winter "like old times."

Such a Winter of life his contemporaries, old and young, will wish for him.—New York Times.

Gilded Orchid

By JANET DORAN

CHAPTER IT
Gerda's Ruse

"My birthday isn't until June, Wednesday, June 15th! And I simply couldn't let you do anything so utterly prodigal as that! I never heard of anything half so extravagant in my life before!"

"You'd let your college boy, Tommy Chisholm, buy you orchids," he argued, "and the price of them probably in relation to Tommy's finances, are about as one half penny would be to mine! And this coal, it should be a token of love in Tommy's terms! Why strictly my fun, Beautiful!"

Maydra stared at him in perplexity. It probably was entirely true, entirely as he stated it. But—five thousand dollars, in her terms, was a tremendous amount of money! All that Bill Leland made in a year, probably. Probably not that Gerda made in a year, too! Yet Wake spoke of money giving her something coating just about nothing!

"I'll go over to Revillon Freres and the coat-man will be strictly confidential, so there'll be no worry there. And—now you slip that mink wrap on, Beautiful, with this gorgeous dress under it, you'll be shivering if you don't! The thought of ever having nearly turned it down!"

"Let me think about it, Wake?" Maydra finally said.

"Let me get the wrap and bring it around—then after you try it on —think about it!" he urged.

He drove the car into the road heading to the resort but backed around and they started back to town. Maydra thought of the mink coats she had seen, and closed her eyes, dreaming of such a wrap over the new brewster wool frock. They would be worthy Sam's glittering limousine, his smartly liveried chauffeur, his flowers, and Monday dinners and drives, deep into the heart of Canada!

"No strings on that coat, Wake?" she mused aloud.

He grinned and dropped his gloved fist to cover her own fingers.

"None. I'm devoted to Kay. Not I'm a pagan, Maydra. A worship beauty. Call it a burnt offering to the altar of your eyes. How's that for poetic fire?"

"It sounds—captivating."

"Wait until you see it! You were made for such lovely things, Maydra. It's cruel to waste such beauty on hum-drum things, when you can have hunury, lovely things to match your own loveliness!"

"You'll forget all this, when you're back home again!" Beginning, in fact as far as my relation is concerned. It's a delightful experience, my dear. I'm so used to that unassuming side of public adulation and gossip!"

"That makes us equal, then,' Maydra smiled one of her rare smiles, "because I've never even tried on a mink coat! And I've never known a man with as many millions as you have. So many that five thousand dollars is a mere trifle! We're adventurers, Wake—both of us!"

"Then do you want the coat?" he reminded her, when she started to get out.

"Whenever you'd like to bring it!" she answered breathlessly.

"Then—tomorrow, at eight-thirty! Directly I take Kay to her theater party!"

"I—simply terrified!" Maydra gasped.

He shouted with appreciative laughter.

"I won't . . . even . . . let you, Beautiful! . . . Kiss me . . . thanks!" he vowed.

"I . . . angel!" Maydra whispered, turning to run in filling feet into the building.

She came into the apartment to find Gerda hard at work on a new design for a headdress for a dear concern. On the table lay a thick fat letter, postmarked Princeton, N. J., and on the card was a telephone number she was to call.

"Who was it, Gerda?" Maydra asked. The artist shrugged, lighting a cigarette.

"No can do . . . didn't recognize voice."

"Not Bill Leland?" Maydra hazarded.

"No—sure of that. Call him and find out, Infant. And I left a cocktail on the ice for you. Thought you'd be weary!"

"Thanks, darling. Yurve thoughtful, Gerda." She gave the number to the operator and waited.

"One moment, miss," said a Japanese housemen's clipped voice. "I call master quick!"

"Hello, Maydra!" Sam Locke said cheerfully. "Isn't it late for you to be getting through work?"

"Sam!" Maydra gasped; then her eye fell on the box with Suzanne's drawing in lay gold letters across one corner, "I was buying a dress, Sam. A lovely, lovely, new one! Wait until you see it!"

"You sound . . . happy!" he said indulgently, and Maydra sighed.

"I am . . . so happy I could sorn!" That you remembered she must not tell him about the mink coat. That would spoil him, naturally.

"Well, that's fine . . . it makes me happy to learn you're happy, little Maydra. Now about the bright news you open for that? Because I've tickets to the Harvard game, and I thought we'd drive up to Massachusetts and spend the week-end in Boston; and then drive home Monday."

"It sounds . . . heavenly, Sam! I'd love to." Then in the little pause that fell, "You know, some day I want to own a home in Connecticut, Sam!"

"Fine! So do I! We'll look at a few Sunday. I'll have my lawyer get me a list."

She hung up a few minutes later, a little dazed at all the things that were happening so fast to her. First the new dress, then the mink coat, then a chance to go up to Cambridge to the Harvard game! Then Sam's proposal that they hunt country houses Sunday!

"Gerda," she said softly, wriggling out of suit, blouse, and slip, and reaching for her robe, "did you ever feel that life was dragging you fast for you. That you couldn't . . . get your breath?"

"Not me." Gerda waved a paint-daubed palette eloquently. "I take it all in my stride, Infant. Take can't give me too many good things all one time! Not at my age and day it can't!"

The waiter gurgled, filling the tub, and Maydra lighted a cigarette, and opened Tommy's letter. Two long, plain college boy sheets of paper were clipped to the top of the letter. Tickets to the Harvard game, and I thought we'd drive up to Massachusetts and spend the week-end in Boston; and then drive home Monday."

"Sam!" Maydra gasped; then her eye fell on the box with Suzanne's drawing in lay gold letters across one corner, "I was buying a dress. Sam. A lovely, lovely, new one! Wait until you see it!"

"You sound . . . happy!" he said indulgently, and Maydra sighed.

"I am . . . so happy I could sorn!" That you remembered she must not tell him about the mink coat. That would spoil him, naturally.

"Well, that's fine . . . it makes me happy to learn you're happy, little Maydra. Now about the bright news you open for that? Because I've tickets to the Harvard game, and I thought we'd drive up to Massachusetts and spend the week-end in Boston; and then drive home Monday."

He drove the car into the road heading to the resort but backed around and they started back to town. Maydra thought of the mink coats she had seen, and closed her eyes, dreaming of such a wrap over the new brewster wool frock. They would be worthy Sam's glittering limousine, his smartly liveried chauffeur, his flowers, and Monday dinners and drives, deep into the heart of Canada!

"No strings on that coat, Wake?" she mused aloud.

He grinned and dropped his gloved fist to cover her own fingers.

"None. I'm devoted to Kay. Not I'm a pagan, Maydra. A worship beauty. Call it a burnt offering to the altar of your eyes. How's that for poetic fire?"

"It sounds—captivating."

"Wait until you see it! You were made for such lovely things, Maydra. It's cruel to waste such beauty on hum-drum things, when you can have hunury, lovely things to match your own loveliness!"

Have you ever realized how many different appetizing dishes can be made from the more than sixty varieties of Canadian Food Fish and Shellfish?

The Department of Fisheries, at Ottawa, a division of the Dominion Government, has prepared a FREE 52-page booklet, "Any Day a Fish Day", containing 100 delicious recipes for the preparation of Canadian Fish and Shellfish dishes.

Fish is a wonderful health food . . . it is not only most enjoyable, but contains the elements and vitamins that promote joyous, glowing health for every member of the family. Rich in nourishment, it costs so little that you can enjoy it often with new enjoyment every time.

ANY DAY A FISH DAY

They'll Do It Every Time :-: By Jimmy Hatlo

Latta

Latta—Mr. and Mrs. J. W. Hamilton, Mr. and Mrs. Fred Hall, Mr. and Mrs. Ira Dennis, Mr. and Mrs. Ralph Wilder, Miss Irene Hall, Mr. Drury Denyes and Mr. Garnet Denyes spent the last hour and evening with Mr. and Mrs. Raymond Sullivan and family.

The Women's Institute met at the home of Mrs. Norman Hall on Thursday afternoon.

There has been an epidemic of bronchial trouble and flu, with bad colds in this community. Nearly all the families seem to have their share of sickness. Some have had the doctor while others get better without.

Mrs. J. Wilder of Redeemville spent a few days with Mr. and Mrs. Ralph Wilder.

Mrs. Hall in his section pins many tricks on card and trucks by turning them several directions by a very quick manner.

Mrs. Hamilton Baker is like a lamb and so as the old saying goes it will go out "Like a lion."

Thomasburg

Thomasburg — Thomasburg I. O. O. F. lodge held a Valentine Social Home with an Oyster Supper on Friday evening. During the evening a much enjoyed programme was put on by local talent. Bro. Everett Jeffrey, Noble, Grand of the lodge performed the duty of chairman.

Mr. and Mrs. Edward Carter were guests on Thursday evening of Mr. and Mrs. L. Reichesko at Tweed.

Mr. and Mrs. Wm. Holbert were week end guests at the home of Mr. and Mrs. Elwood Kerruish in Kingston.

Mr. and Mrs. John Geen of Fulker spent a few days recently with Mr. and Mrs. Wilbur Sherry.

Miss Helen Howe spent a few days recently with her uncles, Messrs. Fred and Clare Meyers.

Miss Dorothy Clare, was a week end guest of friends in Kingston.

Mr. and Mrs. J. R. Bateman visited Mr. and Mrs. E. Carter spent Saturday with friends in Belleville.

Mr. and Mrs. Gerald Reid and Carman were week end guests of Mr. and Mrs. Kerruish and Mr. and Mrs. N. Foote in Kingston.

Miss Evelyn Cheeney of Marysburg spent the week end the guest of Miss Emma Jeffrey and other relatives here.

Mr. and Mrs. Thos. Slush of Campbellford were guests recently at the home of Mr. and Mrs. Elwin Bateman.

Mr. and Mrs. Herman Elliott spent the week end with relatives at Consecon.

The Young People's of Burnbrae Presbyterian church presented their play "Mrs. Grandma," in the I. O. O. F. Hall here on Tuesday evening under the auspices of the Young Canada Conservative Club. After the play dancing was enjoyed.

Eldorado

Eldorado—The Eldorado and United Young People's meeting was held on Monday evening at the home of Mrs. Wm. Marshall of Wellington when the meeting was in charge of the Christian Culture Convener Mrs. Wm. Green.

The meeting opened with the worship service, prayer was offered by Rev. J. C. Wilson, Miss Grace Robinson read the Bible lesson after singing a hymn. A duet by two little girls was rendered by Mrs. Green and Mrs. Wilson.

The roll call showed 22 present, and the offering amounted to $1.25. Splendid reports were given by the two delegates who attended the Winter school at Belleville. Misses Lillian Arkell and Gladys Martin.

A committee was appointed to help arrange the programme for the Valentine meeting to be held at the Union Church.

Miss Mutton then called on Mrs. Harry Bailey for a poem "Waiting for Promotion" after which the topic "Biography — Albert Schweitzer" was very interestingly outlined by Mrs. Jack Emery, Miss Nona Shaw read a poem and after singing hymn 225 the meeting closed with the Mispah Benediction.

W. M. S.

The Eldorado and Union Women's Missionary Society held their regular meeting on Wednesday, February 2nd, at the home of Miss Annie Holmes.

A very interesting feature of the meeting was a fine display of aprons which had been made and donated by the members. The sale of which amounted to $3.90.

The president Mrs. A. Harvey called the meeting to order and opened with a short worship service. Prayers were offered by Mrs. George Robinson, Mrs. Albert Empey and Mrs. C. McCann.

Mrs. A. Harvey gave a short talk on "Service" and outlined the Bible lesson.

Mrs. C. D. McCann opened her program by all singing a hymn. A reading "Hot Potato Story" was given by Miss Annie Holmes.

"Temperance" was given by Mrs. George Robinson. "Largo," a musical number was rendered by Mrs. S. B. Dafoe.

The Study Book talk on "Medical Missions" was well given by Mrs. Bert McCarney.

Mrs. Harvey then conducted a short business period. The roll call was responded to with a "Temperance quotation."

A letter from a little girl in Saskatchewan was read by Gladys Ireland'ew. A letter of appreciation was read from Mrs. P. J. Campbell for a box of clothing sent to Napanee with Mrs. A. McCreary as matron.

Arrangements were made for the world's day of prayer programme with Mrs. Geo. Empey as Temperance.

The meeting closed with prayer after which lunch was served by the hostess and assistants.

Mr. George Ruley spent the 1st hour on Sunday at the Clarke's.

A number of the young folks attended a party at the home of Mr. and Mrs. Ed. Ruley, on Wednesday evening.

Mrs. Dan Ketcham's was a 1st hour guest of the Misses Iva and Burnis McCann on Sunday evening.

Miss Laura Robinson spent the week-end at the home of Mr. and Mrs. Arthur McCreary.

Tweed

Tweed—The annual meeting of the United Church Sunday School was held in the church parlors with Rev. R. R. Nicholson presiding. The following officers were elected:

Superintendent, Mr. W. S. Gordon.

Assistant Supt., Mr. P. C. Bertsch.

Secy. Treas., Jack Tummon.

Asst. Secy., Tom Moffat, Jr.

Pianist, Mrs. John Sagar.

Assistant, Marion Pidgeon.

Teachers: Beginners' Class, Enid Connor, Marion Tummon; Primary Class, Mrs. S. G. Ways, Marjorie Tummon.

Class One, Miss Margaret Moffat.

Class Two, Mrs. W. E. Tummon.

Class Three, Mrs. Claude Barnett.

Class Four, Mrs. S. B. McGee.

Class Five, Evan "Tip" Tummon.

Class Six, Rev. Wilson.

Class Seven, Miss Rita Pallilet, S. A.

Class Eight, Miss Bessie Gordon, B.

Class Nine, Mrs. W. S. Gordon.

Class Ten, Mrs. Jas. Sagar.

Class Eleven Class, Mr. C. H. Garrett.

Teachers' Committee, Rev. R. R. Nicholson, Mrs. C. Barnett, Mrs. S. G. Way.

Temperance, Mrs. S. G. Way.

Missionary, Mrs. C. Barnett.

Home Dept., Mrs. M. Drinkwater.

Cradle Roll, Mrs. R. R. Nicholson.

C. G. I. T., Miss B. Gordon, Miss R. Rankin.

The meeting was closed with a short prayer by Rev. Nicholson.

The following members of Tweed Chapter Rebekah Lodge attended the installation of officers of Minerva Chapter in Belleville on Tuesday: Miss Mae Bailey, W. M.; Mrs. E. D. C. Morton, P. G. Organist; Mrs. J. Williams, Mrs. H. Crowder, Mrs. C. Ed. Way; Miss Marion Newton, Mrs. C. H. Perrett, Mrs. Donald Leslie, Mr. C. R. Perrett, and Mr. Donald Leslie.

Mrs. Leslie, Mr. and Mrs. Robert Sayers, Havelock, on Thursday, Jan. 27th, 1938, a son (Robert Donald).

Checkup has shown that no more than ten percent of the pupils of Tweed Consolidated and Tweed Separate School have been vaccinated against smallpox, or inoculated against scarlet fever.

Mr. A. S. Paul, of Smith's Falls is visiting his brother, Dr. W. J. Paul, and Mrs. Paul.

Rev. W. G. Hope Swayne attended a special religious service in Stirling on Monday evening.

Dr. and Mrs. W. A. Paul entertained a few friends at bridge on Wednesday evening. The prizes went to Mr. and Mrs. H. W. Crosbie for highest aggregate score.

Mrs. Anthony Hawley who has spent the past month in New York, returned home this week.

Mrs. W. J. McCutcheon of Wellington visited friends in Tweed for a few days.

The Junior Farmers and Farmerettes of Hungerford held their regular meeting at the home of the president, Mr. Gordon Coulter on Thursday evening, for the purpose of the Constitution. The following officers were elected.

President, Jeffrey.

Vice pres., Hilda Jones.

Secretary, Donald Bateman.

Treasurer, Norma White.

Directors, Phyllis Dyer, Helena Elliott, William Bateman, Harold Jones.

Press Sec'y, Marguerite Jeffrey.

Lunch was served at the conclusion of the meeting.

Frank Barker of Arden, a student at Tweed High School was fortunate to escape with nothing more than a soaking when he fell into the bright waters of Lake ona early during the past week. He was skating in the vicinity of the section where the ice operations were in progress and, apparently failed to notice the hole which had formed during the previous night. The ice had previously been carefully marked to warn thoughtless skaters from danger zone.

At a meeting of Tweed High School Board held on Wednesday evening, Mr. W. J. Paul was re-elected chairman of the Board succeeding Mr. C. Ed. Thompson. Vice Chairman is R. Curry.

Secretary, D. H. Morrison. Mr. Stafford Cassidy was named as County Council representative succeeding Mr. Pete LeGage. The following committees were named.

Property—Paul Rankin, W. L. Ketcheson, Stafford Cassidy.

Class—Mrs. J. Thompson, R. Curry; James Ryan.

Management—T. N. Beatty, L. Ketcheson, James Ryan.

A report from Mr. A. J. Husband, High School Inspector was presented to the Board. In which the Board was commended for the excellence of the accommodations provided for the equipment provided for the various departments. The work of the members of the staff was highly commended for its excellence.

In part the report said:—"The people of Tweed and the surrounding country have been fortunate in having had such capable and progressive leadership in educational matters that Mr. Morden has given them over a long period of years. The Collegiate Institute is a monument to that characteristic the work of all the classes, and the uniformly good results from year to year are a tribute to his work as a teacher. Mr. Morden has also been popular both teachers and pupils to do their best.

He has been fortunate:-too, in having a number of capable assistants, who, by their enthusiasm, their hard work and their general helpfulness, have played an important part in achieving the results of which Tweed may well be proud."

The following accounts were passed:

Roy M. Quinn, sweaters $10.00; W. IJ. Courtney 6.00; D. A. Rupert 6.00; Belleville Sargent Co. 7.07; J. G. Frost 5.75; Quinn and Quinn 10.30; G. R. Turnbull, Dominion Scientific Co., 11.20.

The village council held its regular meeting on Monday evening with Reeve Sayers in the chair. Members were: Councillors Kay, Myles, Key and Quinn.

The attention of the Council was taken up with the discussion of complaints from some residents that they were not receiving a fair share of the relief accounts. It was pointed out by Councillor Myles that these merchants had carried present, were relief cases for years and were entitled to whatever revenue was available now through relief vouchers.

After the problem had been viewed from all angles an arrangement was made which should work out to the satisfaction of all the merchants.

The Council voted a grant of 10.-00 to the Salvation Army which is doing a good work in the community. Applications were received from D. M. Ellis, Ernest Cronkright, Russell Terry and Stanley Lee for the position of Assessors. Messrs. Joseph Rashotte and D. W. Sills were appointed.

The question of the dog nuisance in town was discussed at length. It was felt that the assessors should collect the tax before issuing tags. The Constable will be authorized to destroy all dogs whose owners fail to pay the tax promptly.

The following accounts were ordered paid: Quinn and Quinn 15.75; T. Bateman 4.00; W. Tweed Inn 10.00; E. C. Drinkwater 10.46; Paul Rankin 17.50; The Dominion Stores 3.25; F. B. Foster 13.97; Tweed News 39.20; G. D. C. Morton 16.25; Belleville Hydro Elec. Power 8.00; John Rolls 4.50; E. W. Jones 5.50; F. B. Foster 244; J. G. Hayes, salary and expenses 85.96; H. Courneya 10.00; Bell Telephone 4.99; W. H. Richardson 30.00.

Hamal Fire Chief

Hamal Girls' Branch of the W. A. met at the home of Mrs. D. H. Bateman on Friday afternoon. Collect read the Scripture lesson. Each member answered to the girls' name from Alberta with whom she is to correspond. Interesting discussions were held, on several topics. Orcina Morrison played a piano solo. The meeting was closed with prayer by Mrs. Swayne. After lunch the girls were presented with thanks to Mr. Morrison for her hospitality.

Mr. and Mrs. Sigsy Jones and family and Mr. and Mrs. George Gerald were in Toronto during the past week. Messrs. Jones and Gerald attended the annual convention held by Armour, Jones Co. Ltd. for all distributors.

Messrs. T. McGowan and T. C. Graham attended the Annual Convention held in Toronto Feb 1st in Toronto last week as representatives of Tweed Agricultural Society.

I'VE LEARNED TO DEPEND ON LIFEBUOY TO KEEP ME DAINTY. IT CONTAINS A SPECIAL PURIFYING INGREDIENT THAT'S NOT IN ANY OTHER WELL-KNOWN TOILET SOAP

I WASH MY HANDS WITH LIFEBUOY—BECAUSE IT KEEPS THEM SOFT AND WHITE AND BECAUSE IT CLEANSES THEM OF GERMS AS WELL AS DIRT

WHEN I STARTED TO USE LIFEBUOY TO STOP "BO" I FOUND IT DID MORE THINGS FOR MY SKIN!...ITS ACTION IS SO GENTLE...MILDER THAN MANY "BEAUTY" AND "BABY" SOAPS

YOU TRY LIFEBUOY!

As you'll rival the Spring for freshness . . . More Canadian and American women — men and children, too—use Lifebuoy for the bath than any other soap . . . This fact was revealed when 31 leading magazines queried 125,000 readers recently.

LIFEBUOY HEALTH SOAP

A Lawyer Discusses Divorces

By GARRY C. MYERS, PH. D.
Head Department Ethical Schools, Cleveland College, Western Reserve University

MAJOR JOHN A. HADALLER, of the California Bar association, writes:

"Doubtless you could easily anticipate that your comment concerning the meeting of young people in the Jewish Temple of Cleveland, at which marriage was discussed, would bring a response from me. First permit me to compliment and encourage you to do much of that kind of pecking before, for the reason that family life is undergoing many strains which it did not know a few decades ago. Just to illustrate: in March of 1937, in the county in which I live, 34 divorces were granted, 98 new divorce cases were filed and only 91 friendships to marry were taken out. In my booklet I stated that the ratio of divorces to marriage for the fiscal year 1935-'36 was 42.3 per cent, but it looks as if this last year will show an even greater smash-up for this county." The booklet referred to is entitled "What's Behind Divorce?" It is based on analysis of one thousand actual divorces and over two thousand unhappy but undivorced marriages."

To continue from his letter:

Meeting of Church People

"The meeting at which you functioned was of church people, I take it, and for that reason was a favored group, favored because of the fact that religion is still a very decided disciplining factor in marriage, and will cement marriages of its people better than any other accidental factor. But this meeting of religious people, all its good of happiness in marriage, is but an indication that the young of today are not much interested in the discipline which religion will give them. And in the natural happiness and congeniality in marriage which will come by proper mating. In fact, they are looking to Grandma Malone, as you call nature's laws rather than to the consent that will come to them through religion and which is labeled 'St. Paul's Counsel to Keep Married Husbands and Wives Together.'

"The loyalty which has to be built up laboriously and painstakingly is not the kind this young generation is looking for, because that kind of loyalty presupposes a long period of training in obedience to a quite rigid standard. Without a fairly rigid standard of early training in youth, you just cannot expect much loyalty in marriage. Sometimes this type of training comes from a well maintained family standard, solid and substantial thinking in the home, but most often it is a product of the church. But enlightenment about marriage is not so much needed by the church goer as by the non-church goer.

What do you think of these statements by Mr. Hadaller?

MEN LOVE GIRLS WITH PEP

If you are peppy and full of fun, you will be the one to dance with and to kiss. Blues and headaches are cross, lifeless and tired, men won't be interested. Most often constipation is the cause of your blues and headaches. Thousands have found relief by taking Dr. Pierce's Pleasant Pellets. Just one pellet at night will show you how the system, thus benefited by the thorough but gentle cleansing, will help you to be full of pep and vivacity. Make a note NOW to get a bottle of world-famous Dr. Pierce's Pleasant Pellets. Then watch your step—more than a million women have found them to assist in getting health.

Why not try LYDIA E. PINKHAM'S VEGETABLE COMPOUND?

Spring Frocks Cling To Peasant The me

New Dresses Are Very Colorful And Charming

By LESETTE

THE PEASANT theme we still have with us, both in stylings of dresses and in designs of dress fabrics.

Floral designs are as numerous as ever this year in the new spring prints, in silks and cottons. "Wallpaper" and "chintzy" are the words that describe some most attractive patterns used in silk prints.

Bayadere stripes — which means, in case you are not familiar with the term, striped transversely in sharply contrasted colors — are especially popular this year. By looking closely at the materials you can often see that the stripes may turn out to be figures, bands of Egyptian or Greek design, abstract patterns or several kinds of flowers combined together to make the new fabric.

At the left is a floral combination used for a very attractive afternoon dress, with pleated bodice, the peasant low V neck, finished by a jeweled clip, and elbow length short sleeves. A black patent leather and self material belt is worn with this dress. The pink feathers on the black beret match the print.

Cotton in Peasant Styling

A pretty little dress in peasant styling is shown, right. It was designed by Dorothy Yoe and the material is a red and blue Chinese printed poplin. There is a shirred neck, a trimming of fine blue cord down, and the skirt is pleated all the way around. It is type of thing that has style, and may be worn at home, for shopping, business, and many other occasions at the southern resort or during the warm weather. Attractive hat, gloves and shoes in white add to its charm.

The bloused effects incorporated into many of the newest blouses and dresses are strongly reminiscent of the day of the laughy Gibson Girl. Bloused bodices are often combined with all-around pleated skirts. Watch that tendency. It is the latest thing.

A PLATTERIZER is a dinner hat of black satin, its high roll covered with black marabou, with a bow of black satin at the side.

Girls are like newspapers—they show good appearance, depends on their makeup.

Left, floral crumbler silk print with pointed bodice and sleeves, pointed and slit belt; above, peasant dress of blue and red Chinese printed poplin, designed by Dorothy Cox, courtesy of Celanese Textile Institute.

Advice to the Lovelorn

by BEATRICE FAIRFAX

(Copyright, 1937, King Features Syndicate, Inc.)
Famous Authority on Problems of Love and Marriage.

HE IS IN LOVE WITH HIS BROTHER'S WIFE

Dear Miss Fairfax:

My brother and his wife and I share a home. The awful truth is that I'm in love with my brother's wife, and she says she loves me. My brother went on a business trip, and was gone for several days. While he was away, she and I talked it over, but we can't decide what to do. I've thought of going away, but what good would that do? She wants to ask my brother to divorce her. But I know he worship her. And I couldn't bear to hurt a brother who has always been such a friend and pal.

May

Follow your own good impulse and "clear out." Such a situation as this one is intolerable, and there is no solution but what has been called the "old-fashioned decency." If your sister-in-law should ask her husband to release her and give her a divorce, you'd be miserable in having caused such suffering to a brother whom you love. It would just mean unhappiness for all of you.

I sincerely hope you will leave that household, and do it at once. And I hope you'll meet some very charming girl, soon, who will make you forget.

SHE PROMISED TO EMBRACE HIS FAITH

Dear Miss Fairfax:

I've been brought up to think a great deal of my religion, and our whole family are active in the affairs of our church. Lately I've become engaged to a young lady who belongs to another religion, and my parents do not approve of my marrying her unless she will promise to change to our belief. She has agreed to do this, but I feel sure she is very unhappy over it.

What would you advise us to do about this? I do want to please my wife, but I hesitate asking my girl to do anything of such a serious nature, unless she is really convinced she is right in doing so.

P. K.

My dear young friend, this is one thing about which I cannot advise you. You seem to understand that the question is one that must be worked out between you girl and yourself and your own consciences. Imagine yourself in the girl's situation. Would you be happy if you had to promise to take up her religion? Think well before you decide in this case.

DRINKING HUSBAND IS WIFE'S BURDEN

Reader Tells This Tale of Mother Who Wonders If She Should Carry On

By VIRGINIA LEE

"DEAR VIRGINIA LEE: This me how a wife and mother can take a nonchalant attitude toward life and carry on a husband who drinks and lies drunk for days at a time.

"She has been drinking for years and uses money that is desperately needed in the home. They have several children and a business that would at least make a good living, but he is the type of man who thinks when he works he is the only one who does, and home he is sober he fusses about light and water bills that are a necessity. But when he is using money for drink—that is different.

"The wife feels that she belongs to clubs, but her nerves are so ragged she can't forget. The children are resenting his drinking. That is another problem for the mother trying to keep the home peaceful and smooth running like a home should be.

"This wife is wondering if it is worth while to stay and try and hope he will quit. So many times he says he will, but it doesn't last. I read and enjoy your column and usually your answer is 'okay.' But really I can't. Do people who don't know what a drunken man is, know what they miss, especially if a woman is sensitive and loves nice things? This wife doesn't realize how impossible she has gone without a lot of things and tried to help him. She really has stood by, but she is interested in her children's welfare. He never can spare a day with his family but his drinking spree are quite different!

Is It Worth It?

"Now" Virginia, I'm writing this, not because my friend asked me, but because it hurts me to stand by and see such a fine woman who doesn't deserve what she is getting. She has been a good sport through and through and lots of people can say so. She tries not to complain; she tries to smile and does through it all. She's trying to carry on for the children's and for her pride's sake, but I'm asking you, is it worth it? Is the family's future worth it?

"A CONSTANT READER."

It would seem that under such circumstances this mother should take the children and leave, for all their sakes. But, then the practical problem arises, how to support the family; can the children help? If they can get along without the husband and father—who in this instance ain't according to your letter, a decided liability instead of an asset—it might be better all around. If she made a home for the children somewhere else.

But you have to consider that if she cannot see any way to support the family, she never could collect alimony from a man who is drunk so much of the time and whose business is failing.

I wonder whether there is any chance in the world for this husband to reform? Men have done as he is doing for years, losing their jobs or businesses, and then they have realized where their paths were leading them and have reformed.

And now will this fine, faithful wife react to leaving her husband? Will it, if she does leave him, later feel that he MIGHT have changed if she had stood by him? It amazes one to see the amount of punishment some loyal wives take because they love the man and think their place is by their side no matter what they do.

You and I, Constant Reader, may think the woman would be much wiser to leave and try to get along without the man who seems such a handicap to her and to the children. She may, however, feel that she is her husband's keeper and be happier standing by and hoping that in leaving. I certainly think she has a right to take her children and leave the man but we can't settle the matter for her, can we? It is for her to say. She has my sincere and earnest attention and sympathy which ever path she takes. Both are thorny.

• • •

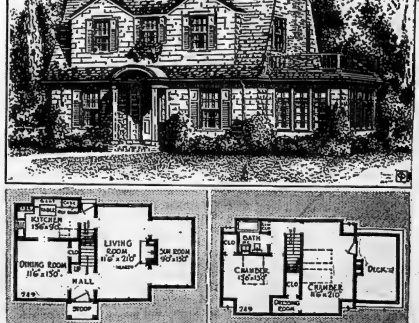
ANXIOUS: I cannot give you a list of summer resorts in this column which might be interested in employing you. Anxious, but any travel bureau can. Your library probably also has a list of resorts that might be of help.

• • •

Veils are being exploited in new colors, particularly pastels. Pink and blue are being arranged in new fashions as dark, black, and navy or black on light hats.

Healthful February Diet Should Include Fruit, Vegetables, Meat, Fish and Eggs

By MRS. MARY MORTON
Menu Hint



Cream of Lima Bean Soup
Cheese Sandwiches
St. Valentine's Salad Dessert
Milk

Plenty of fruit, vegetables and milk as well as meat, fish and eggs are called for in the February diet, the month physicians say is the time in which the youngest celebrates at its fiercest. Dried fruits are economical to serve at this season of the year, as they supply mineral and vitamin values. The salad suggested may be changed for good St. Valentine's day, or a party dessert for that matter. But is it good to eat and pretty on any day. Glycerine manufacturers say that the addition of a few tablespoons of glycerine makes the best recipe smoother. You can use it or not as you choose.

Today's Recipes
CREAM OF LIMA BEAN SOUP—One cup dried lima beans, two slices onion, two stalks celery, one small carrot, one tablespoon minced parsley, five cups water, one teaspoon salt, one-eighth teaspoon pepper, three tablespoons butter, three tablespoons flour, one and three-fourths cups evaporated milk, two and one-half cups water. Soak beans over night or eight hours. Drain. Simmer beans, chopped onions, chopped celery, sliced carrot and minced parsley in five cups of water until beans are soft. Force through a coarse sieve and add seasoning. Melt butter, add flour, milk and two and one-half additional cups water slowly, stirring until mixture thickens. Add glycerine. Allow sauce to cook until thickened. Add sieved vegetables and reheat before serving.

ST. VALENTINES SALAD DESSERT — Two packages cherry-flavored gelatine, one pint boiling water, one pint cold water, one-fourth pound marshmallows, one cup pineapple, cut in wedges; one cup whole cherries, seeded, six maraschino cherries, halved." Dissolve cherry gelatin in the boiling water. Stir until dissolved. Then add cold water. Pour into heart-shaped mold (aprica form or otherwise). Place in mechanical refrigerator until almost congealed. Cut the marshmallows into quarters, reserving four or five whole ones for garnishing later. Add cut marshmallows, pineapple wedges and white cherries to the thickened gelatine. Return to the refrigerator until firm. Just before serving, unmold the gelatine on a large plate. Garnish with marshmallows cut in half lengthwise and then snip to resemble petals of flowers. Place half a maraschino cherry in centre of each flower. Garnish with cherry centre and serve with salad dressing or whipped cream. Serves six.

LARGE SUNROOM FEATURED IN DUTCH COLONIAL

Design 240-A, National Plan Service Inc., Chicago

House of Dutch colonial ancestry containing six rooms, with large sunroom, and showing exterior and floor plans

By Central Press

OF DUTCH COLONIAL ancestry, this house suggests comfort as well as good looks.

The many advantages of this particular type of architecture may be found in this house with its large sunroom is one of the many desirable features.

There is a central hall, from which one enters the large living room to the right, the dining room on the left. Back of the latter is the well planned kitchen.

Upstairs are two bedrooms, the master room being as large as the sunroom, and opening on a deck above the sunroom that could be converted into either a sleeping porch or sun deck.

A dressing room in connection with the master bedroom, bath, and numerous closets, for clothes and linen, are part of the conveniences of this pleasant home.

The main building is 26 feet by 22 feet; size over all, 41 by 26 feet; total cubage, house, 17,900 cubic feet; porch, 310; total, 18,-110 cubic feet.

House Coats Have Charm To Soothe the Women Folk

By Central Press

HOUSE COATS are garments about which most women can wax lyrical. There is "something about them", don't you know.

Of course, a house coat may be a very practical and uninspiring garment, but generally speaking they are colorful, graceful, full of "charm and allure", as a beauty expert says.

Jeanette MacDonald, popular singer of screen and radio, is snapped informally at home wearing a "dream" of a house coat in a dusty pink satin. The frill collar and short puff sleeves have smart stitched detailing. The skirt part is flitted, and the skirt is full.

A simple and uplifting little house coat need not be expensive to make nilady feel like a million dollars. An attractive, basic house coat in pretty, bright colors, with flattering lines and daintily little puffed sleeves may be obtained for a very modest sum.

Style Whimsies

Many of the fabric coats carry fronts of Persian lamb.

• • •

Print blouses are favorites at Palm Beach, often worn with solid color slacks.

• • •

Gold with brown and navy are color combinations shown by Paris dressmakers.

• • •

Complete outfits of pinless infants' wear are being shown, from binders to gowns.

• • •

Sheer evening frocks of tulle and chiffon are being shown in Paris with crepe and satin underskirts that are only knee length.

Jeanette MacDonald

Yeast Mask Is Aid to a Lovely Skin

By GLADYS GLAD

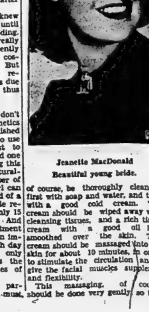
"America's Most Famous Beauty"

MEN AND WOMEN certainly do find odd things to use each other for. For if we are to believe Mr. Punch, the latest hook, "So You Think It's New", a lad back in the eighteenth century in England entered a suit in court that would seem unique even in this modern day and age. This young lad, it seems, sued his father-in-law for compensation to cover the depreciation in his wife's looks after her makeup was removed.

As he put it, he never knew what a hag he had married until the morning after his wedding! His wife, he alleged, had a really terrible skin that she apparently effectively concealed beneath cosmetics during their courtship. But when the cosmetics were removed—well, he felt he was due some recompense for being thus duped!

Strive for Perfection

Of course today, women don't plaster their faces with cosmetics in order to conceal a blemished skin. Instead, while they do use cosmetics they diligently first to achieve skin perfection. And one of their greatest aids in doing this is the use of face masks. Naturally, there are a good number of such masks that a girl can easily employ. But I've just learned of a new one that has remarkably revivifying effects. It takes only 15 to 20 minutes to administer. And it's a grand pick-me-up treatment for the tired gal who has an important date after her tough day in the office. For it not only softens, smooths and refines the skin, but also eradicates lines of fatigue.



Before administering this particular face mask, the skin must, of course, be thoroughly cleansed. First with soap and water, and then with a good cold cream. The cream should be wiped away with cleansing tissues, and a rich tissue cream with a good oil base smoothed over the skin. This cream should be massaged into the skin for about 10 minutes, in order to stimulate the circulation and to give the facial muscles suppleness and flexibility.

This massaging, of course, should be done very gently so that the elastic skin will not become stretched. Start at the base of your neck and then massage upward from the throat to the chin, and from the chin to each ear, using the three middle fingers of each hand. Then, using the forefingers only, massage in a rotary movement around the sides of the mouth and nose. All these massage movements are based on an upward and outward stroke.

After this massaging treatment, any excess cream should be wiped away with cleansing tissues. If you have a very dry, sensitive skin, you may leave a thin film of the cream over your face and neck under the pack. But if your skin is inclined to oiliness, it is wiser to remove every bit of the cream before administering the mask proper.

To prepare the mask, take half a cake of yeast and dissolve it in enough water so that it forms a rather thick paste. Then blend one tablespoon of bicarbonate of soda with the paste. This will form a concoction that foams up most energetically. Then spread the mask generously over your entire face and neck with a square of absorbent cotton, and permit it to dry, which generally takes about 15 minutes, and it's a good idea to lie down and relax during this period.

Then you may either remove thoroughly dry, remove it with cool water and a soft cloth or square of absorbent cotton. If you are stepping out right after this facial, use a refresher on your skin after you've removed the pack, and then apply your makeup. But if you intend to retire right after, smooth a bit of rich tissue cream over your skin after you've removed the mask to counteract any drying effects and to keep your skin soft, smooth and supple.

Mrs. (Col.) Keeler of Ottawa, is in the city.

Mr. and Mrs. F. J. Armstrong and son, Jack, Mrs. Margaret Crean, Reg'N., of Hamilton, were in the city to attend the funeral of the late Mrs. Lorne Crean.

Mr. Albert D. Monck is confined to his home Charles Street, owing to a sudden indisposition from a heavy cold.

Mr. and Mrs. R. A. Lashbrook and family have returned home after attending the funeral of Mrs. Lashbrook's mother at Rochester, Michigan.

Mrs. Arthur Cornell, John Street, has left to spend two months with her sister, Mrs. C. P. Le Rocque, Shawinigan Falls, Quebec.

Mr. T. H. Dredge late of Leamington, Ont., has arrived in the city to assume his new duties as manager of the Bank of Montreal, in succession to Mr. R. T. W. Leven, who is retiring. Mr. and Mrs. Dredge have taken up temporary residence in the home of Mr. and Mrs. Martin McCrvery, George Street and Victoria Avenue.

Mr. Fred H. Deacon left today on a business trip to Germany and Austria.

Mr. Harold Foster, Dechonin, Saskatchewan, is a guest at the home of his uncle, Mr. George F. Foster, Charles Street.

Mrs. Ada Wagner, Toronto, was a week end guest at the home of her son, Mr. Harry Wagner Campbell Street.

Mrs. Jamieson Bone has left for Vancouver, to visit her daughter, Mrs. C. Merritt and Mr. Merritt.

Twenty-six members of the Federation of Women Teachers attended an enjoyable supper and social evening at the Y. on Wednesday. Queen Alexandra School teachers were in charge of the delightful evening's entertainment.

Mr. and Mrs. Bruce Graham are leaving this week for Miami, Fla.

Mrs. E. Ryan of Timmins is visiting her parents, Mr. and Mrs. J. O. Kennedy, 91 Foster Avenue.

Mrs. J. Rodbourne, Sr., 58 Charlotte Street, suffered a fractured left arm when she fell at the doorstep of her home on Friday. She was taken to Belleville General Hospital, where the fracture was reduced and she is resting as comfortably as expected.

Miss Max Maxwell of the teaching staff of the Deseronto High School, who underwent an operation for appendicitis at the Belleville General Hospital last week, is reported considerably improved. Rev. F. Maxwell and Mrs. Maxwell have been visiting in Belleville. Mr. Maxwell will accompany his daughter to Toronto where she will convalesce.

Weddings

LICKFOLD—LITTLE

A quiet, but pretty wedding was solemnized at Mount Ostiago, on Friday morning, when Reginald John Lickfold, son of John Henry Lickfold and Fairella Vivian Little, daughter of Mr. Herman Little, were united in Holy Matrimony by Rev. Albert L. Geen. They will reside in the city.

FIRESIDE HOUR

At the close of the evening service at Bridge Street United Church, the Young People held their weekly Fireside Hour. The meeting opened with a sing-song led by Mr. Garland Houston. Miss Edith Clare gave a very interesting account of the Winter School recently held in Belleville. A vocal duet by the Misses Colclough was very much enjoyed.

Business Woman Asserts Girls Obtain Jobs Easier Than Men

By LILIAN CAMPBELL

THEME, 25 very little truth in the theory that women who seek careers have a more difficult time of it than men, says Allene Talmey, executive young editor of one department of a national magazine.

Miss Talmey is sure, in fact, that women have a definite advantage over men, for her charm and naivete won her her first job.

On the night of the Wellesley senior prom, Allene Talmey was summoned from her gay dancing group by a telegram. The wire was from a New York editor asking her to come to see him. His letter to the young Allene's writing through her contributions to a Boston paper.

In great excitement she caught the next train and dashed up to see him. She had what she describes as "one of those non-committal exciting interviews" and was passed on to the city editor, who was equally non-committal. But since he mentioned that the job would be $25 a week, she understood that she had the job and sent him a telegram a day before commencement saying that she was ready to start work on Monday. All the editor had meant was that anyone who came to work on the paper started at $25 a week, but he had made no mention of employing Miss Talmey. However, he decide d to engage her.

She proves that a busy business life does not preclude a happy married life. On the contrary she believes that work and marriage combine most successfully. "Work", says Miss Talmey, "gives you the

Allene Talmey

proper sense of values; it makes you a more sympathetic and understanding wife. There are no misunderstandings and petty quarrels when the husband comes home tired; there is a better conception of how difficult and nerve racking is life in an office and therefore more respect for each others moods."

Seed Acne Requires Different Treatment

By HELEN FOLLETT

WHITE HEADS or seed acne form some women. Others may white points appear around the eyes, on the upper portion of the cheeks, sometimes on the eyelids.

They signify that a pore of the skin has closed in door that is still doing business. Sebaceous oil cannot escape. They are head-like masses.

Home applications which will cause ordinary pustules to break and clear away their pale contents have no effect upon seed acne. Proper treatment consists of allowing the head to form, then carefully picking out the little head with a sharp point. Then apply a mask of a warm boric acid dressing.

Just what causes the closing of the pore is not known. Defective circulation may be a factor. Beauty specialists recommend regular massage of the thenus to get the circulation going. Also a head-like flesh with ice twice a day has a refreshing effect.

Before using the tweezers to weed out your eyebrows, apply hot, moist compresses. The hairs are will come out more quickly; you won't have tears streaming down your cheek, and sometimes happens.

Be fastidious about mouth hygiene. Brush your teeth regularly; you like your cigarettes.

Rinse your mouth after each meal. After the scouring, which must be thorough, rinse with warm water freely, swishing it between the teeth so as to remove foreign particles. Use a mouth wash. It made by combining two ounces each of peroxide and water, and a few drops of essence, tincture of benzoin, using as little friction as may persist throughout life.

Shoes must not only be smartly large, but they must be outline, with support for the arch of the foot. Stockings must not be short

if they are the little nails will become distorted, grow inward at the sides. When the feet are bathed, the dead tissue between the nails be carefully dried, otherwise the flesh may crack and bleed.

There are noses that redden the moment they are poked outdoors in cold weather. They aren't pretty. Well-behaved noses do not blush.

If you have that kind of a nose, get a tube of ointment of zinc oxide from your druggist. After the face is washed at night, apply the ointment, using as little friction as you possibly can.

Cut down on pastries, rich sauces, condiments. Drink fruit juices, have lettuce once a day. Reduce the amount of meat one-half.

HAVE YOU TRIED THE NEW RINSO YET? I USE IT FOR ALL MY WASHING!

I'M GOING TO BUY IT TODAY. I'VE HEARD WOMEN SAY IT GIVES 25 TO 50% MORE SUDS

OH... I SEE YOU'VE USED IT, AIREADY, HOW DO YOU LIKE IT?

THE NEW RINSO IS SIMPLY MARVELLOUS, BILDA! LOOK, HOW RICH THE SUDS ARE AND I HARDLY USED ANY SOAP AT ALL!

I TOLD YOU SO! AND JUST WAIT UNTIL YOU SEE HOW MUCH LONGER THE SUDS LAST.... AND HOW MUCH FASTER-ACTING THEY ARE

I GUESS IT'S SILLY TO BE SO EXCITED ABOUT SUDS.... BUT THEY DO MEAN AN AWFUL LOT, TO, BET THE NEW RINSO MAKES DISH-WASHING AND ALL CLEANING EASY AS PIE.

LATER

THIS IS THE BEST PAN I'VE EVER WASHED! IT SOAKED MY CLOTHES AT LEAST 5 SHADES WHITER THAN WITH ORDINARY SOAPS

THAT MEANS YOUR CLOTHES WILL LAST 2 OR 3 TIMES LONGER .... BECAUSE THEY AREN'T SCRUBBED THREADBARE.

AND TALK ABOUT SPEED! THE NEW RINSO ACTUALLY SOAKS CLOTHES CLEAN IN ABOUT 10 MINUTES

THAT'S RIGHT.... YET IT'S PERFECTLY SAFE EVEN FOR OVERNIGHT SOAKING

WOMEN EVERYWHERE SAY THE IMPROVED RINSO GETS CLOTHES AT LEAST 5 SHADES WHITER. TRY IT!

FOR YEARS Rinso has been the biggest-selling package soap in North America. Now, better than ever, it is winning thousands of new friends every day. And no wonder! The New Rinso gives richer, longer-lasting suds in tub, washer and dish-pan. It washes clothes whiter and brighter—safely. It makes all cleaning quicker and easier. If you haven't used Rinso lately—try it now! Economical—a little goes a long way.

GOOD MANNERS

By MRS. CORNELIUS BEECKMAN

(Copyright, 1937, King Features Syndicate, Inc.)

INTRODUCTIONS AND SIGNATURES

Dear Mrs. Beeckman:

1. When one has had luncheon in a restaurant or tea-room, when is it proper to go on one's own, before leaving the table or after?

2. For some strange reason, the matter of introducing ladies and gentlemen has always been confusing to me. I would be so glad to get this settled in my mind once and for all. For example, I want a man teacher of mine to meet a woman friend of mine. Will you please give me several examples of the correct way to introduce a lady and a gentleman?

3. How should a married woman sign her name if she does not care to use her maiden name, when her husband is a business man. Is it correct to use his initials, as, for instance, Mrs. J. R. Jones, or Mrs. John Roy Jones, or Mrs. John R. Jones, or Mrs. Mary Jones? Also is it correct just to sign "Mrs. Jones"? Should the signature be the same on all correspondence, business or personal?

4. Is one supposed to put one's return address and name, or just the address, in the upper left hand corner of an envelope? Also, when is one on greeting cards also?

M. J.

1. It is best form to put your gloves on before you leave the table in a restaurant.

2. I believe that the first thing about introductions that is bothering you is this: a man is introduced to a woman. Therefore, all the usual forms of introductions, the woman's name is mentioned first. An excellent form to use when we introduce a man to a woman is: "Mrs. Allen, may I present Mr. Rogers". And this would be a good form for you to use in the introduction that you especially mention.

For a more informal, casual introduction, we may, and correctly, reverse only the names: "Mrs. Allen, Mr. Rogers". Or, "Mrs. Allen, this is Mr. Rogers". Or, "Mrs. Allen, this is Mr. George Rogers".

Now these few fundamental rules make this matter simple, and you don't they? But if they don't do write me again and let me straighten out any other forms that may be troubling you.

3. Now here's a question that needs "stern" attention. For your letter to me was signed just as it would be engraved in the first place a married woman does not sign a letter, any letter, business or "Sincerely yours, Mrs. John Jones." She should use, for the direct signature of a letter her husband name. Then, when necessary, write her formal name (Mrs. John Jones) in parenthesis.

The formal personal name customarily adopted by a married woman is the first and last name of her maiden name prefixed to the surname of her married name; Mary Smith Jones. There are two other forms that are correct, but not so usual: Mary Jones and Mary S. Jones. One of these forms must be used in the direct signature of the letter, except letters written to close friends, which naturally are informal.

Now let's say that she is writing a letter to someone who must be informed of her formal married name. Then she uses Mrs. Jones. Then her correct signature would be:

Very truly yours,

Mary Smith Jones (or Mary Jones)

(Mrs. John Jones)

In the case of one in which your letter to me should have been signed, as it was signed, it would be written the form Mrs. J. R. Jones, or Mrs. John Roy Jones, but never Mrs. John R. Jones. Don't ever sign or use the form Mrs. Mary Jones.

4. Yes, it is correct, also, to write the return address on the flap of the envelope in the upper left corner or on the front of the envelope. And whether or not you add your name to this address depends on circumstances. For instance, if you live in your own house, this would not be necessary: if you live in an apartment house, it obviously would be necessary. The same holds true with greeting cards. Adding the address is a precautionary measure we may correctly use if we have any doubt that the delivery of a letter, or if we wish to "make assurance doubly sure".

Prints Popular At Winter Resorts

Mrs. William A. Anderson

By Central Press

WHETHER you prefer your swim suit in the brief one-piece type or a two-piece, such as the picture shows, even in a more conservative style, you will want one this season that is "different".

Prints are very popular at the various winter resorts where the fortunate ones gather, and you will notice the large design of the two-piece worn by Mrs. William A. Anderson, Jr., of Manitoba, Canada, who was caught by the vigilant cameraman at a fashionable club at Palm Beach, Fla.

Draped turbans in lustrous jersey are ideal mid-season hats. They are very attractive, as well as practical, in black, brown or cerise combinations.

"Mother Ann"

By GERTRUDE SCHALK

The blue candles burned low on the tiny desk. Mary Lenox slowly moved the plume of her pen back and forth in the flickering light. The line between the crowsfeet at the corners of her eyes deepened.

"What is so hard, Mary?" The quiet voice came from the high reconfy chair near the fireplace. Mary was startled for a moment—she had forgotten that Aunt Ellen's existence.

Mary started to speak and hesitated. Finally, with obvious reluctance, she turned to her friend.

"Well, I suppose I may as well tell you now as later. I am not going to marry Tom . . . don't say anything," as Ellen opened her mouth to speak, "I have made up my mind."

She paced nervously up and down the first room, her slim boyish figure swaying with a grace that clearly ran in her own. Ellen, startled out of her usual placidity, gazed at her in surprise.

"Mae! . . . What has Tony done?" "Nothing," snapped Mary, as she dodged a table and kicked a cushion out of her way. "But, I feel it coming!"

"Fret what coming?" muttered Ellen to herself, impatiently. "I've been engaged only a week."

"I know it," said Mary, "but that in about two more weeks he'll begin to improve me. I'll say to him 'Now lace it would be to live with Mother Ann!' 'Mother Ann' . . . I won't be nagged by a man who is sick of her name I could scream; Morning, noon and night . . . dinner, supper . . . supper—'Mother Ann' . . . I won't do it! I won't live with any mother-in-law!"

Ellen scratched her left eyebrow, a sure sign of unusual mental activity. At last she spoke.

"I wouldn't be too precipitous, if I were you, Mary. You . . ."

"Oh, goodness sake, don't preach!" broke in Mary, inwardly she added, "Aunt, what do you know about such affairs? You've never had a fellow." Even the best of friends will sometimes hurt.

Mary caught the swift walk; she had never heard that note in Ellen's voice before. The firelight touched her plain face and gave it beauty of a pensive sort. Mary stared.

"Let me tell you a little story. . .

of a girl and a boy. They were in love, very much in love. She was "mad" for him and he for her, Mae. But he loved her. They became engaged, and everything was lovely. One day he told her that they would have to live with his mother for a short time. . . That was the end. She broke the engagement."

A long fell apart and showered sparks on the tile hearth.

"He grew bitter, for he had saved very much. After she had sent him away she repented, but it was too late. His love was dead. Both lives were ruined. And all months later his mother died . . ."

A little break in the even voice and the room was quiet.

Mary ached in a jerky fashion. To think that this tragedy has happened to plain, easy-going Ellen.

"Oh, Ellen."

There was a knock on the door. Both girls jumped.

"Don't turn on the light, my face is a sight." Mary wiped her nose and opened the door.

Tony stood there beaming down on her from his six-feet-one of young manhood.

"Hello, sweetheart! Hello Ellen. Listen, Sweets, I promised 'Mother Ann' and I'll bring you some candy. You know, Ellen,—Mother Ann' is my old nurse—she thinks the world of her child, and she wants to be sure he gets a nice little girl." He chuckled and looked down on Mary's bent head. "Think she'll agree?"

Ellen looked at Mary; Mary looked at Ellen.

"Yes, I think she'll do, Tony," murmured Ellen.

"I knew she will. Come on dear, let's go. 'Night Ellen."

The door closed behind them. Ellen sighed dolorously as she picked up her damp handkerchief.

"And I thought that I perfectly good sob on nothing. Oh, well . . ."

A great deal of attention was attracted at the theatre in Sable Anita race track by the appearance of the well-known flat celebrities wearing cork soled clogs with black crepe strappings, with a rubby black woolen fallcred

7 DAYS ONLY!

Helena Rubinstein SPECIAL OFFER

If YOUR SKIN is dry, drawn and lined, smooth on a little Nourishing Night Cream before you go to sleep. Let it rich, lubricate cell—derived from Helena Rubinstein's Inventory Formula. Then, while you work at it through the night for your beauty. Wake up with a new, young skin—healthy, smooth and radiant. For seven days only, we offer you Helena Rubinstein's regular 2.20 jar for the 1.10! Phone or come in for your jar today.

Estate of Jacob Shick, inventor of the pencil sharpener, has paid $1,500,000 to the Quebec government in succession duties. It will be remembered Mr. Shick left the United States three years ago, aggravated by the new deal and taxes. His estate will console that it is unable to escape from taxes, here or on the other side of the line. — Niagara Falls Review.

CANNIFTON W. M. S.

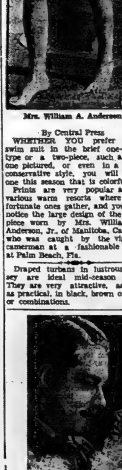
The regular monthly meeting of the Women's Missionary Society of Canniston met at the home of Mrs. Demil Collett with the president, Mrs. Chas. Mills in charge.

Mrs. Chas. Mills opened the meeting with prayer, then all joined in singing hymn 519. A reading "The Beautiful Side of Life, Lift Life, All Leads", was given by Mrs. Mills. The Responsive Reading by Mrs. Matthews and followed by prayer by Mrs. W. H. Merrick.

Letters of thanks were read by Mrs. Mills from Mrs. H. Twiddy and Mrs. Harry Foster.

Mrs. K. Chambers and Mrs. O. Noblin had charge of the following program: Mrs. Chambers gave a pleasing story, followed by hymn 418. A reading by Mrs. R. Empson. A solo by Mrs. J. Foote, a poem by Mrs. W. Brenton. The meeting was closed by singing hymn 366.

A lunch was then served.



BRIDGE STREET W.M.S.

The February meeting of the W.M.S. of Bridge Street United Church was held Friday afternoon, a large number being present. The meeting opened with prayer by the President Mrs. Semple. Hymn 42 was sung after which Mrs. McMartin was presented with a Life Membership certificate by Miss Zufelt in memory of Mrs. Owens.

Matheen Monck gave a brief outline of the work being done for teen age girls of the church in the C.G.I.T.

Mrs. Pearsall's group then took charge of the meeting. Mrs. Monck read the 17th chapter of John, followed by prayer by Mrs. (Dr.) Baker. A very pleasing duet was sung by Mrs. Geo. Wallace and Mrs. Farnsworth. A pageant was then presented from the 3rd chapter of the Study Book. Mrs. Geo. Foster taking the part of the Presbyterian church, Mrs. Sam Shepherd, Educational; Mrs. W. Blatherwick, Methodist. Miss Sayers represented the Japanese in Canada. Mrs. Myers, the pioneer settlements. Mrs. Monck, Prairies. Mrs. Wallace, typical Canadian town. Mrs. Shanks, non-Anglo-Saxon and Mrs. Fiskle, United Church.

After the sining of "In Christ there is no East or West", the meeting was closed with prayer by Mrs. Farnsworth.

Polly Drouin And Toe Blake of Canadiens Out For Three Weeks

BOLL A CASUALTY

Smythe Provides Fireworks When He Tackles The Referee

By A. E. Pardoe

Canadien Prize Staff Writer

Victims of heavy week-end backing spotted the N. H. L. scene today as most of the teams recuperated from the trials of the schedule. The playoff race has become a matter of grim business with them.

Montreal Canadiens suffered most, losing Polly Drouin to their 3-3 tie with New York Americans at Montreal Saturday night and Toe Blake when Detroit Red Wings flashed to a surprising 8-0 win over them last night.

Drouin broke a wrist bone and will be out for three weeks. Blake collapsed on the ice after breaking several ribs in a collision with Herbie Goodfellow and Herb Lewis of the Wings. The high-scoring left winger is confined to bed and a game but finally had to be carried off the ice.

Already hard hit by injuries, Chicago Black Hawks lost Doc Wiebe of their defence force last night when Boston Bruins whipped them 7-3. Wiebe received his over Wiebe early in the game and examination disclosed torn shoulder ligaments that will keep him out of action for three weeks.

Boll Suffers Charleyhorse

Toronto Maple Leafs last Russ Boll for an as yet undetermined period when they defeated Brooklyn 3-1 in Toronto Tuesday night. Boll suffered a charleyhorse and did not dress for the game. New York- where Rangers defeated Leafs 3-1 last night.

The results made little change in the standings. Leafs' win increased their lead over Canadiens by five points while Americans' point moved inside the charmed circle on Montreal Maroons, Canadian division cellar team.

The Bruins and Ranger points left Boston still three points up on the New Yorkers in the American division while Red Wings with moved them within half a game of Black Hawks.

Smythe Provides Fireworks

Manager Conny Smythe of Leafs provoked a sensation in the Leafs-York game set night, when he tackled referee Odie Cleghorn in the first period and tangled with referee Bill Boyd. Smythe was protesting that the official had called a penalty on offside.

As the Toronto manager slipped out on the ice he grabbed Boyd from behind. The latter turned on the referee on top. Boyd took the incident good naturedly but said Smythe's attack would be reported to President Frank Calder. There was no penalties handed out, automatically fined club officials trespassing on ice.

Leafs were never ahead in the contest Bryan Hextall scored for the New Yorkers in the second and after Syl Apps tied it up midway through the third period, Art Jackson scored the winning goal with less than four minutes to play.

Brillon Advances

In the Brain-Leaf game Porky Dumart gave Boston and edge in the first period but Gordon Drillon and Bingo Bingo Kampman's first N. H. L. marker gave Leafs leadership. Then came Mel Drillon with Cecil Dillon of Rangers for final-period counter that increased his margin as point scoring leader.

Seven saves were scored in the final period of the Bruin-Hawk game. Bruins were trailing early with a 3-0 lead and as Hawks opened up to attempt to make up the score Bruins caught them up the ice repeatedly. The game was delayed nearly 30 minutes in the second when the crowd protested a misconduct penalty to Wiebe. Gottselig by littering the ice.

Mel Hill, recruit from Providence got two of the Bruins markers and Bill Cowley, Bobby Bauer, Gordon Pettinger Art Jackson and Charlie Sands scored the others. Owen Nicholson, Art Coulter and Paul Thompson scored for the Chicagoans.

Rookies Prominent

The eight goals Detroit scored against Canadiens made short total in two games the Montreal defenders Americans 5-3 Thursday night. A complete report of Canadiens' defence and offence as well as the newly found wing scoring punch against the Chicago team follows.

Rookies had much to do with the victory. Mel Hill scored twice in two goals and Carl Liscombe and Eddie Wiseman one each. Herb Lewis, Doug Young, Larry Aurie and Marty Barry got the others.

In the game St Montreal Americans took a two-goal lead in the first period through Benoit Schriner and Eddie Wiseman but took it in the second when Lewis and Johnny Gagnon tied it up. Red Coupelle scored for Canadiens and Tommy Anderson for the New Yorkers in the overtime.

CHIPS from the SPORT BLOCK

By Geo. H. Carver

When the referee drops the puck at the Arena tonight between the respective centres of the Flyers and Redmen, it should inaugurate what will likely be the liveliest spot of hockeying seen this winter. . . . For the Flyers freak from their victory over the Tigers on Tuesday night bound and it will need all the tricks in the Redmen's bag to set back the flying Airmen. . . . By the same token the Redmen and Tommy Thomas' Trifle will be out to keep the scalps of the birdmen to their belts for an 8th game hiking the chances of finishing in third place. . . .

The Laurence-ian gang have struck their form apparently and will be tough customers to take from now on. . . . But the Red Makes too are far from beaten and with their figurative backs against the wall can be depended upon to give the wingy warriors the battle of their lives. . . . .

Speaking of the Airmen, they tell us that big Johnny Sarode had a field day in Peterboro the other gloaming. . . . The home town gang loomed as the hardy lumpers of the Flyers plastered on their prides in the first period starter to give Big Johnny the well-known bird.

With a brilliant assist illuminating his features Big defenceman waved his hand dramatically in the general direction of the scoreboard. . . . It was a silent but effective gesture. . . .

Sidney "Dit" Clapper, Bruin star, interviewed on the airwaves on Saturday night by a Toronto sports announcer when asked with what team he played amateur hockey replied "Oshawa, Parkdale and the Hastings Juniors." Dit" Dalied the score of the Bruins-Leafs game correctly but nearly got the teams in reverse. . . . He figured that the Bruins would "finish 30 that they would be last." . . . . Incidentally Dit played the game for the love of the sport. . . .

Ottawa and Cornwall, Ont., are ready for the Dafoe Bowls set in 1934 by Tom Hampson of England.

Johnston Coleman, South African distance star, trotted over the Marathon route in two hours, 30 minutes and 40 seconds to win the 1934 record of 2:40:36 set by Harold Webb of England.

The Australian women's relay team sped over the 440-yard distance in 49.1 seconds, three-tenths of a second better than the mark England's team set in 1934.

CANAM BALL LOOP TO MAKE CHANGES

Two Unable as Yet to Furnish Proof of Financial Responsibility

Ogdensburg, N.Y., Feb. 7.—(CP)—Th geographical makeup of the Canadian-American Baseball League in 1938 may undergo three changes it was shown yesterday at a meeting of league directors and two teams may be transferred to a nearby city.

Although yesterday was the original deadline set for clubs to furnish proof of intentions, directors extended the deadline to Feb. 15. The league was forced to take this action because two clubs as yet have failed to furnish proof of financial responsibility, may lose their franchise while a third may be transferred to a nearby city.

Although yesterday was the original deadline set for clubs to furnish proof of intentions, directors extended the deadline to Feb. 15. The league was forced to take this action because two clubs as yet have failed to furnish proof of financial responsibility, may lose their franchise while a third may be transferred to a nearby city.

"We have nearly a dozen applications from cities wanting franchises, including Cornwall and Ball-ston Spa, all in New York, the directors were told. Tentative interest is reported in Kingston, Ont. should the Brockville franchise be lost.

Ottawa and Cornwall, Ont., are ready for the Dafoe Bowls set in 1934 by Tom Hampson of England.

BARONS MAINTAIN 4-POINT LEAD

Philadelphia Ramblers Take Over Top Spot in Other Section

(By The Canadian Press)

Try and pry loose more than Cleveland Barons on a day-to-day scoring basis. . . . That's a tough job considering Barons have won their last seven games and are still undefeated in this season.

Barons picked off that seventh victory Saturday night when they romped off International-American Hockey League play in which they maintained their four-point advantage. . . . Philadelphia Ramblers, years of age, took over the leadership in the League's other section from Providence Reds.

Barons trounced Springfield Indians 5-2 in their only week-end game. Indians had the interest record for the two-day period, dropping a 3-1 decision Friday night to Barons who lost a Saturday clash 1-0 to Providence Reds. Reds in turn defeated Providence 2-1 Sunday, after losing by the same score the night previous to Pittsburgh.

Hockey's Big Seven

(By The Canadian Press)

Gordon Drillon of Toronto, shrewd New Hamburg hockey boy scoring lead to six points and his team-mate Bill Cowley pulled into second place tie with Cecil Dillon of Rangers as the Leaf sharp-shooter moved into a tie for third place respectively during the week-end. Drillon got two goals and an assist Saturday against Boston, boosting his point total to 37. Apps, with an assist Saturday, is one point behind Rangers last night, had 31. Marty Barry of Detroit Red Wings back to the big seven with a goal and two assists against Canadiens last night. The leaders

	G.	A.	Pts.
Drillon, Toronto	16	19	37
Dillon, Rangers	18	13	31

Blake, Canadiens	12	16	28
Haynes, Canadiens	10	17	27
Barry, Detroit	13	9	22

Hurled Discus 146' 10 1-8" to Better Old Mark by Nearly 11 Foot

O'CONNOR STANDOUT

Cobourg Hurdler Wins Place in 220 Yard Fin.

Sydney Cricket Grounds, Feb. 7 —(CP-Reuters)—Eric Coy of Winnipeg wrote a new mark in the discus throw in the Australian Empire Athletic Championship list today with a record-breaking discus throw, one of six marks toppled by track and field stars in the British Empire games second-day program.

The 24-year-old athlete hurled the discus 16 feet 10 1-8 inches to better by nearly 11 feet the eight-year-old record of 135 feet 11 inches set by Harry Hart of South Africa.

And in the track division Larry O'Connor of Canada, a member of the Maple Leaf into the 220-yard dash final with a dazzling display of speed in the sprint that saw the Empire record for the distance slashed three times.

The University of Toronto student sped through the distance in 21.5 seconds, equalling the fourth-best time of all time, shattering the three-tenths of a second faster than the Empire mark, and topping the first and third heats in times of 21.8 made by J. Mumford and E. W. Best of Australia.

Neither time stood, however, against the flying feet of England's Cyril Gilbert, Saturday's 100-yard dash champion.

Second Day Games Mark

The English speedster flashed over the long-distance route in one day to lead home his opposition in 21.3 seconds for a new games mark. From then on records were lopped down the list of the remaining events.

Decima Norman of Australia, chalked up 18 feet one-quarter inch in the women's shot-putting and Ball-ston Spa, all in New York, the directors were told. Tentative interest is reported in Kingston, Ont. should the Brockville franchise be lost.

LANKY BOB PIRIE WINS TWO HEATS IN SWIM MEET

Only Swimmer at Games to Win Twice in Meet

CHECKERS ERR

Blunder Nearly Cost Toronto Star Heat Win in 1600 Yard Race

North Sydney Olympic Pool, Feb. 7—(CP-Reuters)—Lanky Bob Pirie, 21-year-old Toronto star, set the pace today as Canada's swimming forces won six of eight qualifying places in the water division of the British Empire games and gave promise the Maple Leafs would be polished to victory in future finals.

Pirie crawled to victory in his heat of the 110-yard free-style and then despite an official blunder which cost him several yards, overhauled Norman Wainwright of England to win a heat of the 1,650-yard event.

He was the only swimmer to win two heats on today's swimming program.

Phyllis Dewar, Vancouver Canadian record-holder, gave Canada victory in a heat of the 110-yard women's free-style and fought to third place in the women's 440-yard freestyle.

Three Qualify

Three Toronto swimmers qualified: Doc Lyon, 17, in the 110-yard freestyle.

Dorothy Hobson, 18, in the 440-yard freestyle and Gordon Dellin in the 1,650-yard freestyle.

Young Bobby Pirie, of Vancouver, squeezed into a qualifying spot by turning in the fastest breast-stroke time of the two heats in the 110-yard freestyle.

First official blunder of the meet marred the first heat of the 1,650-yards when Bob Pirie and Norman Wainwright fought for the lead.

Lap after lap the two clung together, with Gordon Dellin, 17-year-old Australian, dawdling far behind in third place.

Lap Checkers Err

The official lap checkers inadvertently showed the wrong distance under cards to the swimmers and finally the judges left to count who was shouted to the swimmers as they turned.

Pirie were rung in the swimmers ears as they turned for the last lap confusing the field and Pirie once hesitated, lifted his head and apparently thought he was last and lost several yards to Wainwright.

The Toronto lad staged a strong finish to pull away from Wainwright as they came thrashing down the last few yards.

Pirie's time of 20.32.8 was declared by officials as an Empire games record for the 1,650-yard event. It was broken a few minutes later in the second heat when Rodney Lefevers did the distance 20.2 seconds faster.

CALLING 'EM

Between the Lines

with *Ken J. Colling*

From the outside looking in it appears as though the chips are down and it's every man for himself when the Flyers and Redmen cross sticks at the Arena tonight. Sure enough it's all over.insofar as which clubs and the teams involved. Only it would which shall battle it out in the intermediate 'A' ranks. Queen's and Belleville are definitely in the lower classification, and neither can finish in above the third slot regardless as to the results of all remaining games. There is a significance in the fact of the grouping and result of tonight's tussle mekns much to both the Flyers and Redmen. Neither can afford to lose, least of all the Redmen as Bobby Hewitt is more than anxious to gain that third hole, while Tommy Lawrence's "iron manded" ladies are running for the group leadership.

As we pointed out recently there is a decided advantage in finishing first and third in the final group standing. The Flyers have four games, with Peterboro in which to overhaul the Liffick City crew and finish on top of the loop, thus assuring themselves of the choice of games in the loop play-offs. The Redmen are idling on the proverbial keg of gunpowder with their hometown boys one time. The Belleville squad have their point scoring ace, Bobby Hewitt the Airmen, including tonight's tussle, Queen's have only their hats to worry about finishing in the province. The O.R.H.A. was formed about nine years ago in Oxford County and is rapidly increasing in popularity. The Trent Valley League could affiliate in the intermediate series. The O.R.H.A. is also a benefit to the small village rinks. Affiliation into this provincial body should do much to stimulate interest throughout the Trent Valley. This district, with the exception of Trenton, being eligible for provincial playdowns in the O.H.A.

THE PASSING of the weather tightens up sufficiently, A. W. "Army" Armstrong has been assigned to the inter-Dominion game holding. Jacques Theke, of the R.C.A.F., will be the middleman for the championship, placed third while surf-boarding at the Hawaiian Islands over the week end. Jim Fallock City ski club has had anything but good luck with their ski meets during the past three years. . . . Again we hear talk of professional baseball in Kingston, the suggestion being to move Ike Brocefrile franchise of the Canadian-American League to Joe Dalby's town. It's too bad Jack Adams couldn't apply some of those excess goals of last night with your boys to a few of Detroit's lemps.

Blair, Ont. is the founder and secretary of the Association, which was formed expressly for the purpose of elevating hockey in those smaller centres of villages up to 2,500 population. They, only have two entries, an opportunity to over 1,000 and intermediate for vil lages under that category. O.H.A. players are not permitted to take part in the O.R.H.A. during any season in which they sign an O.H.A. certificate, while senior and professional players can never participate in this class. Last year the O.R.H.A. had over 100 clubs in membership and the O.H.A. should prove just what the doctor ordered for the Trent Valley League.

With the exception of Trenton, every club in the Trent Valley loop is eligible for affiliation in the O. H. A. with the president Earl Rose and his contemporaries would be well advised to instruct secretary Coleman relative to affiliation. The O.R.H.A. will not tolerate "ringers" in any form of the word, and the hockey in this Association is purely and primarily for the purpose of providing competition throughout the rural districts and the Association is rather "touchy" regarding imports or ringers. The play-offs are arranged in the similar manner to those in the O.H.A., thus giving the smaller centres an opportunity to compare the class of rural hockey being played in their district, with that of the cities and villages throughout the province. The O.R.H.A. was formed about nine years ago in Oxford County and is rapidly increasing in popularity. The Trent Valley League could affiliate in the intermediate series. The O.R.H.A. is also a benefit to the small village rinks. Affiliation into this provincial body should do much to stimulate interest throughout the Trent Valley. This district, with the exception of Trenton, being eligible for provincial playdowns in the O.H.A.

THE PASSING of the weather tightens up sufficiently, A. W. "Army" Armstrong has been assigned to the inter-Dominion game holding. Jacques Theke, of the R.C.A.F., will be the middleman for the championship, placed third while surf-boarding at the Hawaiian Islands over the week end. Corby Public Library Reports Read at Annual Meeting

The hear yearly report submitted to the Library Board the librarian of Corby Public Library, Miss Ethel Adams, at the annual meeting on Friday evening gave an interesting account of library activities of the past year, in meeting the demands and needs of the reading public.

The report showed that 131,134 books had been used during the year, 82,367 in the adult department and 48,767 in the boys' and girls' department. In the adult section 77,976 fiction and 18,989 non-fiction books were borrowed. There are 12,268 adult books in the library and 2,962 juvenile volumes, a total of 16,364. The total number of borrowers as at December, 1937, was 8,571, including 4,942 adults and 3,629 juvenile. Books per capita of population are 1.1 and per registered borrower 3.92.

The report of the librarian, Miss Adams, and of the boys' and girls' librarian, Miss Kathryn Gallagher, follow:

The Corby Public Library Board,
Belleville, Ontario.
Gentlemen,—

A library is not just a building, nor is it merely a collection of books; it is a public service the value of which is increasing with the general change in outlook of the reading public. Many people are discovering that they can acquire knowledge as readily in adult life as in youth; many have increased time in their hands with unemployment and a tendency, to shorter working hours. There is also a realization by many, generally, that they need a better understanding of national and international affairs and of their influence on local conditions.

One of the library's chief aims then is to aid in providing information for adults with a view to caring for those who have missed educational opportunities in earlier life; for those who are trying to keep up with the ever changing and growing content of knowledge; for those who would gain appreciation and enjoyment in art, music, literature and nature; and for those who would fill leisure time with interest and increased power of service.

Improvements in Services

Although we have undertaken no projects of adult education within the library, we have endeavoured to continue and improve our services of the past by supplying carefully selected books of varied interest; by keeping up-to-date our Reference Department where we are prepared by the use of standard reference works, pamphlet and clipping file, government documents and indexed periodicals to provide study requirements; by co-operating with the many organized study groups in the city. In suggesting study courses and in supplying books as far as finances would allow; by availing ourselves of the "Inter-Library Loan" system when we were unable to meet the demand; and by displays of topical interest. Three such displays which proved popular during the year were Coronation Reading, Gardening Books and Flower Plans and Decoration, the last in co-operation with the Home Improvement Plan Committee.

9,071 borrowers are registered representing 27.73 per cent. of the entire population of the city of Belleville. There were 1,184 new members and 84 withdrawals.

Circulation in 1937

We had a grand total circulation for the year of 131,121 comprised thus:

Adult fiction for home reading	77,275
Adult non-fiction for home reading	18,093
Boys' and Girls' books for home reading	22,359
Pamphlets and clippings ..	541
Reference Books consulted	4,914

This total is not comparable with the 1936 total of 118,000, since no record of use of reference books was kept in that year. However it can be noted that there is the large increase of 8,000 in Boys' and Girls' circulation; small increases in the use of non-fiction and pamphlets and clippings; and a decrease of 3200 in adult fiction. This last is doubtless due (in, at least) to the comparative scarcity of fiction books. Our book fund was lower this year; and, in an endeavour to keep up other departments in which it is fatal to fall behind some 370 fewer fiction books were purchased than in 1936.

My only justification for letting fiction suffer was that whereas our other services were not augmented elsewhere, fiction readily was supplied cheaply by the local rental libraries.

16,364 Volumes in Library

There are now 16,364 volumes in the library, 1,332 new books being purchased in 1937, 90 donated, 1,283 were removed from the records, which leaves us the insignificant gain in books of 39 volumes. Of the books removed from the records, over 800 were worn out and of no further use; the other 500 can be accounted for thus:

During the first week in July, the library was closed for the purpose of taking inventory. The records were found to be in good order, but it was also revealed that since the last inventory taken in July of 1934, 500 volumes had disappeared. Had they been charged to a borrower or discarded it would have shown in our records. The only other answer was that they had been stolen, at an approximate replacement cost of $1.50 per volume. It isn't a pleasant thought but the library has suffered to the tune of $750. For this reason the very open approach to our book stacks is unfortunate, and it will be wise to make a change there when finances permit.

Provision Made

Meanwhile, with a view to removing a possible opportunity for theft and also with a view to "catching up" with inevitable penalty evidence, it was thought advisable to increase the circulating hours to include the evening hours of 6 - 7.30. Formerly during this time the building had been under the general supervision of Mr. Woodhouse, but his caretaking duties prevented the keeping effective watch. The change was made in mid-October and it has been found that, in the short time since then, having trained supervision during that period is of value. The citizens of Belleville now have an unbroken eleven hours of library service da'ly.

Even more! With the return of Miss Delaney to the staff in June after a successful year at the Library School in Toronto, Belleville becomes one of the few libraries, if not the only one, in Ontario with an entire permanent staff of graduate librarians. Frances Carter, Lorne Schryver and Elizabeth Lynch effectively performed the duties of part-time assistants.

Inspector's Favorable Comment

Our small Duplicate Pay Collection of fiction books continues to be patronized. Only $47.32 was expended on new books and $102.19 was collected.

42 periodicals of varied interest, 23 of them donated, were available during the year and back issues were lent for home reading. The Main Floor reading room was constantly in use, indeed often overcrowded.

Angus Mowat, M.A., formerly librarian in this city and now Inspector of Public Libraries in Ontario, made an official visit in October and commented favorably on the general appearance of the library and on progress since his departure eight years ago.

Recommendations

May I submit the following recommendations for your consideration during the year:

1. I would advise the installation of an improved system of lighting in the Main Floor stacks, for in spite of our hours of work washing and shellacking books and replacing dust it is still impossible at times to find books easily. You are familiar with the plan prepared at the Hydro Electric Laboratory in Toronto at a very reduced price reasonably. Mr. Mowat expressed his approval in October.

2. As recommended in Miss Gallagher's report of the Boys' and Girls' Department, I would advise immediate expenditure of at least $100 in replacements in standard books.

Book Purchase Increase

3. I would strongly advise, as I have before, the appropriation of more money for the purchase of books. On this point you and I by now fully informed but a general misunderstanding on the part of the public needs to be cleared. Our book fund is composed of the interest on a $30,000 trust fund set up by the late Senator Corby and any of the municipal grant that the Library Board may vote to this use. I quote figures that show that whereas our municipal grant has remained almost constant, our trust fund returns have decreased to little more than half what they were.

	Municipality	Legislative Grant	Trust Fund
1927	$5000	$760	$1233
1929	$5500	$380	$1173
1931	$5500	$200	$1141
1933	$5500	$160	$ 911
1935	$5500	$200	$ 705
1936	$5500	$200	$ 638
1937	$5500	$200	$ 632

As to Requisition

We operated this year on $5500 from the municipality, $200 legislative grant and $632 from the trust fund, a total of $6341. Under the Public Libraries Act, the municipality can be asked for a minimum amount representing fifty cents per capita. Based on our population of 14,764 this would be $7382. I would suggest that we requisition, not for the full amount, but for an amount which would be an increase of $1000 over the $5500 we now receive. And this is not unreasonable as you may see from the following figures supplied from the office of the Inspector of Public Libraries.

St. Thomas, population 16,000; appropriation $9700; regular expenditure $300. Sarnia, population 16,000; appropriation $11,000; book expenditure $9700. Brantford, population 17,000; appropriation $8000; book expenditure $2400. Woodstock, population 11,000; appropriation $5500; book expenditure $2100.

Such an increase would enable us to raise our book expenditure to a fair amount, in 1937. We spent $1550 on books, an amount which is below that spent in the same purpose by the library in Woodstock, a town with but 5,000 population, and furthermore, only $917 was from the municipal supply.

4. Lastly, may I repeat my old request that I be informed definitely all the beginning of the year of how much is to be expended on books? This would enable me to budget my purchases and spread them over the year as required. It was awkward for me, and certainly annoying to the public who knew not the cause of the scarcity of new books, to be restricted from buying books from the first of May until well into November. Our fall purchases were so late in arriving that they show little use in 1937.

Expressions of gratitude are due the Ontario Intelligencer for review space and those public-minded people who donated books and periodicals. Alfred Woodhouse continues his excellent care of the building and property and has proved himself a capable collector of long over-due books. My personal gratitude I extend to the staff, capable and pleasurably co-operative and to you gentlemen with whom I share a great responsibility in this day when there was never before such need for knowledge and clear thinking.

Respectfully submitted,
ETHEL M. ADAMS,
Librarian.

REPORT OF THE BOYS' AND GIRLS' LIBRARY

A record year has closed in the Boys' and Girls' Department of the Library, a year which has exceeded all expectations in increased membership and circulation of books. With our membership enlarged by 1266 during the year 1937, the total membership now reaches 1323 or 58 per cent. of the student registration of the five primary schools of the city. The circulation of books has increased in both fiction and non-fiction classes over last year, the fiction by 2891 and the non-fiction by 1728 making a total increase of 4714. The circulation for 1937 thus reaches a new high mark of 27,359.

This unusual rise in circulation and membership may be attributed largely to the new course of study begun in the schools in September, since the greatest increase was during the months of September, October and November when 2351 more books were given out than during these same three months last year. An interesting fact as shown in our statistics is that the course is achieving what it set out to do, to make education not a matter of forty per cent of promotion. The students, free from the burden of examinations, are keen to explore books and have opened up to them by interesting class projects. That the interest is a genuine one is attested by the after-school demand for such classes as non-fiction as Travel, History and Biography. The unusual gain during the months of January, February and November was in those three classes which show 1183 more than the same three months last year.

Increase in Reading

The program of activities as carried on in the Boys' and Girls' Library last year we discontinued during the latter part of the year as the increased circulation of a book a minute during the first three months of the new school term required all the energies to serve the crowds of children who borrowed books after school. The first week in May I visited three schools of the city, Queen Alexandra, Victoria, Bridge street and Queen Victoria school and gave short talks on book selection. These visits resulted in renewed membership and circulation. In the summer vacation a picnic party was held and over forty children took part in the project which dealt chiefly with animal books. The Summer Reading Story Hour continues to be a favorite with the children.

The Boys' and Girls' Library has served not only the schools of the city but has been a source of reference material for teachers in research work. Books, pictures and clippings borrowed by them during the year, 1937, total 1,000. Knowledge.

I am very grateful to the Board for allowing me the services of Miss Beth Lynch for "spot" work after school as it would have been impossible for one person to deal with hundreds of youthful enthusiasts, eager for knowledge, who stood in line-ups around the desk asking for books about Eskimos, Chinese or Africans, or who were anxious to find out more about Marco Polo, Magellan, stories and other explorers glimpsed in a lesson at school.

Due to the extra use of books during the past year and the fact that it was necessary to buy books directly relating to the course of study, the stock of standard books was sadly overlooked. It will be necessary to replace many of these over popular volumes which are in constant demand and which form an important part of every child's reading; books such as Robin Hood, Robinson Crusoe, Black Beauty, Heidi, Swiss Family Robinson and Treasure Island which have delighted children for generations.

Respectfully submitted,
KATHRYN GALLAGHER.

A Low-price TRUCK FOR EVERY NEED...

GENERAL MOTORS builds "from the smallest to the largest" in GMC trucks, knowing full well that in no other way can the widely changing needs of modern business and industry be served. The purchase of a GMC truck doesn't limit the buyer merely to a choice of size. The GMC line offers selection of all conventional types, with an unusual variety of wheelbase lengths and capacities to suit every form of special body.

GMC's for 1938 are smoothly streamlined with plenty of advertising space for your name, and lots of loadspace for your products. The big, clean-cut, speedy truck engine offers many worthwhile new features, and improvements have been introduced throughout the chassis.

For all the details on how GMC's will add to your profits by cutting operating expenses, see your GMC truck dealer. Low-cost prices in history plus the convenient monthly payments of the General Motors Instalment Plan make purchase an easy matter.

1938 ADVANCEMENTS . . . Lowest prices in GMC history . . . Greater driver comfort and convenience . . . New Diaphragm Spring Clutch . . . Heavy Duty Perfected Hydraulic Brakes . . . Stronger Vulve-in-head Truck engines . . . Improved engine lubrication . . . Hydraulic hoist and dump bodies now added to the extensive list of General Motors Factory-installed bodies . . . Notion-wide parts and service facilities.

GMC-38

LOW-PRICED TRUCKS COVERING THE ENTIRE HAULING RANGE

KEEP YOUR EYES OPEN FOR THIS FELLOW

You know him—tired, sleepy, half alive—the type he's useless to you and for him now, he swings down the street, keen eyed, wide awake—going places.

The trouble with this young-old man was an upset system. His liver, kidneys and bowels were not functioning as they should. Rheumatic pains and other uric acid ailments, arising from intestinal toxic matter, spoiled his life, sapped his energy. He just couldn't get going.

But Fyanon Salt transformed the town's drowsiest man. It cleared out his system, washed away the poisons and acids, stimulated liver, kidneys and bowels to normal, healthy action. Fyanon Salt, a combination of Sodium, Potassium, Lithium, nature's corrective minerals found at world famous spas—toned up his system, gave it a new sparkle. His daily glass of water, with half a teaspoonful of Fyanon Salt gave him an English spa treatment at home. Today he feels, acts, looks like a new man. You can be the same. If you feel tired, achey, out-of-sorts, Fyanon Salt may help you give you a new outlook on life. With your internal organs working as they should, waste matter and acid poisons will be practically eliminated. You'll feel brighter and better in every way. Ask for Fyanon Salt—Fyanon Salt Co., 75c a large package, at your druggist's. If you have any difficulty getting supplies, write: Laurentian Agencies, St. Gabriel St., Montreal. 13

"All right, Mr. Referee, Let's Go!"

At the end of the second period, with the score 6-5 in favour of Essex Centre, Mr. Picobac realized with a sudden shock that his pipe was empty and cold. He refueled it for the final period leisurely, with frequent pauses for post mortems on the course of the game so far.

"Picobac is great stuff at a hockey game," said he, tamping the Burley flakes firmly into the bowl. "It's a steady burner, and a mild . . . cool . . . sweet smoke in the time of stress. But with a score of 6-5 a man's pipe burns under forced draught."

He was searching his inner clothing for a match when the teams came back on the ice. He was still searching when they lined up for the face-off.

"Hey," yelled Mr. Picobac desperately, "somebody give me a match!"

Somebody passed him a box. The delicious fragrance of fresh-lit Burley spread through the air and Mr. Picobac's tension relaxed. His pipe was lit.

"All right, Mr. Referee," he shouted. "Let's go!"

SCOTS CURLER RECOVERS HORSE, PROMISES BOY REW'

Calgary, Feb. 7, (CP)—A reward was promised today by Hector Mackay of the touring Scots curlers for 15-year-old Bob Caldwell of Regina who Saturday found the ex-ra's book of $650 in travellers' cheques.

"Sure I'll give the lad a reward just as soon as I know his address," Mackay said last night but asked confidence:

"But how much should I give him. "you think? I've never lost a cheque book before."

WM. S. HART BURIES SCREEN HORSE "OLD FRITZ"

Newhall, Calif., Feb. 7 (AP) — William S. Hart dug a grave today for old Fritz, the bay and white pinto that carried him three—many a gunfight on the screen.

Old Fritz, who spent the last 18 of his 31 years in retirement on Hart's ranch here, died yesterday.

Factory Collapses In Flood Waters

Amsterdam, N.Y., Feb. 7—(AP)—The ice-jammed Mohawk River, swollen to flood stage by recent thaws and rains, today swept away a brick factory buildings and mundated low-lying portions of this city of 34,000 inhabitants.

Weakened by swirling torrents of water and the continued pounding of ice floes, the number four plant of the Beech-Nut company toppled into its foundations and collapsed into the stream.

Police in rowboats rescued a number of persons marooned in their homes in the riverfront section.

This city was left without gas service today as the flood waters of Mohawk River, swollen to flood stage by recent thaws and rains, inundated low-lying sections.

FRENCH STAR IS IMPROVED

Hollywood, Feb. 7 (AP)—Simone Simon, fi with pneumonia, is much improved today, Cedar of Lebanon Hospital reported.

The French star's condition became serious last week after she insisted on continuing work in a motion picture.

Ungava Missionary At Christ Church

The Sunday morning discourse at the Holy Communion service in Christ Church was given by Rev. W. G. Wallace who assisted the rector Rev. G. G. Wright.

Mr. Wallace is a missionary stock having spent thirty-two years in the east coast of Hudson Bay, known as Ungava, a territory as large as Ontario, ministering to the Eskimos of the Peninsula. He narrated some interesting experiences. The reverend gentleman, known to Reindeer Walton, has had medical training, and was also obliged time to put into practice the art of printing.

Before his message upon John 10:16, he pointed out how man in Christian lands is the servant of God. Jesus often stressed the 'must' in connection, he compared discipleship. Contact with the Divine is necessary for effective result. In the French white lands, where when in touch with the vine and branch, there is fruit in abundance.

Mastering languages comes by living in the midst of other races. There is no place in such circumstances for inferiority complex. The great object of northern Mission is to bring to Christ, complete disciples

Fashion Flashes

(Copyright, 1938, King Features Syndicate, Inc.)

A BROWN STUDY is possible for spring, since brown figures prominently in the fashion line-up. A frock of brown flat crepe is a box-type model with a front of pleated matching chiffon. Chiffon ruffles mark the cuffs and form a dust ruffle as the hem of the skirt.

HER FIRST DANCE will find one sweet girl wearing a dress of egg-shell silk net over matching taf-

SCOTT'S SCRAP BOOK

By R. J. SCOTT

feta. Her wide skirt is bordered with bands of self ruchings, and there are ruchings on the short, puffed sleeves. The decolletage is heart-shaped.

STILL TO THE FORE is the smart dinner hat, an ideal finish to an informal evening costume. A nice model is a cap made of black sequins in two sizes. Sequin antennas shoot up from the front.

OUR FAVORITE daytime ensemble consists of a coat of black

woolen with bands of Persian lamb, and a frock of sheer black woolen with wide royal blue satin sash and matching collar, the collar having plastrons of the fur in front.

A GOOD FINISH to a smart outfit, or a lift for a simple costume, is a fine bag. A beauty is a large pouch of black antelope with a frame composed of flowers set with marcasite, the flower stems forming the lift clasp.

COLDER WEATHER

(Continued from Page One)

More than 300 families in London, hard hit by floods last year, hastily evacuated their homes Sunday as the Thames River rose swiftly to 18 feet above normal and inundated much low-lying land. But early today the turbulent Thames began to recede and the frightened householders prepared to return.

Western Ontario Affected

Western Ontario districts were chiefly affected by flood waters. Highways were flooded, lowlands covered to a depth of several feet in places and much property was damaged. A wooden bridge was swept away at Dublin, in Perth County, when ice broke in the Nine River Lifley broke last night.

Joseph Perreault and his family of 17 were evacuated from a house in St. Thomas where the precipitation was an heavy a stretch of brick pavement heaved. Several hours after Perreault left, his house was flooded. A dam burst at Preston and another threatened to go out at Dundas, near Hamilton, where flood waters poured into a high school basement gymnasium.

Wales on Highway

The Ottawa River ran over its banks at Tillsonburg, flooding a highway to a depth of three feet. Farm lands were flooded at Woodstock, Guelph, Nora and several other points. Lowlands near Strathford were two feet under water. At Meaford, on Georgian Bay, several acres of land were flooded and an iron bridge was menaced by swiftflowing flood waters.

Several small streams in the Toronto district quickly rose to the flood stage during the week end of heavy rainfall. A torrential downpour fell over Toronto last night during a brief but severe thunder storm. Many homes were flooded west of that city when the Etobicoke Creek and the Humber River overflowed their banks.

Low-lying farms east of Pickering were turned into miniature lakes and at Oshawa a creek flooded a tennis club. Fields were submerged to a depth of from two to eight feet in places at many central Ontario points. In North York, Toronto suburb, 600,000 gallons of water were pumped from a flooded street.

Port Hope Menaced

A menacing situation developed at Port Hope. There, a series of tobacco forced the turbulent Ganaraska backed up waters of the Ganaraska River. Manor Corners north of the town's business section was reported and authorities feared were to dynamite the dams. Sandbags were placed along highways in an effort to curb the ever-flowing water.

Fog, general throughout the Province last night, made motoring hazardous. Hundreds of cars and trucks were forced into ditches.

A somewhat different situation prevailed in Ottawa. There, rain had froze as it fell turned downtown and residential streets into sheets of ice. Residents made the most of it. Thousands skated about the city as messenger boys, unable to use their bicycles, delivered messages on skates.

READ WHAT COLD CATCHERS ARE DOING NOW

THANKS, DEAR. THAT'S WHAT IT TAKES TO RELIEVE A HEAD COLD, ALL RIGHT

EVEN BETTER, DARLING, IT HELPS PREVENT A LOT OF COLDS-JUST USE IT IN TIME

VICKS VA-TRO-NOL Keep It Handy . . . Use It Early

This is specialized medication—Vicks Va-tro-nol—is expressly designed for the nose and upper throat, where most colds begin—and grow. Used in time—at the first sneeze or sniffle or irritation in the nose—it helps to prevent many colds, or to throw off head colds in their early stages. Even when your head is all clogged up from a cold, Va-tro-nol brings comforting relief—lets you breathe again!

Fred MacMurray and Gladys Swarthout in the return of the revival hit "Champagne Waltz" at the Cap Hel today and Tuesday.

Little Benny's Note Book

We was eating breakfist and me said to pop, O dear, Willyum, I knew that would happen.

I'm innocent and I have witnesses, pop said, and ma said, Nobody mentioned you, I just remembered that I forgot to send Sally Jardin a New Year card in answer to her Christmas card after neglecting to send her a Chrisanna card before she send me one, and I have always been so sensitive that really, I mean really, it would be pathetic if it wasn't so funny. And yet I may be waisting my time to feel upset about it because in the herry herly or holiday season she may not of even noticed that she did not receive a card from me, and I haven't seen her since Chrisanna but I expect to meet her this afternoon at the Bridge Club. I mean how will I know? ma said.

Well, if she gives you the cold shoulder you can probably take it to mean no Chrisanna card, pop said, and ma said, Nat at all, Sally Jardin is a famous diplomat and she would no more betray her feelings than an iceberg during Esquimoes, so you can see it's not as simple as all that.

Then I rest my case and I'll see you this evening, pop said.

And he folded his paper and left for his office and tonite we was eating supper and me said to pop, Well Willyum, I had a stroke of inspiration and I fixed it all up.

Speaking of what? pop said, and ma said, Sally Jardin. The moment I saw her I took the bull by the first horn and I said, Why Sally, Sally Jardin of all people, I said, and I said, I hope you got my Chrisanna card, Sally, and I hope you weren't embarrassed by the fact that you forgot to send me one, and it worked, Willyum, I mean she apologized all over the place, ma said.

It's a womans werld, try to get me a couple of tickits, pop said.

And he got us four of the sporting page and stayed there.

JOY OF LOSING

It is revealed that the British nation is not hurting its personal property about on anything like the scale it used to.

The Christmas haul of lost property on the railways was smaller than in previous years, and, altho' the graph of public negligence backs sharply (and excitingly) upward in the case of abandoned plum puddings, there is no getting away from the fact that we are not such good losers as we were.

What significance, if any, lurks behind this fact is not clear. Maybe the whole it is not reassuring. To lose things, as a rule, is carefree, improvident and unceremonic. It irritates. It undermines self-confidence. It breeds doubt and uncertainty. It leads to alarming chats between clubs and endeavour with couriers to intercept the measureless and subterranean progress of dust bins.

This man who never loses anything is, if he only knew it, to be pitied. To misley anything is to miss a lot. There is a certain something, for instance, in losing a plum pudding on Christmas Eve, as quite a number of our fellow-citizens did this year. It is safe to assume that each of them has laid the foundations of his immortality. Far off in the future the fingers of their descendants, trying the quaint pages of twentieth-century almanacs, will stop and point to some outmoded and ridiculous Georgian. And that, of course, was your great-great-uncle Ernest, who lost the plum pudding on Christmas Eve.

It is needless to speak of the joys, acute though seldom tasted, of finding something that we have lost. Enough has been said to show that the habit of leaving things behind is an integral, if not perhaps a very valuable, part of the British character. Its decline will be watched with concern by all true patriots, particularly if they don't like plum pudding, anyhow.—London Times.

Beautiful blonde Simone Simon, young French film star, is dangerously ill with bronchial pneumonia in a Hollywood hospital. After suffering from a heavy cold for three weeks she collapsed in a picture studio.

SALLY'S SALLIES

There's as much safety in numbers as there is danger in figures.

ARE YOU WEAK, NERVOUS?

FOR young girls growing into womanhood, for women in middle life going through the "change," or those "run down" from headache, nervousness, sleeplessness associated with functional disturbances, Dr. Pierce's Favorite Prescription is a reliable vegetable tonic. Send 10c for trial pkge. Dr. Pierce's Clinic, Buffalo, Can. Just—it arrived and week and my nerves seemed to be all unstrung. But after I had used Dr. Pierce's Favorite Prescription a short while my appetite increased and I picked up strength and felt better in every way. "Favorite Prescription" is sold by druggists in liquid form, for women. Tablet form also obtainable. New size tabs. 50c, liquid $1.00 & $1.50.

THOMAS BRYANS

(Continued from Page One)

Ford, a service station employee, met Bryans Saturday night for the first time, only a few hours before the shooting, it was believed.

Alleged Member of Gang

Police said Bryans was a member of the Norman (Red) Ryan gang that gained notoriety in the early 1920's. He followed Ryan and two other convicts over the wall of Kingston Penitentiary in a daring daylight escape but was captured in Chicago a short time later and returned to Canada to complete his sentence. He was released six months ago.

Ryan died with Harry Cheokley in an attempted hold-up of a liquor store in Barrie, Ont., May 22, 1926. Believed to have reformed, he was on parole from a life sentence at the time of the Barrie shooting during which Constable John Lewis also was killed.

Shot in Stomach

Ford was shot in the stomach from close range, police said. A copper-nosed bullet was taken from his spinal canal after his death. Officers said a hole was in Bryans' right hand overcoat pocket, a hole, they said, which could have been made by a bullet discharged from a gun held inside the pocket.

Sergt. Scott said that as he chased Bryans the ex-convict ran as if from a revolver at him. The weapon jammed and did not discharge. The officer wrested gun from the man after, he said, Bryans again attempted to shoot him. The shooting occurred in front of the police station and Bryans was captured in a telephone booth across the street.

Experts today were attempting to determine whether the bullet removed from Ford's body had been shot from the revolver found in Bryans' possession. An analysis of blood taken from Bryans also was planned to determine whether he was intoxicated at the time of the shooting, 2:10 a.m.

Rawdon

Rawdon—Mr. and Mrs. Lindsay Pullock entertained Welldon's Ladies' Aid at their home on Tuesday evening with about forty in attendance.

The president, Mrs. Clifford Clancy presided and after devotional exercises and business, Mrs. John Heagle rendered a vocal solo. Readings of interest were given by Miss Carlyn Johnson, Miss Mabel Sharp and Mrs. Israel Clancy.

Rev. J. E. Beckel contributed a timely address and Miss Carlyn Johnson staged a contest.

An appetizing lunch was served and all enjoyed a social half-hour. A vote of thanks was tendered for hospitality.

Mr. Norman Weese spent a week at London visiting his brother, Mr. Lloyd Weese and his sister, Mrs. Thomas Weese, Mr. and Mrs. J. S. Weese of Bedenville, who have been spending the winter in London accompanied him home to Prince Edward.

Mrs. Clarence Douglas and Shirley of Fuller, have been visiting her mother, Mrs. E. Sharp at Welman's also relatives at Mount Pleasant and Hoard's.

Mssrs. Howard Cooney and Billy Ketcheson sponsored a skating party on Wednesday evening and entertained about thirty guests. The event was held on Mr. Murney Scott's pond and after an enjoyable skate all partook of buns and weinies toasted over a bon-fire.

Miss Marjorie Shier spent a day recently with her grandmother, Mrs. Mary Shier, of Mount Pleasant.

Owing to road conditions the usual Young People's meeting at Bethel United Church was cancelled. The sleet storm on Thursday evening, havoc with the roads and though they were bad enough before the storm they are now in a worse condition. Many of the hills are very treacherous for the traffic.

Mr. and Mrs. George Stone and family moved to the fourth concession of Seymour to reside on Tuesday.

Mr. and Mrs. Jack Ryan entertained a number of Stirling friends to a progressive euchre party on Wednesday evening.

Mrs. Wilmot Mayhew and son have been holidaying with her parents at Canton, Ohio.

Messrs. Jack Martin, John Bateman, John Morrison and Rev. J. E. Beckel attended County Lodge at Madoc on Tuesday.

Mr. John Morrison was appointed Deputy County Master.

Miss Helen Farrell has been holidaying with her grandparents Mr. and Mrs. Wm. Farrell.

Mr. and Mrs. Gardner Welch, West Huntingdon, were recent guests of Mr. and Mrs. Kenneth Pollard.

Mr. and Mrs. Burton, Elwood and Bobby were dinner guests at the home of Mr. and Mrs. George McMaster.

"WORN OUT" AND WORRIED

Dragging around each day, unable to get a full night's rest — cranky with the children — feeling miserable. Slowing it on "worn" when the kidneys may be out of order. When sluggish kidneys fail the system clogs with impurities. Frequently follows Backaches — headaches. Dodd's Kidney Pills help clear the system, giving nature a chance to restore health and energy. Easy to take. Sale. 14

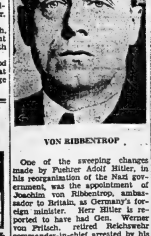
NOTED GOLFER DEAD

Hon. Michael Scott, ABOVE, British amateur golf champion in 1933, who died at Palm Beach, Fla., after struggling for half an hour with his first sailfish. The thrill of catching his first such fish, and the struggle in landing it, proved too much for the sportsman and he collapsed as the fish was dragged over the side of the cruiser. Scott was champion of Australia in 1904, was the oldest player ever to win the British golf title. He was 55.



CAN. NAZI FREED

DR. J. G. LAMBERT

Freed in a Montreal court of a charge of inciting students of McGill University to riot, Dr. J. G. Lambert, above, first chief telephones his jubilation to party headquarters. On the day of Lambert's acquittal, Justice Minister Lapointe announced in Ottawa a federal probe would be instituted into military drilling by Fascist and other organizations in Canada.

Now Foreign Minister

VON RIBBENTROP

One of the sweeping changes made in Hitler's Axial Rhine-to-Rhine reorganization of the Nazi government, was the appointment of Joachim von Ribbentrop, ambassador to Britain, as Germany's foreign minister. Herr Hitler is reported to have had Gen. Werner von Fritsch, retired Reichswehr commander-in-chief arrested by his secret police to prevent Fritsch staging a military coup d'etat. The shakeup puts the Nazi party in full control of all Reichland's armed forces for the first time.

DUST-STORMS AGAIN SCOURGE DROUGHT BOWL OF U. S. MIDWEST

Dust storms—the scourge of the southwestern and midwestern United States — are terrorizing farmers again this year. ABOVE, drifting top soil from the plains almost covers these railroad tracks near Boise City, Idaho, after one of the first storms of the year. Authorities fear other storms will blow up this winter and spring because the soil was almost completely pulverized after the droughts of the last few years. The darkened sky is caused by the vast dust cloud.

The Stars Say—

For Tuesday, Feb. 8

By GENEVIEVE KEMBLE

This should be a very lively day with much stirring in business and private affairs, judging by the interesting chain of planetary aspects. There may be good news of a rather surprising nature, probably in connection with legal matters, writings, contracts published. Be wise in dealing with superiors and dissolve and worry arrangements. In social, domestic and affectionate affairs there may be much activity.

If This Is Your Birthday.

Those whose birthday it is may be prepared for a very lively and interesting year, with publication opportunity and very happy and lively relations. Secrecy and intrigue, or under-cover business agreements may prove advantageous. There are auspicious signs for litigation, publishing or writings, but be sure not to work at cross purposes with superiors.

A child born on this day may be very clever, lively, versatile and likable, but may succeed either in an intellectual or artistic profession. It may also bring unusual interesting ideas or diplomacy to its relations.

HONG KONG

Hong Kong is virtually as British as Newfoundland. The colony is administered by a British governor with an executive council. It is one of the world's greatest trading ports. As well as the British city of Victoria on the island of Hong Kong, the suburb of Kowloon on the mainland is under the British flag. Additional territory further inland toward Canton has also been leased from China. Whether Japan can strike at Canton without also making war on the British colony of Hong Kong may be demonstrated in the next few months. It is incredible that it would be British policy to allow Hong Kong to go the same way as Shanghai.—(From the Ottawa Citizen.)

EXCUSE IT, PLEASE!

KI-Y LEAGUE

Goals by Ross McDonald gave the Tiger Pups a two to nothing victory over the Gorillas in a scheduled bantam Ki-Y league played on Saturday afternoon at the Arena.

The squads battled on even terms throughout the initial frame, McDonald scoring for the Tiger Pups in the second stanza and adding his second counter in the last period.

The line-ups—Tiger Pups—goal Mactlinger, defence—Smith and Bray, centre—Reeves, wings—Cairnes, Rawson, sub—Bishop. Woodley Denyes, McDonald, Day and McCormick. Gorillas—goal—Dyke, defence—Ashcroft, Carter, centre—Braden, wings—Bernard, Corbett, subs—Rose, Hutchinson and Ashley.

Referee—Reg. Anselstine.

WATER RECEDING FROM EAST SIDE CELLARS

Jam Holds in Lower River As Temperature Falls, River Clear to Cannifton

Ice-Jam Covers Area From River Mouth to Upper Bridge

MONDAY'S LATE SHOVE

Merchants And Household-ers on Banks More Optimistic

A jagged ice-field, its sharp teeth upflung in a gesture of defiance and temporary defeat lay in check in the lower stretches of the Moira River today. Somewhat lower temperatures during the night reduced the flow of water from the land and helped to maintain the confidence of the rather solid ice sheet a short distance south of the lower bridge.

Large cakes of ice are jamming the river-bed to the level of the banks as far south as the upper bridge. A few yards above open water is showing freely and reports state that this condition is evident to the Cannifton dam.

A solid ice field locking the river north of the Canadian Pacific Railway bridge at the lower end of the river and extending northwards to within a few yards of the Front Bridge heaved yesterday under severe pressure of ice and water coming down from the upper levels.

Monday's Late Movement

Release of a large field of ice in the vicinity of Lister dam shortly after four o'clock yesterday afternoon resulted in a sudden activity of the field to the south of the Lower Bridge. Ice cakes whirled and in a flurry of water. The entire field at this part suddenly became alive. Churning about in the run of a strong current the ice shifted an appreciable distance of thirty feet. Surging to a stop the field piled high in a jagged formation hoisting back the volume of water that surged in the wake of the ice drive from the dam. Without warning back-flow water suddenly poured into the already flooded area at the rear of the Kresge store and that vicinity. Water rose rapidly. In a little more than five minutes it had risen to a height of two feet pouring into the cellars of the Canadian Department Stores and other buildings in that immediate locality. Flood water poured around the east end of the Rockbridge to a depth of two feet affectively stopping pedestrian traffic.

Store Cellars Flooded

Cellars were inundated. At the peak of the flood, that occurred at approximately seven o'clock last night, three feet of water lay in the C.D.S. basement. Two feet in depth in the J. B. Boyce garage and Walker Hardware Store, water rose to a level above furnace pits requiring the emergency heating facilities. Temporary stoves were started this morning as employees sought some degree of comfort from the lowering temperatures of the night.

Other cellars in the vicinity also suffered from the flood. Owners of stores and other buildings along this section of Front Street took every precaution to guard against a repetition of the disastrous flood damage caused two years ago when the Moira overflowed its banks. Stocks were removed to safety to places of safety. Staffs worked long into the night while a few fled away a sullen ice-filled lay.

Business men and merchants of lower Front Street likewise took action in guarding against a back-flow of water should the ice-field move downstream.

Back-Flow Water Subsides

Shortly after seven o'clock last night, back-flow water that inundated cellars ceased. At eleven o'clock today, traffic was resumed across the Kresge store while water in cellars had dropped to a one-foot level. Ice cakes washed on the bank by the ice-movement yesterday are lying high and dry near the pavement on the west of the Kresge

Why the Weather?

By Major A. H. Thiessen
Science Service Meteorologist

Sketches of winter-and the garden! 17 winter has a backbone it is broken this month. Ever almost everywhere there is, on the average, a decided upward trend of temperature after the fifteenth. Therefore the gardener may begin to spread fertilizer. In the North, to get early stalks of rhubarb, place bonfire barrels over some plants and pile fresh manure around them, shielding the tops slightly. Start the hotbeds; frean manure will thaw out on the ground. In the South, hot and cold beds may be ventilated where seed have been sown. Sow tomatoes, egg plants and peppers in frames. Work the garden and sow wrinkled peas, lettuce, radish, early turnips, beets, spinach, onions, and potatoes. Set out asparagus and rhubarb roots.

THE WEATHER

Toronto, Feb. 8—(CP)—Synopsis—Pressure is high over the St. Lawrence Valley and the New England States, also over the northwestern portion of the district with intense disturbance over Hudson Bay and a shallow trough extending southwestward from the Superior thence westward to the Pacific. The weather has become colder in the western provinces and from the Ottawa Valley eastward with higher temperatures in Northern Ontario. Rain and snow occurred yesterday in the Maritime Provinces.

Lake Superior: Northwest to north winds; partly cloudy and colder tonight and Wednesday; probably snowflurries over east portion.

Manitoba: Fair and colder tonight and Wednesday.

Saskatchewan: Mostly fair and decidedly cold today and Wednesday.

Alberta: Mostly fair and cold today and Wednesday.

CHARLES W. BELL CRIMINAL LAWYER HAMILTON, DIES

Author, Playwright And Member of Parliament Has Noted Career

QUITE DIVERSIFIED

Conservative Member For Hamilton West For Ten Years

Hamilton, Ont., Feb. 8—(CP)—Charles W. Bell, K.C., one of Canada's noted criminal lawyers, author and playwright and for a decade an outstanding figure in the House of Commons, died at his home here early today. He was 61.

Death came shortly before 2 a.m. For days the barrister, suffering from a liver affection, had been in critical condition and his death was not unexpected. He had been ill for more than a month.

Mr. Bell collapsed after the 39-day trial of Isaac Bolloway, former stock broker tried and acquitted in Toronto on charges of conversion and theft involving more than $2, 000,000. Last Jan. 5 Mr. Bell acting for Bolloway, made one of the most eloquent pleas of his career before Ontario Supreme Court Judges.

The strain of the trial was believed to have weakened the courtroom fighter. Worn out, he was ordered to hospital here.

Plans for Beautification of Ottawa Completed

Ex-King Alfonso And Family Reconciled?

A picture made recently, showing ex-King Alfonso, XIII, his wife, former Queen Victoria and their sons, the Princes of Asturias (second from LEFT) and Don Juan (RIGHT). While the occasion was the christening of the first-born son of the Prince and Princess of Asturias in the chapel of the Sovereign Order of the Knights of Malta at Rome, it is thought by many to be proof of repeated rumors of reconciliation between the former Spanish monarchs who have been estranged ever since they were driven from their homeland in 1931, following the revolution. Possible victory by Rebel General Francisco Franco and the likelihood that Alfonso will be recalled to the throne is believed the reason for the reconciliation.

Niemoeller Trial a Show-down Involving Religious Freedom Of Christianity in Germany

Will Indicate How Far Gov't, May go in Religious Matters

NEO-PAGANISM SPREADS

Christian Churches Alarmed by Spread of New Cult Among The Young

By DEWITT MACKENZIE
Associated Press Foreign Affairs Analyst

New York, Feb. 8.—(AP)—Religious freedom, involving the future of Christianity itself in Germany has been placed on secret trial in Berlin.

That is the real meaning of the Nazi government's prosecution of Rev. Martin Niemoeller, Lutheran pastor who has led the protestant revolt against attempted regimentation of the church, and a tendency to supplant Christianity with pagan principles.

The issue is whether the churches, both Protestant and Catholic, shall be stripped of liberty of action especially as regards training of the young—and be made a part of the machine directed wholly to the furtherance of Nazi principles.

The trial will not settle that issue, but it may indicate how far the government dare go in imposing its will in religious matters.

There are several charges against the one-time submarine commander and great war hero. Among other things he is accused of criticizing the government from the pulpit, and inciting the populace to civil disobedience.

Visited 5,000 Pastors

Apart from these charges, it is necessary to know that the 46-year-old, vigorous defender of his faith is responsible for producing the most formidable opposition the Nazi party has encountered. He has preached in uniting some 8,000 Protestant pastors and 2,500,000 churchgoers in his army of Crusaders For Religious Freedom.

Mr. Niemoeller has been fighting this battle since Hitler came into power. More than seven months ago he was thrown into prison to await the present secret trial.

Formerly Supported Hitler

Strangely enough, he was one of Hitler's strongest supporters in the days preceding the Fuehrer's rise to supreme power. It was only when the Nazi regime attempted to "take over" the church that the clergyman revolted.

He went about the country like a prophet of old, crying out against what he called persecution of the churches. Thousands flocked to his standard and he quickly became one of the outstanding personalities of the fatherland.

The German churches have been terrified by the spread of the so-called neo-pagan religion sponsored by Dr Alfred Rosenberg. Christ "the Jew",

BACKWOODSMAN SAVED BY CHANCE

Found in Lonely Cabin Two Days After Food Supply Gave Out

Rouyn, Que., Feb. 8—(CP)—Saved by chance from almost certain death in a lonely bush cabin where two days after his food supply gave out, Joe Gronon was in hospital here today under treatment for serious abdominal injuries suffered when a tree he was cutting one month ago snapped and struck him in the stomach.

For a month after Gronon, caretaker at the Idle Quemactic Mine, dragged himself back to his shack he half staggered and crawled about, cutting wood for fire to cook his meals. He was alone at the mine, 80 miles east of this northern Quebec mining centre.

Visitors rarely came to the camp but when a delegation dropped in Sunday, Gronon was lying in bed with a weakened condition. He had gone without food for 48 hours and was suffering terrible pain.

The visitor hurried to Senneterre, 25 miles away, and an airplane was flown out by pilot Ralph Leslie who brought his Dominion Skyways' machine down on Cille Lake, in Vauquelin Township five miles from Quemactic mine. Within an hour later they made their way through the woods to the cabin, Gronon was in hospital. Physicians said he would recover.

THIRTEEN KILLED AS DIRIGIBLE V6 CRASHES IN STORM

Soviet to Use Machine to Rescue Scientists From Ice Floe

THREE ESCAPE

State Funeral For Victims And Families to Receive Pensions

Moscow, Feb. 8—(AP)—The hope of rescuing Russia's four polar scientists from their drifting ice floe cost 13 lives in the crash of the Soviet dirigible V6, it was disclosed today.

The V6 crashed into a mountain during a snow storm Sunday in the Kandalaksha region near the White Sea while on a trial flight from Moscow to Murmansk and return. The trip was temporary to piloting the rescue expeditions to aid the four scientists, whose imperilled floe now is about 90 miles off the east coast of Greenland.

Three ice-breakers also were converting today on the Greenland Sea area where the polar scientists are stranded, and a fourth was about to join in the search. The ships had aboard a total of 12 virtually equipped for open water or with rafts for landing on ice.

Only Three Escaped

Only three of the V6's crew of 19 escaped unharmed and Captain Gudovanstaff, the commander, was among the dead.

The semirigid dirigible had a capacity for approximately 350,000 cubic feet, was equipped with three 350 horsepower motors, and made its first trial flight from Moscow to Sverdlovsk in September last year, the Soviet Government announced.

Construction of a park area between Wellington Street and Carlton Square, Elgin Street and the city district commission depot, the way and eventual removal of all buildings in the area is also projected. In this area, a number of public buildings are planned "to form a comprehensive composition" with the new Union Station.

Create a Mall

Garden and park treatment will be given to many blocks and there will be a number of traffic islands and traffic circles. As part of the creation of a mall, bridges will be constructed across the canal from Albert Street, providing an alternate to Nicholas Street which runs in the opposite direction on the other side of the canal. This will relieve the bottle-neck traffic situation on the Plaza. The mall will lead over the canal to the new Union Station Plaza.

Mr. Greber said his plan for the city itself also took into consideration the housing problem in the city and had not laid off any men during the last year.

The blast at one plant knocked over a chimney, struck away, set fire to the building, smashed scores of windows and threw people from their beds in the neighborhood. The fire loss was small.

Transformation of City Included in Plans by Noted French Architect

Will Take 25 to 50 Years to Complete Venture

WILL WIDEN PLAZA

Garden And Park Treatment to be Given to Many Blocks

Ottawa, Feb. 8—(CP)—Elaborate plans for the beautification and development of Ottawa as a great picturesque capital, were disclosed today by Jacques Greber, noted French architect and advisor to the Dominion government. The work may take 25 to 50 years to complete and involves almost complete transformation of the centre of the city.

Among the first items to be undertaken to the plan is the planting of trees on the former post office building on the plaza, erection of a postal station on the northwest corner of Sparks and Elgin Street, widening of the Plaza and Elgin Street.

Other work projected includes relocation of the Union Station, now standing along the Rideau Canal and facing the Plaza. Its new location is planned to be on the east side of the canal opposite Albert and Slater Streets, in a line south from the present station.

Construction of a park area between Wellington Street and Carleton Square, Elgin Street and the city district commission depot, the way and eventual removal of all buildings in the area is also projected. In this area, a number of public buildings are planned "to form a comprehensive composition" with the new Union Station.

Create a Mall

Garden and park treatment will be given to many blocks and there will be a number of traffic islands and traffic circles. As part of the creation of a mall, bridges will be constructed across the canal from Albert Street, providing an alternate to Nicholas Street which runs in the opposite direction on the other side of the canal. This will relieve the bottle-neck traffic situation on the Plaza. The mall will lead over the canal to the new Union Station Plaza.

Mr. Greber said his plan for the city itself also took into consideration the housing problem in the city and had not laid off any men during the last year.

The blast at one plant knocked over a chimney, struck away, set fire to the building, smashed scores of windows and threw people from their beds in the neighborhood. The fire loss was small.

Moira River Flood Highlights

Take 1 Moira River fitfabIPs

Two sled-mounted power saws busy for wee - past on the annual task of harvesting the city's summer supply of ice. Ice cutting, Mr. Bell of Quinte, turned to the job of practical cutting in the not-too-thick ice of the Moira 200 feet below the car bridge at the mouth of the river at dawn this morning.

Commencing late yesterday afternoon, following the special meeting of the city council authorizing the work, the men, machinery and horses worked until midnight by floodlight, cutting into lays blocks and hauling the ice further downstream by the trucks. Foreman of the department of public works, two teams of horses, two sleighs and the saws were at work through the day and will be engaged until sufficient supply is stored for the overflow of the river is provided.

"It's not the ice which has dammed the ice-jam causing it to rise and flood the upper banks", stated City Engineer Chas. A. Mott, busy shoe on the ice-cutting. "It's the sludge, the anchor ice which packs the river at its mouth and to the bottom which is doing the damage." Tests made this morning showed that the semi-frozen sludge had formed a heavy sheet under the ice from a depth of two inches to the rents of the river have difficulty clearing through.

"Channel cutting in the river should have been started before, it has been maintained by some branches of industry, but the city workers this morning. "Yet at Port Hope teams have been keeping channels open all winter. Just now they are having as much trouble with flooding as they have ever had."

Britain Has Secret Device Tries to Find Place for Test

Nobody Wants it Near, General Ironside Tells Citizens

'MUST HAVE LAND'

Wells-On-Sea, England, Feb. 7—(CP)—Great Britain has in her possession a secret device and is introduce revolutionary improvements in her armaments, Field Marshal Sir Philip Blakeney and Wells-On-Sea. They had assembled to protest against the proposed establishment of an experimental gunnery site near Blakeney Point, a Wells beauty spot.

General Ironside listened to the objection with patience, walked to the platform and stunned his audience with the remark: "Will any foreign power in this country leave it shall say things perhaps, which we would not like to get into the ears of a foreigner."

Remarks Fully Reported

No one at the meeting remarks were fully reported in the press. It was absolutely useless arming the nation, he said, if its citizens decided the facilities of practice. He had been instructed by the government to find a place for practice, but wherever he had put it there was a howl from the people.

"There is not one inch of land on the coast from Cromer up to the North of Lincolnshire, where I have not been told, 'you can't come here.' In fact a few many say, get to hell out of here."

Other Targets

General Ironside declared the stage had been reached where the mere roaring of an airplane target had become too slow. Hitherto, it had been impossible to get targets moving faster than 130 miles an hour.

"I have got to train quicker," he proceeded, "and so we have invented something which is far more of the clay-pigeon style. I will not go farther than to say that it will be

(Continued on Page Two)

Birth Certificates To Be Legal Tender In The Court

Order of Finiah in Millar's Stork Derby to be Determined

MANY CLAIMANTS

Toronto, Feb. 8.—(CP)—Birth certificates, closely resembling those of lottery tickets, will be legal tender Saturday in 'Mr. Justice W. R. Middleton's court where the order of finiah in Toronto's famous stork derby is to be determined.

Twenty or more mothers claim the $500,000 bequest left by Charles Vince Millar, eccentric lawyer who left the ruins of his estate to the mother registering the largest number of births in Toronto in the 10 years following his death. He died Oct. 31, 1936.

All that has been determined so far from litigation extending over what is that the stork derby clause of Millar's will is valid. Relatives of the late lawyer contended it was fully to have it declared void by the court.

Mr. Justice Middleton will announce the winner or winners. Closely bunched after the 10-year race, at least six mothers are ready to offer proof they bore the legitimate children—illegitimate children were declared ineligible by the courts.

As the will-clause stated the births must be registered in Toronto.Mr. Justice Middleton will be primarily concerned with accepting birth registration-certificates. The mothers and lawyers have been busy getting these in order.

Mrs. Mary Ann Kenny-claim—for instance, how many eligible children will Mrs. Martin Kenny claim? Proud Mother, Mrs. Kenny has mentioned the number as 13, and again as 13. She is married to but will be the sole winner.

Prepared to claim nine eligibles are Mrs. Mathieen Nagle, Mrs. Hilda Graziano, Mrs. Lucy Timlock, Mrs. Vera Malcham, Mrs. Annie Gordon, Mrs. Isabel MacLean and Mrs. Pauline Mitchell.

But there are eight "unknowns" in the field. No advance information is available on their claims.

NEWS BRIEFS AND ODDITIES

FIREMEN ANSWER CALL INSTEAD OF MAID

Rock Hill, S.C., Feb. 8 (AP)—Firemen answered an alarm from a a dentistery at Winthrop College but found no fire.

Two coeds and much-abashed young lady finally told them: "I pressed a little button on the wall and someone told me that was the way to get maid service."

HARD-HITTING EMPLOYER ANNOYS HIS EMPLOYEE

Edmonton, Feb. 8 (CP)— Convicted of hitting his employer over the head with a stove-lid Mrs. Hitter, James Edward Hitter, a police court here yesterday that he had got the urge to do them things." He was sentenced to three months in jail.

WIFE IN HOSPITAL NOW WITH HUSBAND

Hamilton, Ont., Feb. 8 (CP)—Mrs. Millie Whittaksede, Hamilton, was admitted to hospital as a newspaper to help him pass the time in his cell. She was brought back to hospital suffering a possible fracture of the skull, bruises and shock when struck by an automobile at an intersection.

FOUND DYNAMITE ON DOORSTEP

Toronto, Feb. 8 (CP)—An alleged attempt to dynamite a home in suburban Scarborough was foiled last night when Jack Fox, 17-year-old resident, found six sticks of dynamite in a parcel left on his back step according on the doorstep.

ESTIMATE SEEMS TO BE LOW

Detroit, Feb. 8 (CP)—One dollar a week will keep the average American well-groomed, according to Bernice Allen, Secretary of the Detroit Association of Hair Exhibition, which opened here last night.

LAUNDRY PLANTS BOMBED AT DETROIT

Detroit, Feb. 8—(AP)—Two Detroit laundry plants were bombed today and police search were centered immediately at four other establishments.

Executives of the damaged laundries said they had no labor dispute, had indulged in no price cutting and had not laid off any men during the last month.

The blast at one plant knocked over a chimney, struck away, set fire to the building, smashed scores of windows and threw people from their beds in the neighborhood. The fire loss was small.

PRINCE NICHOLAS OF GREECE DIES

Father of Duchess of Kent Ill For Some Time

Athens, Feb. 8—(CP-Havas) — Prince Nicholas of Greece, 66, father of the Duchess of Kent, died today.

Last sacraments of the Greek Orthodox Church were administered to the prince Thursday and his condition became critical following a sudden aggravation of the circulatory ailment. Mr. Greber conferred over the weekend with Prime Minister Mackenzie King on the scheme.

Officials of the Department of Public Works said they expected plans would be far enough advanced to call for tender for the first projects by late spring. Construction, they expected, would be started this summer.

Coming Events

RESERVE FRIDAY EVENING, Feb. 11th, for dancing St. Michael's auditorium, sanpleon. Holy Name Society. Dan Falrman's orchestra. Two door prizes. Tickets 35c. f8-1t

City and District News

GAME INSPECTOR CONFISCATES SKINS

"What have you in that bag?" asked Game Inspector Herb McCabe of a Foxboro youth emerging from a local fur concern this morning. "Why, er, that is, well, I don't know," replied the youth. Subsequent investigations on the part of the suspicious game inspector revealed the bag contained two raccoon pelts. As it is closed season on 'coon skins the pelts were confiscated.

Inspector McCabe refused to reveal the name of the Foxboro youth who he alleges tried to sell the two raccoon pelts to a local fur dealer, without success. Charges are pending in the matter, while in the meantime the skins have been confiscated. Inspector McCabe saw the lad emerging from the fur house with a suspicious looking parcel and as the lad was putting it into his automobile, he was approached by the officer.

PUSSY WILLOWS ARE OFFERED FOR SALE

Spring and warm weather are just in the offing. It was indicated by the sale of branches of pussy willows in stores along Front street by a youthful local vendor this morning. The branches of the furry little buds were stripped from a clump of willows in the north end of the city. They retailed readily at a price of ten cents per large bunch.

POWER ICE-BOAT DAMAGED AT PICTON

Enjoying a speedy run on the ice of Picton bay yesterday, Harold Rutan, Picton, crashed up his ice propeller driven ice-boat in a collision with a heavy protecting near the harbor. The impact smashed the undercarriage and damaged the propeller. Rutan escaped injury.

BELL SHIRT COMPANY TO RESUME OPERATIONS WITH REDUCED STAFF

With a staff of 36 employees on duty, the Bell Shirt Company will resume production tomorrow for the first time since the fire that caused considerable damage to building and stock a few days ago, Mr. E. J. Hibbard, partner of the firm, stated today.

"Spring orders will not permit us to wait until repairs have been fully completed," Mr. Hibbard said. "Tomorrow, with approximately fifty per cent. of our staff at work, we shall start operations on orders that have been delayed through damage and loss caused by the fire."

A skeleton staff was on duty today arranging material and machines in the stockroom on the ground floor which will be used as a temporary cutting and sewing room until proper quarters are ready.

Upstairs, women under the supervision of E. F. Rutherford, contractor, are speeding building operations. Other workmen were busy clearing out debris and charred woodwork.

Complete re-decoration and replacement of floors in the apartment building located at the south end of the Bell Shirt factory will be necessary before occupancy can take place, Mr. Russell Smith, owner, stated this morning. This work will be done immediately.

Obituary

MRS. CINDERELLA HAGGERTY (Sidney)

After a lengthy illness Mrs. Cinderella Haggerty, widow of Sylvester Haggerty passed away on Monday, Feb. 7, at the residence of her daughter, Mrs. James F. Wellman, in the first concession of Sidney Township.

The late Mrs. Haggerty, who was in her 83rd year, was born at Ivanhoe, Ont., her parents being the late Mr. and Mrs. S. Holden. For some years she has made her home in Sidney Township. In religion she was a member of Centenary United Church and well esteemed in the community.

She is survived only by one daughter, Mrs. James F. Wellman.

The funeral announcement is made elsewhere in this paper.

LATE MRS. MARGARET BROWN (Madoc)

Madoc, Feb. 8.—On Friday, Feb. 4 Mrs. Margaret Brown passed away at the home of her sister, Mrs. Mary Moon, Madoc. Mrs. Brown, formerly Margaret Johnson, was born in Norfolk, England, 83 years ago. Coming to Canada she married Wellington Brown and had resided in Madoc township until eight years ago when she moved to Madoc village and made her home with her sister. Her husband, Wellington Brown, died some years ago and her adopted son, John Brown, was killed overseas during the Great War. She is survived by one sister, Mrs. Mary Moon.

Her funeral took place on Sunday afternoon from her late residence with services was held by her pastor, Rev. I. E. Kennedy of Trinity United Church, Madoc, with interment at Glenwood Cemetery.

ABRAM BENTLEY (Elzevir Township)

Queensboro, Feb. 8—After a lingering and painful illness Abram Bentley passed away at his home in Elzevir Township on Monday morning, Feb. 5.

The deceased who was in his 83rd year resided for most of his life in this community.

Surviving him are his wife, one daughter, Mrs. Ernest Baldwin of Rawdon County, one son, Frank and William at home.

The funeral service took place at the home on Monday afternoon.

LATE MRS. THOS. E. BARRIAGE

The funeral of Mrs. Thomas E. Barriage took place on Monday afternoon from the family residence, College street, Belleville, Ont.

Service in the home at 2.30 p.m. was conducted by Rev. E. Parish. Interment was assisted by Rev. D. T. McClintock.

Entombment was made in Belleville Mausoleum until spring when interment will take place in Shannonville Cemetery.

The bearers were Messrs. Harry Law, Ross Rickard, Harvey Roseberry, William Caldwell, George Clarke and Mr. Whitlan.

MRS. HELENA ARMSTRONG (Napanee)

Monireal, Feb. 8 (CP)—Funeral services will be held here this morning for Mrs. Helena Armstrong, native of Napanee, Ont., who died in hospital yesterday. Burial will be made in Napanee.

Mrs. Armstrong had been a resident of Montreal since 1914, living recently with her daughter, Mrs. F. J. Thompson, who survives with three sons, Donald M. Anderson, G. S. Anderson and E. Anderson.

EX-ALD. WOODLEY CHAIRMAN OF PARKS BOARD FOR 1938

At the inaugural meeting of the Belleville Parks Board held last evening, ex-Alderman W. A. Woodley was named chairman of the board for the coming year. He will be assisted by C. J. Symons, chairman of the Horticultural Committee, with H. I. Shapiro; Exhibition Park, chairman R. I. Shapiro, with ex-Ald. Clapp and Armstrong; Tree Planting chairman J. M. Callaghan, with ex-Ald. Armstrong; Victoria Park chairman, C. R. Clapp, with Maurice Callaghan, K. J. Shapiro and Armstrong; Parks in General chairman, H. A. Armstrong, with Maurice Callaghan, C. R. Clapp; Public Member, chairman W. A. Woodley. Mr. Fred Wiggins was the unanimous choice for re-election as secretary-treasurer.

Former chairman C. J. Symons who has held that office for a considerable term, welcomed the new members at the opening of the meeting and outlined the duties which fall on the board during the coming year. New members who were introduced by the past chairman were ex-Alderman Clarence Clapp, Maurice Callaghan and ex-Alderman Armstrong. A review of the activities of the board for past 4 years was given by Mr. Symons. Sympathy was expressed to the family of the late Jerry Weakley, for many years one of the most active members of the local board. An expression of regret was also made at the services of R. D. Snell and James Lafferty also was voted the former chairman.

Belleville Parks Board has under its control some 80 acres in public parks, it was revealed at the meeting. Besides the care of these public places, the curbs and borders of the city's residential streets upon which grow the city's trees are also under the jurisdiction of this body and much work is entailed annually in an effort to keep these trees trimmed and healthy. This year, too, effort to have Victoria Park properly lighted, an effort that has been carried on for the past three years or more may be realized members of the Commission were told.

Police Blotter

While attempting to pass a motor car on Coleman street early today, a truck driven by Willard Prain, 51 Gordon street, collided headon with a south-bound motor car driven by Morley Ward, 120 West Moira street. The truck was proceeding northerly at the time.

Damage estimated at $55.00 resulted to the front portion of Mr. Ward's car. The matter was reported to the police.

A hand sleigh, owned by Kenneth Scra, 74 George street, was stolen from Front street late last evening, the Scra lad reported to police, while Harvey Stewart, 296 Front street, reported the loss of his wallet containing a sum of money last night, also.

One inebriate and eight inebriates shared the cell block at the police station last night, the former being remanded for trial on an O.L.C. charge of intoxication.

Retail Merchants' Association Plan Aggressive Campaign

Members Will Publicize "Buy-in-your-own-town" Policy

STRONG DIRECTORATE

Formation of a strong executive with members representing every phase of business has resulted in a marked revival of interest on the part of the merchants of Belleville. J. Hennessy, president of the Belleville Retail Merchants' Association stated yesterday.

A through canvass of merchants from the heads of prominent business houses to the small corner grocer, and butcher has resulted in a general moulding together of the business men of the city. One hundred and fifty members, by far the strongest membership in years, is expected to represent the organization within the next few weeks, Mr. Hennessy added.

A drastic follow-up of the spend-in-your-own-town policy will be adopted by the association in the near future. When a man makes his living out of the citizens of a town it is his duty to spend every dollar of that income in the town, if possible. It is the duty of the association to promote public sentiment in favor of buying from local business men and employing local professional men. If people expect to do business with the average citizen, he should realize his own obligations and do business with them.

Another important item at present being planned by the association is a Spring Paint and Clean Up campaign. Strenuous efforts will be put forth by members to induce citizens to beautify their places of business and residence and give the city a clean attractive appearance.

Members of the Executive and directorate elected at the meeting held last week are: President, R. J. Hennessy; 1st Vice President, Robert Wray; 2nd Vice President, Stanley Wilson; Treasurer, W. C. Doyle; Directors, Messrs. Laurie Lewis, Jas. Logan, J. Galloway, Jack McIntyre, A. Bill Leach, Bruce Lattimer, Frank Correll, D. Martin, Fred Hoskins, H. Sproch, Ben Safe, Charles Dolan, Russell Wetter, J. Donahue, Horace Wright, F. Walbridge, William Canning, Ernest Miles, George Woodley, Russell Woodley.

Plan Special Concert By School Children In Aid Of Beach Funds

Students of the four public schools, St. Michael's Academy and the Collegiate and Vocational Institute will combine their talents in the presentation of a special concert which will be held in the city, probably in March in an effort to raise funds in aid of the civic beach construction east of the city, it was assured at a special meeting of the Belleville Beach Association executive, the principals of the four public schools, Andersonian Principal Domenico of St. Michael's School Board and Mr. Chas. Hunter, principal of the Collegiate and Vocational Institute.

The meeting which was attended also by Alderman Laurie Lewis and Mr. A. B. Baird, chief of the local Dominion Entomological Laboratory, was called by Mr. Ross Silver, chairman of the Committee of the Beaches Association to discuss the feasibility of the concert.

Details of the concert have been left up to the school representatives and will be finally worked out at a meeting later to be held.

Old Kentucky CIGARETTES

UNIFORM STREET NAME SIGNS AND HOUSE NO'S. HOPE OF COMMITTEE

Standardization of house numbers and street names in Belleville will become one of the first efforts of the new formed Regional Planning Committee of the City Council. It is observed by Chairman of the Committee, Alderman Burton Jennings.

Samples of new type, more legible numbers and street name plates have already been asked for by the committee and submitted for office

NEW GERMAN ARMY HEADS

GEN. KEITEL

GEN. VON BRAUCHITSCH

The recent shakeup in Germany precipitated by the resignation of Marshal von Blomberg, has resulted in General Wilhelm Keitel being moved up as minister without portfolio to act as war minister. He will run the war ministry under the supervision of Reichsleader Hitler, who is now in sole command of Germany's armed forces. General Walther von Brauchitsch, former commander of the motorized division of the German army, has been placed in the position of head of the army, formerly occupied by Gen. Werner von Fritsch, who has been placed under arrest.

Struggled With Death

Gus D'Aoust, (ABOVE) North Adams trapper, knows what it is to fight a life and death struggle with a blizzard, for more than a month. Exhausted and delirious D'Aoust staggered into Fort Reliance, 300 miles north of Edmonton, behind the remnants of a starving team. He became lost in a blinding snowstorm which obliterated all landmarks on the treeless barrens north of Fort Reliance, with the knowledge that to stop in the sub-zero temperature meant certain death. As long as his ammunition lasted, he lived on small game. At a last resort, dogs from his sled team were slain to sustain him and the other dogs. There was no fuel to cook the meat. It was eaten raw. The meagre supply of dog meat was exhausted: when the skies finally cleared, enabling D'Aoust to establish his directions and return to Fort Reliance. He is confined to a hospital room—now blinded and with frozen lips.

Royal Papa And Heir

This radio photo from Scestdyk, Netherlands, shows Prince Bernard holding the plump baby girl which was born to Crown Princess Juliana, his wife, in their white "honeymoon palace" at Scestdyk. The daughter was born Jan. 31, and may carry into the throne position the line of queens reigning over the Netherlands empire. The picture was made when the young princess was 48 hours old.

Say Industries Menaced

M. B. Cochran, speaking in behalf of Blakeney residents, declared a number of small industries such as the tannery, lady, factory, cheese, worm digging and the gathering of edible seaweed, would be menaced.

It was finally agreed to investigate the possibilities of another site at Hudson, 10 miles west of Blakeney along the Norfolk coast.

Canada's Economic Position Most Enviable of Any Country In the Wide World Today

Belleville Rotarians Told by Economic Expert That Canada's Mines And Mineral, Forests and Industrial Activity, Have More Than Filled The Deficiency Caused by Closing of Export Markets to Agriculture—Canadian Economic Condition Good and Prospects Favorable.

Economic conditions in Canada and the world at large were discussed in an interesting and informative way by Mr. C. M. Short, assistant secretary of the Canadian Bank of Commerce at head office in Toronto, before Belleville Rotary Club at the regular meeting Monday. So interested were the Rotarians present in Mr. Short's explanation of present economic conditions in the world and the effect of external conditions upon the business of Canada that the meeting was extended considerably beyond the regulation time. Mr. Short was introduced by R. Y. Illiey, local manager for the Canadian Bank of Commerce and Rotary appreciation was voiced by George Stokes, C.N.R. superintendent, and Past President Joe Short, who presided in the absence of President Fred Douglas, through illness. Other Rotarians reported absent through illness were Past Presidents Bernstein and Bert Boyce.

Guests present included: Harold Foster, Deptford, Sask.; Roy H. Stanley, Trenton; Lieutenant R. T. Graham, Swift Current, Sask.

World economics comprise a very large order to be successfully outlined in the brief time afforded by a Rotary meeting but the guest speaker made the most of his time and his subject, and his conversational manner was very effective in making his points clear to his audience. After surveying the entire world set-up of economic conditions Mr. Short voiced his view in conclusion that CANADA WAS IN THE MOST ENVIABLE CONDITION OF ANY COUNTRY IN THE WORLD. His address in part, follows:

General instability in Canada increased during the past year by about ten per cent over the preceding twelvemonth. That the progress might be regarded as most satisfactory in a year of uninterrupted favorable circumstances in Canada and abroad. It ought to be regarded as more than satisfactory if consideration be given to the adverse elements which characterized the year 1337, including international political crises, the spreading of martial influence over the national economies of several major countries a drought of unparalleled severity in our western grain belt and, finally, a change for the worse in the world economic trends resulting from the sharp reversal of the American recovery movement. The progress of the past year seems all the more remarkable in the light of the fact that until October it was at a rate even exceeding that of 1936 or 1928. Moreover, that progress brought Canadian business activity to a point 36 per cent above that of the depression low of 1932.

New Recovery Forces.

Now recalling the serious handicaps to business—one alone, the destructive drought last summer on the Pra ries might have created a depression — we have to recognize the presence of some strong, and comparatively new, recovery forces which gave a fresh impetus to business. These forces can easily be identified. They are mainly of a non-agricultural nature, for, as will shortly attempt to make plain, there has in recent years been but little opportunity for increase in agricultural production, except of course in certain sections, such as the Peace and the adjoining county of Prince Edward, where constructive enterprise has improved the cheese, breeding and vegetable canning industries.

The progressive elements which were making for prosperity in eastern Canada from the Valley of Depression to the plane of near-prosperity spring from mining and from industrial development even under some depressive influences of mineral, forest and industrial resources. The highly important record of Canadian mining in recent years is well known. The broad perspective of mining does not come into view merely by focusing attention upon the big production value in the year's 450 million dollars in 1937, an all-time high and more than twice the amount which went into the creation of national income four years previously. Recovery and expansion of this commodity at hand have played an important part in Canada's trial growth the world over. Whenever generous mineral deposits have been found (for example, in the United States) the mining industry has passed on several stages of development which have led finally, not only to the establishment of large metal fabricating plants, but to a great variety of other industrial plants and, incidentally, to a substantial increase in population. We have made progress along this path, for our vast mineral areas are being diligently explored and already yield thirty of the forty metals for which there is most substantial world demand. We have developed metallurgical units which rank among the most important in the world, and we are now smelting and refining a large proportion of the metals we have for sale abroad. Thus, we have laid the foundation for a great industrial structure based upon our mineral resources and their conversion in Canada into manufactured goods for home and foreign consumption.

Impressive Forestry Development.

There is probably no more impressive record in Canadian economic annals than that in forestry. About five years ago the production of all Canadian lumber was 30 per cent of normal, and the industry, having practically lost its large American market as a result of protohibitive tariffs and being under other extensive connections to offset this injury, faced an even worse future. In fact, the log scale in British Columbia, a good guide to annual operations, fell early in 1933 to about 10 per cent of 1929. Within the last few years the industrial low per cut has been increased practically to a normal level. In the export section of forestry production rose to a record height, though partly because of the manufacturing for American publishers. Thus, Canada was in 1936 fully 50 per cent of the world's supply of newsprint.

Wood Pulp For Rayon.

In another forest industry, the manufacture of wood pulp, recovering strides have also been made, owing largely to the phenomenal development of the rapid rayon and staple fibre industries, for both artificial silk and for certain grades of rayon, cotton, real silk and wool. The remarkable growth of the use of these materials is illustrated not by the fact that the manufacture of rayon yarn has doubled in the past five years, while production of staple fibre, which as recently as 1929 was too small to be recorded, is now about 140,000 metric tons per annum. The United States is recovered as the world's largest producer of wood pulp, but it is noteworthy that to Canada, but some of the American material is made from Canadian wood, as if adequate provision be made for this factor the positions of these two World American units might be reversed. But it is clear that Canada has furnished a large part of the pulp required by the world rayon industry in recent years.

How Canada Escaped.

The foregoing description of structural changes in the national economic system seems to explain why Canada overcame the forces of the depression which gripped the world in 1929. They represent a shift from an agricultural economy, as practiced in the pre-depression era, to an industrial mineral organization. They explain, also, why we have mostly two things not heard of when industrial plants that in 1929.

Canada's export markets for agricultural products declined rapidly after the war for various reasons principally because it was felt by various nations that self-sufficiency was a necessary objective as a material weapon of defense in war and for utilitarian reasons. The speaker described in detail the effect upon the export market of this European objective for self-sufficiency. Said he:

It was the rise of the totalitarian or fascist states, first in Italy and subsequently in Germany, that endowed this movement with the extraordinary significance it possesses today. For self-sufficiency here is not merely a distant goal to be kept only achieved as an emergency protect of a depression, but is a pivotal policy of the whole economic policy, adopted for ideological, political and military, as well as economic reasons, and resolutely put into practice with all the power and authority of the totalitarian states. The lowering of the standard of living that is involved in forcibly the pursuit of self-sufficiency, does not, as a rule, affect the ardent support of such a policy. Moreover military considerations have recently strengthened the tendency to adopt self-sufficiency, not only in totalitarian but also in some democratic countries.

Canada's Food Surplus.

Import restrictions such as tariff check, quotas, etc., were described by the speaker as powerful aids in restricting overseas markets to Canada.

Continuing he said: As Canada has a productive capacity much greater than her own consumption needs (about 30 per cent of the national income in a whole has to be sold abroad) it requires no stretch of imagination to realize that the position this country might be in if it had continued to rely chiefly upon export trade in farm products. Obviously, agricultural policies of food hoarding accentuate the severity of pressing effects on world trade in foodstuffs. Fortunately there has been little, or no, recovery. On the other hand, trade in those other agricultural products has, since 1932, actually risen above the pre-depression level. While greatly enlarged industrial and mining facilities in Canada are able to participate in this upturn in world trade to the extent that the exports of wood products increased by 70 per cent and those of minerals by 170 per cent in the five years preceding in 1937. Had this country not found it possible to adjust its production and trade to such tremendous changes in international commerce its economic position would probably be as bad today as in 1932.

Big Business Not Guilty.

Now that the ghost of depression has again appeared on the American economic scene, and bearing in mind the fact that the state of Canadian business is conditioned materially by external events, we should consider the effects of the slump across our southern border.

The marked downturn in American industrial production is about the level at the end of 1936 and almost incredible in view of the fact that the national income increased in 1937, according to a tentative estimate of the United States Department of Commerce, by 15 per cent and in view, also, of a corresponds crop production more than 40 per cent above that of 1936. The cause of this recession are too many and too varied to be dealt with fully, but the claim that "big business" in the United States deliberately plotted to bring about such a slump just does not make sense. Excessive speculation, serious and crippling labor disputes, distorted commodity prices, a sharp rise in industrial costs and interference with the private capital market did cause maladjustments and so have American economy out of balance. Talking industry as a whole, there has been a decline of 30 per cent during the past year. The severe dislocation of American industry tragically reflected in employment conditions during the present quarter of 1937, following a quite stable situation in the late autumn and early winter when evidently maintained their working forces at full strength in the hope of avoiding a slump. Then, in autumn. With an opposite turn in business, establishments engaged by the Bureau of Labour Statistics reduced their employees by 788,000 from the number engaged in November 1936, the decline in factory employment in November alone being one of the most precipitate ever revealed in official records.

Conditions Abroad.

British recovery and the effect of rearmament expenditure and the great house building movement formed an important part of the address. Then he dealt at length upon world economic conditions. Conditions in France were also described and the effect of internal disturbances on economic conditions there through political and labor unrest. While Germany and Italy were experiencing intense economic activity during 1937 under the influence of elaborate national self-sufficiency and rearmament programs.

Yet in both Germany and Italy, Canada said, and if influence control of foreign trade could not be regarded as entirely satisfactory, for imports, despite the determined efforts to develop new domestic sources of materials, increased more than exports and the foreign exchange situation already difficult, was worsened. In these two countries, also, considerable strain on the public finances, and public sacrifices, have been apparent. Italy for example, found it necessary to make a levy of 10 per cent on the capital and reserves of joint stock companies, while in Germany although unemployment was practically wiped out, wage rates remained stationary in the face of rising living costs, and the net financial result of the national agricultural program to expand the supply of domestic foods has been a much greater increase in farm expenditure than in revenue.

In Latin America.

A combination of unfavorable circumstances has had depressing effects over most of Latin America, although Argentine, Chile and Uruguay appear, because of strongly progressive development extending over a lengthy period, to be well fortified against the adverse elements they have to meet. Those imposed upon a drastic decline in world commodity prices, the high exports reserve pressure on countries, such as these in this group, without highly diversified production) were exceptional damage to the new American trade which were occasioned by disruption of the coffee market consequent upon a drastic contraction in foreign exchange available for coffee export trade by the new Brazilian Government; unfavorable agricultural conditions in Mexico, coupled with numerous labour troubles there and uncertainties as to the long settlements of the national economy; and the probability that mining would be curtailed by labour difficulties.

Australia Advances.

During 1937 Australia, continued her strong economic advance, year being most notable for industrial expansion, construction activities and the best employment conditions in the past decade. Some marketing problems, notably wool and wheat arose, however, toward the close which when were overcome by the Commonwealth Government did not have a favorable reaction. It is in view of some well qualified authorities that the 1937 wheat production reached its peak late in the past year.

Real Silk Troubles in Japan.

A marked decline in American consumption of real silk, the second largest exportable product of Japan, has aggravated the Japanese economic difficulties arising from the conflict with China. Moreover, definite signs have appeared of the growth of a general lack of interest in Japanese products, with a depressing effect on practically all classes of exports and on production in various major industries, notably textiles. The heavy armament industries have continued to operate at full capacity under the stimulus of a spending martial influence over the national economy and of the type of inflation characteristic of war—in this instance, special government bond issues at the rate of 450,000,000 yen monthly for the Chinese "incident" and the largest currence issue in the past decade. The prevailing hostilities have, of course, disorganized Chinese business. Central China has practically been severed from the rest of the country, but resumption of various coastal shipping services and diversion of trade through Hong Kong have caused an increase in foreign trade with that port.

From this analysis of conditions in several countries it will be apparent,' said the speaker, that the effect of the downward sweep of American business have spread over a large part of the economic world. Indeed, they are in direct distinction to the economic conditions there through Canada. Canada alone, while Germany and Italy were experiencing intense economic activity during 1937 under the influence of elaborate national self-sufficiency and rearmament.

Yet in both Germany and Italy, Canada said, and if influence control of foreign trade could not be regarded as entirely satisfactory, for imports, despite the determined efforts to develop new domestic sources of materials, increased more than exports and the foreign exchange situation already difficult, was worsened. In these two countries, also, considerable strain on the public finances, and public sacrifices, have been apparent. Italy for example, found it necessary to make a levy of 10 per cent on the capital and reserves of joint stock companies, while in Germany although unemployment was practically wiped out, wage rates remained stationary in the face of rising living costs, and the net financial result of the national agricultural program to expand the supply of domestic foods has been a much greater increase in farm expenditure than in revenue.

In Latin America.

A combination of unfavorable circumstances has had depressing effects over most of Latin America, although Argentine, Chile and Uruguay appear, because of strongly progressive development extending over a lengthy period, to be well fortified against the adverse elements they have to meet. Those imposed upon a drastic decline in world commodity prices, the high exports reserve pressure on countries, such as these in this group, without highly diversified production) were exceptional damage to the new American trade which were occasioned by disruption of the coffee market consequent upon a drastic contraction in foreign exchange available for coffee export trade by the new Brazilian Government; unfavorable agricultural conditions in Mexico, coupled with numerous labour troubles there and uncertainties as to the long settlements of the national economy; and the probability that mining would be curtailed by labour difficulties.

FACES NAZI JUSTICE

The Rev. Martin Niemoeller, 68-year-old great war hero and outspoken opponent of Nazi denomination of the church, who is now facing a secret tribunal in Berlin, following a seven months' imprisonment. Niemoeller's campaign against Chancellor Hitler resulted in his arrest on charges of "malignant vilification" of the Nazi State, its leaders and institutions; while violating the decree prescribing for what purpose the pulpit may be used, and with inciting to disobedience against decrees and laws of the state.

COUNCIL DECIDES TO CUT CHANNELS IN RIVER MOIRA

Two Power Saws Will Take Out Large Quantity Near Mouth

SPECIAL SESSION

Car Dealer Given Permission to Use City Lot For Parking

Concerted action to relieve the flood situation in this city was taken on Monday afternoon, when the City Council met in special session and recommended, "that the City Engineer be empowered to proceed with any work deemed necessary and especially to cut channels in the ice below the C.P.R. bridge over the mouths of the Moira River." The members also passed a resolution, that Ald. Glenore Thompson, chairman of the Works would be in charge and would work in conjunction with the City Engineer to relieve this situation. Other business was transacted, chief being the setting of a date for a meeting of the Assessment Committee of which Ald. Lewis is Chairman.

Permission to Use Cars

**Claude B. Farnham was given permission to use the lot on McAnaney Street for parking his automobiles entirely at his risk. Mr. Farnham fears flooding of his premises and is considering the moving his used and new cars to this lot in case of emergency. He will place a guard on the cars. Ald. Jennings in calling the meeting to order explained the necessity of immediate action in the matter of flood control. In calling the meeting to order explained the necessity of immediate action in the matter of flood control. In calling the meeting to order explained the necessity of immediate action in the matter of flood control. In

FEBRUARY AND THE WOODS

February is not always as it is at the present moment, with its mild temperature and rain and sun causing rivers to break their winter's bonds. Often it is the coldest, when the freshness of the icy air is fiercely attractive. Mr. E. V. Hart of the Department of Botany, Central Experimental Farm, Ottawa, spoke of the "landscape blazing like a sheet of dazzling metal. That was written for the cold type of February as in other years. He said:

"The sun in full glory shines in a sky broken by the lonely purity of the spruces. It is against such a scene of superb but indescribable splendour that the bark of many trees flings bright splashes of colour. The beauty is so intense that artists must long to catch it, hold it, wrap it up, and put it away safely.

"These beautiful barks are essentially composed of fibrous and cellulose tissue; but it is easy to understand how varied are the forms, dispositions and structure of these elements when the extraordinary variety in the appearance of the bark of trees, and the diversity of their products are considered."

Such barks as described by Mr. Hart are interesting in early February.

"The young stem is invariably covered with a thin cuticle—the epidermis. As the stem grows new bundles of woody fibres are deposited in regular layers, one in each year. The new layers of bark and wood are thus formed one in contact. The epidermis covers the bark, but its existence is altogether short-lived. It is destroyed at an early stage as much by the growth of the tree as by the action of external agents. The peeling of the bark of the buttonwood is a good example.

"The trunk of the ghostly buttonwood, (sycamore or plane it is also called) is easily recognized from a distance. The smooth bark is thin and brittle and has the habit of flaking off in irregular plates leaving white patches, like splashes of whitewash, that contrast sharply with the dingy olive of the unshed areas. This tree may be also recognized by the dangling seed-balls.

"The spear-like stems of the dogwoods illuminate the winter scene with bark of glowing vermilion and crimson, often dazzling against the immaculate whiteness of the snow. Gardeners appreciating the extreme beauty of this radiant bark, plant these shrubs with a view to introducing colour into the winter landscape.

"The smooth, gold and yellow branches of the willows, when seen glistening against the more sombre evergreens, will provide a gay display of colour.

"The ascending, sinuous trunks of the white birch with their tattered silky bark have inspired artists, poets and prose writers for ages, added to which it is said that "The White Queen of the Woods" is the source of food, (meal made from the inner bark) drink, (from the sap) transport (canoes made from the bark) and lodging (shingles made from the bark) to those who dwell in the forest—"The most bountiful provider of all the trees". Then it must not be overlooked that the twigs have been, and doubtless are still, bound together in the form of a stimulus to learning and correct conduct.

"Thus economically the birch is of much value, and especially in those sterile lands where it flourishes so well, and where so much else is wanting. It is said that it penetrates nearer the polar region than any other tree, and that it is the only tree found in Greenland at all.

"The beech . . . one of the most magnificent objects of God's fair creation", may be known by its bark, which is close, unfurrowed, gray, often almost white, and marked with blotches of a paler hue, often nearly round. Its smooth bark has, for ages, attracted wandering lovers who have carved thereon sonnets. In Shakespeare's "As You Like It", 'Orlando' says:

Go Rasalind! these trees shall be my books.
And in their barks my thoughts I'll character;

"The gorgeous arbutus of the Pacific coast and Vancouver Island has what may almost be described as a red version of the buttonwood bark; it exfoliates in the same manner, but with bright green patches against the cinnamon red."

EDITORIAL

SURPRISE AND SUSPENSE

Der Fuehrer Hitler has again surprised the world with his change in the German army and his assumption of the command of the armed forces of the Reich. It is less than two years ago that the master of surprises marched his troops across the Rhine into the demilitarized zone west of the river and created one of the greatest "stirs" since the Great War.

Just a few days ago a meeting of the Reich was ordered cancelled as the time did not appear opportune for speaking. And Hitler is a master of doing the striking thing at the moment when the iron is hot. But the week-end news is as great a surprise as any because it still leaves the world in suspense as to what are the intentions lying behind the purge of old army officers and their replacement by leading Nazis.

There is a vast amount of conjecture as to what is in the immediate future and what the triple alliance of Japan, Germany and Italy may set out to do if anything. The turmoil in the Orient, the submarine menace revived in the Mediterranean, the swing of Rumania towards Fascism and against the Jewish populists, the seeming weakening of French influence in the east of Europe, and the agitation for return of colonies force conjectures of all sorts upon the worldwide public.

WHEN APRIL COMES

All music sweet is fled from my sad soul,
And cold high winds sound sighing in my ears,
And lovely silver trees do not console,
Though in the dawn they stand like flame-tipped spears.

When April comes—
Dear God, the lovely liquid name
Spells Spring, new birth, release from Winter's pain!
And all the silent streams will sing again,
And heav'n be filled with robins' rich refrain,
When April comes.

And violets spread their tangled purple net
For careless feet, and dandelions fret
With golden loce the plains. Not yet, not yet
Be still, impatient heart—thy wish thou'lt get
When April comes!

—Mildred R. Batty, in Montreal Star.

SCARE HEADLINES INDICATING POSSIBILITY OF EARLY WAR on a large scale, as the result of unsatisfied European powers, in Canadian and United States newspapers, has caused a jittery feeling, harmful to business interests, according to some observers. It is pointed out that newspapers in England, close to the supposed source of disturbance pay little attention to the alarmist angle of international quarterings—so why should newspapers with the ocean between them and the disturbers flash 72-point scare headings to keep people in a state of jangled nerves? Folks have fought several wars in their minds during the past few years, and there is no general war yet. Mark Twain said truly that the things he had worried most about in his life never happened.

AN ITALIAN NEWSPAPER MAN who marched into Rome with Mussolini and the original Black Shirts, went through hell and glorified Mussolini in Ethiopia, dodged all but one Japanese bomb in China, was one of the victims of the Panay incident, where a correspondent was killed and three United States flag and carried most of the Italian correspondent's side away. A magazine writer cites the death of this gallant writer and mentions Mussolini's reported statement that Japan was justified in its every action in the Panay affair. Just a bit hard to take, we'll say, after reading the reports of correspondents of various nations, some of whom were grieviously wounded in the deliberate attack on the Panay. To assume that the attack on the Panay was a mistake and expressed deep sorrow with the promise of punishment to the offenders. Makes for confusion if one is to suppose that a strict adherence to the truth is being observed on all sides. Article in recent issue of Collier's Magazine by cameraman on board Panay with Jim Marshall, noted war correspondent, and other correspondents representing various nations, throws intimate light upon the subject.

NEWS FROM RUSSIA WOULD INDICATE

that purgers employed by the government to ferret out for execution enemies of the state have also included their own enemies in the purge, killing two birds with one stone as it were. Dictator Stalin is beginning to think that his blood purge is weakening instead of making the state stronger.

ROYAL WEDDING IN EGYPT was a swank affair, and a good time was had by all except the 400 casualties, dead and injured trampled in the crush, pushed over railings or into the canal, during the height of the festivities.

x x x

AMONG THE WEDDING GIFTS RECEIVED BY THE BRIDE of the young King of Egypt were two shot guns. Husband should see that they are never loaded,—that old alibi "Didn't know it was loaded" isn't much satisfaction to the person on the muzzle end of the smoking firearm.

OFF THE RECORD

By Ed Reed

What Other Mayors Think

By Jamieson Bone

In Canada we have Provincial Associations of Mayors like the Ontario Mayors' Association, but we also have a Dominion-wide organization known as the Canadian Federation of Mayors and Municipalities. These associations have hitherto restricted themselves pretty much to discussion of questions, of relief and such like, but their voices could and should be raised more frequently in expressing their views on all matters of Provincial and Federal importance affecting the welfare of the people. No part of the Empire needs it more or gets it less than we, the silent inhabitants of the great open—and becoming more open—spaces.

I imagine a good many Mayors are elected as it was, because local issues such who becomes Mayor, and these seeking office frequently to the point, and will I think interest your readers, because it contains some rather startling facts. A somewhat similar article will be able to get ourselves out of this muddle in which we have become seriously tangled, or if his Newfoundland, to set old England to take us over.

Anyway the Canadian Federation of Mayors say "one hundred years ago the vast majority of citizens in Upper and Lower Canada were seething with discontent. And for good reasons. They smarted under the accumulated results of an irresponsible central government which, while exploiting all the perquisites of office, was indifferent to the insistent demand that some measure of land settlement be made available for people, including the right to levy their own taxes and to determine how the money should be spent." History here as elsewhere appears to be replete with assessments of property they say: "There is no uniformity of assessment in practice, ranging all the way from the Single Tax in Vancouver to 100 per cent of "Fair actual value" of land and buildings. The practice of exempting improvements, whether in single pattern. Special assessments to attract new industry are common in some sections and frowned upon in others."

"Taxing on municipal services seventy years ago they complain: "It was the day of wooden sidewalks and dirt roads, of oil-lit street lamps and volunteer fire brigades. Sewage and water generally were either undeveloped, and garbage was burnt in the back yards. Nowadays people were still in the future, while primary schools were concerned largely with the simple teaching of the three R's. Civic libraries and supervised playgrounds are now established.

The limited services which municipalities then rendered were almost wholly related to the servicing of land and buildings. As such they were of benefit largely to the land owner. Custom had it that every property should pay its own way.

Further, the ownership of property was the principal evidence of financial responsibility. Many enterprises, either direct or through municipal bonuses, were undertaken which are very different to the present day. Moreover, urban land values were experiencing a boom period. Land was cheap and easy to get. Settlement, because taxes and building costs were low. In addition there was a fair return, with the added prospect that the real estate buyer could expect a rise in property values. To find his property materially increased in value.

They then trace the abnormal growth of municipal services and debts, particularly in the year 1912 to 1926: "The growth of municipal debt, during this period was largely the stage for the almost disastrous dislocation of municipal finances experienced in the subsequent depression years." "The decline in the assessed value of real property during the period was accompanied by a general failure to levy taxes in which tax levy did not result in the necessary increased revenues. To the contrary, it has proved to increase tax arrears and to reduce the percentage of collection." As described, as is shown by Tables "H" and "I". Increasing tax arrears, increasing tax rates, increasing the number of properties sold for nonpayment of taxes, further loads the properties to the municipalities in turn left with the burden in land assessment. Declining revenues accompanying diminished assessments and increasing tax arrears, created a greater resort to borrowing, the report continues, and further to discharge against real property and discouraging new construction and home ownership."

In summing up the first part of their brief they say: "The outstanding of the foregoing that an immediate reform of the system of municipal finance and taxation is necessary. Powers and functions between the different governmental agencies, and an appropriate readjustment of their respective powers of taxation and of borrowing, are urgently called for in many instances. Failing immediate action a large number of cities and towns will face bankruptcy."

Another interesting fact is that Activity is the motto of the classroom. Children are both active and inquisitive and learn by doing rather by trying to find out what the children are interested in by close questioning and guiding class-room activities and experiences according to their interests.

Examinations as a sole basis of promotion are not used, and promotion will be made on the pupil's record of work made according to the ability he has.

The whole course is designed to provide the pupils with an environment that is stimulating and that will help him through the proper direction of the abilities he has.

A general re-arrangement of the time-table has been place. Subjects that used to enjoy first place in time allotment are now placed at the bottom of the list. Health, which includes all those activities that tends to build up better habits and attitudes of each individual now comes first.

In the junior school subjects English occupies first place. It is of prime importance that children learn to speak and write their mother tongue correctly, accurately and gracefully. The most important phase o fthe English course is the supplementary reading. The child has learned to-love reading, he will in all probability continue his education all through life and will be prepared in the most effective manner to work profitably.

As far as written work is concerned in all schools the necessity from incidents in the child's work and play both in school and out. Of the greatest importance is the stress laid upon clear and distinct speech. The child should have considered. Im him a pride in his manner of articulation and pronunciation.

The next group of studies comes under the heading of Social Studies. In the whole purpose of this course is to help the child understand the society in which he lives and the duties that each one owes to the other members. This has been so largely influenced by the geography of its locality that the study of geography is most essential. And yet to understand the growth of peoples fully the study of history must be included. So this new group of studies has been called History and in this way a child learns the time sense of the ancients.

In the early part of his training emphasis is placed on the social aspect of the life of the child's own community both past and present. Then he learns of the distant communities in other lands and all different peoples of the world from story. Then follows the romance of discovery as the darting explorers explored the world and put back the map. Current events that come within the interests of the child help him to gain a knowledge of the workings of progress in the world at large. In this course a child acquires a great fund of information about the world, and there is a great freedom allowed in the choice of materials and it is so arranged that it can be applied to each particular locality. Good citizenship is the aim and object of these studies but is achieved by practising the virtues as they are developed in the pupils itself to the child.

Under the heading of Natural Science the pupil is trained to observe carefully, and find an explanation of the natural phenomena around him. The outdoors is the child's natural environment. Here he learns to take an active part in living plants and animals. He is encouraged to take pleasure in nature and to develop a genuine interest in some phase of nature's handiwork. Nature is not meant to make a scientist out of the pupil but to develop and to enrich and train his powers of observation and description.

Arithmetic, the next far down on the list, is planned for the child's immediate needs. Drill in number is above all the most important. Long and tricky computations are not necessary to understanding and acquiring accuracy in everyday arithmetic.

Music and art fill no small place in the new curriculum. Music appeals to the feelings and emotions and the right kind of teaching must be the highest order. The development of good taste in music is important because it is best when taught a large number of songs. His appreciation grows naturally, and listening to the best whether presented to him by means of records or over the radio is surprising. Even through the reading of books he becomes familiar with the great artist and composers and thus develops more appreciation of the musician's art.

In art the pupil's appreciation of the beautiful is encouraged. He is taught to enjoy the beautiful wherever he finds it, and in all his activities he gives the child an opportunity to express himself. Every opportunity is overlooked to encourage him in this expression.

It is of prime importance that children should be happy as school, that they may learn happily and that they should acquire genuine and lasting interest in books in music, in pictures, in birds, in flowers and every subject under attitudes to-ward work and play and towards the other members of society.

EDUCATION WEEK

The New Course of Study

By W. G. ANDERSON
(Principal of Queen Alexander School)

For some time past the teachers and others liberested in education have felt that a change in the curriculum of the elementary schools was overdue. It was felt that the old curriculum, good though it had been, had outlived its usefulness and was not suitable in the light of present day educational needs.

In 1936 a committee of teachers examined into various courses used in other provinces and reports of investigations an experimental, the Hadow Report of England, Ontario have proved invaluable in forming the Programme of Studies now in have it at present. The new course is now in use in the classes up to grade six (senior fourth) grade seven and eight will follow next September.

The rigidity of the old course for both teacher and pupil is gone. The new programme now recognizes that a child is not interested in learning a useful adult science, but he does enjoy doing and learning things that are interesting to him at the time. Activity is the motto of the classroom. Children are both active and inquisitive and learn by doing rather by trying to find out what the children are interested in by close questioning and guiding class-room activities and experiences according to their interests.

Examinations as a sole basis of promotion are not used, and promotion will be made on the pupil's record of work made according to the ability he has.

The whole course is designed to provide the pupils with an environment that is stimulating and that will help him through the proper direction of the abilities he has.

LOOKING BACKWARD

GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

20 YEARS AGO

FEBRUARY 8, 1918.

Mr. F. R. Mallory of Frankford has been elected fourth vice-president of the Holstein-Friesian Association.

At the Masonic Grand Lodge which was held in the city this year, Rt. Wor. Bro. W. G. Adams of this city was selected as the Grand Senior Warden of the Grand Belleville Lodge A.F. and A.M. yesterday Bro. Adams was presented with a set of Grand Senior Warden regalia on behalf of the members of the lodge by Rt. Wor. Bro. H. J. Clarke, D.D.G.M. Bro. Adams is a Past Master of The Belleville Lodge and is held in high esteem by his fellow members of the craft.

Mr. and Mrs. Charles Wesse of the second line of Thurlow Township entertained many friends at their home last evening. The affair was most enjoyable.

The thermometer registered 15 degrees below zero last night.

The Rev. Dr. Dorey, pastor of Bridge Street Methodist Church, is an enthusiastic and popular pastor and is accomplished of friendship a handsome set of curtains as a token of appreciation of his work in connection with the hospital.

Mr. R. Sills, with John Lewis and Company, has left on a trip to Vancouver.

Constable Duffin was at Wooler yesterday on business in connection with his position.

Mr. Lee, H. J. Thompson and Miss Thompson went to Kingston yesterday. Mr. Thompson will take a prominent part in the annual meetings of the alumni which are being held at Kingston this week.

30 YEARS AGO

FEBRUARY 8, 1908.

A much needed improvement is being made at the Belleville Hospital; the sufficiently used for isolated cases is being thoroughly renovated and prepared as a residence for nurses. No more isolated cases will be received at the hospital.

In a close and exciting curling match played here between rinks representing Belleville and Napanee, the latter proved to be the winners by two shots. As the result of this game Napanee wins the championship of the Eastern Ontario Curling Association. The players were as follows:

Rink 1: Belleville, H. A. Fish, F. W. Coburn, J. A. McRae, J. D. Clarke, skip, 17.

Napanee, rink 1: W. Templeton, R. G. H. Travers, C. A. Mayhew, S. Hamm, skip, 15.

Belleville, rink 2: J. G. Boyce, W. C. Smith, J. W. Robinson, F. Bellhouse, skip, 19.

Napanee, rink 2: J. G. Boyce, W. C. Smith, J. W. Robinson, F. Bellhouse, skip, 19.

Total: Belleville 37, Napanee 34.

The flood situation was by no means improved today. In some quarters it was more aggravated. This was owing to the sudden drop in temperature causing considerable anchor ice to form. During the forenoon the water raised in the lower part of Front street, causing many residents to move to the upper parts of their houses.

On the west side of the river, in the section known as the Point, the water raised this morning causing considerable inconvenience. The situation to say the least is serious.

40 YEARS AGO

FEBRUARY 8, 1898.

The following political orders have been issued from the Militia Department at Ottawa: 10th Battalion, Hastings Rifles, Infantry, to be Honorary Lieut.-Colonel, the Hon. Hugh Cameron Douglas Boyd and Campbell, Marquis of Lorne. Capt. J. A. Ponton, to be Paymaster, vice Cowgin his commission and to retain the rank of captain on retirement.

Mr. N. M. Ostrom left today for Woodstock where he has accepted a position.

Messrs. Fred V. Reed and J. Cassidy left today for Toronto to attend the general's meeting in connection with the Belleville Fair.

Mr. R. Sills, with John Lewis and Company, has left on a trip to Vancouver.

Constable Duffin was at Wooler yesterday on business in connection with his position.

Mr. Lee, H. J. Thompson and Miss Thompson went to Kingston yesterday. Mr. Thompson will take a prominent part in the annual meetings of the alumni which are being held at Kingston this week.

50 YEARS AGO

FEBRUARY 8, 1888.

Several of the public wells have run dry.

Mr. William Black has opened a new fish store opposite the butter market.

The Grand Trunk Railway hopes to make considerable progress this year in the construction of their readbed between Toronto and Montreal.

The backbone of winter shows no indication of breaking at the present time.

Tobogganing has gone out of favor here. Only a couple of hand sleds is popular.

Dr. Curtell's pony was away this morning and left the cutter at the corner of Pinnacle and Campbell streets. The pony after smashing the cutter badly caught near the foot of Front street.

The gas lamp at the Pinnacle street corner of the public building has not yet been relighted. No loss is really felt. An accident with a fall of damages would be more costly than several lamps. Something should be done about this.

MARMORA

W. J. Cottrell Receives Collection of Old Coins

Marmora, Jan. 7.—Some interesting old coins which were found by his father, the late William Cottrell during various excavations in the county of Somerset, England, have come into the possession of W. J. Cottrell this past week. Two large copper coins of 1¼ inch diameter and ⅛ inch thickness with the head of King George III on obverse side and Britannia on the reverse, are both dated 1797. One is in splendid state of preservation and the other slightly defaced. Two other similar coins have further signs of wear. Also in the collection are two George II pennies and one old half pennies and farthings of the Georgian period. A Roman coin on which markings have become indistinct of the reign of Agrippa II is also included in this collection of approximately thirty coins. There are also what appear to be two George III shillings of the years 1816 and 1819. Another rarity in this collection is what is designated a Bath token. The design on one side of the copper token is that of the arched entrance to a garden. Upon the arch are the words "Hibernic Garden" and beneath the design the words "Bath Token 1794." The lettering where the superscription is to be usually seen in this spoke of trees from the outer tree that is in Shannon." These words are part of 1 Kings, Chapter 4, verse 33 and the latter part of the text. "Then spake the lyons the uprightth out of the wall" is on the reverse side of the token as well as the design of a lion. The upright side of the wall adjacent to an Eastern home and the source of the quotation: 1 Kings, Chapter 4, verse 33. Mr. Cottrell would be interested in hearing if the token is as rare as it is attractive. Of an entirely different nature is two other items in the collection. One is a third check issued by R. Jones Hickwell's clifton Wines, Spirits and Foreign Cigars. General Draper Tavern is the lettering on the one side of which the other is to be seen "Five Home Brewed Beer and Ale in Cask." Families supplied more worn is the other check, being on the one side being entirely defaced. The advertisement on the other side reads "Alex Ferguson and Co., Glenfarg Breadalbane Highland Whiskey."

Mr. and Mrs. Leslie of Deloro spent the week-end at his home in Toronto.

Mr. Jack Aitchison of Deloro visited his parents in Toronto over the week-end.

Mr. Tom Crawford of Dominion Bank staff, Cobourg, visited his parents, Dr. and Mrs. H. Crawford on Saturday.

Mr. Wm Richardson of Deloro motored to his home in Toronto on Saturday.

Mr. Pat O'Connor is seriously ill at his home owing to a fall on the slippery pavement a few days ago.

Miss Margaret O'Connor of Deloro visited her parents, Mr. and Mrs. E. D. O'Connor over the week-end.

Miss Rita Deacon in Nursing-in-training at St. Joseph's Hospital, Peterboro, spent Saturday at her home here.

Mr. Thomas Foley of Deloro spent the week-end at his home in Belleville.

Among those who attended the Rainbow dance in Belleville on Friday evening were Mr. and Mrs. A. M. Jones, Jake C. Quigley, Misses J. L. Shannon, Andrew Cavanagh and William Bonter.

Mr. Ian McIntosh of Deloro spent the week-end in Toronto.

Master Johnson Shannon visited Master Ralph Lambert in Toronto over the week-end.

Miss A. P. Wilson of the high school staff spent Saturday in Toronto.

Common Sense About Constipation

If you knew that your constipation was caused by a sensitive left out of your food, wouldn't it be just common sense to avoid that something back?

Your bowels can be caused by nothing more than this. For the most common cause of constipation is due to lack of "bulk" in the bowels—you need some bulk that passes on through the stomach undigested. Kellogg's All-Bran supplies this. It gives the bowels the bulky mass they need to work properly. And All-Bran also gives them the intestinal-tonic, vitamin B, which helps restore their tone.

Eat All-Bran as a cereal or baked in muffins. Eat however you eat it, be sure you get some every day. And drink plenty of water. All-Bran is made by Kellogg in London, Ont. Sold by every grocer.

The weekly card party of the Sacred Heart Church was held in the Separate School on Friday evening. The bridge prize was awarded to D. O'Connor, Mrs. Richard Maloney and Mr. Charles Lathey. A delicious lunch was served and then dancing followed.

Miss Helen Rose of Peterborough visited relatives in Marmora on Sunday.

Mr. C. W. Gladney and daughters Joan and Elizabeth of Belleville spent Sunday in Marmora.

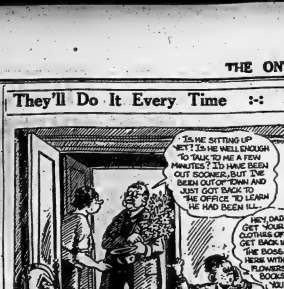
Mrs. George O'Neill owing to the illness of her caddsey spent a few days in Belleville last week.

Mr. "Pink" Callaghan of Campbellford visited friends in Marmora Sunday afternoon.

Mr. Ralph Gampion of Peterboro attended the dance in the Town Hall Thursday evening.

Mrs. J. P. Martin visited her sister, Miss Anne Bayburn in Tweed on Saturday.

The Women's Institute sponsored a lovely dance in the Town Hall on Thursday evening. There was a good crowd in attendance but owing to slippery roads very few outsiders were able to attend. A delicious lunch was served by the hostesses at midnight. Music was provided by the "Aces."



The by-monthly meeting of St. Paul's Laymen's Association was held in the White Hall on Friday evening. The ladies of the parish were guests of the association.

R. H. Smith, president, was in the chair. The meeting opened with prayer by Rural Dean A. M. Caldwell after which the president welcomed the ladies and visitors from Stirling. Glen McColl was then called upon for two songs for which he was well applauded. A quiz contest, confined to the ladies only, featured twelve questions conducted by past president W. J. Cottrell. The winners were Mrs. D. Young (1), Mrs. A. R. Caldwell (3).

The guest speaker of the evening was Dr. E. A. Carlton of Stirling who gave an instructive talk on "Anterior Poliomyelitis." Dr. Carleton also enlivened the gathering with humorous stories. Rev. A. S. McConnell of Stirling, H. B. Ella and N. A. Heath also of Stirling gave short speeches, the latter as president, bringing greetings from St. John's Laymen's Association of Stirling. A pleasing repast was served before the gathering broke up.

Mr. and Mrs. C. E. McElwain spent Sunday with relatives at Point Anne.

Mrs. Hill of Peterboro is spending a few days at the home of her brother, Mr. H. B. Smith.

They'll Do It Every Time :-: By Jimmy Hatlo

Gilded Orchid

By JANET DORAN

Chapter 18
COMPLICATIONS

The amazing thing about Maydra Graham's cool, practical mind was that she could turn thrilling, exciting thought off...like an electric light switch, could calmly finish her dinner, pursue her usual evening-at-home routine, prepare for bed, and then, almost as soon as she touched the pillow, it was the part of emotional control Gerda Hoff had struggled years to acquire, and still was sometimes envious possessing — completely.

The result was that Maydra woke up in the morning rested, refreshed as dewy-eyed as sweet sixteen, and twice as deadly. As her roommate assured her a trifle enviously.

"I don't see how you do it, Infant! It must be a gift!"

Maydra tugged on her brief little hat and waved an airy good-bye.

"Things you know will happen aren't surprising, Gerda, darling," she observed lightly. "See you tonight. With a largish surprise."

The day did pass uneventfully. Usual routine sales, usual flurries of excitement or tension. Then it was closing hour, and Maydra walked briskly up the avenue, homeward, thinking that perhaps tonight Gerda would have a beautiful, a gorgeous new mink coat worth something like five thousand dollars. She would be trying it on — over the lavender wool dress. With the little hat with the nose-length veil — and her gray suede pumps, and the new, crocheted grey kid bag.

At noon, she had stopped at a leather shop and bought the glazed striped linen luggage. One fitted case, with silver appointments; one plain to carry her evening gown wrap and slippers in.

"Will you want them monogrammed, Miss?" the clerk had asked.

"Yes." Maydra decided, on the flat, smooth gold lock that was set like a big round silver dollar. "And would look interesting with the simple initials M.G. in English, engraved thereon!

The bags would be ready Friday night.

Presently it was eight-thirty, and Maydra, caught herself watching the clock. Would he remember? Would he come? Would he be late?

Wake was exactly an hour and ten minutes late, and Maydra had about decided he wasn't coming, when the bell rang, insistently and Gerda's excited tension relaxed.

"Can't stay to see you wear it! Beautiful." Wake whispered eagerly. "Have to dash. Only I'm the bearer of Kay's having one of her apprehensive attacks, and I'm to be on hand!"

"Is it serious, Wake?" Maydra gasped, forgetting the long, crisp box he had placed in her arms.

"She thinks not. She's had them for years—since she was a child. But I can't talk her into having an operation. Says it's absurd. She always gets over it all right."

"Can't you make her do something about it, Wake? Those things can be dangerous."

Wake grinned ruefully.

"You try it. I know better than to argue with Kay Sheldon!"

He was gone, and not until Maydra heard his car rounding the corner into the main street did a woman on her that she hadn't thanked him for the coat. Hadn't even looked at the box to look at it!

The coat lay in a smooth, shimmering, silken brown are on the snowy counterpane, and both girls stood staring at it in a rapt sort of awe.

"It's real, isn't it, Maydra?" Gerda said slowly, at last.

Maydra stroked the sleek, rich fur a soft caress.

"Yes, Gerda," she whispered softly, "it's real. Five thousand dollars worth of — really.

"Try it on!" Gerda commanded excitedly. "And put the new lavender wool on, first, so I can get the entire effect."

Maydra took the wool frock from its hanger, and Gerda helped her out of her lounging pajamas, and into the smart little dress. They were both so excited they were breathless as Gerda picked up the coat and held it for Maydra to slip into.

Then they stood quite still, both of them, staring at the reflection in the long, cheval mirror. Gerda broke the rapturous silence first.

"You're quite sure, Infant?" she said softly, "that you're not holding out on me? Sure you're no a Princess, disguised as an — debutante?"

"Silly," Maydra laughed. "You know I'm not, Gerda! You know—you are, as thoroughly as you know your own! But... but that girl, there is... as something or other, she is!"

Gerda let out a war-whoop. She flung open the door to the work-shop, and took a flying lope for her coat.

"I'll say she is!" she yelled excitedly. "You don't know it now, Infant, but that lady you've been looking at represents two hundred a month more to me!"

"Gerda," Maydra faltered weakly, "are you ill or something?"

"She's!" Gerda snapped briskly, "got up there on that modeling stand, and into the light! Hurry, Maydra! Before I lose the mood! This man... he's a big commercial contract! From Park Avenue debs to Broadway office girls," she quoted happily. "Lipstick, powder, rouge, cosmetics! You can't afford NOT to use delightful beauty preparations!"

Gerda was laughing helplessly as Gerda raved on, blocking in swiftly, with sure, rapid strokes, the design of the illustration that was to ornament every billboard, every street car card, every magazine back-page in the country within the month. A tall, slim, blonde girl with a sophisticated veiled air strolling along in a lavender wool frock. A girl with a veiled air strolling, opened casually slim, grey suede slippers and a grey kid bag, and a lavender, net-hose-tip veil, flicking casually, lightly to a slim, calf leather leash on which bounded an aristocratic Russian wolf-hound! The Adelphi Beauty Corp. Face Powder Girl, and the small, square, black and white signature in the lower left corner.

Gerda flew into pantomime, instead of straight model stance. Maydra smiled, finally, when she had caught enough of the pose to suit her through the remainder of the day. "It will mean some nice pin money, Infant."

"I want to take French lessons, and German," Maydra stated firmly. "I want to read a menu backwards, if I need to. I know that I'm overusing small black coffees, and not lobster patties! I've always wanted to be independent, and not a head waiter and watch him will!"

"Will Illusion!" Gerda looks quite a few millions to me!"

"It is," Gerda stated calmly! "so you don't you expect to satisfy me with both feet thrown in for good measure Bill, now that you've got into Maydra's personal affairs. After all her aunt is Suzanne, you know. Her model's only sister!"

"Suzanne's never even saw a coat like that, Miss Hoff!" Wake stated sourly, "and you know it! So quit trying to bamboozle your Uncle William!"

"About this copy," Gerda changed the subject tersely, "why not work up the advertising? Bill and Ed let Holts try it on Adelphi? After all, somebody's got to get a feel-of ments. And I think this point will go over with them. They've been using short copy, and long-copy—copy of late. And Holts want that Adelphi!"

"Yeah," Bill agreed, jotting down notes rapidly. "It cost more than five grand, too—that coat, Gerda. Sam Locke's millions do a lot of talking, don't they?"

Gerda could laugh outright now. So long as he was this far off the trail!

"Too bad all of this husbandry manner he wasted on bachelordom, Bill!"

"It," Bill growled succinctly, "you think she'll come across with a swell making ten time what I'm getting... you'd better have your head examined, Gerda! Coats like that run to heavy sugar! And they're only one part (rapture!) of this particular lip-chum!"

"Well," Gerda reminded him coolly, "you've been too selfish to divide your hundred and fifty by two thus far, Bill, so I can't say but what you'll have to keep on hitch-hiking, even if the blisters do hurt!"

Saturday arrived early and flawless, and were the mysterious, purple hour that only dwells in mid-November can exhibit. Maydra, despatched her French lessons in favor of a new evening gown for the week-end with the commission Gerda advised.

She had worn the gold lame to Sam's party, and, besides the mink coat and lavender wool frock required some living up to. To say nothing of the gaily plaid, striped linen luggage!

"Small town girl makes good," Gerda mused, helping her get ready. "I hope you stay Harvard by a man, darling! I hope you come home weighted down with gold footballs, Phi Beta pins and other Crimson insignia!"

(To Be Continued)

"LOOK! A BIG NEW PONTIAC FOR ONLY $895"*

HOW on earth can they build a car like this to sell at a price like that?" That's what so many folks are asking us. There's something about Pontiac which wins you on sight. And after you've settled behind the wheel and put the big Fisher Body and tested all the top-notch features — you'll be buying Pontiacs for the rest of your life. SAFETY SHIFT Gear Control heads the list — and Pontiac's sure got something there! So get acquainted with this great new Pontiac. Try it out . . . today.

* Pontiac "600" Business Coupe (De Luxe Models from $760) at factory, Oshawa, Ont. Low delivered, optional equipment included. Local delivery price determined by adding delivery charges to factory price. Transportation and license fees. Prices subject to change without notice.

Shannonville

Shannonville—A crowd estimated at more than three hundred attended the progressive euchre and Old Time dance held under the auspices of the Shannonville Agricultural Society in the Orange Hall on Friday night.

During the first part of the evening progressive euchre was played with twenty-eight tables in play. The prize-winners were: Ladies' first, Mrs. Fred Gray, Second, Mrs. Jack Kean, Consolation, Mrs. Fred Barlow. Gentlemen, first, Mr. Arnold Pratt, Second, Mr. Roy Badgley, Consolation, Mr. Earl Hagerman. The committee in charge of the euchre were: Sidney Fitzgerald, Lorne Lailer, Harold Osborne, James Lailer, Morris Reid, Herbert Houston, K. R. Vivian.

After the award of the prizes, dancing was enjoyed until the midnight hour when lunch was served after which dancing was again enjoyed. Music for the dance was furnished by Bob Clark's Orchestra.

A large number attended the progressive euchre party held at the home of Mr. and Mrs. William Conley on Wednesday night under the auspices of the Women's Guild of the Anglican Church. Prize-winners were: Ladies, first, Mrs. Herbert Thompson, second, Mrs. Minnie Barrie. Consolation, Mrs. Helen Vivian. Gentlemen, first, Jack Ash, Second, Fred Lewis, Consolation, Mr. Herbert Houston. Door prize, Mrs. William Conley.

As the result of the heavy rainfall during the past week the Salmon river is at very high level. Farmer residents declare that the culverts are full of water due to lack of drainage. All roads leading into the village are like sheets of ice, with skating being much better than walking.

Social Notes

Mr. and Mrs. William Thompson and son Gordon of Trenton accompanied by Mrs. Scott of Toronto were Sunday afternoon guests of Mr. and Mrs. George Leverton.

Mrs. George Fitzgerald attended the funeral of her grandmother, Mrs. Robert Best at Maynooth last week.

Mrs. Percy Howard and son Kenneth spent the past week at the home of Mrs. Howard's sister, Mrs. Vernon Joyce of Desmondo.

This is a reproduction of a picture taken in sub-zero temperature the morning after a severe snow storm. It shows footprints of a telephone operator leading to the telephone office. They are mute evidence of the "spirit of service" that is back of your telephone.

Blocked streets and highways seldom keep telephone employees from the job. If humanly possible, they are at work ready to do their part in providing your telephone service.

The management of this Company is proud of the fine "spirit of service" shown by employees and we feel sure that our customers appreciate it. Because of it your telephone service is maintained at a constantly high standard.

Desperately In Love With Another's Mate

By VIRGINIA LEE

WORSHIPED PEG is only 17, but she is desperately in love with a young married man. He loves her, too, but they have never done anything dishonorable", she writes.

"We've both tried to be fair to his wife," she says. "Virginia, why is it that folk give all their sympathy to the neglected wife and condemn us fallen girls? Can we help it when we fall in love?

"I'm so miserable I don't know what to do. I can't eat, I can't sleep. I try to be cheerful for my family's sake, but I'm near the breaking point. I've lost weight. Some day I'm going to break. I can't live like this.

"Virginia, please help me. What shall I do? Shall I leave the community for awhile? Shall we go to his wife?"

Yes, I'm certainly you may call me by my first name. Folk usually give their sympathy to the wife because she is the greater sufferer. Imagine that you are married to this man you love so desperately. Then imagine that he grows older and older in his treatment of you, and you finally find out that he loves another girl better than he does you. How would you feel, you who love so desperately, you girl? She will probably has the same feeling for him that you have—maybe even a deeper feeling, or isn't that possible? She has given him her name and love and has been making what she hopes is a happy home for him.

Then again a wife is hurt and puzzled by the difference in his manner towards her, then surprised by knowing that someone else has taken her place with him.

Future Now Hopeless

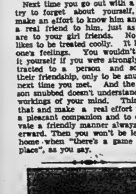
She probably went into marriage with much high hopes, planning their home and maybe babies. Now the future looks hopeless. Do you get the picture? Are you, too, not sorry for a wife in such a case?

And while the "fallen girl," as you call her, may not have meant to fall in love with another girl's husband, and shouldn't be blamed for thinking him lovesick, it surely isn't fair for her to accept his love and attentions, is it? They don't belong to her, do they? The odd-part of it is that the other woman always thinks the wife is selfish to hold on to her own husband. "Would you want to hold a man who wanted to be free?" one asked me. "I said no, and I probably wouldn't, but after all, a wife promises to love, honor, cherish "until death do them part", and why should she hand him over to the first girl who catches his fancy? He made the same vow, and why should he break it?

And how does you know this isn't a passing fancy? It usually is, and some poor wives learn, to their sorrow, that if they want to stick to their mates "until death", they have to go through some more "episodes".

I'm sorry for your suffering, but I think the wisest thing for you to do is to go away for awhile. And when you are away don't sit and mope for him. Make an earnest effort to put him out of your mind. Keep busy. Make new friends, and try hard to get interested in them.

We all have to give up some things we want very, very badly. you have, indeed, after all, he can't be a very honorable person to tell you he loves you, when a few short days ago he was vowing eternal love to another woman.



DIFFERENT is a "fairly attractive" girl and quite popular with the "best" and suitable dates with them, often making her girl friends quite jealous because the most attractive boys at school ask her for them. After a date or two, however, the scarcely speaks to the boys, and treats them so indifferently that they don't come back.

"The reason is, of course, that when she really wants to go somewhere, there is no one to ask her and she has to stay at home.

"Will you help me?" she asks.

I should diagnose your case as one of disliking yourself. You feel, whether you realize it or not, that you cannot hold the boys' friendship, have not the necessary qualifications to do so, and so, to protect your pride, you act indifferent.

Next time you go out with a boy, try to forget about yourself, and make an effort to know him and be a real friend to him. just as you are to your girl friends. You like to be treated coolly. It hurts one's feelings. You wouldn't like it yourself if you were strongly attracted to a person and sought their friendship, only to be snubbed next time you met. And the person snubbed doesn't understand the workings of your mind. Think of that and make a real effort to be a pleasant companion and to cultivate a friendly manner always afterwards. Then you won't be left at home when "there's a game some place", as you say.

Color applied to the ceiling of a room has a tendency to make it appear lower. If your ceilings are high and you desire to create a dark ceiling, if rubbed on low and rooms small, a light ceiling is best.

Here's "Must" For Spring Wardrobe

White Blouse and navy knit dress By Central Press

THE KNIT dress or suit has a very definite place in the spring wardrobe and Am in the knit. For the latter it folks into a small space and does not wrinkle.

This pretty one is made in an allover scallop pattern stitch. It is of navy wool with white linen yarn. The contrasting navy band that is used for trimming is crocheted of the same type of yarn.

The large hat carries out the color scheme in its crown of white felt and contrasting Milan brim.

Methods of Teachers Differ

By GARRY C. MYERS, PH. D.

Head Department Parent Education, Cleveland College, Western Reserve University.

TODAY a mother describes two teachers: one who represents the best modern ideals; the other the old type of school of a hundred years ago. This letter ought to make most readers grateful for their poised, sympathetic, understanding teacher the average pupil has at school today.

"Dear Dr. Myers: 'Many times I have wanted to write to you, but my problem always solved itself before I did.

"Mary Ann is an only child. She was five years old Aug. 17, 1926, and started to school in September of that year. She had a very lovely teacher. She was calm, active but firm. The children all just loved her. I visited twice and certainly got lots of satisfaction out of the way her method proved to keep the children crazy about school. Well, enough of that.

"Mary Ann's teacher couldn't pass quickly enough for Mary Ann. The first day I took her—introduced myself to the teacher—filled out her cards and left. Mary Ann came home at noon for lunch and left without much to say. The second day was the same. That night she was nervous and had her first nightmare we talked it all. But I still thought it was just the change from playing all day and then going to school and sitting all day. She would get over it! The third day she got up and didn't seem much enthused over getting ready. She couldn't eat. I asked her what she said, 'Mother, I like my teacher just fine, but I don't want to go to school.' That night she said her teacher boxed her head till her ear ached for looking down at her desk and spanked her for tumbling around the other time.

"I said nothing but I was mad enough to eat nails. Well, I ate my nails and talked it over with my mother and they were as dissatisfied as I about her method. But we decided to give it a try and that we got to the bottom of the trouble. I went to school the next day (no school) and I asked her what the trouble was. She just fairly shouted at me that I didn't understand what she was putting up with. She said none of the children paid a bit of attention and seemed deaf as well as dumb.

"I stayed—and she seemed terribly nervous with them, and in turn they acted—not dumb—but bewildered. I really felt sorry for her and those children too. She's so eager to teach them the work her supervisor has outlined for her that that if those children don't like it she is going to beat it into them."

Style Whimsies

The Victorian fashion for wearing ribbon streamers has been revived in a minor degree in London.

* * *

The printed shirt, vivid in pattern and colors, and with "tailored around the waist," is one of the features of sleek costumes this season at Palm Beach.

SPRING SUIT BRIGHTENS UP DARK FEBRUARY DAYS

For Easter In Frock You Are All Ready Like One of These

By LIBERTH

IF YOU would cheer yourself up these dark February days, look at the new spring suits, and maybe select one for yourself.

Jackets, generally speaking, are a little longer; skirts are slim and about the same length. Redingotes are again with us, and materials are legion.

A smart little suit with a flower—fresh or artificial—in your lapel, and you are ready for Easter or any other gala time.

Hips are slim and shoulders medium broad especially in the redingote type suit and in dresses, and blouses are more attractive than ever—and more varied.

Illustrating these general comments is the suit at the left. It is the custom made classic tailor for 1935. This model is of gray worsted, imported from England, and is impeccably tailored. The jacket is of the three-button variety, with flap pockets on the hips and one on the breast. A sheer batiste blouse is worn with it.

Notice the gay little hat with the pompom on top, the smart stitched suede bag and shoes, pulls over gloves.

Print and Solid

One of the smartest new redingotes of the new spring season is shown in the photograph at the right. The silk dress is in black and yellow print influenced with black wool, and the black wool coat is trimmed at the redingote with coils of the yellow silk print.

A chic black felt hat with a yellow and black bandeau is worn with it.

The striped suit is high style men's wear worsteds being used for it. These suits are made with the slender, possible silhouette attained by the "leaned hipped" styling which is emphasized through buttoning the jacket straight down through the hip section.

This molded hip and long waist section is one that is used universally by the quality suit makers.

These suits, too, may be worn right now under the fur coat, and will be fine for spring.

If you like the bolero idea, below is one right now and for spring as it is being used with such vim and vigor that it may not last indefinitely.

A novelty in suits is the contrast suit, maybe in navy and navy; and the satin-backed worsted suit with satin piping.

Checked suits are especially good with hip-length capes, the cape practical in that it may be worn over printed dresses all summer.

Left, gray English worsted tailored suit; right, black and yellow print dress, black wool redingote.

TWO NEW VARIATIONS OF POT ROAST THEME

By MRS. MARY MORTON Home Hint

Pot Roast—Spanish or De Luxe
Riced Potatoes
Spinach Cabbage Salad
Pumpkin Pie
Cheese Coffee

If you are in the habit of serving pot roast cooked in the usual way, you will be glad to try the Spanish recipe or the de luxe one. You can use a rump roast, a chuck or bottom of the round for pot roast. You can use canned pumpkin for the pie, or fresh squash.

Today's Recipes

SPANISH POT ROAST — Cut slits in the pot roast and insert stuffed olives by pushing them into the meat as far as they stay in place. Brown well in hot lard. Season with salt and pepper. Pour over the browned pot roast one cup canned tomatoes. Cover tightly and cook slowly until done, about three hours.

POT ROAST DE LUXE—Brown an equal piece of chuck in lard before browning meat. The adds an unusual but delicious flavor. Brown the meat before the meat is browned, then proceed as above.

CABBAGE SALAD — Chop Cabbage fine, add same amount of celery diced and whites of one or two hard boiled eggs. Mash the egg yolks fine, and mix to smooth paste with little vinegar and mustard. Mix with celery, cabbage and egg whites. When ready to serve mix cream dressing with mixture.

FACTS AND FANCIES

Meats Simmered, Not Boiled

Fat pot roasts, stews, and any meat cooked in water, low temperature in cooking holds true. The meat will be more tender and juicy if the water is never allowed to boil. A simmering temperature, the temperature at which small bubbles form underneath the surface but never reach the surface is best for meats cooked in water. As the French cooks say, "The water should smile, not laugh."

Caddie Your Clothes

The most important part of taking care of all clothes is how you treat them after you've shed them. When you peel out of your gabardine coat, put it on a clothes hanger immediately and place it near a window so as to avoid that stale, worn smell. It is apt to acquire. And as soon as that is done, it is imperative that you brush the dust from the coat exactly as you would your clothes.

YES, IT WAS THE MOUNTAIN ECHO

Yes it was the mountain Echo,
Solitary, clear, profound,
Answering to the shouting Cuckoo,
Giving to her sound for sound!

Unsolicited reply
To a babbling wanderer sent;
Like her ordinary cry,
Like—but oh, how different!

Hears not also mortal Life?
Hear not we, unthinking Creatures!
Echoes of folly, lies, or strife—
Voices of two different natures?

HiVe not we too?—yes, we have
Answers, and we know not whence;
Echoes from beyond the grave,
Recognized intelligence!

Such rebounds our inward ear
Catches sometimes from afar—
Listen, ponder, hold them fast;
For of God—of God they are.
—William Wordsworth

SENTENCE

Shall I say that what heaven gave
Earth has taken?—
Or that sleepers in the grave
Reawaken?

One sole sentence can I know,
You, my comrade, had to go,
I to stay.
—Witter Bynner

To Keep Self Looking and Feeling Young, Take A Tip From Animal Friends: Relax!

By JULIET SHELBY

Central Press Writer on Beauty

"AMERICAN" is the CANADIAN woman are the youngest looking women in the world." This gratifying statement was made by a famous French designer on a recent visit. Certainly foreigners marvel and, according to their lights, claim it is caused by everything from the climate to modern plumbing. They may argue about the reasons, but there are as many secrets to the art of staying young as there are individuals.

We don't mind getting older, but we have a genuine feeling for keeping our youthful enthusiasm and looking our best. Which is really just another and swell way to get old gracefully.

Relax Daily

This department has hit upon a tip that will do wonders to keep us looking and feeling young. You may have your own private formula, but the one we will not interfere with it and will work for all types and ages. It's so obvious that most people have forgotten all about it. But here it is: Relax!

Animals have never forgotten the-art of relaxing. The dumbest puppy and the most forlorn alley cat are one up on us there. When they are not busy about their playing or hunting they are busy doing one of two things, eating or sleeping. They settle down in a minute, with a long sigh they go out of each day. Half an hour for yourself alone, with no interferences from children, servants, business appointments and social engagements. Even the busiest person deserves that small amount of time out of twenty-four hours for herself. Give yourself that helpful few minutes and you are not exhausted, not after. It is almost miraculous how picked-up you will feel.

First get into a comfortable negligee or gown. Cleanse your face, wash out your eyes with a boric acid solution, and give your hair a five-minute brushing. Then if you want to put a little cream on your face, do so. Pour some witch hazel or cold tea in a little saucer, and drop in an ice cube. Make two bunks of absorbent cotton, large enough to cover the eyes and saturate them in the cold solution. Now you are ready to start your thirty minutes.

Lie down and take a good stretch for yourself. Raise your legs and let them flop down. Then raise your arms and let them drop heavily. Lift your head up and look at your toes. This relieves all that tension at the back of the neck. Then relax, and if you can sleep, so much the better.

After your rest period take your bath or shower, and you'll be surprised at what a world conquering mood you'll be in. And it will take years off your age. Should you be in a hurry and have only half an hour for your rest period, take it lying down. Half an hour for lunch and left without much to say. The second day was the same. That night she was nervous and had her first nightmare we talked it all. But I still thought it was just the change from playing all day and then going to school and sitting all day. She would get over it! The third day she got up and didn't seem much enthused over getting ready. She couldn't eat. I asked her what she said, 'Mother, I like my teacher just fine, but I don't want to go to school.' That night she said her teacher boxed her head till her ear ached for looking down at her desk and spanked her for tumbling around the other time.

"I said nothing but I was mad enough to eat nails. Well, I ate my nails and talked it over with my mother and they were as dissatisfied as I about her method. But we decided to give it a try and that we got to the bottom of the trouble. I went to school the next day (no school) and I asked her what the trouble was. She just fairly shouted at me that I didn't understand what she was putting up with. She said none of the children paid a bit of attention and seemed deaf as well as dumb.

"I stayed—and she seemed terribly nervous with them, and in turn they acted—not dumb—but bewildered. I really felt sorry for her and those children too. She's so eager to teach them the work her supervisor has outlined for her that that if those children don't like it she is going to beat it into them."

Style Whimsies

The Victorian fashion for wearing ribbon streamers has been revived in a minor degree in London.

* * *

The printed shirt, vivid in pattern and colors, and with "tailored around the waist," is one of the features of sleek costumes this season at Palm Beach.

Jean Chatburn
Taking time out to relax

limp as a rag doll. They are conserving their energies. It is an organized attack of wrinkle conquering mood you'll be in. And it will take years off your age. Should you be in a hurry and have only half an hour, it pables do it, why not women?

keep it in shape while it is airing. Your sweet skirt will prove to be the backbone of your wardrobe. Have them cleaned often, as all around into tweed is very hard to get off without rubbing the material almost thin. When you sit down, hitch your skirt up, to help keep away the wrinkles; wrinkles are pressed in when you sit on them for awhile.—Good House keeping Magazine.

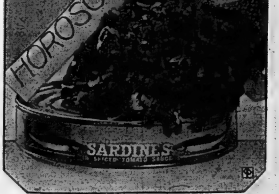
Birthday Flowers By Horoscope Is Novel Idea

By MRS. BERT S. MacDONALD

FLOWERS for the birthday of a friend's birthday may be planned according to the horoscope. Research must have been done on the correct flowers or the signs of the zodiac. Simply, Kingsley's apologist.

For instance, the arrangement shown here is for the person born under the sign of the fishes, Pisces, the 20 to March 21. People born under this star are inclined to be retiring, sensitive, emotional.



One of the loveliest flowers that grows in their birth flower, the violet, shown here arranged on a glass cake.

Next comes the sign for those born between March 23 and April 21—Aries, the Ram. Their ruling planet is Mars. They are courageous, gifted folk with all kinds of talents. Long ago the daisy was their flower, but it is rightly, the lily, the exquisite lily.

Those born between April 21 and May 21 are under the sign of Taurus, the Bull. Their astral flower is the hardy peony. The Taurus personality is generous, affectionate, warm hearted. The beautiful peony seems to have grown especially for them.

Gemini, the twins, is the sign of those born between May 22 and June 22. Gemini people are lucky and they're as full of fun as they are romantic. They have charm, poise and personality and their flower is the rose.

Now we've gotten around the zodiac as far as Cancer, the Crab, June 23 to July 22. Cancer rules the water lily. It is a poetic, glamorous flower which seems to con-

Horoscope birthday flowers for folk born under Pisces—violets and Those with birthdays between Aries, the Ram—daisy. March 21st and April 20th come under Taurus, the Bull—lily. Those born between April 21st and May 21st are under the sign of Gemini, the twins—rose. Those born between May 22nd and June 22nd are under the sign of Cancer, the Crab—water lily. Those born between July 23rd and August 22nd are under the sign of Leo, the Lion—sunflower. Those born between August 23rd and September 22nd are under the sign of Virgo, the Virgin—lily. They are loyal, unselfish, with deep, intense natures. They have an expressive flower of high color and great beauty—the dahlia.

very sympathy and understanding. qualities that Cancer people possess with an ability to reason and to control in life.

The sign of Leo, the Lion, rules those born July 23 and Aug. 23. Leo is a large, imperious, dramatic in type and so the Leo born, and their flower is the sunflower.

Best Bed Is Matter Of Choice

By LOGAN CLENDENING, M. D.

SPEAKING OF whether it is advisable to sleep on the sleeping porch these winter nights or not, as we did yesterday, talks to mind a notice we saw recently that the United States patent office has just granted a patent to Micheal Batick of Cold Spring, N.Y., for an air-conditioned bed. A pipe full of small holes goes across the bottom of the bed on the same level with the sleeper. This mechanism breathes air presumed to condition the air for the sleeper. I have no doubt the reading of this paragraph will cause a great many to have cold chills go up and down their spines.

The kind of bed that is healthful, whether hard or soft, etc., is like the question of the sleeping porch, a matter of choice. Most people, I believe, sleep better on a hard mattress. Although it is a general principle that the best rest the sleeper requires hardness, or resistance, when the weight and contours of the body need it most, on the contrary he requires softness and resiliency when the body pressure on the mattress are the least.

The principle of any inner spring mattresses I have known learned that the head, the feet and the mid-section weigh substantially the same because the same counter pressure is provided throughout, which principle, Mr. Sam Norman D. Mattison, may in time be considered more old-fashioned than are hair mattresses today.

Commenda Coil Spring

Of the types of bed springs Dr. Donald Laird, of Colgate university, believes that the narrow wire type or fabric type should not be used by people who weigh more than 40 pounds. He goes even farther to say that after one's first birthday, one should sleep on no spring but the coil type. The wonder wire type does not conform to the body surface and quickly develops a permanent sag, a sag which cannot be removed by tautening at house cleaning time the way the manufacturer fastened the rope bed. The coil type of bed spring has been proved to be the most comfortable.

Extensive experiments have been made in several psychological laboratories on the effects of sleep. Such experiments have failed on all the different kinds of mattresses and springs, and the relaxation of the muscles which the type of spring gives longer sleep and sounder sleep than any other type.

Pressure such as we turn from side to back, to side, on an average of every 12 minutes during the night, and the width of the bed is just important as any other feature of it.

WOODLEY FURS
372 FRONT STREET

Personals

Mrs. W. H. Earle, Coleman Street, was called to Toronto early today owing to the death of her little granddaughter, the infant child of Mr. and Mrs. J. Wessel, (nee Ella Earle).

Mr. J. Franklin Hinchley left yesterday for Montreal, where he will attend the annual meeting of the Sun Life Assurance Company of Canada.

Beverly Ann, three-year-old daughter of Mr. and Mrs. Thomas Pointer, Napanee, who underwent an operation at Kingston General hospital, over the week-end is progressing favourably.

Miss Peg Rowbotham visited friends at Mohawk Beach, over the week-end.

Personals appear only in Mrs. F. Allen entertained at dinner and four tables of bridge, last evening.

Delegates from this city who will attend the Belleville Presbyterial meeting of the United Church W.M.S. in Napanee tomorrow and Thursday are Mrs. (Dr.) Moore, representing the Bridge street W.M.S.; Mrs. C. Holmes, Holloway St., W.M.S.; Mrs. Warren, Holloway St., Mission Band; Mrs. D. T. McClintock and Miss W. Harrison, Tabernacle W.M.S.

Mr. and Mrs. J. B. Draycott celebrated their fortieth wedding anniversary yesterday and to mark the occasion several of their friends gathered at their home, 36 Bridge Street East, for a social evening. Euchre and bridge were enjoyed. During the evening, Mr. and Mrs. Draycott were presented with a clock by their friends. Refreshments were served at the close of the evening. Among those present were Mrs. W. Kimmerly, who had come from Montreal to be present at her parents' anniversary.

Mr. and Mrs. Charles Hick, Grove Street, were pleasantly surprised by a large number of friends, who had gathered at their home last evening to celebrate with them their forty-fourth wedding anniversary. About thirty were present and spent a most enjoyable evening. The particular guests of honor were presented with a handsome floor lamp and candles, the presentation being made by Mrs. Roy Finkle. Mr. Murney Hick in a few interesting address, expressed the wishes of the gathering for many more happy years and continued good health. Delicious refreshments brought the happy event to a close.

Mr. O. M. James spent the last week-end in Toronto, with Mrs. James, who is making preparations there for their annual tour of California and especially Los Angeles and Hollywood. Their home on Charles Street has been closed for several weeks, because they expected to be in California by this time, but due to the urgency of several new publications by The James Trusts, the proposed departure of Mr. James from Belleville, has been considerably postponed. Mr. James has direct information to the effect that throughout all the south so far this season temperatures have been somewhat uncomfortably low though of course much above the freezing point and that overcoats have been a necessity. Southern seasons vary a little just as they do in Ontario, but the average over a number of years is all that can be desired or expected in both regions.

Weddings

CASSIDY—DONAHUE

The Church of the Assumption, Erinsville, was the scene of an interesting wedding Monday, January tenth, when Geraldine, daughter of Mr. and Mrs. Edward Donahue of Erinsville was united in marriage to Malcka Cassidy, son of Mr. and Mrs. Thos. J. Cassidy, Stono, Rev. Father Power performed the ceremony and celebrated the Nuptial Mass.

The bride looked lovely in a gown of Coronation blue transparent velvet, with gold hat and shoes to match and carried a white Prayer Book. She was attended by her sister, Loretta, who wore a gown of Marina blue transparent velvet, with matching accessories. The groom was attended by his brother, Clarence, of Stono.

The wedding music was played by Miss Mary Crawford and during the ceremony Miss Noreen Crawford sang sweetly.

After the ceremony the bridal party motored to Napanee where a sumptuous wedding dinner was served at the Superior restaurant.

Later the happy couple left by motor amid showers of confetti and good wishes on a trip to Rochester, returning by Buffalo and Niagara.

The bride travelled in a brown crepe and satin dress with brown coat, hat and shoes to match.

The groom's gift to the bride was a studio couch, to the bridesmaid, a compact and to the groomsman, an initialled tie pin.

On Friday evening, about one hundred and fifty guests assembled at the home of the bride's parents, where the young couple received many beautiful and useful gifts. A reception was held in St. Edmund's Parish Hall, Stono, on Tuesday night.

The young couple will reside near Tweed where the groom is a prosperous farmer.

No Head For Business

By HAZEL M. LANGDALE

That's what they said about Anthony Jenkins when he was a young man.

"He's handsome, he's good at sports, and he's a winner with the girls, but he doesn't know the difference between a first mortgage and a gilt edge security." Those words of Aline's father stopped him up, and were spoken when Aline's mother first began to suspect that there was something more than mere friendship between Aline and Tony, she had guns to her husband with the information.

"All right, I'll look into it, that fellow," admitted the father of Joyce Aldbank, "but I don't want him for a son-in-law." That was on the occasion when Anthony sought Mr. Milbank's daughter in marriage, and Aline was then about getting t e license. He had refused Aline's father's offer, and was allowed to have neither of them.

So Tony, at thirty-five, was still a gle. Once or twice he had seemed started on the road to success and likewise to matrimony.

He had built himself up a job which promised something some day. But before they made good, Tony always up and left them. Not restless for a change, but because of his inquiring nature, and, it must be admitted, disgusted with them.

Because his expenses were small, he would always have a little cash. This he would always draw and leave in order to go and see his mum secure another job or starve.

Those intervals between jobs he spent in various ways. Once he took a monthly trip to South America. Once he travelled as student tourist through Europe for a season. And finally he bought a second-hand flivver, ran it across the continent to the Pacific coast, then booked passage for Hawaii, and spent several months on the beach and ocean liner making a round-the-world trip.

But in Hawaii something occurred which changed the tours of Tony's life.

On the hibiscus-shaded verandah of the Royal Hawaiian in Honolulu, a small table when Anthony drifted in and helped himself to a drink. Then, looking up, he met the sad of agaiora pears, their glances met, and there was a spark.

Tony finished her meal before Anthony finished him. and shortly after paid the bill, then he heard the purr of her engine.

Twenty minutes later, tilling back in his hotel room, Anthony was pulled off to one side of the road. Behind him was a car containing girl who was in need of assistance, preferably someone to get home, to where she could send back her father's chauffeur for the derelict. Making the most of the chance to her father in a casual sort of way, M. J. Thompson, Jr., was overheard to catalogue his daughter's young life. Nothing more than a winter, than which he could have done nothing more flattering for Tony.

A motor car driven to differance by a velvet moon rising out of a pha'- ocean by the luminating strains of a Hawaiian love song and accompanied by dozen steel guitars on the club verandah behind them. Add by the soft caress of breezes Melanie on the sands beside him, Anthon, poured forth it's love.

Then, finding quite sternly a confession of reciprocating passion that trembled on the girl's lovely lips, he told her hoarsely he could never marry her that he was too poor to marry any woman, and that he would love her, and her alone, to the day of his death.

Next morning he begged a stock-yard job from a cattle rancher, and docked for a brief few hours in Honolulu, and sent a wireless to his heart in Hawaii.

When a year later, he reached home he found exactly 32 letters from Melanie and an official document from Washington, appointing him a comission of one to visit South America as agent to Hawaii to study the parasite that kills the pineapple and the weevil that spoils apple.

Some pulling of wires had Professor Jenkins on behalf of his daughter.

Try Salada Orange Pekoe Blend "SALADA" TEA

GOOD MANNERS

by MRS. CORNELIUS BEECKMAN
(Copyright, 1937, King Features Syndicate, Inc.)

Dear Mrs. Beeckman:
I am president of a sorority and at this time I must start making plans for our annual Freshman Tea. It has been the custom of the sorority to have what is called a "high tea". The time set is some Sunday afternoon at three o'clock. First of all come the introductions. The tables are set an hour, as we have forty members and usually ten guests.

—Could you suggest some easy system for introducing? Who should take charge of the introductions? The committee consists of the four officers.

—Meet we have our entertainment. The type varies from year to year. One year bridge was played, and the next year we had a reading. Have you a suggestion for the entertainment. We cannot afford to spend more than five dollars for entertainment.

2.—Then supper —not tea— is served at six o'clock. —Is this the proper time to welcome the guests? Or would it be better form to do this at the beginning of the program?

—What would you suggest for favors? We do not intend to pay more than twenty-five cents.

3—Should it be proper to write the invitations in letter form, and "All should be present, as this fellow," admitted the father of Joyce Aldbank, "but I don't want him for a son-in-law." That was on the occasion when Anthony sought Mr. Milbank's daughter in marriage, and Aline was then about getting t e license. He had refused Aline's father's offer, and was allowed to have neither of them.

4—Should the invitations be written by hand. Invitations should not be typewritten.

5—The invitations might read like this:

We are having our annual Freshman party of the sorority on Sunday, March tenth, and we would like very much to have you present. The time is three o'clock, and there will be a High Tea after the program. Do say you will be with us.

Most sincerely

6—No, the invitations should be written by hand.

Invitations should not be typewritten.

Advice to the Lovelorn

by BEATRICE FAIRFAX

(Copyright, 1937, King Features Syndicate, Inc.)
Famous Authority on Problems of Love and Marriage.

Are "Problem Parents" the Cause of "Problem Youth"?

A big city book club was discussing the current wave of criticism against our modern young people: "The Prodigal Parents" by Sinclair Lewis. And the consensus of opinion by the younger members of the club seemed to be that the boy and girl, in the main, are what parents and Cornpiow—were becoming out-moded.

Like the poor, which the Bible warns will always be with us, young people are a fact other nasty will be among those present till Judgment Day. But the "Youth-baited" Greenwich Village type sighing for the Revolution, or the straighten the nation—at a cock-eyed world is becoming less prevalent since youth is coming into power.

The Cornplows had a well-to-do New York bank and their children came super-parasites. But as rich fathers grow less, and boys and girls go to work for their own meal tickets, they think more intelligently.

In spite of all our wailings about modern conditions, something fine is in his heart of men is automatically. And parallicel youngsters, dependent on their parents for their daily dry Martinis, have a way of dying off before they have children because their bodies can't stand the pace. Like the grasshopper of fable the ant, a great time while it lasts, but it doesn't last long.

Making people of a daily paper, bought casually at a newsstand the day the Lewis book appeared, set forth quite an indictment. Here are flesh and blood youth against the gropings of the fictional Cornplows. I wish there was space to mention all the things intelligent girls and boys are doing.

It told of the enrollment of an astonishingly large body of students in the Farm Folk School of the University of Madison Wisconsin. Gathering from all parts of the country, the students study from November 40 March—the slack season for farms. The curriculum which covers all sorts of farm wisdom, also includes social and economic. The fifteen weeks session costs only $100 dollars and if you come from Wisconsin the fee is only $50 dollars.

A little while ago, a couple of weeks perhaps, I have not been possible to meet a girl in Washington, D.C., who didn't have a button badge or ribbon pinned to her coat. The old town actually seethed with "movements," mobilizations, conferences for world betterment. These clubs are the straighten the nation—at a cock-eyed world is becoming less prevalent since youth is coming into power.

The Cornplows had a well-to-do New York bank and their children came super-parasites. But as rich fathers grow less, and boys and girls go to work for their own meal tickets, they think more intelligently.

In spite of all our wailings about modern conditions, something fine is in his heart of men is automatically. And parallicel youngsters, dependent on their parents for their daily dry Martinis, have a way of dying off before they have children because their bodies can't stand the pace. Like the grasshopper of fable the ant, a great time while it lasts, but it doesn't last long.

A single edition of a daily paper, bought casually at a newsstand the day the Lewis book appeared, set forth quite an indictment. Here are flesh and blood youth against the gropings of the fictional Cornplows. I wish there was space to mention all the things intelligent girls and boys are doing.

It told of the enrollment of an as-

ter.

Oh, yes, Tony took the job and the last news we heard of him was that he was the life of a man that had been a classmate of mine, as well as Anthony's.

"They're ideally happy," he said thoughtfully, speaking of Melanie and Tony, who had now been married 16 years. "When Premoni did, he left his father $500 money to try to run the business himself, but sold out to his rivals for a few odd million. And then—well, he hired the most suitable investments and then look after them. They always said the boy had no head for business, but somehow he seems to have gotten by."

"Yes," I said, with what I know was a wry smile, as I recalled the unpleasant crack prophecies made for Tony and me by our short-sighted parents, "he seems to have gotten by!"

Sound Teeth Are Vital to Beauty

LOLA LANE
Never neglects her beautiful white teeth

(By HELEN POLLETT)

FIRST AND foremost, among the ingredients of the formula for beauty are sound, even teeth. Without good teeth, a girl's hopes are blasted. She can't "make the grade". It is just as well to let the pulchritude children know that healthy teeth are dependent upon firm, healthy gums.

You can massage your gums with your fingers, thereby stimulating circulation and bringing a good color, or you can use a rubber brush made for the purpose. If you use your fingers, anoint them with a dentifrice. Rinsing the mouth with a salt solution is good for the gums and the membranes of the mouth.

Mouth hygiene is all important. An unpleasant breath sends suitors far away. And they never come back.

Eye care is a necessary part of the beauty regime. Bathe them twice a day with warm water then with cold. When they are tired, use an eye lotion. Never rub or compress and take a 15-minute rest. Eye exercises will improve movement the eyes are working.

Don't read on trains; don't read in a light; don't use your eyes for close work when they are tired. A restful treatment is to change the range of vision, standing at a window and looking far away.

FRONT ROAD LADIES AID

The February meeting of the Front Road Ladies Aid was held at the home of Mrs. M. Ball with 14 members and one visitor in attendance. The meeting was called to order by the President, Mrs. T. Ellis. Hymn No. 362 was sung after which all repeated the Lord's Prayer in unison. Mrs. Ellis then read the Scripture lesson. Several matters of business were discussed. It was decided that the Aid put on a Pancake Supper in the near future. Mrs. Ellis appointed the committee of men be appointed to see about material for finishing the interior of the hall and to proceed with the work as soon as possible. A report of the social was given. The proceeds amounting to $15.00. Mrs. Ball was thanked on the Mizpah after which a dainty lunch was served by Mrs. Hall and her convenors.

Miss Viola Everetts has returned to her home in Belleville after spending some time with Miss Helen Brown.

Born: To Mr. and Mrs. T. Whittle on January 24th, a daughter.

Mrs. Roy Clark is spending a few days with her parents, Mr. and Mrs. Cole, at Canniton.

Mr. and Mrs. T. Brown entertained a few friends to an Oyster Supper on Tuesday evening.

Mr. and Mrs. R. Brown and Helen spent the tea hour on Sunday with Mr. and Mrs. R. Wilkinson.

Miss Mildred Greatrix entertained several young people with a skating party on Wednesday evening.

Miss Flossie Bell of Belleville is spending a few days at the home of her parents, Mr. and Mrs. R. Bell.

Little Miss Barbara Greatrix held a party on Friday afternoon for several of her little friends. All report a good time.

MASSASSAGA LADIES AID

On Thursday afternoon Feb. 3rd, the regular monthly meeting of the Massasaga Ladies Aid was held at Mrs. Howard Wallbridge's. There were twenty members present and three visitors. Mrs. George Flower was in charge of the program. The guest speaker was Dr. Ethel Noble. The meeting opened by singing hymn No. 362, Dalmage read the Scripture Lesson.

Mrs. Dalmage was in charge of the President, Miss Broad. Several items were discussed, the collection was then taken and three dues paid.

ASHLEY FURS
194 Front St. Phone 2340
"WALK UPSTAIRS AND SAVE"

The Roll call was responded to by mentioning or demonstrating some useful kitchen article from which it is felt we will become much the easier.

Mrs. Hillman gave an enjoyable reading entitled, "Father's Valentine." All joined in singing Hymn No. 500.

Members were then privileged to listen to a Health Talk by Dr. Ethel Noble. Her address was very interesting and beneficial and given in her usual pleasing manner. Mrs. Smith closed the meeting with prayer in unison. Refreshments were next. The prize was won by a visitor, Mrs. Atkins. A delicious lunch was served.

Mrs. Broad on behalf of the Massassaga Ladies Aid tendered Dr. Noble for her splendid address and Mrs. Walbridge for her hospitality.

WALLBRIDGE W. M. S.

The Wallbridge W. M. S. of the United Church met at the home of Mrs. Alex Wallbridge on February 2nd. Owing to the icy roads the attendance was smaller than usual Dinner was served to about sixteen including a few men.

The W.M.S. was opened with the President in the chair and Mrs. T. Mine at the piano. "Just for Today" was the opening hymn. The Devotional Leaflet was taken by Mrs. Ketchenson assisted by Mesdames L. Bedgley, Jas. Hinchcliffe and R. Hinchcliffe. Mrs. H. Ketchenson read "News from China and Africa." Mrs. Jas. Hinchcliffe was appointed Secretary in place of Mrs. A. Kingston who is moving away. It was decided to let the envelope system of giving with Mrs. Nobes as steward. Mrs. Alex Wallbridge was asked to join in the World Day of Prayer Service. A chapter in the Study Book was given by Mrs. Nobes, Lesson closing with the benediction.

The next meeting closed with Mrs. Lorne Badgley in the chair. Plans were made for a "Taffy Social."

The W. A. enjoyed a social evening at the home of Mr. and Mrs. Lorne Badgley recently. Games and contests were entered into and followed with lunch. A good collection was taken.

The January meeting of the Women's Institute was held on Wednesday evening at the home of which all were invited. Mrs. S. Weckom and Mrs. J. Chisholm were convenors of the programme which consisted of songs, stunts, readings by Mrs. Marjorie Lane, solo by Misses H. Lane, M. Shorey and Olive Hall, also a Mock Wedding in which Mrs. W. Johnson was bride, and J. Ketchenon groom, and Mr. S. Mcmahon minister, with other attendants. Apples and candy were served after the programme.

Congratulations to Mr. and Mrs. C. Massey who celebrated their fifty-third wedding anniversary on January 28th. Mr. and Mrs. Kenneth Massey entertained in honor. Mrs. S. Lane, Mr. and Mrs. Carman Massey, Vincent and Merle, of Belleville, and Mrs. E. Donaldson, Mr. and Mrs. H. Bonnisteel and daughter, Mr. and Mrs. O. L. Ketchenon and Col. and Mrs. W.G. Ketchenon in dinner.

Mrs. Arthur Shannon, Bradwardine, Man., is spending the winter with her sister, Mrs. F. Noble.

Mrs. Geo. Nicolson is visiting her daughter, Mrs. G. W. Tucker, Belleville.

Mrs. John Hinchcliffe had the misfortune to sprain her wrist resulting from a fall on the ice.

Sympathy is extended from this community to a former school teacher, Miss Irene Grills, who recently lost her mother.

Don't Punish A Child for Accident

By LISA GRENVILLE

RALPH, SMILE chasing Susan through Cousin Emily's apartment, the living room, dining room, up to the spot in fright. The look he gave Cousin Emily was pitiful in its terror and guilt.

Cousin Emily grabbed him and held him close. "Ralph, what a funny way that ash-tray has turned over! I wonder if it didn't get venture a smile.

Everyone's eyes were asd-trays in this house, Ralph." Cousin Emily went on. "We think nothing of it. Why, sometimes Susan and I do it just for sport, don't we, Susan?" Susan, full of joy herself, said Ralph.

"Then we just pick up the mess.

"But what if it's full, and makes a mess over the rug?"

"Then we have fun for a broom and brush up the mess."

"And nobody's mad?"

"Nobody's mad, and nobody weeps."

Accident Just That

Ralph broke into a sudden grin. "I'll tell you something, Cousin Emily," he said.

"After all, an accident is just an accident, isn't it? And it should be regarded accordingly.

If Jimmie or Janis deliberately uses your Ming vase as a target, you have a right to mother matter, observe your righteous wrath. Everyone must learn, and how better than by the effect on other's property as well as his feelings.

But if Jimmie and Janis, in passing, accidentally up over the vase, you should be "mad in oil" for the offense. Positively not. A little sympathy and a search for tor to gather up the pieces should be the first need.

Perhaps. But why shouldn't parents be made to realize that Ming vases and children do not mix, that such priceless treasures as Ming vases should be placed up very high, or locked in glass cabinets in any house where there are children?

Moreover, if you attempt to punish those who result rather than motive, you confuse them, destroy their love of order far too early, and lose control of them.

If you are really such a particular housekeeper that an upset ash-tray is a major tragedy to you, if the preservation of your Ming vases is really more important to you than the happiness and well-being of your children—and that is merely a matter of taste—why not give the children their own ash-trays? It would be the kindest thing to do.

Flyers Defeat Redmen 5-3 In Overtime in Fast Game to Tie Petes for First Place

Victory Costly as Johnny Lalonde Sustains Torn Shoulder

GOALIES STAR

Wilson And Murphy With McNeeley Twins And Lalonde Best

Two rapid-fire goals in overtime gave the R.C.A.F. "Flyers" a 5 to 3 decision over the Belleville Redmen at noon in a senior O.H.A. fixture at the Belleville Arena last evening. The Redmen came from behind to trail the count three-all as full time, but wilted before the frenzied Airmen's early overtime period attack. Smith early intended the Air Force pointmen into a tie for the group leadership with the Peterboro squad with the decisive counter before the Petes and the "air-minded" pucksters being slated for the Belleville Arena on Friday night.

Playing on rough hard ice, the roughness resulting in the puck being uncontrollable and combination practically impossible, the hard bent bounding and rolling around with abandon all evening, resulting in ludicrous body loss and heavy checking featuring the pastime. Sticks were rendered shoulder-high all night and several private, but petty, feuds added to the pastime that had its comedy. Coach Tommy Lawrence's charges assumed an early game lead with two first period goals, while each scored in the second. The Redmen assumed the offensive and with aggressive play scored two in the final stanza to knot the count at full time before some seven hundred fans.

Victory Costly

The victory came rather costly in the Flyers, who lost the services of the clever-stepping Johnnie Lalonde, the "big boy" sustaining a severely wrenched ligament of the left shoulder when crashed to the ice by Ken Murphy, Belleville defenceman, in clean and legitimate bodycheck. Lalonde's absence was clearly seen after he left the game in the second period, although the Airmen attack replied plenty of power and punch in the early stages of the overtime and successfully checked their set-up vantage from that point.

Roy Wilson, speedy right winger of the Redmen, led the scoring in the night with two goals. Storms getting the other Belleville counters. Lalonde, the McNeeley twins, Tagts and Wiggett sank the rubber for the Airmen, with Ernie McNeeley adding to their scoring counts with assists, besides playing a defensive game defensively. Ken Murphy, Redmen defenceman, accounted for the night's assist. Murphy's body-checking was one of the features of the game, while his defensive efforts were equally as effective as his clever work. Hinton did a person shared the goal-tending laurels, both making sensational stops although the Redmen repeatedly missed golden scoring opportunities. The Belleville front line of Wilson and the Jackson boys again carried the torch for the Redmen in the heavy going, however, Wilson looking better than he has in some time. Personal contact and heavy checking marked the entire pastime and Storms occasionally gave stick handling exhibitions in the centre ice zone.

Lalonde was sorely missed in the latter stages by the Airmen, as Dan Cowley was rushed in to fill the rear-guard vacancy left by Lalonde's removal owing to his injury. Wiggett, Ken McNeeley, Legris and Tagts were conspicuous and also was Kingston for an early-game effort. Tagts and bombarded Gibson, whose goal-keeping all night was of the sensational nature. Eric McNeeley opened the scoring as he poked in Hartwell's pass in front of the Redmen. Lalonde was never checked as the locals opened a rush for a solo tally without much opposition. Early in the second period Wilson swiped the upper right-hand corner in a pass from Murphy as the latter danged up on Gibson. It was following this score, that Murphy received body-checking honors for the evening, resulting in his injury. Later in the period Ken McNeeley knotted Legris' pass behind Hinton during a scramble, that saw some good goal-tending effort on the part of the Redmen. The Jackons combined to hit the post later as the Petes and Legris added to the game with a pushing match that brought such a penalty.

Redmen Outhacked

In the third period the Redmen were repeatedly out-hacked around the Flyers' net or were the victims of some high-class goal-keeping on the part of Gibson as the Tommies' fast outfit carried the play. They were eventually rewarded as Wilson broke away into the clear and sizzled one past Gibson following which the Airmen applied the pressure.

Legris drew a penalty and Storms drew from a face off and Wiggett broke to even the equalizer. Wilson's shot was so terrific that the puck defrocked into the net and broke Gibson's skate causing a delay while the damage was being done. In the overtime the Flyers stepped on the gas early Wiggett and Legris carried the play to the Redmen's end and the Flyers staywinning off the Belleville attack, literally around Gibson in a frantic, fast fuddle effort to knot the count. In the overtime period Wiggett, Legris, Phillips and Reddick put th.. homesters in front again when they beat the Tweed goal-tender on a passing play with Phillips netting Reddick's pass.

Storms broke again, completing a brilliant solo effort, Blaike and Legris combined for Campbellford's third counter and Trenton tied it up from a scramble in front of the net.

Shortly after the second period Ken Murphy and Couch sifted through to Stubbing with Murphy netting the pass from Couch. Reddick put the home team in front

Leave Lady Luck at home

She is a dangerous guide for your shopping tours, this fickle lady. Let her smile, and bargains may be yours. But let her frown—or even lose interest—and you are likely to pay more than you should, or bring home disappointing merchandise.

Thrifty shoppers long ago left this unreliable lady in the lurch. They now plan their shopping tours as carefully as a master navigator plots his course. Their weather maps and charts are news of sales and up-to-the-hour information on new merchandise and today's prices. Where do they get this money-saving information in advance? From a source at your own finger-tips this very minute!

Simply turn to the advertising pages of this paper. Settle down in your favorite chair, and look for the things you intend to buy on your next shopping trip. You'll be surprised at the number of them advertised. Compare descriptions, compare prices, and you will find out exactly where to get the things you want at your prices.

So leave Lady Luck behind on your next shopping trip. Follow an ad-charted course instead, and enjoy safer shopping, with more and better merchandise for your money.

CHIPS from the SPORT BLOCK

By Geo. H. Carver

Walter Gerow, Sr. wily old veteran of many a hockey and baseball war, who took in the Redmen-Flyers "Al Home" in the local ice mengue last night, squinted a knowing eye at a cup of coffee in a local restaurant, after the boys had replayed the third period . . . .

"Do you know", quoth Walter, "That was not such a bad exhibition of the old pastime after all, even if the boys did muff a few chances by not keeping the rubber when some fine scoring opportunities presented themselves" . . . .

"Has the son and heir signed the Black Hawk contract yet?" he was asked . . . . Walt squinted an enquiring eye at the Mineau, who by the way is no mean baseball and hockey authority herself. . . . "By the looks of the jam in the river, I don't think there is much danger of a flood at this time", *he* countered . . . . "He'that as it may, how about this hockey contract, you old so-and-so", was thrust at him . . . .

"Contract, oh yes contract. . . . I up some time and make a fourth at bridge", the wily old mentor shot at us . . . . "The last I heard and last time, sub, is the boy going to turn pro!" came the question . . .

Walt finally came down to earth. . . . "To tell you the truth, we don't know what to do about it." . . . "Last week the youngster had an attractive offer from a town in the north country, where he can play baseball in summer and hockey in winter", he finally blurted out . . . . "Just at present, we are undecided. Besides we have to knock off that Junior "C" title before anything is done about the matter."

While the Redmen may have lacked sufficient scoring ability last night to vet the nod over the flying Flyers, they certainly did not want for support. Judging from the tonsilar efforts of the faithful these Flyers were as popular as Chinese laundries in Tokyo. The gang rose on their hinde legs and howled whenever a doughty brave scalped a flyer tenderfoot or whenever they drove in on the Ohlmanian hangar. . . . They roared to high heaven when an Indian/Sit the dust, felled by the legal or otherwise tactics of the Birdmen. . . .They chortled with glee when one of the hated enemy was dropped in his tracks by the heavy and legitimate body checks handed out by Murphy et al. . . . . They took the debonair "Army" Armstrong for vociferous "rides" whenever an alleged offside failed to be called as the flyers dashed to the attack or when the speeding Red front lines were called back for the same offence. . . . And they even gave "Scotty" a cross between a Bronx cheer and a college yell when he occupied the goal judges corral for a second then was politely but firmly requested to vacate.

The smiling "Weiner" St. Denis caught the fickle eye of the public for the space of a few moments last evening. With a big grin on the St. Denis features, the "Weiner" tore into the opposition with all the vigour of a hungry wildcat at a young rabbit . . . He bit 'em high and he bit 'em low. . . . When the "Weiner" couldn't connect with a bodycheck or flying tackle he took an interference for the puck-carrier. . . . He polished off an amusing bit ofredive performance by squaring off with one of the enemy, being shunted into the hoosgow & shaking hands with his erstwhile opponent and discussing the flood situation while the clock ticked off the necessary 120 seconds.

The natilly attired Queens and Quinte hockey squads, the former in green and the Pinnacle Street laddies in pure white with a large "Q" adorning their more or less manly bosoms, provided the color at the scheduled Nightlawk league fixture last night. . . . These games are developing into real shinny matches and the boys are putting on a good show. . . . The lackadaisical fandmen from the Front Street hostelry rang up a 3-1 victory over the opposition, after a hard-fought battle that was closely contested and high-lighted with a fistfight between two of the warring gladiators. . . . . .

TEMPERS FLARE IN FAST GAME

Stirling Ad Tweed Play to 4-4 Tie at Tweed

Tweed, Feb. 8 (Special)—Tweed and Stirling played to a 4-all tie in their overtime Trent Valley League fixture at the local arena on Monday night. Outside of the opening period, the game was decidedly ragged, and ill-feeling, which was in evidence throughout, finally manifested itself in a free-for-all late in the third frame. Wells of Stirling gave one of the weirdest exhibitions of refereeing ever witnessed on local ice. His continual bell ringing and general inefficiency allowed the game to get completely out of hand.

The opening frame saw Tweed playing their best hockey, Two goals were notched by Courneyea and Elsbury, one to each player, with the other figuring in each play. The two players gave a splendid display throughout and skated themselves into considerable favor.

Early in the second period Robinson, who stood out for the visitors, secured his first goal on a nice effort while the locals were short-handed. Courneyea got the prettiest goal of the evening when the play manoeuvred for out position and nonchalantly pushed the puck into the net to make the score three to one.

Cool Wet Field Lead

The locals could not hold their advantage however, as Robinson catching Tweed's defence out of position, gave Thompson no chance to save. Morton secured the equalizer a few minutes later when Tinkey Leal was given an undeserved penalty.

Penalties came thick and fast in the third period as tempers flared but it failed to prevent the uprising. Tweed lost a glorious opportunity to break the deadlock, when they had a two man advantage, but couldn't get organized. Finally Mahoney secured the goal that broke the tie on "Tip" Tummon's pass. The advantage however, was short-lived as Robinson got his third goal when his long shot hit the goal post and was deflected into the net before Thompson had a chance to get set.

Scrap Follows Goal

This goal was followed by the scrap in which sticks and gloves were dropped. The spectators quickly dropped over the boards and in was several minutes before the ice was cleared and play resumed with Tweed having four men on the ice and Stirling five. There was no further scoring in this frame or in the overtime.

Tweed: Goal Thompson; defence "Tip" Tummon and Woodcock; centre Long; wings Elsbury and Courneyea; subs, Wagar, W. Leal, J. Tummon and Meraw.

Stirling: Goal Fox; defence Ackrs and Gerald; centre Robinson; wings Fraser and Reid; subs, Butler and Morton.

YANKS ANXIOUS TO HAVE GEHRIG SIGN CONTRACT

First Baseman And Ruppert Meet Today For a Conference

OFFERED $36,000

Signing of Gehrig Might Help With Other Holdouts

(By Gayle Talbot, Associated Press Sports Writer).

New York, Feb. 8 (AP)—The Yankees' contract problems were scheduled to reach a crisis today in the star-chamber session between the champions' millionaire owner, Colonel Jacob Ruppert, and their high salaried first baseman Lou Gehrig.

The Colonel and Lou were meeting in the former's brewery office. The same office in which the Colonel and Joe DiMaggio had their $16,000 difference of opinion, some weeks ago. Gehrig the game's highest-salaried player, was demanding an increase over his $36,000 wage of last season.

Chances were, in the opinion of most observers, that the veteran first-sacker would be able to talk Colonel Ruppert out of a quick raise, because the Yankees are exceedingly anxious to get him signed. They want to discourage DiMaggio in his wildeyed request for a $40,000 contract.

His Surrender Would Help

Gehrig would be the first of the club's big money boys to sign and his surrender would do a lot to alleviate the holdout headaches. Lefty Gomes, Bill Dickey and Red Ruffing are on the verge of coming to terms. The Associated Press learned, and Gehrig is depended upon to lead them into the fold.

If Columbia Lou should on the other hand, pi aiubborn today and stick with it, the champions might wind up with a real spring problem. There seems no doubt that DiMaggio intends to holdout right into the opening of camp at St. Petersburg, March 7.

Gehrig, just returned from Hollywood, where he played the part of a rookie, lookin' cowpuncher in his first movie, hadn't discussed contract with his bosses previously. He received the club's offer of another $36,000 season, stuck it in his chaps and came on home.

BANTAM TEAMS OF KI-Y LEAGUE GIVEN STICKS

Budding hockey players swarmed into the T.M.C.A. last evening when J. K. Sherrit, Secretary-Treasurer of the Belleville Ki-Y series presented to each member of the Bantam teams an O.H.A. stick.

These hockey sticks were secured through the co-operation of Mr. "Sandy" Sarrows and the O.H.A. executive. The provision of these sticks will greatly stimulate hockey in the younger boys of our city. Fourteen teams are now competing in the three Ki-Y groups.

Sports Roundup

(Biddie Bristo)

(Associated Press Sports Writer)

New York, Feb. 8.—(AP)—Next week's Tony Galento-Harry Thomas fight promises to be one of those good old Arbor brawls . . . Any day now you can look for the Dodgers to make some news . . . Max Baer told Broadway hello and goodbye in one hour yesterday, which is strange going one for that guy . . . Some of the smart boys are weakening on War Admiral in the $50,000 Widener handicap race.

Work is being rushed on Jack Dempsey's new Broadway bar . . . A few hours after Tommy Farr lets a taxi loudly bawling out a stunning brunette who remained inside, Tommy stepped on the stage at Billy Rose's new night spot and sang "Do You Remember Me?" in a not too bad tenor. . . (Customers gave him a hand) . . . Max Baer totes a picture of his kid around in his pocket and shows it on the slightest provocation. . . . It's Ruppert vs Gehrig today and its likely to be a draw.

General Critchley, the rich Calgary-born British promoter, hit town yesterday on his way to Palm Beach for a holiday. . . . A reporter said: "Well, we got Tommy Farr over here," and the General replied "Yes, and you can have him" . . . Not meble that was because the General couldn't get Tommy. Jack Kearns remains one of the best stry tellers in the boxing biz. . . . Gej, him to tell you the yarn of how the Dempsey-Willard fight was made . . . Poppy Wingate, British woman professional golfer, is to visit United States. . . . Maxie Baer says playing golf with Lawson Little has cut ten strokes off his game.

IN MEMORIAM

HARVEY—In cherished and unfading memory of our darling little "Freddie", age 1 year and 7 months, who passed away Feb. 8, 1937, Son of Mr. and Mrs. Louis Harvey.
Up above the cloudiets
Dwells a dear little boy of mine,
Whom we looked on as a treasure,
Whom we cherished as divine.
But softly as a sunbeam,
He slipped from off life's track,
And I yearn so much for the loving touch
Of his dear little arms around my neck.
Oh for the sound of his two little feet,
To see two eyes of blue,
That little fair head and smiling face,
"Freddie" how we miss you.
We often visit that little grave
Where lies our darling we could not save; As we leave that sacred spot we love
We think of him safe in the "Home" above.
—Longed for always, Mama and Daddy. f8-1t

HARVEY—In sad and loving memory of our little grandson (Freddie), age 1 year and 7 months, who passed away Feb. 8, 1937.
The memory of his dear wee ways,
Will linger with us all our days,
Sweetest flower, too sweet to stay,
God took him home to show us the way.
We love to think of you dear Freddie,
In mansions bright and fair,
There Jesus reigns in glory,
And is our sorrows bare.
—Sadly missed by Grandma, Grandpa Uens and Uncle Albert. f8-1t.

BIRTHS

BARBER—At the Belleville General Hospital on Feb. 7, 1938, to Mr. and Mrs. Clifford Barber, a son. f8-1t

DEATHS

HAGGERTY—In the 1st. Concession of Sidney Township on Monday, Feb. 7th., 1938, Mrs. Cinderella Haggerty, widow of Sylvester Haggerty, in her 83rd. year.
The funeral will take place on Thursday afternoon, Feb. 10th., from the residence of her daughter, Mrs. James F. Wellman in the 1st. Concession of Sidney Township. Service in the home at 2 o'clock. Interment Belleville Cemetery. f8-1t

Policeman Captures Armed Murder Suspect

Thomas "Shorty" Bryans (ABOVE, with covered face), an alleged member of the "Red" Ryan gang that made a spectacular escape from Kingston penitentiary in 1932, is charged in Toronto with the murder of Norman Fred, service station attendant and amateur golfer. Bryans was captured when Sergt. Earl Scott rushed to the front of a police station when he heard a shot and found one man lying in a pool of water and another fleeing. When the fugitive was cornered he drew an automatic pistol and attempted to fire at the officer. His automatic jammed and Scott pounced on the gunman and knocked him unconscious, although the thug was trying to shoot him in the stomach. Bryans is pictured as he entered police court for a preliminary hearing.

EXILED "KING OF KINGS" MADE IN MARBLE

Sara Botzaris, prominent member of London's Jugoslavian colony, is pictured ABOVE with the sculptured head of Haile Selassie, exiled emperor of Ethiopia, which he recently exhibited at an art exposition at London. The former King of Kings is now living in England.

CHARLES W. BELL

(Continued From Page 1)

After showing some improvement, Mr. Bell was removed to his home where for a time he improved slightly. His condition became serious last Friday.

Colorful Figure

The gray-haired lawyer was one of the most colorful figures in Canadian courts. Famed for his eloquence, Mr. Bell on 16 successive occasions, over a period of 26 years, successfully defended persons charged with murder. He ranked with Brian McFadden, now judge in Kent County, as among Ontario's ablest defence counsel.

BRITAIN USES CRUISERS TO TRAIN LAND TROOPS

The three-R's rule hasn't a thing to do with the training of these boys, who are being prepared for the British navy, as part of Britain's rearmament program. Shortage of shore training establishments has resulted in cruisers of the reserve fleet being allocated for this purpose. The gas-masked pupils are shown during six-inch gun drill aboard the H. M. S. Calcutta, at Chatham, Eng.

NEW YORK STUDENTS TRY LIFE ON THE FARM

A group of Lincoln (New York) High School students of the party now getting a taste of practical agriculture in the truth as part of their schooling, is shown at one of the customary farm chores—sawing wood for the fireplace—on a farm at Clarksville, Ga. LEFT to RIGHT are Martha Little, of Clarksville; Katherine Robinson; Walter Kops; Margaret Randall and Martha Newman, all of New York.

One of his most notable cases in recent years was his defence of David Misener, charged with kidnapping John Labatt, London, Ont., brewery president, and sentenced to penitentiary. A confession by Michael McCardell, now serving a long term, freed Misener from implication in the crime.

Mr. Bell put up a brilliant defence for the Kentuckian. His address to the jury, lasting several hours, was considered by fellow-lawyers a highlight in his career, marked always by great courtroom eloquence. He later included a chapter on the Misener and subsequent kidnaping trial in his book "Who Said Murder?"

Brilliant in Many Fields

A brilliant mind enabled Bell to rise to the heights in whatever field he pursued but his greatest talents were reserved for the courts where he became known as one of Canada's greatest criminal lawyers.

While he followed his career at the bar, Bell's diversified abilities found expression also in writing and in the House of Commons. Parliament knew him as a brilliant speaker; the stage and literary world knew him as a successful author of several books and plays.

As a playwright he gave the stage several successful musical comedies. He was the author of several books and he reviewed famous murder cases in his last. "Who Said Murder?"

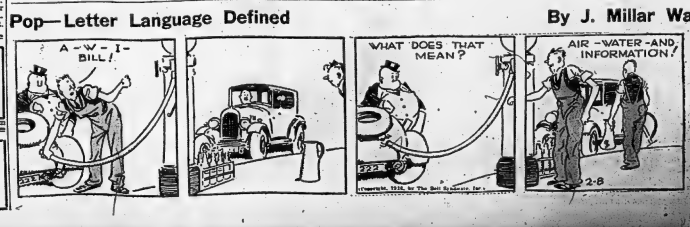
Entered Politics

Bell entered politics in the federal elections of 1925, winning Hamilton West for the Conservatives. For 10 years he continued to represent that constituency, winning two more elections with the greatest majorities accorded a candidate there.

A native of Hamilton, he was educated in public and collegiate schools here before obtaining his Bachelor of Arts degree at Trinity College, Toronto. He was graduated from Osgoode Hall, became connected with the law firm of Kingstope, Symons and Kingstone and was called to the bar in 1899.

He returned to Hamilton in 1908 after practising for a while in Toronto. He was created a King's counsel in 1924.

He is survived by his widow, one son and two daughters.



Mr. and Mrs.—

Pop—Letter Language Defined

By J. Millar Watt

Fashion Flashes

Pop was smoking and blinking in his private chair and ma said, I bought a necktie for you today, Willyum, I had it sent, so you'd have it tomorrow.

The dooce I will, I thought it was one of the merchants here at this establishment that I have the exclusive privilege of picking out my neckties, pop said, and ma said, Well so it is, Willyum, so you bet this was an exception, this was such a bargain, this was a 3 dollar tie for 25 cents.

What's the color of 25 pop said, and ma said, Well it's no one definite color.

I see, let's skip the color, let's skip the tie, if you call up the first thing in the morning maybe you can cancel the order, pop said, and ma said, Now Willyum you haven't even seen it yet.

That's the point, my Gheophy is that it is again early every mornecessary game, but only, let the tie come on, and I'll send you the Hydro statement that I've been delaying in the window of the Kleagg Electric Shop, pop said, and ma said, Now Willyum, you know you'll never accept anything from that place.

But this is an exception, it's so cheap I wont even tell you the price, pop said, I've been stopping and going at it every day for a week, but I didn't care to trust my own judgement, but now I know I've selected a necktie for me it's a different story, I'll send it in the morning cross tomorrow. It's a honey, it's got a green background overlaid with blu round red and yellow circles, with a broad white band every 6 inches, to set off the monotony, with a casual ruffle here and there adding very much saucy effect. The size says its a walking dress but I think it's good enough to me to wear any time, it really is an exception, he said, I can believe it, he said, very thought the very sound, ma said, I'll send the necktie back for land sake's sake," and pop said, Well, not for my sake.

And he gave me a private wink and got behind the sporting page.

Trenton

Golden Wedding Anniversary

Trenton Pub. 1.—Especially their home on the York Road, Mr. and Mrs. John Leslie, well known residents of this district celebrated their 50th. wedding anniversary recently.

New Fire Equipment to be Purchased

Two smoke masks and four fire-side chemical guns will be purchased by the local fire department in the near future it was announced yesterday. Be fore-side chemical guns still enable the firefighters to fight gasoline and oil fires more successfully than with water and said guns now in use.

Ice Fest Up

Trenton ice companies are filling their storehouses to capacity this year. The Aikens Company are storing 3000 tons and cutting 1000 tons to be divided evenly between the C. I. and C. P. R. Ellis Brothers' firm have their icehouse filled to the top and are taking no chances in letting their supply run as low this year as they did last.

The Weather

Saturday was cool and clear most of the day but the thermometer took a turn upward at night and moved well above freezing all yesterday, snow that blanketed this district heavily a week ago is practically gone and streets in the town are very nearly bare.

Ice Ice, Ma Honey

This mild spell has caused the ice surface in the Quinte Sireet Arena to become a little late. Hockey matches scheduled for Friday night were cancelled and if the temperature doesn't drop today there won't be any games tonight.

Personals

Thomas Cain, son of Mr. and Mrs. Thomas Cain, Sr. of Dufferin avenue, Trenton, spent the week-end with his parents and returned to St. Catharines yesterday. He is employed at L. Cathartines.

Jess Baker, Jr., son of Mr. and Mrs. Jesse Baker will undergo a tonsil operation at the Belleville General Hospital today.

Here and There

Over the week end Trenton Police reported peace and quietness. The bright sun brought out a large crowd to Saturday's produce market.

Frankford

Frankford—The Mission Circle of Frankford United Church held its first meeting for 1938 in the new Rose-Lowery Hall on Friday evening.

In the absence of the president, Mrs. Floyd Ketcheson presided over the meeting. Treasurer's report for 1937 was presented during the business period it was decided to have a contest to build up membership and attendance.

Miss Pauline Hadley read the Scripture Lesson, Reading: "A boy talking to his stomach." "The Old Wooden Top" and "Two Sides" were given by Miss E. Morrow, Mrs. Harry Montgomery read "A Girls' Prayer."

Mrs. Harold Hadley and Mrs. Percy Brown had charge of the recreation period. A pot luck lunch was served by the members at the close of the meeting.

The next meeting will be held at the home of Mrs. Floyd Ketcheson.

The basement of Stockdale United Church was crowded on Friday evening, the occasion being a shower for the recent bride and groom, Mr. and Mrs. George Bristow. Among the many costly gifts received was a set of dishes from the United Church choir of which Mr. Bristow has long been a valued member. Mrs. Ella Anderson made the presentation on behalf of the choir. Rev. J. F. Leon, pastor, was the chairman for the evening and the program included: Solos by Miss Wak; reading, W. Pitcher and musical selections by Dan McAvoy and the Lane Mayhem brothers.

After opening the gifts, Mr. and Mrs. Bristow thanked their many friends and invited all to visit them in their new home. The ladies then produced the eatables which, needless to say, were enjoyed to the full. The gathering closed with all singing "For they are Jolly Good Fellows."

Mr. Allan Rogers of Foleghore is spending a few days in town.

Mr. and Mrs. Patrick of Peterboro is the guest of his parents, Mr. and Mrs. Geo. Patrick.

On Saturday afternoon one of the chimneys on Mr. Peter McKee's house caught fire. The blaze was soon under control with the help of passers-by and little damage resulted.

Feature Programs for Today

TUESDAY, FEB. 8.
NIGHT

6.00—Johnny presents Rene Morgan's orchestra, Charles Martin, Frances Shelley, Ted Green, Genevieve Rowe, Ray Block and Irving Fazakas and guest.—WJZ, WHEN.

6.30—"Dick Tracy" with Edward G. Robinson and Claire Trevor.—WGR.

6.30—I Can Be Done; Edgar A. Guest, Frankie Masters' orchestra.—WJZ, WLW.

6.30—Al Jolson Show with Martha Raye, Parkyakarkus, Victor Young's orchestra; Edward Everett Young's orchestra; Basil Rathbone, guest.—CFRB.

6.00—Watch the Fun go By; Al Pearce's Gang.—WABC, WHAM.

6.30—Hollywood Mardi Gras with Lanny Ross, Charles Butterworth, Walter O'Keefe, Jane Rhodes, Raymond Paige's orchestra.—CBL.

6.30—Hank Oaks with Stuart Erwin, Raymond Hatten, Harry Savoy, Georgia Gaye's orchestra; Ginger Rogers, guest.—WABC.

6.30—Symphonic Strings, Alfred Wallenstein, conductor.—WGR.

6.00—Dear Teacher, Madeline Gray.—WABC.

7.15—Bobby Lobby, Dave Elman, director; Stuart Allen, Harry Salter's orchestra; Frank.—WABC, WGR.

8.00—Cavalcade of America, drama.—WABC, WGR.

8.30—Tommy Dorsey's Trombone and Orch.—WEAF, WGY.

8.30—Kay Kyser with Eddie Cantor, Deanna Durbin, Jimmy Wallington, Ginny Sims.—NBC, FH, Jerome Kenard's orchestra.—WJAC, WGR.

9.00—Town Hall Tonight with Fred Allen, Portland Hoffa, Walter Tetley, quartet, Peter Van Steeden's orchestra.—WEAF, WLW.

9.30—Chesterfield Presents with Lawrence Tibbett, Andre Kostelanetz' orchestra.—WABC, Taylor.—WABC.

9.30—Ben Bernie and All the Lads with Lew Lehr, Jane Pickens, Buddy Clark, Nicholas Brothers; Jerry Shelton.—WJZ.

10.00—Your Hollywood Parade with Dick Powell, Rudy Vallee, Lux choral ensemble, Al Goodman's orchestra.—WEAF, WLW.

WEDNESDAY
NIGHT

6.00—Dear Teacher, Madeline Gray.—WABC.

7.15—Bobby Lobby, Dave Elman, director; Stuart Allen, Harry Salter's orchestra; Frank.—WABC, WGR.

8.00—Cavalcade of America, drama.—WABC, WGR.

8.30—Tommy Dorsey's Trombone and Orch.—WEAF, WGY.

JOYS AND GLOOMS

MANY PEOPLE can safely drink tea and coffee. Many others—and all children—should never drink them.

If you are one of these, try Postum's 30-day test. Buy Postum and drink it instead of tea and coffee for one month. Then, *if you do not feel better*, return the Postum container top to General Foods, Limited, Cobourg, Ontario, and we'll refund full purchase price. Postum is delicious, economical, easy to prepare, and contains no caffeine.

TORONTO STOCKS

Toronto, Feb. 8 (CP)—Gold and industrial stocks maintained an upward slant from the opening on Toronto Exchange today and all senior base metals also leaned to the up side though the average for the group was down slightly in sympathy with moderate weakness for the metals in London.

A few of the cheaper golds, including Hollinger, Kirkland Lake and Chemical, turning over in heavy volume at moderate price gains. O'Brien, Central Patricia and Macassa were active and strong.

Lake Shuljinis recovered some of Monday's loss on the news that the receiver would attempt to put the company on an operating basis. Other papers along with the foods, utilities, implements and rubbers were steady. Western oils were dull and mainly unchanged. Trans-Canada firmed a few cents on the news that a dividend would be paid.

WALL STREET CLOSE

New York, Feb. 8 (AP)—A creeping rally today lifted stock market industrials one to more than four points at the best.

Volume was not much greater than Saturday's slow-motion session when the turnover was the smallest in six months.

Brokers said the lightness of offerings on Monday's setback encouraged some speculative quarters to turn to the buying side, although several unsatisfactory earnings continued in neutral territory while awaiting fresh Washington moves.

Transfers approximated 780,000 shares.

Livestock

Toronto, Feb. 8 (CP)—Veal calves were weak at the Dominion Live stock market today. Cattle were generally steady to slightly lower. Sheep and lambs were steady while indications were hog prices would settle near previous levels. Cattle holdovers from Monday were 900 head.

Receipts at the Toronto Dominion Livestock Branch were: Cattle 1,020; calves, 400; hogs, 1,200; sheep and lambs 600.

A few weighty steers sold at $4.75 to $5.00 and a few cows on off-truck basis $2. A few bulls went at $3 to $3.90. Good to choice Butcher cows traded at $3.60 to $3.85 and canners and cutters $2. A few bulls went at $3 to $3.90. Good to choice veal calves ranged from $10 to $10.50 with common downward to $4.50.

Previous sales on off-truck bacon hogs was $8.60.

Good western lambs traded at $8 to $8.25. Some Ontario feed-lot lambs moved at $6 to $7.75. A few common to medium sheep brought $2 to $4.

Montreal, Feb. 8—(CP)—Hog section steadied in today's opening livestock dealings and prices showed a shade higher. Calves still were in good demand although prices did not continue an upward climb started yesterday. Cattle held steady along with comparatively light sheep and lamb market.

Receipts: Cattle 130; calves 351; sheep and lambs 22; hogs 1064.

Good steers brought $5.50, medium grade $5.25 and sections $4.50 to $5. Good cows made $4 with medium from $3.25 to $3.75 and canners and cutters $2 to $2.50. Common bulls sold from $3 to $3.50.

Good veal calves went at $10; medium goods $9.50 with the bulk in mixed lots at $8.50 to $8.75. Common lights sold down to $6.

On lamb section, offerings were mainly heavy and sold at $7. Sheep went from $3 to $4.

Board Room Gossip

As supplied by Bigger and Crawford
By Financial Service

MARKET COMMENT

The only feature of yesterday's market was the weakness in Lake Sulphite, the issue breaking three points from Saturday's close. A number of rumors were heard with regard to the company, and on official statement giving the full facts surrounding the enterprise was expected. The list as a whole continued its lethargic state.

The public is not in a buying mood and sells stocks on rallies. The duration of the bear market has brought about a state of mind that is not conducive to a rising trend which situation will only be corrected after a sustained rise has taken place that will last at least four or five weeks. In the meantime a side-line position has been adopted.

Toronto Brokers Loans Down in Week

The Toronto Stock Exchange member borrowings on collateral as of January 31, 1938, were $37,431,064, a decrease of $304,188 from the previous month. At the same time, public market valuation of all stocks listed on the Exchange was $1,832,864,741, an increase of $17,-943,836, making the ratio of borrowings to market values .97 of one per cent against .00 of one per cent in the previous month.

Figures on call/loan borrowings do not include loans on foreign securities nor the borrowings of bond affiliate companies of the Toronto Stock Exchange.

Bigger and Crawford Comment

Bigger and Crawford, Toronto, in their market letter today say:

Stocks were generally lower on the week. Base metals were weak and golds were inclined to follow the trend. Western oils were dull and mainly unchanged. Trans-Canada firmed a few cents on the news that a dividend would be paid.

JAM HOLDS

(Continued From Page 1)

Stores and to the rear of the City Hotel. A barn belonging to J. Yanover, proprietor of this hotel, was completely cut off by the flood.

Residents of Coleman Street were awakened by the noise of a further ice movement last night. In a number of cases large ice cakes are grinding at the buildings of property situated near the river bank on the west side. In that part of the river south of the lower bridge, the floe is nearly level with the top of the riverbank walls. One resident of Coleman street fearing a repetition of the flood of two years ago, packed his furniture and moved to another part of the city.

Crowds Line Riverbanks

Rumors of an impending flood brought crowds of citizens to the downtown districts yesterday afternoon and evening. They thronged the bridges and other points of vantage where views of the river could be had.

Two youngsters received an unexpected, but thrilling when they stepped off the footbridge, slipping on the treacherous ice surface and plunging into the icy water that ran nearly two feet in depth to a point well up the alleyway.

A survey of the river shortly before noon today revealed the fact that open water is flowing between a point some fifty yards north of the Upper Bridge, which is known as the Canniffon Dam, with small dams located near the College Street Bridge and below the Lasier dam. Reports from Canniffon state that clear water is flowing below the dam at that place while a solid ice-field stretches for a considerable distance above between Canniffon and Corbyville.

Numerous reports from motorists that flood water had broken over the riverbank and flooded residences were without foundation, residents reported today.

Ceiling Channel

In the ice-field south of the Canadian National Railways' bridge late yesterday afternoon, city workmen, using power saws, cut channels in the ice-field for traffic. Trucks are being utilized to drag away the ice cakes.

Recording of the water that inundated cellars yesterday afternoon is proof that there is a clear outlet to the bay for the water, officials stated. At 10.30 yesterday the water has been cut through the ice on the north end of the river below the Lower Brid.e. Water is flowing freely above and below the ice at that point, relieving pressure on the ice-fields above the bridge and thawing power that resulted in the inundation of cellars yesterday afternoon.

CONDITIONS FORCE JAPAN TO EXPAND

War Minister Makes Statement in Referring to Budget

Tokyo, Feb. 8—(AP)—War Minister Hajime Sugiyama told a Japanese diet (parliament) budget session today that world conditions" necessitate expansion of Japan's armament.

He referred specifically to Soviet Russia.

"Armament must be considered from the standpoint of conditions throughout the world," the War Minister declared. "The Soviet Union has been absorbed in expanding armament year after year. It is my opinion that conditions force the Empire (Japan) to expand our armament also."

Whether Japan's air force was adequate, Sugiyama said Nippon was bolstering her air strength through the development of civil aviation. Under this program the army trains pilots for civilian pilots as a reserve for war, and a large number of planes, over 10,000 pilots, navigators and mechanics.

"How the program is fulfilled," Sugiyama said, "our strength will be adequate."

MOIRA RIVER

(Continued From Page 1)

Residents along the river's banks breathed easier this morning as a slight recession of the flood waters was noted. A drop in temperatures during the night plus the fact that open water appears in the river has been hardened by the colder weather, is considered favorable for better river conditions today.

Opportunity knocked yesterday afternoon for two of the city's juveniles heard the gentle tapping, realizing that the lower section of the bridge garage was flooded and that even gobolets were not proof against the water, two or more water, two planks were secured. By the use of these improvised oars were escorted safely across for a time by one of the lads. The generous passage to take care of the penny and nickel tips given by grateful customers.

"No one can say with a certainty there will or will not be a flood," declared Mr. Harry Smith one of the city's best posted men on local conditions. "And if a flood does come no one can say how it will or will not act. Some might be a good remedy for a flood one year might be all wrong for the flood which follows the next year. Floods are as different in nature and response as the people who talk about them."

Certain ways to end the flood menace in Belleville? Leading engineers questioned are frank in the belief that no sure and certain way is possible, except the construction of the huge dams of once well timbered lands in North Hastings hinterlands. Various suggestions have been advanced, however. One of the best, it was stated, being the building of at least two solid dams along river's lower length. These would naturally hold in check larger bodies of ice and water and permit a more even flowage. Whether this is feasible,

Rubber Magnate Dead

Harvey Firestone, famed rubber magnate, who died while asleep at his winter home in Miami, Fla., according to a brief announcement given out by his son, Russell, Firestone, chairman of the board of the Firestone Tire and Rubber Co., in Akron, Ohio, was born on a farm in Ohio in 1868. He was one of the trail blazers in the rubber industry.

GOODYEAR PROFITS SHOW DECREASE

Profit of $1,364,347 Indicated, a Decrease of $151,997 From 1936

SALES INCREASE

Toronto, February 7. — Goodyear Tire and Rubber Company of Canada, Limited, today reported for the year ended December 31, 1937, net profit of $1,364,347 after depreciation, taxes, etc., equal after preferred dividends to $4.14 a share, be-fore $1,516,344 from which sum profit of $3.98 a share in the preceding year.

After deduction of preferred dividends at $300,000 and dividends on the common, totalling $1,236,300, profit at the rate of $2.50 per share for the year, plus an extra of $1.00 per share on account of the decision of the year's profit, the deficit for the year was $221,953. Previous surplus was reduced to $1,-030,793, leaving surplus at the close of the year of $808,840.

Net working capital is shown at $9,067,900, against $9,336,729 a year ago. Cash at $1,020,577 compares with $940,934 a year ago, while call loans and Government bonds at $1,537,817 compare with $2,713,-086. Accounts receivable at $3,-736,229 compare with $4,242,826, while inventories at $4,709,119 compare with $4,809,958.

President's Report

A. G. Partridge, president, addressing stockholders at the annual meeting, announced in the past that net profits were not quite as large as in 1936. He stated that this result is due to write-down in inventories and commitments necessitated by the rapid fall in raw rubber, cotton and commodity markets during the latter part of 1937, adding that the company's inventories and forward contracts had to be written down to the market price as of December 31.

Mr. Partridge stated that a comparison of the operations for 1937 with the previous year shows that while there was a satisfactory increase in the volume of sales the year 1937 was marked by wide fluctuations in the market price of rubber and cotton. The market prices of these materials he stated, declined to the year-end and accordingly the decline has been provided for in writing down the year-end inventories and commitments of the company to the lower market price or market, whichever was lower.

The report points out that during the year 1937 the company completed two large additions to the plants in Bowmanville and Toronto, the usual annual expenditures for additional new machinery and for various plants made a considerable increase in the fixed assets investment at the company's St., Hyacinthe cotton mill.

The report further states:

"Just now when taxation and tariffs are so much under consideration, it is timely to draw attention to the value of the automobile industries to this country. These industries as well as all other secondary industries in Canada have been developed under a very definite protective policy over the past fifty years. These secondary industries are the integral part of our economic structure and responsible for a large share of employment, investment, capital, equipment, production and taxation. The greatest benefit must be observed by our Government representatives in preserving these established assets to retain them in Canada and to encourage their extension so that they may be made even more valuable to the people of this country.

"At present when there is so much uncertainty in world-wide conditions which may affect generally business it is difficult if not impossible to make a dependable forecast of the activities or results for the year 1938. However, the companies have sufficient strength in all phases to satisfactorily cope with problems and conditions as they arise."

HOG QUOTATIONS

Toronto, Feb. 8—(CP)—Minor recessions at Buffalo and Brantford were the only changes at reporting boons hog markets today.

Liverweights: Brantford $8.35; Hull $8.75; London $8.10; Peterborough $8.60; Stratford $8.10; Chatham $8.35.

Dressedweights: Barrie $11.40; Hull $11.75; London $11.20; Peterborough $11.85; Stratford $11.30; Chatham $11.75; Kitchener $11.80.

At the Movies

What Local Theatre Managers Say About Coming Attractions

AT THE BELLE

"Rosalie"

Record crowds make it necessary that Metro - Goldwyn - Mayer's magnificent new love story "Rosalie", be held over!

Nelson Eddy and Eleanor Powell are co-starred for the first time in the super-lavish musical, "Rosalie," to be presented at the Belle Tonight and Wednesday, matinee and night.

The musical also includes such favorites as Frank Morgan, Ilona May Ouspenskaya, the new European sensation Ilona Massey, Philip Dorn and Reginald Gardiner. In a story that concerns the love and adventures of a West Point cadet and a princess of a mythical Romanian.

In order to bring new beauties to the screen, William Anthony McGuire, producer of the original story and writer of the screen play sent talent scouts over the principal colleges of the United States before he cast the 500 beauties in their respective starring and showgirl roles.

Directed by Woodbridge Van Dyke II, the new musical includes nine hit songs by Cole Porter, while Madame Alberina Rasch presents ballet, tap, acrobatic and skating routines.

Outstanding among the numbers is "Rosalie," which stands out as more than ditty sung and was filmed entirely at night with the aid of twenty-four cameras. This set was so large that lights had to be hung from the roof of the studio in Hollywood for its operation. Twenty - five hundred people were included in that number alone.

The Belle News of the Day, will be exhibited on the same program.

Performances start Tonight and Wednesday at 2.30, 7.00 and 9.15. "Rosalie" begins at 2.50, 7.10 and 9.25.

Make a date with "Rosalie," for Tonight or Wednesday.

AT THE CAPITOL

"SPY OF NAPOLEON"

"Spy of Napoleon," which comes to the Capitol tomorrow (Wednesday) as smash hit no 2 on a gradual double feature program, is a rapidly moving story of intrigue and counter-intrigue in early Maurice Gwyn's best selling novel (who wrote the "Scarlet Pimpernel") and has such well-known players in the cast as Dolly Haas (the girl who made such a hit in "Broken Blossoms"), Richard Bartheleness and Lyn Harding.

The story set in France during the reign of Louis Napoleon III, concerns a group of conspirators plotting against the crown and the various moves of the Government to counteract their activities. Dolly Haas and Richard Bartheleness, who play the parts of the lovers, have a most thrilling adventures, and the denouement of the story is togally unexpected.

"Spy of Napoleon" is the first of Highlighted by sparkling performance from Guy Kibbee and Cora Witherspoon, the new picture "The Big Shot" is a fast moving laugh opener packed with thrills, and is shown on the same program as smash hit no 2

"Big Shot" tells the vicissitudes of a small town veterinary and his family after they have inherited a fortune from an unknown uncle, the picture packs a punch from the tender and witty up to a thrilling climax following a kidnapping. There are crooks and a mob of big city gangsters.

When Kibbee, as the small town "vet" inherits the money his wife, Cora Witherspoon, immediately plans to move to a big city and launch into Society. Dapper Dan Moore, on an ambitious social career.

Bob Kibbee and his daughter, who is in love with a reporter on the home town newspaper, Gordon Jones, oppose the move to the city, but the dominating mother has her way. When it is later learned that the uncle had been chief of police in the city, become seriously complicated.

Kibbee and Miss Witherspoon seize the opportunity in this picture to confirm their title as two of the best comedians on the screen. Miss Moore and Gordon Jones make an appealing romantic team and both turn in convincing performances.

Last complete performance on Wednesday and Thursday at 8.40.

Heather Angel and Fried Inescort in "Portia on Trial" at the Capitol today (Tuesday.)

NIEMOELLER

(Continued From Page 1)

as the anti-Christians refer to the Savior, has no place in this new religion, declared the bull - necked Hitler. The neo-paganism is essentially racial, designed to work for the glory of German blood.

Army Supports Christianity

Probably the most significant aspect of the situation from Hitler's standpoint lies in the fact that the army, the Reichwehr, as a whole stands with Germany's traditional Christianity. This important issue came to the fore in the political upheaval and purge of last week.

It would seem that the time is close when Hitler will have to decide whether he is to apply the mailed fist to the churches to transform them into pagan temples of the Nazi religion or to abandon his efforts to create a new religion.

SITUATION ALONG MOIRA RIVER IS UNCHANGED

Ice Jam Remains Solid With Slight Shifting Near the Upper Bridge

'Feeler' Dynamite Blasts Put in Without Noticeable Result

MORE BLASTS UNLIKELY

Water Rises And Falls on East Bank With Shifts of Ice Field

Ice-choked lower stretches of the Moira River repelled another attack from floating ice fields that broke away from the river bank near Lader's dam late yesterday afternoon, causing a steady rising of back-river water into the cellars and basements of Front Street stores and garages.

The flow, while not of large dimensions was of sufficient size and weight to cause considerable movement in the ice field in the vicinity of the Upper Bridge. Loose ice spread before the momentum of the flow, that travelled at considerable speed in the clear water north of the bridge before striking the main jam.

Back-flow waters that receded yesterday morning again crept over the eddies and basements reaching a point within six inches of the peak of the jam by noon.

Little Change Is Situation

This morning a survey over the river bank revealed little change in the general situation of last night. Jam in the lower stretches still held slow jagged edges near the top of the walls of the banks below the lower bridge, although three appears to be a slight rise in the free water flowing in the natural channel in the west side of the river below the Lower Bridge.

Between the city bridges, the jam remains linked with a noticeable spreading movement of ice-cakes towards the banks of the river.

Water to a depth of nearly three feet greeted basement employees of the Canadian Department Stores this morning with a steady trickle from back flow water in the alleyway leading to the footbridge being apparent. High water mark was within six inches of the peak of Monday afternoon, an official stated.

Walker Hardware Store and the Boyce Garage basement are still under water with heating apparatus out of action as a consequence.

Barn is Surrounded

A barn on the property in the rear of the City Hotel is completely surrounded by flood waters. Back flow eddies are still running back into the river bank near the foot bridge pouring the dark slimy way to a depth of nearly two feet and preventing motor traffic. At ten o'clock this morning water was rising slowly.

Several merchants in particular and citizens in general viewed with interest the movements of cakes from which a steady drinks of rain was falling. Lowering temperatures after a stage of thawing precipitate more flood Water into the river-bed, it was thought, with possible disastrous results to down town sections should a break up occur in the upper stretches of the river.

Report from Corbyville this morning stated that the solid ice-jam in the river at that point in place is holding although a small field of ice is apparent some distance below the dam.

Field Solid Above Dam

Channing Ice fields above the dam are still solid with no apparent danger of breaking up yet, residents reported. Clear running water is evident between the end of the river-jam at Corbyville north of Upper Bridge and Canniffon, with the exception of ice cake fields, that still cling to the river bank in spots.

"In my opinion this talk about the mouth of the river being choked is a lot of bunk," a prominent Front Street merchant stated this morning. "There is now two feet of water in my cellar and if that river mouth is choked then where is the water from the river going? It only was the case we would have been driven out long ago."

Dynamite Is Used.

Ineffective attempts to dislodge the icefield south of the lower bridge with the use of dynamite were made shortly before noon today, by city employees.

While a number of interested spectators watched from the river banks and bridges a charge was fired, first in the solid ice on the east side of the river.

Other than showers of fragmentary ice, no noticeable results of the blasts were apparent at this time.

Spectacular blasts set off in the Moira this morning were more in the nature of "feelers" than anything, it was reported by the department of public works, Dynamite used by the workmen who threaded their way through the ice-cakes and icy jam pieces merely tested the depth and solidity of the jammed ice in the river channel.

No more blasting is anticipated it was reported at noon by City Engineer Chas. Mott.

Steadily cutting, men have opened channels about 400 feet by 60 feet at the mouth of the Moira which have done much to relieve the congested currents.

CHANGE IN POLICY FULLY JUSTIFIED SAYS DR. HOGG

Approves Amended Agreements With Four Quebec Companies

ONLY 2 ALTERNATIVES

Says He Had No Dealings With Companies Prior to His Appointment

Toronto, Feb. 9.—(CP)—The "very abrupt" change in policy of the Ontario Hydro-Electric Power Commission in signing amended power purchase contracts with four Quebec companies last Dec. 10 was fully justified, in the opinion of Dr. Toonas H. Hogg, Chairman of the Commission.

In an address read to the annual meeting of the Ontario Municipal Electric Association, Dr. Hogg said he approved the amended agreements "in view of Ontario's urgent requirements upon Quebec companies as the only sured source of hydro-electric power." Dr. Hogg, in his home, was unable to attend the meeting.

Serious obstacles prevented early development of Ontario's potential water power, the commission explained in planning to meet increasing power demands of the next five years, had two alternatives. It could embark upon a program of extensive steam power development or negotiation additional supplies of Quebec power "by adjusting the contracts with the Quebec power companies."

$18,000 H. P. Available

Contracts with four Quebec power companies, drawn up prior to 1936, were voided by the Ontario Legislature in 1936. Amended agreements which would provide ample purchase price of the power and eliminated certain controversial provisions, were signed last Dec. 10. When the new contracts reach their maximum, in two to seven years, a total of 610,000 horsepower of electrical energy will be delivered to the commission.

Extended litigation was ended with the signing of the new contracts, Dr. Hogg said. "Nothing short of the most unreasonable and reprobatory on the part of the Quebec companies would justify in the eyes of the public any such discontinuance of a struggle which could be maintained only by having recourse to further legislative measures."

States Position.

When he assumed the chairmanship of the commission, Dr. Hogg asserted negotiations leading to the signing of the 1935 agreements "to me my most important task". Dr. Hogg was chief engineer of the commission when the chairmanship of T. Blewart Lyon and he said in his address that he had no dealings with the Quebec power companies, either directly or indirectly, were undertaken by him prior to his appointment as chairman."

Dr. Hogg said that the former commission held entirely different opinions and reached conclusions which in hindsight is something for which its members alone must accept full responsibility. But the commission's fact remains that other interests besides the commission were at stake and your commission believes that this settlement will make for good will and cordial relations between Ontario and Quebec and industry in both of the two provinces.

Visit of King and Queen to France Hailed by Press

To Hold Radio Channels Allotted by Agreement Canada Must Use Them

Hon. C. D. Howe, Transport Minister Makes Statement in House Discussing Increase in Radio Licence Fee Announces Two New High Powered Stations to be Built in Canada—Says Program Better on Average on Corporation Stations Than Heard on Private Ones

Ottawa, Feb. 9.—(CP)—If Canada wishes to hold the radio channels allotted to it by international agreement it must use them, Transport Minister Howe told the House of Commons last night. This, he said, was one of the reasons the Canadian Broadcasting Corporation proposed to build two new high-powered stations and to increase the radio licence fee from $2 to $2.50.

As the Minister outlined the Corporation's plans and defended the 50-cent increase, Hon. J. Earl Lawson (Conn. West York), renewed Conservative protests against radio policies which have been sprinkled during the past week through the debate on the Speech from the Throne.

The Corporation, said Mr. Lawson, was prostituting the original intention of public ownership of radio and was charging the people more money for doing so. It was granting special terms to American advertisers, more favorable than those given Canadian advertisers. It was loading the air with American programs and injuring Canadian industry.

Schedule For Week Given

On the question of American programs Mr. Howe gave a break-down of the Corporation's 98-hour broadcasting week, stating 37 1-2 hours were devoted to Canadian programs free from advertising, 3 1-4 hours to Canadian commercial programs carrying advertising, 17 1-2 hours to American programs free from advertising, 19 hours to British programs, one-half hour to a Canadian program and 2 1-4 hours to American programs carrying advertising.

Criticism of the corporation, said the Minister, was due to the fact it was a public body and therefore When private stations found the listeners were tuning in on Corporation stations they began to fight.

If one left the radio throughout the day tuned in on corporation stations one would get better programs on the average than could be heard on private stations.

EIGHT KILLED IN AIR LINER CRASH NEAR MARSEILLE

Starting Schedule Flight Crashes Into Break Water

BURST INTO FLAMES

Pilot Probably Failed to See Wall on Account of Fog

Marseille, France, Feb. 9 (AP)—Eight persons were killed and four injured today in the crash of an Air France flying boat against the Marseille breakwater at the moment of take-off.

The giant trans-Mediterranean airliner was starting its scheduled flight to Ajaccio, Corsica, on the Marseille-Tunis route. It crashed against the breakwater at 60 miles an hour and burst into flames.

Air France announced the dead were five passengers and three of the crew. Two passengers and two of the crew were injured. All the dead were French, including Chief Pilot Pierre Burello, veteran flier who was a war hero.

Officials thought Burello probably failed to see the breakwater through morning fog and mist.

The crash was at 7:30 a.m. (2:30 p.m. EST).

The four-motored ship was the first lost by Air France in more than two years, company officials said. Four passengers died in the last crash accident at Corsica in January, 1936.

Visit Striking Symbol Of Strength of Accord Declare French Papers

'Happy News' Says Independent Petit Parisien

ROYAL WELCOME

British Newspapers Say Occasion to be Memorable One

London, Feb. 9—(CP-Cable)—British papers commenting on the announcement that the King and Queen will make a four-day state visit to France in June, today recalled the memorable visit of George V11 in 1914 which will be duplicated in the entente cordiale.

The Times said that the visit will be in accordance with the tradition that the King makes trips abroad early in his reign and that similar visits elsewhere will likely follow in due course.

The Times saw the visit as a potent means of promoting Anglo-French friendship, recalling the late ward V11's journey to Paris, described then as "a visit of peace."

The four-motored ship was the first lost by Air France in more than two years, company officials said. Four passengers died in the last crash accident at Corsica in January, 1936.

Visit of 1903 Recalled

The Daily Telegraph similarly recalled the significance of Edward VII's visit, which turned popular French opinion from its anti-British feelings, prompted by the fashionable affair and the Entente Cordiale and the Entente cordiale.

The Telegraph added that King George would open the French sol as head of state of the Dominions which from overseas came to stand by France in 1914.

Will King And Duke Meet?

Lord Beaverbrook's Daily Express mentioned the possibility of a meeting between the King and the Duke of Windsor. "Will they (Their Majesties) meet the Duke and Duchess of Windsor?" The Express added. "There can be no reason why they should not. There are good reasons why they should meet. The King and his brother, who was King, have no quarrel. The episode of December, 1936, is closed forever. They are brothers."

The Duke and Duchess moved Monday from a chateau near Paris to sailles, just a few miles from Paris.

King Is Popular

The official announcement, issued from Buckingham Palace last night, said: "The King and Queen have accepted with pleasure an invitation from the President of the French Republic to pay a state visit to Paris from June 28 to July 1. During the stay, the King will unveil the Australian national memorial in Villers-Bretonneux.

Villers-Bretonneux is near Amiens on the Somme. The unveiling of the Australian memorial, His Majesty will be following in the example of King Edward VII who in 1905 went to Vimy Ridge to unveil the Canadian memorial to the memory of thousands of Canadian ex service-men.

"Other and grimmer days will be recalled when the King unveils the Australian war memorial," the Daily Mail said. "By this and by other great memorials erected in France to those of British blood who fell in war is their comradeship remembered."

Three Radios in Howe House To Suit Tastes of Family

Transport Minister Likes Soft Music, His Wife Opera, Sons Sport

DAUGHTERS' LIKES

Ottawa, Feb. 8 (CP)—Transport Minister Howe and his own family to illustrate differences in radio tastes, when he spoke in the House of Commons on the operations of the Canadian Broadcasting Corporation.

"One man's radio meat is definitely another man's radio poison," he said and he went on to cite the likes of the Howe family as follows:

He liked music "provided it is played softly so as not to interrupt whatever else I may be doing":

Mrs. Howe preferred opera and symphonic concerts;

The two boys went in for sport broadcasts;

Two younger girls liked vaudeville.

"I work out our family program," the minister said, "it is necessary to have three radios in our house. Otherwise there would be a conflict in interest. However I will pay the three licence fees cheerfully and I feel anyone else who wishes to avoid conflict at home might do likewise."

Why the Weather?

By Major A. H. Tribeson
Science Service Meteorologist

Old moon in the new moon's arms! It is now new moon and a good time to see this phenomenon. The new moon, the thin narrow crescent, receives its light, of course, from the sun, which is then reflected to us. But the old moon is visible only by the light which is reflected to it from the earth. This phenomenon makes very clear air, but seemingly no forecast can be made. Old Some artists have made the rather amusing mistake in their paintings of putting a star or two inside the new moon's crescent, just where the very opaque old moon is.

THE WEATHER

Toronto, Feb. 9 (CP)—A widespread area of high pressure and cold weather covers the Northwest Territories and Western Provinces. Pressure is low on the Atlantic coast with a trough of low extending from the St. Lawrence Valley across the Great Lakes to the southwestern states. Light snow has fallen in the southern Maritimes and western provinces while rain is falling this morning in Western Ontario. Fair, moderate cold weather has prevailed from the Ottawa Valley eastward.

Lake Superior — Northwest to north winds; cloudy and cold tonight or tonight and Thursday with snow flurries.

Manitoba—Mostly fair and cold tonight and Thursday.

Saskatchewan — Mostly fair and cold tonight and Thursday; probably scattered snowflurries.

Alberta—East to southeast winds; partly cloudy and cold tonight and Thursday; probably scattered snowflurries.

Northern Ireland Goes Voting Electors Crowd into Polls

Results Expected About O'clock Tomorrow Afternoon

BATTLE OF "ADS"

By GEORGE HAMBLETON
Canadian Press Staff Writer

Belfast, Feb. 8—(CP-Cable)—Northern Ireland went to the polls in quiet spirit today, with the minutes of opening many polling stations the crowd which gathered waiting to vote on their way to work. Owing to the rush many had to leave disappointed.

Nine divisions will count votes at 9 a.m. tomorrow, Six will start at 11 a.m., the remainder in the afternoon. The result, therefore, should be known about 7 p.m. (2 p.m. EST) tomorrow. Queen's University, returning officer, counting votes under proportional representation, however, and the result will not be known for several days.

Battle of Advertisements

A battle of advertisements between Premier Viscount Craigavon's Unionist (Conservative) party and the Progressive Unionists led by William J. Stewart, over armament orders rang down the curtain in the active election campaign. The latter feel Lord Craigavon is not doing enough to provide munitions a sufficient proportion of Great Britain's armament orders to Ulster.

"While the Northern Ireland election campaign progressed," editorially warns the Northern Whig along another line today, "and while the agents of disintegration have been energetically seeking to shatter Loyalist solidarity, the southern ministers (the government of Eire) have been making plans for a further campaign of constitutional and territorial integrity.

(Continued on Page Three)

STORM CUTS OFF LINK WITH POLE

Soviet North Pole Campers in Jeopardy on Shrinking Ice Cake

Moscow, Feb. 9 (AP)—A magnetic storm today interrupted communication between the outside world and the four Soviet "North Pole" campers whose perilous perch on a dwindling ice cake is in danger of being crushed by pack ice off the east coast of Greenland.

Three Russian icebreakers, struggling through heavy seas and the Arctic darkness to reach the scientists, with the nearest still many days away, said the magnetic storm which began yesterday had thwarted efforts to maintain wireless communication with the party. They said it probably would continue several days.

The fourth icebreaker assigned to the far-flung rescue effort, The Yermak, left today from Murmansk Kronstadt on the Gulf of Finland.

Life Not Affected

Ships nearest the camp said the recent Arctic gale had abated, and had impeded their progress toward the floe on which the scientists have drifted almost 1,100 miles from the North Pole in eight months of study.

Fliers aboard the ships were preparing to put eight airplanes into the air. Some of the planes are fitted with pontoons to alight on water. Others have skis for rough ice landings but jagged surfaces surrounding the camp site are unlikely.

The main hope of saving the scientists lies in the icebreakers themselves. The closest are 60 miles away, approaching the floe from south of Jan Mayen Island, and the Talmyr, which has reported making nine knots through ice from the east.

MAY HEAD R.C.M.P.

Assistant Commissioner S. T. Wood (ABOVE), who at present is acting chief of the Royal Canadian Mounted Police, is rumored likely to succeed Chief Commissioner Sir James MacBrien, if the commissioner retires. Sir James has been ill for many weeks.

CONSTABLE SHOT IN ABDOMEN

Don Sherrill, Hamilton, Tussles With Man - Before Shooting

Hamilton, Ont., Feb. 9.—(CP)—Provincial Constable Don Sherrill, 30, was shot by the unidentified man who previously wounded Provincial Constable Sherrill while the officer investigated robberies at the Maynard Beach summer resort last night. Constable Sherrill was shot in the abdomen.

Constable Sherrill, High County Constable of Wentworth County, was shot 10 years to his stomach side when his assailant broke free and managed to drive his car down Creek where he appealed for aid at the home of Harry Greenwood, fire constable.

Greenwood rushed the wounded man to hospital where a doctor in charge said an operation was performed successfully for removal of the slug.

Provincial Police directed by Sergt. William Oliver and six city constables were soon on the trail of the shooting. The constable's hat was found, where the tussle took place but the search for the gunner was fruitless.

Sergt. Oliver said he learned Constable Sherrill saw the man who shot him partly concealed in the bush. He was questioning the car-tage-lined lake front. When he spoke to the man the scuffle took place and he was shot, Sergt. Oliver said.

MARMORA MAN IS COMMITTED

Archie Crossen to Stand Trial on Charge of Manslaughter

Pembroke, Ont., Feb. 9—(CP)—Martin Archie Crossen, 33, Barry's Bay, and Archie Crossen, 33, Marmora, Ont., were committed for trial on a stand trial April 11 when they appeared before Magistrate W. E. MacGregor at Barry's Bay on charges of manslaughter arising out of an automobile accident Sept. 14, 1937, in which Michael Billings was killed.

The 42-year-old Billings, passenger in a car driven by Murray, was crushed against the rear wheel the machine was in collision with another car in charge of Crossen.

FAMILIES MAROONED

Chatham, Ont., Feb. 9—(CP)—Families were marooned, thousands of acres of land inundated and livestock injured as the turbulent Thames River spilled flood waters over Raleigh-Dover and Tilbury East townships today.

CLAIMS A RECORD

It took Henry Campbell (above), 30 years to raise this magnificent moustache folks, and now Henry is so ready to claim the record championship of Forsythe county, North Carolina, that he has even a witness. "Shucks" he said modestly, "these ain't nothing. At one time mine grew so long I had to drape the ends over my ears."

PRESS TIME ADVANCED

Because of the threat of flooding and submersion of the electric motors powering the presses of The Daily Ontario-Intelligencer in the lower levels of the building, today's issue of the paper went to press at 1.30 p.m. During the threatened period from now on until subsidence of the river is assured, this will be the schedule time of daily printing. Naturally the earlier press how will entail the printing of early afternoon news.

WANTED IN DESERONTO

Kingston, Ont., Feb. 9 (CP) — William Halliday of Cobalt's Falls, was given suspended sentence of one year when he appeared yesterday before Magistrate Ambrose Shea on a charge of passing a worthless cheque for $300.

Immediately after his release, however, Halliday was again taken into custody for Deseronto police where he is wanted on a similar charge.

AMBASSADOR RECEIVED

London, Feb. 9 (CP-Havas)—The king today received Sir Hughe Knatchbull-Hugessen, former ambassador to China, who has returned to London to convalesce from the wounds he suffered in a Japanese airplane attack in August.

RESERVE MARCH 17 FOR Annual St. Patrick's supper, auspices St. Andrew's Church Guild. 19-1b

City and District News

CLOSING OF BRIDGE OPENING AT PARK IS CAUSE OF CRITICISM

Voloble protests have been registered by a number of harbor front residents over the decision of the open channels formerly to the road bridge into Victoria Park. The last open channel which was spanned by a small summer bridge at the entrance to the park is being filled in this week by Frontenac and earth following the removal of the rickety bridge. This closing, in the opinion of some will mean that in a complete absence of current in the upper harbor and will result in a body of "dead water", it is claimed.

"At the time that road was put in there was given a guarantee that two 40-foot channels would be maintained in the road. As that went on these have been gradually closed until now they're shut off completely" stated one resident.

GIVES ADDRESS TO RAILTON FARMERS

Accompanying Dr. R. E. Newman of the staff of the Dominion Experimental Farms, Ottawa, Mr. Wm. Mitchell, Dominion district seed inspector at the local office, travelled to Railton, north of Kingston yesterday, where he gave an address on "feeds and seeds, and the yardstick of purchasing" to a large number of farmers of the district. Dr. Newman's address dealt with the advantages of planting new type rust-resistant seed oats, proven by practical planting to become the accepted standard here.

COW'S KICK FRACTURES LEG OF W. SIMPSON

Wilfred Simpson, rural mail carrier of Trenton district, will carry no more mail for a time. Engaged in chores about his home yesterday, Mr. Simpson received a broken leg when a cow kicked him, driving him against one of the stalls.

SKATER FRACTURES NOSE IN COLLISION

Maurice Boffy Moon, son of Mr. and Mrs. B. J. Moon, Deseronto, while skating on the bay on Saturday accidentally collided with a second skater falling heavily on the ice and suffering a fractured nose. He is at present a patient in the Belleville General Hospital where he was said yesterday that he was doing well.

PULP MILLS FORCED TO SUSPEND OPERATIONS

So rolled has become the water in the Trenton district that the pulp mills situated below the town were forced to suspend operations today. Such quantities of silt and debris were drawn into the intake pipes of the factory that the machinery was reported endangered. Heavy rains over the week-end which flooded the river washed considerable amounts of surface soil into the river.

CITY HALL BASEMENT SLIGHTLY FLOODED

A rise of one and one-half inches in the water level of the flooded city hall basement was registered by caretaker Arthur Hawson this morning. The water which has reached into the cellar by heavy flooding of the drainage sewer has a distance of about 18 inches to go yet before fires in the boiler are affected, it was reported.

MANY CASES OF PNEUMONIA REPORTED

"The present period is one of the busiest I have ever experienced," stated one of the city's leading medical men this morning. "I've been so busy that I haven't had time to eat, promptly" it was added.

Considerable sickness in the country as well as within the city is reported by him. Many of his patients are being treated for pulmonary disease, it is believed engendered by the present mildness of the weather. Numbers of cases of pneumonia are reported.

TABERNACLE G.C.I.T. CONDUCT SERVICE

At Tabernacle United Church on Sunday morning, a service was in charge of the Canadian Girls in Training, this week marking the 25th anniversary of C.G.I.T. work. In their crisp uniforms of navy blue and white underlaid the girls took part in the service, in the choir made up of members of the choir, the body of the church. The earnest way in which they conducted the service made it most impressive.

Miss Ruth McLelland was in charge of the worship service and Miss Marion Janes gave an interesting account of C.G.I.T. work.

Rev. D. T. McClinock, pastor of the church, gave an inspiring sermon based on the C.G.I.T. theme, "We, small as a group, large as the world," his challenging message making a deep impression on his hearers.

HIGH WATER LEVELS BAD FOR MUSKRATS

High water levels in swamps of the district at the present time are doing what the muskrat families no good, was the report of one local trapper this morning. It was pointed out that the water has risen a considerable distance, flooding their homes and flooding even the upper levels. Through this the little animals may be driven out to perish, or else become imprisoned in their homes in the event of any sudden freeze.

CONCRETE BUILDING BEING DEMOLISHED

Demolishing of a concrete building on the lot at the rear of the stores on the west side of Front Street, and formerly owned by Frank Domenico was started by gangs of city workmen last week.

Removal of the building and other buildings on the property is part of an increase parking space in that area. It was stated.

A small garage will be erected by the city from lumber and other building materials obtained from the material, Alderman Jesse Barrett.

SPAN OF OLD C.N.R. BRIDGE REMOVED

First west span of the railway bridge of the abandoned Canadian National Railways line at the south end of the city, spanning the mouth of the Moira was being lifted this morning by a travelling crane. The bridge which is the first of seven numbered sections will be transported to Vat. 67, Quebec, where it will replace an outmoded structure, it is reported.

PARASITE BUREAU USES SAME METHOD

One of the most interesting features read daily by residents in the daily Ontario Intelligencer is the fact-cartoon "Scott's Scrap Book". Yesterday this feature contained a descriptive account of the manner in which the sun's daily hours of sunshine were charted by means of a crystal ball and dated paper strips containing records of the hours of the day.

In the meteorological office of the Dominion Entomological Bureau, East Dundas Street this method is employed for the daily and weekly hours of sunshine has been in use for the past several years, the sun's rays focussed through a small glass ball mounted on an iron standard and recorded on paper strips which are replaced daily.

EDUCATION TALK GIVEN MEMBERS

Lieutenant Governor P. C. MacLaurin Speaks on Kiwanis Education

Despite the fact, the regular speaker, who was to address the Kiwanis Club at their weekly luncheon on Tuesday at the Quenta Hotel was unable to be present on account of sickness, the members listened with a great deal of interest to a talk on Kiwanis Education by Lieutenant Governor P. C. MacLaurin, a member of the local club. Mr. MacLaurin accepted the invitation on short notice, but G. J. Mertity in moving the vote of thanks, congratulated the speaker on his very fine exposition on this important subject. The club also discussed a most important matter with respect to the Picton Kiwanis Club, which has ceased to function and an announcement will be made in this regard in the near future. Belleville Club sponsored the Picton Club and feel that every effort should be made to revive the Kiwanis spirit in the Prince Edward County town.

Past President Eddie Logan reported a signal honor, when he was appointed chairman of the Provincial Committee of the district meeting to be held in Kingston next year. Frank Donnelon advocated fellowship at the Kiwanis dance to be held on Monday night next. He hoped the members would see that everyone present had a good time. Plans are completed for the dance and a most enjoyable evening is expected, William Mertzlinger, Manager of Victory Theatre accepted a new member being introduced by Frank Donnelon and initiated by Cliff Barager.

Harold Jackson in introducing the speaker explained why Ed. Stinson of Trenton, who was scheduled to speak was unable to appear and thanked Mr. MacLaurin for accepting on the short notice and making the notice. The Lieutenant Governor of the Province, Colonel Stinson quoted the Lieutenant Governor of the Province, Albert A. Maitland and the Governor General Lord Tweedsmuir as saying that education is the basis of the foundation of everything to come and that it must be available to all at whatever cost. "In Kiwanis education" said the speaker no one gets information for which he does not have to pay taxes." He explained the grip that International had on the situation, showing it to be a live organization. The members were informed that Belleville Club was one of the strongest in the district.

Obituary

MRS. ANNIE A. SILLS

Mrs. Annie A. Sills, late residence 34 West Bridge Street, and widow of German L. Sills, passed away at Belleville General Hospital, Tuesday evening, February 8th, after a brief illness. Many friends hear her passing has brought deep feelings of regret.

The late Mrs. Sills was born in this city and had resided here all her life. Prior to her marriage she was Miss Annie Augusta Martin, her parents being the late Mr. and Mrs. John Martin. For many years her father was a valued member of the Belleville Board of Education.

For a considerable period of time she was engaged in the book and stationery business, being associated with her sister, at that time Miss Carrie Martin, who succeeded to the business established by the late John W. London. Upon retirement of Miss Carrie Martin the business was acquired by Mrs. Sills and her late husband, Mr. German L. Sills. The business for some time has been in charge of Mr. and Mrs. Sills.

The late Mrs. Sills by her pleasing and friendly manner attracted many friends and she enjoyed the high regard of all who knew her. In religion she was a member of Bridge Street United Church.

Surviving to mourn her passing are one son, Mr. Cecil A. Sills, of Belleville; one daughter, Mrs. Jas. Malone, Toronto; six sisters, Mrs. E. K. Forster, Belleville; Mrs. W. H. Whyte, Chicago; Mrs. W. G. Sills, Newton, Mass.; Miss Nellie Martin, Belleville; Mrs. G. T. Whitney, St. Louis, Mo., and Mrs. C. H. Radford, Belleville; two brothers, Mr. John C. Martin, Belleville, and Mr. Fred W. Martin, Winnipeg, Man.

The funeral announcement is made elsewhere in this paper.

JOHN CARR BARTON Madoc

Madoc (Special)—John Carr Barton passed away early this Wednesday morning at his late residence in Prince Edward County. Born in Prince Edward County, the late Mr. Barton who was aged 70 years and 8 months came to Madoc forty years ago and since then has been a highly respected resident of the community. Until the last four or five years Mr. Barton conducted a meat delivery service. He was a faithful member of the Presbyterian church at Madoc.

Left to mourn his passing are one daughter (Margaret) Mrs. W. Newman, New Carlisle, Mich., and one son, William, in Chicago, also two grandchildren, Albert Barton, Parkersbridge, and Alfred Barton at home. His wife formerly, Miss Mahalla Dueria died eight years ago.

THOMAS W. E. PRICE (Ameliasburg)

Thomas W. E. Price passed away at the family residence in the 4th concession of Ameliasburg Township, Prince Edward County on Tuesday, February 8th. He had been in failing health for some time. Friends will regret to learn of his death.

The late Mr. Price, who was in his 86th year was a native of England. At an early age he came to Canada and for the past 48 years he had been residing in Prince Edward County where he was engaged in farming. In the community where he resided for so many years he was well esteemed. In religion he was a member of the Church of England at Ameliasburg.

Surviving him are his widow, who prior to her marriage, was Miss Mary Sager; one daughter, Mrs. William Ostrom, St. David's, Ont.

The funeral announcement is made elsewhere in this paper.

ALD. JENNINGS FAVORS PLAN

Alderman Bert Jennings, who is much interested in Regional planning and flood control stated that the emergency flood control committee was urgent. Alderman Carr suggested a plan and Ald. Jennings agrees with suggestion, stating:

"Alderman Raymond Carr has just suggested a plan to me that he advocates. This plan which we discussed, is, that at the beginning of each year, there shall be formed by the Council an emergency flood committee, which shall have with full powers. This committee not only to be made up of certain members of the Council, but also a number of prominent citizens. Such a committee would be able to utilize the police and fire departments together with their First Aid equipment. It also every organization that could be of help. The necessity of such committee was obvious from the experience due to the flood of 1936."

BIRD SANCTUARY IS PROTESTED

Wellington Council Asks Nets be Lifted From West Lake

Backed by the support of Anglers' Associations of the district, and petitions signed by residents of the community, the Wellington Village Council at a special meeting drafted a resolution protesting against the formation of a bird sanctuary in West Lake, and demanding that "all nets be taken from the waters of the lake and commercial fishing strictly prohibited".

The resolution which will be forwarded to the Department of Game and Fisheries immediately was the result of indignation protests on the part of villagers following rumors that the lake was to be set apart as a fish preserve and bird sanctuary.

This would result in a decided decrease in the tourist trade, it was felt by prominent business men of the village. Removal of nets and stoppage of commercial fishing would result in restocking of the lake with bass, lunge and pickerel; ice, something that has not occurred for some years, it was added.

VISIT

(Continued From Page 1)

Evidence of Solidarity

The News Chronicle said their Majesties "are assured in advance of the most enthusiastic reception" adding: "The announcement of their visit comes at a time when the ordinary Frenchman is badly in need of some reassurance. His country does not stand alone in the increasingly-complicated European scene."

The Daily Herald said the visit "symbolizes the close and intimate friendship that now exists between France and our own country."

Princesses Elizabeth and Margaret will not accompany their father and mother, it was learned authoritatively.

Their Majesties will travel by train to Dover and proceed by regular channel steamer to Calais under escort of a British destroyer.

Happy News to France.

Paris, Feb. 8.—(C.P.)—The political significance of the impending visit of King George and Queen Elizabeth to France was emphasized by French newspapers today.

"This happy news caused the deepest satisfaction in all French circles," declared Le Jour, prominent in the Independent Petit Parisien. "King George and Queen Elizabeth are just as popular in France as they are in their own countries."

According to Le Petit Parisien (Independent-Republican) the visit "is an important manifestation of the Franco-British friendship which will not fail to strengthen further the bonds uniting the two countries."

Proof Accord Is Intact.

The visit is proof that the Franco-British accord is still intact," L'Oeuvre (Right) said. "That is a comfort for all when one considers the fact that the peace of the world may hang on this."

"It is significant that the British sovereigns in their first official visit outside the United Kingdom should have accepted France's invitation to pay homage to the memory of the British Empire's fighting men who mingled their blood with that of Frenchmen in the defence of justice and liberty" the Independent Newspapers Ecoleior said.

"These goals still dominate the united peace efforts of France and Great Britain," the newspaper added, "and the visit will be a great western democracies.

Visit Symbol of Amity.

"Under existing circumstances, the visit will be a powerful Franco-British amity," Le Jour (Rightist) declared. "To old Parisians it will recall the official visit of King Edward VII, a visit which served to cement the friendship between the

The Catholic newspaper Aube declared:

"When King Edward VII came to Paris Parisians were conquered by his simple manner, his tact and gallantry. Nevertheless, some opposing currents were unrevealed and persisted after the Great War. They exist no longer.

Impressive Welcome Promised.

"The welcome to be accorded King George will surpass any ever accorded a British king by Paris," the Catholic organ added. "In spite of several the Parisian people will ratify government action almost at an unshakable accord. We ratify all our neighbors that—even if they stiff their ears with cotton wool—shall not fail to hear the acclamations which will greet King George VI on the banks of the Seine. That welcome will emphasize the bonds between two nations united against war and in defence of liberty."

According to the Journal des Debats Echo de Paris the visit not only will bear witness to the close alliance now binding the two countries, but also will show that the London and Paris governments are fully aware of the gravity of the present international situation.

Military Notes

Captain L. K. Scott of the local Argyll Light Infantry, (Theik) has received notice of his qualification and passing in "K" course of Vickers machine gunnery at examinations held in Kingston recently.

Oneness of Church Dominant, Says Rev. Dr. G. C. Pidgeon, Reports on World Conferences

Former Moderator Addresses Members of Belleville U. C. Presbytery

SPIRIT OF UNITY

"The churches today are nearer understanding than ever before before because there is a will to understand that heretofore was not existed," the Rev. Dr. George C. Pidgeon, Toronto, first Moderator of the United Church of Canada told delegates to the twenty-quarterly meeting of the Belleville United Church Presbytery and invited guest at a banquet given in his honor in the Sunday School auditorium of Bridge Street United Church yesterday.

In the soft flowing eloquence for which he is noted, Dr. Pidgeon, just returned from three world conferences on church union in Montreal, Oxford and Edinburgh are a highly informative address on the work done and impressions gained at these important gatherings. "The keynote of these conferences" he said, "was to bring together in harmony the gifts and graces of widely diversified bodies of non-Roman Christendom."

Christian Oneness

"They were great days to live through with the tremendous hause coming up from all sides," he said. "Yet behind it all was that splendid ife spirit of Christian oneness." Previous to the conference, even as we passed in the doors we seemed like several units of a great machine, yet there seemed to be a great yearning for fellowship. We went in to the church speaking of churches. We came out talking of our church. The feeling of fellowship went all through the various meetings, prayers and services, and formed the spirit of conference unity."

In his impressions of the conference, Dr. Pidgeon pointed out that in England Canadian Union was held as a model. "There was nothing in Oxford or Edinburgh that surpassed for sheer ability the eloquence heard at the Montreal Conference. The addresses in England and Scotland did not even approach the one given by the Governor General of Canada."

Reformed Churches

"I was surprised to hear in Oxford that the sister church of Holland is the Reformed Church. Another surprise was the fact that the Reformed Church of Hungary is the largest of its kind in Europe today. It was an inspiring experience to hear a descendant of John Huss tell of the place the reformed churches hold in his country, where the self-governing spirit of the church affects profoundly the politics of the country."

Representatives of 126 churches and forty-five different nations gathered at Oxford at the memorable conference held there. Dr. Pidgeon stated. "Everywhere we turned we were in touch with men from all lands, from whom we gathered a wonderful insight into the feeling of the church in many lands."

"Professor Lo, an eminent Chinese, during a brilliant debate on pacifism, arose and quietly asked the conference, 'what is the duty of a Christian Chinese in North China today?' The silence that followed was oppressive. It showed us at a glance that the great issue on which the conference could not agree should be studied from every angle."

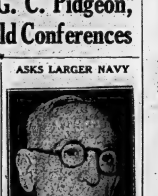
Britian Men Alived

"There were many brilliant men there. Syrian, Russian, French and other nationalities all with a marvellous faculty for languages, and we cannot forget the splendid response, men of firm conviction and eloquence who spoke of the wonderful results of each conference." These men were all together on the great issue while the statements that came out struck one with their newness.

"That the Church is the body of Christ and the continuance of the incarnation was the dominant thought throughout the conference. It is an old phrase but it takes on a new significance when used in confirming the authority of Christ in the national today."

"The issue of the freedom of the church came up time and time again," Mr. Pidgeon said. "A U.S.A. representative asserted that the best condition was a free church and a free state while another said that the State should give the church its freedom. Here another representative countered with 'If you consider the State has the right to give freedom then it must have the right to withhold it.'

Liberty of The Church



"The liberty of the church is a

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liver bile into your bowels daily. If this bile is not flowing freely, your food does not digest. It just decays in the bowels. Gas blasts up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere movement doesn't take care of such things. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get those two pounds of liver bile flowing freely and make you feel "up and up". Harmless and gentle, they have been used by millions for over 40 years. Ask for Carter's Little Liver Pills by name. Refuse substitutes. 25c at all druggists.

ASKS LARGER NAVY

Rear-Admiral Yates Stirling, Jr., is pictured at a luncheon of the Foreign Policy Association at New York, as he made the demand for an American navy "at least twice the size of Japan's" in all categories including air forces. Naval strategists, he contended, recognize the American fleet is "incapable" of successful war operations west of the Hawaiian area because of its relative weakness and lack of mobility.

Eleanor Powell and Nelson Eddy in "Rosalie" at the Belle tonight only.

realm where the state has no jurisdiction. The conference affirmed the freedom of the Church to deal with problems that comes before it without declarability from any authority in the world."

The speaker pointed out the fact that the Evangelical Church of Germany was not represented at the conferences. Although the Free churches were allowed to send delegates, a German professor at the conference stated that "You have no idea what it is like to be in a persecuted church. Lutheran hymns are allowed to be sung, but announcements are restricted to the reading of imprisonments of the clergy and where they are locaterstated."

Dr. Niemoeller's Sermon Read

"A sermon of the Rev. Martin Niemoeller, now on concentration camp, many for the sin of advancement of religious freedom was read at the conference," Dr. Pidgeon said. "Little reference was made to this state of affairs as it was thought that anything said would have a tendency to make things worse for the persecuted brethren."

"The days of suffering for the faith are not yet over," the speaker declared. "There has been more suffering during the past twenty-five years than in the previous history of the world. We must realise the importance of dealing with the question of freedom of the Church."

Quaker Faith

Closer unity was voiced at the Edinburgh Conference, the speaker said. A keen desire on the part of all for better understanding was evident. One of the outstanding contributions made to this conference was that of the Quaker faith. Especially brilliant was the explanation of their conception of the Sacramentals."

"Think of the wonder of these conferences" declared the speaker. "Here were representatives of all churches of reform, some that had flowed through national channels for years, coming together as one in the divinity of Jesus Christ, the sovereign grace of God and a full gospel machine all sides of life in the community in which they live. All through the conference they called themselves realists yet if ever there was a group of unrelenting idealists they were there."

"Yet in spite of the differences that crept up from time to time and to which we could not be reconciled, we were one in Him."

Dr. Pidgeon concluded with the story of the bells of a village that "replied in discord. Then came the war, the bells were re-cast and today they ring in harmony. That was the spirit of the conferences", he said.

SUN LIFE

ASSURANCE COMPANY OF CANADA

HEAD OFFICE MONTREAL

Sixty Seventh Year of Public Service

A FEW FACTS . . .

THE REPORT FOR 1937

reveals another year of successful operation. Impressive increases in Assurances in Force, New Paid For Life Assurance, and Assets, mark the continued progress of the Company.

ROWBOAT RESCUE: ANOTHER SIGN OF SPRING

Rowboats were used to rescue this family trapped in their home on the Ann Arbor Trail near Detroit by rising flood waters. Heavy rains and melting snows sent rivers on a rampage in many parts of Michigan and Wisconsin.

Dr. Pidgeon is one of the Canadian representatives to the World Conference to be held Holland this year. The other is high official of the Church of England in Canada.

The guest speaker was fittingly introduced by the Rev. J. A. Wilson of Napanee, while the appreciation of the Presbytery for the splendid two address was voiced by the Rev. Dr. James Semple, D. Th., pastor of Bridge Street Church who expressed the opinion that all who heard the address could not help but be thrilled." "We owe Dr. Pidgeon a debt we can never repay," he said.

The banquet was held under the chairmanship of the Rev. W. J. Fletcher, Odessa.

NORTHERN IRELAND

Continuing From Page 1

Reference to Free State

"Economic experts have been working out details of a new trade pact between Britain and South Ireland. Simultaneously the men who made the south a republic in all but name have been formulating the strategy whereby they hope to make the status of Ulster a decisive factor by the resumed negotiations.

"It is for the Loyalist electors to show, by polling full strength for government candidates, that the objection to fusion with the disloyal south remains undamged."

Nationalists' View

The Nationalist Irish News appeals

to electors to support Nationalist candidates in the Falls and Rock divisions of Belfast and in East Tyrone "because we are convinced that victory for them will be victory for Ireland's nationhood." It goes on:

"In all men and women of national thought in these areas we make this appeal, fully confident as we are of the determination reached in other parts of the six counties (by the Nationalists) to imperil the election. No Nationalist can love or respect the partition parliament. It is simply because a Nationalist defeat in any of these divisions may be represented as a gain for the partition policy that we ask Nationalist voters to support Nationalist candidates."

Polls will close at 8 p.m. Sixty-four candidates are contesting the 31 seats at stake, the remaining 31 in the 52-member Northern Ireland house having been returned by acclamation Jan. 20.

64 Candidates.

Of the 64 candidates 39 represent Lord Craigavon's government party, which has been in power since Ireland was divided into north and south in 1921; 11 are Progressive Unionists, who are fighting the official party on unemployment and kindred issues but are opposed to any agitation against concessions to Dublin; 8 are Independent Unionists, a grouping similar in aims to the Progressive Unionists; seven are Labor, a non-sectarian Socialist group; three are Nationalists, who favor abolition of the partition; and six are running under varied designations such as "Hasilers' Association", "Protestant League", and "Industries and Farmers'" candidate.

Along Religious Lines.

In general the Northern Ireland vote is along strictly religious lines. The Protestants, in the majority, will vote either for the government or for the Progressive Independent Unionists; the Catholic vote will go to the Nationalists, who, however, have boycotted the election in some divisions on account of the new law which requires voters' names added to take his seat in the Stormont House of Commons.

The Republicans, who in the last House had five members, one of them Eamon de Valera—who never took their seats, also have found this law incompatible with their candidacy and are not running any candidates at all.

Standing of Parties.

In the last House the government had 37 members, Nationalists 9, Independent Unionists 2, Labor 2, and Republicans 2. On nomination day the Unionists returned 14 members unopposed, the Nationalists 6, and Labor 1. In the 1933 election sufficient Unionist candidates were returned by acclamation on nomination day to assure the government a majority in the new parliament.

THE "EYE-WAY" to SUCCESS

Quickest of all your five senses to grasp — to understand — to remember — are YOUR EYES. That is why you "put it in writing" when you want to get an idea across.

And that is why newspaper advertising is the most resultful way to "put across" any saleable product or service successfully. For in no other way do the newspaper captures the EYES of thousands. Your message "clicks" with the understanding declared in the REAR. Your illustration sells — your package is remembered—because they are SEEN.

It pays to advertise. And it pays out better when you keep in mind two wise old sayings: "In one ear, out the other" . . but "what you see, you remember."

This advertisement was prepared for The Canadian Daily Newspapers Association by MacLaren Advertising Company Ltd.

NEW HATS Graceful and Chic!

Select a new hat to wear at once! It will turn your fancy to thoughts of Spring, even tho' the weather might still be plenty nippy! The new styles are graceful, flattering and chic! We've got them, in becoming colours, and that you must see them rather than read about them. Moderately priced **1.98**

GABARDINE and PATENT BAGS

"Gabardine and Patent" is the accessory theme for Spring!. Our New Handbags — both smartly trimmed and styled — are a revelation of how much smartness can be achieved at low cost. Each **1.00**

Belleville Looks to ZELLERS for Low Prices!

HE NEVER SLEEPS

Though such an eternity of insomnia seems impossible, Jerry is one man who has endured it, and subsequently without discomfort. Paul Kern, of Budapest whom a head wound in 1915 has wholly deprived of sleep declares that a continuous twenty-four hours day has done him no harm. During the period when all the world is awake, he works in normal fashion at an insurance office, from 10 to 6 hours of darkness Kern listens to the wireless from other lands where day still reigns. Also he eats four night meals in addition to the four he takes by day.—(From the London, Eng., Daily Mail.)

MAGNATES — National League executives meet in New York. LEFT to RIGHT, McKeever, Dodgers; Sensenbaugh, Pirates; Quinn, Bees.

THE ONTARIO INTELLIGENCER

The daily ONTARIO INTELLIGENCER is published every afternoon (Sunday excepted) at The Ontario Intelligencer Building.

BEAUTIFYING OF OTTAWA

Canadians who will inherit this land fifty years hence will come into possession of wealth and importance which...this present great art is, does not know, because only in the fullness of time will such be revealed. But it is very cheering news in a day when there is so much talk of insecurity and armaments to find that Canadians can look forward for fifty years and realize in the mind complete plans for the beautification of the capital city, Ottawa. Already the Capital is one of the most beautiful cities on the Continent. Schemes are proposed for the development of the city as announced yesterday, which will take half a century to complete. Such a plan is a pleasant surcease from thinking on the international situation.

Details of the many changes which are to be made in the relocation of buildings, the union station's change of site, and garden and park treatment to be given many parts of the city together with the creation of a park, for which is planned the eventual removal of all buildings in the area contemplated are interesting.

The plans which have been prepared call for consideration of any future plan which may be contemplated for a wider federal district.

The noted French architect, Jacques Greber, who is adviser to the Canadian government, has made the announcement that the plan has been approved by the Government; the call for tenders for the first projects to be undertaken will be ready by the latter part of spring, with construction starting this summer.

Ottawa lends itself to beautification because its site is one of great natural beauty.

Nations have poured their wealth into their capital cities; they are there a true expression of the political and social ideals of their race. Consequently Canadians have plenty of precedents for their development of Ottawa. Such cities are the Canadian territorially centred, are the vital heart of the flow of national life-blood. If one could envision a people who had not an ideal city, one would see a race with little idealism. Sooner or later the ideals of a people find their way into their capitals.

LIFE TAKES CONTROL

"If man does not make up his mind whether he will have a world of war or a world of peace, nature will step in and make up his mind for him," said the Rev. Dr. Harry Emerson Fosdick, the internationally known preacher, speaking at Riverside Church, New York. "Concerning any vitally important matter we may decide for or against, but if we do not decide, then life steps in and decides for us. The fact that in all profound matters there are, in the end, no undecided issues, that what we neglect and procrastinate about and try to remain neutral in, life itself takes under control and so forces decision, is one of the most serious aspects of living. We can often hold our opinions in suspense, but we cannot hold the event in suspense. Whether we like it or not, we are in the position of mariners; we may decide to steer this course or that, but if we decide to be undecided and drift, then the ocean steps in and settles the matter.

"This is obviously true today about war. The world as a whole has not deliberately decided to have war, nor has it deliberately decided to have peace. The world as a whole seems to be in that it has a third option—to be indecisive and to drift—but life itself, abhorring all undecided issues, as nature abhors a vacuum, visibly steps in now until anyone can see that our worldwide indecision, will not, in the end, be indecisive at all. The world's life is getting made up. The relentless march of life does not stop for any inconclusiveness in our debates, and soon or late, at the fork of the road, willy-nilly, we shall gone one way or the other.

"Here is a solemn corollary of this truth we are studying; there is such a thing as being too wise. We refuse to take hold on life with creative and decisive hands, and so life itself takes hold on the issue and at last presents us with a fait accompli."

DINNER CONVERSATION

"The genius of dinner conversation which is rapidly becoming a lost art is to discuss life's weightier matters in an understanding but friendly way; so our social life may become an avenue through which we can bear positive witness for our Lord," said the Rev. Dr. George Paul T. Sargent, of St. Bartholomew's Church, New York, pointing out that the study of the tabletalk of Jesus as revealed in the Gospels will give man a new grasp on life.

Dr. Sargent repeats what has been the view of all of the greater commentators on life, that "the dinner remains, as it has, through the ages, a great opportunity for fellowship, leading to fellowship. We are familiar with Jesus' sermons; with His prayers, with His miracles and parables. But are we familiar with His conversation at dinners? This is a most constructive and practical part of the Gospels, revealing an unusual nature and quality. He spoke not about life's trivialities, but about its spiritualities; not about life's social veneer, but of its sincerities."

THERE IS A BEAUTY TO EACH WAVE

There is a beauty to each wave no man
Can know except he watch in solitude
Undriven by the press of time or mood—
As if he were an artist making plan
To capture for himself the liquid fan
That owns a thousand plumes. He sees accrued
The winged furrow, the prophecy begun
Of how it leap on high. Then only can
He point upon the canvas of his mind
The path of beginning and of end.
The long white powdered curls that are entwined
Around the finger of the shore, the zest
With which the distant breakers, one behind
Another, run like buffaloes hard-pressed.

Agnes A. Pierson.

WHEN A MAN BUYS SEVENTY-FIVE MILLION DOLLARS WORTH OF ADVERTISING SPACE in twenty years he sure can check up as to whether it has been a profitable investment or not. Sir Charles Higham-British business man who headquarters in London, recently arrived in New York, admitted that he was the largest individual buyer of advertising space in Great Britain... Interviewed by a reporter for a New York newspaper he said:... "Great there is a tendency among many advertisers in your great country to employ other means of selling things besides the press, but I have yet to meet an advertiser who has made a success without it." He also said that his own success had been based on newspaper advertising of which he had purchased $75,000,000 worth in twenty years.

COOPERSTOWN THE BIRTHPLACE OF BASEBALL and home of Fenimore Cooper, noted author of Indian tales, has been in the public eye prominently lately because another former baseball star has been added to the constellation in Baseball's Hall of Fame, located at Cooperstown, Grover Cleveland Alexander, (not Grover Cleveland Alexander, as the Intelligent Compositor made us say last week) Addison Vanderveort, of Belleville, recalls a visit to Cooperstown several years ago. He found it a very charming place situated at the south end of Ostego Lake the head of the Susquehanna River. The town has a beautiful skeleton steel grandstand presented to it by the Clark family, one of whose members invented the Singer sewing machine (named after the family). Vanderveort says the person who financed it in its infancy). The town is situated among the western foothills of the Catskill Mountains amidst charming rolling country. There is a million-dollar hotel there, and Mr. Vanderveort was greatly impressed with the place as a whole, particularly on account of its historical significance and its Fenimore Cooper atmosphere. He tells us that he rowed four miles up the lake to "Natty Bumppo's" mentioned in Cooper's "Deerslayer," and he has in his possession a product of Cooper's pen, not found in any collection of his novels. This was presented by a Mr. Cooper, a descendent of the author.

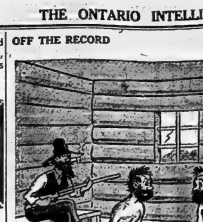
LOST BALANCE

Mrs. Smith—Did that expensive treatment cure your husband's baldness?

Mrs. Jones—Yes, in fact, when the bill came in he was able to tear out handfuls of hair in his rage at the high fees.

x x x

LOST BALANCE



Jones (dismally)—Yes, I had a balance in the bank not long ago, but since I have been engaged it has all gone.

Friend—Expensive game, eh? Never mind, love makes the world go round, you know?

Jones—Perhaps, but I never thought it would go round fast enough to make me lose my balance.

OFF THE RECORD

By Ed Read

"Toe and your get shrunk"

LOOKING BACKWARD

GLEANINGS FROM OUR FILES OF BY-GONE YEARS

20 YEARS AGO

FEB. 9TH, 1918

Belleville presented a strange scene Saturday, the first of the heatless days which have been referred by the Dominion Fuel Controller; stores were locked, except barber shops, grocery stores, drug stores and news stands. There is a restriction covering certain lines of goods in these stores. Hotels are permitted to remain open for the payment of obligations only —not for general business. Few people from the country were in town and about eighteen hundred people are idle from the stores, factories and offices. The police have orders from Chief Newton to watch carefully and see that regulations are carried out. A few merchants who are permitted to remain open have enquired if arrangements could not be made to increase the line of goods which they are allowed to sell; they were informed that this can not be done and that prosecution would follow any attempt to do so. The closing regulations cover Saturday and Monday. How much coal the closing order will save in Belleville is a question which is hard to answer.

The Hastings Liberal Club of Belleville held its annual meeting in the Sons of England Hall last evening and the following officers were elected for the current year: Honorary President, Messrs Thomas Ritchie, F. E. O'Flynn and D. V. Sinclair; President, J. O. Herity; First Vice President, Frederic Rosebrugh; Second Vice President, J. B. Ivey; Third Vice President, J. C. Yeomans; Secretary, Dr. E. J. Platt; Treasurer, Charles Whelan.

30 YEARS AGO

FEB. 9TH, 1908

Until further notice soup will be served free of charge at the City Mission, Dundas Street, at noon on each Tuesday, Thursday and Saturday, persons desiring to give donations for the poor may send them to Mrs. Richard Greatrix, corner of Market and Pinnacle Streets or to the City Mission.

Jack Marks, formerly of this city, covered himself with glory on the Brantford pro. line-up in a recent match. A newspaper account says that "it was worth the price of admission to witness Marks' lightning rushes." Johnny can do it, when he wants to.

Mr. Samuel Lewis, Murney Street, left this morning for London, Ont.

40 YEARS AGO

FEB. 9TH, 1898

The ice harvest is now at its height.

Mr. A. Dulmage of this city has purchased the skin of a silver fox which was shot in the Peterboro district. It is a very fine skin.

Mr. W. H. Scholes' dog was poisoned one day recently, but he was successful in saving the dog's life. He let the dog out this morning and he got more poison and died from the effects of it.

Dr. A. E. Wills, youngest son of Mr. Thomas Wills, County Treasurer, arrived home at noon today from the Klondike where he has spent the past four years.

Mr. H. H. Alger of Frankford was in town today.

Mr. Fred Armstrong left last evening for Minneapolis, Minn.

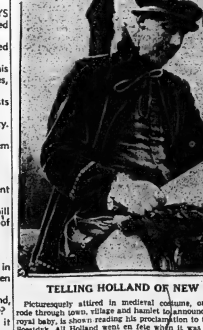
Ald. W. J. McCamus of this city was in town as a barrister at Toronto yesterday.

Mr. Charles Stewart will leave tomorrow to visit friends in England. He will be absent from home for about six weeks.

50 YEARS AGO

FEB. 9TH, 1888

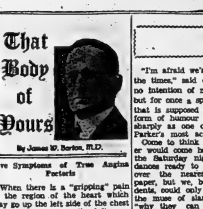
Freight traffic on the Grand Trunk Railway is heavy at the present time; passenger travel is light.



A team of horses attached to one of Lake and Jenkins' vehicles became frightened by the Salvation Army Band last evening and ran away. The horses ran some distance but were stopped before serious damage was done.

At the curling rink this evening the final game between the Old Countrymen and the Canadians will be played. The skips are Jas. Gordon for the Old Country and J. D. Clarke for Canada.

At a meeting of the Board of Health yesterday Dr. R. Tracey was appointed Chairman for this year.



The agreement between the Corporation of the City of Belleville and the Waterworks Company was duly signed and sealed today at the office of Messrs. Bell and Biggar.

Mr. Archie Riddle, manager for Messrs Bronson and Weston, is spending a few days in town.

TELLING HOLLAND OR NEW PRINCESS

Picturesquely attired in medieval costume, one of the heralds who rode through town, village and hamlet to announce the birth of Holland's royal baby, is shown reading his proclamation to the people of Sassn at Oosterwolde. All Holland went en fete when it was announced that a baby girl had been born to Crown Princess Juliana and her consort, Prince Bernhard.

That Body of Yours

By James W. Barton, M.D.

Five Symptoms of True Angina Pectoris

When there is a "gripping" pain in the region of the heart which may go up the left side of the chest and sometimes down the left arm, it is only natural that this pain would be considered angina pectoris or breast pang. If the other symptoms—stopping still and suspecting the body with one hand and the other hand held over the heart—are present it would be definitely called angina pectoris.

Another point about true angina pectoris is that it always comes on during effort—work or exercise. When the pain comes on at other times—when the individual is at rest or lying down, it is not considered to be a true but a false angina.

Some weeks ago Drs. J. E. F. Riesman and M. J. Steinberg, both in the American Heart Journal, recorded their investigation of 307 patients suspected of having angina pectoris. All the usual methods of testing were used, such as the history of the symptoms, X-ray, trading the outline of the heart, the heart rate, the metabolism (rate, at which body processes work), effect of exercise, etc.

These physicians state the five important symptoms of true angina pectoris:

1.—The attacks were sudden in onset.

2.—The attacks lasted but a short time—usually for a few seconds.

3.—The pain was located in the front of the chest and inner side of the arm.

4.—The attacks were brought on by exercise, fatigue, emotional excitement or stress.

5.—The attacks consisted of a "gripping, tightening sensation or pressure."

Patients who lacked one or more of these characteristics or symptoms proved to have either no heart disease at all or to have other conditions or to have not only angina pectoris but some other complicating ailment."

When there was difficulty in detecting difficulty as to whether the case was true angina pectoris the effect of exercise—sometimes just walking briskly, hopping or running on the one spot—usually decided the matter. This was used as a barrier at Toronto yesterday.

Thus when you feel any pain over the heart or under the breast bone do not jump to conclusions and think you have angina pectoris as most pains in this region are due to pressure of gas in the stomach or intestine.

SITS AT EASEL

When painting, Vermeer would sometimes sit at his easel instead of standing before it, as most present-day painters do. Sitting at the easel seems to have been the general custom of the Netherland painters of Vermeer's time, and the standing or sitting before one's canvas is a matter of personal and technical accomplishments. The best in modern painting is likely to be done by those who do it on their toes. The large noles are seen and the subtleties of color and the lesser transitions are often slighted; pictures are painted in surprised but sometimes abruptly and meticulously. In the older painting of the Dutch and Flemish masters the transcendentity in Vermeer the values are worked out gradually, the diverse elements are brought into unity by a process of refinement rather than by a mere dabbling-on of notes that are approximately right but not quite right. The transitions and modulations are exquisitely subtle. A man who well planted in his seat possesses the ability to maintain hours of eagerly walking forward and back in his studio. The rendering is at once precise and serene.— Phillip L. Hale, in "Vermeer (Boston, Hale, Cushman and Flint.

CONFIDENTIAL ECHOES

There is no one quite so uncommunicative as a physician, especially if he works in a federal reserve bank in New York's financial district the atmosphere is always commercially confidential, particularly in the week in the northwest wing of the tenth floor, which houses the executive headquarters and as a reception room for visitors.

Until recently this room had a high, vaulted ceiling, striking and buttressed in the best banking tradition but now it has a Florentine ceiling.

It seems the old vaulted ceiling had an easy way of picking up conversation in one corner of the room and relaying it to the far corner. The northwest corner was especially sensitive. Officers there, especially in the low, hushed tone proper to important matters found that their voices leaping from vault to vault on the ceiling and bouncing down elsewhere, startling member bankers waiting their turns to talk about arbitrage, the state of the franc and other things that bankers talk about, startling even the porters, who frequent the hall on the floor below. Sometimes these times got inside information from the vaults and hurried it right into print.— Fortune Magazine.

Into the Dance

"I'm afraid we're a little behind the times," said our partner with the intention of making a pun but for once a specimen of a joke that is supposed to be the lowest form of humour was received as sharply as one of Miss Dorothy Parker's most acid bonmots.

Come to think of it, Miss Parker would come home from one of the Saturday night hotel supper dances ready to spray vitriol all over the nearest copy of any paper, but we, being prairie residents, could only take recourse to the muse of slang and bemoan why they can get into more shapes than a cookie cutter."

Just what the ladies in gowns that are molded adaptations of the be-bustled pre-war days, and the gentlemen in white ties and tails, think at these select one-of-the-week gatherings would be hard to say. Whether they enjoy them or not would be even a harder question to answer. No conceivable, however, could hope to achieve the tortured and bewildering shapes that these 1937-38 devotees of ballroom dancing assume.

At angles of 45 and 60 degrees couples dance to polite arrangement of Haitian hops, Cuban rhumbas and swing rhythms. But it is a frigid lip service they do to the nervous quicksilver moods of these dances. There is no boom on jollity, no acoustical achievement of partners in deeply engrossed unison.

The pair passes our table. A bleached head, topped by a pale, suave cavalier, is grotesquely pressed against a talcumed male cheek. But there is no affection there, but just a disinterested response to "the thing to do."

Over here, like two rosetrees listless to engage in combat, is another pair of bewhiskered brothers . . . not to mention the young lady with flowing arms who is holding them up like some fantastic bird ready to take off.

The orchestra is playing a currently successful tune and the gentleman who croons the lyrics is pouring them into the mike as blandly and carelessly as if they were stock market quotations. There are words in that song that would make a B. O. Lawrence chapter seem harmless by contrast but the total absence of warmth in the singer's tones makes them as sterile as seed from an Egyptian mummy.

There is nothing here but pastel enjoyment. — Winnipeg Free Press.

Keynote of Simplicity

London's contribution to architec- ture is simplicity. In almost all periods English monumental architecture has been ordinary and conventional in its character as compared with other countries, while English domestic architecture always had a stamp of its own.

While other countries have contributed more to the art of painting, sculpture, music, or monumental architecture, the English have cultivated everything connected with daily life; they have made it an art to live in the right way. Sport is the music of the Englishman; he has dedicated his clothes, his furniture, he has created a language which is modern speech, he has developed as well as created a most intimately connected with daily life, that is to say his house. This is the impression we receive from the works of modern architects, whether it is a Norman Shaw towards the end of the nineteenth century or an Edwin Lutyens during the twentieth. Their great monumental works are dull as compared with the fine country houses they have created; the same may be said of the English architectonics of the past. We admire even Sir Christopher Wren much more for his simple dignified houses in the Temple than for his most striking academic monumental buildings.

Yet there was no doubt that he was keenly interested in the great task of modernizing. We know that he, when he was in Paris in 1665, carefully studied everything connected with the building of palaces. He had the privilege of meeting Bernini who was in Paris at that time, invited by the French king in order to make designs for the Louvre (a plan which was never executed). Evelyn was allowed to have a look at it, but was not allowed to get a pencil him to copy it. . . .

Wren had prepared himself as coming a great palace builder. He was not be but the architect of the Swedish king who (in the Royal Palace in Stockholm) was to carry out the ideal of Bernini; the huge four-winged palaces. England —governed by a parliament—had no use for royal castles, the grand symbols of absolutism, and in spite of several attempts Wren was never to succeed in building a large royal residence. It is interesting to study the great schemes for a royal palace, to see how they arise and how they disappear, and to watch the interest in English architecture in the eighteenth century shifting from public monumental architecture to the building of private houses.—From "London: The Unique City," by Christian Elling Rasmussen. (New York: Macmillan.)

NATIONAL ANTHEMS

Over in the United States they are having quite an argument over their national anthem "The Star-Spangled Banner" and some have even suggesting that the name be changed to the less "high-standered" Banner. A certain minister started it by saying that the words "vulgar"; that is the words "celebrate war and breathe hatred." Irving Martini, the Opera tenor, adds that it "calls for an unnatural singer, even in a professional singer."

One American writer joins in the argument in defense of the anthem. He can see nothing harmful in the words which he quotes something like this: "Ah say can't you see by the dawn's early light. What so proudly we hailed da da dum dum da do do. Do dee dah Deedah. Dad dee dah da da da — 'Tis of Thee" — Chaldean News.

and so on to the end. At least that's what he alleges you usually hear when the venerable old tune is played.

But Canadian audiences cannot help but smile at the confusion of their American cousins for when it comes to just singing at the majority of gatherings what do you hear? Something like "Ay, ay, ay, ay. Our Father's land of old. Lah Lah La la. With loves of red and blue. Lah La La La La La La La (many more Lah's) O Canada. Lah Lah Lah La La La. We Stand on Guard for thee!".

And as the conclusion of most other renditions is quite apparent that, at least, the anthem needs something to stand on guard for it.

But there is an easy way out of the difficulty— by singing "God Save the King" and "My Country 'Tis of Thee" —Chaldean News.

COUNTESS TO BECOME ALBANIA'S QUEEN

Beautiful Countess Geraldine Apponyi, whose betrothal to King Zog of Albania was announced in the Albanian chamber and later tactfully blessed by Premier Mussolini of Italy, is shown (AP) here. Her royal fiance is a tall, handsome bachelor. The countess is an American, her mother being a former New Yorker and her father Count Julius Nagy-Apponyi, of Budapest. The portion of the Illic country over which the countess may some day be queen is shown by the map.

TO HOLD

Continued from Page 1.

Give Adequate Coverage.

One of the new stations, Mr. Howe said, would be in the Maritime Provinces and one on the Prairies. Already the corporation has two high-powered stations, one near Toronto and one near Montreal. The object, of the corporation is to give adequate coverage to all parts of Canada, he added.

Under international agreement Canada was formerly allotted the exclusive use of six wave lengths. Mexico was not a party to the agreement. Canada did not use the wave lengths and certain radio interests in the United States moved into Mexico and operated stations on Canadian channels.

Seven Wave Lengths For Canada.

At the recent Havana conference Canada was allotted, seven wave lengths but was distinctly stated that if they were not used by the erection of at least a 50,000 watt station on each the other countries would not respect the allocation.

The money provided by the proposed increase in license fees would enable the erection of the two stations in the next year, said Mr. Howe, with the addition of a loan of $500,000 from the government to the corporation.

American sustaining programs without advertising cost the corporation nothing. They consisted mostly of music which was not particularly American. Many of the performers were Europeans and much of the music was written in Europe. From American advertising programs the corporation gained $501,000 last year, of which $80,000 went to private stations.

$250,000 From Advertising.

Mr. Lawson accused the corporation of increasing American programs beyond limits of moderation, injuring Canadian industries by solicitation of American advertising and neglecting development of Canadian radio talent.

This discussion arose from the government announcement two weeks ago the yearly radio license would be increased from $2 to $2.50 on April 1 and a separate fee must be paid for every set owned.

The C.B.C. this year will earn $350,000 from commercial advertising, Mr. Howe said and it was planned to limit this to $500,000 in any year.

Replying to charges of Americanization of C.B.C. programs, Mr. Howe said of the 98-hour broadcasting week only 8½ hours were devoted to programs carrying American advertising. They brought in a net revenue of $130,000. In addition, 17½ hours were given to American non-commercial programs such as the Metropolitan Opera, the New York Philharmonic and the Toscanini musical programs.

Freedom Asks Question.

"I ask if there is anything offensive to Canadian listeners in accepting that kind of a program from the United States." Mr. Howe exclaimed, emphasizing the international aspect of good music. "The C.B.C. makes no apology to the Canadian people for bringing them these 17 hours of American sustaining (non-advertising) programs."

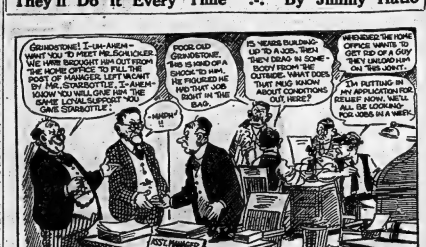
The American commercial programs were chosen for their entertainment value, Mr. Howe said and the corporation turned down $250,000 in extra revenue from this source in 1938 "because they (the programs) did not have the class of material we desire" to carry on the Canadian chain."

Speaks on Press

"Naturally," said Mr. Howe, "when the listening public turns to the publicly-owned stations, the privately-owned stations fight back. That is what is happening today. The fact the chain is carrying a few of the outstanding advertising programs has caused certain newspapers and periodicals to fear the loss of national advertising revenue and some of these papers are voicing severe criticism on their editorial pages.

"It is rather striking, however, to find that even where severe criticism of the policy is written on the editorial page, the radio page, either full or half size, contains a description of radio programs and almost invariably these descriptions feature American commercial broadcasts. So much for the consistency of the press."

Padlock Law in Debate

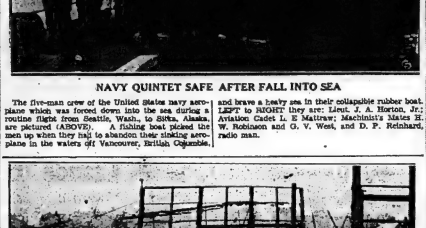


Quebec's padlock law again figured in the debate, Ralph Maybank (Lib., Winnipeg South Centre) said it should be disallowed.

But a Conservative member from Quebec, W. A. Wahn of Montreal-Westmount, said he agreed with the law's object although not with its terms. He also declared Premier Duplessis was not a separatist.

Hon. W. M. Mulherrin (Lib. Melville), a veteran western law tariff man, said the west had been barking up the wrong tree about tariffs for years. He believed westerners should still strive to get tariffs as low as possible but saw no use in contending for their abolition. They could not override the wishes of the majority in the east.

Instead he thought westerners should seek what Labor Minister Rogers had called "compensating adjustments" to counterbalance the ill-effects of tariff on Western Canada.



They'll Do It Every Time :-: By Jimmy Hatlo

NAVY QUINTET SAFE AFTER FALL INTO SEA

The five-man crew of the United States navy aeroplane which was forced down into the sea during a routine flights from Seattle, Wash., to Sitka, Alaska, are pictured (ABOVE). A fishing boat picked the men up when they had to abandon their stricken aeroplane in the waters off Vancouver, British Columbia, and brave a heavy sea in their collapsible rubber boat. LEFT to RIGHT they are: Lieut. A. A. Norton, Jr.; Aviation Cadet L. E Maltraw; Machinist's Mates H. W. Robinson and G. V. West, and D. F. Reinhard, radio man.

CANADIAN PAVILION AT GLASGOW WRECKED BY GALE

The twisted steel and wood wreckage of the Canadian pavilion being erected for the Empire exhibition at Bellahouston Park at Glasgow, Scotland, which collapsed when a fierce gale swept over the British Isles is shown (ABOVE). The damage to the partially finished building which will throw the work back several weeks, will entail the loss of several thousand of dollars.

CHANGE IN POLICY

Continued from Page 1

tions and of Canada.

Serious Obstacles.

Serious obstacles stood in the way of further immediate development of the Ottawa, Madawaska, St. Lawrence and Niagara Rivers, Dr. Hogg said. The prospect of a revision of the boundary waters treaty with the United States, to permit the use of additional waters for power development at Niagara Falls, "does not appear to be any brighter now than it did in 1928 and 1929. It is simply out of the question to place any reliance upon it."

The commission chairman listed three requirements of any power system to protect adequately interests dependent upon any given power supply: a sufficient capacity to supply maximum primary power demand, continuously available reserves to meet losses of capacity which occur without warning; power resources available on demand to meet increasing primary demands due to growth.

Do Serious Threat

"Of the various eventualities which may affect the Niagara system, those resulting from great accumulation of ice in the Niagara River probably constitute the most serious threat," he said. "The dramatic wrecking of the upper arch bridge at Niagara Falls and the flooding of the Ontario power plant furnishes the most recent evidence of the seriousness of this contingency."

"Although for many years prior to the depression the Niagara system showed a very consistent growth in primary load a marked disruption has occurred in the interval," Dr. Hogg continued: "Under present conditions, it is peculiarly difficult to be confident as to just what the power demands of the future will be, especially as they depend so much upon industrial progress and other factors, many of which seem to be usually obscure just now.

"However, the existence of these difficulties does not alter the necessity of making provisions for the future power years in advance. To shrink from this responsibility and seek an escape by timidly making provision for no more load growth than now appears to be certain does not appear to be in the best interests of the—power users of Niagara system, for which this course avoids the risk of over-provision, it incurs the risk of a power famine which, quantity for quantity, is much more serious."

POINTS TO EVIL OF MARIJUANA

"The recent bringing to light that the drug Marijuana is available in this province should sound a warning to every person. Although we have no definite proof that this feared drug is available in this part of the province, the fact that it is procurable in Toronto should be sufficient warning to all of its proximity", stated Provincial Police Inspector Frank Gardner today.

Speaking to the Ontario Intelligencer of the dangers of Marijuana, a dangerous drug reported to have been used in Toronto recently, the district inspector stated that police records from all parts of the continent revealed that the use of this dangerous drug was invariably associated with crime. "Marijuana is a drug, which according to Dr. Moreau, who is the country's outstanding authority on its effects, causes very phenomena and three illusions", added Inspector Gardner, as he outlined the results of this dangerous drug.

Inspector Gardner outlined its results as follows—

1—Feeling of unaccountable hilarity.

2—Excitation and disassociation of ideas; the weakening of power to direct thoughts.

3—Errors in time and space.

4—Hallucinations of auditory sensibilities, causing profund dejection or mad gayety.

5—Fixed ideas, delirious convictions. (This is a type of intellectual injury as frequent in mental alienation. The user imagines the most unbelievable things, giving way to monstrous extravagance.)

6—Emotional disturbances during which the user is powerless to direct his thoughts, loses the power to resist emotions and may commit violence which knows no bounds when disorders of the intellect have reached a point of incoherence.

During this dangerous phenomenon evil influences are brought to the surface and cause a fury to rage within the user.

7—Irresistible impulses which may result in suicide.

The illusions are those of sight, hearing and sense. The mind loses all idea of space and extent, and tends to exaggeration in all things; the slightest impulse or suggestion carries it away, explained Inspector Gardner as he added that the effects of Marijuana run in one direction only—and that is to the bad. Knowledge of the use and presence of this powerful and dangerous drug should be communicated to the nearest police authorities immediately.

Henry N. MacCracken, president Vassar college.

DAGGERS SALUTE AS UNCLE BEN GIVES THE BRIDE AWAY

Stern-visaged Premier Benito Mussolini is pictured escorting his niece Edda Mussolini, past a fascist troops explosion at the Segni munitions plant. He attended the wedding ceremony before rushing to the scene of the tragedy where many died.

Myrna Loy and Walter Pidgeon coming to the Bells Thursday in "Man-Proof".

Personals

Mrs. John Thomson, Vera, and Harry Thomson, North Port Street, also Mrs. Fred Bowers of Mountain View are spending a couple of days visiting relatives in Kingston.

The Weekly Club held their meeting last evening at the home of Miss Marguerite Sharpe, Chatham St. The evening was spent in games, prizes being won by Miss Ivy Wale, Miss Jeana Burley, and Miss Dorothy Clapper. A dainty lunch was served by the charming hostess.

Miss Grace Appleton and little Ruth Hyland, spent the week-end with Mr. and Mrs. John English, Guelph.

Last Wednesday evening, about twenty-five friends gathered at the home of Mrs. J. Lickfold on Cannifton Road, to hold a shower in honour of Reginald Lickfold, previous to his marriage. The evening was spent with cards, games and dancing. Mrs. J. Murray winning ladies' first prize in euchre, Mr. Ralph Winters winning the gentleman's prize and the consolation prizes being won by Reginald Lickfold and Miss Flossie Viller. The groom and bride-to-be received many lingerie and beautiful gifts from their friends. Mrs. Parn assisted Mrs. Lickfold in many things.

BRIDGE GAME BY TELEPHONE

Belleville, February 8. — "We have fourteen boys under our care as far as education here at the Y.M.C.A. is concerned", stated Newt Thompson, chairman of the boys' work committee at the Y's Men's Club meeting last evening. "The boys come to the the Y.M.C.A. every Wednesday night, where they receive physical instruction, games, swim and instruction in woodworking. They are a bright bunch of boys and co-operate with the instructors. It would be nice to have them be one of our weekly suppers."

Y's Man Jim Barclay gave an outline of the telephone bridge game to be staged by the club during the following week. It is a novel line and will catch on quickly", stated Mr. Barclay. The players hold the cards in their own houses and telephone the Y.M.C.A. on Friday, February 10, the evening of the game. It is not essential that the game be played on Friday night but can be staged, any night during the coming week. The names of the winners are telephoned into the Y.M.C.A. Friday night and the winners of the prizes are chosen from among them.

Other reports were given by Joe Shortt, Harold Mason and Ishmael Thomas. President Lorne McDougall was in the chair, while Dawson Boyd was song-leader and Newton Thompson, sergt-at-arms.

For two precious days for experiments

Treat CHILDRENS COLDS this Proved way

WHEN your child comes down with a cold, you can't afford to take needless risks. The the treatment that has been *doubly proved* for you—Vicks VapoRub.

It has been *proved* by everyday use in more homes than any other medication of its kind—*further proved* by the largest clinical tests ever made on colds. (Full details in every VapoRub package.) Only Vicks give you proof like this.

Vicks VapoRub is direct *external* treatment. There's no "dosing"—no risk of spoiling appetite or disturbing a delicate digestion . . . and thus lowering resistance just when it is most needed. VapoRub is applied freely, as often as needed, even on the youngest child.

You simply massage VapoRub on throat, chest and back. (See illustrated). Then—to make its long-continued action last even longer—spread a thick layer on the chest and cover it with a warmed cloth.

No Long Waiting for Relief to Begin . . .

Almost before you finish rubbing, the youngster begins to feel warm and comfortable as VapoRub goes to work *direct* through the skin like a poultice. At the same time, its medicated vapors, released by the warmth of the body, are carried *direct* to the irritated air-passages *with every breath.*

This double action loosens phlegm —relieves irritation and coughing—helps break up local congestion. And long after the little one relaxes into restful sleep, VapoRub keeps right on working—hour after hour. Often, by morning the worst of the cold is over.

VICKS VAPORUB

Now White—Stainless

Thanks to a new process, VapoRub now comes to you in white ointment form. Only the color is removed; it is the same VapoRub—the same formula and the same effective double action.

Don't Place A Child on Display

Exhibiting Baby Like an Animal in Zoo Unwise, Says Lisa

(By LISA ORENVELLE)

During a social gathering of parents recently, all their children were turned loose in one room, and the grown-ups came and stood in the doorway to watch their antics with kindly patronage. No one visitors in front of the monkey cage.

No admittance fee was demanded, there was no such sign as "Please Do Not Feed the Animals", no visible bars. But the space nevertheless was restricted in much the same way. And the children never ventured off their particular reservation, nor did the adults, except in rare instances, attempt to enter the room and mix with the children. They were content, or preferred, to watch the habits of the young from "outside the bars".

One young mother, whose offspring was present reproached a young father, whose small daughter was absent. Said she: "Why didn't you bring Elsie, Nell? We would have done her good. How do you expect her to develop any social instincts if you keep her cooped up alone on the roof all the time?"

The young father, gazing at those on exhibition, answered politely that it was his opinion that the best way for his two-year-old daughter to make her debut.

"Debut! He Might?

And wasn't the young father right? Isn't it a fact that most humans must capture and cage animals so that we can study them, look at them, without subjecting our own children to the same indignity?

How do you think you yourself would react to such exhibition, under such circumstances? Do you think it would help to develop your social sense?

On the other hand, there is, of course, no reason or virtue in going to the other extreme. Children, even small ones, who are kept secluded and too long away from life, become as neurotic and queer and unsociable as adults raised in such same circumstances.

No, by all means encourage little Jimmie or Jane to come in and say "Hello" to your friends when they come and call. Even the baby can be persuaded to play quietly, to have fixed certain rules in the room. Invite one or even two or three little friends in for the afternoon.

Take Jimmie and Janie to call occasionally, but only at the homes of people Jimmie and Janie already know and like, where they will be introduced as friends and not exhibited like animals. Where they will be spoken to and played with, but not watched or gaped at.

Style Whimsies

Do you remember when jet jewelry was all the rage? The popularity of black for women's clothes has brought back the demand for jet. Jet sparkling artificially as was carried on for years at Whitby, England, but for many years has been abandoned. Replicas of the Whitby pieces are now being made in calculo copied from material museum pieces of the Whitby pits. They will be ready for spring costumes. The pieces are massive looking in size and style, surfaces with elaborate carved flower designs.

* * *

In one of the new bolleetions for summer, Chanel, the famous artist shows a geranium red coat with black buttons worn over black wool dress.

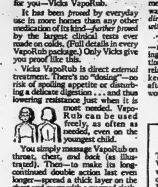
* * *

Tiny little hats often flower trimmed, that tip forward on the head, are also being given a size. They don't need it the way they are styled and worn.

* * *

The push-up sleeve has been tabled. Dresses and coats, and now it is being used in coats.

* * *



Most English fabrics are made in Scotland. One called St. Mary's is, however, woven in England.

* * *

Many spring and summer coats have no high collars, and many have extra lapels.

Marriage Is Career

The personnel bureau of New Jersey College for Women made an occupational survey of last year's graduates. It found that of the 1932 alumnae who answered a questionnaire, not one of the ten who had married was working. Only the first instance recorded by the bureau when a married member of the preceding graduating class has been employed. Marriage appears to be of more importance as a career for college graduates.

RACHEL CARLAY
Possesses qualities essential to charm.

MANY QUALITIES VITAL TO CHARM

(By HELEN FOLLETT)

QUALITIES ESSENTIAL to charm are gentle manners, a musical voice, poise, smart attire, animation and vitality. If a girl possesses these qualities, then here physical beauty can "go hang". She'll be in the front row when popular girls are on parade.

Surface beauty attracts at first glance; it is a grand thing to have. It is a tremendous advantage. But when it comes to holding friends and the loved one, it is weak compared to qualities that touch the heart, appeal to the mind.

Vitality and animation are dependent upon health; therefore the girl who has the greatest vitality and loveliness must have regard for the laws of health. She must have restful sleep, a balanced diet and get outdoors exercise. Being fit, she will find enjoyment in every wakeful moment and, as happy people are the best of companions, she will be sought after.

It is not always the pretty face that makes the strongest appeal. Real beauty appears in the eyes, the expression of the mouth, the poise of the head, the tilt of the chin. Charm, of one kind or another, is possible to all whose hearts are in the right place, whose brains are active.

Guy Kibbee, Dorothy Mosey and Cora Witherspoon in "The Big Shot" now playing the Capitol today and Thursday.

Asks Women to Bring Peace

By LILIAN CAMPBELL

MRS. CARRIE CHAPMAN CATT of New Rochelle, N. Y., Grand Old Woman of Suffrage, is known better now for her crusades for peace. She organized the conference on the Cause and Cure of War., which held its annual meeting in Washington, D. C., a short time ago.

Mrs. Catt, who recently celebrated her 74th birthday, has issued a call for women to co-operate in the face of the world crisis.

"The world is in a turmoil," declares Mrs. Catt. "Nothing like it has been known for two centuries. Nations have either slipped into bankruptcy or are timidly holding their status on the verge of it. Fierce and cruel wars are raging in Spain and China. No logical reason has been given in either case to explain the bloodshed, but war dominates the affairs of the entire world. People are everywhere restless and uncertain of the future. If we are to steady our civilization, action must be taken now. A way to end warfare and recover peace must be found soon. Will you help?"

Mrs. Catt appeals to all women to learn the facts, what is wrong with the world and how it may be corrected, and then to go and tell others truths needed to bring the world to sanity.

Mrs. Carrie Chapman Catt

A MUST in any smart wardrobe is a bolero dress or suit. A useful model is of black crepe, the short tailored bolero worn over a pleated white chiffon shirt blouse. There is a red satin sash with fringed ends.

GOOD MANNERS

by MRS. CORNELIUS BEECHAM

(Copyright, 1932, King Features Syndicate, Inc.)

Invitation Acceptance

Dear Mrs. Beeckman:

1.—Will you please give me your opinion and form of acceptance to a wedding reception invitation?

2.—How soon should one answer this invitation?

Florence

1.—A formal wedding reception invitation should be answered formally, that is, in the third person, and with the same paper and nearly as possible as the lines of the invitation are spaced. The white, double-sheeted letter paper on which you wrote to me is appropriate for this, and your reply should be spaced so that it fits on the first page. It is worded like this:

Mr. and Mrs. Franklin Williams
accept with pleasure
Mr. and Mrs. (Bride's Parents's) kind invitation
to their daughter's wedding
reception
on Tuesday, the first of March
at three o'clock.

3—This invitation, like all invitations, should be answered as soon as possible after it has been received.

Junior Prom

Dear Mrs. Beeckman:

I've been years of age and I am going to a Junior Prom next month. There are some things I would like to know.

1—Just what should I say when I invite a boy to the prom?

2.—What do I do after we get to the hotel where the Prom is to be held?

3.—If there are any special formalities necessary while at the Prom will you please tell me about them?

4.—When we arrive home, do I leave my escort at the outside door? Should I thank him for a pleasant evening?

5.—How should one refuse a good night kiss? I am not a prude but I do not like "to give goodnight kisses.

Reader

1.—If you are going to invite the young man verbally, you simply say, "Bob my class is going to have its Prom next month, and I would love to have you go with me. It's on the fifteenth of March . . . is that a convenient date for you?"

2.—When you reach the entrance of the ball-room, you will be directed to the room in which the girls are to leave their wraps, and he will be directed to the room in which the boys are to leave their coats and hats. Make arrangements with your partner just where you will meet him after you have checked your wrap.

3.—If tickets are to be bought, you, as hostess, buy them. You have at least the first dance, the last dance, and the dances before and after supper . . . and as many more as you think "advisable". And when a partner thanks you for a dance, say something that indicates that you too enjoyed the dance, "That was a delightful dance" or "I enjoyed the dance so much".

4.—It will probably be too late an hour for you to ask the young man to "come in". And he will be the one to thank you for the pleasant time and your hospitality and then you tell him how happy you were that he could come and that you enjoyed having him with you as the dance.

5.—Well, we just what you did in your question "I do not like to give good-night kisses"!

Advice to the Lovelorn

by BEATRICE FAIRFAX

(Copyright, 1932, King Features Syndicate, Inc.)
Famous Authority on Love and Etiquette

Engaged Girl Finds Old Friend a Nuisance

Dear Miss Fairfax:

My fiance took a job in a distant state and has been away for the better part of a year, so he could make more money and we could be married that much sooner.

While he was away, an old schoolmate of mine began showering me with attentions, though he knew I was engaged to Bill. On my birthday he gave me a pin, which I discovered later was his fraternity pin, and when I was told people I'm engaged to him. I've tried to get rid of him and return his pin, which I no longer wear. But he continues to hang on.

Bill is coming home in two weeks, and I'm afraid he might not understand this other man's persistence. I really love my fiance and I don't want him to think I'm encouraging flirting in his absence. How can I make it clear to this other boy that he isn't welcome?

Alice

Register the pin at the postoffice and ask for a return receipt. Then decline to receive the persistent young man who has gone mooning round saying you're engaged to him. It's always a bit risky for an engaged girl to accept attentions from a type of man who sticks close as a burr.

"Better to Ruin His Life Than Her Own"

Dear Miss Fairfax:

The girl I've been going with, for the past year and a half, has another boy friend with whom she's gone, for two years. She liked him a lot and then discovered he was going 'round with other girls, even thinking dates with her to go with them.

The last time she went out with him she noticed he had been drinking and his condition grew worse as the evening went on. She insisted on his taking her home. Later he telephoned from a tavern, and I'm sure he was going out to a party.

The girl cried when she told me about it, and said she couldn't break up with him for fear of ruining his life.

I tried to explain to her it would be better to ruin his life than her own.

Just someone.

That young lady doesn't sound very sensible to me. And as you see, I haven't space to print all her crying spells over a young man who breaks dates, tell lies and takes her out when he's intoxicated. She should send him like the proverbial hot-stove lifter. And before involving yourself further in the life of this soft-hearted young lady, wouldn't it be better to wait till she acquires that worldly wisdom known as horse sense?

Why Use A "Sissy" Laxative?

Chronic constipation has to do with the colon or large intestine. Unless the large bowel is thoroughly emptied from time to time you become a victim of chronic constipation and poisoning of the system which results in colitis or other serious diseases.

Mild or "sissy" laxatives merely cause a movement of the bowels without effecting a thorough cleaning out of the colon or large bowel. Even if this reason you are misled into thinking that you are relieved, you can by overcome a constipated and poisoned condition of the system.

Those who know Dr. Chase's Kidney-Liver Pills appreciate the value of a real medicine which not only effects a thorough cleaning of the colon or large bowel but also arouses the liver and kidneys to activity in filtering poisons from the blood.

Once you have proven the merits of Dr. Chase's Kidney-Liver Pills you will never return to the use of "sissy" laxatives. Used regularly once a week this medicine ensures pure blood and freedom from constipation and the pains, aches and serious diseases which accompany it.

Dr. Chase's Kidney-Liver Pills, 35 cts., at all druggists or The Dr. A. W. Chase Medicine Co., Limited, Oakville, Canada.

SPECIAL NOTICE

To Owners of

Pontiac & McLaughlin-Buick Cars

The economy-riding comfort and satisfaction in ownership you get from the fine car you own depends upon the CONDITION OF THE CAR.

For your own satisfaction, safety and thrift, keep your Pontiac or McLaughlin-Buick up to the standard of new car performance at all times. The need for minor repairs and adjustments often goes unnoticed because the car still runs. It is costly and dangerous to neglect them.

Here is an establishment and an organization that intensively specializes in Pontiac, McLaughlin-Buick service. All the special labor-saving equipment and devices, factory-trained shop men, comprehensive stocks of genuine parts and accessories, and most valuable-to-you of all, a sincere and genuine interest in the good performance of your car combine here to give the Pontiac or McLaughlin-Buick owner the kind of service his car needs at the very minimum of cost.

Bring your car in for oil inspection or a treatment now before any serious trouble develops.

A good automobile dealer makes the car perform as the manufacturer intended it should and as the owner wants it to.

Fashion Flashes

(By ALICE ALDEN)

THREE CHEERS for one of the smartest costumes of the season. It is a suit with skirt of black broadcloth, the hem marked by a band of black Persian. With it is worn a bolero of the fur mounted on the broadcloth, the sleeves formed of round bands of fur with just a bit of fabric showing between. There is a white silk shirt and a red silk sash that wraps twice round the waist and has fringed ends.

MATCHING UP a dress with an accessory is always nice. So with a red crepe suit of light wool worn a calot of black felt banded with matching red ostrich.

PLENTY OF COMPETITION for silver fox as blue fox comes into the picture. A lovely coat is of natural blue fox mounted on brown crepe, the skins worn horizontally through the sleeves and vertically through the bulky body of the coat.

COLOR MOUNTS as colorful hats become more numerous. One colorful affair is a hat with flaring off-face brim. The brim is red suede while the crown is of purple suede banded with the red.

ROMANCE WHIRLS in the guise of a pale blue chiffon frock, full-skirted and all-over pleated. The surplice bodice has planting pleats. A wide crepe of the blue satin and narrow shoulder straps of the same ribbon are other accents.

ARE YOU ONLY A 3/4 WIFE?

Men are never understood a three-quarter wife, who is afraid to be herself for fear she will displease her husband. Or a wife who is afraid to tell her husband how badly your nerves are torn to shreds—no matter how loudly your husband may shout that you're not on your husband.

For three generations one woman has told another how to go through Change of Life with the aid of Lydia E. Pinkham's Vegetable Compound. Today it is more popular than ever. Thousands of letters are written in letters everywhere praising the good it has done them.

Make a note NOW to get a bottle of LYDIA E. PINKHAM'S VEGETABLE COMPOUND at druggists—more than a million bottles were written in letters everywhere praising the good it has done them.

AT THE BELLE
"Man-Proof"

An ultra-modern story of a four-sided romance, "Man-Proof" comes to the Belle Monday (Thursday) and Friday, matinees daily, with a stellar cast headed by Myrna Loy, Franchot Tone, Rosalind Russell and Walter Pidgeon.

Pacing her portrayals as the ideal American wife, Miss Loy now devulges from the same mould as that of a single woman whose man is stolen by a friend.

In the latter settings of metropolitan flavor, Miss Loy appears as a newspaper editor in love with a special climber. Walter Pidgeon, Pidgeon was so believed, Rosalind Russell, instead, and they leave on their honeymoon. Franchot Tone, a cartoonist, secretly loves Miss Loy but will not admit it to her. They remain friends. Miss Loy temporarily forgets her defeat until the honeymooners return when she reports her siege.

CARPENTERS' WAGES ARE UNCHANGED

Wages of carpenters in Kingston and vicinity will remain at the same rate of eighty cents an hour, contractors of the city decided at a meeting held on Monday night.

The meeting was called to discuss the application of carpenters for a ten cent per hour increase. Conditions at present did not warrant the proposed increase, contractors felt.

Students have always been the greatest of radicalism — Dr.

Supplemental Features

Three excellent features have been accredited for exhibition on the same program including a musical comedy "Hello Trouble" and "Trocadero," introducing your favorite screen stars at play. The stars introduced in the Trocadero include, Groucho Marx, Frank Morgan, Glenda Farrell, Benny Rubin, Margot Grahame, Robert Benchley, Peter Potter, John Howard, Chester Morris and others.

Police Blotter

Stolen from its parking position on East Bridge Street, an automobile owned by W. L. Ketchenson, Trent, was stolen in Belleville yesterday afternoon. The vehicle, a Buick Ford se n touring Ontario licence plates number 6-J-599, was parked by Mr. Ketchenson, while he went into the nearby Post Office. He was not absent from the vehicle over five minutes. Mr. Ketchenson assured the police, when he reported the robbery.

Reserve by stated they saw two well dressed men loitering in the vicinity of Pinnacle and Bridge Streets prior to the theft of the automobile. Unfortunately Mr. Ketchenson's ownership card and driver's licence were both left in the stolen vehicle. Police of the surrounding district were immediately notified by long distance telephone, but no trace of the stolen vehicle was forthcoming.

Walter Cron, 18 Brassey Street, reported the theft of a motor car rug from his parked automobile last night. The rug was stolen during the night. Cron's absence into his own home, the motor car being parked in front of his residence.

While patrolling their beat last night local police found a rear window leading into the Lewis Hardware insecure. Investigations by police and company officials revealed no entrance had been effected and the window was made secure.

Thirteen transients sought warm and dry sleeping quarters in the police station last night, while no arrests were recorded on the police

Board Room Gossip

As supplied by Bigger and Crawford
By Financial Service

Market Comment

Sell'em Stocks Important

Daily reports received from the Mine office, of Sullivan Consolidated Mines, indicate that the richest ore lower levels of the mine are bound to develop important ore-bodies of veins Nos. 1, 2 and 4.

No. 2 vein, in particular, is assuming greater importance on the 450 foot level and car samples in last round average $22.10 per ton; opened for a length of 200 feet, this vein extends to another indicated length of 200 feet by a recent diamond drill hole in East direction, showing nine feet of well mineralized vein. On the 325 level, the raise started on No. 2 vein, now driven for over 100 feet, continues to open better than mine average grade of ore.

In the course of last month 70 percent of total mill feed came from development work.

Some quarters are predicting that a better market will develop when final expected, and a rising trend of moderately sustained proportions is anticipated during the next few very old. The market has not been acting very impressively, but at the same time there has been no real liquidation.

The public is not in a buying mood. All recent statements regarding business, business and political leaders, particularly across lines, have not been reassuring. The business recovery has been greatly overemphasized, with the more favorable factors greatly discounted. It is little wonder then that a good portion of the public has had its confidence shaken and it will take some time with a rising market of good proportions to revive confidence.

McColl Frontenac

Gossip on the Street is to the effect that the Texas Corporation has recently added more shares of McColl Frontenac common to their holdings.

Produce Prices On Montreal Market

Montreal, Feb. 9—Another new high for the season was touched on the Montreal bullet market, Egg prices held steady although sales of 644 cases of eggs, 802 boxes of butter, exhibited fresh activity.

Sales at the Canadian Commodity Exchange were 300 boxes as Quebec grass regraded butter 25 1-2c to 100 at 25½c and 100 at 25¾c, the latter being the closing price quoted. Western butter was offered at 25¾c and Quebec seconds 27 score were quoted at 25c to 25½c. Sales of creameries closed firmer, ¼c higher, at 27¾c to 28c for finest, 25¾c to 27¾c for March, and 23½c nominal for April. Small lots in the retail trade were quoted by jobbers at 34c for solids and 34½c for prints.

On the egg market, the graded shipments just arriving, mixed carlots or L.C.L. were 24c to 24½c, 23c for A-medium and 21c for A-pullets, and where A-large was taken along the latter price.

British Dairy Market.

Butter was firm and closer steady on United Kingdom markets this week, according to cable advice received by the department of Agriculture.

Butter: New Zealand, 113 shillings per cwt. (25.05 cents per pound); Australian, 111 shillings (24.62).

"Rippy's" Adventure Leads to Disaster

It was fortunate for "Rippy", Mrs. Harry Browne's prize Angora cat, that his adventure failed to hold the weekly meeting of the ladies aid at her home on Monday day. For while "Rippy" was investigating the trail of a very daring mouse in the cellar of Mr Wellington home he inadvertently got into the half-filled cistern.

His cries of distress were heard by Mrs. Wellington, climbing cellarward to investigate, one of them grabbed "Rippy" by the neck and a good deal the worse for the exhausted condition.

"Rippy" was then blankets and placed on a warm register, "Rippy" was examined by Veterinary Surgeon John Smith, who reported him out of danger.

KI-Y NOTES

Three games of hockey have been scheduled in the Ki-Y League at the Arena on Thursday and one game on Saturday at the Arena on Secretary J. E. Shorit announced today.

In the Midget series on Thursday St. Mikes meet the Flying Wings at 4.15 p.m. while the Overlea clash with Frank Cunningham's O.S.D. midgets at 5.15 p.m. In the Intermediate group the Canadian Car Maroons meet at 8.15 p.m.

On Saturday the Sherbrookers and Tiger Pups play at the Arena at 2.30 p.m. in a scheduled Bantam series game.

HOG QUOTATIONS

Toronto, Feb. 9 (CP)—Live-weight bacon hogs paid a limit of $4.15 today at Toronto and Hamilton, it was decided by the Canadian National Live Stock Exchange. Dressed-weight prices were unchanged.

Liveweights: Brantford $4.15; Hull $4.15; Chatham $3; London $4.15; Stratford $4.15; Peterboro $4.65.

Dressedweights: Barrie $11.40; Hull $12; Chatham $11; London $12.80; Brantford $12.80; Stratford $11; Peterboro $11.65.

Belleville Juvenile H. C. Organized in City to Help Develop Teen-Aged Players

Club Will Affiliate With Provincial Juvenile Assoc.

OFFICERS NAMED

Albert "Toots" Holway to Manage And Coach Team

In an effort to foster, improve and stimulate interest in Canada's national game and pastime, ice hockey, and to protect and promote for the mutual benefit of the teen-aged youths of the city of Belleville, the Belleville Juvenile Hockey Club was organized in the city last night.

The team, to be known as the Belleville Juvenile "Hi-Speeds" will be coached and managed by A. R. "Toots" Holway, former member of the Montreal Maroons and ex-manager of the London Club in the International League. While Wm. J. "Bill" Cook was elected as the club's first president.

Directly after the organization meeting of the club last night, application for affiliation into the Ontario Juvenile Hockey Association was sought and entrance fees forwarded to the head office in Toronto.

"There is a marked need of organized hockey among the youths of our teen aged youth, although the Ki-Y leagues are doing a great work along this line. As I see it the youth of this city is hungry for hockey and are not afforded sufficient time in which to develop their prowess along these channels. The Juvenile O.H.A. I believe there is a good chance of developing good players for the city Junior O.H.A. team, and thus assure our city of a competitive club in the lower ranks as the years advance. I am willing to co-operate in any way possible in order to stimulate the interest in hockey in general," said Manager-coach "Toots" Holway after the meeting. The Hastings Arena management is also enthusiastic in the sponsoring of a civic juvenile hockey team and has promised their assistance in the matter.

Practices and exhibition games will be arranged for the proposed Belleville Juveniles before they actually enter into the Provincial juvenile competition ten days hence. The Ontario Juvenile Hockey Association is a provincial-wide organization and boasts of over 100 hockey clubs eligible games between the age of 18 years. The organization is recognized as one of the finest of its kind on the continent, as there is an absence of commercialism and the game is played for the game's sake. The public of Belleville is urged to support and interest themselves in this worthy cause that meets a long-wanted need in Belleville.

The election of officers of the Belleville Juvenile Hockey Club are as follows:

Hon. Presidents: C. A. Cameron K.C., M.P.; R. D. Arnott K.C., M.L.A., Mayor Anderson and Manager R. R. Dowsley.

President: Wm. J. Cook.

Vice-President: J. N. Tanover.

Sec.-Treas.—Ken J. Collins.

Executive Committee: R. B. Orbble, A. G. Meagher, Art Urquhart, Robt. Miles, W. J. Illey, Dr. R. H. Frost, G. Woods, Harold Jacil McIntosh, George Laughlin and Inspector Frank Gardiner.

Manager-coach: A. R. "Toots" Holway.

RECORD-BREAKER GETS HER REWARD

A. G.—Vanderbilt's record-chattering chestnut filly, Calley Gate's pet her sugar from the mouth of Milton Woodward, exercise boy. Wood-ward offered a cough drop instead of a sugar cube and Calley Slave has been a cough drop fiend ever since. The 2-year-old horse, daughter of Cloe-Sally's Alley, recently broke the world's record for three furlongs, completing the three paces in 33 4-5 seconds.

NEW QUEEN OF WORLD'S FANCY SKATERS

Scoring a surprise defeat on her countrywoman, the highly favored Cecelia Colledge of Surrey, Eng., Miss Megan Taylor of England, won the world figure skating championship against the world's finest woman blade artists in the international meet at Stockholm, Sweden. Miss Colledge was a close second to the victor who is seen here in one of her numbers.

"CORRECT CLOTHING FOR MEN"

Sweeney Schriner of Amerks Regains Scoring Punch as Team Defeats Maroons 3-1

Amerks Now Five Points up on Maroons in Division

BRUINS WIN 3-1

Chicago Black Hawks Unable to Cope With Boston's Speed

(By A. E. Pulford)

(Canadian Press Staff Writer)

The Daffinee Boys from Eighth Avenue, waved back into the Stanley Cup playoff scene by Sweeney Schriner's magic scoring wand, seem on their way to prove a hockey team can be lighthearted and still earn a crack at the world title.

All season New York Americans have gone about their work in the National League with grins on their faces, mocking more serious clubs playing life and death roles on the hockey stage. League Champion Amerks have scampered through their games like gamins with nothing to lose.

Lately it hasn't been working so well. But even the fact they played ten games without a win failed to contrive Red Dutton's hired hands they weren't destined for a spot in the playoffs. Their dressing room continued to provide the most hilarious entertainment on the League circuit.

Faith Justified

Their faith in themselves was justified to some extent last night when they defeated Montreal Maroons 3-1 in Madison Square Garden, their Eighth Avenue home for their first win since January 19 — two runs also were their victims then.

For the New Yorkers the victory was something more than just another hockey game won. It broke their slump, snapped Schriner out of the scoring doldrums and shot them five points up on Maroons in their opposition for a playoff place.

The decision also brought the possibility they may soon be battling Montreal Canadiens for second place in the Canadian Division. Habitants now lead by only two points and injuries have taxed their strength heavily.

While Americans were strengthening their hold on the Canadian Division third place Chicago Black Hawks lost an opportunity to move away from Detroit Red Wings in the American Division. They were beaten 3-1 by Bruins in Boston, increasing "Flying" chances of overstepping out the half game that separates them from Hawks' American section third place.

Schriner Scores Two

Schriner scored two of the American goals against Maroons, as many as he scored in the ten games before last night. After he had marked up his first in the middle period, Bob Gracie tied the game in the third and Happy Emms got the winner. Then Schriner scored with less than three minutes to play and made sure of America's fifth win over Maroons in as many starts. ists season.

For the Boston game Hawks were without Louis Trudel, Mush Marsh and Art White while D. Clapper and Ray Getliffe were off the Boston lineup with injuries.

The "Krazi" line from Kitchener, Ont., figured in two of the Bruins' goals. Buddy Baker scored in the second period and set up the last goal of the game for his linemate Porky Dumart. Art Jackson got Bruins' second and Art Jerome only scored the only Hawk marker.

Comedy Moved Up

Connolly was moved up from Springfield of the International-American League by Hawks to bolster their team, only one of many minor leaguers, who are given a taste of the big time as injuries take their toll.

Canadiens brought up Tony Demers from New Haven Eagles a few days ago and now have called for George Brown, Cecil Amundsen and Guy Maurice from their farm team. They have Armand Mondou, Polly Drouin, Don Willson and Tom Blake on their sick list.

Manager Conny Smythe will look over three Syracuse players when Toronto Maple Leafs practice at Toronto Arena Thursday and select a replacement for the injured Bun Boll from George Parsons, Max Bennett and Bill Thompson.

WHAT CANADA DID AT EMPIRE GAMES

(By The Canadian Press)

Wrestling: Heavyweight — John Whelan, Vancouver, first fall; lost second bout on points. (Eliminated).

Swimming: 110-yard Freestyle — Bob Pirie, Toronto, won in final.

Women's 110-yard Freestyle — Dorothy Lyon, Toronto, third in final. Phyllis Reed, Vancouver, fourth in final.

880-yard Relay: Canada's team (George Burleigh, Toronto; Bobby Hooper, Vancouver; Gordon Devlin, Toronto; Bob Pirie, Toronto) placed second.

Diving: Women's Springboard — Lynda Adams, Vancouver, placed third. Barbara Richards, Winnipeg, placed fifth.

Men's Springboard: George Athans, Vancouver, placed third.

Women's High Tower: Lynda Adams, Vancouver, placed second.

Men's High Tower: Geo. Athans, Vancouver, placed third.

Rowing Fours—Canada's crew (Donald Davis, John McDonald, Stanley Temple and Max Winkler of Victoria; coxed by Kenny Jaggard, Vancouver) placed third.

345 RINKS IN WINNIPEG SPIEL

Howard Wood, Granite Club Ace Out of McDonald Memorial

Winnipeg, Feb. 9 (CP)— The Manitoba Curling Association's Tuffie Bonspiel entered its second today with the record entry of 345 rinks in full swing.

As the 50th annual event opened yesterday, 1,380 curlers played 346 games with, by one rink scored. No major upsets marked the opening rounds.

Howard Wood, Granite Club ace, was the winner last night of the Macdonald Memorial, premier event of the bonspiel, when he defeated the Granite Club six, Howard Wood 14, Rs won 10. Tankard in 1930. Bob Courley, Winnipeg, who won in 1931, and Ernie Pollock, 1933 winner both advanced in the Macdonald Memorial. Seventy-two rinks remain.

Today's former Canadian championship skips met. Leo Johnson, Macdonald's Brier Tankard champion in 1929, defeated the Granite Club ace, Howard Wood 14-8. He won the Tankard in 1930. Bob Courley, Winnipeg, who won in 1931, and Ernie Pollock, 1933 winner both advanced in the Macdonald Memorial. Seventy-two rinks remain.

BOXING BROTHERS ARE PROGRESSING

They're Only Worry is That Both Can't be Champions

(By Jack Bradley, Canadian Press Staff Writer).

London, Feb. 9 (CP)—The only fighting worries in Canada's boxing brothers, Packy and Danny Palli, is that they both can't be the British Empire heavyweight champion.

That rung in their ladder of ambition is far off but they're both been climbing fast and winning most of their fights the quick way.

Most prolific fighter set from North America to storm England's boxing rings since the invasion of Maxie and Buddy Baer, the punching Pallis are going about their job methodically.

Just as methodically as they have been knocking over fancy on their parents' stock farm at Richibucto, where they gained their gigantic physique. Both stand six feet, two inches and weigh about 190 pounds. Danny is 22, Packy 21.

"We know we've got a lot to learn before we're going into first class competition," declared Danny, but Packy disagreed.

Their records, while brief, reflect potential ability. Danny's score of matches include 17 wins, nine of which were knockouts, two draws and two losses. Packy has had 18 fights. Of his 14 wins, 11 were knockouts. His record also includes a loss and a draw. The brothers became Canadian heavyweights.

These figures include their Canadian bouts.

FOURTH SIDNEY WIN OVER ZIONS IN LOOP PLAYOFF

Score is 2-0 Both Counters Coming in The Last Period

FIRST GAME TIE

Sidney Needs But One Win to Cop The Silverware

Stirling, Feb. 9.—(Special)— The biggest crowd of the season was on hand to see the play-off game between 4th of Sidney and Zion for the Championship of the Central Hastings Rural Hockey League last night. They battled to a 3-3 tie in their first encounter after ten minutes overtime both teams and were out to get a win last night. The result of this determination was more than pleasing to the crowd, who saw one of the finest games played in the league this season. Although Sidney won the game by a margin of two goals and looked that much the better on the night's play, the series are not over yet, and the betting odds are not very big either way. One of the most enthusiastic spectators was Art Vermilyea, who nurses a fond hope that his Sidney group will be the champions after the final fall sound. This is the first time that Sidney have been associated with the league and to cop the old mug the first time would be an enviable feat. But there are fifteen men on the Zion crew who say it will be done and are out to prove it. Whatever the outcome may be they have both displayed fine hockey and good clean sportsmanship and next year's activities will find the league the looked forward to with a great deal of anticipation.

The Game

Both teams played a bit cautiously and waited for a break, but close checking on the part of both teams held the play from developing into any dangerous tries on either goalies. Thompson and Carson shared equal honours in brilliance of net minding with Thodpson stopping a few more than Carson, Zion's goalie registered in the first.

Only two penalties were issued in this period Townsend and Knight each drawing two minor penalties. Midway through the period play was held for a few moments while Townsend was sinsidered by a shot from the stick of Cullaine, Referee Harrell ruled that the period with each team checking close and the defence players turning in a fine game. Neither team could score and no penalties in this period. Harrell's ruling was upheld and no robbed of several good scoring chances.

Carson Fooled

After four minutes of the last period Sidney goes Harrell and Ackers mark combined on a fine rush beating the defence and Carson for the first goal of the game. Zion pressed for the equalizer and Thompson kept busy for the next few minutes but managed to keep them down and then got through the defence. With all Zion on the offensive Lupinette broke away to net Sidney's 2nd goal in the last and the game ended that way. In the first game of the series last night Zion gave Zion's one more chance to even the count but on Sunday night Sidney gets the cup; if they win a fourth game will be necessary and perhaps Art Vermilyea will miss his wish. In any event he has done cheering for the best team. Friday night should provide the fans with a real game. Harrell, Thompson, Lupinette and Culhane were the choice of the Sid. Ackers, Tapps, Parks and Dickey were the most effective for Zion. Bobby Carson and Thompson were outstanding in the game.

Line-ups:

Sidney—Goal, Thompson, defence, Johnson and Knight; centre, Harrell; wings, Vermilyea, Suhe, E. Jarrell, Lupinette, Faux, Semark and Culhane.

Zion—Goal, Carson; defence, Kennedy, defence; Day, centre; wings, Tapps, Brought; subs, Townsend, Parks and Ray Dickey.

Referees—Wallace and Ackers, Stirling.

That's the trouble with radio and movie. They distort one's sense of values. — Cornelia Otis Skinner, actress, who gets paid as much for eight words over the air as the radio as she gets for a week on the stage.

GOODYEARS WIN AT OWEN SOUND

Not Used to Soft Ice And Given Quite a Scare

(By The Canadian Press)

If anybody has the idea some team in the Ontario Hockey Association senior "A" group is marching towards the Allan Cup playdowns along a one way street, he might be a good idea for him to sit back and think things over again.

Pin on the week-end Goodyears of Owen Sound sat night, the potent Toronto Dominion, leader of the senior "A" loop, had a hard time beating the Trappers, an intermediate team, 6-4. The classy Goodyears, accustomed to hard surface of artificial ice, found it difficult getting against Trappers.

Although Goodyears led all the way, the Owen Sound boys almost erected the cup in the last period when Toronto was leading 5-2. The homesters scored a goal and threatened another, before Red Heron scored goal to make Goodyears' victory secure.

Meanwhile, Port Colborne Sailors resumed themselves as the senior "A" group's second position by defeating Hamilton Rangers 6-3. Oshawa G-Men drew even with Sailors the night before when they defeated Toronto Greenshirts. Oshawa has still played one game more than Sailors.

Last league game is scheduled for tonight when Goodyears have their three leading teams play off for the right to meet winners of other O.H.A. groups for the Ontario championship. The Ontario champions will then play the Allan Cup playdowns in search of the Canadian title.

B. C. I. V. S. SPORTS

Decisions were gained in two of the four games played in the Belleville-Trenton Inter-Town Hockey league at the Arena yesterday afternoon, the games resulting in the remarkable tie.

Form P9 battled to a one-all tie with Form R, both squads scoring their counters as the result of combination play in the last period. Mc-Gee scored on a pass from Jones for Form E, while Bockus sank the equalizer on a pretty rebound from Carter for Form P 9.

The only decisive victory came when Form 2B trounced Form 2A three to nothing, Hall scoring two goals and Lloyd Hall one. Thompson and Riley supplying the defensive passes, both combining in goals.

Form 3AB battled Form 3 Commercial to a scoreless tie while the final game was won 2 to 1 with D. McLean scoring both Form goals and Bradley scoring for the losers.

The games were capably handled by Referee Francis Cavanaugh.

The line-ups were as follows:

Form P9 (2)—Burkholder, Bockus, Gearley, Bradley, Carter; Coleman, Brennan.

Form R (1)—Goal, Ingram, Langabeer, Lynch, McCormick, Mills, Jacko, Middleton, Jones, Kokesh and McGuire.

Form 2B (3) Hall, Hickey, Harrison, Thompson, Hutchison, Riley, Joby, Flindall, Lynch and Ellis.

Form 2A (0)—Goal, Clarke, Burley, Mills and Bradford.

Referee—F. Cavanaugh.

Hockey's Big Seven

(By The Canadian Press)

Bill Cowley of Boston, held points less in his team's 3-1 victory against Chicago, was the only member of the National Hockey League's scoring leaders to be held scoreless. There was one change in the Big Seven however as official statistics gave Paul Haynes of Canadiens two assists not previously included in unofficial compilations. The points placed Haynes in a three-way tie for seventh place with his teammate George Mantha and Cowley. They have 20 points, eight fewer than the leading Gordon Drillon of Toronto.

The leaders:

	G.	A.	Pts.
Drillon, Toronto	18	19	37
Dillon, Rangers	18	13	31
Apps, Toronto	12	19	31
Mantha, Canadiens	7	13	20
Cowley, Boston	7	13	20
Haynes, Canadiens	5	15	20
Blake, Canadiens	7	13	20

LANKY BOB PIRIE WINS TWO TITLES

Sydney, Feb. 9.—(CP-Reuters)— The flailing arms of Toronto Bob Pirie carried him to two championships in the British Empire games swimming program today. He narrowly missed annexing a third title as he turned in as dazzling a performance as Sydney swim fans have ever seen.

The Toronto boy opened the day with a record-breaking victory in the 110-yard freestyle, clipping 1.3 seconds from the mark he established for the new Empire distance in 1934.

He crashed the Australian 220-yard mark and his own Canadian record-time for the distance when he sailed by the finish line to come on the last lap of England's lead in the 880-yard relay.

Then he climaxed the program with another record smashing victory, cutting 2.3 seconds from the eight-year-old 440-yard freestyle time of 4.59.8.

LEE TAKES A BIFF SQUARE ON THE NOSE

Right on the nose Glen Lee, of Nebraska, took this short left from Fred Apostoli, of San Francisco, in their middleweight bout in New York which was expected to be a walkover for the San Francisco who recently whipped champion Freddie Steele, but which proved to be instead a rather tough Lee. Lee was decisioned but most of the experts figured a majority of the 12 rounds. As the picture shows, Apostoli was always on top and Lee was doing most of the taking but he stayed in there till the final bell.

N.H.L. STARS

(By The Canadian Press)

Dave Gerwing, Schriner, Americans, scored two goals to lead team to 3-1 victory against Maroons.

Happy Emms, Americans, whose first goal of season was winning one against Maroons.

Bob Gracie, Maroons, scored Montreal goal.

Bobby Bauer, Boston, netted Bruins' 3-1 win over Chicago with goal and assist.

Paul Haynes, Chicago, saved Hawks from shutout with third period goal.

Between the Lines

CALLING 'EM

with *Ken J. Colling*

In a recent poll taken among recognized authorities of hockey, the Ida Hod Stuart was voted as one of the game's immortals. Hod Stuart was tackling in Belleville during the summer of 1907 and being a lover of swimming took long plunges into the inviting waters of the Bay of Quinte. Stuart's failure was a resident of Ottawa, but was in Belleville as the contractor building the present Belleville Armouries that year. "Hod" Stuart, then a recognized star in hockey circles, one fine June day swam out to the lighthouse, at the entrance to the Belleville harbour. Climbing to the turret of the lighthouse Stuart proceeded to the railing, and having any realization of the shallowness of the water below, he plunged and dived head-long. There might have been one awful spill-second of cold realization, then blackness, because Hod Stuart had broken his neck, when he struck the rock bottom, only a few feet below the surface.

The reason we bring back that rather unpleasant incident is because of a recent article published in Gene Ward's column of the New York World, wherein remaining, informed his readers that Stuart, the pioneer of modern Daily-checking at hockey, was drowned in the waters of Lake Ontario, after he dove off a low cliff. Such was not the case, however, Stuart's untimely death came at the mouth of the Moira River and at the entrance to the Belleville bay and not in any way as related. Ward goes on to say that the late Hod Stuart was the first man ever to play professional hockey, a statement we cannot contradict or verify, however.

There were others who were hockey during the pinnacle of their hockey prowess, whom perhaps Chuck Gardner, the sterling Chicago coach, could profitably consult, although Bad Joe Hall, who went with the Flyers during the 1915 Stanley Cup finals, was rated high, as was Cyclone Taylor, of the Ex's, who was drowned after a brilliant first season in the N.H.L. But it had to be remembered that Taylor and Joe Hall that the great game of hockey was played differently than they gave much more than they were required to play and that there are not a few players of this type in our midst today.

Nobody, Mr. Ward would be interested in a game of hockey in Winnipeg when the former heavyweight champion, Jack Dempsey, became tangled in a three-cornered scrap in his dressing room, and "He was robbed" Jacobs and Schmeling's second, jumped to the other two little participants. That's the night Jacobs walked out on Jack Schmeling after bringing him to America. That incident was really "smelling." But Jack Dempsey became ancient history after Herr Max slipped to the canvas for the last time, but it was quite a battle while it lasted and Jacobs didn't cash in on it. Jack, by the way, put a crimp on the snoozle from cousin Jack.

Still unable to decipher that Sterns' incident of local junior hockey circles, the Intelligencer sports desk has been unable to get to the bottom of the Belleville sports note: "We can readily understand why the Redmen have in recent years been defeated from Kingston, Napanee, Deseronto, Campbellford, Tweed, etc., as junior hockey is left to the air, if the local club deserted the junior Colts just 'cause they were having a lower standard, how long do you suppose we'd have good kids coming up in O.H.A. ranks?" Furthermore, there used to be a penalty in the O.H.A. for clubs defaulting without some excellent reason before the season concluded—and Thomson presented the local interests at the start the team would fulfil the schedule or forfeit—but apparently it seems to be a case of Belleville dropping out whenever "any sufficient interest" by the fans is absent. Oh, well, the Colts will have to look elsewhere now for competition. At least they are playing hockey again.

Johnnie Laronde, elongated R.C.A.F. defenceman, has sustained a shoulder injury during Monday night's game here, will not be in the line-up against Queen's "intercollegiate" team, Wednesday. Laronde suffered somewhat from his injury during on Monday night with the result that he went to the Belleville General Hospital yesterday for an X-ray. Which disclosed no fracture but a badly bruised shoulder and possibly torn ligaments. Coach Carling-Kelly is taking no chances however, and is resting the big boy for the more important Peterboro play-off series. Laronde has been a tower of strength with the "Airmen" this season, his poke-checking being a feature, while his offensive play has been right up to the minute. He has scored five goals and seven assists in seven games played.

Do you remember when less than 1,000 persons saw heavyweight champion Jack Dempsey and Gene Tunney, Dutch Seifert in 45 seconds at Memphis, Tenn., 14 years ago last night. The Manassa Mauler lost his boxing crown to Gene Tunney on Sept. 22, 1926 and in a return bout Sept. 22, 1927, again lost—this time before an all-time-record crowd of 120,757.

Due to change in the schedule the C.O.R. play-off games here are playing their Belleville and Moira C.O.A.A. opponents here at the "Y" tonight versus Coach Jack Dickens' local team-keepers. The Napanee C.I. seniors are playing the Belleville C.O.A.A. squad to give the patrons of the game a double header attraction at the "Y" this evening. These girls have been clicking up hot stuff in their each game.

HODGE PODGE! — Leo Gehrig snubbed a contract for $36,000 offered by Col. Rupert. Undaunted, Gehrig says he'll consider $41,400, or an increase of 15 percent.—It seems from this corner that the Yanks are losing a full advantage of the generous Jake Rupert, although one cannot blame a person for peddling his services and ability for the highest possible price.... Col. Jake says DiMaggio can get for $25,000, and Gehrig for $36,000 or else....While it seems a bit petulant, as the saying goes....The kid that Jim Corbett, the Golden Gloves boy, is seeking his third million—and who says wrestling is fixed? and so long, after that one.

Mrs. W. Simmons is much better after her recent illness.

Mr. and Mrs. Cumming, Sask., and Mrs. M. Pitman, Stirling, spent last week with Mr. and Mrs. John Paterson.

Little Benny's Note Book

We was eating breakfast and pop said to ma, Wow, did I have a dream? I dreamed I was shaving my face and thinking of very charitable thoughts, as I always do when shaving, and suddenly with an abrupt but graceful gesture, I knocked your jar of Princess Lillian face cream out of the cabinet into the bathtub and it broke into a million of splintered pieces and frying cream, he said.

Myaven as a dream the very last time I shaved, my priceless 6 dollar and 40 cent jar of Princess Lillian, ma said, and pop said, You had more than a chill in my dream, Wow, did you hit the ceiling and did the ceiling hit me. I tried to smooth things over by remarking pleasantly that the cream must of been real vanishing cream, the way it vanished all over the bathtub, but it only seemed to make matters worse. You turned the air blue with uncomplimentary phrases about me and then tore out the remaining handfulls of my hair and flung into my pale frightened face, he said.

My, Wilfyum, I didn't think I could be such a terror as all that, even in a dream, ma said. After all, even if such a calamity actually happened, I'd have enough common pole to realize that you hadn't done it purposely and it was unavoidable she said, and pop said, That's cheering, because by golies it actually did happen and I was just trying to break the news gently.

Wilfyum Potts, that's gaudy, now will you tell me how you could go and do such a thing? ma said, and pop said, I didn't do it on purpose, it was unavoidable. If you dont mind my repeating your own broad minded words.

The result being that ma couldn't think of anything else good to say before pop had time to fold his paper and leave for his office whistling as if he thought he was great. Wich he is.

Feature Programs for Today

WEDNESDAY, FEB. 9.
NIGHT

8.00—Dear Teacher, Madeline Gray.—WABC.
7.15—Hobby Lobby, Dave Elman, director; Stuart Allen, Harry Salter's orchestra; guests.—WABC, WGR.

"What have you got against me?" Marjorie Martin asked, not only mentally checking off everything she had packed, searching for her gloves, purse and watch. "Bill Leland——the bum!" Gerda answered.

Maydra stood quite still. Bill—a Harvard man—had forever ostracized it. But, then, he would not! Any man who could say anything about the music he wrote as a hobby, or the polo he had once played——

Sam rang the bell, then, and cast short, airy further soliloquy on the vicissitudes of advertising men.

Gerda let him in, and he came quickly forward to take Maydra's luggage, pausing to openly admire the coat and frock.

"Gorgeous!" he murmured appreciatively. "Maydra, Maydra, from Suzanne's!"

Gerda nodded emphatically, before Maydra could answer, and flung them a cosmic glance. "Wouldn't you know she'd have to have an aunt like Suzanne. Isn't that the limit? Say, her cough, otherwise?"

The Sergeant at the winding Post Road to Boston was uneventful, quiet, restful. Maydra realized she had had a busy week, and was grateful for the calm relaxation of the drive.

Not until they were, walking down the steep steps of the station, just as the players loped into the gridiron, did she remember. "I think she knows! I told all of Tommy's letter. That it still lay in the top drawer of her handkerchief, where she had placed it, the night it came!

Sam paused a little, sort plaid blanket into the arm for her to sit on; wrapped another about her feet and legs then settled beside her as the car drove on, and began stimulating knowledge that everywhere about them, everywhere engines their way, everywhere were men and girls were noticing Maydra's coat and gown with varying degrees of envy, jealousy, wistful admiration, or frank, open admiration.

Just before the last quarter, a man in football uniform, his broad shoulders encased in a leather jacket, his grizzled head bare, his gray shirt open at the throat, and wielding the pick and shovel celebrating, Maydra, was enjoying the sense of well being with, enthusiasm.

Then they were still. Sam and Spud, with Tommy in the middle of the front seat, leaped out, their cheeks were blue and a little hurt, but eager, dancing with the excitement of excitement.

"Maydra!" Tommy said at last, elbow, before she could, even drawn her hand from "Maydra, darling Cloak, I'm glad you could make it!"

He towered over her, beaming and so proud he wanted to yell: "Hey, people, look! My girl.... this beautiful, gorgeous person here is my girl! Pardon me, I'm only Chisholm ..... if she'll have me!"

Yesterday Mary was at the office as usual. It was only a slight cold. Today she is still ill. The "slight" cold developed into something more serious.

There's only one way to treat colds, and that is to go right after them at the first sign. That's a cold remedy that gets at the SOURCE of the trouble—Cold's Enemy—Quinine. It does the four necessary things to drive the cold right out of your system decisively and effectively.

1. It opens the bowels gently but effectively.
2. It attacks the cold germs and fever in the system.
3. It relieves the headache and the "grippy" feeling.
4. It tones up the system and helps fortify against further attacks.

At the first sign of a cold go right to your druggist and buy a box of GROVE'S BROMO QUININE. There is a WHITE box. The large size gives you 36 2½ more for your money. They now come sugar coated or plain.

If taken promptly GROVE'S BROMO QUININE will usually stop a cold within 24 hours. This is the kind of action you need to drive out that cold at once.

RELIEVING COLDS FOR 40 YEARS

Johnny's Iron Horse

By ALICE V. LINDLEY

Things in Rawlins were progressing smoothly. That little cow town was the fortunate possessor of an exceptionally strong limb of the law. A fat, mild-eyed man was its sheriff, and while a student in physiognomy would not have been particularly fooled by the man's apparent clumsiness, many a bad hombre had stopped a bullet before realizing his mistake. Then, too, right now the sheriff's constitutional fear of Sandy, who due to the fact that he had tracked and captured a gang of marauders on foot five years ago in the hills, had come to be known as the Walkin' Deputy. Stories of his cleverness and nerve had been broadcast up and down the country, and just at present people with questionable characters seemed to have an unconquerable fear of Rawlins.

For this respite the sheriff would have been duly thankful if he were not been for the peculiar actions of his new deputy. For the average of twice a week the Walkin' Deputy shaked down his hair, adjusted his pearl-handled six shots, while the sheriff looked on with a mixture of amusement and pride.

"I bet you're sparkin' a gal, John-ny," he accused one night after watching this procedure in silence several times. "Who is she?" he asked in explanation from his deputy.

"Yes, sir, I bet you're sparkin' a gal. Never did have any luck with deputies, nohow. Take Ed Starks. He married the feller and died with the measles. Forty-two years old he was. Then there was Jimmy Bob-son—he went to New York and got jailed. It was all in the papers, and you can see for yourself how it is with Ralph Hunter—he married that tongue-lashin' female Matilda. Now, I ain't never had no luck with deputies. I thought you was goin' to be different. Maybe the sheriff's voice was pathetic, though hens eyes twinkled—"but here you went palsin'ing around with some flighty ones that iron Horse of yourn's liable to run off with."

Old Mack Adams rode into town, heard the tale with and profanity, behind him, loudly demanding the sheriff. It was Johnny, however, who heard the tale of the cattle-thief's voice was pathetic, though hens eyes twinkled—"but here you went palsin'ing around with some flighty ones that iron Horse of yourn's liable to run off with."

Old Mack Adams rode into town, heard the tale with and profanity behind him, loudly demanding the sheriff. It was Johnny, however, who heard the tale of the cattle-thief's riding going on up to Adam's section of the country.

That night, at the appointed hour Sandy, the Walkin' Deputy departed in state, leaving behind a disappointed sheriff.

Straight sure he'd stay in town tonight, couldn't cut rustlin' business in the dark, nohow. Wonder who that gal is, anyhow? Then he turned in the opposite direction, but I can't recollect no gal around the livery stable."

About 10 o'clock the Walkin' Deputy emerged from a little while cutting across the hills and walked confidently over to his iron horse. It was then that he noticed the trail that he felt something, and he stopped.

"You just stop that flivver, young feller," came a voice out of the darkness. "Don't you dare go a-ridin' in the back seat if you don't want a bullet through you. I'm not used to this buggy ridin' and we might have an accident. Now you know why you been hangin' 'round this place up near old man Adams' but you stop that pretty quick. I'm like we been nearin', but you can't have that gal. Now you go on, I just decided to let you take a perfectly good horse and ride off in sorrows and worries, and, whew!" He chuckled, delighted with himself in the situation quickly. Three fellows thought he need something to do, and decided to help him out of him. Well, he had one chance and he grabbed it. He drew his gun, with a quick movement he stepped back and fired in the direction. Then, turning forward with a mighty jerk, straight toward the roughest section of mountains in the section.

Threats, curses, prayers, moans came from the back seat, while Johnny hung on to the wheel praying to the Lord that the car would hold together.

Mr. Douglas Lidster, who had been spending some time with his brother Mr. Norman Chrichin, returned to Toronto after consultation in Belleville General Hospital on Saturday, where he underwent a tonsil recovery.

Poultry Farming Requires MONEY

Poultry pays, with scientific handling. The flock must be a good breed:—should you buy chicks this Spring? Surroundings have to be kept ship-shape:—should you replace wire, install new traps and fencing equipment or improve buildings? Specialized feeds produce better birds, more eggs, and eggs that grade higher.

If you are short of money at the time when a profitable investment in poultry or stock could be made, ask us to assist you. Our Manager will be glad to discuss your plans.

Mr. Atkinson, a student of Albert College, Belleville, occupied the pulpit on Sunday morning in the absence of Rev. R. R. Nicholson. The latter is ill for the past few days.

Tuesday evening service was withdrawn.

Tweed High School hockey team won a game on Friday evening last from Madoc on Friday evening at Tweed Arena, scoring only one-third of the nine goals, as they went down to defeat by a score of 6 to 3. Keiller was the high scorer for the visitors with four goals. This is the same boy who usually plays the intermediate team to victory in games, and bears watching every time he steps on the ice. Hawthorne and Irwin scored the other goals for the locals and Wagar the other. The referee was Ken West, Madoc, and "Toey" Mersu, Madoc. Tweed line-up: Goal, J. Conroy; Defence, D. Price and F. Doyle; Centre, G. Wagar; Wings, F. Picton on Wednesday. Mr. and Mrs. B. Snyder, Mrs. Nuyen; Defence, B. Arber, A. Courneyes, G. Luffman and M. Vance.

Tweed

Tweed — Russell Eaton, nine year old son of Mr. Eliel Mrs., M. Eaton of Lodgecourt, and a pupil of Tweed Consolidated School, cut his left hand badly on a piece of tin and a broken glass at the noon intermission on Friday of this week. Dr. Clifford F. O'Connor took the young lad to a local physician who dressed the injury, several stitches were necessary.

Mr. Percy Hawthorne from Tweed attended the dance sponsored by the Belleville Bankers at Johnson's Beach, Belleville on Friday evening; Mr. and Mrs. A. S. Aiken; Mr. L. H. Spencer, Mrs. Spencer and Carson, Peterboro; Mr. Jack Tummon, Miss Jean Sills; Mr. Ernest Tummon; Mr. G. Bailey; Miss V. Allen; Mr. Ken Callahan.

Mrs. Lena Rimmett and family of the Veterans' Hall on Friday evening. There were eight tables and Gilbert Cassidy was the winner of the prize donated by Lobage Motor Sales.

A chicken reports that he and his wife were drenched on Saturday evening by a local motorist who failed to slacken speed as he passed them while they were walking along the road. This is the second time during the past few weeks that pedestrians have been splashed by careless motorists.

Douglas and Glenn Connor entertained a number of their friends on Friday evening at a sleigh riding party, followed by a supper to which the boys did full justice.

Mr. Atkinson, a student of Albert College, Belleville, occupied the pulpit on Sunday morning in the absence of Rev. R. R. Nicholson. The latter is ill for the past few days.

Need Building-Up?

WHEN you feel out-of-sorts, when you've no appetite and enough gives trouble, with gas or cold indigestion, why not try Dr. Pierce's Golden Medical Discovery. Read what Mrs. Lena Manning, 163 Wellesley St., Strathroy, Ont., said: "Some time ago I was very pale and thin, and I felt tired and worn-out most of the time. I never cared to go out and sleep didn't seem to refresh me. I decided to try Dr. Pierce's Golden Medical Discovery and after taking a few bottles I felt improved greatly and soon regained my health. I now recommend it to my friends." Now size, tablets 50c, liquid $1 and $1.35.

THE WEATHER

Fresh northerly winds; fair; colder tonight. Friday, northeast to east winds; partly cloudy and cold.

BRIDGE COLLAPSES, FAMILY THROWN INTO FLOOD

Frenzied Horses Plunge Over Woman and Child In Flooded Batteau River

Husband Rescues Wife And Daughter at Collingwood

ICE WEAKENS BRIDGE

Crash of Bridge Plunges Cutter, Occupants and Team Into Stream

Collingwood, Ont., Feb. 10—(CP)—Flood waters of the Batteau River almost claimed an entire family late yesterday. Only the heroic efforts of Fred Girdwood saved his wife and daughter from drowning in the ice-jammed river.

Returning after dusk from a church meeting, Girdwood and his family were spilled from their cutter when a single-span wooden bridge collapsed. Mrs. Girdwood and her 10-year-old daughter, Elsie, were submerged in the cold water. Mr. Girdwood gained his feet and stood chin-high in the water. Seconds later the horses lost their footing and plunged on top of the woman and child. Tugging frantically Mr. Girdwood pulled them free.

Bridge Weakened

Although rescued shaken, recent flood conditions were believed to have weakened the bridge timbers with the constant pounding of ice against them.

Exhausted by the shock of their chilly bath, mother and daughter had to be carried to their home. Three hours later, after freeing his team of horses, Mr. Girdwood went home to strip off frozen clothing.

Wife's Story

"My husband had taken me to the church meeting that afternoon," Mrs. Girdwood related. "Nothing seemed wrong with the bridge then. On the way back, no sooner had the horses put their feet on the bridge than there was a loud crash. It all happened in a moment. Elsie still doesn't know just what occurred. I did on the spot, and my head went under water. First thing I knew Mr. Girdwood was trying to help me up. I was tangled in the harness and I didn't see how he could ever get me free.

"I could see that he'd got Elsie to the bank. I couldn't do anything to help myself, so my husband grabbed hold of my arm and yanked for dear life," she said.

FIVE ARE KILLED IN HURRICANE

Millions of Dollars Loss Reported in North California

San Francisco, Feb. 10—(CP)—A hurricane of stout Northern California, killed five persons, injured scores of others and caused property damage estimated today at millions of dollars.

The storm struck at several places along a 300-mile front reached almost unbearable proportions, gusts as a shrieking climax to 14 days of storm. It left in its wake broken communication systems, blocked highways and railroads, and a memory of disaster that will be unprecedicted for today.

Forecasters rumored from San Luis Obispo, midway between San Francisco and Los Angeles, to the Oregon State line. The storm center raised up mountainous waves that pounded the coast line. It tore through cities and towns and rampaged inland for miles, causing damage even in inland valleys of the Sierra Nevada.

Three men and a woman were killed by falling trees or buildings, and a coast steamer was driven aground when his boat overturned.

The hurricane, which centred for a time over the Farallon Islands outside of the Golden Gate, blew with a velocity of 70 miles an hour at the Gate. The wind twisted the 200,000,000 Golden Gate bridge, longest single suspension span in the world, more than 12 feet out of line but the bridge swung back into place after the wind subsided. The bridge is built to swap 18 feet.

Pry into Underworld Rackets In Search of Slaying Motive

Gangsters Invade Shop Disguised as Hunters

GUARD POSTED

Chicago, Feb. 10—(AP)—Investigators pried into underworld rackets today in search of a motive for the slaying of one and wounding of two others by three smiling gunmen.

Rivalry between racketeers in illicit alcohol and gambling enterprises offered the only immediate explanation for the shootings.

The three killers, disguised as hunters, entered a bakery in suburban Chicago Heights yesterday, "Hello Sam," said one of them to Sam Costello.

As Costello extended his hand in greeting the gunmen opened fire. He fell mortally wounded with nine slugs in the abdomen. He was wearing one of the diamond belt buckles given by Al Capone to his close friends during the turbulent prohibition era.

The 42-year-old victim's brother, Nick, 32, and two companions, Joseph Di Giovanni and Frank Bagsli, 41, were wounded. They told Sheriff Swanson Lutz Conforte, 33, returned the fire as killers fled.

Costello and Chris Giordono, 45, were taken into custody for questioning. At the same time State's Attorney Thomas J. Courtney revealed there as guards for the wounded grim visaged men who had gathered there as guards for the wounded.

Lieut. Thomas Kelly said the 18 apparently feared another attack by the gang. He replaced them with a police guard.

Creates Uproar In British House

London, Feb. 10 (AP)—William Gallacher, only Communist member of parliament, created an uproar in the House of Commons today by calling Marshal Hermann Goering of Germany a butcher "soaked in blood".

Members of the opposition were bitingly asking Sir Samuel Hoare, Home Secretary, if Marshal Goering should not be invited to London to see air raid precautions here in return for the recent inspection of Berlin's anti-aircraft preparations by Geoffrey Lloyd, parliamentary under-secretary to the Home Office.

Sir Samuel replied: "That must be a matter for individual opinion."

Mr. Gallacher asked: "Is the home secretary aware that Goering is soaked in blood and is a butcher?"

Amid shouts, the speaker intervened. Sir Samuel did not reply.

HITLER RENEWING TASK TO NAZIFY THE GERMAN ARMY

Ambitious Ex - Corporal Started Same Thing 19 Years Ago

3 GENERALS RESIGN

New Order May Eliminate Chaplains From The Army

Associated Press Foreign Staff Writer

Berlin, Feb. 10—(AP)—Adolf Hitler, the ambitious ex-corporal who 19 years ago started out to Nazify the German army is renewing the task.

Some have posed the question whether he can do it this time. Nineteen years ago Hitler was mere party leader trying to win adherents within the army.

Today time he is head of the state with direct control of all its armed forces, and it would be a nearly hearted General, indeed, who defied him openly.

Nevertheless, diplomatic quarters heard reports yesterday that three generals had tendered their resignations in protest. The reports raised the questions whether Hitler is encountering opposition in Generals, whether there were many such discontented officers within the army, and what would result.

Opinions differed. Some veterans observed, but few saw any likelihood that Hitler would back down on his National Socialist views. With the last week's army and cabinet shakeup.

Hitler's past record is interesting in this connection, when in November, 1923, he tried to seize power dramatically at Munich, he fondly believed that German officialdom would not fire on his brownshirt patriots. They did fire. Sixteen Nazis died

JUSTICE MINISTER REFUSES TO REMIT SENTENCES PASSED

Edmonton, Feb. 10—(CP)— Possible further appeal to Dominion government authorities for remission of sentences facing G. F. Powell and E. H. Unwin will go, Premier Aberhart of the Alberta cabinet meets here today.

Premier Aberhart announced last night the executive council would not grant remission on the refusal of Justice Minister Lapointe to remit sentences imposed on the "Big British Social Credit technician, Mr. Powell, and the Social Credit member of Alberta legislature Mr. Unwin, Edson, Mr. Unwin.

Mr. Aberhart said in a statement last night that "any sentence which does not exceed the greatest term of imprisonment by a large number of citizens cannot be in the interests of maintaining peace and good government."

Still at Liberty

Meanwhile Mr. Powell and Mr. Unwin, discharged by Mr. Justice W. C. Ives in Alberta Supreme Court on six and seven charges of respectively following conviction on charges of publishing defamatory libel against bankers, are free, were still at liberty, but unavailable for comment today as they had not attended to surrender to authorities.

Mr. Justice Ives said he, who handled the private prosecution in the two men, asserted last night it would be his responsibility if he attended to take "whatever action is appropriate and necessary, acting in my capacity as counsel for the private prosecutor."

Speed Factor in Warfare No Time for Preparing

Concern Felt For Britain's Food Supply in Event of War —Food Storage Essential Says Daily Herald

London, Feb. 10—(CP-Havas) — Concern over the United Kingdom's food supply in case of war was expressed by the press today.

Sir Thomas Inskip, Minister for Defence Coordination, was criticized for not making a more complete statement last night in opposing a labor resolution calling for the building of food storage facilities in districts safe from air attacks. Another brief debate the resolution was rejected by the House of Commons, 166 to 126.

Only two London newspapers, The Times (independent) and The Daily Telegraph (Conservative), applauded the views of Sir Thomas.

"Speed will be a deciding factor in any future conflict," said The Daily Mail (Independent), "There will be no time to prepare or even to gather in the harvest. Rocks and herds might be contaminated or destroyed by attacks far inland. In the event of such a catastrophe food must be stored and ready for distribution would be the country's only salvation."

"The country wants to be told," said The News Chronicle (Liberal), "not that food storage is a complicated matter, but what is being done about it."

"Food storage is an indispensable form of national and civilian defence," said The Daily Herald (Labor), "and is also an unaggressive form of defence which would commend it to all those who rightly are suspicious that they cannot avoid refrain from measures that are unnecessarily provocative."

Revamping of Tax Laws Suggested by Ontario Mayors

Mayor Bone Attends Special Conference at Ottawa With Hon. N. Rogers

ACTION IS PROMISED

Existing methods of taxation in Ontario and the Dominion, which in the opinion of the majority of heads of municipalities of the province, are the highest in the world, were subject to a thorough revision, if recommendations of protests methods of taxation, Hon. N. Rogers, Minister of Welfare for the Province. The reference for the meeting was to provide against any contemplated further increase in the taxation powers now provided by the Dominion, and to give us a chance to air our views regarding taxation methods.

The press was excluded from the meeting, but I took some notes during it.

"The Hon. Mr. Cross who took an active part in the conference, and the Hon. Mr. Rogers that the municipalities of Ontario must be relieved from the present crushing load of taxation. Toronto services given by the province for which they have been neglected by reason of the demands for money from Ottawa for relief purposes, he also told the conference.

"Mayor Morrison of Hamilton declared that many of the municipalities of Ontario were on the verge of bankruptcy through the demands for relief. The only real tax transfers in Hamilton during the past five years have been forfeitures; property there is of no value, as elsewhere where the same condition is noted. At a tax sale recently $180,000 worth of property realized the sum of only $600. Property owners would gladly abandon properties except for the encumberant of mortgage, he further told.

"Numerous other Mayors, including myself, spoke on the present high taxation and the necessity for overhauling these methods of collecting," reported Mayor Bone. "All are agreed that the cost of education—particularly that of secondary education—is one of the factors contributing to the non-prosperity of the country. Except for this, millions in building in Canada could be started right away. Then there would be no need for money for relief. The question of what is the best method to relieve this distress directly against the property owner.

"Further progress is impossible until this is changed, we told the Hon. Norman Rogers."

Mayor Walrous of Brantford told the conference that the lack of leadership on the part of our legislators had numbed the spirit of the Canadian people into a general apathy.

Mr. Rogers admitted that the present methods of taxation were outmoded and promised us that the matter would receive the sincere attention of himself and Cabinet," reported Mayor Bone.

ORDER JAPANESE BACK TO SHIPS

Britain Protests Their Landing at Summer Base of Fleet

Shanghai, Feb. 10 (CP-Havas)—Japanese army and marine detachments were landed at Weihaiwei, summer base for Great Britain's China fleet, but were ordered back to their ships when their action drew an energetic British protest, official British sources revealed today.

The British authorities in the borderless Shantung province protest demanded that the Japanese give assurances against a repetition of such operations. Two Japanese cruisers now are in the northern Chinese port, along with the British cruiser Suffolk and the British patrol sloop Sandwich. H.M.S. Cape Town is due to arrive at Weihaiwei shortly from Hong Kong.

THREE TOWNSHIPS APPEAL FOR AID

Chatham, Ont., Feb. 10—(CP)—Women and children of the 14 families marooned on the Dover side of the Thames River were to be evacuated today as a safety measure in the fight against the flood cascaded by an ice jam blocking the river's

NEW COMPANY STARTS WORK

Local Men Take Over Building of Carthage Machine Company

NEW EQUIPMENT

Will Manufacture Paper Making Machinery of Different Type

Idle for the past seven years or more, the old Carthage Machine Company plant at the foot of Mary street on the north-east side of the city, has again been opened for production by the newly formed "Carthage Machine Company of Canada" composed of W. C. Springer, H. W. Ackerman and F. S. Wilson, former president and general manager of the old company.

The newly remodelled plant has been equipped for the manufacture of paper-making machinery including machinery for pulping and grinding and chipping, as well as smaller parts.

General manager of the new company is Mr. W. C. Springer, well known for his past industrial activities in this city.

Though only a small force of workers is at present employed, it is the intention of the company to add to the list of employees as business expands. Considerable orders for machinery are on hand from eastern firms and an optimistic outlook for the future is held by the executives of the new company.

RESCUE SHIP WITHIN 130 MILES OF FLOE

Moscow, Feb. 10—(AP)—The Soviet icebreaker Taimyr reported by day she was within airplane scouting distance of the four Russian scientists adrift on an ice floe off the east coast of Greenland.

The craft was the nearest of four rescue ships racing to take off the explorers. Her position last night was given as about 130 miles from the drifting floe.

Admiral Shaleurof, commander of the northern fleet of the Red navy, said the three ships aboard the Taimyr could now begin searching for a base from which to conduct their observations.

Wireless communication was re-established with the ice party last night after a 36-hour interruption by magnetic storms.

As Passports are Forgotten Secret Flight Rumor Spread

Ex-Crown Prince Wilhelm Has Only Valet To Blame

HOLIDAY IN TYROL

Berlin, Feb. 10—(AP)—A comic opera explanation for excited reports in French and Austrian newspapers today that former Crown Prince Wilhelm had secretly fled Germany without passports was the absent-mindedness of his valet.

He just forgot the passports.

The credentials were found to be missing when Wilhelm and his relatives reached the Swiss border. Reports spread that he was on a secret flight from Nazi Germany. Actually he was on his way to Lazy Holiday sports in the south Tyrol.

UNIONIST GOV'T IN NORTH IRELAND PILES UP LEAD

Viscount Craigavon's Party Likely to be Returned to Power

2 LEADERS GO DOWN

Franco's Insurrection Plays Part in Defeat of One

By GEORGE HAMILTON
Canadian Press Staff Writer

Belfast, Feb. 10—(CP-Cable)—Viscount Craigavon's Unionist government piled up a comfortable lead today as ballots in Northern Ireland's general election were counted. Early in the afternoon the government had elected 22 members, five short of a majority.

Two Labor party leaders were toppled—William J. Stewart, who led the revolt within Lord Craigavon's own party and formed the Progressive Unionist group, and Harry Midgley, Labor leader.

At 2 p.m. (9 a.m. EST) the party standing was:

Unionists government	22
Nationalists	2
Labor	2
To come	31

Unionists of the south met yet declared Unionist candidates were leading heavily. Unionist candidates so far elected all had increased majorities.

Party Leader Defeated

Mr. Stewart was defeated in the Cromac division of the Belfast, losing to J. Maynard Sinclair, Unionist, by 2,533 votes. In 1929, the last contested election in Cromac, the Unionist majority over an Independent candidate was 2,634. In 1933 the Unionists were unopposed.

The Progressive Unionist leader, who represents South Belfast in the parliament of Westminster but has never sat at Stormont, fought Lord Craigavon's own party, arguing that while unemployment was increasing the government had failed to secure for Northern Ireland

HOOP NETS BARRED IN TWO LAKES

Game Inspector McCabe Gives Ruling Of Department

"The use of hoop nets and commercial set hooks in both East and West Lakes were discontinued by act of the Ontario Department of Game and Fisheries commencing on January first, 1938, and will be enforced as such. Even when that department would receive the sincere attention of himself and Cabinet," reported Mayor Bone.

"The use of hoop nets and commercial set hooks in both East and West Lakes were discontinued by act of the Ontario Department of Game and Fisheries commencing on January first, 1938, and will be enforced as such. Even when that department would receive the sincere attention of himself and Cabinet," reported Mayor Bone.

Mr. Rogers admitted that the present methods of taxation were outmoded and promised us that the matter would receive the sincere attention of himself and Cabinet," reported Mayor Bone.

Beaches Committee Seeks Donations For Winter Work

"Some donations would come in very handy at this time for helping to keep the Beaches Skating Rink," said Mr. Reg. Moncrieff today. He pointed out that the work had been proceeding all winter with women quarters of stone nearly for the skaters and the water front to be covered by the beaches.

"We have applied for dynamite and so forth. Such aid will be appreciated by the committee," Mr. Moncrieff, president of the Belleville Beaches Association stated.

Coming Events

FRIDAY NIGHT, FEB. 11, THERE one act plays by Napanee and R.C.I. in Drama Festival, Collegiate auditorium at 8:15. Tickets 25c. Mrs. Reed, Kingston, Adjudicator. f10-11

HOLY NAME SOCIETY DANCE, Holy Name Hall, Pevensey, Friday, Feb. 11, 9.30 to 1. Dan Fahman's orchestra. Two door prizes. Tickets 35 cents. f10-11

Why the Weather?

By Major A. H. Thiessen
Science Service Meteorologist

Some time ago Everyone knows that the tops of high mountains are perpetually covered with snow, while the valleys are free of snow in the milder part of the year. There is also, in the part way down, where snow lies all the year round. That is the snow line. The altitude of perpetual snow varies with the latitude. At the polar regions the snow line is at the sea level, in the middle latitudes at 10,000 to 9,000 feet, and at the equator at 15,000 feet. It stands higher or lower according to exposure (whether north or south), to the summer temperature, amount of snowfall, prevailing winds, and steepness of the slope.

THE WEATHER

Toronto, Feb. 10—(CP)—Synopsis—A disturbance which was centred near Lake Michigan yesterday has moved northeastward to Georgian Bay and is causing snow in the Lake Superior district and in Alberta southeastward to the St. Lawrence Valley. There has also fallen in the northern districts of Saskatchewan and Alberta and rain or snow has occurred in the Maritime Provinces.

Lake Superior—Fair and cold. Friday easterly winds, partly cloudy and cold; probably snowflurries over west portion.

Manitoba—East to southeast winds; cloudy today and Friday with some light snow and a lowering temperature.

Saskatchewan and Alberta—Stationary or somewhat higher temperature.

FAMILIES MAROONED; HEAVY PROPERTY LOSS BY FLOODS

Marooned families, flooded land, and injured livestock have been left in the wake of the raging Thames river which has crowned its banks and overflowed a great many people have been forced to flee in boats from second storey windows of their homes.

Heavy Volume of Water Is Still Driving Against Jam Near Upper Bridge

Flood Water in Basements Lowered During Night

ICE JAM FREEZES

Temporary Heating Plants in Use in Several Stores

Sharply lowering temperatures that swept with fury in the wake of cold winds from the north, last night, supplied an unexpected check to the rising water of the Moira River that pounded late yesterday afternoon and evening against the ice-choked lower stretches of the river.

Flood waters inundating property in the west of the town bank buildings were coated with ice this morning while the ice jam, that definitely chokes the river from the Canadian Pacific Bridge to a point some distance south of the Upper Bridge was cemented into one mass by the freezing temperatures of the early morning.

A fairly heavy volume of water, however, is still pouring from the upper part of the river and driving against the northern part of the jam at the Upper Bridge. Swiftly moving currents are visible in spots through the ice field, while the channels formed by the water near the washed banks of the river at the lower end are free from ice. Pedestrian traffic across the footbridge was maintained today.

A slight lowering of flood water in the cellars and basements of west side buildings was noticeable this morning, but the lowering procedure however brought added discomfort to employees of these buildings as it made heating plants are temporarily out of order. Occupants of apartments in these buildings are also put to some inconvenience through the lack of heat and baths and toilets have also been established in the various places of residence on the same floor of the buildings.

In the J. B. Boyce Garage, over two feet of water lies in the flooded basement. On the second floor employees are working in a storey-heated atmosphere.

Officials of the Canadian Department Stores this morning erected a temporary heating plant in the Bridge Street Store, in order to supply warmth in pipes that have been affected by flooding. Water in the basement of the building shows little sign of abatement.

City and District News

ADVANCE AGENTS OF SPRING ARE SEEN

Spring, the fickle jade, is favoring Prince Edward County with her advance agents in no measly manner, if reports from the county capital are true. The silver day parades, "in the full bloom of health and vigor" were reported to be passing themselves up in Picton for the past few days and three frogs were seen disporting themselves in front of the Canadian Bank of Commerce on Picton Main St., while furry pussy willows are a common sight in the village of Milford.

HOW ENTRANCE GAINED IS STILL A MYSTERY

Provincial and county police were called to the home of a Prince Edward County farmer late yesterday afternoon where a crime was reported to have been stolen. Upon the arrival of the authorities, however, the animal was found quite amused —it had gained entrance to the granary and was very much employed in a luscious feed of grain. How the bovine gained entrance to the granary is still a mystery, but the farmer found his cow and was quite satisfied that he had saved the animus a quantity of grain. "I thought ate was gone for sure," remarked the relieved farmer after the animal was recovered.

CAMPBELLFORD BOY BREAKS ARM SKATING

Thrown heavily to the icy road in front of his home on Monday, while caught in a piece of wire as he was playing hockey, Douglas Lacy, 14 of Campbellford, broke his left arm in two places. He was taken at once to the Belleville General Hospital for X-ray and treatment.

SCHOOL DRAMATIC FESTIVAL IDEA SPREADS

Belleville Collegiate Institute drama society is sponsoring a Secondary School Drama Festival for two years ago, and continuing it with splendid success are probably responsible for the beginning of a similar movement in other parts of Ontario. Adjudicators who have visited the city on the occasion have entered in the annual contests have carried back with them words of hearty enthusiasm for stimulating and fostering school festivals and this year will see the development of such events in various centres. Still continuing their plan the committee in charge of the event in Belleville are holding another festival this year, have secured Mrs. G. B. Reed of Kingston, noted director and critic as adjudicator, for Friday night's program.

SHIFTED 'CUT' TO JOIN NATURAL CHANNEL

Men engaged with power saws cutting channels in the ice at the mouth of the Moira river this morning shifted their "cut" to lead to the natural opened channel on the west side of the river where it is hoped to join. Considerable relief from the current congestion was noted by the department of public works today. More open channels have formed in the river and a more natural flow is noted. A considerable drop in the level of the water has also been reported, it was reported, averaging about one foot fall this morning.

PROSPECTOR CLAIMS DIVINING ROD WILL DETECT GOLD TREASURE

Claiming to have perfected a mineral divining rod which he says will detect the presence of gold and silver, William C. Sgro, Marmora prospector has stated that he has been offered money by a Newfoundland sea captain's family to try and locate a treasure believed to have been buried somewhere on an island, according to the statement of Mr. Sgro. The sea captain before he died several years ago buried the treasure. Spry expects to start on the hunt this spring.

"I can be within 100 feet of a mineralized zone and know whether it contains gold or silver," declares Spry.

REORGANIZATION MEETING NEXT WEEK

Replying to the enquiries of a number of interested citizens regarding the reorganization of the Belleville Ratepayers' and Property Owners' Association, it was stated by Mayor Mikel Masden today that the first organization meeting would be held probably next week. "I've been too busy with out-of-town conventions this week and the week before to do anything about it," stated the mayor.

SUGGESTS USING SALT TO CUT ICE CHANNELS

A novel method of melting the ice at the mouth of the Moira to allow the swollen currents easy exit to the bay is advanced by a well-known resident of the city.

"Let the city buy about a ton of rock salt, sprinkle this on the ice and let the sun do the rest. The salt will cut channels just about three times as fast as the saws now being used."

INJURIES SUSTAINED JUMPING FROM CABOOSE

Slipping on the icy ground while dismounting from the caboose of a freight train, National Railway freight train standing in the Brockville yard, H. M. (Dolly) Gray, 284 Foster Ave, sustained both heels and other possible fractured ribs yesterday afternoon.

Mr. Gray returned to his home in Belleville and this morning was taken to the Belleville General Hospital where he underwent an X-ray examination to ascertain the extent of his injuries. Dr. E. G. Kennedy is the attending physician.

COUNCIL HONORS VETERAN MEMBER

T. R. Reed of Kincardine "Caned" Before Departure to Belleville

In the departure of Mr. T. R. Reed from Kincardine to Belleville, where he will in future reside with his son, Dr. C. O. J. Reed, Queen Street, The Kincardine News pays tribute to and regrets the loss of one of its veteran councillors and residents. In its article of February 3rd the News makes the following comments:

"Twenty-two years of faithful service as a member of the town council was not forgotten by Kincardine residents when ex-councillors, present and past, gathered in the town council chambers to do honor to T. R. Reed, veteran municipal legislator, on the eve of his departure to Belleville where he will reside with his son, Dr. O. J. Reed.

"Mayor Hall presided over the thirteen mayors under whom Mr. Reed served, presided over the gathering during which those present expressed their wishes for Mr. Reed's future health and success and at his departure from the community by which he has resided for the past thirty-four years as well as giving visible proof of the high esteem in which he was held by his council member, and his unfailing interest in community activities.

"J. G. Hinchley, mayor on the whose council Mr. Reed sat, made the presentation to the guest of honor some cane. The occasion was a surprise to Mr. Reed and he expressed his heartfelt appreciation of the honor bestowed on him, recalling lightly the years he had given and him to serve as a member of council in the town.

"Mr. Reed had the distinction of serving on the council for more than a score of years and under thirteen mayors. In that time he served on all the important council committees and had a keen grasp of municipal affairs unequalled in the community. A native of Greenwich, Mr. Reed resided in several communities before making Kincardine his home. He resided for a time in Bruce township, then went to Chesley where he resided for twelve years. From there he went to Moosejaw, Northern Manitoba, and came to Kincardine thirty-four years ago, where he has since resided".

ENCYCLICAL OF POPE LEO XIII IS SUBJECT OF TALK

Rt. Rev. Monsignor Nichol son Addresses Joint Meeting of Councils

MANY ATTEND

On Tuesday evening a joint meeting of Belleville and Trenton Councils, Knights of Columbus, was held in the local Council Chambers. The main part of the program was devoted to further study of the famous encyclical of Pope Leo XIII on the condition of labor.

Monsignor Nicholson continued the series of explanations connected to this topic. He stated that Pope Leo, in this noteworthy encyclical traced the beginnings of the great social conflict, which then was fast developing and outlined the factors which had combined to imperil the world and divide it into two hostile camps each steadily gathering strength for the struggle.

To restore peace and order, and establish them lastingly on a firm basis of justice and Christian charity and to bring man back to his truest good, the love of his Creator was the supreme purpose of his message.

Gives Leading Factors

But it was necessary, first of all to outline the leading characteristics and make plain the leading factors that entered into it.

"The elements of a conflict are unmistakable". With profound historic knowledge and profound wisdom he then set forth the nature of these elements; "the growth of industry and its corollaries, the discoveries of science; the changed relations of masters and servants, the enormous wealth of individuals and the poverty of the masses; the increased self confidence and the closer mutual combination of the working people; and finally as the general moral deterioration".

Analyzing the first element of conflict—the growth of industry the speaker said that Pope Leo had in mind the long and disastrous period of exploitation connected with the initial growth of modern industry more than a century before the writing of the encyclical. He did not wish to blame industry or strive to hamper its proper development but only to point out that the application of right moral principles must rule, pace with its progress.

When Capitalism Came

Modern capitalism came into being with the industrial revolution in the last third of the eighteenth century. The invention of steam power and its introduction into the textile industry marked the beginning of the factory system. With this the ownership of the means of production definitely passed out of the hands of labor into those of capital.

The industrial revolution did not come overnight but was attained in by concisely that development of industry with the invention machines and which took place largely under the most deplorable and pitiful conditions of human exploitation.

Two things were necessary before the factory system and with it the industrial revolution and modern capitalization would begin. The first of these was labor. Money in immeasurably greater quantities than had ever been known before. The industries of the Middle Ages. The second was a large indigent city population, deprived of their means of livelihood upon the land and merely waiting to be employed by the new industrial life growing up around them. Money for the new Industrialism was promptly secured at this earliest period by the military expeditions and accumulations of far-off countries. But more profitable were the inexhaustible resources of force and slave labor of native populations. A lucrative slave trade added still richer profits of this new "growth of industry", with this the factory system began. The profit motive was accepted as the supreme purpose of industry and money as the position to the principles of medicine. all economics which centered wholly on the common good as paramount. This was the doctrine of Christianity.

Deprived of Holdings

The profit motive stimulated abroad soon also developed at home. The servers as well proletarianized countless small farmers of their holdings and drove them into the cities creating a body of workers ready to be absorbed in the new industrialism and ripe for exploitation. At the same period the final breaking down of international barriers threw open the world markets to the new industry thus increasing the profits and consequently the power of the new capitalists.

Other speakers were Grand Knight Mosher, Lecturer J. McVeigh of Belleville Council, Grand Knight McGaughey and J. McMabb of Trenton and A. B. Collins, Belleville.

WOULD ABOLISH APPEALS

Ottawa Feb. 10 (CP)—Abolition of Appeals to the Imperial Privy Council is proposed in a bill which Hon. C. H. Cahan (Cons. Montreal St. Lawrence-St. George) will introduce into the House of Commons this session. Notice of Mr. Cahan's intention appears on today's House of Commons votes and proceedings.

If approved by the Canadian Parliament the measure would do away with the right of the Privy Council to hear appeals on constitutional or civil matters. The right of appeal in criminal cases was abolished some years ago.

BELLEVILLE FIRM TAKES OVER P. E. AGENCY

Trudeau Motor Sales Appointed Ford Agents For Prince Edward — Purchase Filling Station at Bloomfield.

An interesting story of commercial success, of steady progress and expansion, is revealed in the history of a well-known Belleville business which has extended its activities to Prince Edward County, after having practically established itself County with a complete service in its line. Reference is made to the Trudeau Motor Sales, of which Mr. J. J. Trudeau is the master mind. This firm has taken over the agency for Ford Motor cars for Prince Edward County, including Picton, and established headquarters at Bloomfield, having purchased the service station located at the junction of Highways 14 and 33, formerly operated by McMullen and Reynolds, where Ford sales and service will be conducted in the future. Modern service equipment so that complete service will be available at all times.

Trudeau Motor Sales headquarters in Belleville are the most modern equipment possible for sales and service, the mechanical department being fully up to date as are all other departments. Branches of this company in Tweed and Shirley are also well equipped for Ford service purposes.

New For Spring!

Cinnamon brown is the color highlight for Spring 1938, according to recent visitors to Toronto. Shoe manufacturers this toss practically exclusively and suits, frocks, accessories and millinery, reflecting authentic Paris trends, are shown in this shade in most collections.

Obituary

LATE ADAM E. CORRIGALL (Gladco)

The funeral of the late Adam Henry Corrigall of Madoc, was held from the family home in that village yesterday afternoon. Many came from Belleville and other distant points to pay solemn tribute to the memory of one who had been so greatly respected and esteemed in life.

A brief service was held at the home by Rev. Ivan E. Bell, Madoc and also by the brethren of Madoc Lodge, No. 48, A.F. & A.M., under the leadership of Bro. Wor. Bro. George West.

The funeral cortege then formed and proceeded to Trinity United Church where public service was held. The chief text the congregation in the singing of the hymns, "For all the Saints who from their Labors Rest", and "When the Day of Toil is Done". Richard Wellman assisted in the responses, the solo "There shall be no Night There".

Rev. Mr. Kennedy chose for the subject of a brief discourse the words of Jesus spoken to Mary and Martha, as recorded in the Gospel of St. John: "I am the resurrection and the life: he that believeth in me, though he were dead, yet shall he live." And whosoever liveth and believeth in me shall never die". From this incident text the speaker delivered a message filled with comfort and hope for those who mourned. He also referred feelingly to the exemplary life and fine Christian character of the dead departed. He was of a cheerful disposition, and even during his last illness maintained that equanimity of outlook that had been his manifestation through life. He was a worthy and honorable citizen, true to his principles, and a consistent Christian faith, and a man against whom no one could speak a disparaging word.

Interment took place at Stirling Cemetery. Here a large delegation from Stirling Lodge joined those from Madoc Lodge in the Masonic committal service conducted by Bd. Wor. Bro. West.

Mr. Corrigall leaves from Madoc Lodge of which deceased was a life member. They were Bros. Fred Garry, W. E. Conner, Arnold Geebel, Percy Gunn, Geo. Wright and W. H. Meadows.

The late Adam Henry Corrigall was a native of the Township of Huntingdon, where he lived all the family home in the Third Concession. His father, John Asher was John Corrigall, a native of Yorkshire, England, who came to Canada, when a young man to establish a home as a pioneer settler in the County of Hastings. John Corrigall married Catherine Asher and they reared a family of four sons and two daughters, all of whom are now deceased. John Corrigall was an earnest Methodist leader in the community, a man of birth, integrity and sterling character. His son, Adam, purchased a farm in the same neighborhood and carried on most successful agricultural operations until he retired to his present residence in Madoc in 1901. Later he made his home for a time in Ludington, Michigan and also resided for a number of years at Stirling. In 1923 he returned to Madoc and there continued to be his home up to the time of his demise. Just prior to Christmas he suffered an accident at his home which resulted in a fractured leg — from the effects of not recover.

He is survived by his wife, who was Miss Louise Ashley of West Huntingdon, prior to her marriage. She is also survived by one son Berton Howard Corrigall, who conducts a merchantile business at Dodo land, Sask. An only daughter, Gladys, passed away in the Tara family was resident at Stirling, about eighteen years ago. There are seven surviving grand children, one niece, Mrs. Robert M. Clare of Roslin.

During the period Mr. Corrigall was engaged in agricultural operations he earned the reputation of being one of the most successful farmers and dairymen in southern Huntingdon. He was zealous in his support of the various branches of church work from the Sabbath school denomination and later with the United Church.

A multitude of friends and acquaintances will learn with regret of this estimable friend and neighbor, this worthy citizen and consistent Christian gentleman has departed from this life.

THE LATE MRS. JESSIE C. MOUCK

The funeral of Mrs. Jessie C. Mouck was held from her late residence, Avondale, Tuesday afternoon. The service, of which there was a large attendance, was conducted by Rev. Dr. James Semple of Bridge Street United Church. Interment was made in Belleville cemetery, the bearers were, W. S. Clarke, Stanley Parliament, Dalton Parliament, Harry Hill, Alfred Symons and Isaac Sills.

GEORGE DUFF (Avondale)

George Duff, the late residences at Avondale in the first concession of Sidney, passed away yesterday at the Belleville General Hospital on Wednesday, Feb. 9th. He had been ill since last December.

The late George Duff, who was in his 69th year, was born in Marmora Township. For some years he resided in Belleville and for the past three years he had made his home at Avondale. He was a master mechanic and for late years had been engaged in construction work at Marmora and Parks. Out. He was a man of fine character and possessed of friendly disposition. All who knew him he was held in high regard and many friends will regret to hear of his death.

In religion Mr. Duff was a member of St. Wigs Street United Church and fraternally he was a member of Eureka Lodge No. 283 A.F. and A.M. and of Moira Chapter No. 7.

Surviving to mourn his loss are his widow, who prior to her marriage was Miss Sarah Poe, and one daughter, Mrs. Franklin Bennett, Point Anne.

The funeral announcement is made elsewhere in this paper.

LATE MISS AUGUSTA GRAHAM

The funeral of Miss Augusta Graham, who passed away in New Toronto on Sunday, took place today at her residence of her sister-in-law, Mrs. Levi Graham, 173 Albert street, Belleville, on Wednesday afternoon, Feb. 9.

The service in the home and at the graveside in Belleville Cemetery was conducted by the Rev. O. C. Wrigh, Rector of Christ Church.

The bearers were Messrs. James Bird, Rodgers, A. Bates, N. Schryver, J. W. Hall and W. Bates.

BELLEVILLE BOYS SUCCEED ABROAD

Mr. Fred S. Deacon Tells Masons of Natives Who Make Good

"Educational Week" was an occasion for an address on successful Belleville men by Mr. Fred S. Deacon at the monthly meeting of Eureka Lodge, No. 283, A. F. and A. M. last evening. In the line of the meagre educational advantages open to the local youth of former years it was strikingly achieved success in their chosen field of endeavour, by many of the prominent positions of great prominence in the commercial world.

Mr. Deacon referred to such men as Edward W. Lloyd, vice-president of The Commonwealth-Edison Co., Chicago; James Barrett, of the International Pump Co.; William Barrett of the Studebaker Corporation; Arthur S. Hodge, architect, and his brother, George C. Hollon, corporation lawyer; Harry Hunter, lawyer and first secretary of the Canadian Society of New York; James Booth of Bristol-Meyers Co.; Alex. Craig of the Waldorf Astoria Hotel; Robert Palmer of the Ritz Carlton Hotel; George Dame of The Literary Digest; John Mellish of The Chase National Bank, New York; Arthur S. Hodge, of the Printing House of Parson, Leach and Co.; Robert Elliott, attorney of The Commonwealth Edison Co., Chicago; Mr. Gleason of the Gleason Machine Works, Rochester; Lieut. Carter Jeffell of the R.C. Air Force; the Bonsey brothers of New York and the World; Harry White of the New York Times; Arthur Sinclair of the New York Herald, and the Wilson brothers, of Detroit, makers of automobile bodies, and Frederick Hinton of the General Motors Corporation. All these were born in Belleville and spent their early boyhood about the neighborhood of the Masonic Temple and the upper bridge.

"Many of these men took advantage of night school education when available in their youth and with perseverance with determination overcome all obstacles and eventually succeeded in their chosen fields."

pointed out Mr. Deacon, as he further explained that all of the above mentioned men were old Belleville boys and had overcome obstacles to become famous in the chosen fields of life.

Wor. Bro. W. W. Geen occupied the chair during the entertainment period, but was assisted in the lodge work by Grand Lecturer Ivan Parker and other lodges.

The evening's music at Eureka Lodge last night was arranged by Bro. Jack Dobbs and included an instrumental quartette consisting of Bros. Reg. Hinchey, Reg. Wardle, Fred Jeffers and Mr. Dobbs, accompanist. Mr. Storr, of the Albert College, gave a delightful and interesting adress illustrated by cartoons.

REV. A. R. JARDINE ARRIVES IN U. S.

Former Vicar Who Married The Windsors to go on Preaching Tour

New York, Feb. 9.—(CP)—Rev. R. Anderson Jardine, former vicar of St. Paul's Church, Darlington, Eng., who performed the marriage ceremony for the Duke and Duchess of Windsor, arrived here today with his wife.

Chicago-bound to begin preaching tour next Sunday, Mr. Jardine said he had written his autobiography, entitled "The Vicar and was open to offers from publishers.

He said he had received recently "a casual communication" from the Windsors, and added that they are "sure to come to the United States" but not until their six months lease on a chateau at Versailles expires.

Told that Lady Astor had remarked that she thought the marriage of the Duke and Wallis Warfield Simpson was "a tragedy", Mr. Jardine laughed and replied, "I never say she was talking through her hat."

6th Sidney

6th. Sidney—Miss Jean Badger entertained twenty-five young people from the vicinity of Wallbridge to a skating party on Friday evening. The young people spent about two hours skating at the Frankford arena, then returned to Miss Badger's home and spent the remainder of the evening in games. All voted Jean an ideal hostess.

Mr. and Mrs. Carman Frost entertained a number of friends on a Friday evening.

Guests of Mr. and Mrs. G. Sine on Thursday evening were Mr. and Mrs. R. Chapman, Mr. and Mrs. Kenneth Paul, Mr. and Mrs. W. Ross, Mr. and Mrs. Carman Frost and Mr. and Mrs. Ross Dafoe.

Mr. and Mrs. George Ribley and family of Foxboro, were the week-end evening guests of Mr. and Mrs. R. W. Rose.

The W. A. and W.M.S. held their meetings on Wednesday at the home of Mrs. Allen Sine.

The members and friends of Brookdale Institute spent a social evening on Tuesday at the home of Mr. and Mrs. Carman Frost.

Mr. and Mrs. Everett Patrick of Frankford spent the week-end with their uncle and aunt, Mr. and Mrs. Gerald Sine.
